The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 11:00 a.m. on Tuesday, March 13, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl Pierson, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Secretary Gerald D. Dawkins, and Reginald Abrams, legal counsel. Ms. Trammel led the prayer and Pledge of Allegiance.

Mrs. Bell announced that the 5K Walk for Autism will be held April 7, 2012 from 9 a.m. to 12 noon starting at the Stoner Hill Boat Launch.

Superintendent Dawkins reported that he will be traveling to Baton Rouge to attend Legislative Committee meetings on Wednesday and Thursday and hopefully gain insight into what is happening in Baton Rouge relative to education. He said prior to this work session, he wished to clarify for everyone that the original plan for 2013-14 to improve facilities was contingent upon a bond which the board did not recommend bringing to the public. He further stated the schools being considered for changes that will not have changes, specifically for 2012-13, 2013-14 and beyond are as follows: Blanchard Elementary will continue as a K-5, Donnie Bickham will continue as 6-8, 81st Street and Mooretown will continue their preK programs, Vivian Elementary/Middle will continue as a K-8, North Caddo will continue as a 9-12, Oil City Elementary/Middle will continue as a K-8, and Herndon will continue as a K-8, with no construction of a new facility on the campus. He further clarified that there will not be construction of a new K-8 facility in Southeast Caddo Parish, Mooringsport will continue as a K-5 school, Timmons will continue as K-5 school and there will not be any construction of a new preK-8 facility in Western Caddo Parish. He also announced that Creswell Elementary will continue as a K-5 school, Barret will continue as a K-5 school no new construction on the campus; and Ridgewood Middle will continue as a 6-8 school. Dr. Dawkins also stated that in 2012-13 work will continue to liquidate vacant schools, abandoned buildings and unused properties, with Board approval; we will continue to use Capital Projects funds to address health and safety issues, as well as insure the energy efficiency of all facilities, continue to use QSCB funds to upgrade data, security and facilities; we will continue to work on the policy manual, and sell Building 6, relocating impacted staff.

Mr. Lee shared with the board a copy of the proposed 2012-13 budget and reported that since the last budget work session, staff has received the state MFP formula which resulted in a reduction to Caddo of approximately $3.9 million. Of this amount, $2 million was related to the local wealth factor and a little less than $1.5 million for items not previously in the MFP formula but added by the State. He said in conversation with the State, another work sheet will be coming out in the next couple of weeks, but he doesn’t see a big change in the numbers.

Mr. Lee noted that staff’s next challenge was what we need to do to cover the $3.9 million. In tweaking the proposed budget to make the necessary adjustments, Mr. Lee reported that the following items are already incorporated into the budget: i.e. targeted schools, block scheduling, Special Education. He reported that staff discussed additional cuts since the last budget session and since receiving information on the MFP formula; and at this time, has come up with additional items that will help cover the $4 million, i.e. reassessment year in 2012 in Caddo Parish, reorganization of alternative schools, additional positions shifted from General Fund to IDEA fund, reduction in out of state travel, additional reductions in transportation and maintenance operations, reduction in Central Office positions, and security reductions. If the board approves the proposed cuts, it would mean a budget surplus of approximately $200,000.
Dr. Dawkins also noted that the balanced budget proposed includes no layoffs. Mr. Lee further explained that any positions eliminated are positions that are presently vacant.

Mr. Ramsey asked the superintendent if outsourcing of various functions has been considered? Dr. Dawkins responded that staff has looked at some outsourcing; however, at this time staff believes it has the budget ability to do that. Staff is also looking at possible savings in areas of maintenance, custodial, transportation, alternative schools, etc. If desired, staff can go into further detail about its findings, but basically staff found a 15-20% savings in most budgets with outsourcing. Mr. Ramsey stated that he believes it would be worthwhile to look at some of these things, because he is convinced that the trend with the MFP and the State’s direction will continue and we cannot continue to eliminate teaching positions if there is something else that can be done to cut expenditures and save money. Mr. Ramsey also suggested and asked at the last budget session about the impact of vouchers on MFP and the need for a separate line-item on the page listing items affecting General Fund. He believes it is necessary that something be put into the budget to establish an objective toward what needs to be done to meet these things. Dr. Dawkins responded that staff will provide this line-item and hopefully will learn additional information in the coming week that will provide a clearer understanding.

Mr. Rachal asked about the $2 million reductions in alternative schools and how much was budgeted so we were able to cut $2 million. Mr. Lee said this is in high school only and is about a 25% reduction from the $8.5 million currently being spent. Dr. Dawkins added that Caddo spends approximately three times as much per child in the alternative program, and staff knows it can be done cheaper. Mr. Rachal asked staff to explain the additional cost and the mandated portion. Mr. Lee shared with the board a three-year comparison of factors having an impact on the General Fund, i.e. retirement costs. Mr. Lee explained that the amount spent for targeted schools over the three years was approximately $11.2 million which included incentives paid to staff to work at the schools, implementation of new programs, and additional M&S. Mr. Rachal asked if nothing was budgeted, how is $2 million being cut for 2012-13? Mr. Lee explained that the targeted schools are not the same as alternative schools. Mr. Rachal asked if he understands there was $8.5 million budgeted for the alternative schools and approximately $2 million is being cut. Mr. Rachal also agreed that vouchers are coming and it is not fair to the public if we do not address what is going to be reality. He also said he doesn’t know if we understand the total impact, but it is something districts will be hit with. Mr. Rachal also asked if staff believes it has looked at every area for savings that does not have a direct impact on the classroom? Dr. Dawkins responded that staff has looked at a lot of different areas, and staff continues to look.

Mrs. Crawford asked Mr. Lee what percentage of teachers actually use the M&S money allotted to them? Mr. Lee responded that it never comes up to the total amount budget, but it is in the $500,000 range. Mrs. Crawford asked if there is any money available, she would like for staff to look at putting the $200 per teacher M&S back in the budget. Relative to vouchers and scholarships, Mrs. Crawford asked if she understands correctly that the money will follow the child, so it may not mean we will have a deficit. Mr. Lee said he would like to be able to say that, but if the Governor allows students with vouchers to cross parish lines, will be a different story. He also said we could see some money if we receive students from outside Caddo Parish.

Ms. Priest stated her agreement that in looking at the $4 million in reductions, she believes it is important that we are more conservative and that everyone looks deeper so the impact is not so large that it creates a hardship. Regarding reductions already factored into the 2012-13 budget, Ms. Priest asked staff to really develop an aggressive cross-training with non-teaching positions. In the classroom, she believes it is important to develop an effective cross training and noted that other companies are doing this, as well as others in support personnel (in school buildings and Central Office). She also asked for an update on whether or not the board is receiving a true number of actual students since the dollars are following the students.
Mrs. Bell thanked Dr. Dawkins and staff for not doing a lay-off and asked the superintendent about vouchers and the need to look closely at this. She asked if the vouchers hit Caddo really hard, will there be a possible layoff? She also said she believes, based on what the Governor said regarding charter schools and private schools, that they will be relaxed on certification. Mrs. Bell asked if this should happen, will there be a layoff? Dr. Dawkins stated that it is premature to say that we will or will not, but he believes the suggestions have been good relative to placing a line item for vouchers in the budget and staff will account for that as close as possible. He added that after his trip to Baton Rouge, he hopes to be able to provide more definitive information.

Mrs. Bell stated she is concerned when security is hit, because she does not believe this area should be cut at all and asked if there is anyway security can be left alone. Superintendent Dawkins responded that one of the positions is at Central Office and the other at a very low-incident school. He also stated that staff will take this into consideration, but staff believes that judicious decisions have been made regarding these security officers.

Ms. Trammel stated there is a need for security to remain intact for Central Office, and she is also concerned about the $200 M&S for the teachers when we are already not able to give them a pay increase. She stated she feels very strong that we need to find a way to keep this in the budget. Ms. Trammel asked about the additional change of $125,000 in Central Office staff reduction, and Mr. Lee explained that staff revisited this area and determined there were some additional vacant positions that could be eliminated; and he reiterated it is not a reduction of people, but an adjustment in the budget that eliminates vacant positions.

Mr. Hooks echoed the comments relative to security and the importance of our teachers and students being safe on our campus. He also stated his support of keeping the $200 M&S money for the teachers in the budget. He also asked if staff has looked locally as to how at least a cost of living raise can be given to the employees. Mr. Hooks said if we want to attract and keep good teachers, it is important that the District reward them.

Mr. Pierson expressed appreciation to the staff for coming up with the proposed changes and doing what we can to not have any layoffs. He also echoed the sentiments for the $200 M&S for teachers. Mr. Pierson asked how Haynesville Shale is affecting the School District, i.e. royalties and amount of revenue brought in. Mr. Lee referenced in the proposed budget the details relative to leases and royalties. In comparison to DeSoto Parish that received millions in lease bonuses, Mr. Lee said the majority of our properties were already leased and those that we received royalties on total approximately $200,000. At this time, Mr. Lee also reported that Caddo still has some large properties, i.e. Carver, for which we receive royalty income. Mr. Pierson inquired about the fund in which this income is placed and Mr. Lee reported that it is placed in General Fund for Operations. Mr. Pierson said he believes we need to look at this together; and while it certainly may be in one account, maybe what is received in royalties can remain separate. He also stated his understanding that if we receive less money, the budget would need to be adjusted; however, in the meantime, he suggested that these funds be “rat-holed” for a time and determine what it does and how the District can operate without it.

Miss Green asked Mr. Lee if it is possible to look at the arts and music department budget, and Mr. Lee responded that he can make himself available to meet. Miss Green also commented about what was said relative to security; and when looking at how much money is being put into technology for security, which means she can go on Green Oaks campus and the principal is aware that someone is coming on the campus. Mr. Lee responded that one of the security positions is at Central Office and is actually a technician position and the other is at a school with low incidents on its campus.
Mr. Riall asked about an itemized description of the $350,000 savings in Transportation. Mr. Lee said staff previously looked at bus driver positions and Mr. Woolfolk added that this is looking at Edulog to look at the routes to determine if we can continue to reduce routes, which will reduce gasoline usage, as well as possible better utilization of the 250 vehicles in place by posting them in certain areas of the District rather than employees having to drive long distances to work. Mr. Riall asked if the problem of buses not picking up students or being late has been resolved? Mr. Woolfolk explained that one of the bigger issues is not having ample substitute drivers and we have expanded to two and possibly three training sessions for drivers. He said the department does have in place a benchmark of not falling below a certain number of subs at any one time; and if it appears that we are, staff will schedule another class. Mr. Riall asked staff to explain how often these classes are offered? Mr. Woolfolk responded that previously they were offered once a year; however, at the present, it is at least two times a year or as the need arises. Mr. Riall asked about the possibility of outsourcing transportation in the rural district to an independent entity and what the cost might be, and Mr. Woolfolk responded that staff can look into this possibility. Mr. Riall asked Mr. Lee if we individualize Caddo schools, will each school operate financially in the black or do they feed off others? Mr. Lee responded that this is a difficult question to answer; and yes, there are schools that have different expenses than others. However, revenue is not allocated to each school and we don’t operate some schools at a loss and others at a profit. When tax revenue comes into the district, it is received for the district as a whole and is not allocated to give certain percentages to certain schools.

Mrs. Armstrong stated that regarding security in the Central Office she knows adjustments have been made and suggested that improvements in security can be made without any additional people by having visitors sign in and the receptionist notifying that department so they can come greet them or that security can escort them to the appropriate department. She said this will eliminate people freely roaming throughout the building. Mrs. Armstrong said the employees in this building should not be fearful for lack of security. She also asked if, since returning from the Louisiana School Boards Association Conference, we have begun exploring the cost of chartering our own at-risk schools. Dr. Dawkins said staff is looking at the different types of charters, and the statute; and he and Mr. Abrams will be visiting New Orleans to get additional information on the charter piece. Mrs. Armstrong said she asks because she believes if we wait until too far into the Legislative Session that loophole will close, and she believes we should be pro-active before that door of opportunity shuts. Also, she noted that in years where the M&S piece was not in the budget, the board has reconsidered this option for the teachers, knowing how expensive it is for the teachers who want to be creative and add to their curriculum for the students. She said she hopes this $200 will continue in the budget and that possibly the budget can be reduced in another area. Mrs. Armstrong also asked about the reductions in maintenance and Mr. Lee explained that the majority of that amount includes projects submitted by Steve White for six of the highest energy schools and the biggest piece is the amount that utilities can be reduced. Mrs. Armstrong also noted that the Parish did this many years back and saved a tremendous amount of money by centralizing. Mr. Lee added that he believes the goal is to see how it works at some of our locations that are the biggest energy users and if we see the results we expect, then we could possibly see more reductions.

Larry Ramsey asked the superintendent about the high school block schedule, discussions on a possible four-day work week, and having ample technology in place to cover all the elective offerings. In looking at a $7 million reduction, he asked how this will impact the special programs, since electives will be the main classes affected and the programs are based on the elective offerings. Superintendent Dawkins responded that under this program, the block scheduling is a scheduling mechanism and it does not replace good teaching and good learning. He also explained that staff has considered all electives and what they mean to a school and the main complaint has been that teachers do not see the students every day. Under the Seven-Period Day, teachers will see students everyday and most of the programs will be maintained with maybe a few less options; and, staff has considered all this and does not believe we will lose
anything by going to the Seven-Period Day. Mr. Ramsey asked the Superintendent to ask more questions of those who are responsible for implementing the programs. Mrs. Turner explained that in comparing the AB Block, 4 x 4 Block and the Seven-Period Day, the difference in the offerings include an additional $7 million cost for the AB Block and the 4 x 4, and no additional cost for the Seven-Period Day; 93 minute blocks for the AB and 4 x 4 Blocks, and 53 minute blocks for the Seven-Period Day which will not extend the day for staff. Mrs. Turner also explained that under the AB Block students would attend eight classes, under the 4 x 4 Block, students would attend four classes, and under the Seven-Period Day, seven classes. She added that a zero hour in the morning is a time that can be utilized for Dual Enrollment courses or other courses if the students so choose; and options available will be offered through flex scheduling. Dr. Dawkins added that staff continues to discuss and work with the principals and he believes this foundation information is important. Mr. Ramsey asked if any of the formulas include the possibility of a four-day work week? Dr. Dawkins responded it does not and staff is still gathering information on the four-day work week. Kathy Gallant reported that retired superintendent from Caldwell Parish addressed a group on the four-day work week which they implemented in the 2009 school year. She added while they are a rural district, he was able to share with the group the study, steps, preparation and savings they experienced by going to a four-day week. The majority of the savings they saw were not in contracts with people, but in fuel, electricity, gas. Mr. Ramsey asked if the idea of virtual schools has been dropped, and Dr. Dawkins responded we have not and that Caddo has approximately 200 students currently enrolled in virtual schools and staff is working to get the kinks out of it before opening up this program. Mr. Ramsey also added there is legislation on the table that will remove the local school district’s ability to issue a charter to a provider.

Mr. Rachal asked about the various reserve funds in place and the amounts in each? Mr. Lee said there is approximately $20 million in reserves with $5 million being in the insurance reserve account, approximately $1 million in the technology reserve fund, approximately $15 million in the QSCB reserve, $400,000 in the Filipino account, and a few smaller reserves. Referencing Mr. Pierson’s comment about reserve funds, Mr. Rachal said he believes we have some funds put aside and with a board vote believes some of these funds can be used to offset the M&S amount. He asked if the Superintendent could look at this and the possible impact. Mr. Rachal asked about additional vacant positions that do not need to be filled? Mr. Lee referenced his report that there is approximately $125,000 at Central Office in vacant positions. Dr. Dawkins added that staff is continuing to look at those areas where vacant positions are not needed and can be eliminated. Mr. Rachal commented that possibly there could be enough in vacant positions to cover the M&S amount without any impact on the budget.

Mrs. Crawford said that HB976 is the proposed legislation addressing School Choice/Vouchers. She also asked about the reported additional M&S for the targeted schools and if this amount came from General Fund or Title I? Mr. Lee responded it was from the General Fund. Mrs. Crawford asked why Title I Funds could not be used for this? Mr. Lee responded that in talking with the Title I Director about what can be done with Title I funds, everything possible that could be funded through this fund was done. Mrs. Crawford noted the reports that the board hears every year that Building 6 and other areas go through the catalogs to spend unspent funds in that current year Title I budget. She also stated her appreciation for the information on the Seven-Period Day and asked if students will still be given the same number of Dual Enrollment opportunities as they have with the AB or 4 x 4 schedules? Mrs. Turner explained that through flex scheduling, the District can offer some Dual Enrollment opportunities and it will be based on the needs of the student.

Ms. Priest asked about the $300,000 in shifting positions to Federal funding and how many positions does this represent, and are these ongoing funds or are they funds for a period of time? Mr. Lee responded that it represents some behavior specialists (3 positions), and all Federal employees are temporary; however, since it is not coming from any specialized fund, but the
large IDEA fund we receive each year, it is hoped that we can continue to fund these positions from IDEA for at least the foreseeable future. Ms. Priest asked if, in looking at the number of departments in the Caddo System, we know how much money is spent in overtime and how overtime is managed? Mr. Lee said staff has looked at this before and can run the numbers for the board, but he believes the two largest places are with bus drivers and the extra trips, and possibly custodial/maintenance type positions.

Mrs. Bell asked if, since it is hard to find Core subject teachers, we have looked at online teaching from one school to another? Dr. Dawkins explained that some of this is taking place currently, but he believes the District needs to take more advantage of the technology from school to school in these classes. Mrs. Bell said staff is doing a great job in attempting to find additional funds; but she again encouraged staff to look at the land we own and if funds through these options might be a way that teachers can be given a Christmas bonus. Dr. Dawkins assured the board that as soon as the budget is completed, staff will be looking at ways to reward employees because he shares the same sentiments.

Ms. Trammel referenced the Governor’s statement that excellent teachers will be rewarded, and she would like to know who will be rewarding (paying) them. Mr. Lee responded that ultimately the local board; and at this time, he doesn’t know if there will be additional funds to commit to doing this beyond it coming from the MFP. Mr. Abrams said he believes the intent is to do away with the salary schedule the way it exists; and instead of the increment given just because a person is employed, it will be given on evaluations. Ms. Trammel referenced comments to outside outsourcing and asked what will happen to the employees if they are no longer employed by Caddo? Mr. Lee explained that typically some will retire if they are eligible, but companies usually hire those employees, or the majority of the employees, with some changes in possibly their benefits.

Mr. Hooks said he is baffled about the additional reduction in transportation and Mr. Woolfolk explained that we spent approximately $21 million in transportation and the $350,000 is savings as a result of better utilization of the buses and the 250 Caddo vehicles. Consolidation of bus routes is also being looked at, as well as where buses are parked. The concern that students are not being picked up is another issue and is a result of not enough subs available which staff is looking at the absentee rate and how to maintain a minimum number of subs. Mr. Hooks again stated that his main concern is students that are picked up at one school and taken to another school being late getting to the other school. He also said when high school lets out, he believes the last bus should be pulling away from the school by 3:40 and many of them are still at the school at 3:50 which he doesn’t understand. Mr. Woolfolk again assured the board that staff is making every attempt to address these issues; however, if we do not have ample subs, then when one sub completes a route, they must return to a school and do another route, and the solution is to have enough subs to cover the high absenteeism times.

Mr. Pierson clarified that most of his questions have been answered, but he supports establishing an oil and gas reserve fund so we know how much money is received from this area and a fund that can accumulate and possibly provide a means to address needs such as the M&S.

Mr. Ramsey expressed his appreciation to Superintendent Dawkins and the staff for the efforts in this process; and in listening to the discussions about raises and no layoffs, he believes we need to be focused on what needs to be done to get the budget balanced before talking about possibilities of raises and no layoffs. He said he doesn’t think we have hit bottom yet and he doesn’t want the employees anticipating a pay raise and it not happen.

Mr. Rachal commented that the cuts from the MFP from additional mandates from the State and what is being pushed through the media that what the school boards are facing is their own fault, he said everyone needs to be aware of how large the mandates are on the local district. He noted
all that is being crammed down the Legislators throats and the public is not aware of what the state is doing to education and how we are mandated and controlled from the state level. Everything being brought forward is not set in place and requested that additional budget meetings be scheduled in order to allow the necessary time to address all the issues and questions. He said he believes it is important to prepare and have something in place to be in a position to respond when the vouchers become a reality in Caddo. Mrs. Crawford stated her understanding that this will be the last proposed changes and asked if anyone has requested time away from the job where they would not be paid which is a means of saving money. Mr. Lee said staff has not discussed this yet, but if the board wishes for staff to address this suggestion, they can do so.

Ms. Priest shared her observation that she sees the board going through the budget planning process and still looking at the District through the eyes of the 80s and 90s, i.e. buses transporting students all across the district during the day, yet not looking at the technology and how the world is really evolving. She said she believes the thinking is that for a child to learn, we must have someone physically standing in the classroom. She cited the University of Phoenix classes that are held via teleconferencing and not a teacher physically standing in the classroom. Ms. Priest said it is important that the District open up and use the vast amount of technology available for the students to use. Ms. Priest encouraged better planning and to no longer operate the district in the 80s, 90s, etc.

Mrs. Bell stated her agreement with everyone’s comments and that she must always continue to be active. Ms. Bell said the public does not know what the board is feeling and she thinks everyone needs to come together and request that the news media work with us to get the word out to the public, share with the public the positive things the District is doing and that the board is attempting to do for the District and its employees, how and what things are being cut, etc.

Ms. Trammel asked that staff continue to look at other means to cut the budget and expressed her appreciation for staff’s efforts in presenting a balanced budget for the board’s consideration. While she is concerned about some of the cuts, she believes our hands are tied when it comes to addressing the needs of the employees. She said there are many schools already in technology and it is important that this program is expanded and that all teachers are using JPAMS. She shared her support of whatever the board decides to do as long as it brings the District into the next century.

Mr. Riall announced that another budget session will be scheduled after the Superintendent returns from Baton Rouge. He also announced that the teacher tenure celebration is tonight at Southwood High School at 6:30 p.m.

There being no additional business or questions, the meeting adjourned at 1:05 p.m.
March 20, 2012

The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, March 20, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Mr. Riall announced that Lillian Priest is absent today. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Ms. Trammel led the prayer and Pledge of Allegiance.

Mrs. Bell moved, seconded by Mr. Ramsey, approval of the minutes of the February 21, 2012, February 23, 2012 and March 6, 2012 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, interim director of communications, and Dr. Mary Nash-Robinson, government and community relations officer, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Dawkins presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Captain Shreve Acappella Choir. Students from the Captain Shreve Honor Guard posted the colors and the Acappella Choir sang a special rendition of the National Anthem. Mr. Mainiero announced this choir was invited by the Lt. Governor of Louisiana to sing the National Anthem at the official statehood celebration in Baton Rouge in April. Julie Mook is the Choir Director.

Kathy Rettelle, Caddo’s music supervisor, announced that March is Music in Schools Month and expressed appreciation to the board for its support of music programs in Caddo Parish.

Caddo Students of the Year. Georgia Lynn Hilburn, 5th grade student at South Highlands Elementary Magnet, was recognized as Caddo’s elementary school student of the year; Samantha Hillburn, 8th grade student at Caddo Middle Magnet, was recognized as Caddo’s middle school student of the year; and Ruth Bishop, senior at Caddo Magnet High, was recognized as Caddo’s high school student of the year.

Mooretown Elementary Robotics Team. Alonzo Adams, Taylor Adams, Shaundrya Ballard, Kristain Coleman, Ma’Kayla Coleman, Ronett York and Jordan Maidego, members of the Moortown Elementary Robotics Team were recognized for placing second overall in the elementary school competition held in Bossier City on February 25th. Teacher Karen Sanders Bean is the Moortown Robotics Team sponsor.

Keithville Robotics Team. Keithville Robotics Team members were recognized for placing 3rd place and 1st place in the Regional Autonomous Robotics Circuit 3 competition. Third place winners are Richard Rose, Matthew Campbell and Adrienne Johnston. First place winners are Robert Beccard, Nick Gongre and Stefani Martin. Theodore Armes is the sponsor and teacher for the Keithville Robotics Team.

Spirit of Community Awards Distinguished Finalist. Camille Tharpe, 8th grader at Caddo Middle Magnet, was named one of the top finalists for the 2012 Prudential Spirit of Community Awards in Louisiana.
Caddo Middle Magnet Math Team. The Caddo Middle Magnet MathCounts Team members took first place in the chapter MathCounts competition. Team members Kaan Dokmeci, 6th grade; Meghana Rao, 8th grade, Jemma Seaton, 8th grade; and Venkatesh Sivaraman, 8th grade were recognized. Jemma Seaton was recognized for 2nd place in the CountDown Round and Venkatesh Sivaraman took 1st place in the individual competition as well as 1st place in the Countdown Round. Venkatesh Sivaraman was also recognized as being the recent Spelling Bee champion.

Northwood Student Wins a National Scholarship. Taylor Mazzone, senior at Northwood High School, was recognized for being named the recipient of a $1000 scholarship in the Comcast Leaders and Achievers Scholarship Program.

Caddo Career and Technology Center Future Business Leaders of America. The following students were recognized as District I winners in the FBLA State competition: Miguel Jimenez, Accounting I; Justin Martin, Cyber Security; and Tim O’Young, Computer Problem Solving.

Fair Park High School Regional Science Fair Winners. Fair Park students who are members of the A.S.P.I.R.E. Program (After School Program for Innovation & Respect for Education) recently participated in the Fair Park High School Alumni Association-hosted Science Fair. The following students were recognized as winners at the regional level: D’Careyo Moore, Certificate of Achievement by the Office of Naval Research, Naval Science Award for his project “How Does Temperature Affect the Power of a Fuel Cell?”; Abigail Ibarra, Third Place in Region I, Biochemistry Division as well as recipient of a Certificate for Distinguished Achievement given by The American Chemical Society, for her project “Does Protein Affect the Viscosity of Yogurt?”

Green Oaks Student Signs with Grambling. Quadre Heath, senior at Green Oaks Performing Arts Academy, was recognized for signing to play with Grambling State University.

Fair Park Athletes Sign with Louisiana College. Trent Hall and Ladraveyun Lewis, students at Fair Park High School, were recognized for signing with Louisiana College.

Captain Shreve Basketball Team. The Captain Shreve basketball team was recognized for winning their first district championship since 1992. Mr. Mainiero announced that the Gators are co-district champs with Airline High with an 8-2 record.

KTBS One Class at a Time Grants. Lara Lyons, Oil City teacher, was awarded a $1,000 grant for The Greenhouse Project that will help students plant, grow and sell produce, herbs and seasonal products while learning more about the environment.

President of Louisiana Association of Principals. Dr. Joanne Hood, principal, Barret Paideia Academy, was recognized for being elected President of the Louisiana Association of Principals.

Lowe’s Toolbox for Education Grant Winners. The following schools were recognized for being awarded Lowe’s ToolBox for Education grants: A. C. Steere, Principal Kim Derrick, received $2,130 for their carpool area safety upgrades; and Summer Grove Elementary, Principal Pam Bloomer, received $5000 for use on the garden/greenhouse for their culinary program.

Caddo-Bossier Retired Teachers Association. Mr. Mainiero announced that Mayor Cedric Glover declared March 15, 2012 as Louisiana Retired Teachers Day. Members of the Caddo-Bossier Retired Teachers Association, Barbara Sneed representative; and the Caddo Retired Teachers Association, Mary GeorgiAfandis representative, were recognized. He also announced that Dr. Lonnie Dunn is the president-elect of the Louisiana Retired Teachers Association.
Newly Appointed Administrators. Dr. Mary Nash-Robinson recognized the following newly appointed administrators: Phillip Givens, director of special services; Nathanial Adams, attendance supervisor; Mark Allen, Human Resources staffing administrator; and Scott Aymond, principal, Ridgewood Middle School.

As a point of personal privilege, Board member Crawley acknowledged those parents whom she has received emails from regarding the Byrd parking situation and asked the superintendent to explain. Superintendent Dawkins reported that on October 3, 2011, he received a memo indicating the estimate for parking on the site, minus the house that is still located on the site, and that staff members will meet on Wednesday to review more effective and less costly options for improving the parking at Byrd. He said the area around the ROTC and track will be considered as a faster solution, and efforts to contact the homeowner on Kings Highway will continue.

VISITORS

Frederic Washington asked the board how it can expect boys and girls to be demonstrative in terms of character education when board members are publicly intimidating members of the community through name calling. He referenced comments by Board member Hooks at last month’s meeting that were obviously directed at him, and that he questioned himself why at his young age does he spend so much time fooling with school board meetings and keeping up with education. To him it was simple because he is a young man that has a past that can relate to many of the boys and girls in our schools today. He shared his personal records from the Caddo Parish School Board where he made mostly Ds and Fs, had a bad delinquent and conduct record with numerous suspensions; but the report for grades 9-12 was mostly As and a few Bs, perfect attendance, no discipline record, and he graduated. He also announced that in two months he will receive his Bachelor’s Degree from LSUS in education and hopefully share with students in the classroom in the fall. He stated it was his experience that any student, even the worst in the district, has the ability to defy the odds and become special. Mr. Washington noted that he has addressed the Caddo Parish School Board many times since his sophomore year (2005) and he did not use the microphone as a shield but to voice on behalf of his fellow classmates and today for the 42,000 students in the District. He added regardless of how board members may feel about his remarks, he will continue to speak on what he feels is right for the children in Caddo Parish and it will always be backed by facts and research and not opinion; and he will not be intimidated by any school board member’s negative remarks. He also stated he believes it is a sad case when board members can grandstand in attempts to make administration and the superintendent feel remorse and embarrassed, but cannot take constructive criticism about their own flaws. Mr. Washington said it is time that some of the board members in their capacity as board members representing all the children should think before they speak regardless of whether or not the media misquotes board members but the spirit of the remarks remain the same. There is a time and place for everything and taking an issue with a school board member is more appropriate during a public school board meeting and not at your house or your church.

Mike Myers, employee, shared his experience of traveling to Baton Rouge last week to attend the House and Senate Education Committees meetings regarding Jindal’s Education Reform. He addressed HB974 and SB603 (Jindal’s Education Reform) which he doesn’t believe is reform, but an attack on public education. He stated this plan takes away the profession, pride in the profession of being a teacher. Mr. Myers shared that the State Superintendent of Education said in the committee hearing that higher degrees and professional development have no bearing on an effective teacher in the classroom and he wonders where the expert is in this. He further added that the legislation takes away the power of local school boards that were given the charge by the voters in each state district to educate the children. He said it also takes away the power of the local taxpayers’ money that goes to the local schools and the State of Louisiana will ultimately control the monies collected for the purpose of local children and local schools. Mr.
Myers also referenced the “Voucher Bill” which will take public taxpayer money and give it to private and parochial schools and private corporations so it can increase their bottom line. In speaking at the Senate Education Committee, he asked them to call it what it is and it is a way of saving a buck on the backs of the children and on the backs of the state educators. He encouraged all to not be silent, but see the big picture and that change and reform for the purpose of just reform is hollow and shallow when you do not have any tested ways to change to, i.e. change for change purpose does not accomplish anything. He reminded everyone about the value added legislation passed last year that is now a work in progress which will now be linked with the tenure bill and no one can answer any specific questions about this legislation (because it is not complete), and he believes together these will destroy education.

Jackie Lansdale, president of Red River United, said it is not unusual when trying to make decisions on possible change to be asked will it do any good, and her usual answer is if you do nothing, no. She said she brings this up because there is an education agenda that has the potential of destroying public education as we know it. She stated that HB976 and SB597 if passed will use the MFP funding process to use local tax dollars for private and religious schools, virtual schools, home schools, and charter schools created by corporations and industry providers. Mrs. Lansdale added that these local funds will go to these schools even if the schools are in a different city or parish, and reminded the board that this is ignoring the Constitutional requirements that MFP funds can only be used for public elementary and secondary schools. She also addressed proposed legislation relative to teacher tenure and how, if passed, this law will affect teacher tenure in Louisiana by replacing the current law with a process whereby a teacher must be deemed highly effective for five consecutive years in order to gain tenure. Further, she stated that if a teacher is deemed ineffective, they must forego any pay increase, lose tenure and treated as an at-will employee, and all of this will be based on how a student performs on a test on one day. She also stated that if this legislation passes, thousands of Louisiana teachers will lose their certification and jobs in the near future. As we are continuously “bombed” by Baton Rouge with this attack on the school district, Mrs. Lansdale said it is important to act and to be resilient and send a message to the Legislators opposing Governor Jindal’s education agenda, and inform Representative Carmody that he was misinformed when told that his district will not be affected. To keep the most robust programs for Caddo students, she said it is important to avail ourselves of all existing funds, including those “rat holed”. She said it is also important to provide stability to all of Caddo’s students, insuring they have access to all coursework available and suggested that job sharing among highly qualified teachers be considered in accomplishing this. Mrs. Lansdale also encouraged the board to demonstrate its support of quality teaching in every classroom, examine the health insurance, and look to the future for ideas that might expand the District’s program. She encouraged the board to move forward and stand up for all the children, its employees, and civil and human rights for the opportunity of a quality public education afforded to every child in the State of Louisiana.

Rod Hill, president of INS Engineers, shared that his company has actively pursued making a brief presentation to the board, introducing to the board what his company does. Approximately a year ago, his company made a concerted effort to make a permanent office here by opening an office at the corner of Spring and Milam Streets. He introduced the local team: Larry Harper, professional engineer; Dr. Hyber Tao, and Andy Glasgow and shared some of the local clients for which they have provided services for capital projects. Being very active in the community, Mr. Hill also stated their support of SciPort, working with at-risk students in mentoring projects and that they look forward to working more closely with the school system.

Jon Glover, employee, stated her awareness that the Caddo School System is currently going through a metamorphosis that is hurting our parish and the continued demise of the learning process is evident. She said that every child in Caddo Parish should have access to the same resources and cited that in Brown v. Board of Education it was evident that every child in Topeka, Kansas was not receiving the same level of education and prompted the Supreme Court
to rule in favor of the parents requesting equal educational opportunities. In looking at the failure rate of Caddo’s students, she doesn’t believe every child is being afforded the same level of education across the board. She also stated her belief that there is no amount of projects or programs that will change the school system until those in charge make drastic changes within themselves. Ms. Glover said she believes in order for this to happen, it is also important to return to the basics because it is the only way to assure that every child in Caddo Parish is equipped for the title of “world class student”; and she believes if everyone in charge will put aside personal agendas and work for the betterment of every child in Caddo Parish, then making a difference may be a reality. She also noted former Supt. Schiller’s attempt to institute the accountability aspect of those entrusted to educate the children; and even though there was much grumbling, it did bring to the attention of those who were falling short, their need to step up to the bar or step aside. She said there is no amount of sufficient excuses, because at the end of the day, Caddo’s children are still labeled failing; and with some saying this failure is attributed to parents (or the home), teachers, administrators. In actuality and collectively, everyone is accountable from the board to the superintendent and to everyone employed by Caddo Parish Public Schools. Finger pointing will not bring about the needed and necessary change and asked that each person be accountable for the success of Caddo’s children.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Dawkins highlighted items for the board’s consideration at the April 17, 2012 CPSB meeting and the following discussion ensued. President Riall announced that Item 8.04 is pulled, 8.02 is postponed for further study, and Items 6.01-6.03, 6.05, 8.01, 8.03, 8.05-8.14, 8.16-8.17, 8.19-8.20 and 13.01 are the Consent Agenda.

Resolution Approving Issuance of General Obligation Bonds. Jim Lee recognized Bond Counsels Grant Schleuter and Jacquelyn Scott, and announced that since the original announcement that the savings to the taxpayers would be approximately $1 million, the finalization indicates that the savings to taxpayers will actually be $1.2 million. Mr. Schleuter reported that the refinancing was very successful with the final amount of bonds issued totaling $9,960,000 and a savings of over $1.2 million which goes to the taxpayers and reduces debt service each year with no extension and a present value savings of over 10% which is very unusual. He reported if the board accepts this resolution tonight, closing will be May 1st. Ms. Scott echoed Mr. Schleuter’s comments and that they look forward to continue working with the school system and its successes.

Mrs. Bell moved, seconded by Mr. Hooks, approval of the consent agenda. Vote on the motion carried unanimously. The following is a summary of the board’s action on consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The board approved the following personnel recommendations as recommended by the superintendent and submitted in the mailout: Karen Pharr, principal, Keithville Elementary/Middle; Darlene B. Simons, principal, Northwood High; Joseph Johnson, assistant principal, Booker T. Washington High; and Shelia C. Lockett, supervisor of Compliance-Complaint Management & Parent/Community Involvement.

6.02 Requests for Leaves. The board approved the following requests for leaves as recommended by the superintendent and submitted in the mailout.

Certified Catastrophic Leave, February 9, 2012-March 22, 2012
Deidre Curole, Education Diagnostician, Special Programs Center, 30 years
Catastrophic Leave, February 20, 2012–March 30, 2012
Julie J. Crawford, Teacher, Westwood Elementary, 9 years
Kimberly Bundrick, Teacher, West Shreveport, 16.5 years

Jennifer Wautlet – rescind her sabbatical leave request for Fall Semester 2012 and Spring Semester 2013 that was approved at the February 21, 2012 meeting.

Classified
Catastrophic Leave, February 1, 2012–March 14, 2012
Maria Stockton, Bus Driver, Transportation, 17 years
Catastrophic Leave, February 14, 2012-April 3, 2012
Lana Harrell, Bus Driver, Transportation 16 years

6.03 Other Personnel Transactions Reports. The board approved the other personnel transactions reports covering the period of January 21, 2012–February 20, 2012 as submitted in the mailout.

6.05 Out of State Travel (General Fund). The board approved requests for out of state travel (General Fund) as recommended by the superintendent and submitted in the mailout.

Item No. 8

8.01 Resolution Supporting a Bill for Renaming Building B at Shreve Island Elementary for Dr. Kerry Laster. The board approved the resolution supporting a bill for renaming Building B at Shreve Island Elementary for Dr. Kerry Laster as submitted in the mailout. A copy of the resolution is made a part of the original file for the March 20, 2012 CPSB meeting.

8.03 Proposed Revisions to CPSB Policy GBCB-R Staff Conduct – Notice of Criminal Proceedings. The board approved the proposed revisions to CPSB Policy GBCB-R as submitted in the mailout.

8.05 Approval to Begin the Process of Applying for Green Cards for the Eligible International Teachers. The board moved to begin the process of applying for Green Cards for the eligible International Teachers as recommended by staff and submitted in the mailout.

8.06 Confirm Administrator of Caddo-Shreveport Sales & Use Tax Commission. The board confirmed the administrator of the Caddo-Shreveport Sales & Use Tax Commission as submitted in the mailout.

8.07 General Fund Budget Revision. The board approved the proposed General Fund budget revision as submitted by staff in the mailout.

8.08 Resolution Approving Issuance of General Obligation Bonds. The board approved the following resolution approving the issuance and sale of General Obligation school refunding bonds as recommended by staff and submitted in the mailout.

RESOLUTION
A resolution providing for the issuance and sale of Nine Million Nine Hundred Sixty Thousand Dollars ($9,960,000) of General Obligation School Refunding Bonds, Series 2012, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form, fixing the details and providing for the rights of the owners there-
of; providing for the payment of the principal of and interest on such bonds and the application of the proceeds thereof to the refunding of certain bonds of said School District; and providing for other matters in connection therewith.

WHEREAS, pursuant to the provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and a special election held on April 17, 2004, the result of which was duly promulgated in accordance with law, Parishwide School District of Caddo Parish, Louisiana (the Issuer), acting through its governing authority, issued $14,000,000 of General Obligation School Bonds, Series 2004, dated July 1, 2004, of which $11,730,000 is outstanding (the Series 2004 Bonds); and

WHEREAS, the Issuer is authorized to borrow money and issue general obligation school bonds payable from ad valorem taxes to refund its outstanding general obligation school bonds, pursuant to Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended (Act), and other constitutional and statutory authority; and

WHEREAS, the Issuer has found and determined that the defeasance and advance refunding of the outstanding Series 2004 Bonds, consisting of $9,130,000 of Series 2004 Bonds which mature March 1, 2018 to March 1, 2029, inclusive, as more fully described in Exhibit A hereto (the Refunded Bonds), would be financially advantageous to the Issuer and would result in a lower effective interest rate on such Refunded Bonds and debt service savings to the Issuer; and

WHEREAS, pursuant to the Act and other constitutional and statutory authority, it is now the desire of the Issuer to adopt this resolution in order to provide for the issuance of Nine Million Nine Hundred Sixty Thousand Dollars ($9,960,000) principal amount of its General Obligation School Refunding Bonds, Series 2012 (the Bonds), for the purpose of refunding the Refunded Bonds, to fix the details of the Bonds and to sell the Bonds to the Underwriter thereof; and

WHEREAS, it is necessary to provide for the application of the proceeds of the Bonds and to provide for other matters in connection with the payment or redemption of the Refunded Bonds; and

WHEREAS, it is necessary that this Governing Authority prescribe the form and content of the Defeasance and Escrow Deposit Agreement providing for the payment of the principal and interest of the Refunded Bonds and authorize the execution thereof as hereinafter provided; and

WHEREAS, in connection with the issuance of the Bonds, it is necessary that provision be made for the payment of the principal and interest of the Refunded Bonds described in Exhibit A hereto, and to provide for the call for redemption of the Refunded Bonds pursuant to a Notice of Defeasance and Call for Redemption; and

WHEREAS, the Issuer desires to fix the details of the Bonds and the terms of the sale of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana, acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

ARTICLE 1)
DEFINITIONS AND INTERPRETATION

SECTION a) Definitions. The following terms shall have the following meanings unless the context otherwise requires:

Act shall mean Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other applicable constitutional and statutory authority.

Bond or Bonds shall mean any or all of the General Obligation School Refunding Bonds, Series 2012, of the Issuer, issued pursuant to the Bond Resolution, as the same may be
amended from time to time, whether initially delivered or issued in exchange for, upon transfer of, or in lieu of any previously issued Bond.  

**Bond Obligation** shall mean, as of the date of computation, the principal amount of the Bonds then Outstanding.

**Bond Resolution** shall mean this resolution, as it may amended and supplemented as herein provided.

**Business Day** shall mean a day of the year other than a day on which banks located in New York, New York and the cities in which the principal offices of the Escrow Agent and the Paying Agent are located are required or authorized to remain closed and on which the New York Stock Exchange is closed.

**Code** shall mean the Internal Revenue Code of 1986, as amended.

**Costs of Issuance** shall mean all items of expense, directly or indirectly payable or reimbursable and related to the authorization, sale and issuance of the Bonds, including but not limited to printing costs, costs of preparation and reproduction of documents, filing and recording fees, initial fees and charges of any fiduciary, legal fees and charges, fees and charges for the preparation and distribution of a preliminary official statement and official statement, if paid by the Issuer, fees and disbursements of consultants and professionals, costs of credit ratings, fees and charges for preparation, execution, transportation and safekeeping of the Bonds, costs and expenses of refunding, premiums for the insurance of the payment of the Bonds, if any, and any other cost, charge or fee paid or payable by the Issuer in connection with the original issuance of Bonds.

**Debt Service** for any period shall mean, as of the date of calculation, an amount equal to the sum of (a) interest payable during such period on Bonds and (b) the principal amount of Bonds which mature during such period.

**Defeasance Obligations** shall mean (a) cash, or (b) noncallable Government Securities.

**Escrow Agent** shall mean with respect to the Refunded Bonds, Argent Trust, a division of National Independent Trust Company, in the City of Ruston, Louisiana, and its successor or successors, and any other person which may at any time be substituted in its place pursuant to the Bond Resolution.

**Escrow Agreement** shall mean the Defeasance and Escrow Deposit Agreement dated as of May 1, 2012, between the Issuer and the Escrow Agent, substantially in the form attached hereto as Exhibit B, as the same may be amended from time to time, the terms of which are incorporated herein by reference.

**Executive Officers** shall mean, collectively, the President and Secretary of the Governing Authority.

**Fiscal Year** shall mean the one-year accounting period ending on June 30 of each year, or such other one-year period as may be designated by the Governing Authority as the fiscal year of the Issuer.

**Governing Authority** shall mean the Parish School Board of the Parish of Caddo, State of Louisiana, or its successor in function.

**Government Securities** shall mean direct general obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America, which may be United States Treasury Obligations such as the State and Local Government Series and may be in book-entry form.

**Interest Payment Date** shall mean March 1 and September 1 of each year, commencing September 1, 2012.

**Issuer** shall mean Parishwide School District of Caddo Parish, Louisiana.

**Outstanding**, when used with reference to the Bonds, shall mean, as of any date, all Bonds theretofore issued under the Bond Resolution, except:

(a) Bonds theretofore cancelled by the Paying Agent or delivered to the Paying Agent for cancellation;
(b) Bonds for the payment or redemption of which sufficient Defeasance Obligations have been deposited with the Paying Agent or an escrow agent in
trust for the owners of such Bonds as provided in Section 11.1 hereof, provided that if such Bonds are to be redeemed, irrevocable notice of such redemption has been duly given or provided for pursuant to the Bond Resolution, to the satisfaction of the Paying Agent, or waived;
(c) Bonds in exchange for or in lieu of which other Bonds have been registered and delivered pursuant to the Bond Resolution; and
(d) Bonds alleged to have been mutilated, destroyed, lost, or stolen which have been paid as provided in the Bond Resolution or by law.
Owner or Owners shall mean the Person reflected as registered owner of any of the Bonds on the registration books maintained by the Paying Agent.
Paying Agent shall mean Argent Trust, a division of National Independent Trust Company, in the City of Ruston, Louisiana, as paying agent and registrar hereunder, until a successor Paying Agent shall have become such pursuant to the applicable provisions of the Bond Resolution, and thereafter Paying Agent shall mean such successor Paying Agent.
Person shall mean any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, or government or any agency or political subdivision thereof.
Record Date shall mean, with respect to an Interest Payment Date, the fifteenth day of the calendar month next preceding such Interest Payment Date, whether or not such day is a Business Day.
Refunded Bonds shall mean the Issuer's outstanding General Obligation School Bonds, Series 2004, dated July 1, 2004, consisting of $9,130,000 of Series 2004 Bonds which mature March 1, 2018 to March 1, 2029, inclusive, which are being refunded by the Bonds, as more fully described in Exhibit A hereto.
State shall mean the State of Louisiana.
Underwriter shall mean Stephens, Inc., the original underwriters of the Bonds.

SECTION b) Interpretation. In this Bond Resolution, unless the context otherwise requires, (a) words importing the singular include the plural and vice versa, (b) words of the masculine gender shall be deemed and construed to include correlative words of the feminine and neuter genders and (c) the title of the offices used in this Bond Resolution shall be deemed to include any other title by which such office shall be known under any subsequently adopted charter.

ARTICLE 2)
AUTHORIZATION AND ISSUANCE OF BONDS

SECTION a) Authorization and Issuance of Bonds

i) This Bond Resolution creates a series of Bonds of the Issuer to be designated General Obligation School Refunding Bonds, Series 2012, of Parishwide School District of Caddo Parish, Louisiana, and provides for the full and final payment of the principal of and interest on all the Bonds.

ii) The Bonds issued under this Bond Resolution shall be issued for the purpose of refunding the Refunded Bonds through the escrow of a portion of the proceeds of the Bonds, together with other available moneys of the Issuer in Government Securities, in accordance with the terms of the Escrow Agreement, in order to provide for the payment of the principal of and interest on the Refunded Bonds as they mature or upon earlier redemption, as provided in Section 13.1 hereof.

iii) Provision having been made for the orderly payment until maturity or earlier redemption of all the Refunded Bonds, in accordance with their terms, it is hereby recognized and acknowledged that as of the date of delivery of the Bonds under this Bond Resolution, provision will have been made for the performance of all covenants and agreements of the Issuer incidental to the Refunded Bonds, and that accordingly, and in compliance with all that is herein provided, the Issuer is expected to have no future obligation with reference to the aforesaid
Refunded Bonds, except to assure that the Refunded Bonds are paid from the Government Securities and funds so escrowed in accordance with the provisions of the Escrow Agreement.

iv) The Escrow Agreement is hereby approved by the Issuer and the Executive Officers are hereby authorized and directed to execute and deliver the Escrow Agreement on behalf of the Issuer substantially in the form of Exhibit B hereof, with such changes, additions, deletions or completions deemed appropriate by such signing officials, and it is expressly provided and covenanted that all of the provisions for the payment of the principal of, premium, if any, and interest on the Refunded Bonds from the special trust funds created under the Escrow Agreement shall be strictly observed and followed in all respects.

SECTION b) Bond Resolution to Constitute Contract. In consideration of the purchase and acceptance of the Bonds by those who shall own the same from time to time, the provisions of this Bond Resolution shall be a part of the contract of the Issuer with the Owners of the Bonds and shall be deemed to be and shall constitute a contract between the Issuer and the Owners from time to time of the Bonds. The provisions, covenants and agreements herein set forth to be performed by or on behalf of the Issuer shall be for the equal benefit, protection and security of the Owners of any and all of the Bonds, each of which Bonds, regardless of the time or times of its issue or maturity, shall be of equal rank without preference, priority or distinction over any other thereof except as expressly provided in this Bond Resolution.

SECTION c) Obligation of Bonds. The Bonds shall constitute general obligations of the Issuer, and the full faith and credit of the Issuer is hereby pledged for their payment and for the payment of all the interest thereon. The Issuer is bound under the terms and provisions of law and this Bond Resolution to impose and collect annually, in excess of all other taxes, a tax on all the property subject to taxation within the territorial limits of the Issuer, sufficient to pay the principal of and interest on the Bonds falling due each year, said tax to be levied and collected by the same officers, in the same manner and at the same time as other taxes are levied and collected within the territorial limits of the Issuer. All ad valorem taxes levied by the Issuer in each year for the payment of the Bonds shall, upon their receipt, be transferred to the Governing Authority, which shall have responsibility for the deposit of such receipts and for the investment and reinvestment of such receipts and the servicing of the Bonds and any other general obligation school bonds of the Issuer.

SECTION d) Authorization and Designation. Pursuant to the provisions of the Act, there is hereby authorized the issuance of Nine Million Nine Hundred Sixty Thousand Dollars ($9,960,000) principal amount of Bonds of the Issuer to be designated A General Obligation School Refunding Bonds, Series 2012, of Parishwide School District of Caddo Parish, Louisiana, for the purpose of refunding the Refunded Bonds. The Bonds shall be in substantially the form set forth as Exhibit C hereto, with such necessary or appropriate variations, omissions and insertions as are required or permitted by the Act and this Bond Resolution.

This Governing Authority hereby finds and determines that upon the issuance of the Bonds, the total outstanding amount of general obligation school bonds of the Issuer issued and deemed to be outstanding will not exceed the Issuer's general obligation bond limit.

SECTION e) Denominations, Dates, Maturities and Interest. The Bonds are issuable as fully registered bonds without coupons in the denominations of $5,000 principal amount or any integral multiple thereof within a single maturity, and shall be numbered R-1 upward.

The Bonds shall be dated the date of delivery, shall mature on March 1 in the years and in the principal amounts and shall bear interest, payable on March 1 and September 1 of each year, commencing September 1, 2012, at the rates per annum, as follows:

</table>
The principal and premium, if any, of the Bonds are payable in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts at the principal corporate trust office of the Paying Agent, upon presentation and surrender thereof. Interest on the Bonds is payable by check mailed on or before the Interest Payment Date by the Paying Agent to the Owner thereof (determined as of the close of business on the Record Date) at the address of such Owner as it appears on the registration books of the Paying Agent maintained for such purpose.

Except as otherwise provided in this Section, Bonds shall bear interest from date thereof or from the most recent Interest Payment Date to which interest has been paid or duly provided for, as the case may be, provided, however, that if and to the extent that the Issuer shall default in the payment of the interest on any Bonds due on any Interest Payment Date, then all such Bonds shall bear interest from the most recent Interest Payment Date to which interest has been paid on the Bonds, or if no interest has been paid on the Bonds, from their dated date.

The person in whose name any Bond is registered at the close of business on the Record Date with respect to an Interest Payment Date shall in all cases be entitled to receive the interest payable on such Interest Payment Date notwithstanding the cancellation of such Bond upon any registration of transfer or exchange thereof subsequent to such Record Date and prior to such Interest Payment Date.

SECTION f) Book Entry Registration of Bonds. The Bonds shall be initially issued in the name of Cede & Co., as nominee for The Depository Trust Company (DTC), as registered owner of the Bonds, and held in the custody of DTC. The Secretary of the Governing Authority or any other officer of the Issuer is authorized to execute and deliver a Blanket Letter of Representation to DTC on behalf of the Issuer with respect to the issuance of the Bonds in book-entry only format. The terms and provisions of said Letter of Representation shall govern in the event of any inconsistency between the provisions of this Bond Resolution and said Letter of Representation. Initially, a single certificate will be issued and delivered to DTC for each maturity of the Bonds. The Beneficial Owners will not receive physical delivery of Bond certificates except as provided herein. Beneficial Owners are expected to receive a written confirmation of their purchase providing details of each Bond acquired. For so long as DTC shall continue to serve as securities depository for the Bonds as provided herein, all transfers of beneficial ownership interest will be made by book-entry only, and no investor or other party purchasing, selling or otherwise transferring beneficial ownership of Bonds is to receive, hold or deliver any Bond certificate.

Notwithstanding anything to the contrary herein, while the Bonds are issued in book-entry-only form, the payment of principal of, premium, if any, and interest on the Bonds may be payable by the Paying Agent by wire transfer to DTC in accordance with the Letter of Representation.

For every transfer and exchange of the Bonds, the Beneficial Owner (as defined in the Blanket Letter of Representation) may be charged a sum sufficient to cover such Beneficial Owner's allocable share of any tax, fee or other governmental charge that may be imposed in relation thereto.

Bond certificates are required to be delivered to and registered in the name of the Beneficial Owner under the following circumstances:

(a) DTC determines to discontinue providing its service with respect to the Bonds. Such a determination may be made at any time by giving 30 days' notice to the Issuer and the Paying Agent and discharging its responsibilities with respect thereto under applicable law; or

b) The Issuer determines that continuation of the system of book-entry transfer through DTC (or a successor securities depository) is not in the best interests of the Issuer and/or the Beneficial Owners.

The Issuer and the Paying Agent will recognize DTC or its nominee as the Bondholder for all purposes, including notices and voting.

Neither the Issuer or the Paying Agent are responsible for the performance by DTC of any of its obligations, including, without limitation, the payment of moneys received by DTC, the forwarding of notices received by DTC or the giving of any consent or proxy in lieu of consent.

Whenever during the term of the Bonds the beneficial ownership thereof is determined by a book entry at DTC, the requirements of this Bond Resolution of holding, delivering or transferring the Bonds shall be deemed modified to require the appropriate person to meet the requirements of DTC as to registering or transferring the book entry to produce the same effect.

If at any time DTC ceases to hold the Bonds, all references herein to DTC shall be of no further force or effect.

ARTICLE 3)  
GENERAL TERMS AND PROVISIONS OF THE BONDS

SECTION a) Exchange of Bonds; Persons Treated as Owners. The Issuer shall cause books for the registration and for the registration of transfer of the Bonds as provided in this Bond Resolution to be kept by the Paying Agent at its principal corporate trust office, and the Paying Agent is hereby constituted and appointed the registrar for the Bonds. At reasonable times and under reasonable regulations established by the Paying Agent said list may be inspected and copied by the Issuer or by the Owners (or a designated representative thereof) of 15% of the outstanding principal amount of the Bonds.

All Bonds presented for registration of transfer or exchange shall be accompanied by a written instrument or instruments of transfer in form and with a guaranty of signature satisfactory to the Paying Agent, duly executed by the Owner or his attorney duly authorized in writing.

Upon surrender for registration of transfer of any Bond, the Paying Agent shall register and deliver in the name of the transferee or transferees one or more new fully registered Bonds of authorized denomination of the same maturity and like aggregate principal amount. At the option of an Owner, Bonds may be exchanged for other Bonds of authorized denominations of the same maturity and like aggregate principal amount, upon surrender of the Bonds to be exchanged at the principal corporate trust office of the Paying Agent. Whenever any Bonds are so surrendered for exchange, the Paying Agent shall register and deliver in exchange therefore the Bond or Bonds which the Owner making the exchange shall be entitled to receive.

No service charge to the Owners shall be made by the Paying Agent for any exchange or registration of transfer of Bonds. The Paying Agent may require payment by the person requesting an exchange or registration of transfer of Bonds of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto.

The Issuer and the Paying Agent shall not be required to issue, register the transfer of or exchange any Bond during a period beginning at the opening of business on a Record Date or any date of selection of Bonds to be redeemed and ending at the close of business on the Interest Payment Date.

All Bonds delivered upon any registration of transfer or exchange of Bonds shall be valid obligations of the Issuer, evidencing the same debt and entitled to the same benefits under this Bond Resolution as the Bonds surrendered.

Prior to due presentment for registration of transfer of any Bond, the Issuer and the Paying Agent, and any agent of the Issuer or the Paying Agent may deem and treat the person in whose name any Bond is registered as the absolute owner thereof for all purposes, whether or not such Bond shall be overdue, and shall not be bound by any notice to the contrary.
SECTION b) Bonds Mutilated, Destroyed, Stolen or Lost. In case any Bond shall become mutilated or be improperly cancelled, or be destroyed, stolen or lost, the Issuer may in its discretion adopt a resolution and thereby authorize the issuance and delivery of a new Bond in exchange for and substitution for such mutilated or improperly cancelled Bond, or in lieu of and substitution for the Bond destroyed, stolen or lost, upon the Owner (i) furnishing the Issuer and the Paying Agent proof of his ownership thereof and proof of such mutilation, improper cancellation, destruction, theft or loss satisfactory to the Issuer and the Paying Agent, (ii) giving to the Issuer and the Paying Agent an indemnity bond in favor of the Issuer and the Paying Agent in such amount as the Issuer may require, (iii) complying with such other reasonable regulations and conditions as the Issuer may prescribe and (iv) paying such expenses as the Issuer and the Paying Agent may incur. All Bonds so surrendered shall be delivered to the Paying Agent for cancellation pursuant to Section 3.4 hereof. If any Bond shall have matured or be about to mature, instead of issuing a substitute Bond, the Issuer may pay the same, upon being indemnified as aforesaid, and if such Bond be lost, stolen or destroyed, without surrender thereof.

Any such duplicate Bond issued pursuant to this Section shall constitute an original, additional, contractual obligation on the part of the Issuer, whether or not the lost, stolen or destroyed Bond be at any time found by anyone. Such duplicate Bond shall be in all respects identical with those replaced except that it shall bear on its face the following additional clause:

This bond is issued to replace a lost, cancelled or destroyed bond under the authority of R.S. 39:971 through 39:974.

Such duplicate Bond may be signed by the facsimile signatures of the same officers who signed the original Bonds, provided, however, that in the event the officers who executed the original Bonds are no longer in office, then the new Bonds may be signed by the officers then in office. Such duplicate Bonds shall be entitled to equal and proportionate benefits and rights as to lien and source and security for payment as provided herein with respect to all other Bonds hereunder, the obligations of the Issuer upon the duplicate Bonds being identical to its obligations upon the original Bonds and the rights of the Owner of the duplicate Bonds being the same as those conferred by the original Bonds.

SECTION c) Preparation of Definitive Bonds, Temporary Bonds. Until the definitive Bonds are prepared, the Issuer may execute, in the same manner as is provided in Section 3.5, and deliver, in lieu of definitive Bonds, but subject to the same provisions, limitations and conditions as the definitive Bonds except as to the denominations, one or more temporary typewritten Bonds substantially of the tenor of the definitive Bonds in lieu of which such temporary Bond or Bonds are issued, in authorized denominations, and with such omissions, insertions and variations as may be appropriate to temporary Bonds.

SECTION d) Cancellation of Bonds. All Bonds paid, together with all Bonds purchased by the Issuer, shall thereupon be promptly cancelled by the Paying Agent. The Paying Agent shall thereupon promptly furnish to the Secretary of the Governing Authority an appropriate certificate of cancellation.

SECTION e) Execution. The Bonds shall be executed in the name and on behalf of the Issuer by the manual or facsimile signatures of the Executive Officers, and the corporate seal of the Issuer (or a facsimile thereof) shall be thereunto affixed, imprinted, engraved or otherwise reproduced thereon. In case any one or more of the officers who shall have signed or sealed any of the Bonds shall cease to be such officer before the Bonds so signed and sealed shall have been actually delivered, such Bonds may, nevertheless, be delivered as herein provided, and may be issued as if the person who signed or sealed such Bonds had not ceased to hold such office. Said officers shall, by the execution of the Bonds, adopt as and for their own proper signatures their respective facsimile signatures appearing on the Bonds or any legal opinion certificate thereon, and the Issuer may adopt and use for that purpose the facsimile signature of any person or persons who shall have been such officer at any time on or after the date of such Bond, notwithstanding that at the date of such Bond such person may not have held
such office or that at the time when such Bond shall be delivered such person may have ceased to hold such office.

SECTION f) Registration by Secretary of State. The Bonds shall be registered with the Secretary of State of the State of Louisiana and shall bear the endorsement of the Secretary of State of the State of Louisiana substantially in the form set forth in Exhibit C hereto, provided such endorsement shall be manually signed only on the Bonds initially delivered to the Underwriter, and any Bonds subsequently exchanged therefore as permitted in this Bond Resolution may bear the facsimile signature of said Secretary of State.

SECTION g) Registration by Paying Agent. No Bond shall be valid or obligatory for any purpose or entitled to any security or benefit under this Bond Resolution unless and until a certificate of registration on such Bond substantially in the form set forth in Exhibit C hereto shall have been duly executed on behalf of the Paying Agent by a duly authorized signatory, and such executed certificate of the Paying Agent upon any such Bond shall be conclusive evidence that such Bond has been executed, registered and delivered under this Bond Resolution.

ARTICLE 4) SINKING FUND; PAYMENT OF BONDS

SECTION a) Sinking Fund.

i) For the payment of the principal of and the interest on the Bonds, the Issuer will maintain a special fund, to be held by the regularly designated fiscal agent of the Issuer (the Sinking Fund), into which the Issuer will deposit the proceeds of the aforesaid tax described in Section 2.3 hereof. The depository for the Sinking Fund shall transfer from the Sinking Fund to the Paying Agent at least one (1) day in advance of each Interest Payment Date, funds fully sufficient to pay promptly the principal and interest falling due on such date.

ii) All moneys deposited with the regularly designated fiscal agent bank or banks of the Issuer or the Paying Agent under the terms of this Bond Resolution shall constitute sacred funds for the benefit of the Owners of the Bonds, and shall be secured by said fiduciaries at all times to the full extent thereof in the manner required by law for the securing of deposits of public funds.

iii) All or any part of the moneys in the Sinking Fund shall, at the written request of the Issuer, be invested in accordance with the provisions of the laws of the State of Louisiana, in which event all income derived from such investments shall be added only to the Sinking Fund. Accrued interest, if any, received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.

SECTION b) Payment of Bonds. The Issuer shall duly and punctually pay or cause to be paid as herein provided, the principal of every Bond and the interest thereon, at the dates and places and in the manner stated in the Bonds according to the true intent and meaning thereof.

ARTICLE 5) REDEMPTION OF BONDS

SECTION a) Optional Redemption of Bonds. Those Bonds maturing March 1, 2023 and thereafter, will be callable for redemption by the Issuer in full, or in part, at any time on or after March 1, 2022, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof and accrued interest, if any, to the date fixed for redemption. In the event any Bond to be redeemed is of a denomination larger than Five Thousand Dollars ($5,000), a portion of such Bond ($5,000 or any multiple thereof) may be redeemed. Official notice of such call of any of the Bonds for redemption will be given by first class mail, postage prepaid, by notice deposited in the United States mails not less than thirty (30) days prior to the redemption date addressed to the registered owner of each bond to be redeemed at his address as shown on the registration books of the Paying Agent.
SECTION b) Mandatory Sinking Fund Redemption. The Term Bonds maturing on March 1, 2026 shall be subject to mandatory sinking fund redemption on March 1 in the years and in the principal amounts set forth below at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon:

<table>
<thead>
<tr>
<th>Year (March 1)</th>

<td>935,000*</td>
</tr>
</tbody>
</table>

* Final Maturity

ARTICLE 6)
APPLICATION OF BOND PROCEEDS

SECTION a) Application of Bond Proceeds. As a condition of the issuance of the Bonds, the Issuer hereby binds and obligates itself to:

i) Deposit irrevocably in trust with the Escrow Agent under the terms and conditions of the Escrow Agreement, as hereinafter provided, an amount of the proceeds derived from the issuance and sale of the Bonds (exclusive of accrued interest), together with additional moneys of the Issuer, as will enable the Escrow Agent to purchase Government Obligations described in the Escrow Agreement, which shall mature in principal and interest in such a manner as to provide at least the required cash amount on or before each payment date for the Refunded Bonds (said amounts being necessary on each of the designated dates to pay and retire or redeem the Refunded Bonds, including premiums, if any, payable upon redemption). Prior to or concurrently with the delivery of the Bonds, the Issuer shall obtain an independent mathematical verification that the moneys and obligations required to be irrevocably deposited in trust in the Escrow Fund with the Escrow Agent, together with the earnings to accrue thereon, will always be sufficient for the payment of the principal of, premium, if any, and interest on the Refunded Bonds. The moneys so deposited with the Escrow Agent shall constitute a trust fund irrevocably dedicated for the use and benefit of the owners of the Refunded Bonds.

ii) Deposit in the Expense Fund established with the Escrow Agent such amount of the proceeds of the Bonds as will enable the Escrow Agent to pay the Costs of Issuance and the costs properly attributable to the establishment and administration of the Escrow Fund on behalf of the Issuer.

iii) Deposit accrued interest, if any, received on the delivery date of the Bonds into the Sinking Fund established by Section 4.1 hereof and to apply said funds to pay a portion of the interest due on the Bonds on the first Interest Payment Date therefor. Accrued interest, if any, received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.
ARTICLE 7)
SUPPLEMENTAL BOND RESOLUTIONS

SECTION a) Supplemental Resolutions Effective Without Consent of Owners.
For any one or more of the following purposes and at any time from time to time, a resolution supplemental hereto may be adopted, which, upon the filing with the Paying Agent of a certified copy thereof, but without any consent of Owners, shall be fully effective in accordance with its terms:

(a) to add to the covenants and agreements of the Issuer in the Bond Resolution other covenants and agreements to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;
(b) to add to the limitations and restrictions in the Bond Resolution other limitations and restrictions to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;
(c) to surrender any right, power or privilege reserved to or conferred upon the Issuer by the terms of the Bond Resolution, but only if the surrender of such right, power or privilege is not contrary to or inconsistent with the covenants and agreements of the Issuer contained in the Bond Resolution;
(d) to cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision of the Bond Resolution; or
(e) to insert such provisions clarifying matters or questions arising under the Bond Resolution as are necessary or desirable and are not contrary to or inconsistent with the Bond Resolution as theretofore in effect.

SECTION b) Supplemental Resolutions Effective With Consent of Owners.
Except as provided in Section 7.1, any modification or amendment of the Bond Resolution or of the rights and obligations of the Issuer and of the Owners of the Bonds hereunder, in any particular, may be made by a supplemental resolution, with the written consent of the Owners of a majority of the Bond Obligation at the time such consent is given. No such modification or amendment shall permit a change in the terms of maturity of the principal of any outstanding Bond or of any installment of interest thereon or a reduction in the principal amount thereof or in the rate of interest thereon without the consent of the Owner of such Bond, or shall reduce the percentages of Bonds the consent of the Owner of which is required to effect any such modification or amendment, or change the obligation of the Issuer to levy and collect taxes for the payment of the Bonds as provided herein, without the consent of the Owners of all of the Bonds then outstanding, or shall change or modify any of the rights or obligations of either the Paying Agent or the Escrow Agent without its written assent thereto. For the purposes of this Section, Bonds shall be deemed to be affected by a modification or amendment of the Bond Resolution if the same adversely affects or diminishes the rights of the Owners of said Bonds.

ARTICLE 8)
TAX COVENANTS; CONTINUING DISCLOSURE

SECTION a) Tax Covenants. The Issuer covenants and agrees that, to the extent permitted by the laws of the State of Louisiana, it will comply with the requirements of the Code in order to establish, maintain and preserve the exclusion from gross income of interest on the Bonds under the Code. The Issuer shall not take any action or fail to take any action, nor shall it permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in any manner, to acquire any securities or obligations the acquisition of which would cause any Bond to be an arbitrage bond as defined in the Code or would result in the inclusion of the interest on any Bond in gross income under the Code, including, without limitation, (i) the failure to comply with the limitation on
investment of the proceeds of the Bonds, (ii) the failure to pay any required rebate of arbitrage earnings to the United States of America, or (iii) the use of the proceeds of the Bonds in a manner which would cause the Bonds to be private activity bonds under the Code.

The Executive Officers are hereby empowered, authorized and directed to take any and all action and to execute and deliver any instrument, document or certificate necessary to effectuate the purposes of this Section.

SECTION b) Continuing Disclosure Certificate. The Secretary of the Governing Authority is hereby empowered and directed to execute an appropriate Continuing Disclosure Certificate (substantially in the form set forth in Appendix I of the official statement issued in connection with the sale and issuance of the Bonds) pursuant to S.E.C. Rule 15c2-12(b)(5).

SECTION c) Bonds Are Bank Qualified. The Bonds are designated as qualified tax-exempt obligations within the meaning of Section 265(b)(3) of the Code. In making this designation, the Issuer finds and determines that:

(a) the Bonds are not private activity bonds within the meaning of the Code; and
(b) the reasonably anticipated amount of qualified tax-exempt obligations which will be issued by the Issuer and all subordinate entities in the calendar year 2012 will not exceed $10,000,000.

ARTICLE 9)
REMEDIES ON DEFAULT

SECTION a) Events of Default. If one or more of the following events (in this Bond Resolution called Events of Default) shall happen, that is to say,

i) if default shall be made in the due and punctual payment of the principal of any Bond when and as the same shall become due and payable, whether at maturity or otherwise (in determining whether a principal payment default has occurred); or

ii) if default shall be made in the due and punctual payment of any installment of interest on any Bond when and as such interest installment shall become due and payable (in determining whether an interest payment default has occurred); or

iii) if default shall be made by the Issuer in the performance or observance of any other of the covenants, agreements or conditions on its part in the Bond Resolution, any supplemental resolution or in the Bonds contained and such default shall continue for a period of forty-five (45) days after written notice thereof to the Issuer by any Owner; or

iv) if the Issuer shall file a petition or otherwise seek relief under any Federal or State bankruptcy law or similar law;

then, upon the happening and continuance of any Event of Default and the Owners of the Bonds shall be entitled to exercise all rights and powers for which provision is made under Louisiana law. All remedies shall be cumulative with respect to the Paying Agent and the Owners; if any remedial action is discontinued or abandoned, the Paying Agent and the Owners shall be restored to their former positions.

ARTICLE 10)
CONCERNING FIDUCIARIES

SECTION a) Escrow Agent; Appointment and Acceptance of Duties. Argent Trust, a division of National Independent Trust Company, in the City of Ruston, Louisiana, is hereby appointed Escrow Agent with respect to the Refunded Bonds. The Escrow
Agent shall signify its acceptance of the duties and obligations imposed upon it by this Bond Resolution by executing and delivering the Escrow Agreement.

SECTION b) Paying Agent; Appointment and Acceptance of Duties. The Issuer will at all times maintain a Paying Agent having the necessary qualifications for the performance of the duties described in this Bond Resolution. The designation of Argent Trust, a division of National Independent Trust Company, in the City of Ruston, Louisiana, as the initial Paying Agent is hereby confirmed and approved. The Paying Agent shall signify its acceptance of the duties and obligations imposed on it by the Bond Resolution by executing and delivering to the Executive Officers a written acceptance thereof. The Governing Authority reserves the right to appoint a successor Paying Agent by i) filing with the Person then performing such function a certified copy of a resolution giving notice of the termination of the agreement and appointing a successor and ii) causing notice to be given to each Owner. Furthermore, the Paying Agent may be removed by the Issuer at any time for any breach of its duties set forth herein, affective upon appointment of a successor Paying Agent as set forth above. Every Paying Agent appointed hereunder shall at all times be a trust company or bank organized and doing business under the laws of the United States of America or of any State, authorized under such laws to exercise trust powers, and subject to supervision or examination by Federal or State authority.

ARTICLE 11) MISCELLANEOUS

SECTION a) Defeasance.

i) If the Issuer shall pay or cause to be paid to the Owners of all Bonds then outstanding, the principal and interest become due thereon, at the times and in the manner stipulated therein and in the Bond Resolution, then the covenants, agreements and other obligations of the Issuer to the Owners shall be discharged and satisfied. In such event, the Paying Agent shall, upon the request of the Issuer, execute and deliver to the Issuer all such instruments as may be desirable to evidence such discharge and satisfaction and the Paying Agent shall pay over or deliver to the Issuer all moneys, securities and funds held by them pursuant to the Bond Resolution which are not required for the payment of Bonds not theretofore surrendered for such payment.

ii) Bonds or interest installments for the payment of which money shall have been set aside and shall be held in trust (through deposit by the Issuer of funds for such payment or otherwise) at the maturity date thereof shall be deemed to have been paid within the meaning and with the effect expressed above in this Section. Bonds shall be deemed to have been paid, prior to their maturity, within the meaning and with the effect expressed above in this Section if they have been defeased pursuant to Chapter 14 of Title 39 of the Louisiana Revised Statutes of 1950, as amended, or any successor provisions thereto.

SECTION b) Evidence of Signatures of Owners and Ownership of Bonds.

i) Any request, consent, revocation of consent or other instrument which the Bond Resolution may require or permit to be signed and executed by the Owners may be in one or more instruments of similar tenor, and shall be signed or executed by such Owners in person or by their attorneys-in-fact appointed in writing. Proof of (1) the execution of any such instrument, or of an instrument appointing any such attorney, or (2) the ownership by any person of the Bonds shall be sufficient for any purpose of the Bond Resolution (except as otherwise therein expressly provided) if made in the following manner, or in any other manner satisfactory to the Paying Agent, which may nevertheless in its discretion require further or other proof in cases where it deems the same desirable:

(a) the fact and date of the execution by any Owner or his attorney-in-fact of such instrument may be proved by the certificate, which need not be acknowledged or verified, of an officer of a bank or trust company or of any notary public or other officer authorized to take acknowledgments of
deeds, that the person signing such request or other instrument acknowledged to him the execution thereof, or by an affidavit of a witness of such execution, duly sworn to before such notary public or other officer. Where such execution is by an officer of a corporation or association or a member of a partnership, on behalf of such corporation, association or partnership, such certificate or affidavit shall also constitute sufficient proof of his authority;

(b) the ownership of Bonds and the amount, numbers and other identification, and date of owning the same shall be proved by the registration books of the Paying Agent.

ii) Any request or consent by the Owner of any Bond shall bind all future Owners of such Bond in respect of anything done or suffered to be done by the Issuer or the Paying Agent in accordance therewith.

SECTION c) Moneys Held for Particular Bonds. The amounts held by the Paying Agent for the payment due on any date with respect to particular Bonds shall, on and after such date and pending such payment, be set aside on its books and held in trust by it, without liability for interest, for the Owners of the Bonds entitled thereto.

SECTION d) Parties Interested Herein. Nothing in the Bond Resolution expressed or implied is intended or shall be construed to confer upon, or to give to, any person or entity, other than the Issuer, the Paying Agent, the Escrow Agent and the Owners of the Bonds any right, remedy or claim under or by reason of the Bond Resolution or any covenant, condition or stipulation thereof; and all the covenants, stipulations, promises and agreements in the Bond Resolution contained by and on behalf of the Issuer shall be for the sole and exclusive benefit of the Issuer, the Paying Agent, the Escrow Agent and the Owners of the Bonds and the owners of the Refunded Bonds.

SECTION e) No Recourse on the Bonds. No recourse shall be had for the payment of the principal of or interest on the Bonds or for any claim based thereon or on this Bond Resolution against any member of the Governing Authority or officer of the Issuer or any person executing the Bonds.

SECTION f) Successors and Assigns. Whenever in this Bond Resolution the Issuer is named or referred to, it shall be deemed to include its successors and assigns and all the covenants and agreements in this Bond Resolution contained by or on behalf of the Issuer shall bind and enure to the benefit of its successors and assigns whether so expressed or not.

SECTION g) Subrogation. In the event the Bonds herein authorized to be issued, or any of them, should ever be held invalid by any court of competent jurisdiction, the Owner or Owners thereof shall be subrogated to all the rights and remedies against the Issuer had and possessed by the owner or owners of the Refunded Bonds.

SECTION h) Severability. In case any one or more of the provisions of the Bond Resolution or of the Bonds issued hereunder shall for any reason be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of the Bond Resolution or of the Bonds, but the Bond Resolution and the Bonds shall be construed and enforced as if such illegal or invalid provisions had not been contained therein. Any constitutional or statutory provision enacted after the date of the Bond Resolution which validates or makes legal any provision of the Bond Resolution or the Bonds which would not otherwise be valid or legal shall be deemed to apply to the Bond Resolution and to the Bonds.

SECTION i) Publication of Bond Resolution. This Bond Resolution shall be published one time in the official journal of the Issuer; however, it shall not be necessary to publish any exhibits hereto if the same are available for public inspection and such fact is stated in the publication.

SECTION j) Execution of Documents. In connection with the issuance and sale of the Bonds, the Executive Officers are each authorized, empowered and directed to execute on behalf of the Issuer such documents, certificates and instruments as they may deem necessary, upon the advice of bond counsel, to effect the transactions contemplated by this Bond
Resolution, the signatures of the Executive Officers on such documents, certificates and instruments to be conclusive evidence of the due exercise of the authority granted hereunder.

ARTICLE 12) SALE OF BONDS

SECTION a) Sale of Bonds. The Bonds have been awarded to and sold to the Underwriter at the price and under the terms and conditions set forth in the Bond Purchase Agreement attached hereto as Exhibit D, and after their execution, registration by the Secretary of State and authentication by the Paying Agent, the Bonds shall be delivered to the Underwriter or its agents or assigns, upon receipt by the Issuer of the agreed purchase price.

SECTION b) Official Statement. The Issuer hereby approves the form and content of the Preliminary Official Statement dated March 16, 2012, pertaining to the Bonds, which has been submitted to the Issuer, and hereby ratifies its prior use by the Underwriter in connection with the sale of the Bonds. The Issuer further approves the form and content of the final Official Statement and hereby authorizes and directs the execution by the President and Secretary of the Governing Authority and delivery of such final Official Statement to the Underwriter for use in connection with the public offering of the Bonds.

ARTICLE 13) REDEMPTION OF REFUNDED BONDS

SECTION a) Call for Redemption. Subject only to the actual delivery of the Bonds, the Refunded Bonds are hereby irrevocably called for redemption on March 1, 2014, at the principal amount thereof and accrued interest to the redemption date, in compliance with the resolution authorizing their issuance.

SECTION b) Notice of Defeasance and Call for Redemption. In accordance with the resolution authorizing the issuance of the Refunded Bonds, a Notice of Defeasance and Call for Redemption in substantially the form attached hereto as Exhibit E shall be sent by the paying agent for the Refunded Bonds to the registered owners as the same appear on the registration books of said paying agent by means of first class mail not less than thirty (30) days prior to the date of redemption.

And the resolution was declared adopted on this, the 20th day of March, 2012.
I, the undersigned Secretary of the Parish School Board of the Parish of Caddo, State of Louisiana, do hereby certify that the foregoing pages constitute a true and correct copy of a resolution adopted by said Parish School Board on March 20, 2012, providing for the issuance and sale of $9,960,000 of General Obligation School Refunding Bonds, Series 2012, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form, fixing the details and providing for the rights of the owners thereof; providing for the payment of the principal of and interest on such bonds and the application of the proceeds thereof to the refunding of certain bonds of said School District; and providing for other matters in connection therewith.

IN FAITH WHEREOF, witness my official signature on this, the 20th day of March, 2012.

/s/ Dr. Gerald D. Dawkins
Secretary

8.09 Revision to 2012-13 CPSB Calendar and Approval of 2013-14 Calendar. The board approved the proposed revision to the 2012-13 CPSB calendar and the proposed 2013-14 school year calendar as submitted by staff in the mailout.

8.10 Approval of Transportation Internal Audit. The board approved the recommendations of the internal audit of the Transportation Department as submitted.

8.11 Approval of Resolution of Assignment of Oil and Gas Lease. The board approved the resolution of the assignment of an oil and gas lease as submitted in the mailout. A copy of the resolution is filed in the official papers of the March 20, 2012 CPSB meeting.

8.12 Parental Review Committee – Pupil Progression Plan. The board approved the Parental Review Committee appointments for the Pupil Progression Plan as submitted in the mailout.

8.13 Textbook Adoption Recommendation for Handwriting, Arts, Music, Foreign Language. The board approved the textbook adoption recommendation for handwriting, arts, music and foreign language as submitted in the mailout.

8.14 Locally Initiated Elective – Film Studies II, Enriched. The board approved the request for an enriched elective, Film Studies II, as recommended by the curriculum committee and submitted in the mailout.

8.16 Revision to A.C. Steere Lease. The board approved the proposed revision to the existing A.C. Steere Lease in order to provide a restroom facility adjacent to the existing playground facility as submitted in the mailout.

8.17 Approval of Submission by Edgar Rogers to Support Placing Booker T. Washington High School on the National Register of Historic Places. The board approved Mr. Edgar Rogers submission to place Booker T. Washington High School on the National Register of Historic Places as submitted in the mailout.

8.19 2004 Bond Projects. The board approved the budgeted amount for lighting projects utilizing remainder of 2004 bond fund as recommended by staff and submitted in the mailout.
8.20 2012 Critical Capital Projects. The board approved the budgeted amount for the 2012-13 critical capital projects and the professional designers for the 2012-13 critical capital projects as recommended by staff and submitted in the mailout.

13.01 Student Readmission Appeal. The board approved the student readmission appeal for L.S. as recommended by staff and submitted in the mailout. The parents are in agreement with staff’s recommendation.

REQUEST FOR HEARING IN ACCORDANCE WITH CPSB POLICY GBCB-R

Mr. Ramsey moved, seconded by Mrs. Armstrong, to note in the record the employee’s claim of retaliation and to require the superintendent or the superintendent’s designee to monitor and make sure no retaliation occurs against the employee in the future. Vote on the motion carried unanimously.

RESOLUTION TO LEGISLATORS OPPOSING MANDATES

Mr. Rachal moved, seconded by Mr. Ramsey, to approve the resolution as presented. Mr. Rachal stated that this is probably the board’s only opportunity to present a resolution to the Legislators prior to a vote on proposed legislation that is being pushed through the Legislature. (The board took a brief recess due to a power outage in the boardroom.) Mr. Rachal also shared that included in HB974 is a teacher paid with Federal funds shall not be eligible to acquire tenure nor will time spent and paid for with Federal funds be counted toward the acquisition of tenure, and he questions if the Legislators are even aware of this. Mr. Rachal suggested that the proposed resolution be amended (relative to the paragraph on the increase in employee retirement) to include the increase to the school system from a 15-16% employer contribution to a 24% employer contribution. Mr. Rachal also asked for clarification of reference to a special school district, and Mr. Lee explained that while staff is still awaiting clarification from the State, it is believed to be the State School north of I-220 in Bossier Parish. Mr. Rachal also suggested that HB 211, another unfunded mandate to school districts limiting class sizes and requiring two teachers in Kindergarten through 4th grade classrooms, be added to the resolution. He also suggested that HB974, which will expand the power of the State over LEAs and everything LEAs do, be addressed in the resolution.

Mr. Ramsey stated that in an earlier conversation with the board’s attorney on concerns of the majority of the board, he asked that he place appropriate HB and SB numbers associated with these additional issues on specific proposed legislation in the resolution. He noted the difficulty the district is currently encountering in hiring teachers and how difficult the proposed tenure legislation will make it for attracting and hiring new teachers, plus the fact that he has not seen a plan with details on the proposed legislation. He said the same is true for vouchers and how can we support tax dollars going to another parish or entity.

Mrs. Bell expressed her appreciation that the board is concerned about this situation and her agreement with the board’s opposition to charter schools and taxpayers’ dollars going to vouchers. She also agreed it is a sad day in Louisiana when one person can intimidate people and have those removed from positions once they disagree with them. Mrs. Bell said she believes we need to look at those we elect to the Legislature who are not supporting us, and she believes this resolution is a good way to make the board’s opposition known. She also stated that once the board approves this, it will be important to get this to the Legislators as quickly as possible (overnight), to make them aware of the local Board’s position. Mrs. Bell also expressed her appreciation to the Shreveport Times for their support in today’s paper.

Mrs. Crawley stated that DeSoto Parish stated their opposition to Jindal’s Reform Package; and not knowing how much time the Legislators will spend reading the resolution, she believes the
language should be to the point, i.e. he did not consult with educators, and this should be postponed until it goes through an appropriate process.

Mr. Abrams clarified board member questions and that the Board must vote on what the language will actually be before it is sent to the Legislators. He also explained that he wrote this based upon the work session discussion on MFP dollars and not general opposition to everything; but is now working on proposed revisions based on the Board’s input. Mrs. Armstrong said that in the final statement, she feels we need to reiterate the Board’s opposition and stated to the point that the Caddo Parish School Board is opposed to the Jindal Reform Plan in its entirety.

Mr. Hooks stated that he hears Board members concerns, but reality is the Governor has his people in line and whatever he brings down will pass. He said he has been telling the Board that the Caddo Parish School Board will no longer be the Caddo Parish School Board as we have known it; however if we fight, we have to gain the confidence of the constituents and their support. He added it is his hope that this can be turned around. He asked staff how will we know if the resolution gets in the right hands once it gets to Baton Rouge? Dr. Dawkins stated that communication of this nature is normally sent to each member of the Legislative Delegation, the Governor, the Lt. Governor and it is sent certified mail.

Ms. Trammel stated her understanding of the concerns that the Governor will not pay attention to what we are saying; however, if we don’t send him our concerns, she doesn’t believe it will make a difference. She encouraged everyone to send emails, etc. because someone will be reading them, and as simple as possible and to the point will be better.

Mrs. Bell encouraged sending this to the Legislators as expeditiously as possible as this is an urgent matter. She shared with everyone that she sees confidence in the Caddo School System and we need to fight for Caddo.

Mr. Pierson asked if it is possible to postpone this item for now and move forward on the agenda? With no objection, President Riall stated that the Board will move forward on the agenda and return to this item when Mr. Abrams has an opportunity to make the revisions to the proposed resolution.

Following the student readmission appeal, the board continued discussion with this agenda item and Mr. Abrams presented the following resolution opposing Governor Jindal’s Education Reform Package for the board’s consideration.

Whereas, HB974 and SB603 have been submitted as Governor Jindal’s Education Reform plan; and

Whereas, the Jindal proposals have not been properly vetted and does not consider the impact on the teaching profession, and

Whereas, the effects on the local districts have not been studied and are destructive to public education; and

Whereas, for the past four years public schools across the State have received no increase in MFP, the funding formula that provides the per pupil allocation based on state and local revenue shares; and

Whereas, during this time school districts have absorbed an increase of 50% over the past four years in employee retirement and health care contributions, an annual inflation rate of
approximately 3%, thus lowering the per pupil expenditures available for schools and district operations; and

Whereas, Governor Jindal and Superintendent White have imposed a voucher program; this proposal was adopted by BESE and will be brought to the Legislature for their endorsement; and

Whereas, the MFP resolution submitted by the Governor through BESE will further reduce the MFP to local schools by funding state schools out of funds traditionally allocated to local schools; and

Whereas, it is anticipated that MFP for Caddo Parish Schools will be reduced by $1,457,176.00 in 2012-13; and

Whereas, if passed by the Legislature, the above cost will be carried on for years in the future resulting in a drain on the finances of local school districts causing Districts to pay for programs at schools it has no authority to oversee or shut down should they be considered unconstitutional; and

Whereas, the inequity of funding as presented is harmful to the education of our children; and

Whereas, due to the above, the members of the Caddo Parish School Board request the Legislature to reject the MFP funding plan submitted by BESE and to return the proposal with a directive to fund traditional statewide schools and virtual schools without reductions in MFP to local school districts.

Now Therefore Be It Resolved that the members of the Caddo Parish School Board would oppose the funding plan submitted by BESE as recommended by Superintendent White and Governor Jindal reducing the MFP allocation of local school districts and unfairly reallocating the funds to traditionally state-funded schools and virtual schools.

Be It Further Resolved that the Caddo Parish School Board opposes the voucher system and the attacks on local school boards and public school teachers.

Be It Further Resolved that this resolution be spread upon the official minutes of the board with copies being sent to the members of the local delegation, members of BESE, and the Governor of the State of Louisiana.

Mr. Rachal asked that the resolution be sent to the entire Legislative body versus only the local delegation. Mr. Rachal moved, seconded Miss Green, to approve the resolution as read by the Board Attorney with the change to include sending to the entire Legislature, and that the proper House Bill and Senate Bill are related accordingly. Vote on the motion carried unanimously.

Mrs. Armstrong said it was requested certified mail; however, she believes there is a better way to do this. Mr. Abrams said we will not want to send certified because they will never receive it.

**LEVEL IV GRIEVANCE**

Mr. Ramsey moved, seconded by Mrs. Armstrong, to uphold staff’s recommendation at Level III.

Mrs. Crawley moved, seconded by Mr. Hooks, to postpone until the two parties can get together in a joint fashion. Mrs. Crawley said if it is true, she does not want to ramrod something through; and it is important that everyone has due process. Mr. Hooks reiterated Mrs. Crawley’s comments and these people deserve a chance, so he believes the best thing would be to postpone and bring it back.
Mr. Ramsey stated that we are following due process and all the documentation is on BoardDocs; and while he can’t speak for other board members, he did read the documentation and the facts are in the documentation. The original motion is due process and he is following Board policy.

Miss Green asked if Mr. Ramsey is saying take it back to Level III and Mr. Riall verified that the motion is to uphold staff’s recommendation at Level III.

Vote on the substitute motion failed with Board members Pierson, Crawley, Hooks, Crawford, and Armstrong supporting the motion and Board members Riall, Green, Trammel, Ramsey and Bell opposed. Mr. Rachal abstained.

Vote on the main motion carried with Board members Pierson, Crawley, Hooks, and Crawford opposed and Board members Riall, Green, Trammel, Ramsey, Armstrong and Bell supporting the motion. Mr. Rachal abstained.

EXECUTIVE SESSION

**Student Readmission Appeal.** Mr. Ramsey moved, seconded by Miss Green, to go into executive session for up to 10 minutes for the purpose of a student readmission appeal hearing. Vote on the motion carried unanimously and the board went into executive session at approximately 6:32 p.m. The board reconvened in open session at approximately 6:53 p.m. Mr. Ramsey moved, seconded by Mr. Hooks, to uphold staff’s recommendation for student T.W. Vote on the motion carried with Board members Crawford and Armstrong opposed and Board members Riall, Green, Pierson, Crawley, Hooks, Trammel, Rachal, Ramsey and Bell supporting the motion.

ANNOUNCEMENTS AND REQUESTS

Mrs. Crawford asked that staff provide a copy of the principals’ actual remarks about seven-period day, if there is a way high schools can be helped to mediate the loss of teachers, schedule a presentation on the program at Shreve Island, and update on request to form charter preK schools for those students we are not servicing.

Mrs. Bell asked if it is possible to hold a press conference on the resolution approved by the board on the state mandates and the board’s opposition to the Governor’s education reform plan.

Miss Green asked for an update on the Sungard Program. She also recognized three staff members that have helped her tremendously this week: Amy White, Title I; Kathy Retelle, supervisor of music, for getting instruments for the students at Green Oaks; and Carla Moore, director of Child Attendance and Welfare.

Mrs. Crawford announced that she was very impressed, when visiting Riverside last week, with how orderly and well behaved the students were when they were being dismissed.

**Adjournment.** Mrs. Bell moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:05 p.m.
The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at 4:30 p.m. on Tuesday, April 3, 2012 with President Steve Riall presiding and Dottie Bell and Larry Ramsey present being a quorum. Other school board members present were Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, and Ginger Armstrong. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Ms. Priest led the prayer and Pledge of Allegiance.

**ESTABLISH THE AGENDA FOR THE APRIL 17, 2012 CPSB MEETING**

Superintendent Dawkins announced that at board members’ stations was a proclamation on Attendance Awareness Week April 9-13, 2012. Proposed items were highlighted for the board’s consideration at the April 17, 2012 CPSB meeting and the following discussion ensued.

**Approval of CPSB Member Redistricting Plan.** Mrs. Crawley asked that the large maps for Plans 15 and 16 be posted between now and the board meeting for review. Miss Green stated that one of the main reasons she agreed to postpone was because she did not have anything to choose from, and there doesn’t seem to be any difference with Plans 15 and 16. Mrs. Bell asked for clarification and if there is a new map since the last meeting when Plans 15 and 16 were proposed? Ms. Priest explained there is not another new map. Mrs. Bell said when consideration began for the redistricting plan, she understood that each board member was to get with fellow board members if precincts were needed from their particular district. Mr. Ramsey explained that in redistricting, numbers have to match up and if a precinct is moved to another district, verification must be in place to make sure the numbers are in balance and is why every time there is a change, the maps must be revised before the board can vote on them. Mr. Ramsey also noted that the maps are on BoardDocs and can be enlarged to any size.

Ms. Trammel reminded board members that the smaller maps are available at the office for comparing; and while she understands there are areas that board members keep (areas in which they live), she asked about those areas board members are willing to give up? Mr. Abrams responded that they still have to meet the percentage points as described by Dr. Joiner.

Mr. Rachal referenced the discussion and debate at the last meeting that led to the board postponing this item and that he would like to know if the issues have been resolved with either Plan 15 or 16 so at the April 17th board meeting the board can move forward. Mr. Pierson explained that he requested a different plan and that plan was Plan 16; and as he stated at the last meeting, there was an impasse between District 3 and 4 and 8. At this point, neither plan suits all three of them, so he has gone to Dr. Joiner to determine what compromise can be made, i.e. Anderson Island, Stoner Hill east of Youree Drive.

Mr. Rachal stated it is obvious that whatever plan is approved will not please everyone, and there is nothing that can be done to change it and hopefully the board can come to some type of agreement.

Ms. Priest stated, in response to Ms. Trammel’s request, one cannot move anyone out of district and no plan will give any board member exactly what they want. The redistricting in 2002 reflected a shift in the city’s population which meant each board member district would be impacted. In this redistricting, she added that each board member will have to give something; because this is about population and keeping each district within a certain deviation.

Mrs. Crawley stated she believes everyone understands, but it’s about schools more so than the Commission and people want to be represented with the school they are in. She added it is about
what the constituents want and they do not want the Commission map and keeping continuity. She also stated that the board needs to be a board that listens to the constituents and the neighborhoods when they approach the board.

Mrs. Crawford noted some differences that were big to her; and while Plan 15 allows her to keep Precincts 9 and 13 (which are located ½ block from her house) and a large part of her voting base and is the same thing Mr. Pierson wants in his district – continuity. In Plan 16, she loses Precincts 9 and 13 and the continuity. She asked for the change in Plan 15 because these two precincts are close to her and are constituents she can count on. Mrs. Crawford also stated that she doesn’t understand why board members are not willing to work with each other, and encouraged the board to make a decision and move forward and not be distracted from other important issues that need the board’s attention.

Mrs. Bell stated she has always thought the board was 12 members together and when the Commission addressed their districts, her counterpart on the Commission contacted her and they worked together. She said she is bothered by this because she believes it is all about the children; and she represents those that live in District 12, but she represents all the children in Caddo Parish. She encouraged the board to come to the meeting on April 17th prepared to vote on a plan and move forward.

Mr. Hooks said he believes problems with this began when he and Ms. Priest were zoned out of their district, and a new precinct was created for him and then Judson was given to Ms. Priest and Mooretown to him, which did not matter to him.

Mr. Pierson said his only concern is it is not about schools and who represents what schools, because every board member has students living in their district that attend a school in another board member’s district. He reminded the board that many years ago when the Police Jury (Commission) approved the individual districts, the same districts were established for the School Board and it was this way for many years, and he doesn’t believe it was ever this difficult. He encouraged the board to do what needs to be done to vote on a plan on April 17th and move forward.

Proposed Revision to CPSB Policy JG. Mrs. Crawford asked about the revision on page 3 addressing expulsions and if any student threatens a teacher or commits battery, the principal shall recommend students for expulsion; and she knows teachers are being threatened and students are not being moved from that classroom. She expressed that she doesn’t see putting this in the policy if principals are not going to follow through. Understanding why, because of Dr. March, they do not want to do it, Mrs. Crawford said there should be no room for this in the classrooms and these students should be expelled. She asked if staff will be enforcing this policy if the board approves it. Dr. Dawkins responded that this is an addition being put in for this reason and that reason is there is no tolerance for any threats or assaults on a teacher or staff member, and yes it will be enforced.

Mr. Riall noted the inconsistency in the numbering of the backup information and asked if there is a page missing? Mr. Abrams explained that the only parts presented are those that actually have revisions and reminded the board that last year a teacher wanted to be present when there was a claim of striking a teacher and the committee met to modify the policy to allow the teacher to be present during the hearing if she so chooses and can do so by actually being present or submit her statement in writing. He also noted changes in the requirement to record the hearings which was brought on by the incident when the student at a high school had liquor in their backpack; and if recorded, would provide what is needed. The recording will be transcribed only if required and also reminded the board that during that process the judge was disturbed because there was not a recording of the hearing. Dr. Dawkins asked if there are any proposed changes under 3 and 4. Mr. Abrams explained the proposed revisions and that some of the language is
added because it is in the statute and includes what the principal must do to make the superintendent aware of any such instances.

Mrs. Bell asked for clarification on Page 1, No. 5, and how it could be misleading. She said if a principal may allow a student to return without a conference if it is determined to be in the best interest of the student, and if a guardian willfully refusing to attend a conference, meeting or hearing regarding a student’s behavior shall be referred to court. She said it appears that the parents are asked to be present, but it also says the principal can bring a student back without the parents. Mr. Abrams said it makes perfect sense since the principal is allowed the latitude to bring a child back when a parent will not show up, and then you can go directly to court and have something done to get the child back in school. Sometimes a parent will not show up just because and it’s the parents problem, not the child’s. Mrs. Bell said she believes the wording may need changing because a parents might say they do not have to go because the principal has the authority to say a child is returned, so she questions who is in control. Mr. Abrams said the principal is always in control, and Mrs. Bell said that is not clear. Mr. Abrams also added that he believes 416, the statute, is written that way and if it is read in context it says parents are given the opportunity and are required to return after a suspension. Mrs. Bell asked the Board Attorney to look at the wording.

Mr. Hooks said based on what he read in the local newspaper about children should not fear bullying, because when a child continues to harass a teacher, this too is a form of bullying, and he doesn’t believe the board will have to worry about this very much longer. He said he attempted to accomplish this last year and reminded the board members that Louisiana does not have bullying legislation. Mr. Hooks added that teachers cannot teach today because students know exactly how far they can go.

Ms. Priest noted some information that she believes is conflicting and she believes it is important to enforce the policy and provide uniformity in enforcing this item. While this is an opportunity for the Caddo District to make some changes, it is important to have discipline in the classroom. The teachers are trying to teach and the students are attempting to learn. She added it is important to remember that every child has a right to learn; and just as there is a behavior policy to enter the magnet schools, there is also a behavior policy to say if a student cuts up, they cannot stay in the classroom and it is necessary to separate those that are not in the classroom to learn. Dr. Dawkins assured Ms. Priest that upon adoption of this policy, all staff will be trained. Mrs. Armstrong stated she cannot agree with Ms. Priest more, because she knows for a fact that there are principals refusing to allow teachers to send students to the office and the teachers are penalized if they do, as well as reprimanded. When this happens, it is a harsh reality to her that teachers are treated in this manner by principals. Mrs. Armstrong noted that all the principals need to start supporting the academic staff and giving teachers the support by holding students accountable. She also stated that the school board needs to also do what needs to be done to create quality instructional programs for the students despite what will be put on the academic staff to carry it through.

Mr. Ramsey asked that when it gets to a point of disciplining these students, please do not move them to another school. Mr. Hooks said rest assured that once Caddo gets a handle on discipline in the classroom, he guarantees test cores will improve. The parents also need to be held accountable for their actions, because where there is no discipline there is no learning and where there is no discipline, there is no teaching. He also stated that it is important to not send the wrong message by saying we are not experiencing any discipline problems when in fact discipline is a problem.

Mrs. Crawley asked the superintendent about JPAMS and Dr. March and the requirement to record everything and are teachers entering disciplinary problems because some schools are telling her that they are not allowed to do so. Dr. Dawkins responded that if there are those not
entering data or they are being told not to enter disciplinary data, it did not come from him and he knows nothing about it, but would like to know what schools are experiencing this.

Mr. Abrams explained the policy is complete and No. 2 is the very last one under expulsion and Attachment 3 begins the next segment.

Mr. Pierson stated that having spent a lot of time in the classroom, there is a very thin line drawn between an effective teacher and one who controls their classrooms and one who does not. He stated he believes teachers need to be supported; however, he doesn’t believe discipline can be legislated. He does, however, believe that somewhere between the superintendent, personnel, administrators, policies, is a point where everyone is worked with, including parents, to make sure that we can have some type of order and help maintain that order. He doesn’t believe we should be so anxious to throw students to the juvenile courts, etc. He reminded everyone to look at the scores (numbers) and the board needs to do the best it can to support the teachers in alleviating some of the problems they have so they can be more effective in classroom discipline.

**Resolution Relative to Oil, Gas, Mineral Lease (Kirby Oil Company).** Mr. Abrams explained that this is a potential oil and gas lease on the old Hosston property. He said the amount of bonus recommended is $1,000, and he talked to John Madison about this and Mr. Madison was not certain; but the rates are relatively low at this time. Mr. Abrams further explained that it will be submitted to the Mineral Board who will determine the fair market value based upon solicitation.

Mr. Ramsey asked Mr. Abrams about the $1,000 an acre and the limit of 20% on royalties, and he believes this is shortchanging us on both ends. Mr. Abrams explained that the board can change this to 25% if it chooses to do so, because this is their proposal. Mrs. Bell asked Mr. Riall if this is what is being offered in the northern part of the parish? Mr. Riall explained that Hosston is in a shallow well, Cotton Valley area, and $1,000 is approximately the going price. He also stated that the one requesting the lease is the same person that recently purchased the property and he is using the property as a community service project. To his knowledge, Mr. Riall said there are several wells besides Hosston and near the school and they are producing which will be income for the District. He also clarified these are oil royalties and not gas royalties and oil is paying more than gas at this time.

Mr. Rachal noted that we are mandated by state law that we cannot accept anything less than the appraised value, which is what the gentleman offered. He said he doesn’t believe $1,000 an acre is enough and he doesn’t agree with the 20% and believes standard is at least 25%. He added he will be suggesting at the board meeting that this be changed. Mr. Riall noted that all the Board is doing is leasing about 1500 feet of a shallow well, and Mr. Abrams confirmed that there are a lot of shallow oil and gas leases and we do not have the rights to go below which does not put us in the same level as what was done with the Haynesville Shale. Mr. Abrams added he will revisit with Mr. Madison, but the leases are for the shallow portion which means you would still be able to lease it for gas in the future. Mr. Riall asked if we lease for shale in the future would we not put a cap on that in the event the Smackover Field comes into that area?

Mr. Ramsey asked if 20% for oil in a shallow well is appropriate? Mr. Abrams said he will get with Mr. Madison prior to the next meeting and make the board aware. Mr. Riall added that in the past the shallow well royalties have been 1/5th.

**Request to Sponsor H1B Visa for International Teacher.** Jan Holliday explained that the backup documentation was sent to the immigration attorney for his review and she is awaiting his response. She further explained that this is for a teacher employed as a math teacher, and is not one of Caddo’s Filipino teachers, but is a teacher employed under an employee authorization card which will expire in September when she will be eligible for an H1B application. Mrs.
Holliday also announced that this teacher is Caddo’s high school teacher of the year and staff will move forward with this request with board approval.

Ms. Trammel stated she is pleased to see this on the agenda and encouraged the board to look at this teacher’s background and the great job she is doing at Woodlawn.

**Approval of MOU for Christus Linwood School Based Health Center.** Superintendent Dawkins explained this is an agreement with Christus Schumpert to continue to offer these services in the Linwood neighborhood. Mrs. Crawford asked if the program will be continued at Woodlawn High School also.

**ADDITIONS**

Mr. Ramsey requested that an item be added to the agenda for Approval of the Budget for the 2012-2013 School Year be added to the agenda. Mr. Ramsey stated that students are already registering for classes for next school year and he believes we need to move forward. Mr. Lee explained that it can be ready for adoption in April, but it cannot be formally adopted until it has been available to the public 15 days prior to board action and advertised in the paper 10 days prior to board action. Mr. Ramsey said he believes the main problem at this point is addressing the high school curriculum and what schedule will be used, and the need to get this information to the administrators so planning for next school year can be addressed. Mr. Lee added that he believes a staffing formula can be ready for the board to approve along with a budget based on what the board approves. Mr. Riall asked if the motion will now stay the same? Mr. Ramsey asked if the motion will now stay the same? Mr. Ramsey asked if the motion will now stay the same? Mr. Lee explained that a staffing formula can be ready for the board to approve along with a budget based on what the board approves. Mrs. Crawley said she is not even considering the seven-period day based on the many emails she is receiving from her constituents that they will move to a private school if we do not offer the block schedule. She asked if options on the budget reflecting all three scenarios will be presented and the superintendent responded staff will provide this information.

Mrs. Bell stated her agreement to address scheduling and asked the superintendent if he will explain the three different schedules at the budget work session on Thursday, and is it possible to put this on the agenda for the board’s consideration? Dr. Dawkins responded staff will bring this information and if the board chooses to act on this at the April meeting, they will have the opportunity to do so. Mrs. Bell asked if this portion of the budget can be on the agenda, i.e. staffing formula? Mr. Ramsey clarified that is what he is requesting for the next agenda and he has already shared with the Superintendent that his preference is the 4 x 4 schedule. Mr. Riall announced that there is no backup provided on this item so the board cannot discuss further.

Mr. Hooks asked that **Disband the Sungard System** be added to the agenda for April 17th.

Mrs. Crawley asked about the solution to the Byrd parking lot being presented for the board’s consideration, and if the Superintendent will be prepared to bring a recommendation for the funding source? Mr. Woolfolk updated the board on the recent meeting held to discuss options and the cost for each of those options. It was reported that at this time, discussion is still ongoing with the homeowner about that possibility.

**ESTABLISH THE CONSENT AGENDA**

President Riall announced that Items 6.05, 7.01, 8.02 and 8.05 are the consent agenda items. *Mrs. Bell moved, seconded by Mr. Ramsey, to approve the proposed agenda and consent agenda for the April 17, 2012 CPSB meeting as presented. Vote on the motion carried unanimously.*

**POLL AUDIENCE**
Jackie Lansdale, Red River United/Caddo Federation of Teachers/Support Personnel, expressed her appreciation to the Discipline Review Committee for coming to the board with the proposed changes regarding assault and battery allowing teachers to be a part of the process. She also stated the issue with JPAMs is real and teachers are not allowed to put things in JPAMs and she will be glad to provide names. Regarding scheduling for the next school year, she is not hearing academics and with Common Core being newly implemented next year, it will be important for the board to consider a schedule that includes extended classes for students to have the opportunities needed and what select a schedule that is best for the academic program. Mrs. Lansdale also shared information on Caddo’s tenure teachers and how they are impacting the classroom.

Brianna Jett, freshman at Caddo Magnet High School, shared with the board how unhappy students are about the proposed seven-period day which will cut the number of classes/credits students can attend/earn. She said these are needed in preparation for college and her preference of the AB schedule and why it is a good schedule for high school students.

As a point of personal privilege, Curtis Hooks noted that Wednesday will be an important day in Baton Rouge not only for teachers, but for students as well as school board members. He said this will be an administrative nightmare with the number of teachers anticipated to be out because they are traveling to Baton Rouge. He asked the Superintendent about the possibility of declaring a non-teaching day because of the number of subs that will be needed. Dr. Dawkins said that he has been made aware of the possibility for a large number of subs; however, staff is monitoring and will meet following the board meeting to finalize the plan to keep school open.

**Adjournment.** Mrs. Bell moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:23 p.m.
April 5, 2012

The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 11:00 a.m. on Tuesday, April 5, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl Pierson, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Secretary Gerald D. Dawkins, and Reginald Abrams, legal counsel. Ms. Priest led the prayer and Pledge of Allegiance.

Superintendent Dawkins stated that in the next couple of weeks staff will respond to new challenges from the State and today will continue to share information on the proposed budget for the 2012-13 school year.

Antionette Turner, chief academic officer, and Bruce Daigle, director of school performance, shared with the board various scheduling options for the high schools and asked the board to be reminded of two additional changes taking place in the fall - the implementation of the Common Core curriculum and changes affecting ages 4 on up beginning with Phase 1 at the kindergarten level. She said with the change in the curriculum, additional time for training, resources, etc. will be prepared as well as a change in the expectations and the connection to the evaluation and test scores. Dr. Dawkins reminded the board that the Common Core Curriculum has been adopted in over 40 states and Mrs. Turner added that what is being presented is a scheduling option and the differences in scheduling options, i.e. A/B, 4 x 4 or Seven Period Day. In talking about scheduling options, the difference is in the quality of teaching and learning in the classroom which can happen in all three options. When working with curriculum, instruction and teachers, Mrs. Turner addressed how staff daily discusses ways to improve and make instruction better by talking about what is working, what is not working and how it can be done different. She also addressed the benefits of all the high schools being on the same schedule, as well as comparisons of the scheduling options including cost to implement, training, instructional minutes, credits available to students, Dual Enrollment, Virtual School, and remediation. Mrs. Turner further explained the A/B block has students in a particular class every other day, and 4 x 4 holds four classes everyday for an entire year, completing a year course in halfa school year, both with the ability to earn 8 credits in a school year.

Mr. Lee noted the changes made since the last time the board saw the budget and highlighted the budget summaries presented, including the negative $6.2 million which has changed from the first proposed budget reflecting a positive $50,000 balance. Mr. Lee also explained that the proposed budget presented is a legally adoptable budget; and if the board chooses to adopt it, the state will accept it. He emphasized that the original proposed 2010-11 budget reflected a negative $29 million and this proposed 2012-13 budget beats that amount by $22 million. He explained that there are many positive variances each year, i.e. vacant positions, that are budgeted but not spent and this $6 million will possibly be covered unless something unexpected happens. Mr. Lee also highlighted how the proposed budget went from a positive $50,000 to a negative $6 million including reduced revenue in MFP dollars of $4 million, increased property tax revenues, increased expenditures for staffing, reorganization of alternative schools, shifting of some expenditures to Federal funds, and reduction of approximately $1 million in Central Office and operations.

Superintendent Dawkins explained that this budget, as it stands, keeps block scheduling in and does not have any layoffs of staff.

Ms. Trammel asked Mrs. Turner if there is a scheduling trend for high schools in Louisiana? Mrs. Turner explained there are variations across the State and variations/modifications even within the 4 x 4 and A/B schedules. Ms. Trammel asked if she understands it is best for all high
schools to be on the same scheduling and the board needs to decide on which scheduling option Caddo Parish will use. Mrs. Turner responded that one of the reasons the District originally went to the A/B Block was the benefits of being able to share resources, students and staffs. With the 4 x 4 and the A/B Block there are many similarities; however, the biggest difference is locking in for an entire week with one schedule and the other schedule alternates. She added there is also a difference in the expectations for planning for teachers and the workload for students. Ms. Trammel asked about parents’ concern that on the A/B Block Schedule if a student misses class one day they do not see the teacher for several days. Mrs. Turner confirmed that is correct with the A/B Block and staff has modified it by variances in organizing and managing students’ schedules. Ms. Trammel asked if a more-seasoned principal at a school can better understand needed planning? Mrs. Turner explained that time and effort are needed in building a master schedule and it doesn’t necessarily mean a seasoned or experienced principal adds to that. Options are discussed at principal meetings, and how to make it work in each individual school is the challenge; and there are additional challenges with the 7th and 8th graders in with the 9th through 12th graders. Staff will continue to work closely with the principals to make sure they have all the information they need in order to make the best decisions for their students.

Mr. Hooks asked for a Point of Understanding because at the last meeting he heard the word outsource, i.e. transportation, and he understands from the Superintendent there will not be any layoffs. Superintendent Dawkins responded there are no layoffs in the budget presented. At the last meeting, a board member asked about outsourcing and going to outsourcing is a different scenario that would implement a RIF if people are separated from the District. Mr. Hooks said he has been asked these questions and he understands from the staff’s response that employees in positions that may be outsourced would be given the opportunity to work for the new company. Dr. Dawkins responded that is correct and Mr. Hooks asked if it is correct that typically most employees will be hired if they meet the hiring practices of that particular company. Mr. Riall interjected he is the one who brought this up; however, at this time, there is nothing planned for outsourcing, but only a theory to look into. Mr. Hooks asked before this is considered that it is looked at very closely because many employees have invested their life into the school system and if the service they provide is outsourced, they will lose retirement, benefits, etc.

Mrs. Crawley asked for clarification on the number of budgeted positions (54 regular teachers, 19 teacher’s aides, 16 special education) and how we are reducing these positions (other than through attrition), by school, grade, etc. Mr. Lee stated that part of this is looking at the staffing formula; and besides the normal changes from year to year, staff is looking at the Kindergarten and 1st grade classes. Previously the formula has been a “hard” number of 20 to 22 per teacher which means if there were 23 students, the principal got a second teacher when in other grades, the number was rounded, as long as it stayed within the state guidelines. Mrs. Crawley asked if staff is telling principals they must cut a certain number of teachers? Mr. Lee responded that high schools did not change, and Mrs. Crawley asked if that means Byrd will have the same number of teachers, and Mr. Lee explained that high schools did not change and it is based on the number of students. Mrs. Crawley asked if a school has two kindergarten classes, each with 26 students, will they have 26 students all year or maybe 28? Mr. Lee said not 28 because this is above the state allotment, and Mrs. Crawley noted that it used to be 28 and almost all had 28 before the board changed it to 20, and her concern is the second graders will not know how to read even though kindergartners have been able to read when there were only 20 to 22 students in a class. Mrs. Crawley also encouraged staff to meet with Caddo Magnet High since it is different from the neighborhood schools; and if they want to keep the A/B Block, she would like to see that happen so we can make sure the best is afforded the students at Caddo Magnet even if the remainder of the schools uses a different schedule. Dr. Dawkins said discussions will be held with any changes; however, he reiterated the importance and advantage of being consistent in the system. Mrs. Crawley reminded everyone that Caddo Magnet High does not experience changes in the student population during the year as other high schools in the District do.
Miss Green asked staff if there is any idea as to how many retirees there will be this year? Mrs. Holliday responded that on average, approximately 140 teachers retire.

Mr. Ramsey stated he is not happy that the budget is not balanced and that we are exploring this possibility and not allowing for variances and other things that could happen that will affect the budget? Mr. Lee responded that variances can be put into the budget; however typically what has been done in the past is budget for possible positions because if we do not budget positions and money associated with those positions, we cannot put subs in position if there is not a teacher to be replaced. In essence, staff budgets as if we will be fully staffed even though staff realizes, because of what typically happens in any given year, there will be at lease 40-50 vacant special education teachers that we are unable to fill. Basically, he is only tweaking the numbers to make it balance. Mr. Ramsey asked if the budget reflects the potential loss for the approved voucher bill and how we will be affected, and Mr. Lee said it does not. Mr. Ramsey asked if what we pay for sub teachers is included in the proposed budget, and Mr. Lee said it is. Mr. Ramsey said to “continue to kick the can” down the road in balancing the budget is no different than what the State has done with the retirement system and why local Districts are having to budget additional amounts for these liabilities which will only get worse down the road. In now choosing which option will be used for the high schools, he noted there are other options available and outsourcing is one way to possibly address expenditures and cover shortfalls and not continually extend them. He noted this will only get worse; and at some time, a board will have to address these issues.

Mr. Rachal asked how many contracts for outside sources is the District currently locked into as well as what we pay them, and are we mandated to do so? Mr. Lee responded that staff can look into this further and provide it again to the board. Mr. Rachal asked staff what is the preferred class schedule for high schools? Dr. Dawkins responded that staff has entered into the budget the A/B Block schedule option for the last 1.5 years with staff in place to support and staff is recommending that the District continue with this option which appears to be working. He added that the only reason for the discussion is the cost and staff continues to look at ways to alleviate the cost. Mr. Rachal asked if the proposed budget is what staff is recommending and Dr. Dawkins explained that the proposed budget does reflect the A/B Block option.

Mrs. Crawford asked for copies of the proposed student teacher ratio as it will be reflected in the revision to the staffing formula. She also said that when the teachers went to Baton Rouge, Central Office personnel were used to fill in as substitutes and she notes that we are not using any of these positions, but we are losing teacher positions. She suggested that maybe the supervisors can continue to be used to offset some of the cost for subs. Mrs. Crawford stated that even though the board passed a motion that a “balanced” budget be brought to the board, the projected budget is the same as is always brought to the board even though there may be changes brought to the board to change the budget over the course of a school year.

Mrs. Holliday further explained that what is presented to the board only reflects changes in the budget associated with changes in the Kindergarten and 1st grade allotment. She also referenced the minimal “housekeeping” changes and added that the change reflects the way the Kindergarten and 1st grade classes will be staffed and the allotment will be rounded rather than a hard formula. Mrs. Crawley asked if she understands correctly that if there are four teachers at a school, it could be reduced to three teachers that will have 26 students in a class? Mrs. Holliday said if that is the way the enrollment falls, and we stay within the State limit of 26 students in a class. Mrs. Crawley stated she knows this has happened (gone above the staffing formula) in the past and asked if she understands this could possibly save the cost of 30 teachers, and Mrs. Holliday said that is correct.

Ms. Priest asked staff if they have determined the sentiments of the students directly affected by the 4 x 4 or A/B Block schedule? She said if it has not been done, she would recommend putting
together a focus group made up of students and a teacher from each high school to determine their preference. She also asked if the District is taking advantage of the Distance Learning and technology capabilities in our schools? Mrs. Turner responded that staff is taking advantage of Distance Learning; and while this opportunity is available, all schools have not maximized use of this technology. Ms. Priest asked why have schools not done so, and Mrs. Turner stated it has to do with organizing the scheduling option and staff continues to work on this. Ms. Priest said that is not a good answer when the board has spent the amount of money it has on technology and these opportunities are passing students by. Mrs. Turner said staff will put in place to take full advantage of the District’s technology.

Mr. Riall asked Mr. Lee if the remediation fee difference amount is for the Superintendent’s Targeted Schools? Mr. Lee responded that is correct. Mr. Riall reiterated what Ms. Priest requested to get input from the students and asked Mr. Daigle his assessment based on his experience as a principal? Mr. Daigle responded that A/B Block is popular because of the flexibility it gives principals, and 4 x 4 is fewer courses at one time, but it is more stringent and if students are asked, the response will possibly be split. Mr. Riall agrees that students need to be included in this decision.

Mrs. Bell asked how can we do a balanced budget with all the decisions and changes being made in Baton Rouge? She said while we might be able to balance the budget, she believes what staff has presented is something the board can work with. Staff cannot predict how many will retire because there are those that will decide in the middle of the year. Mrs. Bell also reminded everyone that since she first came to the board, her theme has always been “All Schools” taught the same things. She also stated her understanding for seeking the students’ opinion but asked what will be done if ½ of the students say 4 x 4 and ½ like A/B Block? She noted that employees have been trained on the A/B Block and the previously used seven-period day, and she does not believe one school should be placed above another one. She stated everyone needs to think about what is best for the children and what is best for the children is best for ALL children.

Ms. Trammel stated that in conducting surveys, when you get the opinion of one child, one school, one principal, you only get the one opinion and suggested that, if possible, staff go into the school and meet with a group of 30 to 40 students per school to get their opinion on the options. When asking the students at Woodlawn their preference, Ms. Trammel said she learned most students do not know there is another option beyond the option at their school (A/B Block).

Mr. Hooks stated he was going to leave until he heard the comments relative to Kindergarten and the student teacher ratio and expressed that as an Elementary Education Major, he doesn’t believe consideration should be given to putting more than 22 students in these classrooms. He said we are in trouble and the reason is we keep overloading teachers with more students and as a result, teachers cannot teach and students are not learning. He encouraged the board to look at this closely, because in his opinion, more than 22 students in a classroom will not work, especially in the elementary grades.

Mrs. Crawley stated that eliminating 30 Kindergarten-1st Grade teachers will be “kicking the can down the road” and the deficit will be seen when the students reach the third grade. Mrs. Crawley asked that staff present a budget that does not affect the K-1 staffing allotment but eliminates something that is not associated with the classroom on a daily basis. She believes the teachers are the most important positions we have. Dr. Dawkins stated that staff will continue to look at this, but research is very clear on both sides of the issue and staff will not do anything to overcrowd classrooms. Mrs. Crawley added that before Dr. Dawkins arrived, there really was 28 kindergarten students in a classroom and this improved when the board changed the pupil teacher ratio to 20 and last year it changed to 22. Mrs. Crawley stated that 4 x 4, just like Career Education School, et.al. programs, cannot pretend that all the students will be star athletes, that
they will all go to college, they will all do their homework, and none will be a discipline problem. Mrs. Crawley also stated she is o.k. if all of the high schools are on the same schedule, because she believes fewer changes every year is positive and the positives with 4 x 4 is less homework, fewer discipline problems because of fewer classroom changes. She asked that each school be looked at closely as to what the school is made of because they are not all alike, but should all be afforded the same opportunities. She also said the curriculum also must be tailored to what is best for each child and not a curriculum that competes with other schools. Mrs. Crawley doesn’t want a “one size fits all” and encouraged staff to look at this more closely.

Mr. Pierson asked if this is a roll forward year? Mr. Lee responded that last year was a roll forward year and the board voted against a roll forward; this year is a reassessment year. Once the reassessment goes through, the millages will likely drop slightly, and the max that can be done is go back to what it was this current year. Mr. Pierson asked if the District will lose some money, and Mr. Lee responded no, because in theory we can actually get a little more property tax revenue and is why the revenue budget was revised accordingly. Typically when property taxes go up, the millage is lowered to keep the revenue amount the same. Mr. Pierson said he understands decreasing the millage so the District continues to receive the same amount of money. He also said while he has a preference, and he believes everyone has a preference based on their experiences with block schedules versus the seven period day, he encouraged conversation with the administrators before a final decision is made to get their points of interest and view. Everyone who has a stake in the game needs to express their opinion.

Miss Green reported that she talked to a few students (BTW today) and when asked about the Block Scheduling, some of the students said they were tired of changing and hopef that we will stick with a plan. She also indicated to Mr. Lee her interest in talking about the music program.

Mrs. Armstrong asked if principals were polled regarding their preference for the Block, and which block did they choose? Mrs. Turner noted a number of conversations held relative to the A/B Block and 4 x 4 Block with the majority in favor of the 4 x 4 and the numbers were based on the number of principals voting. Mrs. Armstrong referenced conversations relative to outsourcing and asked if there has been any movement to get a pricing for outsourcing any department? Dr. Dawkins responded that the District receives solicitations all the time from various companies, i.e. everything from risk management, to transportation, to everything we do. Mrs. Armstrong said she is thinking about specifics and, with so many schools that need to be cleaned each day, asked how much it would cost to outsource this type service. She also said if outsourcing is a benefit, we need to consider it, and if it is not, then it needs to be removed from the table. She also asked that staff provide the board a detailed list and cost for sources that could possibly be outsourced because security and transportation, for example, are huge expenses. Dr. Dawkins said if that is what she is asking for, staff will work on and provide this information to the board. Mrs. Armstrong also asked about possible legislation relative to extended sick leave, because the CPSB currently has a policy in place that parallels State legislation relative to extended sick leave and the additional 90 days that are costly to the District in terms of providing subs. She further stated that this legislation will perhaps change this and reduce the number of days, and she believes Caddo needs to follow this legislation. She encouraged staff to look closely at this since so we are not paying double for one service.

Mr. Ramsey announced that HB976 (Voucher Bill) overwhelmingly passed the House this morning, and asked staff to recalculate this in the proposed budget. Mr. Ramsey noted that he is aware of several contenders for these vouchers and he believes a projection needs to be made for the upcoming budget so we are prepared and not surprised. He also stated his disappointment in looking to cut teaching positions that some feel are critical and at the same time not having any numbers on what can be cut if these teachers are not cut.
Mr. Rachal reminded everyone that the School System’s responsibility is to teach children, and he asked if the budget can be broken down to show the breakdown of the employee benefits expenditure, i.e. District cost for health care and for retirement? He said the board is faced with some tough decisions and with our job being to teach children, and the cost of doing business increasing daily, the board may have to make some adjustments in services, i.e. outsourcing transportation, maintenance, food service, custodial, etc. He also referenced the District’s mandated contribution of 24% in the retirement system when the regular private sector only contributes a little over 6%. If teachers want fewer students in the classroom, a value has to be placed on that and questions asked, i.e. if it is not worth having the same type benefits in health care, etc. Mr. Lee responded that staff has a spreadsheet on how they arrived at the numbers and he would prefer to provide those spreadsheets in the future as supporting documentation and not break it out as a separate item on the budget. Mr. Rachal said he doesn’t believe the public is aware of what the massive numbers represent and it helps them to understand the Board’s position and that decisions are being made based on what the State mandates Districts to do.

Mrs. Crawford asked if the $200 M&S money for the teachers could be added back in the budget. She also asked about the Vision 2020 emphasis to increase reading in K-3 and if this has been incorporated in the curriculum; and if teachers need to be cut in that age group will this offset the larger classrooms? Mrs. Turner responded that we have been incorporating additional reading strategies in training the K-2 teachers. Mrs. Crawford asked if improvement has been seen in the reading skills, and Mrs. Turner said according to DIBEL scores, we are seeing some improvement; and staff continues to monitor this. Mrs. Crawford asked about the cost to do this and Mrs. Turner explained that it is strictly through training structures in the individual schools. Mrs. Crawford noted reading groups within large school classes and if Caddo has the smaller groups in place. Mrs. Turner explained there are smaller reading groups for additional reading support based on assessment and it is broken out by skill sets and addressed in a variety of ways. Mrs. Crawford asked about legislation requiring two teachers in certain grades, and Mrs. Turner said she is not aware of any such legislation.

Ms. Priest asked, relative to the reading emphasis in K-3, that partners within the community remain strong. She said she believes we could save the District money by partnering more with Head Start and possibly have a better quality student. Mrs. Turner stated the District does work with Head Start in the pre Kindergarten program and their teachers participate in Caddo’s Professional Development for preK teachers. She also asked staff to develop a list of all contracts currently in place and review how Miami Dade County renegotiated their contracts.

Mrs. Bell stated that outsourcing may look good, but consideration needs to be given to those employees currently holding those positions and how they will be affected, i.e. will these companies hire Caddo employees who have been in Caddo for a number of years and how it will affect their income and benefits. Mrs. Bell asked Mrs. Holliday if, as a result of retirement and various other reasons, there are 10 teacher openings, some of which must be filled with certified teachers, it is possible to know by October whether or not a certified teacher is missing at one school and the need to work with another school that has a certified teacher and connect the two classes so the students needing a certified teacher do not miss any instruction? Mrs. Holliday stated the principals know where their vacancies are the moment they have one and they don’t wait until January. She also said if there are no applicants in a specific subject requiring a certified teacher, the possibility of connecting classes through Distance Learning is something Academics addresses; and there are situations where there are critical shortages. Mrs. Turner responded it is possible and it has been done in the past. Mrs. Bell noted she should not receive any calls in the fall about the shortage of a certified teacher in a critical area.

Mr. Pierson stated his concern with “responsibility without authority”, and when we begin outsourcing services, i.e. transportation, and students are not picked up, we are still responsible, but lose authority if outsourced. He also stated his belief that the budget document is a good one
even though it may not have everything in it that the board would like to see; and he feels certain that things will happen throughout the year that will require the board to make adjustments to the budget. However, if it is something that is sound in judgment, he believes it is important to move forward until we know more about vouchers, etc.

Mrs. Crawford stated that she recently read how much money the RSD spent to outsource Baton Rouge, and their cost (to outsource transportation) was twice as much as Caddo, so it is important that we are cautious when looking at the possibility of outsourcing services.

Mrs. Armstrong said that is her point also and that we can continue to arrive at all types of scenarios, but it is important to look at the facts and not make decisions based on hearsay and assumptions. She added too many times it sounds really good, but the facts indicate differently.

Dr. Dawkins expressed appreciation to the board members for their input and questions and reminded the board that this proposed budget continues with the A/B Block schedule. He added that staff will continue to whittle down the numbers and asked for clarification of Mrs. Armstrong’s request and staff will provide current costs for all services in the Central Office as well as outsource costs and will have these for the board at the next meeting.

Mrs. Bell encouraged everyone to read the Voucher Bill and what all is contained within it.

There being no additional discussion, the work session ended at approximately 1:05 p.m.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, April 17, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lilian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Ms. Priest led the prayer and Pledge of Allegiance.

PRESENTATIONS/RECOGNITIONS

Victor Mainiero, interim director of Communications, on behalf of the board and staff, recognized the following students and staff members for recent accomplishments. President Riall and Superintendent Dawkins greeted each one and presented them with a certificate recognizing their accomplishment. Administrators, family and friends present were also recognized.

Regional Science and Engineering Fair Winners. The following students were recognized as first place winners in the Regional Science and Engineering Fair. Suraj Keerthi, Eden Gardens (Biochemistry); Noah Carscadden, Eden Gardens (Environmental Management); Janay Marston, Eden Gardens (Plant Science); Garrett Chaisson and Jameson Feeney, Eden Gardens (TEAM Engineering and Transportation); Anna Daniel, Fairfield (Environmental Sciences); Arial Kay, Forest Hill (Earth and Planetary Science); Kyra Pamplin, Judson (Medical and Health Sciences); Ella Jones, Riverside (Animal Sciences); Layan Samandar, Riverside (Computer Science); Sumner Scott, Riverside (Engineering, Electrical and Mechanical), and Ajay Letchuman, South Highlands (Cellular and Molecular Biology). Overall Division winners are Garrett Chaisson and Jameson Feeney, Eden Gardens; and overall sweepstakes award for the region is Eden Gardens.

Middle School winners are Calli Sinclair, Broadmoor Middle Lab (Behavioral and Social Sciences); Venkatesh Sivaraman, Caddo Middle Magnet (Computer Science); Arjun Keerthi, Caddo Middle Magnet (Energy & Transportation); Steven Holman, Caddo Middle Magnet (Mathematical Science); and Malik Chancy, Ridgwood Middle (Biochemistry). The Overall Middle Division Winner is Steven Holman, Caddo Middle Magnet (Mathematical Science); and Top Middle School in the Region is Caddo Middle Magnet.

The following high school winners are from Caddo Magnet High School: Morni Modi (Animal Sciences), Caitlin Wilson (Behavioral & Social Sciences), Christina Collins (Biochemistry), Ruth Bishop (Cellular & Molecular Biology), Emily Felty (Chemistry), Elijah Ash (Earth & Planetary Science), Waverly Hock (Energy & Transportation) William “Kade” Stewart (Engineering Materials & Bioengineering), Jana Asuncion (Engineering Electrical & Mechanical), Neil Nathan (Environmental Management), Joshua Smoak (Environmental Science), Luke White (Mathematical Science), Nicole Lim (Mathematical Science), Sarah Rivers (Medical & Health Sciences), Sean Nathan (Microbiology), Henry Lin (Physics & Astronomy), and Heather Dotting (Team Competition). The Overall Division Winner for Top Individual Project is Christina Collins (Biochemistry) and the High School Sweepstakes Award goes to Caddo Magnet High School.
Mr. Mainiero also recognized the following State Science and Engineering Fair winners: Caitlin Wilson, Caddo Magnet High (Behavioral & Social Sciences), Christina Collins, Caddo Magnet High (Biochemistry); Kyle L. Dockendorf, Caddo Magnet High (Engineering: Materials & Bioengineering); Sean J. Nathan, Caddo Magnet High (Microbiology); and Henry W. Lin, Caddo Magnet High (Physics & Astronomy). The Overall State Winner for Top Individual Project is Christina Collins, Caddo Magnet High (Biochemistry).

**Destination ImagiNation State Competition.** The following students from Arthur Circle Elementary were recognized for winning 1st place (for the second year) in the state competition for Destination ImagiNation: Madison Allen, Austin Gentry, Callie Orrill, Hannah Renfro, Evan Reyes, Luke Slabaugh and Cameron Strait. This is an educational program in which student teams solve open-ended challenges and present their solutions at tournaments. The Arthur Circle Team is now headed to the global finals in Knoxville, Tennessee in May.

**Northwest Regional Spelling Bee Winner.** Venkatesh Sivaraman, Caddo Middle Magnet 8th grader, was recognized for winning the Northwest Regional Spelling Bee. Because of his win, he will travel free to Washington, D.C. for the National Competition in May.

**Air Force Academy Appointment.** Captain Shreve High School Senior Zachary Thomas was recognized for being awarded an appointment to the United States Air Force Academy.

**Louisiana Stem Research Scholar Award Winner.** Zackari Murphy, Captain Shreve Senior, recently received the LA-STEM Research Scholar Award valued at over $12,500. This award will afford him the opportunity for summer research positions at prominent institutions and automatic admittance to the LSU Honors College.

**Louisiana Reading Association’s Young Authors Contest.** Rebekah Bryant, ninth grade student at Byrd, was recognized for winning 1st place in the Louisiana Reading Association’s Young Authors Contest for her entry “The Hunt”.

**Cyber Security Award.** Justin Martin, senior at Caddo Magnet High and student at Caddo Career & Technology Center, was recognized for placing 1st in Cyber Security at the Future Business Leaders of America State Conference held during Spring Break.

**Northwood High School Falcon Line.** The members of the Northwood Falcon Line competed in the national competition and won the following awards: National Champion Kick Routine, National Champion Military Routine, National Champion Officer Pom Routine, Gussie Nell Davis Award of Excellence, 1st runner up team pom routine, 1st runner up duet, small ensemble, 1st Runner Up: Latino Ensemble, and several individual National Champions.

**State PTA Educators of Distinction.** The following two Caddo teachers were recently named State PTA Educators of Distinction: Kelley Hobson, 3rd grade ELA teacher, South Highlands Magnet; and Charles “Brad” Campbell, English teacher at Caddo Middle Magnet.

**National Board Certified Teachers.** The following teachers were recognized for receiving National Board Certification: Gavin Abner, Summer Grove Elementary; Stacey T. Daniels, Caddo Heights Math/Science; Polly Lee, Alexander Learning Center; Marvin Rainey, Instructional Coordinator, Oak Park Microsociety; and Debora Tipton, Shreve Island Elementary.

**2012 Times Outstanding Leader Award.** The Times recently presented the 2012 Outstanding Leader Awards to Patrick Greer, principal, Booker T. Washington New Technology High School; and Pittre Walker, coordinator, Caddo Homeless Program.
Newly Appointed Administrators. Dr. Mary Nash-Robinson recognized newly appointed administrators Joseph Johnson, assistant principal at Booker T. Washington New Technology High School; Dr. Sheila C. Lockett, supervisor of Compliance; Darlene B. Simons, principal at Northwood High School; and Karen Pharr, principal at Keithville Elementary/Middle School.

Jasmine Green recognized Isaac Pamplin for his many years of outstanding service to the Caddo Parish School System.

VISITORS

Jon Glover, Caddo employee, shared her frustration as a citizen because each time she comes before the board, it has already decided on what will be implemented. She asked, referencing Vision 2020, who benefited from its implementation, because she doesn’t believe it was the children of Caddo Parish. She said no success could ever be seen from its implementation even though all board members agreed to it and even though Governor Jindal and the State Superintendent were able to bring about these drastic changes in how our education system is handled. She said she believes those approaching the board are wasting their time since the board will no longer be included in the decision process; and she reminded the board members that each one of them works for the Caddo Parish School System. Having allowed the education system to be manipulated by those who do not have the children’s best interest at heart, she questioned where this leaves the public school system, because a majority of students have been put at an impasse and the state is currently working against the district to tear it apart. If funding is coerced by those that have set about a division, then those at risk will receive no benefit at all. She encouraged the board members to use the same amount of energy they used to get seated on the board to make Legislators aware of what is on the horizon and not accept destruction.

Frederic Washington addressed the Board on Education Reform and his understanding that something that will happen and he believes the board needs to be prepared to address at-risk children. He said he doesn’t understand why no one on the board has spoken out on why education reform does not address this. Mr. Washington stated there is nothing about private schools dealing with 15 year-old ninth graders who are pregnant or an 18-year old eighth grader that arrives at school smelling of marijuana with his pants below his waist. He also said if a school is failing, one must consider what is contributing to that school’s failure and shared his experience when at BTW it wasn’t that teachers were not teaching, but issues related to at-risk children, i.e. defiance, no value of their education, they have to hold down a job, etc. The public school system typically sends these students to an alternative school with the alternative school being their last hope, and he believes these schools should be centers of innovation for these students. Mr. Washington said he doesn’t believe the alternative schools are doing what they are designed to do and have become a place where unwanted children are sent as well as teachers and administrators. He said he is aware that the administrator at one of Caddo’s alternative schools has a history of working with at-risk students, but this administrator does not have the privilege of choosing who will work in the school, and must take teachers that have been removed from a regular school setting for some reason. If we want desirable results, we cannot expect it to happen when disgruntled employees are working with students who feel as though they have been given up on. Mr. Washington challenged the board to be prepared to address the needs of the most challenged students since the “cream of the crop” students will be flocking to the private schools.

Howard Allen addressed the board on the redistricting of Stoner Hill, specifically Precinct 64, and asked the Board to vote for a redistricting plan where the children will remain in District 4 where they have been for many years. He said they feel it is important that their children are zoned to attend C.E. Byrd High School, and the citizens of Stoner Hill believe anything different
will have an adverse affect on them. He asked board members to respect their wishes and vote to support them by keeping their children in the district they believe best serves their interest.

Brianna Jett, student at Caddo Magnet High School, addressed the board on the proposed change to the class scheduling and that many of the students at Caddo Magnet High desire to stay with the A/B Block Schedule, a schedule that offers them the opportunity for additional credits, and it is better than the 4 x 4 because it provides more continuity and helps students continue in subjects throughout the year rather than taking a course, i.e. math, foreign language, one semester and not having that subject for a whole semester. She also said the curriculum would have to be shortened and abridged which does not work as well. Referencing the budget, she asked if the proposed budget included the A/B Block or if a decision has been made as to what schedule will be used. Miss Jett encouraged the board to consider the students concerns when deciding on the schedule and how important this decision is to them.

Sydney Canfield, student on Caddo Magnet High’s Debate Team, addressed the board on out-of-state travel and the need for students to be able to travel outside of Louisiana for competitions which will benefit them and their experience needed in scholarship applications. She said many of the high school teams travel outside of Louisiana and she encouraged the board to favorably consider the Debate Team being able to do so as well.

Jackie Lansdale, president of Red River United, invited and encouraged board members to attend the Most Improved Students Celebration on May 8th at 6:30 p.m., Southwood High School, which this year is being held in conjunction with the Caddo Parish School Board. She also shared with the board her concern that DeSoto is using the TAP Program for their evaluation program, yet Caddo is not taking advantage of this. She encouraged the board to discuss this and other evaluation systems that will allow teachers more flexibility in how they will be evaluated. Mrs. Lansdale also announced that she will be bringing to the board a “No Privatization” resolution and stressed the importance of the board looking at the impact the board has on those in their communities when privatizing. Regarding school board powers, Mrs. Lansdale said there are needs of the community and requirements of the state law but she does not see anything relative to creating ISDs, promoting charters to expedite ISDs, support of legislation, i.e. 609, in order to end run to get ISDs, and the importance of everyone working together. She noted that the East Baton Rouge School District has splintered another district noting the reason for doing so as their board because they would not work together. Having never been in a situation as bad as the state and district are now, it is even more important now to work together, because Caddo is a great school district. We need to work on those areas that need addressing and those things that the district is in need of and if the board does not want to do so, “go hard or go home.”

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Dr. Mary Nash-Robinson presented the proposed agenda for the board’s consideration. Mr. Riall announced that Items 6.01-6.03, 6.05, 7.01-7.02, 8.02-8.03, 8.05, 8.08, 8.11, and 13.01 are the consent agenda. Mr. Hooks announced that he is postponing, at the request of a staff member, Item No. 8.09 Disband SunGard System. Mrs. Crawley asked, based on staff’s input that we currently do not have a contract for this item, that 8.10 C. E. Byrd Parking Lot Solution be postponed until May. Mrs. Bell moved, seconded by Ms. Priest, to approve the proposed agenda and consent agenda as presented. Vote on the motion carried unanimously and the following is a summary of the board’s action.

Item No. 6

6.01 Personnel Recommendations. The board approved personnel recommendations (Jenifer Skrocki, assistant principal, Ridgewood Middle School; and Judith Fair, school improvement monitor) as recommended by the superintendent and submitted in the mailout.
6.02 Requests for Leaves. The board approved the following requests for leaves as recommended by the superintendent and submitted in the mailout.

Certified
Catastrophic Leave, March 19, 2012-May 7, 2012
Sandra Hill, Teacher, Caddo Middle Career, 24 years
Gregory J. Langley, Teacher, Southern Hills, 25 years
Cynthia G. Batten, Psychologist, Pupil Appraisal, 27 years

Classified
Catastrophic Leave, February 1, 2012-March 14, 2012
Julius Reliford, Bus Driver, Transportation, 15 years
Gary Gafford, Security Coordinator, Fairfield Magnet Elementary, 8 years
Linda Gowan, Bus Driver, Transportation, 1 year

6.03 Other Personnel Transactions Reports. The board approved other personnel transactions reports for the period of February 21, 2012-March 20, 2012 as recommended by the superintendent and submitted in the mailout.

6.05 Out of State Travel (General Fund). The board approved requests for out of state travel (General Fund) as recommended by the superintendent and submitted in the mailout.

Item No. 7

7.01 Bids (Purchasing). The board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Gerlach Meat, Reinhard Food and Conco Food for the purchase of Canned and Frozen Food; Fish, Poultry, Eggs, Meat and Specialty; (2) Reinhard Food, totaling $184,491.89; Carefree Janitorial, totaling $67,309.67 and VCC Janitorial, totaling $63,400.00 for the purchase of Food Service Paper and Supplies; and (3) Southeast Equipment Services, totaling $29,500.00 for the purchase of Printing Equipment – Paper Cutter for Caddo Career & Technology Center. A copy of the bid tabulation sheets is attached and made a part of the permanent file for the April 17, 2012 CPSB meeting.

7.02 Bids (Capital Projects/Construction). The board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Camus Electric Co., Inc., with a Base Bid and Alternate 1, for the sum total of $993,877 for Project 2012-QB2C, “QSCB2 Data Wiring Security Cameras at Forest Hill, Southern Hills, Summerfield, Summer Grove”; (2) Camus Electric Co., Inc., with a Base Bid and Alternate 1, for the sum total of $1,126,332 for Project 2012-QB2D, “QSCB2 Data Wiring Security Cameras at Donnie Bickham, Northwood, North Caddo, Vivian”; (3) ELA Group, Inc., with a Base Bid, for the sum total of $620,500 for Project 2012-202, “Cherokee Park Handicap Accessibility Elevator”; (4) Camus Electric Co., Inc., with a Base Bid and Alternate 1, for the sum total of $507,400 for Project 2012-QB2A-1, “QSCB2 Data Wiring Security Cameras at North Highlands, Northside, Pine Grove, Blanchard”; (5) Camus Electric Co., Inc., with a Base Bid and Alternate 1, for the sum total of $508,100 for Project 2012-QB2B-1, “QSCB2 Data Wiring Security Cameras at Westwood, Claiborne, Sunset Acres, Cherokee Park”; (6) Camus Electric Co., Inc., with a Base Bid and Alternate 1, for the sum total of $944,100 for Project 2012-QB2E, “QSCB2 Data Wiring Security Cameras at A. C. Steere, Arthur Circle, Shreve Island, Riverside”; and (7) Hope Contractors of Shreveport, Inc., with a Base Bid and Alternate 1, for
the sum total of $970,000 for Project 2012-QB2F, “Data Wiring Security Cameras at Byrd, Captain Shreve, Caddo Magnet, Caddo Middle Career”. A copy of the bid tabulation sheets is attached and made a part of the permanent file of the April 17, 2012 CPSB meeting.

Item No. 8

8.02 Approval to Hold Salvage Sale. The board authorized staff to hold an auction sale of used furniture and equipment in June, 2012.

8.03 Revision to CPSB Policy JG. The board approved proposed revisions to CPSB Policy JG as recommended by the Discipline Review Committee and submitted in the mailout.

8.05 Request to Sponsor H1B Visa for International Teacher. The board approved a request to sponsor an H1B Visa for an International Teacher as recommended by staff and submitted in the mailout.

8.08 Ratification of Design Professionals for 2012-13 Capital Projects. The board ratified the design professionals for the 2012-13 capital projects as recommended by staff and submitted in the mailout.

8.11 Establish a Committee on Accountability and Legislation. The board approved establishing a Committee on Accountability and Legislation to be made of five members and to be selected by the President of the board.

13.01 Student Readmission Appeals. The board moved to uphold staff’s recommendations for students K.B. and Z.W. whose parents are in agreement with staff’s recommendation.

RENEWAL OF ADMINISTRATIVE CONTRACTS

Jackie Lansdale, Red River United, noted it is within the school board’s powers and duties to appoint district administrators and asked if she understands correctly that on today’s agenda is an item to approve contracts for district administrators when she understands that legislation recently passed stating that this duty will no longer be within the board’s purview. Mrs. Lansdale shared with the board that she has an issue with this because when the authority is given to the administrators to hire and fire people and the school board no longer has this oversight, she has, and everyone should have, a lot of anxiety about this decision. She asked the board about possible rules and parameters for accomplishing this new mandate, because she sees it as fast track for whatever the superintendent wants and the board’s only oversight is whether or not it approves or disapproves of the superintendent’s recommendation. She said she believes school employees will be subjected to whelms of the administrator, and she asked the board to work together on common ground to make certain that the right persons are in the right places along with due process for employees that have worked for the School District.

Mr. Ramsey moved, seconded by Mrs. Armstrong, to approve staff’s recommendation. Mrs. Bell asked board counsel if there is anything the board can do to make sure that this is handled fairly and according to due process? Mr. Ramsey called for a point of order because while he agrees with what the speaker is saying, the board at this time is addressing staff’s recommendation for renewal of contracts. Vote on the motion carried unanimously.

APPROVAL OF CADDO PARISH SCHOOL BOARD MEMBER REDISTRICTING PLAN

Mrs. Armstrong moved, seconded by Mr. Rachal, approval of Redistricting Plan #15. Mrs. Armstrong stated her belief that Plan #15 is an excellent plan for the majority of the board and it
is all about compromise, which many have done throughout the process. Mr. Rachal said it has been an arduous project and while he knows everyone is not pleased with the results, he believes it has reached a point to where this plan will meet the plans for the children and the schools for all of Caddo Parish and he supports Plan 15.

Miss Green stated that as bad as she wishes to do an amendment to the motion on the floor, at this time, she will move forward with the plan the board approves. She shared that she is not happy about it and she believes the board has been very childish about the process, but she supports moving forward with the proposed plan.

Mr. Pierson moved, seconded by Mrs. Bell, to accept Plan #16. Mr. Pierson stated that he believes this process has developed into something that it should not have developed into. He said 11 board members have had to give/lose something (precincts) no matter if you believed in Plan 15 or Plan 16. He added he doesn’t believe any board member involved parents, community leaders or initiated petitions for personal points of view, but established a point of view based on what was important to the individual district. He said he believes it is a sad situation when people are involved and that erroneous information is given out. He added he will bloom where he is planted and believes Plan 16 is more consistent with the District Plan up to the point where it is already developed. He stated that at this time East Herndon and Stoner Hill is where his district stops, giving him a portion of the Stoner Hill district. Mr. Pierson said he believes this issue has been made about children made to attend a certain school in a certain district and redistricting has never been about that. He added he hates to see the public confused and coming before the board with wrong information or that it was shared in such a way that it was misunderstood. He encouraged the board to vote for or against and move forward.

Mrs. Bell stated her agreement with Mr. Pierson’s comments and it is about the children. She said there is a need to determine the redistricting lines so we can tell students/parents where they will be attending school.

Mrs. Crawley moved to call for the questions. Vote on the motion to call for the question and end debate carried with Board member Green opposed.

Vote on the substitute motion (Plan 16) failed with Board members Green, Pierson, Trammel, Priest and Bell supporting the motion and Board members Riall, Crawley, Hooks, Crawford, Rachal, Ramsey, and Armstrong opposed.

Vote on the main motion (Plan 15) carried with Board members Pierson, Priest and Bell opposed and Board members Riall, Green, Crawley, Hooks, Trammel, Crawford, Rachal, Ramsey, and Armstrong supporting the motion.

RESOLUTION RE: OIL, GAS AND MINERAL LEASE

Jackie Lansdale stated that again under board powers and duties it says that the board is to provide by exercise of its legal powers the funds necessary to fund the operation of the school system and she is hearing comments regarding “rat holing” these types of funds and she believes it is important that every possible fund at the board’s disposal should be used for the district’s boys and girls. She encouraged the board to look long and hard, because Bossier has a bond on the ballot this weekend for their school district and DeSoto Parish has a bond on their ballot for dogs.

Mr. Rachal moved, seconded by Mrs. Bell to approve the mineral lease as submitted with the following revisions: page 2, Item B, the minimum bonus of $1,000 changed to $2,000 and the minimum royalty of 20% changed to 25%. Mr. Rachal said he believes this is only fair. Mrs. Bell also shared her agreement that this is only fair. Mr. Ramsey recalled the discussion at the
work session and the comments offered by the Board President and the Board Attorney that this gentleman is the person who purchased the property and that this type of lease is different than the gas lease the board is familiar with seeing. He added that he thought that discussion also determined that these royalties (20%) and the bonus money ($1,000) was appropriate for this type of lease. Mr. Riall stated that was the discussion and since that discussion, he has learned there is another person interested in bidding on this item. He also said that the board is not voting to award this lease to anyone at this time. Mr. Abram’s explained that what the board is voting on is to take the request to the State Mineral Board and they will bid it for us and will make certain we receive Fair Market Value. He reported that in talking with Mr. Madison, he said these are not like the leases with Chesapeake, et.al. for gas leases and these numbers are what one would typically see for an oil shallow well. He said putting the minimum at $2,000 and 25% is the risk one takes when putting it out for bid; and if it doesn’t follow through this time, the Board can always resubmit it.

Mr. Pierson stated he remembers what Mr. Ramsey remembers and asked if we increase our minimum requirement and the Fair Market Value as determined by the State Mineral Board is less than our stated minimum, does this mean we turn it down? Mr. Abrams responded that is correct. Mr. Pierson stated his opposition to this because of his past experience with the Commission and the State Mineral Board will provide us with the best deal. He added if we try to market it ourselves, and the City can tell you about their experience of trying to do this, then it is possible we could end up with almost nothing. While he doesn’t have a problem raising the amount somewhat, he believes the board needs to consider very carefully about what we say we want since they are not drilling a lot anymore.

Mr. Riall again clarified that there basically is no chance there will be any gas drilling on this property and the drilling will be shallow well drilling; and even though the board is not voting to award drilling rights to Mr. Kirby, he knows that Mr. Kirby has drilled wells in this area and he will drill. He explained that when we leased gas wells when it was at its peak, we received from $8,000 to $20,000 an acre and royalties off gas interest have dwindled to almost nothing. Drilling in the shallow oil wells will yield money in production. Mr. Abrams again clarified that the resolution as prepared will mean the Mineral Board will not award the lease if it does not receive $2,000 an acre and 25% royalty bid; thus it will not come back to the school board since it has given them the minimum to be accepted, so if it doesn’t bid at what the school board sets, it would have to be rebid. Kirby Oil has agreed to $1,000 and 20% and is why these numbers are in the proposed resolution. Any other bidders we believe will bid it up closer to Fair Market Value, but he is unsure that it would get to $2,000 per acre; and if the board waits and no one bids the $2,000, there is no deal and it must be rebid and you risk not having a second bidder.

Mrs. Bell asked for clarification and if we still own this land? Mr. Riall responded that we sold the land, but we do own the mineral rights. Mrs. Bell asked if someone else is interested in bidding, we don’t know that they might bid the $2,000 and she believes it is worth taking the chance to see if this will happen.

Ms. Priest reminded the board that we have traveled this road in the past and placed the per acre price higher and it was rejected. While all that is being said is true, Ms. Priest stated that the board has not been able to reap the benefits some of the other governmental entities have been afforded and to keep this in mind as we vote.

Mr. Rachal clarified that this will go to the State and they will receive the bids and if it doesn’t make the minimum we are asking, then we do not receive anything. However, we can at that time go back at any given point in time and rebid it. He said it is obvious if they are drilling in that area they are getting what they want so an extra $10,000 will not make or break the deal at this point. He said he is ready to ask until we are told no and he does not think $2,000 and 25% is unreasonable.
Mr. Hooks stated his agreement with Mr. Pierson and we need to take what we can get.

Vote on the motion as amended carried with Board members Riall, Green, Pierson and Priest opposed and Board members Crawley, Hooks, Trammel, Crawford, Rachal, Ramsey, Armstrong and Bell supporting the motion.

APPROVAL OF MOU FOR CHRISTUS LINWOOD SCHOOL BASED HEALTH CENTER

Mr. Rachal moved, seconded by Ms. Priest, approval of the MOU for Christus Linwood School Based Health Center as submitted. Vote on the motion carried with Board member Trammel abstaining.

REVISION TO CPSB POLICY GCA (STAFFING FORMULA) TO ADDRESS STAFFING ISSUES FOR THE 2012-2013 SCHOOL YEAR

Mr. Ramsey moved, seconded by Mrs. Bell, approval of the proposed revisions to CPSB Policy GCA to address staffing issues for the 2012-13 school year as submitted by staff in the mailout.

Jackie Lansdale, Red River United, stated that it is things like staffing ratio and looking at opportunities for teachers to be effective in the classroom that impact a classroom. She said she will be before the board often regarding anything that will impact outcomes from the classroom, and it is very important that staffing ratios in the lower grades are implemented based on academic needs as opposed to financial needs. Mrs. Lansdale encouraged the board to vote based on sound academic practices, because teachers will be held accountable like none other on the outcomes. She also announced that the professional organization will put a new email site in place for teachers to report things that will impact their evaluation and their tenure. If teachers are above the numbers in a classroom, if teachers don’t have the discipline in a classroom, if teachers do not have the materials and supplies they need, and if teachers cannot report infractions on JPAMS, all of which will impact the classroom, this will provide a means for the teachers to report them.

Susan Thompson addressed the proposed scheduling issue before the board and that her opinion is there are only two options – A/B Block and Seven Period Day. She stated she believes the district has been on the A/B Block for two years and she has not seen any results/statistics relative to improved grades, improved graduations, etc. Mrs. Thompson also referenced detriments of the 4 x 4 Block Schedule versus the A/B Block and that 4 x 4 does not provide continuity in subjects such as math, science and foreign languages for the students. She encouraged the Board to consider the A/B Block Schedule now in place.

Mrs. Crawley asked that someone explain the change and if this proposed change allows for more than 22 in a class; and if the number goes to 23 or 24, will the Kindergarten classes be split. Mrs. Holliday explained that the current staffing formula without any changes at Kindergarten and 1st grade is what is referenced as a hard number; and when the number of Kindergarten students is divided by 22 and there is a remainder, the school is allotted another teacher. To simplify, Mrs. Holliday explained the current policy allows for the school to be allotted two teachers if there are 23 Kindergarten students. The proposed revision implements a rounding where you could round to provide another teacher, however, if a school only has 23 Kindergarten students, the school would only be allotted one teacher. According to State guidelines and limits, a Kindergarten class can have up to 26 students; and Policy GCA is not a class size formula but a teacher staffing allotment formula. Mrs. Crawley asked if there are 26 children in three Kindergarten classes, will the classes be split, and Mrs. Holliday responded that you would take 26 times three and divide by 22 and if the number rounds up, the school would get an additional
teacher. Mrs. Crawley asked about the 53 positions that could be cut by this revision to the staffing formula with 30 being Kindergarten and 1st Grade. Mr. Ramsey called for a Point of Order because as maker of the motion, he has not presented the rationale for his motion.

Mr. Ramsey clarified that the motion to support the staffing formula is important in order to put the high schools, who have already begun developing next year’s schedules, at a point where they can proceed with developing a master schedule. He explained that the motion specifically supports what staff has done; and while he has not always been a supporter of A/B Block, we have been in this scenario for two years and he supports this so we can let the high schools know and they can move forward with the A/B schedule. Mr. Ramsey also reminded everyone that this is a staffing formula and not a class size formula; and if a board member desires to bring it back to adjust the Kindergarten/First Grade allotment, they can do so with the understanding that if additional staff is put into place, a determination needs to be made as to where the additional funds will come from. He believes this is something that can be worked out between now and the May meeting, and asked the board to support the staffing formula presented tonight so administrators can do what they need to do.

Mrs. Bell stated her agreement with Mr. Ramsey’s comments and suggested that when Kindergarten classes have 26 students to consider hiring a Paraprofessional to assist the Kindergarten/First Grade teachers.

Mrs. Crawley moved, seconded by Mr. Hooks, to approve the block schedule staffing as shown for high schools only on the presented staffing ratio. Mrs. Crawley stated that she is 100% behind going forward with the A/B Block scheduling but she doesn’t want to mess up one area to finalize another area. She asked that staff come back with an adjustment to the budget for K-1 staffing. Because she is concerned that we not sacrifice our Kindergarteners and First Graders for a budget as they need just as much as the high schools need. She encouraged the board to support this substitute motion and not pass a big motion with possible hidden traps. Mr. Hooks agreed with Mrs. Crawley’s comments because as a former administrator, he understands what can happen when classrooms are overcrowded.

Mrs. Crawford asked Mrs. Holliday if the staffing formula currently is 1:20 and Mrs. Holliday clarified it currently is 1:22, which was changed last year. Mrs. Crawford asked if when the State changed it, wasn’t the maximum number 26, and Mrs. Holliday responded that the State max has been 26 for years. Mrs. Crawford asked if she understands correctly that what the board is discussing now will not change the State max and Mrs. Holliday confirmed that is correct. Mrs. Crawford stated that if the State max has always been 26, she doesn’t want the Board to get lost in the details. Mrs. Holliday also responded to Mrs. Crawley’s question relative to the teacher allotment and if there are three Kindergarten classrooms with 26 students in each, you multiply 26 students times 3 (78 students) and when you apply the formula and divide 78 by 22 students, you get 3.54 teachers, so you round up to four teachers, making four classes of 19-20 students in each class. She added it all depends on the size of the Kindergarten and 1st Grade populations.

Mr. Rachal asked, in keeping the staffing formula the same, including Kindergarten and 1st Grade, what would be the justification for coming back and changing the Kindergarten and 1st Grade? Mr. Woolfolk responded that originally staff looked at ways of saving $7 million (cost for staffing block schedule); and when staff got the indication that the board did not want to do away with the A/B Block, staff began looking at ways to cut costs and keep A/B Block. He further explained that staff looked at fairness in the staffing formulas (hard numbers versus rounding), and in rounding the numbers, elementary and high school will be treated the same, which saves funding for 30 staff persons. Mr. Rachal stated his agreement in moving forward with the A/B Block and, if necessary, looking at the Kindergarten/First Grade allotment later in budget discussions.
Miss Green asked Mrs. Holliday how the staffing formula presented to the board will affect Green Oaks High School, and Mrs. Holliday responded there will be no change as there is no change to staffing high schools. Miss Green asked if it will affect her elementary schools and Mrs. Holliday said it will for Kindergarten and First Grade. Miss Green asked Mrs. Holliday how the proposed staffing formula will affect Pine Grove and Northside? Mrs. Holliday responded that she will be able to respond tomorrow. Miss Green asked how fast does the board need to pass this, and Mrs. Holliday referenced Mr. Ramsey’s rationale that the principals need to know their staffing allotments for the next school year and a delay in deciding Kindergarten/First Grade will also delay the elementary principals knowing their staffing allotment at those grade levels, so the sooner the better. Miss Green asked Mrs. Holliday her suggestion and Mrs. Holliday stated that her job now is in Human Resources; and because she is no longer a principal, she feels certain her recommendation as a principal would differ from her recommendation as an HR Director; but, she believes the impact will be somewhat minimal.

Ms. Trammel called for the question, seconded by Mrs. Bell, on all motions. Vote on the motion to end debate failed with Board members Green, Pierson, Crawley, Priest, Crawford and Ramsey opposed and Board members Riall, Hooks, Trammel, Rachal, Armstrong and Bell supporting the motion.

Mr. Hooks said the board is rolling along like it has not recognized the Governor’s reform plan and that train has pulled out of the station; and he asked staff about a status on this issue. Mr. Riall asked that Mr. Hooks clarify how this relates to the motion on the floor, and Mr. Hooks responded it has to do with staffing. He further stated that when children apply for charters and private schools, reducing Caddo’s enrollment, how will staff address this, since we will also lose teachers. Dr. Robinson explained that schools are staffed based on enrollment; and if the district loses population, it will of course also lose staffing. She added that staff is in consult with Mr. Abrams on how we will be impacted if charters and vouchers come about; however, at this time, there are no definite plans other than we will staff schools according to allotments. Mr. Hooks asked if he understands clearly that if we lose students and we lose teachers, classrooms will be crowded? Dr. Robinson responded she does not equate this with larger classrooms. Mr. Hooks further stated there may be a problem and he only wants to know if staff will be ready to address this; and Dr. Robinson confirmed that staff is preparing to address the issue. Mrs. Armstrong called for a Point of Order and asked if the discussion is on the amendment. President Riall clarified that the discussion is on the substitute motion to approve the high school staffing formula only at this time and leave the elementary staffing alone.

Mrs. Crawley further clarified that her motion only addresses the high school staffing for the A/B Block and leaves the Kindergarten/First Grade staffing formula at 22 students to a classroom.

Mr. Abrams clarified that the staffing formula is the staffing formula and it is the same formula as before. The board is currently looking at the numbers, and the procedures for implementing the staffing formula is a different issue. Mrs. Crawley said she believes there is a big difference and if Mr. Ramsey’s motion passes we will go to a different way of calculating the classrooms in the elementary grades. Mr. Abrams stated that staff presented in the budget meeting how it arrived at the numbers, but the staffing formula is the same as it was.

Mr. Pierson said he is prepared to vote on the entire staffing formula, because he is aware that adjustments are made all the time during the course of a year, budget and/or staffing. Mr. Pierson added that he does have a concern with the A/B Block; and stated his preference with the 4 x 4 schedule; and asked if there is a difference in staffing the A/B Block and the 4 x 4 Block. Staff responded the staffing is the same for both type blocks. Mr. Pierson encouraged the board to move forward and approve the proposed staffing formula.
Mr. Ramsey said he believes the substitute and the main motion are similar in that both approve the A/B Block schedule, and they both allow the board to revisit the staffing formula in May for Kindergarten and First Grade. However, he explained the substitute motion actually kills everything but the high school staffing, i.e. middle school, grades 2-5; so if there is a problem with how staffing is determined for K-1, it makes sense to him to return in May and address it. Mr. Ramsey also reminded the board that when the staffing formula was first changed to 1:20, the District had a very difficult time finding ample teachers, as well as available classrooms. Mrs. Crawley said she is not talking about 20, but about 22. Mr. Ramsey said it is 22 in the motion and if it is a procedural issue, he believes that can be addressed next month. Mr. Ramsey said he cannot support the substitute motion because the original motion addresses everything.

Mrs. Crawford said the motion was to just do the A/B Block and she is the one that asked about Kindergarten-First Grade. She further stated that what she maybe should have asked is if by doing the A/B Block, will we continue to allow the principals the flexibility to arrange schedules they need within their individual schools? Mrs. Turner verified that under the A/B Block, principals will continue to have the flexibility to make modifications.

Ms. Trammel called for the question, seconded by Mr. Pierson, on all motions on the floor. Vote on the motion to end debate carried with Board members Green, Crawley, Hooks and Rachal opposed and Board members Riall, Pierson, Trammel, Priest, Crawford, Ramsey, Armstrong and Bell supporting the motion.

Vote on the substitute motion to leave the current staffing formula as is except for the A/B Block in high school and accept the A/B Block staffing formulas for high schools. Mr. Rachal asked if Mrs. Crawley’s motion is saying that the strike outs on page 2 should not be struck out? Mrs. Crawley said that some of the strike outs are applicable since we no longer have schools with stars, etc. Mr. Riall further clarified that the substitute motion is to approve this staffing formula only for the A/B Block and leave everything else alone. Vote on the substitute motion to leave the current staffing formula and accept the A/B staffing for high schools only as presented failed with Board members Crawley, Hooks and Rachal supporting the motion and Board members Riall, Green, Pierson, Trammel, Priest, Crawford, Ramsey, Armstrong and Bell opposed.

Vote on the original motion to accept the staffing formula as proposed carried with Board members Green, Crawley and Hooks opposed and Board members Riall, Pierson, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong, and Bell supporting the motion.

ANNOUNCEMENTS AND REQUESTS

Mr. Rachal asked for a status report on the Energy Conservation procedures, capital projects and money set aside for this.

Mr. Hooks invited board members to attend his Town Hall meeting Thursday, April 19, at 6:30 p.m. at Fair Park. He said a panel will discuss the Governor’s Education Reform Plan.

Miss Green expressed appreciation to Antionette Turner for getting books for Newton Smith, to Audrey White for the tremendous help to her schools, and to Eursla D. Hardy and the First Educators for their donation of $1,000 to Newton Smith.

Ms. Priest reported that last week she, Dr. Dawkins, Reggie Abrams and Bonita Crawford traveled to New Orleans to discuss with them their experience with charters and will provide a more detailed accounting to the board of what was learned during that meeting. She also asked that “The CPSB join in a class action lawsuit to enjoin and/or overturn certain provisions of
HB974 and HB976” be placed on the May agenda. She announced some information has been received and additional information will be available by the work session.

Mrs. Crawley asked for information on possibly adopting an alternative evaluation for teachers using the TAP program and that we investigate DeSoto Parish’s System. She asked that this item be placed on the agenda under Superintendent’s Report. Mrs. Crawley also requested that staff look at a parent’s concern that 45 minutes a day is not adequate time for her child in the Gifted Program, when there are comparable schools with 60 and 90 minutes a day for Gifted.

Mrs. Crawley also asked for (1) a list of vacant Central Office positions, including those retiring through June (if known) and the possibility of not filling some of those positions; (2) an item on the May agenda for the Auditing Department to conduct an audit of the SunGard System; (3) information on who handles the Caddo hotline and if the calls are being handled effectively; and (4) that “Procedure for Staffing K-3 classes” be added to the May agenda.

Ms. Trammel expressed her appreciation to the staff for helping with a project at Woodlawn High School to prepare for putting on an Easter pageant at Woodlawn on Good Friday.

Mrs. Bell asked that (1) “Truancy Policy for Parents Responsibility for Students Missing School” be placed on the May agenda; (2) staff provide a report to the board on why students not in school are still on the rolls as this brings a zero to a school’s score; and (3) Mr. Abrams discuss with the board due process for teachers and administrators as a result of recent legislation.

Mrs. Bell also announced that she has two tickets to the Yazzy Program and shared with other board members a handout on scores for all the charter schools in the state.

Mr. Hooks stated his concern about the problem with bullying and encouraged staff to respond to these issues, even following up with the parent to make certain everything is o.k. He said if the board is going to make policies, the policies need to be carried out.

Mr. Riall expressed his appreciation to Mr. Woolfolk, Mr. Smith and Mr. Graham for taking the time to follow up on issues needing addressed at Northwood High School.

Miss Green inquired about another budget meeting and Mr. Riall stated when the superintendent returns, he will get with him to schedule another budget work session.

Dr. Robinson announced that the Superintendent recently had a death in his family and asked that everyone be mindful and prayerful for him and his family during this time. She also announced that the State Students of the Year Program will be held in Baton Rouge on Wednesday evening and Caddo Parish has two finalists.

Adjournment. Ms. Priest moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 7:20 p.m.
May 1, 2012

The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, May 1, 2012 with President Steve Riall presiding and Dottie Bell and Larry Ramsey present being a quorum. Other school board members present were Jasmine Green, Carl Pierson, Charlotte Crawley, Mary Trammel, Lillian Priest, Bonita Crawford and Ginger Armstrong. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mrs. Crawford led the invocation and Pledge of Allegiance.

As a point of personal privilege, Ms. Priest invited board members and other friends of public education to attend a news conference Wednesday, May 2, 2012, at 4:30 p.m. at the Caddo Parish Court House on the Texas Street side.

PRESENTATIONS

2010-11 Financial Audit. Dr. Dawkins announced that the financial auditor could not be at the meeting today and staff will reschedule for next month.

Act 1 and Act 2 of 2012 Legislative Session. Legal Counsel Reginald Abrams shared with the board information on Acts 1 and 2 (HB 974 and HB976) of the 2012 Legislative Session signed by the Governor. He announced that bills addressing alternative schools will be heard in committee on Wednesday (HB1115 which says if a district has any alternative schools, there will only be students in the alternative program at that site, and HB315 which says a district may not be required to have an alternative school). Mr. Abrams explained that HB1754 addresses the district superintendents contracts; and if a district is a C, D or F district, the contract must include performance targets at the district level for student achievement, targets for schools scoring a C, D or F, graduation rates and the percentage of teachers that are classified highly effective; and districts also will be required to submit the current employment contract for the superintendent of schools to the State Superintendent of Education. He also added that the local district must notify the State Superintendent of Education anytime a district fails to renew a superintendent’s contract or terminates a contract along with the reasons for termination.

Mr. Abrams stated that HB1781 is legislation that board members should be most interested in as it basically changes all the duties of school board members. It clarifies and establishes that board members are to make policy in the interest of all students under its jurisdiction, and also prioritize student achievement, financial efficiency and workforce development. This legislation also states that when a board is selecting a superintendent it must be one who is a leader that prioritizes student achievement and acts in the best interest of all students enrolled in the district. Mr. Abrams explained that this legislation states the board shall determine the number of schools, number of teachers and other personnel to be employed. An amendment added to this legislation specifically took away board members’ authority in selecting teachers and other school personnel, and requires that the board delegate authority for hiring and placement of all school personnel under the superintendent. While the law does not specifically say Central Office personnel, he assumes the board still has the same authority for hiring of these positions with the exception Child Welfare and Attendance, and this will be a superintendent’s designation.

He explained that the board is required to adopt policies that require the superintendent to delegate to the principals all decisions of hiring and placement of teachers and other certified employees at that site subject to the superintendent’s approval. Even though Caddo already does this, it will be necessary to revise the school board’s policy to reflect this action, because these items will no longer appear on the agenda for board approval. He also explained that the local board is required to adopt a policy that requires the superintendent to consult teachers prior to
making a decision of hiring or placement of a principal at a school. He reminded everyone that staff is already required to get input from those at the school site, PTA, and others; however the teachers’ recommendation is not binding on a principal but shall be considered by the superintendent. Mr. Abrams also highlighted that the superintendent and the principal shall make all employment decisions based upon performance, effectiveness, qualifications applicable to specific positions and in no case shall seniority or tenure be used as a primary criteria in making decisions relative to hiring, signing or dismissal of teachers or other school personnel. In other words, this is an attempt to cut anything relative to seniority or tenure. He also stated that this legislation is very clear that no board member may act in any individual capacity to use the authority of his office or position in a manner intended to interfere with, compel or coerce any personnel decision by a superintendent or school principal. Previously, he explained that board members approved principals, assistant principals, and teachers; however, this statute takes this away from the local boards. Regarding Reduction in Force issues, Mr. Abrams stated that the new legislation states that local districts, by September 1, 2012, will revise its policies delegating reduction in force decisions to the superintendent which differs in that previously superintendents made recommendations to the board regarding a reduction in force and the board would make the decision for the superintendent to enforce. It also states that all reduction in force policies adopted for use in dismissing teachers and administrators shall be based solely upon demand, performance and effectiveness as determined by the performance evaluation program; and it will be implemented by releasing the least effective teacher within each targeted subject area or area of certification first, and proceeding according to the effectiveness rating until the RIF is accomplished. This is ultimately saying that you do not consider seniority, but how the school employees are graded based on the highly effective scale. He also shared with the board that release of classified employees in a RIF must be done by performance and effectiveness as determined by school board policy, certification of academic preparation if applicable, and including a grievance procedure.

Mr. Abrams further explained that 17:229 states the superintendent shall appoint teachers and supervisors in Child Welfare and Attendance in addition to appointing the principals under 17:414.1; and that HB418 states the local governing authority shall establish salary schedules for teachers and other school employees and that salaries shall be full compensation for all work required and performed within the scope of each employee’s duties and responsibilities. These new salary schedules are required to be established and published no later than January 1, 2013 becoming effective for all employees during the 2013-14 school year, and no criteria being accounted for more than 50% of the formula when computing the salaries. Mr. Abrams also stated that this legislation says no teacher or administrator who has been rated ineffective pursuant to the performance evaluation program shall receive a higher pay in the year following the evaluation, and that this does not apply to an employee being promoted and then returned to a lower position in which the salary could be reduced.

Regarding tenure, Mr. Abrams stated that HB441 allows for no school lunch supervisor hired on or after July 1, 2012 shall be eligible to acquire tenure. HB442 states that any teacher acquiring tenure before September 1, 2012 will retain tenure and is subject to the provisions of this legislation. Mr. Abrams also stated that a teacher paid with Federal funds cannot be granted tenure, and teachers not receiving a highly effective performance rating will be allowed an opportunity to appeal the decision. HB443 states that the superintendent may terminate employment of any non-tenured teacher after providing such teacher with written reasons and the opportunity to respond, which the teacher will have seven days to do so, and the response shall be included in the teacher’s personnel file, with no appeal since the board can no longer overrule the superintendent’s decision to terminate an employee. Mr. Abrams also explained the new procedures in place for removing tenured teachers states it can only be done with written and signed charges of poor performance, willful neglect of duty, dishonest, immorality, etc. He further explained that within seven days of dismissal a teacher may request and may be granted a hearing by a panel of the superintendent’s designee, the principal’s designee, or the
administrative head of the state agency in which the employee was employed and a designee of the teacher; however in no case will the superintendent, the principal, member of the family, or any full-time employee of the school system make this decision. When a teacher requests an appeal hearing, it is necessary for this to happen within seven business days, with the hearing panel submitting its recommendation to the superintendent; and the superintendent may choose to reinstate the teacher.

Act 2, 17:10.5 addresses charter schools and vouchers, and was amended to allow parents to petition that a school be removed from the local school district and placed in the RSD if a majority of the parents in a D or F school request it. Mr. Abrams stated that 17:158 provides that bus transportation is not required for voucher students and 17:3973 creates a Type 1B Charter, which is different from a Type 1 in that a Type 1 is authorized by Caddo Parish and Type 1B allows a local charter authorizer (which is something new in the law) that is created to approve new charters or to convert an existing school. The local charter authorizer has similar powers as the school board; and when BESE is looking at them, they must present a plan, at a minimum of having at least $500,000 in assets, they can’t operate their own charter school, and they cannot have those on their board that were convicted of a crime, and their plan must include operation of at least five charter schools. Type III proposals must be made to the local school board while Type I is the conversion of an old school wanting to become a charter, except when the district is a D or F district, then they can apply directly to BESE. A Type II Charter allows for students to attend from across the State, and any assets acquired with public funds shall become the assets of the charter authorizer if the school’s charter is revoked. He further explained that no later than January 2013 the board (BESE) will create a process for authorizing multiple charters of qualified chartering groups.

Statute 17:3998 requires each charter authority to report to the state the number of schools chartered, the status of each chartered school and each charter is reviewed after the third year relative to if the school is meeting the stated goals and objectives, the chartering authority may extend the maximum authority five years. However, if the school is not meeting its goals and objectives, the charter shall expire at the end of the fourth year and will not be extended. Mr. Abrams said that 17:4002.1 provides for Course Choice which allows for the establishment of a process for individual providers of courses, i.e. students at private schools can obtain courses not offered at their school. Student scholarships (vouchers), 17:411, will become available for those students who reside in Louisiana and whose family’s total income does not exceed 250% of the current Federal Poverty Guideline and meets one of the following criteria: (1) entering Kindergarten in a local school system, (2) enrolled in a public school in Louisiana on October 1st or February 1st and such school was rated a C, D, or F, or (3) is a scholarship recipient in a participating school. A participating school is a non-public school or a public school that meets program requirements and seeks to enroll scholarship recipients. He also highlighted the guidelines for the program administration in these schools that BESE or the State Department will administer, and the provision allowing only those students who are determined to be in D and F situations to get in first and then C students, and BESE makes the final determination.

The average proficiency rates on state assessments are required to be published each year and scholarship recipients are also to enroll in those schools and these are tested while the others are not. On or before August 1, 2012, Mr. Abrams reported that the Department shall develop for participation an accountability system for participating students, and that a participating school charging tuition can only charge the maximum tuition that is less than what is allocated per pupil to the school system with any remaining funds returned to the State. Statute 17:4017 states that qualifying scholarships shall be provided to each participating school on behalf of the responsible city or parish and no local levy shall be transferred to any participating school outside the school district. The attempt for this legislation is for verifying that parents will not take the children across the State/Parish lines. Mr. Abrams stated he has only touched on the legislation that has come about all across the state.
Mr. Riall asked Mr. Abrams to provide board members with a copy of his comments. Mrs. Bell asked who will conduct teacher evaluations? Mr. Abrams stated he assumes it will be the principal; and Mrs. Bell asked who will be evaluating the principal, is there a change or is it the same? Mrs. Bell shared a scenario of a great teacher, but the principal may not see this teacher as someone who is doing what he would like to do, and how can this teacher defend herself? Mrs. Bell stated her belief that this is a sad day for teachers even though she realizes that some teachers may need to go. She also asked about the “zero” power of the school board and if she now wishes to visit a school, does she have to let the principal know she is on campus? Mr. Abrams said that does not change the law and the principal is always the one to notify since you may not know what all is taking place on a school campus when this drill is happening. Mrs. Bell asked about consequences for the board member who does not comply with the rules? Mr. Abrams responded that the principal must make a decision relative to whether or not a board member can stay or must leave the campus, and has the right and authority to do so as the administrator over the school. Mrs. Bell also asked if the principal has a board member removed from the campus, can the board member retaliate against that employee? Mr. Abrams said he believes the superintendent will let the principals know if anyone is causing a disruption on their campus and if they should be asked to leave. He also reminded the board members that it is fact that a board member’s appearance on a school campus changes how those on the campus act.

Ms. Trammel asked if, when talking about the ineffectiveness of a teacher, it is not the superintendent’s job to take care of that person? Also, she asked if a teacher can be fired on the spot, is it also true an administrator can be fired? Mr. Abrams explained that administrators have contracts and would be handled similar to a tenure hearing; however, with the new law, policies need to be modified because now the superintendent and principal have the authority at those levels. Ms. Trammel also asked staff if it will be necessary to revise many of Caddo’s policies; and Mr. Abrams responded Caddo will be working to get policies modified, and Forsight will also continue to work on these change. Ms. Trammel asked about the new pay schedule and that everything a staff person does will be a part of the pay an employee receives. Mr. Abrams responded that is what it states; however, he believes there will be some levels where the board will have to address some wage and hour issues, i.e. janitorial. Mr. Abrams also stated that he believes this legislation was aimed at teachers and several years back there was a minimal salary schedule posted by the State that increased the number of hours a teacher works. Ms. Trammel asked if this is for those that work 8:00 to 4:30, and Mr. Abrams said he believes it is for everyone that may even be on call 24/7. He said there is also a change in the number of days one works and there is no longer a limit.

Mr. Ramsey asked Mr. Abrams to restate his comments regarding the ability of school districts to offer charters? Mr. Abrams said he doesn’t believe there is anything that limits a district from offering charters, but there is nothing that states if someone wants a charter, it has to come through the local district; and he believes it makes sense if they have a good program, they would want to go through the local district. Mr. Ramsey also asked about any discussion on how charter authorizers might benefit from this, and Mr. Abrams responded that normally if Caddo authorizes a charter, the MFP would come directly to Caddo and then distributed to the charter, minus a 2% administrative fee deducted from that amount. Mr. Abrams also stated that while we can provide any services a charter may require, there is a cost plus a 2% administrative fee. Mr. Ramsey asked if he understands correctly that the district must have a new pay schedule in place by the start of the school year. Mr. Abrams responded that is correct and that it doesn’t mean the pay schedule must increase, but the board must come up with a pay schedule that is within the parameters of the statute which takes away the 1, 2, 3 and 4 and addresses the highly effective personnel; and it must be in place by January 2013 for implementation in the 2013-14 school year. Mr. Ramsey asked if staff anticipates having to implement another study. Mr. Abrams said the statute will require certain stipulations and Mr. Ramsey stated his understanding there is a very tight schedule for accomplishing this.
Mr. Pierson asked about employees that are required to work additional time on weekends for ballgames, etc. and how they will be compensated. Mr. Abrams responded that Federal law will pre-empt State law on this issue; and when it comes to wage and labor issues, he believes teachers are clearly professional and classified employees must meet Federal guidelines no matter what the State statute states.

Ms. Priest expressed appreciation for the time spent explaining this issue to the board and asked that the board consider those item specified and discussed to outline these key elements to boards to assure all are on the same page. While it appears there are approximately five different types of charters, she asked if the authorizer is the local school board and if the funding source is the local school board. He further explained that the funding source would be the local school board with the money to the IB charter coming to the local district from BESE, and the District in turn submits the money to them. Ms. Priest also asked for clarification on the remaining types of charters.

Mrs. Crawley asked about the timeline for the teacher evaluation plan? Mr. Abrams stated he understands it is being worked on by the State Department. Mrs. Holliday reported she has been meeting with the State Department team and working on the document with the modifications and this is to be in place before the next school year begins. Mrs. Holliday said it probably does not require approval; however, she knows the superintendent will present it to the board. She also said it is similar to Bulletin 130 that guides districts as to what is to be included in the personnel evaluation plan for the district, and it does leave some flexibility in certain areas up to the district. Mrs. Crawley asked if teacher input is being asked in the areas with flexibility, and Mrs. Holliday announced the process is not at that point at this time and she will take direction from the superintendent.

Mrs. Crawley asked if we set the pay scale so that every year everyone gets a pay increase or will it be set up on a bell-type curve, i.e. 10% labeled effective and 10% ineffective? Mrs. Holliday announced that each person who serves as an evaluator must be trained and the state provides the needed training and they must certify as being reliable in the instrument being used for evaluations. Mrs. Crawley stated her understanding that test scores will be a major percentage of the evaluation, but asked about the remainder. Mrs. Holliday explained that 50% will be the value added model and the other 50% is the professional practice model, which is part of the evaluation system that will be based on observations and evaluations. Mrs. Crawley asked if the principal does the observations or other outside persons? Mrs. Holliday responded it is the principal or the assigned evaluator by the principal, just as it is now. She also stated that the process is very similar to the LaTap model.

Mrs. Crawford asked about demotions because in the past an employee’s money could not be taken away, i.e. principal reassignments, and if this new bill supersedes this policy? Mr. Abrams said it does not on a contract and they did not amend that portion of the statute. However, it does say that someone promoted could actually be demoted. Mrs. Crawford asked if a Type IB or Type II charter is allowed to keep all the assets in the schools? Mr. Abrams responded that a Type IB is a new school, which means there would not be any assets; however, it could also mean they are buying a school that has been closed and we would have to provide it to them at fair market value. He further explained that a Type II charter is a BESE use of local funds so he doesn’t believe they would be able to keep the assets. Mrs. Crawford asked Mr. Abrams to explain what if the PTA purchased items for a particular school, and Mr. Abrams explained that if it is owned by Caddo Parish, district items continue to be owned by the district; however, if it is a shutdown school and no one claimed it, it could possibly still be a Caddo Parish asset and the new school would be charged fair market value. Something purchased by the PTA after the charter would require the new school to keep record of those assets purchased by private funds and those purchased by public funds.
Mrs. Armstrong about Type III charters and how teacher retirement is affected if the teachers desire to organize charters themselves? Mr. Abrams stated he believes if a teacher leaves Caddo Parish and goes to a charter school, they maintain retirement rights for a certain period of time, but after three years (and he is unsure of this time), they must decide if they want to return. Mr. Abrams further explained that he spoke with someone on a recent ruling relative to charters and teachers going to charters must decide if they desire to enter the State Teacher Retirement System or something different. He said he believes this ruling came as a result of teachers entering charter schools and changing year after year what retirement system they wished to participate in, thus the Attorney General provided a ruling that included rights for a certain period of time. Mrs. Armstrong asked if one of Caddo’s schools opts to charter themselves to avoid being part of a proposed ISD, would this group of teachers have teacher retirement? Mr. Abrams said he has not researched this; however, he will provide a response to the board. He also explained that one of the things a district does not have to place in the contracts is they do not have to have an operating board but can operate themselves.

Mr. Riall asked about the pay scale for professional staff and how the number of hours an employee works that exceeds the Federal Minimum Wage Requirement (i.e. extracurricular activities) is addressed? Mr. Abrams stated that it doesn’t matter on teachers but it’s whether or not you are an exempt employee or non-exempt employee. He further stated that teachers do not work an hourly wage and professional staff are not held to the same requirements as other hourly works, even though bus drivers are. Mr. Riall asked if it is possible for a chartering organization (not the state) to appeal to BESE and take one of Caddo’s existing schools against the district’s will? Mr. Abrams explained that the definition of a Type IB Charter is if it is an existing school that the organization could go to the existing school’s staff and ask them to vote to charter the school. He further stated that the statute is not entirely clear on this point, but only states that Type I is a new school and Type IB is a new or existing school. He further explained that when BESE takes over a Type III school already in a district, they can convert it to a Type II and make it a state chartered school operated by BESE. The way the rule reads now, a charter organization could by-pass the school district and approach BESE directly for a Type II school.

Mr. Ramsey asked about clarification on teacher evaluations and if there is a grace period or learning curve included in the implementation? Mr. Abrams said he believes a bill introduced that it not be put into effect this year must have died.

**Political Update/Impact of Charters and ISD.** Superintendent Dawkins shared the following comments with the Board and members of the audience.

> Mr. Abrams covered two of the most recent pieces of legislation to become law. We will, with all due haste, work with our staff to be ready for implementation per the required timelines. We are committed to carrying out the laws of the State of Louisiana on behalf of this Board and for the citizens that it serves.

> This Board has only had minor discussions on the impact of Charters and a rumored independent school or separatist school district. I do say rumored because I’ve only heard of at least three proposals, I have not seen any.

> First, the Board should know that we are actively engaged in attempting to integrate viable Charter Schools into the already existing options here in Caddo Parish. In fact, we have received and reviewed our first Charter application. We’ve had the necessary State required third party review and have met with a very committed team from the applicants. We are, again, committed to working with them in all aspects of their planning and have offered necessary support to make them a successful applicant. Like them, our only concern is a positive, progressive and great education for all kids. We will bring the application for this Board’s review once they’ve made the necessary changes required by the State mandated third party reviewer and suggested by the CPSB reviewers and legal counsel.
We will, unless directed otherwise by this Board, accept all applications for Charter Schools. After the review process, mandated by the State, we will hopefully be able to work collaboratively with those who guarantee all children a great public education. They must be good schools and good applications.

Secondly, I would like to address the rumored plan to separate, divide or re-segregate Caddo Parish Public Schools along economic, class and racial lines. It is a politically sensitive issue. Our parents and staff have been inundated with information and rumors that are confusing and divisive. Since I’ve not personally seen a plan, I only speak to rumors of several plans and pending legislation. For our parents’ and staffs’ sake, I plan to communicate that, unless this Board advises me otherwise, we are planning for the 2012-13 school year as the complete and full service Caddo Parish School System. Which means that all schools, unless we deem otherwise, will be open as usual and we will follow our previously approved 2012-13 calendar. That means kindergarteners should attend round-up, elementary, middle and high school transitions will occur, athletic and other extra-curricular activities will proceed on a normal basis. We are not planning for legislation that has not been completed and we will not fall for separatist scare tactics of those who want to see a divided school system and who knows, ultimately a divided city. If we are to ever attain our potential, working together towards a stronger, unified school system is where our future lies. Separate is not equal, it never has been, it never will be.

I want to be clear:
1. This Board has never been presented with a plan.
2. This Board has not directed me to plan for a break-up or separate district.
3. We already have open and very liberal enrollment policies.
4. The separatist plans may limit choice if the rumored plans are implemented.
5. In my 4 years here, there has never been a written complaint related to resources and programs available at any of the schools in the rumored proposed ISD. No one, to this date, has formally asked the Board or myself anything about separating the district.
6. Along with watching the legislation, we are in touch with our Federal legal team to see if the potential re-segregation of Caddo Schools is legal and constitutional. That feedback will come to the Board as soon as I receive it.

Finally, a statement or resolution from this Board will send a clear message to the community, parents, staff and students that unless this legislation becomes law, we will continue to work on improving every school in Caddo Parish in every neighborhood across this district.

We are indeed better together!

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE MAY 15, 2012 CPSB MEETING

Superintendent Dawkins shared items for the Board’s consideration at its May 15, 2012 meeting and the following discussion ensued.

Out of State Travel (General Fund). Mrs. Armstrong noted recent action by the Webster Parish School Board that there will be no out-of-state travel for the next school year; and as the CPSB continues to work on cutting expenses to bring the budget in line, she believes this may be something to consider. While she understands the need for continued training for the district’s professionals, she believes teachers and a lower pupil-teacher ratio in Kindergarten-First Grade are more important and travel should never be put before teachers and students. Superintendent Dawkins assured the board that staff will never put travel before having teachers in the classrooms and the students.
Mrs. Crawley stated she would like to see Mrs. Armstrong add this as an agenda item, but she wants to be assured that student awards and student travel are exempt from this. Mrs. Bell asked that the Board consider on-line training because some departments need continued training if the District is to keep up with the constant changes in the 21st Century. She also stated her agreement that student travel should not be included in this.

Mrs. Crawford reminded the Board that these requests for travel are for additional training for AP classes, which is an area and goal that Board members instructed the Superintendent to build. She asked Mr. Lee if this money is budgeted or does it come from the schools’ allotments. Mr. Lee explained that student travel is a separate item in the budget; however, for teachers, much of that amount is in the directors’ budget.

Bids. Ms. Priest asked that staff provide her with the names of the middle and high schools that are on the list to receive musical instruments as well as Physical Education equipment. Mr. Graham responded he does not have a list of schools because this is the amount for the general inventory for replacing broken instruments, etc. as they need replaced, but he will work with staff to provide the requested information.

Byrd Parking Lot Solution. Tim Graham shared with the Board a proposed leasing agreement from Wade Sample offering 29 parking spots at $4 a day for each ($2,320 a month for 12 months), and at this time, under advisement of Legal Counsel, staff is obtaining an appraisal. Mr. Abrams reminded the board that it has a policy in place regarding purchasing property that requires an appraisal before purchasing anything and he believes it is also a good idea to have an appraisal on any rental property so the board is assured they are getting fair market value for they are leasing. If Mr. Graham can determine when the appraisal might be received and the cost, it could be placed on the board agenda for action. Dr. Dawkins also stressed to the board that this is the first phase in an attempt to get a permanent solution to the Byrd parking problem. He said staff is continuing to look at other parts of the campus for additional permanent parking, i.e. negotiating with the owner of the house still for sale as well as other possibilities. Mrs. Crawley asked if the appraisal needs to happen first before the board moves forward. Mr. Abrams said if Mr. Graham gets an estimate for an appraisal, it could be presented to the board for consideration; but if it requires a substantial amount of money, he would recommend amending 8.02 to “Appraisal of Parking Solution”. Mr. Graham also stated that Mr. Sample offers in the lease agreement the opportunity for purchasing the property at the end of the three-year lease at fair market value. Mr. Woolfolk reiterated previous comments that staff is attempting to provide a solution for getting cars off the streets in the surrounding neighborhood. Mrs. Crawley said it’s not only the parking issue in the neighborhood, but also the report submitted by the Southwest Evaluation Committee that wrote up this as a hazardous situation for the students. Mrs. Crawley said she will leave it on the agenda as is and wait for staff to bring information to the board.

Mrs. Bell stated her concern and the domino effect this will bring because there are other schools in the District experiencing parking issues at their school and in surrounding neighborhoods. She also said with 2300 students at Byrd, she doesn’t believe 29 parking spots even make a dent in the need. Mr. Abrams clarified that the lease agreement presented does not include a lease to purchase option and this property will become more valuable if the district leases it for $2,300 a month. Dr. Dawkins stated to lease the property will cost the district about $24,000 a year and to build a new parking lot will cost approximately $500,000, and this is a temporary solution. While there may be issues at other schools, Dr. Dawkins reminded the board that this is a high school with an acute problem, and a problem that has been reported to administration for a solution. Mrs. Bell said others have not said anything because they know they will be told there is no money, and she cited a problem at Caddo Middle Career with cars parking on the street.

Ms. Trammel also asked about the parking situation at Caddo Middle Career & Technology Center because she knows when it rains, one has to walk in mud to get to the school due to a lack
of parking, and she was told that parking spots are based on the number of employees. She also questioned how we will gain by paying $2,300 a month for three years? Dr. Dawkins said a previous plan presented to the board included parking; however, that plan did not go anywhere. Ms. Trammel asked about a past agreement with the church (Kings Hwy. Christian) for student parking during the day in return for the district paving the church’s parking lot. Mr. Graham also noted that this is an offer the district can counter. Mr. Riall reminded the board that this item is not a comparison of other schools, but whether or not the board wishes to do this for Byrd.

Ms. Priest asked staff to verify that the Board purchased two lots on Kings Highway for developing parking areas for Byrd? Mr. Woolfolk explained that last October a report was submitted to the Board that to put 56 parking spots in those two lots would cost approximately $400,000. At this time there is still a house for sale located between the two lots purchased; and, staff is awaiting an appraisal on that property based on what the owner is asking for it. In the meantime, staff was asked and is now looking at alternative options for additional parking without purchasing the house on that lot. Ms. Priest stated that her concern is there are so many other pressing things, i.e. pupil-teacher ratio, that she believes are more critical.

Mr. Pierson asked how many parking lots are we attempting to provide? Mr. Woolfolk stated that staff was only trying to address a concern from a board member and the community to alleviate the issues with cars blocking driveways and other cars in the neighborhood; and while staff felt that the $400,000 was expensive for 56 parking spaces, they felt that 29 parking spaces at this price would definitely provide some relief from the issues. Mr. Pierson stated he believes the board needs to move forward and negotiate for the lot across the street from Byrd High School and he agrees with Attorney Abrams comments regarding how much it could possibly cost. With Byrd being in a land lock situation, it is necessary for the board to look at a solution, but if it is a situation that the School System cannot safely address, then it should be resolved. Mrs. Crawley stated with the two lots not being paved until the purchase of the third house, land is expensive and with Byrd not being the same anymore, students leaving for jobs and the many students driving to school, she would like to see included in the lease agreement that at the end of three years, there could be an open option to purchase.

Mr. Pierson asked if someone is living in the house and how long they have lived in the house? Mr. Graham responded there is and they have lived in the house since 1990.
Miss Green shared Mrs. Crawley’s concern for the parking at Byrd and asked Mr. Woolfolk about the $400,000 cost. Mr. Woolfolk explained that in October, Steve White sent a communication to the board addressing parking at Byrd and explained that a preliminary plan will be developed to address the parking issue at Byrd and how much it would cost for grading, asphalt, and stabilizing the lot because of the close proximity to a main thoroughfare. Miss Green asked Mrs. Crawley if it is her desire to move forward prior to the next school year and Mrs. Crawley confirmed that is her intent in bringing this item.

Ms. Priest asked staff to provide her with the number of students attending Byrd out of district in the regular program and not the magnet program. Ms. Priest noted the amount of time the board has spent discussing parking at one school and not on academics, school performance and evaluations.

**CPSB Join in Class Action Lawsuit to Enjoin and/or Overturn Certain Provisions of HB974 and HB976.** Ms. Priest announced that she does not have the backup at this time, but will have it prior to the May 15th meeting for the Board’s consideration. She explained that LSBA and other School Boards in the State are joining together to work on what is believed to be unconstitutional in HB974 and HB976 and she expects to receive this information within the week.

Mr. Riall announced that the Board has established a Committee on Legislation and Accountability and Board members serving on this committee are Lillian Priest, Bonita Crawford, Charlotte Crawley, Carl Pierson and Jasmine Green.

Mr. Ramsey asked if a determination has been made on the cost per district and if it will be determined by the number of school districts participating? Ms. Priest responded that is how she understands it, and that the number of school districts will determine the cost per district.

**Request for Auditing Department to Audit SunGard System.** Mrs. Crawley asked that this item be reworded to reflect a survey of the SunGard System and that the survey includes all those using or affected by the system. She said she would also like for the Auditing Department to analyze the contract as well as additions to the contract for which the District has paid, recurring costs and the results. Superintendent Dawkins stated the survey will also include the benefits and the backup plan.

**Procedures for Staffing K-3 Classes.** Mrs. Crawley explained that she is recommending the staffing policy (Policy GCA) be kept at 22 in K-3 classes with no rounding of numbers used to determine staffing allotments. Dr. Dawkins announced for everyone’s information that to do so will cost the district approximately $2 million. Mrs. Crawley added that the budget will need to be revised to reflect this amount.

**Proposed Truancy Policy, Re: Parent Responsibility for Students Missing School and Discipline.** Mrs. Bell explained that she is bringing this for the board’s consideration because she believes something must be done to make parents accountable and consequences for those who violate the laws/rules, and stop being so easy on the parents. She clarified she will ask that this be submitted to the Discipline Review Committee for consideration and added to the District’s Blue Book so that parents must sign, that it is put on the web site, that it is published in the newspaper, as well as stressed during back-to-school orientation. Mr. Abrams clarified that the CPSB does not put parents in jail; however students’ excessive absences are turned in to the Juvenile Courts and the issue addressed by them and fines paid to the courts. Mr. Ramsey stated the importance of discerning what we can do to bring more publicity and to make sure this information reaches all homes. Mr. Abrams further explained the notice will be similar to what we currently have in place for students that are tardy or truant and the parents will be subject to
the fines and community services, which will be included in the notice. Mr. Ramsey said he believes setting a few examples may get their attention. Mr. Abrams also stated he does not believe there is need for an agenda item at this time, but the proposal can be presented to staff (Discipline Review Committee) to address. He further explained that the legislation currently in committee will help parents to opt their children out of standardized tests and a portion addresses parents rights and schools not being punished if students do not show up to take the test.

Ms. Priest stated her agreement because the bottom line is if students are not in school, they suffer. She said it also impacts law enforcement, the judicial system and the school district. Ms. Priest reported that she and Board member Pierson have been sitting in with the District Attorney, Sheriff, et.al. and this is a concern (when children are not in school there is no supervision and they ultimately can become a crime statistic). She stated her agreement that we need to include the $250 fine, because $50 is not enough; and she believes the staff can be charged with working out the mechanics.

Ms. Trammel shared with the board her knowledge of someone in her community with a lot of children and everyday a number of them are at home. She stated she would like to see some type of news flash timely displayed on televisions about the law and the consequences.

Mrs. Crawley referenced numbers provided by Carla Moore and those that are repeaters and/or same families.

**Move Loyola Within Byrd’s Attendance Boundaries.** Mrs. Crawford stated she received a call from a citizen who asked that we look into this issue; and while it would have been easier had it been brought to the board when it recently considered adjustments in attendance boundaries, she agreed to bring it to the board for consideration since these are tax-paying citizens of Caddo Parish. She explained that at her request, Mr. Woolfolk determined that only one child will be affected; and this is strictly the private schools within Byrd’s attendance district where children are going to Loyola in the 9th grade and it allows them to play ball as incoming 9th graders. Mr. Pierson stated that Loyola has been physically located in Byrd’s District for years and he supports this as long as it doesn’t affect any other part of his district to the extent he will be asked why other areas cannot be rezoned. Ms. Priest stated her support of this request; however she would like to make sure that in the future citizens are asked to be more timely in coming forth with their wishes and desires. Mrs. Crawford added that she was told the Athletic Director (Loyola) told the parents he would take care of it, yet he dropped the ball. Mrs. Crawley did note that someone was in attendance at a board meeting where it was to be discussed; however, the item was postponed and he left.

**Resolution: Re: Oil, Gas and Mineral Lease (Kirby Oil Company).** President Riall explained that he is bringing this back for the board to consider possibly reversing its position of minimum $2,000 an acre and 25% royalties taken at the April board meeting. He further explained that following last month’s action he received several calls stating that drilling could not take place at the 75% royalty requested by Caddo. He stated there are certain type wells that are drilled by shallow well drillers; and they cannot afford to drill these wells with a 75% lease which will also hamper productivity for us. Mr. Riall further explained that anything below 3,000 feet is done in units and in the smaller sites drilled on the surface, then it is those who own the surface rights that benefit. He will bring additional information for the board’s consideration.

**Alternative Schools.** Dr. Dawkins shared with the board a draft proposal (pending changes in the 2012 Legislature). He announced that tomorrow the Legislature will debate the alternative school package and staff has been looking at ways to address the needs of alternative students and it is going to require us to enter into a relationship with an outside vendor, but clarified this does not mean layoffs of staff. Dr. Dawkins explained that at this time, Caddo is spending almost $8 million on alternative programs that will offer a way of regularly assessing students
and focusing on academics; and he highlighted the components of the proposed program, Ombudsman, and that the contract presented includes the cost for all aspects of the plan. Mr. Ramsey asked the superintendent if we have to or had to provide them a great deal of details on what we want? Dr. Dawkins responded that staff has held several meetings and phone conferences with representatives in order to let them know what we need. Mr. Ramsey stated he recognizes the proposed program, but he would like to get with him for further questions and answers. Mr. Ramsey stated he like staff input and how we build the program, because to address the problems that we have we really need to know where the problems are, and he is very interested in seeing the data we provided.

Mrs. Crawley asked if we know how they can save us this much money. Dr. Dawkins explained it is because of efficiency of consistent programs across the country -- and it will be the same in Louisiana as it is in Texas; and when you have this consistency, it’s easier to get an economic scale. Dr. Dawkins also explained they use a different configuration to staff the school. Mr. Riall asked if they will provide their own security and the superintendent responded that is an area still being discussed.

**Sale of Rodessa School Site.** Miss Green inquired about this item and Mr. Riall explained that this is a dilapidated meeting and the Town of Rodessa has asked us to destroy this building; however the cost to do so has prohibited the school system from moving forward. Mr. Riall also stated that the board has a policy that we maintain mineral rights on such properties when selling them; however, because these buildings are dilapidated and have livestock roaming through them, he does not believe we will be able to sell them unless we also release the mineral rights. Miss Green asked if the board will be considering it on the 15th, and Mr. Riall stated that at this time, no one has submitted a bid. Miss Green asked the superintendent what is located around this land and Mr. Riall responded there is a chain link fence, no homes, etc.

**General Fund Budget Revision.** Mr. Lee explained that this revision comes for the board’s consideration mainly due to a request from Board members to increase the bandwidth for End of Course testing because of the problems experienced in the past. Also in the past this expenditure was e-ratable; and since it no longer is, the cost is approximately $10,000 a month more than it used to be. Mr. Ramsey noted that this is much needed and because the system locked up last year and we suffered some penalties, he encouraged the Board to support this.

**Adoption of 2012-13 Consolidated Annual Budget.** Mr. Lee shared with the board members and audience a copy of the full budget package. He said this budget changed slightly from the last one presented in that the deficit spending total of $6.2 million, after modifications, now reflects a $1.8 million deficit. He explained that modifications include inclusion of variations, i.e. vacant special education teachers, savings on the alternative school plan implementation if the board agrees, staffing formula, and how much the State has cost the District this year in changes to the MFP formula. He did remind the Board that if any additional expenses are added to the budget, it will affect the ending balance; and at the $1.8 million deficit spending, we would not have been at a deficit had the State not mandated additional monetary requirements from the districts. Mr. Riall asked Mr. Lee if this proposal includes the proposed alternative school plan and Mr. Lee said it does. Mr. Ramsey said it appears staff is getting closer to a balanced budget and no deficit spending; however, he asked if staff is not willing to add back into the budget items such as taxes, etc. Mr. Lee said property taxes have been included; however, he prefers waiting until the report is received from the Tax Assessor, because at this time the information received on the sales tax is flat and he is not comfortable in moving forward with adding in any additional amounts, and the same is true with the sales tax amount. Mr. Ramsey stated again that he would like to see a balanced alternative for the Board’s consideration.

Mrs. Crawley asked the superintendent about the $2 million that would need to be added back into the budget to cover staffing, which would bring the deficit to $3.8 million. She also stated
that she believes $3.8 million deficit is the smallest deficit budget every approved by the Board, and she is o.k. with additional cuts, but not with teachers or students. Mrs. Crawley asked about scheduling an additional budget work session prior to the board taking action on next year’s budget. She also asked staff about the numbers reduced in staffing as she did not remember the numbers as presented. Mr. Lee said this new number also includes the teachers at the alternative schools. Mrs. Crawley asked that staff provider her with an explanation of the additional 20 teachers in the reductions.

Ms. Priest thanked the superintendent and the staff for working hard to get the Board this budget and for getting it down to a $1.8 million deficit. Having started out with a balanced budget, and with some of the board members requesting to add things back in the budget, she cautioned the Board about continuing to add items back in the budget. Miss Green asked about the date for the next budget meeting, and Mr. Riall announced that the Board will hold another budget work session on Tuesday, May 8, 2012 from 11:30 to 1:00 p.m.

ADDITIONS

Mrs. Bell asked that travel be added to the June agenda.

Mrs. Crawley asked about 9.02 because she would like to move this item to an Action Item for the Board’s consideration. She asked why the TAP program is no longer at Cherokee Park and staff explained that the grant for this program ran out. Mrs. Crawley asked if TAP is on the schedule for next year at three high schools? Dr. Dawkins responded that a School Improvement Grant was awarded for these three schools. Mrs. Crawley asked if there is not an option with TAP? Dr. Dawkins responded that funding is a concern, and Mrs. Crawley said she understands, but she believes we could write a grant for it to be district-wide. She said she would like for the Board to seek a waiver from the State before implementing the evaluation system so Caddo can pursue possible funding for TAP as the tool for Caddo’s evaluation program as opposed to the State’s evaluation program. Dr. Dawkins said staff will look at all possible options and report back to the Board, but he is not aware of anyone that would be willing to fund an entire district.

APPROVAL OF AGENDA AND CONSENT AGENDA FOR MAY 15, 2012 CPSB MEETING

Mr. Riall proposed that the following items be considered as the consent agenda: 6.03, 7.02, 8.04, 8.06-8.07, 8.09-8.12, 8.15-8.17. Mrs. Bell moved, seconded by Mr. Ramsey, approval of the proposed agenda and consent agenda for May 15, 2012 CPSB meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE

Jon Glover, employee, addressed the Board on politics, agendas, and stewards. She said each member of the School Board is a steward, one who represents their individual district as well as all districts collectively. Ms. Glover added that the Board not only represents the children of Caddo Parish, but also the parents, grandparents and guardians of the children in Caddo Parish. She said she doesn’t understand the need to have a budget exercise and asked if the budget is being exercised as something that is beneficial for all children in the parish. She said not only are the children of Caddo Parish being affected by the Board’s decision, but the employees as well. She asked the Board if they realize that they run the risk of destroying the lives of the children in Caddo Parish as well as those who work for Caddo Parish, and if they feel like the lives of all affected are being jeopardized as consideration is given to resolve these many issues? Ms. Glover reminded the Board that their choices will bring about devastating effects on everyone and it is important to work within the confines of a good budget and no longer allow frivolous work with the District’s funds, but effectively make sure we avoid the travesties that
have come about because of the actions of those who thought it worthy to exercise a management tactic that brought forth these problems. Regarding the Governor’s agenda, she said it was no more intended to have students at risk than the man in the moon; and she was very hurt when she heard on the news a parent expressing dissatisfaction of parents receiving vouchers to attend private schools, because what she was saying was she does not want students, primarily minorities, to attend school with her children. Until it is determined by everyone that every child, regardless of race, is entitled to a quality education, this will not change.

Jackie Lansdale, president of Red River United, reminded everyone about the Most Improved Student Celebration on Tuesday, May 8th at 6:30 p.m., Southwood High School, which is being done with the Caddo Parish Public Schools. Relative to the teachers’ supply money, she brought to the Board’s attention that she was notified by a teacher today that the principal informed the teachers that this money would not be coming to them next year. She said these are materials that go into the classroom for the boys and girls and she doesn’t understand why this has to be an argument each year. If the Board does not allot this amount to the teachers, she believes it is in effect giving the employees a pay cut; and she encouraged the Board to do as much as possible for the teachers in helping provide needed supplies for the students. Regarding legislation, Mrs. Lansdale stated she believes there will be much time spent in court challenging many bills being proposed and signed into law by the Governor. She also asked that the employee organizations continue to be included in the process and that they are included in meetings and discussions relative to the evaluations. Mrs. Lansdale also asked the Board to encourage State Superintendent John White to bring one of his statewide meetings to Caddo Parish.

Adjournment. Mrs. Bell moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried unanimously, and the meeting adjourned at approximately 8:23 p.m.
May 8, 2012

The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 11:30 a.m. on Tuesday, May 8, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Charlotte Crawley, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Secretary Gerald D. Dawkins, and Reginald Abrams, legal counsel. Ms. Priest led the prayer and Pledge of Allegiance.

Superintendent Dawkins reported to the board that since the last meeting, he has attempted to contact Walter Lee in DeSoto Parish; however at this time, he has only been able to leave a message for him to call regarding a waiver and cost for the TAP program.

Jim Lee, director of finance, reviewed the financial summary given to the board at the last work session noting there has been no change. Mr. Lee said staff has explained to the board the level of changes at the State, i.e. MFP funding and how it affects Caddo (approximately $4 million). He further stated if Caddo had received the same amount of money from the State as the previous year, the District would not be looking at a deficit, but would be on the plus side. He also referenced board discussions on restoring the staffing for K-1 classes which is on the board’s agenda for May 15th. This amount is not included in the proposed budget; however, if the board approves this change, staff will then incorporate that amount into the budget, adding another $2 million in expenditures and increasing the deficit to approximately $4 million.

Mrs. Crawford asked if the proposed Ombudsman Program has been added to the budget. Mr. Lee responded that the savings (between $3 and $5 million) has been incorporated in the budget.

Mr. Rachal asked staff if they feel like everything has been incorporated in the proposed budget from the State. Mr. Lee said everything of which we are aware. Mr. Rachal asked if staff included the effect of what the District could possibly lose through vouchers? Mr. Lee responded no because we have only received one application for a charter school; and if it is approved, it will not take effect for another year. At this time the State has not determined exactly how they will implement this program. Mr. Rachal asked if the staff feels like we will lose students with the vouchers? Dr. Dawkins responded that we have not been flooded with calls about vouchers and only that one of the local schools has said they do not plan on participating in the voucher program. He added if the voucher plan works, he believes the biggest impact will not be this coming fall, but in another year. Mr. Rachal asked staff about the pie chart reflecting that MFP is 52.7% of our revenues and if staff could provide the board a breakdown for the past five years, since it appears to him that the total revenue from the State continues to be reduced. Mr. Lee noted that his assessment is a fair one and he will provide the board the past five year amounts and the percentage that amount was in the General Fund. Mr. Rachal asked staff to look at what the District receives from the local revenues.

Ms. Priest asked why the number is so high for the Dual Enrollment revenue? Mr. Lee stated it is an actual award for Dual Enrollment, and until we receive something contrary, staff budgets the same amount. Ms. Priest asked staff to provide her with an actual spent amount vs. the budget for 2010-11 for Dual Enrollment. She also stated that because figures are not included for vouchers, she believes the board should be conservative and plan for some impact or loss.

Mr. Ramsey referenced the alternative education proposal presented and asked if the program is for grades 6 -12, if it is an on-site program, does it have 450 total slots, and why there is no mention of Hamilton Terrace? He asked if this accommodates all the issues with overage middle school students and the current students we are serving? Dr. Dawkins explained that 450 is more than what is currently on the books which allows for some cushion; however, in the contract with this company, and if approved by the board, there are options to add more if we need to do so,
but being a growth industry for alternative schools is not what we want. Mr. Ramsey stated his concern is in trying to come up with an appropriate budget and if this is the direction the board chooses to go, he only wants to be comfortable with the numbers. He also asked if the off-site locations will be in facilities owned by Caddo Parish Schools, and Dr. Dawkins said they will not and the cost is already included. He further explained that the middle school students will be in Ingersoll, Hamilton Terrace will be vacated and the company will locate three or four locations in strip-type malls, the cost of which is included in the numbers presented.

Mrs. Armstrong asked if the budgeted positions in parentheses are being eliminated? Mr. Lee said the third column reflects the change and the positions to be reduced, some through attrition.

Miss Green asked staff to provide a breakdown on how the dollars are spent for Performing Arts, Shreveport Symphony, etc. relative to the Music Program.

Charlotte Crawley stated that she still desires to receive additional details on the instructional reductions (teachers and aides). Mr. Lee responded that he believes HR is working on these numbers. Mrs. Holliday explained staff’s projections based on last fall’s enrollment and applying the current staffing formula, as well as the new formula and how staffing numbers would be affected. Mrs. Crawley announced that principals are telling kindergarten teachers they have been cut from the budget and some will be released and will need to find another job. Mrs. Holliday clarified that the schools have not been given the staffing allotments at this time; however, principals can calculate their numbers. Mrs. Crawley asked Mr. Lee for the projected ending balances for the past three years when the board voted on the budget for those years? Mr. Lee responded that the current year (11-12) began with an approximate $15 million deficit and staff is projecting approximately a $4 million deficit for the year, for 2010-11, the proposed deficit was approximately $30 million and the final deficit was approximately $6.2 million, and the projected deficit for 2012-13 is approximately $1.8 million. Mrs. Crawley asked if the staffing policy is revised, will that place the projected deficit at approximately $4 million? Mr. Lee said that is correct if the board votes to put the staffing formula back in.

Ms. Trammel asked how staff will project for the budget how many students Caddo could possibly lose because of vouchers? Mr. Lee responded that he has not seen any numbers, but he heard that between the private schools, including Catholic schools, there could be between 200 and 400; but he doesn’t have a good way at this time to determine this number. Regarding the proposed alternative program, she asked will there be programs implemented in those schools to help the students that are not college bound? Dr. Dawkins explained it will be embedded in the program, i.e. job and career coaches; however, for the traditional programs, we currently have coaches for graduation; and if we follow the State and the District’s goals, we will be moving forward to do a better job of getting students matched with a career. The company being proposed will attempt to match students with job experiences, i.e. internships, apprentices, etc. in an effort to train them in a particular trade.

Mrs. Bell asked Mr. Lee about the incentives given to the AU schools for three years and if this has been incorporated into the proposed budget since this is no longer an expense for the district after this year? Mr. Lee said it has because this current school year is the final year. Mrs. Bell asked how much does this represent, and Mr. Lee said approximately $5 million a year. Mrs. Bell asked about the existing charters and the fact that we provide services, i.e. maintenance, cafeteria workers, etc.; and if the State decides to return Linear to Caddo, is there a lot of money budgeted for Linear? Mr. Lee responded between $500,000 and $1 million. Mrs. Bell asked if that amount is in the budget and Mr. Lee said it is not because Caddo bills them for it, thus it is really a wash. Mrs. Bell asked if the amount the State pays for each student will be the same for vouchers and charters? Mr. Lee said it will be the average MFP cost for all of Caddo’s students, i.e. approximately $4,800 plus an amount taken away for local tax revenue, so it will be approximately $5,000 to $8,000 a student. He further explained that with MFP dollars, $3,800 is
the base amount per student and special ed or at risk students receive a little more and they determine what the average amount is for all the students.

Mr. Riall asked Mr. Lee if we get 400 vouchers at $7,000 is this not approximately $3 million out of Caddo’s budget? Mr. Lee said that is correct. Mr. Riall asked Mr. Lee about the cost to educate the 400 students. Mr. Lee explained the District probably spends approximately $10,000 per student. Mr. Riall asked if we get 400 vouchers, will we not lose $3 million, but it is costing a lot more per student to educate them? Mr. Lee said that is correct, as long as staff is adjusted accordingly; because if the District loses students, it will do so across the District and not in a few schools to the point it would affect the staffing at the school. Mr. Riall also asked staff if the savings from the proposed alternative program is figured in the budget and Mr. Lee confirmed it is. Mr. Riall asked what will become of the Hamilton Terrace property and the superintendent responded it would become an off line school with no activities and possibly be sold.

Ms. Priest asked about the budget for virtual schools approved earlier this year? Mr. Lee responded that he doesn’t have the details with him, but confirmed that the same amount from last year is included for next year. Dr. Dawkins stated that the District started with approximately 200 students and the number is up to approximately 400. Mr. Lee responded he will provide the board with the number of students projected and the dollar amount budgeted.

Mrs. Crawford asked about the 28 teachers we would lose from the alternative schools. Mr. Lee said the number would be reduced, and they could possibly work for Ombudsman or placed in a vacancy at another school. Mrs. Crawford asked if we receive more money than we need for the Dual Enrollment, can it be used to train teachers, and Mr. Lee explained that all the funds and grants are designated for specific uses.

Mr. Rachal referenced discussion at the last board meeting on outsourcing and asked about any progress in this regard; because even though he understands this is not something that will happen in this budget, it is a discussion that needs to begin. Mr. Lee explained staff has looked at potential areas that could possibly be outsourced; however, at this time, it has not been incorporated in the budget. Mr. Rachal stated he understands the information is preliminary; however, once additional information is received, he only asks that it not be given to the board too far into the budget planning process for the following school year since it could possibly impact a number of areas. Dr. Dawkins affirmed staff will present this information to the board in adequate time for review and consideration. Mr. Rachal asked if, with the K-1 staffing and the possible reduction of approximately 33 teachers, a class has more than 23 students is it possible to place an aid in the classroom to assist the teacher; and if so, what is the cost? Mr. Lee estimated approximately $500,000; however he would prefer to run the numbers to make sure based on the type of class. Dr. Dawkins responded that staff will provide a complete answer to this request. Mr. Rachal asked if it is possible to use Title I funds and not affect the General Fund budget? Staff responded that Title I funds are restricted for use only in Title I schools.

Mr. Ramsey asked about the Ombudsman Program serving students at the current Hamilton Terrace Alternative School as one of four possible sites and if this means one site might be closed? Dr. Dawkins explained that under this proposed plan the Ingersoll site will remain open for middle school students, and Hamilton Terrace will be closed and sites strategically placed throughout the community. Mr. Ramsey asked if part of the savings to the budget is in recognizing the closure of the Hamilton Terrace facility and noted the numbers compared in the elementary schools for K-1 teachers and class size and how the staffing formula works.

Mrs. Armstrong asked if Ombudsman will lease Ingersoll from us for the program there or will Caddo maintain the school with their personnel being placed at Ingersoll? Dr. Dawkins explained that we will maintain the site and they will put their own personnel in place there. Mrs. Armstrong asked if the high schools will cover the cost of the facility they may use and
Dr. Dawkins responded that Ombudsman covers all these things. Mrs. Armstrong asked about the Linear facility and if Caddo is conducting regular maintenance inspections at the two charter schools, because if they have torn up Linear, someone needs to be held accountable. The superintendent assured Mrs. Armstrong that someone will be held accountable. Mr. Smith responded that routine (daily/weekly) maintenance is conducted at this site, and they are charged for anything torn up or damaged on the campus. Mrs. Armstrong stated the importance of Caddo having eyes on these facilities on a regular basis. Mr. Smith reminded everyone that the custodial staff at Linear works for us and they do report these things to us; but Linwood has its own staff. Mrs. Armstrong again stated if these schools are being torn up, she believes it is necessary that conversations take place with the administration. Mr. Smith responded he will do some walkthroughs on this campus.

Miss Green stated she does have numbers on the music budget and the fact that the board gives the Performing Arts Program $5,000 and to the Shreveport Symphony $15,000 or more. She said the Performing Arts Program does a lot for Caddo Parish and they give us back almost all of what they receive when they use our facilities. She asked for an additional $5,000 for this group, and Mr. Lee explained it would be necessary to add an item to the agenda. Miss Green also asked Mrs. Holliday to summarize Northside and Pine Grove and how will the number of teachers and class sizes be determined for K-2.

Mrs. Crawley said she still desires to receive information on Central Office vacancies. Dr. Dawkins stated staff did bring a list of openings in Central Office and the number/positions that could possibly be open by the end of the summer and potential savings. Mrs. Crawley also asked if she went to A.C. Steere, can she expect to count only 17 students in a Kindergarten class because she does not expect that to be the case; and asked if this is only how principals staff their teachers, because she believes they might put 26 in a class so they can provide an enrichment class or whatever they might want. Mrs. Holliday said she can only verify that this is how the teachers are allotted to the schools and how HR instructs principals to staff their positions. Mrs. Crawley shared her experiences as a teacher and how her principal used their staffing allotment. Mrs. Armstrong stated that prior to her serving on the board that is how it was done; however, after she became a member of the board, the board passed a policy that enrichments are outside the classroom pupil/teacher ratio. Mrs. Crawley stated she is familiar with this; however principals can still use the allotment how they want to use it. Mrs. Armstrong reminded everyone that art, music and physical education are figured outside the staffing formula and if principals are doing something different, they should be called to task. She also asked if the new law in effect that takes hiring from the board, allows us to tell principals they will employee certain persons? Dr. Dawkins responded that to some degree we will still have the ability between the superintendent and principal to place all personnel.

Ms. Trammel inquired about previous discussions on outsourcing and if this is something that can be done in any area and staff is doing. Dr. Dawkins responded staff is looking at every area; and at the Board’s request, staff will schedule a time to bring this for the board’s consideration.

Mrs. Bell asked about the proposed alternative school plan and if the Career Center on Union Street is the Discovery Center and Superintendent Dawkins clarified that it’s part of the Academic Recovery Center’s name. Mrs. Bell asked if this company will have access to the Career Center classes? The superintendent explained that the primary purpose of this program is to get the academics up for these students who are behind 2, 3 and 4 years; and the agreement does not include the career complex itself; however if we want to include the Career Center Complex as a part of the agreement, it is something that could be looked into. He noted the abbreviated schedule is strictly instruction, but they also will attempt to match students up for a job or experience that might lead a student to a job. Mrs. Bell asked the superintendent to explain what will happen to a child when their daily session ends at 11:30. Dr. Dawkins responded the student would be led by a job coach into something that will help them with job-
embedded skills or possibly an apprenticeship. This program is not a day-long program, but it is a program that will give them instruction as well as opportunities to learn different skills that will help them with future vocation decisions. Mrs. Bell asked if we will be able to place some students in internships. Dr. Dawkins said some will be, but we will be able to serve more students because of conducting two sessions since we have been unable to serve all the students in the past. Mrs. Bell stated she likes the program, but she only wants to make sure that we are training students in some type of trade. Dr. Dawkins stated he does not want to mislead anyone, because the program does not have career complex/center component, and while it may be possible to incorporate it in the program, this is about getting basic skills for these students. Mrs. Bell stated her concern for the middle school students and asked if they will be able to return to the regular school? Dr. Dawkins explained there is an individual work plan for each child that includes goals and once they meet the goals, they may return to the regular school. Mrs. Bell also asked about the schools that are off-line and the possibility of using one of these to relocate Central Office departments that are out of space to one of these locations? The superintendent responded that the board approved selling and using schools for other things and staff is looking at the utilization of those schools not scheduled to be sold for some of these functions, some of which will be implemented this summer.

Mr. Riall asked about the $100,000 budgeted for elections next year and Mr. Lee explained that it’s for the bond renewals. Mr. Riall also asked about the projected $30 million budget deficit two years ago that dropped to $15 million, as well as the projected $16 million deficit that dropped to $4 million, and is it true that with a projected $4 million deficit for 12-13, we could end up in the black? Mr. Lee said it is possible, and we are getting closer to a balanced budget and could end up in the black.

Mr. Ramsey stated that he asked the superintendent for a balanced budget and he has spoken with him to not expend a lot of time on this because he will continue to challenge the staff in this regard. However, he believes the budget is a moving target and at this time it is important to get something to the principals so they can move forward in planning for next school year. He also added that he wants to make certain that we do not get on the State watch list.

Mrs. Armstrong asked if the $200 M&S is included in the budget, and Mr. Lee said it is not.

Mrs. Crawley said she has not received an exact list of the schools that Ombudsman will take over, and Dr. Dawkins responded it is Academic Recovery and Hamilton Terrace. Mrs. Crawley asked about Alexander and the superintendent responded they do not do elementary schools.

Mrs. Crawley asked about a more clear explanation relative to MFP? Mr. Lee stated the budgeted amount is a reduction from what we received last year. Mrs. Crawley asked about the $3,900,000 and where is it in the budget. Mr. Lee said that part of it is the start of a voucher system since we have students enrolled in Virtual Schools and they are taking local dollars as well. He reported they also penalize us for a wealth factor within the MFP formula.

Mrs. Bell stated that we need to let the public know that the state has taken approximately $4 million from the District.

Mr. Lee announced there was an issue with the publishing of the notice for the public hearing for the adoption of the budget, so staff will not be asking the board to adopt the budget at next week’s meeting, but at a special called meeting on June 5th.

There being no further discussion, the budget work session adjourned at approximately 1:05 p.m.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, May 15, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lilian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Mrs. Crawford led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE APRIL 17, 2012 AND MAY 1, 2012 CPSB MEETINGS

Mrs. Armstrong moved, seconded by Mr. Ramsey, approval of the minutes of the April 17, 2012 and May 1, 2012 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, interim director of communications, and Dr. Mary Nash-Robinson, government and community relations officer, on behalf of the board, recognized the following staff members and students for recent achievements. President Riall and Superintendent Dawkins presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

13 Years Perfect Attendance. Brittany Mason, North Caddo High School senior, was recognized for 13 years of perfect attendance.

Regional Social Studies Fair First Place Winners. The following elementary students were recognized for placing first in the 2012 Region I Social Studies Fair: Abigail Garrett, Fairfield; Summerlyn Powell, Summerfield; Ashton Nelson, Fairfield; Emily Aillet, Eden Gardens; and Keiser Dallas, Claiborne. Division I Group winners are Allie Deyo and Jaycie Davis, Eden Gardens; and Claire Guin and Taylor Guin, South Highlands. Division I Grand Prize winner is Emily Aillet, Eden Gardens; and Division I Group Grand Prize Runners Up are Claire Guin and Taylor Guin, South Highlands.

Middle School first place winners are Avery Vickers, Youree Drive; Trevor Taylor, Youree Drive; and Sarah Kozak, Youree Drive. Division II Group winners are Alex Tarver and Ethan Tarver, Youree Drive; and Maghana Rao and Alexandra Wells, Caddo Middle Magnet. Division II Individual Grand Prize Winner is Sarah Kozak, Youree Drive; and Division II Group Grand Prize Winners are Meghana Rao and Alexandra Wells, Caddo Middle Magnet.

High School first place winners are Kaytlin Woollen, Northwood; Nicholas Zagzoug, Captain Shreve; Rachel Patteson, Northwood; Evan McMichael, Northwood; Kyle Rachaol, Captain Shreve; Jacob Jarrett, Northwood; and Skylar Williams, Northwood. Division III Group winners are Mary Catherine Fertitta and Stephanie Durr, Captain Shreve; Amelia Fertitta and Patyn Glass, Captain Shreve; and Peyton Britt and Regina Champagne, Captain Shreve. Division III Individual Grand Prize Runner Up is Skylar Williams, Northwood; Division III Grand Prize Winner is Kaytlin Woollen, Northwood; and Division III Group Grand Prize Winners are Amelia Fertitta and Patyn Glass, Captain Shreve.

West Shreveport Elementary and Central Elementary Choirs. Choirs from West Shreveport Elementary and Central Elementary sang America the Beautiful for the board and audience. Vera Burns and Pat Brazil are the choir directors.
Cora Allen Essay Contest Winners. Mr. Mainiero announced that Caddo Public Schools celebrated the 1st Annual Cora M. Allen Day on March 7, 2012 and students across the district were given the opportunity to write an essay about the life and accomplishments of Mrs. Allen. The following students were recognized: Honorable Mentions are Michael Schmidt, Caddo Middle Magnet; Tysen Hardman, Caddo Middle Magnet; and Tyra Brown, Keithville Middle. First place winner is Alysia Cannon, Donnie Bickham; Second place is Penelope Preimesberger, Donnie Bickham and C-Airra McKay, Oil City Magnet, third place.

Caddo Career & Technology Skills USA Gold Medal Winners. Mr. Mainiero explained that Skills USA is a national organization serving a quarter-million secondary students enrolled in technical, skilled, service and health occupations. Fifty-eight students from CC&TC competed in the state contest and brought home 21 First Place Gold Medal awards. The following students will travel to Kansas City, Missouri in June to represent Louisiana in the National Skills USA championships: Jalen Adams, Nurse Assisting; Emmanuel Sims, Extemporaneous Speaking; Jasmine Hale, Health Knowledge Bowl and Medical Math; Caleb Killer, Health Knowledge Bowl and Medical Terminology; Shaqita Johnson, Health Occupation Portfolio; Jacob Soenksen, Health Knowledge Bowl; Amanda Hovis, Health Knowledge Bowl; Tymothy Hensley, Dental Assisting; Sean Woodfork, Job Skills Demo A; Cody Fowler, Precision Machining; Tiffany Haines, Culinary Arts; Colby Murphy, Collision Repair Tech; Virginia Young, Automotive Service Tech; Brady Howard, Technical Drafting; Camden Nahorniak, Architectural Drafting; Geordi Thomas, Advertising Design and State Pin Design; Jacoya Brayboy, Commercial Baking; and Shatamber Wade, State T-Shirt Design.

Southwood Lady Cowboys Basketball Team. The Southwood “Lady Cowboys” basketball team was recognized for winning more than 30 games this season; the 19th straight year Southwood has accomplished this feat. The Southwood girls were also the undefeated 1-5A District Champions with a 10 and 0 record, and were undefeated going into the State Championship game against Lafayette. This season marked the 14th time in the past 18 years Southwood has played in the State Championship game.

Byrd’s Girls Tennis Doubles Team. Avery Bryan and Molly Layton, Byrd High School, were recognized as the undefeated girls’ tennis doubles team regional and state championship winners.

Byrd’s Track Team. Christian Willis, Nicholas Peoples, Tony Griffin and Hanoj Carter, members of the 4 x 100 and 4 x 200 relay teams, were recognized for winning the Regional and State Championships. Nicholas Peoples also won Regional Champion in the triple jump; and Hanoj Carter was the Regional and State Champion in the 100 and 200 meter dash, anchored the Regional & State Champion 4 x 100 meter relay, and Regional Champion and State runner up in the 4 x 200 meter relay. Hanoj was also selected as overall MVP in the Class 5A competition.

Teacher of the Year. The following teachers were recognized as Teacher of the Year district winners: (1) Elementary – Phyllisia Mason-Hollins, South Highlands; (2) Middle – Toccara Williams, Walnut Hill; and (3) High – Eunhee Choi, Woodlawn Leadership Academy.

School Nurses. In conjunction with recognition of school nurses on May 9th, Caddo Parish Public School Nurses were recognized for their vital role in the educational process and health and well-being of Caddo’s school children. Bridget Causey is the supervisor of nurses.

Louisiana Professional School Counseling Model. Michael LeFort, school counselor for 39 years, shared with the board the important role of school counselors and the impact they have on a student’s life and education. He said professional school counselors are certified licensed educators trained in school counseling with unique qualifications and skills to address the needs of all students in three major domains: academically, personal/social, career. He said school counselors also implement comprehensive data-driven counseling programs that promote
enhanced student achievement; and State Superintendent John White has placed them in an accountability position beginning this school year in the fall. Mr. LeFort explained that school counselors maintain a vital role in maximizing student achievement by incorporating leadership advocacy and collaboration, promoting equity and accessibility in all services and a safe learning environment. He also stated they work to safeguard the human rights of members of the school community, collaborate with other stakeholders to promote student achievement, and address the needs of all students through prevention and intervention programs, as well as participate in the development of school counseling programs based on the Louisiana School Counseling Model. This model is available via the Louisiana Department of Education’s web site, and the framework of the program is where the foundation, beliefs and philosophies, statements relative to each school and a mission statement are created, as well as Core standards addressed. In the delivery system, he stated there is a counseling system which counselors should intermittently be able to deliver classroom instruction in small group lessons. Individual planning and establishing personal goals with students is carried out by counselors as well as responsive services if necessitated issues develop along with the needed support and training. Mr. LeFort also highlighted organizational tools used for the management systems, agreements in place with administrators, advisory councils, data used for systemic change, action plans for prevention and intervention services, and use of calendars as an information means, holding that 80% of a school counselor’s day is in direct service with students. He stated that the key question when looking at what counselors do is “how are students different as a result of what school counselors do?” While counselors were once reactive, they are now proactive; they were once process based, they are now results based; and they once provided services, but now they impact data. He said the goal is to get students ready for college and careers and to empower counselors to get them ready. Mr. LeFort added that counselors should have a direct impact on influencing attendance rates, test scores, discipline, standard scores, etc. and highlighted steps in the strategic planning tool for impacting achievement by impacting the following areas: (1) higher test scores, (2) reduced discipline problems, (3) decrease absenteeism, (4) increase graduation rates, (5) lower dropout numbers, (6) increases SPS scores, (7) attain more IBCs, (8) improve secondary enrollment, (9) more informed parents; (10) having students college and career ready; and (11) close achievement gaps for all students. Mr. LeFort encouraged the board to support the shift in the school counselor’s role and have them heavily involved in impacting student achievement and being a vital part of that process since 50% of their evaluation will now be based on just that.

Newly Appointed Administrators. Dr. Mary Nash-Robinson introduced the following newly appointed Caddo administrators: (1) Jenifer Skrockie, assistant principal, Ridgewood Middle School; and (2) Judy Fair, School Improvement Monitor. Ruby Scroggins, current principal at Eddie Jones West Shreveport, will assume the principalship at the new J. S. Clark Elementary School; and Eric Hill, current principal at Central Elementary, will assume the principalship at Caddo Heights Elementary.

Recess. President Riall called for a brief recess at approximately 5:23 p.m. and the board reconvened in open session at approximately 5:38 p.m.

VISITORS

Karen Othought, Kindergarten teacher at University Elementary, addressed her concerns both as a teacher and parent regarding the rationale for increasing the number of students in Kindergarten-1st grade classes to 26, and this should not be one of the ways to balance the budget. With Kindergarten and 1st grade teachers building the education foundation for these children by teaching with a hands-on approach and small group instruction, she believes a classroom of 26 students would no longer provide these small group opportunities. Ms. Othought also stated that implementation next year of the new Core Curriculum and a portion of their pay being based on student performance, she believes the logical move would be to decrease class size and not increase it. Increasing class size, she believes, will be a move that
will set up teachers and students for failure. She stressed increasing the class size takes away the teacher’s effectiveness and 26 kindergartners is not a reasonable expectation. She encouraged the board to keep the student teacher ratio as it currently is and not change it.

Donald Johnson, employee of Caddo Parish Public Schools, addressed the board on a workers’ compensation claim from 2002. He further stated that when he returned to work, he injured himself again and applied for disability retirement, which fell through. He said he believes there were some discrepancies in his settlement claim and asked that the staff look into his situation.

Jon Glover, Caddo School employee, stated that at the May 1st meeting a number of budget issues were discussed; and she believes the concerns shared caused a balanced budget to become unbalanced and asked what happened? She asked for clarity on why we continue to participate in items that plague the budget and its current position: (1) out of state travel, (2) A/B scheduling, (2) Byrd’s parking lot, (3) SunGard system, and (4) impending adoption of an outside agency to run the alternative program. She encouraged the board to take into consideration who will be affected in each of these areas as well as the costs for each and make their decisions based on what is best for children.

Amelda King asked the board to consider that 91% of the children in alternative schools are below poverty level and she is concerned for these students being in a ½-day program and then released to be on the streets. She said research indicates that when kids are on the street, gang affiliation, drug use, teenage pregnancy and violence will all increase, and asked the board to consider this when making a decision.

Annette Garner, Caddo employee, asked the board to carefully consider its decision to privatize alternative schools because turning over the schools to a private company is not the solution to addressing alternative education. She stated she believes there is enough expertise in Caddo Parish to develop an effective and efficient model for alternative education and questioned why the board would consider paying someone else to do for the district what we can do for ourselves and do a better job. Ms. Garner added that turning the alternative schools over to a for-profit company is synonymous to turning public schools over to charter and private schools and noted the board’s opposition at the last meeting to this move. She encouraged the board to carefully consider the challenges faced by alternative schools, the various reasons students are referred to alternative schools and what the teachers and administration address on a daily basis. As educators at the alternative schools, she shared their concern about the future of the students on their campus and the unanswered questions in the proposal, i.e. what will middle school students attending school ½ a day be doing the remainder of the day, how long will it take high school students to get out of school if they are only in class four hours a day and are already behind in credits. Ms. Garner asked to receive data on districts the size of Caddo that have demonstrated success once they return to the regular school program.

Steven Jackson, addressed Byrd’s parking and his concern that the board is considering spending $60,000 for a temporary fix to this situation. He asked if the board has exhausted every possibility to reduce the parking problem versus investing this kind of money in a temporary solution. Mr. Jackson also stated that a request was recently brought forth to fix the playground at Atkins, but the response was there was no money. He said magnet schools are an option; and if students are driving across town to attend Byrd, this is a luxury and should not be for the board and taxpayers to financially support. He added if we are investing in the neighborhood schools, there should not be a need for someone to drive to school. Mr. Jackson encouraged the board to make sound, fiscal decisions and to vote no on this proposal.

Blake Jones, student at C.E. Byrd, shared his good learning experience at Byrd despite the parking issues. Despite the solutions presented for the parking issue, i.e. putting more students on the bus, capping the number of students in the magnet program, he noted there are many
students riding the bus to school. Many students that drive to school do so because of extracurricular activities after school, i.e. sports, band, clubs. He also stated he doesn’t believe putting a cap on the number of students in the magnet program is fair to students who want to participate in the program at Byrd. He encouraged the board to continue to put money in the capital projects budget for parking to assist in providing ample parking spots for Byrd students.

Britney Roberson, student at C.E. Byrd, addressed the board on the Byrd parking issue and encouraged the board to support providing ample parking for the students at Byrd, the same as is provided for other schools in the district.

LeeAnn Anglin, parent of a Byrd student, addressed the board in support of all students in Caddo Parish and encouraged the board to carefully consider the need for parking at Byrd. She said it is the School Board’s responsibility to make certain all the schools’ fiscal plants are safe and up to date, and these needs are addressed out of the capital budget. She said she believes the capital projects budget has ample money for providing a long term solution to this over 30-year problem, and she encouraged everyone to help one another and lift up our schools.

Daryl Roberson, president of the Caddo Association of Educators, questioned the importance of issues such as Byrd’s parking and adjusting Byrd’s attendance boundaries to include Loyola, because of the amount time spent discussing these items at the May 1st work session. He said he is also puzzled because after the superintendent made his presentation on the proposed alternative schools, six or seven minutes, there was not the same amount of discussion on this item as it was on the others. He said this directly affects the education of some of Caddo’s most challenged students; and while alternative education is an important component in Caddo’s education program, and is in need of restructuring, he doesn’t understand giving it completely over to Ombudsman. With many, many unanswered questions, he said he is not convinced that board members have all the information they need to make a decision that is in the best interest of all the students. He also noted that this item was placed on consent, which disallowed any further discussion; and unless it is pulled for discussion and properly addressed, he questions how we can be sure this is not another for-profit company coming to Caddo Parish. He encouraged the board to carefully consider and discuss all aspects of any company from out of town coming in and managing any of Caddo’s services and the long term effect of this decision.

Jackie Lansdale, Red River United, stated she has already begun to see effects of Governor Jindal’s Education Reform in Caddo, i.e. principals becoming bold in their new found power in Act 1 of 2012, and shared with the board what a principal shared with teachers at a recent meeting. She said while board members may no longer have the power to hire and fire, they are still in charge of policy making. Mrs. Lansdale explained that if the student’s growth or quantitative portion of the evaluation is deemed ineffective, the teacher will be rated overall ineffective; yet, on the other side of the evaluation, if the teacher is considered ineffective, the teacher has the opportunity for a second evaluation. Mrs. Lansdale also noted that tenured teachers will lose their tenure only if they are deemed ineffective and that these are areas in which we can develop and define roles and responsibilities that are guided by policies. In creating policies, she encouraged staff to bring in the stakeholders for their input and define basic constructs, i.e. when will teachers receive the observation and evaluation procedures; establish a minimum number of evaluations and observations in the school year, and insure that the appropriate personnel is conducting evaluations and that the teacher knows who that person will be. She added that guidelines and trainings for administrators should be in place, as well as deadlines established for informing teachers of their effective status. Mrs. Lansdale said that Act 1 of 2012 states that teacher pay raises will be based on the effectiveness as determined by the evaluation results, content for license and experience, with teachers who go above and beyond being rewarded. She noted that none of this money is coming from the state and the district has not seen an increase in four years, so it will be up to the local district to create a process and pay scale and encouraged the board to come together with others to devise a structure that promotes
not only a healthy work environment, but also a healthy learning environment. Mrs. Lansdale said the importance of working conditions, morale, fairness, respect, safe work sites, administrative support, supplies provided, enforcement of discipline are all reflected in study after study if we are to experience positive results in student achievement. She encouraged the board to stand together as one school system in one community in every decision it makes.

**ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE MAY 15, 2012 CPSB MEETING**

Superintendent Dawkins announced that Hamilton Terrace should be removed from consideration of rewiring for security cameras under Item 7.03. He also asked that 8.10 “Alternative Schools” be pulled until legal questions, regarding special education due process issues, are answered. Mr. Rachal asked that this remain on the agenda so questions can be asked. Mr. Abrams reminded the board that if an item remains on the agenda, there must be a motion on the floor to discuss it. Mrs. Crawley asked that 8.02 be postponed until June, Mr. Hooks asked that Item 8.01 be pulled and he will bring it back, and Ms. Priest asked that Item 8.03 be pulled. Mrs. Crawley also asked that 8.19 “Request from the State for a Waiver from Implementing Teacher Evaluation Program Until Alternative Evaluation for Teachers using TAP Program is Studied” be moved to Superintendent’s Report. Dr. Dawkins highlighted the remaining items for the board’s consideration and the board president recommended Items 6.02, 6.03, 6.05, 7.01, 7.02, 8.04, 8.06-8.07, 8.09, 8.11-8.12, 8.14-8.16 and 8.20 as the consent agenda. Mrs. Bell moved, seconded by Ms. Priest, to accept the consent agenda. Vote on the motion carried unanimously. The following is a summary of the board’s consent agenda action.

**Item No. 6**

**6.02 Requests for Leaves.** The following requests for leaves were approved as submitted by the superintendent in the mailout.

**Certified**

Catastrophic Leave, May 18, 2012 (noon) – May 31, 2012 (noon)

Teresa Raschke, Teacher, Ridgewood Middle School, 22 years

Catastrophic Leave, April 4, 2012-May 16, 2012

Teacher, Woodlawn High School, 14 years

**Classified**

Catastrophic Leave, March 16, 2012 (p.m.)-May 4, 2012

Cynthia Babson, Bus Driver, Transportation, 27 years

Leave Without Pay

Toriano Williams, Teacher’s Aide, Woodlawn Leadership Academy, 2 years

**6.03 Personnel Transactions Reports.** The personnel transactions reports for the period of March 21, 2012 – April 20, 2012 were approved as recommended by staff and submitted in the mailout.

**6.05 Out of State Travel (General Fund).** Requests for out of state travel paid from the General Fund were approved by the board as recommended by the superintendent and submitted in the mailout.

**Item No. 7**

**7.01 Purchasing.** The board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) The Band House, totaling $12,069.46; Interstate Music, totaling $1,485.00; DF Music Enterprise, totaling $8,698.00; K&S Music,
totaling $957.00; and Washington Music Center, totaling $6,139.00 for the purchase of Musical Instruments for the Music Department. (2) US Games, totaling $69,736.01 for the purchase of Physical Education Equipment for PEP Grant. (3) Shreveport Gymnastic Supply Co., Inc., totaling unit price of $104.20 for the purchase of Student Uniforms for Title I Homeless Program. (4) Harrison Paint Co., totaling $15.00 per gallon for Semi-Gloss Exterior; Sherwin-Williams Co., totaling $15.99 per gallon for Gloss Enamel Alkyd and Caddo Paint Company, totaling $17.45 per gallon for Bulls Eye Latex Primer for the purchase of interior and exterior paint. (5) Conspicuous Designer Fashions, LLC, totaling unit price of $46.00 for upholstering bus seats. (6) Fire Sprinkler Services, LLC, totaling $14,690.00 for inspection and repair of sprinkler systems. (7) Unity Education Resources, totaling $1,557.54 and Tiger Direct, Inc., totaling $119.53 for the purchase of marker boards and bulletin boards. A copy of the bid tabulation sheets is filed in the permanent file for the May 15, 2012 meeting.

7.02 Ag Lease with Walnut Hill. No bids were received and staff will rebid at a later date.

Item No. 8

8.04 Request for Auditing Department to Survey SunGard System. The board approved the Auditing Department survey of SunGard users in all departments concerning the improvements and challenges in dealing with the new system, that the Auditing Department analyze the SunGard contract and all additional and recurring costs pertaining to the system, and that the results of the survey be reported to the board.

8.06 Proposed Truancy Policy Re: Parent Responsibility for Students Missing School and Discipline. The board approved that the Discipline Review Committee review the penalty provisions for truancy offenders and that the penalties for parents and students be published in the Student handbook and on the website.

8.07 Move Loyola Within Byrd’s Attendance Boundaries. The board approved modifying C.E. Byrd High School’s attendance zone to allow Loyola High School to be located within the attendance boundary of C.E. Byrd High School as presented in the mailout.

8.09 Resolution Calling for a Tenure Hearing for Tenured Bus Driver. The board approved the resolution calling for a tenure hearing for a tenured bus driver as recommended by staff and submitted in the mailout.

8.11 Adoption of Policy DIBA (ARRA Reporting Policy). The board approved the proposed Policy DIBA (ARRA Reporting Requirements) as recommended by staff and submitted in the mailout.

8.12 Approval of Sales and Use Tax Commission 2012-13 Budgets. The board approved the 2012-13 Sales and Use Tax Commission budgets as recommended by staff and submitted in the mailout.

8.14 General Fund Budget Revision. The board approved the proposed revision to the General Fund budget as submitted by staff in the mailout.

8.15 Request for use of School Buses. The board approved the requests for uses of school buses as recommended by staff and submitted in the mailout.

8.16 Proposed Revision to CPSB Policy KG. The board approved revisions to CPSB Policy KG to include Lee Hedges Stadium in the CPSB Policy Manual under KG (Community Use of School Facilities) as a stand-alone facility with separate rental fees as recommended by staff and submitted in the mailout.
8.20 Approval of Resolution Adopting Reapportionment Plan for CPSB. The board approved the resolution adopting Reapportionment Plan 15 for the Caddo Parish School Board as submitted in the mailout.

CONSTRUCTION/CAPITAL PROJECTS

Mr. Ramsey moved, seconded by Ms. Trammel, to approve the bid recommendations as recommended by staff and submitted in the mailout on the bid tabulation sheets, with the exception of Hamilton Terrace. Vote on the motion carried with Board member Rachal opposed and the following bids were approved. (1) KAN Contracting, Inc., with a Base Bid for the sum total of $136,400 for Project 2012-203, “Captain Shreve Title IX Compliance”; (2) J.D. Electric Co., Inc., with a Base Bid and Alternate 1, for the sum total of $771,000 for Project 2012-QB2G, “Data Wiring Security Cameras at Oil City, Mooringsport, Timmons”; (3) J.D. Electric Co., Inc., with a Base Bid and Alternate 1, for the sum total of $577,000 for Project 2012-QB2I, “Data Wiring Security Cameras at Stoner Hill, Alexander, Creswell”; (4) J.D. Electric Co., Inc., with a Base Bid and Alternate 1, for the sum total of $817,000 for Project 2012-QB2H, “Data Wiring Security Cameras at Walnut Hill, Southwood, Turner, Herndon”; (5) Carter Construction, Inc., with a Base Bid, for the sum total of $473,568 for Project 2013-202, “Queensborough Vertical Accessibility”; (6) Johnson Controls, Inc., with a Base Bid, for the sum total of $394,000 for Project 2013-301, “Booker T. Washington Building Controls”; (7) The Payne Company, with a Base Bid, for the sum total of $298,000 for Project 2013-303, “Green Oaks Building Controls”; (8) The Payne Company, with a Base Bid, for the sum total of $412,000 for Project 2013-304, “Southwood Building Controls”; (9) Fitzgerald Contractors, LLC, with a Base Bid, Alternate 1 and Alternate 2, for the sum total of $472,700 for Project 2013-306, “Northwood Building Controls”; (10) The Payne Company, with a Base Bid and Alternate 1, for the sum total of $413,000 for Project 2013-305, “Woodlawn Building Controls”; and (11) Johnson Controls, Inc., with a Base Bid, Alternate 1 and Alternate 2, for the sum total of $595,000 for Project 2013-302, “Captain Shreve Building Controls”. A copy of the bid tabulation sheets is filed in the permanent file for the May 15, 2012 meeting.

PROCEDURES FOR STAFFING K-3 CLASSES

Mrs. Crawley moved, seconded by Mr. Hooks, to keep the procedures for staffing K-3 classes at a fixed pupil-teacher ratio as it was for the 2011-12 school year. Mrs. Crawford asked about the teacher difference in adding these positions back in the budget? Mr. Lee said it will cost approximately $2 million for approximately 30 positions. Mrs. Crawford moved, seconded by Ms. Priest, to approve staff’s recommendation but add paraprofessionals in the classrooms that reach 23-25 students. Mrs. Crawford said the numbers shared at the work session were less than Mr. Rachal’s 22; and if we do this, we can add paras to these classrooms without adding an additional $2 million to the budget. The paras are great assistants to the teachers; and at this time, we do not know how many classes will be at these numbers and need an aide. Mr. Lee stated the cost for each paraprofessional would be approximately $16,000-$17,000 plus benefits.

Ms. Priest stated she seconded this motion because in the budget work session the board received handouts from all the schools; and in looking at the ratios and estimated number of students, there are three schools that exceeded the allotment (Cherokee Park, Timmons and one additional school) and the remainder were in the appropriate range. She said she doesn’t believe adding, across the board, another teacher at this time is the prudent option, but she concurs with adding paraprofessionals to assist teachers in classes that have a higher number of students.

Mrs. Crawley said this idea surfaced several times during the budget work sessions; and in talking with teachers at University, she learned that the Kindergarten teachers at University have 24 students in the classroom, and an aide could be more problems than the extra children because
they are not degreed people. They do not take the place of a teacher and she believes it to be insulting to say you can replace a certified teacher in a class with a classroom aide.

Miss Green asked Mrs. Crawford if she understands correctly that every time a class size exceeds the allotted number an aide should be placed in the classroom. Mrs. Crawford said that is correct for classes larger than 22 students (23-25). Mrs. Crawford said she is not suggesting that aides take the place of classroom teachers, but she is attempting to offer a compromise.

Mrs. Bell said it is upsetting to her to hear someone say that paraprofessionals are not certified; because a couple of years ago, all paraprofessionals had to return to class and receive certification. She added she believes there is a need for paraprofessionals, and she agrees with the substitute motion because paraprofessionals will not be teaching, but assisting a teacher. Mrs. Bell noted the times parents also assist in the classroom, and she believes paraprofessionals should be added to assist a teacher whose class size is larger than 24.

Mr. Lee said to implement the substitute motion would require 90 aides and would cost approximately $2 million and cited an example of how this staffing allotment works.

Mr. Rachal asked if he understands correctly that if the change is implemented it means decreasing the number of Kindergarten and 1st grade teachers by 36. He referenced the use of paraprofessionals when exceeding the allotted number in each class, and the number of classes he figured would be over the 22 students and asked staff to provide him with a number of teachers. Noting that University Elementary has 129 Kindergartners, he asked if the number is increased to 26 students to a class, will it mean there will be an additional teacher. Mr. Lee clarified why this is not a clear scenario. Mr. Rachal asked if there are other areas in the budget in which funds could be used for this, i.e. Title I funds? Mr. Abrams reminded the board there are certain areas in which Title I funds cannot be used, and one of them is that a number (size of the classroom) cannot be reduced to save General Fund dollars. Mrs. Parker reiterated that Title I money can only be used in Title I schools and cannot be used to supplant. Referencing University and the number of kindergarten students, one will not know how many kindergarten students there will be until they show up; and if the board approves the motion on the floor, an aide will be added to a class if there are more than 22 students, and the General Fund must pay for that expenditure because University is a non-Title I school. Mr. Rachal stated he does not want to put this on the Kindergarten and 1st Grade teachers and asked the superintendent to revisit other options in the budget to fund this. The superintendent explained that staff has explored most of the options and will continue to look at it; however, it is a $2 million question that will need to be addressed. Mr. Rachal asked about the options staff did look into and the superintendent responded that staff looked at options in every area, i.e. the alternative option.

President Riall announced that Mrs. Crawford wishes to pull the substitute motion and Ms. Priest agreed to pull her second. Mr. Rachal stated he believes this item needs to be postponed until the superintendent and director of finance have an opportunity to look at everything in the budget and that we have done all we can to keep our Kindergarten and 1st grade teachers. \textit{Mr. Rachal moved, seconded by Mrs. Crawford, to postpone action on this item.} Mrs. Armstrong asked if Title I funds can be used to employ teachers and paraprofessionals for classrooms? Mrs. Parker said they can for Title I schools. Mrs. Armstrong asked if, relative to paraprofessionals, can they pulled from other areas where a school could not get a substitute and used as a substitute or in a critical needs area? Mr. Riall reminded board members that comments should only be to postponing this item. Mr. Pierson said he believes most principals want to address their staffing needs as early as possible. Ms. Priest called for a \textit{Point of Order}, and President Riall again reminded board members that comments should be specifically toward postponing this item. Mr. Pierson asked how pulling this item will affect what we really need to be doing for staffing schools? Dr. Dawkins agreed with Mr. Pierson and the sooner staffing information gets to the schools the better and delaying action today delays the process approximately two weeks. Mr.
Pierson added that if the item is to be postponed, he encouraged board members to gather all necessary information needed in order to make a decision and move forward.

Mr. Abrams clarified that the superintendent has advised the board that staffing will be determined at 22:1; and if class size goes over that, the school would not get another teacher. He further stated that the proposal submitted by Mrs. Crawley would add another teacher if you get past a certain ratio. The process is not stopped, but it may mean another teacher if the enrollment dictates. Mrs. Crawley stated that principals are already telling Kindergarten teachers they do not have a job and she has asked staff since the beginning of the budget discussions to bring another $2 million cut that was not in the classroom. She said this is why Mr. Ramsey very wisely did the A/B Block even though she did not like the change in how staffing is done; but the board will not receive a recommendation for a different $2 million until it states its priority to have a maximum of 22 students in a Kindergarten or 1st grade class. She encouraged the board to vote to stay the way it was implemented last year. She said there are too many conflicting directions and she doesn’t believe it needs to be postponed because staff will not bring the board an alternative until we tell them the board’s priorities. She encouraged the board to make a decision now on how many students we wish to have in Kindergarten and 1st grade classes.

Miss Green agreed with staff and her belief that staff desires to get busy with staffing as soon as possible. Mr. Ramsey moved to call for the question to end debate on all motions on the floor. Vote on the motion to end debate carried unanimously.

Vote on the substitute motion to postpone failed with Board members Riall, Priest, Crawford and Rachal supporting the motion and Board members Green, Pierson, Crawley, Hooks, Trammel, Ramsey, Armstrong and Bell opposed. 

Vote on the main motion to keep the formula as it was in the 2011-12 school year carried with Board members Pierson, Priest and Bell opposed and Board members Riall, Green, Crawley, Hooks, Trammel, Crawford, Rachal, Ramsey, Armstrong supporting the motion.

RESOLUTION RE: OIL, GAS AND MINERAL LEASE (KIRBY OIL COMPANY)

Mrs. Bell moved, seconded by Mr. Ramsey, to approve the resolution for the Oil, Gas and Mineral Lease as provided on BoardDocs.

David Kirby addressed his proposed lease with Caddo Parish Schools and attempted to clarify his lease. After sharing his history in the Caddo Parish Public Schools, he shared with everyone about the land he owns adjacent to property at Hosston, and that over the years he has drilled shallow stripper wells which are incapable of making 10 barrels or more a day, and over time these wells have a declined curve and go down gradually. He reported he also has wells that will make four-five barrels when they are six months old and traditionally wells at one to two years will produce approximately one to two barrels a day. Along with this, it will also make at least 100 to 200 barrels of salt water. With these wells pumping 24 hours a day, Mr. Kirby shared that his monthly electric bill is between $45,000 and $50,000 a month; and these wells are not low maintenance wells. Mr. Kirby said at this time, he has no wells adjacent to CPSB property; and he plans to develop a community park on the Hosston property he recently purchased, and he does not want any drilling on this 10.2 acres. He also shared with the board his arguments for not agreeing with the 25% royalties to the school board.

Mr. Rachal stated that last month he approved something to go to the Mineral Board and asked why was it not sent in? Mr. Abrams responded that when someone requests something to go to the Mineral Board, they generally are the ones that present it to the Mineral Board at their expense, and not the Caddo Parish School Board staff. Mr. Rachal asked if he understands that it is common practice when the board approves something, we are not the ones that present it. Mr.
Abrams said that is correct and cited when Chesapeake made their requests, their staff got it on the Mineral Board’s agenda. Mr. Rachal expressed his appreciation to Mr. Kirby, but last month he presented something to the board that was approved and he is not changing his vote at this point. He stated his understanding of Mr. Kirby’s negotiations and wanting to keep the additional 5%, but he too wants it for the board and the $2,000 an acre; and if it goes to the Mineral Board at $2,000 and is not approved, the board can resubmit it.

Mr. Ramsey stated even though he thought this was confusing when discussed at last month’s meeting, he supports the motion today because of the new information brought forth and the community development effort which he believes will help this small community and area.

Mr. Riall explained that he is the one that brought the item back for the board to reconsider and he did so after doing some research and learning that for many years the going rate for these type wells was $50-$75 an acre; and when the Haynesville Shale came into play, the rate increased to $1,000 an acre, which is now the going rate. He also stated that after talking to many in that area, he learned that no one can afford to drill a horizontal well at 75% rather than the 80%. Mr. Riall further explained that the motion brought for the board’s consideration is to establish the amount at $1,000 and 20% royalty. Mr. Abrams clarified that the board is not leasing at this point, but is approving a resolution stating the board would like to lease the property at a minimum of $1,000 an acre and 20% royalty; and the Fair Market Value will be established by the Mineral Board by advertisement and by bids.

Vote on the motion carried with Board member Rachal opposed.

ALTERNATIVE SCHOOLS

Mrs. Bell moved, seconded by Curtis Hooks, to postpone this item until a special meeting on June 5th. Mr. Rachal asked if a representative will be at this meeting? Dr. Dawkins said he will have someone at the June 5th meeting. Mr. Rachal also asked that the superintendent provide him with the rationale for this recommendation so everyone will be on the same page. Mrs. Bell said there was a lot of information sent out as well as answers to many questions asked by the board at the work session. Vote on the motion to postpone until June 5th carried unanimously.

SALE OF RODESSA PROPERTY

Tim Graham explained that bids were opened on Friday and the only bid received ($2,500) did not meet the minimum requirement of $22,000. Mrs. Bell moved, seconded by Ms. Priest, to reject the bid on the Rodessa school property as recommended by staff. Vote on the motion carried unanimously. When asked what the next step should be, Attorney Abrams explained the board could re-advertise with minerals to see what bids might be received. Mr. Ramsey moved, seconded by Ms. Priest, that the CPSB advertise the sale of property along with the mineral rights. Miss Green asked about the recommendation to sell the mineral rights and Mr. Riall responded that at this point these properties are not salvageable and are an extreme liability to the district, as is the expense to demolish, thus liquidating the property is the better option for the district. Miss Green stated she will support the motion, but disagrees with selling the mineral rights since you do not know what could happen in the future. Mr. Pierson asked if the starting required bid will be the same, and Mr. Graham explained that the appraisal will be updated. Mrs. Bell asked if it is possible for the board members to take a field trip to see the land owned by the CPSB? Vote on the motion carried unanimously.

RESOLUTION OF LEVEL IV GRIEVANCE

Mr. Ramsey moved, seconded by Mrs. Bell, to accept staff’s recommendation at Level III. Vote on the motion carried unanimously.
SUPERINTENDENT’S REPORT

Status of Energy Conservation Procedures. Superintendent Dawkins reported that information was sent to board members and staff is looking at various companies who will be providing a response as to what they can do in this area.

ANNOUNCEMENTS AND REQUESTS

Mrs. Crawley stated that in her earlier statements regarding paraprofessionals, she did not intend to be derogatory toward any employee, but only wished to clarify that paraprofessionals are used for substitutes at times and it causes chaos in a classroom when a teacher is expecting an aide to be in the classroom and conduct certain tasks and then they are sent to do other things.

Miss Green expressed congratulations to Ezra Johnson, Green Oaks and Green Bay Packers, whose jersey was recently retired.

Ms. Priest asked that staff aggressively look at forming partnerships with the Caddo Bossier Port, Chamber of Commerce and the North Louisiana Economic Development Program, et.al., to develop a qualified pool of employees through the K-12 system for entry level positions for jobs to create skilled employees. She said there are companies locating into this area and we are not necessarily preparing our students for entry-level jobs who will not be attending college. With 20 plus companies at the Port, she stressed the importance of preparing our students for those jobs.

Ms. Priest also asked that staff maintain and routinely groom the Bethune campus as it sits at the entrance of a maintained neighborhood.

Ms. Priest also requested information prior to the June 5th meeting regarding the alternative schools that includes pupil teacher ratios, special certification for staff working with students who have been expelled, as well as enrollment and School Performance Scores.

Mrs. Armstrong noted her understanding of the district’s financial status and the inability to give salary increases to employees; however, she proposed and asked the superintendent to consider in lieu of raises, that all employees be released for Thanksgiving week, which will also bring a savings to the district by closing the facilities.

Mr. Hooks expressed appreciation to Mr. Roberson and Mrs. Lansdale for participating in his town hall meeting. He also announced that Queensborough will host an Open House on Thursday, May 24th, for its summer program, from 1:00 to 5:00 p.m. This program is being offered for students attending Lakeshore, Queensborough, Judson and possibly BTW.

Mrs. Bell expressed appreciation for support of the Truancy Policy and asked that the Discipline Review Committee meet as soon as possible to consider the revisions and add them to the Student Handbook to be distributed at the start of school. She also asked that staff schedule a press conference with all parties involved before school begins to stress the seriousness about enforcing this policy.

Adjournment. Mr. Rachal moved, seconded by Ms. Priest, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:55 p.m.
June 5, 2012

The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway Street, Shreveport, Louisiana, on Tuesday, June 5, 2012 immediately following the Executive Committee Work Session with President Steve Riall presiding and Board members Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell present representing a quorum. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. The invocation and Pledge of Allegiance were omitted.

PUBLIC HEARING ON 2012-13 CONSOLIDATED BUDGET

Jackie Lansdale, president of Red River United, shared her belief that we are in a much better position with the budget this year versus this time last year considering the unfunded mandates placed on the districts and no increase in the MFP dollars. She also noted other things that contributed to this, i.e. not supporting the Roll Forward, not supporting a bond proposal, not opening up to the possibility of a sales tax. In order to continue to operate a sound school system, Mrs. Lansdale reiterated the importance of talking to the public about these needs. With employees not receiving a pay increase in four years, she believes the Board is asking them to do more with less, and noted the many times she has come before the board in support of the $200 M&S for the teachers to help them provide what is needed for the students in the classroom. She encouraged them to support this once again; and if teachers are not taking advantage of this $200, ask them why they are not. She also recommended that the Board give teachers $100 each for M&S in the fall; and if they need more, to reassess at mid-term the feasibility of providing them the remainder. Mrs. Lansdale also encouraged the board to open up because the law is now saying they must do another salary structure and asked the Board to look at models of possibilities. She said there is a huge chasm of students not being reached; and if we believe in public education, she believes the Board will consider these issues.

VISITORS

Dr. Phyllis Leone, employee, shared with the board the importance of board members being cautious in their comments during public meetings because sometimes words can be distasteful and insensitive, as well as hurtful. Dr. Leone stated that as an employee serving children with special needs for 40 years in Caddo Schools, she reminded the Board of the influence and leadership they collectively exert over the community, schools, employees and most importantly the children of the District. She reminded the Board that the standard for the way of thinking begins with the Board and the Board’s standard of conduct must exemplify the highest for all children if it truly wants Caddo to be the best school district for all the children. She also referenced when the Rights for Children with Disabilities was brought to the forefront and parents were afforded the same rights for their children with special needs as those students in the public schools (Section 504), because prior to this many were institutionalized, oscillated, separated, segregated and pushed to the margin of society. This act is known today as IDEA (Individuals with Disabilities Education and Improvement Act). She again reminded the Board it is attitudes that form the foundation of awareness, the belief system for Caddo Schools; and she encouraged the Board as it debates important issues relative to policies and budget approvals to choose words carefully, to rise to a higher level of consciousness, and to be ever mindful of the position Board members hold, the professional decorum exhibited and the power of the Board’s words.

Darian Hill, student, asked that someone share with him the proposal for the alternative schools and what will happen to Hamilton Terrace. Mr. Riall responded that someone on staff will contact him regarding this matter.
Annetta Garner, employee, addressed the Board on the proposal for alternative schools in Caddo Parish. She asked that the Board not vote to outsource alternative education in Caddo Parish Schools. Ms. Garner again stated that they do not believe it wise to pay someone to do something that those in the District can do, and she believes both schools will be able to save money if the Board will do for them what they are considering doing for this outside company. While for profit companies provide a service, she said their goals are different than those of educators in that their bottom line is to make a profit. Not believing that this is the best option for the students in Caddo Parish, Ms. Garner encouraged the Board members to form a committee to study and reconsider not outsourcing this service, but give the employees the opportunity to study additional options. While they applaud the Superintendent and Board for looking at ways to change the District’s alternative education, they believe those working in these schools have the necessary tools to develop successful programs needed.

Jackie Lansdale, Red River United, noted her respect for the superintendent and his willingness to make sure every child gets the opportunity to complete their high school education. Knowing that not every child can sit in a normal classroom because they bring to school with them many complexities and obstacles, she wonders if we have looked at every possible thing available to make sure they are successful. Mrs. Lansdale stated she has not had the opportunity to hear about this proposed program and encouraged the opportunity to explain this program to the public. She also questioned if these are the right people to put into place to address these needs, and noted that our obligation is not to save money, but to make certain we provide adequate education for every boy and girl. She encouraged the board to be transparent about this proposal and if employees will be laid off, to tell the truth and recognize the impact on the community in exchanging public employees for private employees. She asked for a public hearing on this program and encouraged the Board to postpone action on this item.

Jon Glover, employee, as a disclaimer, stated that her speaking here today, and any day, does not reflect on any employee of the Caddo Parish School System because she is speaking as a parent, a grandparent and a concerned citizen of Caddo Parish. She said that on numerous occasions a plea for equity of education for all students of Caddo Parish has been brought before the Board. She further stated that what appears to have resulted is the implementation of unfair practices that mirror destruction for minorities, specifically Blacks. She asked if Board members remember the monsters that made bumps in the night when they were small children and how afraid one would be and how parents comforted and gave us tools to overcome the monsters. Ms. Glover said these monsters were our enemies and now as adults, the same monsters have returned only to change their persona, and some do not recognize them because they have their own personal agendas that will either continue destruction of the educational system or bring about a new innovative change that will benefit every child in Caddo Parish. Ms. Glover stated that unification is the key that will insure that every child has the resources to enable them to be successful. She encouraged everyone that when the Devil rears his ugly head to fend him off with God’s Word and protection. She said the Devil continues to do this; however, we are only continuing to sit idle and accept what is brought forth with no understanding. She added that this has occurred with the implementation of Vision 2020 Plan along with the new plan to overhaul the alternative program. Ms. Glover said the Caddo School System needs immediate attention, but cautioned everyone on the direction it chooses to take to reach that goal. She said the tools of diversiveness have risen and taken on a faith that few can recognize and to discern, one must prepare themselves. To reiterate, Vision 2020 and the outsourcing of the alternative program being instituted under the guise that a good plan is being presented yet it will only bring about further destruction of specific groups of minorities due to the lack of inoperable plans. She reminded the board that it will have to decide if we will sink or swim.

ALTERNATIVE SCHOOLS
Mrs. Crawley asked about the email that board members received relative to a presentation on Ombudsman and Mr. Riall announced it is a part of this agenda item.

Superintendent Dawkins announced that the board should have received information sent out on the Ombudsman alternative school option that outlines the services and proposed budgets. He reported that the budget has been thoroughly reviewed by Mr. Lee and the legal, contractual issues reviewed by Mr. Abrams and the programs/curriculum have been confirmed by Mrs. Turner, Mrs. Flowers and Mrs. Parker, et.al. He introduced the Ombudsman staff members present, Lisa Chitty and Esperanza Ross, and stated they will provide a presentation on the Ombudsman program as well as answer board members’ questions. From the information sent to the board members, Dr. Dawkins stated that Caddo’s Alternative Schools SPS scores were 2.5% for Hamilton Terrace and 33.8% for Academic Recovery, and that the cost for Caddo’s alternative program is approximately three times the cost for students in regular school setting. He shared the current locations are at Hamilton Terrace and Academic Recovery and the proposal allows for continued work at the Academic Recovery site for middle school students and four other areas will be established to meet the needs of the children in Caddo Parish. Those things that immediately deserve the Board’s attention include (1) Special Education accommodations with expert guidance from the Special Education Department; (2) positions retained in the budget to accommodate the programs at Rutherford House, Juvenile Court, (3) plans to address over-age 4th and 5th grade students, (4) accomplish this without any district layoffs (employees may opt for something else, however, staff does not plan for any layoffs), and (5) provision of security, food service and transportation by the district. He reminded the board that seat time waivers were in effect for the past school year for Hamilton Terrace and all high schools have applied for seat time waivers this year, and he will meet with State superintendent John White on Wednesday relative to this matter. Dr. Dawkins also stated that immediate results of anything less than an affirmative vote will be a $5 million addition to this year’s budget.

Lisa Chitty stated the purpose today is to present information on the Ombudsman organization and to answer Board members’ questions. She explained that the Ombudsman Program is an alternate path for students at risk all across the country that works with District partners to assist them in earning a high school diploma. Ms. Chitty announced that Ombudsman has been in business for 35 years and is new to the State of Louisiana. Ombudsman works with districts of all sizes, but the one thread that all have in common is each one has at-risk students; and if the opportunity is not offered to them to get out of school, they will end up dropping out of school. She said they take a strong approach to receive their accreditation through AdvanceEd, and in addition to the corporation having accreditation, each one of the sites operated also has accreditation. Ms. Chitty shared that their organization works with some of the most challenging students in the country and that they currently have an 89% success rate, which is an indication that students are graduating, earning credit and are able to return to their neighborhood district. She also stated they have an 81% attendance rate and how they insure the students are in school so they can teach them. Ms. Chitty reminded the board that in looking at the numbers, these are over-aged, under-credit students with discipline issues, they are truant, and they are Special Education. She also noted that 94% of the contracts are renewed each year, but challenges are present because of leadership changes, funding issues, etc. which may mean a District bringing the program in-house. Ms. Chitty also highlighted a key day in a student’s life at Ombudsman and she shared with the board that a meeting is first held with the student and the student’s parents to highlight the importance of the child completing his education. Four-hour sessions will be conducted so they can still get an education; and if a job or family situation needs to be addressed, it can be done; and this program has proven to be successful, and she shared with everyone a recent celebration of a student that had dropped out, but she returned to get her diploma. Students are also assessed so that staff is aware of where they stand when they enter the program.

Curtis Hooks asked Dr. Dawkins to clarify that if we do not accept this proposal there will be an additional cost to the parish. Dr. Dawkins responded that the budget implications will be an additional approximately $5 million. Mr. Hooks stated that he checked with the Better Bureau and it is evident that this organization is flying under the radar if even on the radar at all. He said he was told Ombudsman has a school in Georgia, Arizona, Fresno, but no accreditation. Ms. Chitty stated that she is unsure where the data is, but Ombudsman Educational Services is a division of Education Services of America and Ombudsman is an accredited program and while it may not be listed as a school, it may be listed as a program within a school district.
Mr. Hooks stated that anytime he is shopping for something, he inquires about the rate, and Ms. Chitty stated that as a school entity, she is uncertain if a district would be listed under the Better Business Bureau as an accreditation body and suggested he look at AdvanceED which is the accrediting organization that can respond to a school or a program regarding their accreditation.

Mr. Hooks said he was told by an administrator at the Career Center that the district had a similar program in place in the 70’s and it didn’t work. He asked the superintendent to what extent has he looked into this company? Dr. Dawkins responded that he has looked at it over the past two years and was aware of the program when he was in Michigan. He asked if Dr. Dawkins found anything he has mentioned and the superintendent responded that he did not. Mr. Hooks said he also recently received something from the staff and asked why there are not any schools in Louisiana on the list. Ms. Chitty reiterated that they are expanding throughout the country, but are only expanding as fast as possible, allowing sponsorship and meeting with the various states on implementing these programs in each district. She said she believes it very beneficial for someone to know where they can get these credits, and to offer opportunities that will make it easy for the student to get to the sites. Ms. Chitty responded that the base headquarters is located in Libertyville, Illinois, just outside Chicago. Mr. Hooks asked if AdvanceEd is a private entity? Ms. Chitty responded that AdvanceEd is an accrediting agency, similar to SACS (Southern Association of Colleges and Schools). Mr. Hooks said he has nothing against Ombudsman; however, Caddo had a negative experience in the past, and it concerns him when he doesn’t know whose hands Caddo’s students will be in and Ms. Chitty assured Mr. Hooks that the students are Caddo students and they will stay Caddo students and Ombudsman will certainly look to hire from within the community as long as they have the qualifications and a passion for working with at-risk students. She also explained that the local district must approve of the staff that is hired to work with these students, because it is a true partnership, both working together to help Caddo’s students. Mr. Hooks said he hears what she is saying, but he has sense enough to know that she is being paid to say what the board needs to hear. Ms. Chitty said while Mr. Hooks may feel that way, she loves what she does, having served as an educator, a teacher, principal, and if she didn’t care about kids, she would not be doing what she is doing today. Mr. Riall ruled the questioning out of line. Mr. Hooks asked if Ombudsman will take 450 Caddo students and Ms. Chitty said that is what the proposal is for. Mr. Hooks stated that with these students being at-risk, he is concerned if they only attend class ½ a day, they will be in the streets the remainder of the time. Ms. Chitty explained that in past partnerships boards have expressed that concern, but one district partnership leader expressed that the students were not attending school anyway, so getting them to attend class four hours each day was a start, and their goal is to get the students at school, help them to embrace learning, make academic gains, feel good about themselves and want to come to school. Mr. Hooks said his problem is what will happen to the more than 450 students? Ms. Chitty responded that the goal of alternative education is if a student is sent for discipline, they work with the district to transition the student back to their home school. So even though you may be working with 450 students, it is highly possible you are actually serving double that number and hopefully will transition those back to their home school.

Mrs. Crawley reported that she has spent the past week looking up school boards and reading their minutes and it appears to her that they are not seeing different results. She highlighted calls to districts in the southern states served by Ombudsman and asked about Lamark Alternative School. Ms. Chitty explained this is a Texas district partner and they have in place DEAP, their District Alternative Education Program; and as she previously mentioned, there are sometimes challenges, i.e. change in leadership, funding issues. Mrs. Crawley asked if Ombudsman was used as a credit recovery program for 20-40 students in that district and the district did not continue the contract because they did not see any improvement? Mrs. Crawley said she also spoke with Caddo’s legal counsel and was informed that the board will receive a recommendation in March as to whether or not Caddo should opt out of the program. Superintendent Dawkins affirmed that the board will receive a recommendation from administration and the contract will include an annual opt-out clause. Mrs. Crawley stated that she is asking that a recommendation come from the Auditing Department because she would like a very independent recommendation. Dr. Dawkins clarified that the Auditing Department cannot provide the board with an instructional picture. Mrs. Crawley stated her understanding, but she would like the number of students enrolled and participating. Ms. Chitty stated their goal is to always be transparent on the success of the student and would want to share performance evaluations with the board each semester. Mrs. Crawley stated she is only repeating suggestions of the three districts she visited with that had terminated contracts with Ombudsman this year.
She asked if Caddo will have an Ombudsman diploma and Ms. Chitty responded that this decision would be determined by the district. Mrs. Crawley asked if it is in the contract and Mr. Abrams shared with the board how this is addressed as an option in the contract. Mrs. Crawley noted that one of the districts she spoke with noted the confusion for students in this and she doesn’t support a diploma that doesn’t require the same number of credits required by the state to receive an official diploma. Superintendent Dawkins assured the board that the priority is always a state diploma. Mrs. Crawley stated that accreditation is a fuzzy term to her, and she asked if Louisiana will recognize a diploma from Ombudsman with 24 Louisiana-required credits? Dr. Dawkins stated that AdvanceEd and North Central (Southern Association in Louisiana) are the organizations that currently supervise and send teams out to accredit our schools, so it will be recognized; and again, the number one priority will be to have a Louisiana diploma. Mrs. Crawley also noted a news article noting a situation in Illinois where it was not recognized. Ms. Chitty responded that the districts being referenced both serve special education students and Ombudsman is currently an Illinois-state program for the Lions Plus and she can share that certificate with the board. She further explained that when initially implementing these programs Waukeegan did not want to be approved by the state because of funding, Title I funds. She said she is more than happy to share these certifications with the board. Mrs. Crawley asked if Caddo’s program will be state-approved when the program begins, and Ms. Chitty responded it will.

Miss Green asked Dr. Dawkins about the proposed location number 4? Dr. Dawkins explained that these are general locations for each site; and as soon as the board makes a decision, we will proceed with narrowing down the locations. Miss Green asked if a school will be used and he said no, but a store front. Miss Green stated she knows her decision on this will not be a very popular one and she knows something needs to be done, but she does not believe this is the right solution right now, and we need to do a little more.

Mr. Rachal recapped and asked Ms. Chitty if any word has been received from the state relative to the issuance of waivers? Ms. Chitty responded that the district is working on this. Mr. Rachal asked if there is not a waiver does he understand that the district will extend the school day, and Ms. Chitty stated they can and would work with the district on this. Mr. Rachal asked about attendance issues and the details relative to this issue. Dr. Dawkins responded that all students entering this alternative program will be handled through the Attendance Department, even when they are not on Caddo’s campus. Mr. Rachal asked if someone is not showing up for class, does he understand it will be turned over to Caddo’s staff? Dr. Dawkins explained that Ombudsman has a daily routine and responsibility to track the students and their daily attendance, and he is referencing the students entering and leaving the program and the discipline issues. Ms. Chitty responded that Ombudsman takes daily attendance and follow-up is made with those students not in class as to why and attempts made to get them to class, and attendance is reported back to the district. Mr. Rachal noted that the public is interested in knowing this information and asked Ms. Chitty their experience in daily attendance and what works best. Ms. Chitty explained that what works best is a liaison with the district that Ombudsman can communicate with regarding everything relative to the students in the program. Mr. Rachal asked how will the district serve those students beyond the 450 students, and when students leave the Ombudsman Program, does the money follow the students back to their home school? Ms. Chitty responded that the money does not follow; however, the seat becomes empty and another student takes that returning student’s place. She further explained that the contract is for a certain number of slots. Mr. Rachal asked about those students that exceed the 450? Dr. Dawkins said that alternative schools should not be a growth business for the district and there are provisions in the contract to add positions if they are needed; however, what Ms. Chitty described is that when students transition back and forth, there will be empty seats. Mr. Rachal asked if we start off with 450 students, and Dr. Dawkins said we will not begin with that number, but it will grow as we move through the school year, typically peaking in the middle of the year. Mr. Rachal asked if 469 is a number we have reached in the past? Dr. Dawkins stated he believes 450 is an appropriate number for addressing the students and there is appropriate language to add more if it is needed. Mr. Abrams explained that the contract provides for additional students if the district exceeds 450 and is prorated. Students above the 450 number will be an additional cost ($850 per student per month or $60 a day for partial months). He further stated there is also a different amount for the Plus Program that addresses special needs students (6 hour days at $200 a day per month). Mr. Rachal asked if a copy of the contract is available for Board members and Mr. Abrams said there is not, but he detailed the proposal in this area. Dr. Dawkins reminded the Board that the
middle school students will not be on an off-campus setting, but will be housed at Academic Recovery. Mr. Rachal inquired about the money paid for empty slots, and Dr. Dawkins stated that discussions will be held at mid-year relative to whether or not adjustments need to be made, and Ms. Chitty confirmed that they will discuss this further. Mr. Abrams stated that he is dealing with the contract as it exists, and based on the proposal, this will not be the situation unless they decide they wish to do it this way. The contract states that it is a three-year contract, renewable at the end of each calendar year. If the board desires to renegotiate, these are conversations that can take place; however, they hire their staff the same way Caddo Parish does, and if they want to see this program at full capacity and address those students who could potentially drop out, it will be important to have the staff in place. While the contract cannot be negotiated at today’s meeting, it is an area that staff will continue to look at. Mr. Rachal inquired about those who will serve as mentors? Ms. Chitty said that is something they have not done and will not until there is a contract but in talking with those in the Caddo District, staff members will be going out and talking with organizations and other supporters of public education. Mr. Rachal stated that he believes that a report to the board once a semester may not be often enough and Dr. Dawkins responded that he will be receiving reports daily and weekly, but felt that a report each semester to the board would be ample. Ms. Chitty stated that this is what most of the districts desire; however, if the board desires monthly reports on the data/numbers, that is something their staff can provide. Ms. Chitty clarified that they customize programs to districts and her recommendation, based on her experience, is to provide a monthly report on enrollment, demographics, etc. and semester reports on academic gains. Mr. Rachal asked about the required credits for graduation and how many credits does Ombudsman look at the students earning? Ms. Chitty responded that she can paint a picture; however, it depends on where the student is when they begin the Ombudsman Program; and once they look at the individual students, how many credits they have, how long they have been in high school, they can determine how many credits the student will be able to earn in a semester/school year. Dr. Dawkins reiterated that while staff has some lofty goals, he also wants everyone to understand that Caddo’s alternative high school had an SPS of 2.5%, so there is a lot of room to grow. Mr. Rachal asked about special needs children and will the state law apply for the care and student/teacher ratio of these students with Ombudsman. Mr. Abrams said we do have to provide that student exactly what the IEP dictates and the transition will be with the Attendance Department and the Special Education Department making certain that a referred student will be able to receive what the IEP says they must have. Mr. Rachal asked if Caddo will also be providing additional assistance, and Mr. Abrams said Caddo will help with those other related services that need to be provided. Dr. Dawkins also said there is staff in place to provide for those students with special needs, i.e. OT and PT services, special equipment, etc.

Mrs. Crawley stated this was an issue in the three districts she talked to and they recommended not paying by the number of slots, but by the number of participants since less than half of their slots were filled. She added that since there is a for-profit entity handling the alternative students, and she understands we do not want to grow alternative schools, she would encourage not paying by number of slots, but by number of students participating. Dr. Dawkins explained the planning stage began with over 600 students (slots) and staff believes 450 is a good number. Mr. Ramsey moved, seconded by Mrs. Bell, to approve entering into an agreement with Ombudsman to operate the alternative education program in Caddo Parish in accordance with the proposal submitted by Ombudsman.

Mr. Ramsey stated that this is not a budget decision for him but a decision to attempt to address the needs of Caddo’s boys and girls. He said he asked for programs to support these students and in his review and visits with the representatives of Ombudsman, his questions have been addressed, as well as his concerns regarding the special education element. In looking back on performance of the existing program, he is not proud of what he sees and we now have a choice to move forward with the existing program and spend an extraordinary amount of money or look at a new alternative that may be more attractive to some of the students we are trying to reach and help. He noted how difficult it is to get these students in school for six hours, and he likes what he sees in this program, i.e. small group instruction, face-to-face instruction, individual differences. Mr. Ramsey questions if we have done a good job in addressing these students needs, because he does not see them in alternative schools, but on the streets and he also asked the superintendent how we will monitor and audit this program, and the superintendent has shared with the board members how that will happen. He again stated the need to help these
students by doing something different, because what we are doing based on existing data is not showing needed results. Mr. Ramsey encouraged the board’s support of this program.

Mrs. Bell said she agrees and seconded the motion because it is not about the money, but it is about the children and she has asked since serving on the board what will we do to help the over-age students. She said she believes this program is the best thing and noted that she has not heard anyone say anything about the parental involvement which this program incorporates. She also noted the number of truant students in the parish and how this number continues to grow and the need to do something different that excites these students to want to get their required credits so they can graduate. Mrs. Bell said she also believes this program places responsibility on the parents, and it is time for the district to stop doing what the parents should be doing and are not. She encouraged board members to support the motion on the floor.

Mr. Rachal said he believes the public needs this information in order to have a better understanding and he understands the 2.5 SPS for Hamilton Terrace and there is a lot of room for growth. Having failed a number of Caddo’s students, and even though he does not fully understand the proposal, he believes the board will hold the superintendent’s feet to the fire; because there is a need to do something different. He asked if the decision tonight is to agree to contract with Ombudsman, with the suggested changes? Mr. Abrams said he will address the questions and concerns expressed and recommended on the contract for the new year. Mr. Rachal asked Dr. Dawkins if he is willing to wait one year before knowing if Caddo should renew the contract or not? Mr. Rachal stated that he is not comfortable with that portion of the contract where we may have 330 people in the program, but we are paying for 450 slots. Mr. Abrams explained that initially, there was a phrase in the contract where there would be a 10% penalty if the district decided not to renew the contract, and they have agreed not to do this because they must hire people based on projections. If the district sees at mid-year that it is not going to reach the 450 number, it will then be able to negotiate the number for the following school year. Dr. Dawkins reminded everyone that when discussions began, the number was 600, and it has been lowered to 450.

Mr. Hooks said he cannot see how the board can approve something when the contract is not complete. Ms. Trammel moved to call for the question and the vote on the motion to end debate carried unanimously.

Vote on the main motion carried with Board members Green, Crawley, Hooks and Trammel opposed and Board members Riall, Pierson, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell supporting the motion.

2012-13 CONSOLIDATED ANNUAL BUDGET

Mr. Pierson moved, seconded by Ms. Priest to approve the budget for the 2012-13 school year as presented. Ms. Priest stated that the board has held several work sessions on the budget and she has met with Mr. Lee and is comfortable with the budget although she is not comfortable with the deficit; however she believes it is much better than it could have been and than it has been in the past.

Ms. Trammel moved, seconded by Mr. Hooks, to approve the budget for the 2012-13 school year and add $100 per teacher for materials and supplies for this school year. Ms. Trammel noted the Board’s request that the $200 be left in the budget, she is asking the Board to approve $100 being placed in the budget for each teacher for materials and supplies. Mr. Hooks noted that teachers spend more than this and he hates that the $200 was taken from the teachers. Mr. Ramsey said that personally there have been some points made about adjusting the M&S allocation to address teachers’ needs and he believes this can and should be done. Dr. Dawkins responded he and staff will look at this. Mr. Lee explained several allotments go straight to the schools and are controlled by the principal who is to give each teacher an allotted amount.

Mrs. Armstrong stated that in the board’s consideration of M&S, and she speaks from experience, there are those items that never reach the school and the teacher does not get the credit so she believes this is at least a better way to address this need. Dr. Dawkins responded that he will follow up with staff.
Mrs. Crawley stated that she received a call regarding the M&S, and she did call the Purchasing Agent because the $50 spent by the order form is actually 33% higher than if someone goes out and purchases it.

Mr. Hooks moved to call for the question and the vote on the motion carried unanimously.

Vote on the motion as amended carried with Board members Riall and Ramsey opposed and Board members Green, Pierson, Crawley, Hooks, Trammel, Priest, Crawford, Armstrong and Bell supporting the motion. Mr. Rachal was not present at the vote.

CAPITAL PROJECTS

Mrs. Bell moved, seconded by Ms. Priest, to approve the following bids as recommended by the superintendent and submitted in the mailout and at board members’ stations on the bid tabulation sheets: (1) Benton and Brown, with a Base Bid for the sum total of $648,115.00 for Project 2013-210, “Lee Hedges Resurface Parking Lot”; (2) Louisiana Roofing Contractors, LLC, with a Base Bid, for the sum total of $158,200.00 for Project 2013-204, “Herndon Roof Repair”; (3) No bids were received for Project 2013-208 “Byrd Resurface Student Parking Lot”; and (4) A. William Enterprises with a Base Bid, Alternate 1, and Alternate 2 for the sum total of $151,552.00 Project 2013-212, “Green Oaks Paving Repair, Phase II”. The vote on the motion carried with Mr. Rachal not present at the vote.

LEGAL UPDATE AND PROPOSAL RE: JERRY KING, ET.AL., VS. SANDI WHITE, ET.AL., SUIT NUMBER 528,199B

Ms. Priest moved, seconded by Mr. Hooks, to approve resolution of the claim as recommended. Vote on the motion carried with Mr. Rachal not present at the vote.

Adjournment. Mrs. Bell moved, seconded by Mr. Hooks, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 8:35 p.m.

________________________   __________________________
Dr. Gerald D. Dawkins, Secretary    Steve Riall, President
June 5, 2012

The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, June 5, 2012 with President Steve Riall presiding and Dottie Bell and Larry Ramsey present being a quorum. Other school board members present were Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal and Ginger Armstrong. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mr. Rachal led the invocation and Pledge of Allegiance.

Recognitions. Victor Mainiero, director of communications, recognized the following students as Caddo’s Middle and High School Students of the Year: Middle School Students of the Year are Mariah Corbell, Herndon; Elizabeth Gouletas, Keithville; Elizabeth Irvin, Oil City; Savannah Hammett, Vivian; Jace Mallory, Walnut Hill; Maddison Benge, Donnie Bickham; Briana Jacques, Broadmoor; Rashima Stewart, Caddo Middle Career & Technology; Samantha Hilburn, Caddo Middle Magnet; Sha’Kelvia Brayden, Ridgewood; Madison Luke, Youree Drive; Markaila Willis, Green Oaks; Natalia Cotto, Huntington; Myracle Harris, Booker T. Washington; Amber Boul, Woodlawn. High School Students of the Year are Anna Walton, C. E. Byrd; Ruth Bishop, Caddo Magnet; Victoria Ward, Captain Shreve; Zachary Wolfe, North Caddo; Julia Taylor, Northwood; Melissa Wood, Southwood; Bria Sproul, Fair Park; Aaron Ty Johnson, Green Oaks; Zachary Rossum, Huntington; Eboni Washington, Booker T. Washington; and Khrystian Thomas, Woodlawn.

Red Apple Award. Bonita Crawford, CPSB Member, District 8, was recognized to receive the Red Apple Award, which is presented to those who do outstanding work in the community. Superintendent Dawkins explained that three words used to describe this nomination included caring, compassionate and concern and this award is presented to her for taking the time to tutor three students at Turner Elementary/Middle School. Mrs. Crawford expressed her appreciation for this recognition and shared that it is everyone working together to reach the children and meet the needs of all students in Caddo Parish.

Shreve Island’s “Leader in Me” Program. Emily Stanford, principal at Shreve Island Elementary School, introduced those from Shreve Island in attendance and shared a brief video on the “Leader in Me” program recently implemented at Shreve Island. She said a Shreve Island teacher shared this idea with her upon learning about it over the summer vacation and they have worked on this program for the past two years. She expressed appreciation to the Superintendent for his support of this program that implements the leader in all of us and the unique gifts each child has by using the philosophy of the book “Seven Habits of Highly Successful People” as its model. Mrs. Stanford also invited board members to visit Shreve Island and to also attend Success in Leadership Night on June 21st from 5-7 p.m.

2010-11 Financial Audit. Jim Lee introduced Margie Williamson from the auditing firm Allen, Green and Williamson. Ms. Williamson shared with the board the results of the 2010-11 audit of the Caddo Parish School Board. She highlighted the CAFR report and that the auditors did issue an unqualified opinion on the financial statement, which is the best opinion the district can receive. She further explained that the CAFR report also includes two sets of financial statements, (1) one on the budget and (2) one that includes things such as capital assets and the OPEB liability. Highlights of the financial statements on the budget indicated that for the year ended June 30, 2011 a net change in funds was a decrease of $5 million. Ms. Williamson also stated that the fund balance reflects $1 million in inventory that is non-spendable and $35.5 million in the OPEB, insurance, and technology reserves. The $34.4 million is the unassigned fund balance, the unreserved amount. Full accrual statements are included and include all the funds, capital assets, depreciation and all liabilities, i.e. bonds and OPEB. She also stated that
the change in net assets reflects a decrease of $69 million, most of which is due to the recording of the OPEB liability for the year. Total net assets for the year ended June 30, 2011 reflect a $136 million deficit; and under liability, $353 million of the $478 million is the OPEB liability which is growing at approximately $74 million a year. Ms. Williamson further reported that the permanent CEEF fund, money received from the riverboats, of which only the interest can be spent, has a balance of approximately $17 million.

Additionally, Ms. Williamson shared with the board the Compliance with Single Audit Act and reported that Caddo’s total Federal award dollars was a little over $75 million, i.e. Federal grants (Title I), Child Nutrition, Special Education. A list of grants audited was also shared with the board (Title I, Title II, Special Ed, Education Technology, and Education Jobs). There were no findings in any of these audits.

Mr. Lee encouraged the board to review these audits at their leisure and to contact him if they have any questions. Dr. Dawkins expressed appreciation to Mr. Lee and staff.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE JUNE 19, 2012 CPSB MEETING

Superintendent Dawkins highlighted the agenda items for the board’s consideration and the following discussion ensued.

Agricultural/Recreational Lease of Black Bayou Property. Mr. Rachal asked staff for a map of the location of this property and not just a written legal description. Mr. Riall said it is 80 acres, 77 of which are in the lake.

Property Lease – MJ Moore. Ms. Priest asked to see the complete proposal as it relates to the usage of the facility and the adjacent neighborhood. She said she believes it behooves us to look very closely at the proposal and asked that administration talk with some of the neighborhood associations and residents in that area. Mrs. Bell shared her concern for rules and restrictions for how the facilities are used. Mr. Woolfolk explained that a group approached administration about leasing the MJ Moore facility and the attorney has recommended that lease of this property be put out for bid. He also explained that verbiage in the bid restricts the lessee from using the facility for anything other than educational services. Mrs. Bell wants to make sure that those who lease the facility have a clear understanding of how the facility can and cannot be used. Mr. Abrams clarified that restrictions also state the facility will be leased to a private party versus a charter operator or charter school, because if it is a true charter, we have no choice but to lease it to them if they qualify as a charter operator by the State of Louisiana. He also said we cannot say that we will not allow a charter operator to use it because the law states if we have a vacant school we have to lease it at Fair Market Value. Private schools and churches are different issues. Mrs. Bell asked if a charter wants to lease it, does the board have the right to vote on if they get the lease or not? Mr. Abrams said if the charter is the highest bidder, and meets the terms, the board would have to lease it to them unless the board decides it is not going to lease the facility. Ms. Priest stated that a few months ago the superintendent presented a list of all off-line properties, ones we would retain and those recommended for sale. She said the board did not approve the next steps relative to sale or lease of these facilities. Mr. Riall responded that the board has been addressing these facilities one at a time, i.e. the board approved Hosston, the board is considering a proposal on Rodessa, an evaluation of Pine Valley will be coming to the board. Dr. Dawkins said they all have to come to the board.

Mrs. Armstrong asked if she understands correctly that if we put it out for lease, we cannot stipulate what entity we want to lease to? Mr. Abrams explained it must be put out for bid and we must lease it at Fair Market Value.
Adoption of 2012 Millage Rates. Mr. Rachal noted that over the past eight years millage rates have dropped from 87.27 to 75.66 mills on property taxes which is a substantial drop.

C. E. Byrd Parking Lot Solution. Mr. Rachal said it is obvious that we need to do whatever possible to provide safe parking at Byrd; and even though he sees nothing wrong with the proposal presented, he asked staff to explain how this fits into the long-term plans for additional parking at Byrd. Dr. Dawkins responded that the District has acquired two of the three lots along Kings Highway and staff continues to work on acquiring the third house and lot, with this being a temporary solution to help relieve some of the problems and provide some additional parking spaces. He added the Board will definitely need to discuss further a more permanent solution. Mr. Rachal asked what is stopping us from building parking lots along Kings Highway, right up to the third lot? Dr. Dawkins explained that there is probably not a reason we could not move forward other than we would pay approximately $500,000 for 50 parking spots in comparison to paying $50,000 for 42 spots in the short-term solution. Mr. Woolfolk explained that the hesitancy in putting a lot on either side of the house is the cost to correct the slant in the land to do so and once the house is acquired, it would have to be repeated to level the property with the other two lots. He also stated that Steve White reported an estimate of $350,000 to $400,000 to do the two outside lots. Mr. Rachal asked how many parking spots will the three lots provide, and Mr. Woolfolk said approximately 75-80. Mr. Rachal said he doesn’t believe if all these spaces are provided there will still be ample parking for Byrd’s students; and as he stated at the last meeting, he can support this before he can support the lease across the street.

Miss Green asked staff to further clarify the proposal and the long-term possibility, and Mr. Woolfolk explained what staff is proposing today is an additional 42 spots at $50,000 versus the cost for the long-term solution. Miss Green stated her agreement with Mr. Rachal’s statement that even providing all these possible spaces will not meet the need for parking at Byrd, and she asked if we know how many extra parking spaces are needed. Mr. Woolfolk responded he understands between 80 and 100 parking spaces are needed.

Ms. Priest stated that she believes it is clear that this is not the real issue; and while she appreciates staff bringing back this proposal, she believes it is a band aid approach and the issue that needs to be addressed is the enrollment. If the true issue of enrollment is not addressed, she said this is going to grow and she stated the need to use our Transportation Department and the City transportation system to address this issue.

Mr. Ramsey stated he is an advocate of doing a little of both, because we do need to provide adequate parking and noted that a former principal at Byrd advocated capping the enrollment. At one time there were approximately 1750 students at Byrd, but since he has been on the board, he has seen the enrollment increase to approximately 2400. He also stated his agreement that at some time the real issue will need to be addressed, but parking still needs to be provided. He asked the superintendent for the number of students that are enrolled in the neighborhood component of Byrd and how many are actually qualified magnet students. Mr. Ramsey stated this facility is absolutely maxed out with students as well as facilities and encouraged discussions on permanent solutions to these issues.

Ms. Trammell mentioned in the past there was an arrangement with the church across the street for additional parking and she believes what is being proposed as a temporary solution to parking is actually a permanent solution, and the issue of students parking in the neighborhood has become a major one with students receiving tickets. She also noted the need to look at adjusting the K-8 principals’ salaries to bring them more in line at a cost of approximately $48,000 while at the same time looking at $50,000 for 42 parking spaces. She asked what is more important?

Mrs. Armstrong referenced her suggestion to limit parking to Juniors and Seniors and the remaining students riding the bus or being dropped off by their parents. She also stated her
concern in considering the basketball court as a short-term fix, because if it is turned into parking space, it will become parking spaces and we need to make it a permanent parking lot. She also doesn’t believe we should address this with any band-aid solutions, but with permanent solutions. Relative to athletics, she stated transportation is provided for athletes; and if this is done, we also need to provide it for those students living in the country that do not have access to vehicles for after-school activities.

Mr. Riall reminded board members that the discussion needs to stay on the proposed parking option.

Mr. Hooks stated that Byrd’s enrollment has steadily grown and the Board needs to act now to address this issue. He asked Ms. Priest to clarify her concern with the issue of enrollment and Ms. Priest said she believes Byrd had a cap of 1,700 students, and the current enrollment at Byrd is between 2300 and 2400. Mr. Hooks said he believes students are attending school where they believe they can get the courses they need. Ms. Priest said there is a magnet component at Byrd in addition to the Byrd neighborhood students. Mr. Hooks said he believes this plan is on the right track and whatever is done needs to be done quickly so it can be addressed prior to the start of school, because he believes the concern over possibly getting a ticket could affect students’ concentration in the classroom. He encouraged the board to support implementing something to help this issue.

Mrs. Crawley stated she believes it is important that procedures are followed and that the person’s name beside the agenda item should be allowed to address an item first and hopefully answer some of the questions. Mrs. Crawley explained that this proposal is not a band-aid solution but it is an access to this proposed parking area that will eliminate 42 cars parking on the street. She also explained that the church no longer wants the school to use their parking lot because they have added another facility on their premises, and capping enrollment is a topic that began with No Child Left Behind. She also reminded everyone that the climate of the State now is taxpayers should be allowed to choose where one’s children will attend school. When asking about Choice, Dr. Dawkins said that the law still allows for Choice and discussions will need to be held on this topic. She also stated that she would like for staff to fully explain why we should not pave the two lots on either side of the lot with the house remaining on it. She also reminded everyone that the $50,000 for the 42 parking spaces will not be a loss of funds since we are getting calls every day about the need for parking at Byrd High School.

Mrs. Bell said students attend Byrd because (1) they are enrolled in the Magnet Program or (2) they live within the district. She added she knows there are those with special needs. She further asked that staff explain to her about the temporary cost, because eventually the Board will spend $400,000 to address this parking issue and the temporary solution of $50,000 is enough money to pay a salary. She said she believes this is a fad and knows there will be a day in the future when everyone will want to come to Fair Park (example) and she doesn’t believe there is a high school in the district that does not teach all the major courses needed. Mrs. Bell asked why Attendance is turning people away when they come to the office for a transfer, yet students can get a Choice transfer. She reminded everyone that at Byrd’s graduation there was so many in attendance that 1,000 attendees did not get into the convention center. Mrs. Bell asked that staff provide her with how many students are in the magnet program, how many students are neighborhood students, how many students are Choice; and how many live within a mile. She also asked that staff talk with the mall about students parking there and we shuttle them to Byrd.

Dr. Dawkins announced that a Caddo school bus was hit by a truck being chased by the police and students on the bus are being transported to the hospital to be checked out.

Mr. Pierson stated his agreement with most of what his colleagues have said relative to enrollment and the need to look closely at this enrollment to see what can be done legally. He
said he strongly believes when choices are made, you must deal with the consequences. Mr. Pierson asked Mr. Woolfolk if the Scout Hut is still located on the Byrd campus? Mr. Woolfolk said there is an empty gym-type building on the far side of the campus. Along side of this building, which is being used by the JROTC, there is a concrete slab that has been used as a basketball court and staff is proposing to pour asphalt for entrance and exit ramps and the concrete slab will be marked to allow 42 vehicles to park there.

Mrs. Crawford said she does not have a problem with the $50,000 because it is capital projects money, and the question we should be asking is what can be done in order to have this kind of successful program at other neighborhood schools.

Mr. Rachal reminded everyone that we are not a society of the 1970s, and we do not need to try to stay in the 70s. He stressed the importance of the District moving forward and meeting the needs of the students and being good community partners. Mr. Rachal stated he does not understand discussing this item for the length of time the Board has over spending $50,000 to provide something these students need. Mr. Rachal asked staff to provide him the capacity of Byrd High School and how many students live within a mile of Byrd. He reminded the Board that in the Vision 2020 plan a facilities report was presented to the Board and the discussion was held on how we can be more efficient with our facilities. Mr. Riall stated that he believes $50,000 for 42 spots is a good deal based on what the other option will cost the District.

**Property and Casualty Insurance Renewals for 2012-13.** Mr. Ramsey stated that Mr. Armstrong brought to his attention that along with this item on the agenda there may need to be another item authorizing Risk Management to reject uninsured motorist, bodily coverage on the automobile policy, which provides the Board as a body with a margin of protection from various frivolous lawsuits. Mr. Abrams stated that he doesn’t believe it has to be two separate items, but can be addressed in a two-part or two motions within the one item to accept and then to authorize Risk Management to reject the UM coverage; however, he will talk with Mr. Armstrong about this. Mr. Ramsey asked that the item be added in the event two items are needed, and Mr. Abrams said the law is very clear that the Board needs to authorize him to reject it.

Ms. Priest asked if the premiums (automotive, etc.) will total approximately $1.2 million? Mr. Woolfolk explained that the total for all is $587,000 including administrative costs.

**July Meeting.** Mr. Riall announced that he is recommending only one meeting in July and that the meeting will be held on July 17th.

**ADDITIONS**

Miss Green stated that at the last meeting she asked that an item be added to the budget for $5,000-$7,000 to the Theatre of the Performing Arts. She stated she will provide the backup.

Mr. Hooks asked that Disband SunGard be placed back on the agenda and asked about the status of the SunGard audit. Jeff Howard reported that all the surveys have been returned and the Auditing Department is pulling this information together and reviewing the contract with SunGard. Mr. Howard added his department should have something to the Board next week.

**Establish the Agenda and Proposed Consent Agenda.** Mr. Riall recommended Item 6.02, 6.03, 7.01-7.03, 8.01-8.02, 8.04, 8.06 and 8.07 as the consent agenda. Mrs. Bell moved, seconded by Mr. Ramsey, to approve the proposed consent agenda and agenda for the June 19, 2012 CPSB meeting as recommended. Vote on motion carried unanimously.

**Adjournment.** Mrs. Bell moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried and the work session adjourned at approximately 6:25 p.m.
June 12, 2012

The Caddo Parish School Board (CPSB) Executive Committee met in special session in its office at 1961 Midway Street, Shreveport, Louisiana, on Tuesday, June 12, 2012 at approximately 4:30 p.m. Executive Committee members present were President Steve Riall, 1st Vice President Dottie Bell and 2nd Vice President Larry Ramsey. Other board members present were Jasmine Green, Bonita Crawford, and Barry Rachal. Also present was Legal Counsel Reginald Abrams.

President Riall read Policy GBM and explained the meeting is being recorded to maintain a record of the suggestions and concerns. He announced the meeting is scheduled for 4:30 to 6:00 p.m. and will follow the same procedures for visitors addressing the board in CPSB meetings. If there are multiple speakers on a subject, each person gets 3 minutes; and if there is only one speaker, they get 5 minutes. He also announced that in accordance with policy, the Executive Committee will not respond at today’s meeting.

Jackie Lansdale, president of Red River United, brought forth the following issues for the board’s consideration: (1) come up with a “law”/definition/policy on what the school day looks like, and not just for high schools, (2) sit down with teachers to define the new law governing teacher observations/evaluations, (3) develop a teacher salary structure in accordance with Act I with involvement from the employee organizations, (4) sitting down as a district to come up with a new evaluation procedure (i.e. TAP is 30% of test scores in DeSoto Parish), and (5) look at preK across the board. Mr. Rachal asked that someone follow up on the proposed litigation.

Daryl Roberson, president of the Caddo Association of Educators, asked that the board (1) consider joining in the lawsuit challenging the constitutionality of the Governor’s Voucher Plan (Act II), and (2) be vigilant in knowledge of Acts I and II and additional legislation re: tenure, etc. from the 2012 Legislative Session. He also announced CAE will host an informational meeting on Acts I and II on June 20th, 1-5 p.m. at the Hamilton Branch Library.

Jon Glover, employee, questioned the inadequate communication with employees about today’s meeting for employees to express their concerns. She said because employees do have concerns; she believes the lack of communication is an indication of why there are so few employees present. Mr. Riall stated this meeting was advertised through the appropriate channels; and because employees are getting off work later, the executive committee members will be here until 6:00 p.m. to allow employees the opportunity to share their concerns.

Aleesa Johnson, teacher, encouraged the board to consider reinstating during the second semester the remaining $100 of the original $200 M&S.

Cedric Choyce, teacher, asked the board to look into issuing separate checks for teachers who receive a stipend for extracurricular activities, i.e. Spring sports coach. He explained that an excessive amount of taxes is withheld when it is combined with the regular payroll check.

Priscilla Savannah, teacher, suggested the need for administrators to know the Personnel Evaluation Plan and the policy to be followed as well as additional workshops/orientations on the JPAMS system.

Vera Lloyd, Louisiana Association of Educators, encouraged the board to come to an agreement on the length of the school day because it is inappropriate for a principal to take a 90 minute block and change it to a 96-minute block, adding an extra 24 minutes to a teacher’s work day with no extra compensation. She reported this was addressed unsuccessfully through the grievance process. As the District addresses all the changes made this year, she asked that they be a part of the committee looking at contracts as well as the committee looking at creating the observation/evaluation instrument.

There being no additional speakers, the meeting with CPSB employees adjourned at 6:00 p.m.
June 19, 2012

The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, June 19, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Mr. Rachal led the prayer and Pledge of Allegiance.

Mrs. Bell asked that everyone remember the Yvonne Willis family in their thoughts and prayers. Mrs. Willis, a teacher at Turner, passed away on Saturday evening.

Ms. Priest moved, seconded by Mr. Rachal, to approve the minutes of the May 8, 2012, May 15, 2012, June 5, 2012 and June 12, 2012 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, interim director of Communications, on behalf of the board and staff, recognized the following students and staff members. President Riall and Superintendent Dawkins greeted each one and presented them with a certificate recognizing their accomplishment. Administrators, family and friends present were also recognized.

Elementary Students of the Year. The following students were recognized as Caddo’s Elementary Students of the Year: Amanda Hightower, Arthur Circle; Claire Naughton, Atkins; Haley Wesley, Barret Paideia; Emily Foster, Blanchard; Antionne Alexander, Caddo Heights; Jasmine Gillie, Central; Adrian Smith, Cherokee Park; Thomas Smith, Claiborne; Paula Hunt, Creswell; Anna Partington, Eden Gardens; Hannah Berry, Fairfield; Rachel Britt, Forest Hill; Alyssia Clayton, Judson; Brent Ashley, Lakeshore; Daisa Smallwood, Midway; Kentrez Ruby, Moorietown; Jayden Clement, Mooringsport; Katie Graham, North Highlands; Katherine Harris, Northside; Chase Willis, Oak Park; Kimunte Sanders, Pine Grove; LaTerrion Watts, Queensborough; Morgan Tuminello, Riverside; Hayden Fulghum, Shreve Island; Georgia Hilburn, South Highlands, Nirali Patel, Southern Hills; Mary Muslow, A.C. Steere; Tariq Williams, Stoner Hill; Timera McConnell, Summerfield; Kira Presley, Summer Grove; Johnisha Giles, Sunset Acres; Jeffery Davidson, Timmons; Alexander Festerman, Turner Elementary; Ashlyn Gotberg, University; Rebecca Bonner, Werner Park; Terreon Manning, West Shreveport; Avyon Brooks, Westwood; Veronica Penalos, Herndon; Melinda White, Keithville; Nathaniel Green, Oil City; Luke Couch, Vivian; and Kennedee Harrell, Walnut Hill.

Times’ 2012 Athletes of the Year. The following students were recognized as The Times 2012 Athletes of the Year. (1) Alexis Hewitt, Booker T. Washington High School, The Times 2012 Girl Athlete of the Year, having been named second team in All-City, the District 1-2A MVP in basketball, Class 2A State Champion in 100 and 400 meters and the MVP in track. (2) Tre’Davious White, Green Oaks High School, was named The Times 2012 Boy Athlete of the Year, having been named to the First Team All City, the District 1-3A MVP in football and Second Team, All State in basketball.

Caddo Public Schools Counselors of the Year. The following Caddo counselors were recognized as 2012 Counselors of the Year and will now compete at the State level competition:
(1) Courtney LeBlanc, Summerfield Elementary; (2) Karen Smith, Booker T. Washington New Technology; and (3) Mitzi Musgraves, Caddo Career and Technology Center.

**Westwood Elementary Receives $5000 Rotary Club Grant.** Tina Adams was recognized for receiving a $5,000 grant from the Rotary Club for her civic project, *Food in a Backpack Program*, and also $746 from Alan Yokem, Yokem Toyota, for classroom technology.

**VISITORS**

Patsy Wilson, grandparent, share her disappointment that her granddaughter, who graduated this year from Captain Shreve as the valedictorian, was not allowed to sit on the stage or mentioned in the program. In her attempts to talk to someone at the school, she was informed the top five to ten were honored on the stage at the ceremony. When talking with the board member for Captain Shreve, she was told that a committee of teachers selected the participants seated on the stage. She said she doesn’t understand why her granddaughter, who excelled her four years in high school, was slighted in this way, and encouraged the board and staff to look at this practice.

Vanessa Naquin, parent, shared her experiences in the Caddo School System with her now 17-year old autistic daughter. She outlined a timeline of the past school year’s experiences at Huntington and how she was treated by administration because she continued to express her concerns and attempted to be an active part of her daughter’s education.

Jackie Lansdale, president of Red River United, announced that the Louisiana Federation of Teachers recently filed two lawsuits, one against BESE and one against the Governor’s office, relative to the passage of Acts I and II, asking for an injunctive release for both based on the unconstitutionality of both. With these two acts governing teachers and the MFP funding, she believes public school boards will no longer know accountability over these schools because teachers will no longer have the same due process and rights, they will no longer be hired or fired by the board but by the superintendent, and the board will be responsible for developing a new salary schedule. Mrs. Lansdale noted the decline in MFP funds formerly sent to districts for the students and the prediction that there will be little or no accountability. She encouraged the board to look at defining “The School Day” and how a teacher’s 450 minute day will look, and protect teachers and others providing a public education for the boys and girls in Caddo Parish.

Jon Glover, employee, stated that her speaking before the board today does not reflect on any employee of the Caddo Public School System, but as a parent, grandparent and concerned citizen of Caddo Parish. In referencing one of Martin Luther King’s statements, she said the board should render its decisions in a way that it will positively impact every child in Caddo Parish. She noted that segregation was in place until 1969-70; and if one looks carefully, she believes they will again see segregation on the rise. She stressed the importance that we not let history repeat itself and her belief that it is the board’s obligation to the citizens of Caddo Parish to make sure every child is equipped with the best educational opportunities we can offer in Caddo. Ms. Glover also reminded the board it is their obligation to become familiar with all aspects of recommendations brought to the board.

Frederick Washington, former student, addressed the proposed parking lot for Byrd High School and how the board is always talking about what it needs to do. He said he remembers Attendance distributing to all board members a packet of information on transfers, magnet schools, etc.; and since that time, he has not heard anyone address these policies or attendance issues in some of the schools. Mr. Washington stated that the majority of the minority parents actively involved in the democratic process relative to public education have not aggressively dealt with the issues that deem Caddo schools academically unacceptable; and the board can discuss capping enrollment all day long, but Federal law says that as long as these schools are failing, the children do not have to attend them. In the end, Mr. Washington said if the board
does not vote for this it, it is not any particular school board member or particular group of parents being punished, but the children and parents who believe this is the best option for them. Being initially opposed to this, he believes the least that can be done is to pave the parking lot.

LeeAnn Anglin, Byrd parent, addressed the board on the proposal to provide the additional parking spaces for Byrd High School and her support. She noted the importance for the board to continue to make wise decisions by gathering as much information as possible when voting to spend money and that all the data gathered and the elements compared are consistent.

Malcolm Murchison, Byrd parent, noted there has never not been a problem with parking at Byrd High School. He shared his successful experiences at Byrd; and because the school needs the parking, as well as the neighborhood, he encouraged the board to support the additional parking spaces for Byrd High School.

Rachel Lane, student, shared with the board the importance of providing additional parking for Byrd students. She said she and her sibling(s)/friend(s) carpool to Byrd and they need to drive because of their involvement in before and after school extracurricular activities.

Steven Jackson shared his opposition to doing anything else relative to parking at Byrd High School. He reminded the board that magnet schools were created as a result of desegregation and the Consent Decree; and he believes Caddo Parish is no longer under the Consent Decree, because if we were Vision 2020 should not have been approved. Mr. Jackson said he does not see this as a Byrd High School issue but an issue of being overcrowded. He encouraged the board to get into the business of creating World Class Neighborhood Schools and not have one school stand out as the premier school. He said it is important that policies are put into place and that the board begins to invest equitably in all Caddo schools and not just one school.

**ESTABLISH AND CONFIRM THE AGENDA AND CONSENT AGENDA**

Superintendent Dawkins highlighted items for the Board’s consideration and President Riall announced Items 6.02-6.03, 7.01-7.03, 8.01-8.02, 8.04, 8.08, 8.10 and 8.11 are the consent agenda. *Mrs. Bell moved, seconded by Ms. Priest, to approve the consent agenda as presented. Vote on the motion carried unanimously.* The following is a summary of the Board’s action on consent agenda items.

**Item No. 6**

**6.02 Requests for Leaves.** The board approved the following requests for leaves as recommended by the superintendent and submitted in the mailout.

Certified

*Leave Without Pay, August 9, 2012 – May 24, 2013*

Keri Grozinger, Teacher, C. E. Byrd High School, 10 years

*Sabbatical Study, August 9, 2012 – May 24, 2013*

Donna E. Henderson, Teacher, Riverside Elementary School, 6 years

Gail Griffin, Librarian, A. C. Steere Elementary School, 36 years

*Catastrophic, May 22, 2012-May 25, 2012 (noon)*

Imelda Bush-King, Teacher, Academic Recovery, 6 years

**6.03 Personnel Transactions Reports.** The board approved the Other Personnel Transactions Reports for the period of April 21, 2012 – May 20, 2012, as recommended by the superintendent and submitted in the mailout.

**Item No. 7**
7.01 Purchasing. The following bids were approved as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Blue Bell Creameries, totaling $77,388.00 and Foremost Dairy, totaling $1,471,35.00 for the purchase of Milk and Dairy Products; (2) IBC Sales (Cotton) totaling $129,980.00 for the purchase of Bread and Bread Products; and (3) Foremost Dairy, totaling $1,389,150.00 for the purchase of Fruit Juice. A copy of the bid tabulation sheets is filed in the permanent record of the June 19, 2012 meeting.

7.02 Auction Sale. The board authorized an auction sale of old buses/vehicles on July 14, 2012.

7.03 Agricultural/Recreational Lease of Black Bayou Property. The board approved the bid of John P. Hobbs, totaling $500.00 per year for a 5-year lease of the Black Bayou Property as indicated on the bid tabulation sheet submitted in the mailout. A copy of the bid tabulation sheet is filed in the permanent record of the June 19, 2012 meeting.

Item No. 8

8.01 Adoption of Adjusted Millage Rate for Tax Year 2012. The board adopted a resolution to adjust the millage rates for Tax Year 2012 as recommended by staff and submitted in the mailout. A copy of the adopted resolution is included and made a part of the permanent record of the June 19, 2012 CPSB meeting.

8.02 Accept 2010-11 Financial Audit. The board accepted the 2010-11 Financial Audit as presented. A copy is filed in the official record of the June 19, 2012 CPSB meeting.

8.04 Special Education Interagency Agreements and Contracts. Special education interagency agreements and contracts were approved as recommended by staff and submitted in the mailout.

8.08 Theatre of Performing Arts. The board approved $5,000 for the Theatre of the Performing Arts and that the ending balance be adjusted accordingly.

8.10 Requests for Use of School Buses. The board approved the requests for the use of school buses as recommended by staff and submitted in the mailout.

8.11 Resolution in Support of LSBA. The board approved a resolution in support of the Louisiana School Board’s Association’s lawsuit. A copy of the resolution is filed in the permanent record of the CPSB meeting of June 19th.

PROPERTY LEASE – MJ MOORE SCHOOL

Mr. Rachal moved, seconded by Mrs. Crawford, to approve the property lease for MJ Moore School as submitted in the mailout. Ms. Priest stated she wants to make it very clear this agreement states this property lease cannot be transferred to another entity and that the usage of the facility cannot be to conduct or provide educational or correctional services during the lease period. She also asked staff to clarify the proposed statement of seeking to become a participant of the juvenile detention initiative. Tim Graham explained this is a church and they are working with Community Renewal for an after-hours tutorial program; and during the meeting with them, this was made very clear. Dr. Dawkins added that the relationship with them is as Mr. Graham described and not one of housing or correctional detention. Mr. Abrams stated the necessity to add an amendment stating that the facility shall not be used to house anyone or used as a detention facility.

Mrs. Armstrong asked about the recent vandalism at this school and who will be responsible for the upkeep and repairs? Mr. Graham explained they (the ones acquiring the lease) will make the
repaired and it is their responsibility for the upkeep over the three-year lease. At the end of the
three-year lease, they understand they will not be reimbursed for any repairs made.

*Vote on the motion as amended carried unanimously.*

**BIDS – CONSTRUCTION**

Ms. Priest moved, seconded by Mrs. Bell, to approve the following bids as submitted by staff in
the mailout on the bid tabulation sheet: (1) Rimmer Electric, Inc. with a Base Bid and Alternate 1
for the sum total of $228,200.00 for Project 2013-401, “Summerfield Lighting Retrofit”; (2) Pro-Build Construction, with a Base Bid for the sum total of $124,000.00 for Project 2013-205,
“Arthur Circle Foundation & Wall Repair”; (3) Excel Energy Group, Inc. with a Base Bid and Alternates 1 & 2, for the sum total of $162,557.00 for Project 2013-402, “Westwood Lighting Retrofit”; and (4) Dale’s Paving Inc. with a Base Bid and Alternates 1, 2 & 3, for the total sum of $237,879.70 for Project 2013-209, “Huntington Resurface Parking Lot”. Ms. Priest said staff
presented responsible bids for these projects and encouraged the board to support the motion.

Mr. Rachal moved, seconded by Charlotte Crawley, to separate Bid No. 4 “Resurface
Huntington High School Parking Lot”. Mr. Rachal said he believes the winning bid on this item
is $237,000, and if we are going to look at parking lots individually, we also need to look at this
one individually, i.e. determine if this expenditure is for the safety of the children. He said as the
board votes on this item, it should also consider the vote later on the agenda addressing Byrd’s
parking lot. He asked the superintendent to explain the purpose in resurfacing the Huntington
parking lot? Dr. Dawkins responded this parking lot is in major disrepair and safety and health
issues are foremost in the decision. Mr. Riall reminded the board members that the motion on
the floor is to separate and not to debate the issue. Mr. Rachal said he is attempting to share the
rationale and he thinks everyone understands the importance of paying close attention to the
parking lots, and he is asking that it be pulled and voted on separately.

Mrs. Crawley said she seconded the motion as she believes the maker of the motion is making a
statement about hypocrisy. While she supports separating, she clarified it is a safety issue and
she supports all issues when it comes to the safety of all the students no matter what school.

Mrs. Bell questioned the maker of the motion on why it is being recommended to separate this
particular item when the board has considered all the bids in one motion. She stated she is
uncomfortable in handling this in this manner.

Mr. Abrams clarified the board has approved this parking lot, and the motion is to approve the
bid for the work, not the project. He explained the board will either approve it because the bid is
within what was budgeted, and the project will be done or it will be postponed for a period of
time. Mr. Rachal asked if the board is not responsible for approving or not approving all budgets
and monies spent; and at this time the board will determine whether or not to spend this amount?
Mr. Abrams further explained the board previously approved a budget, a certain amount for a
certain project, and now the board is being asked to approve the bid that came in because an
approved project was let out for bid. He said if the bids come in within the approved budgeted
amount, the staff submits it to the board for approval; at which time the board grants it to the low
bidder or pulls the project for a year which is what public bid law requires. Mr. Rachal asked if
he understands correctly that if the project is not approved by the board, it is postponed for a
year? Mr. Abrams responded at least a year, because at this point the board approved a project
for a certain amount and now has a recommendation that falls within the budgeted amount. Mr.
Rachal said he doesn’t have to vote to spend the money and it is obvious it will come back to the
board in a year. Mr. Abrams said he can verify the time as stipulated by law, but he is almost
certain it is at least a year.
Mr. Riall asked if the board votes to postpone this project that has been bid, is the board under any liability? Mr. Abrams again stated the board can decide not to accept the bid, but at that point, the bid law will not allow it to be rebid immediately, but the board must wait a year. He further explained this bid is different from a bid that may come in over budget, which the board can reject. Mr. Rachal said he knows the board can separate any item, because it is something it has done in the past; and he is asking to separate so the public can see the individual vote on this particular item.

Ms. Trammel said while she understands board members can bring anything it desires to the board, she asked for clarification on separating what is brought to the board in a package, and if the board will begin separating all things or only certain things? Mr. Riall explained that these items are presented to the board in groups for expediency; however, it is the board’s privilege to request that a particular item be separated, and at that time the board must vote on whether or not it will separate an item for a vote.

Mr. Abrams clarified that a motion was made to approve the construction projects, then a motion was made to separate the item. The vote before the board now is to separate the item and vote on them individually. He further explained if an item is separated before it is put on the table, it can be done anyway a board member or the board wishes (all on consent with the exception of a certain project, etc.).

Mr. Riall reminded everyone that the discussion should only be relative to separating the motion. Mr. Pierson moved, seconded by Ms. Trammel, to call for the question. Vote on the motion to end debate carried with Board member Rachal opposed.

Vote on the motion to separate failed with Board members Rachal and Ramsey supporting and Board members Riall, Green, Pierson, Crawley, Hooks, Trammel, Priest, Crawford, Armstrong and Bell opposed.

Vote on the main motion carried unanimously.

APPOINTMENT OF OFFICIAL JOURNAL

Ms. Priest moved, seconded by Mr. Ramsey, to approve appointing The Times as the official journal for the 2012-13 year as recommended by staff and submitted in the mailout. Vote on the motion carried with Board member Riall opposed.

C E BYRD PARKING LOT SOLUTION

Mrs. Crawley moved to approve, seconded by Mrs. Crawford, the addition to Byrd’s parking area as submitted in the mailout. Mrs. Crawley clarified that this is Byrd’s/Caddo Parish property and is not a lease that will be done and undone, but it is converting something that is not being used to parking to help solve some of the parking problem. She asked the superintendent about the numbers submitted and Mr. Riall reminded the board that the motion is to approve $50,000 for 42 parking spaces, and Byrd’s attendance numbers are not a part of this motion. Mrs. Crawley asked the superintendent if he sees policies that may need to be addressed that will make the other high schools more desirable. Mr. Riall ruled that this has nothing to do with the motion on the floor. Mrs. Crawley said she believes it does because parking spaces are needed at Byrd. Mr. Riall explained that the board needs to vote whether or not to approve the $50,000 for the 42 parking spaces. Mrs. Crawley noted that the media has addressed the board as one that is not doing its job, so she believes it needs to be addressed. Mr. Riall said that while it may need to be, the motion on the floor is to approve or not approve $50,000 for 42 spaces. Mrs. Crawley said it’s for 42 spaces and she believes this is the cheapest way of getting additional parking at this point.
Mr. Rachal called for a Point of Order as he requested information specific to this agenda item relative to the student population at Byrd, and he does believe it to be pertinent to the conversation on the parking lot.

Mrs. Crawley moved, seconded by Mr. Rachal, to appeal to the decision of the chair. Mr. Abrams explained that a “yes” vote will be to overrule the President’s decision to not allow attendance numbers to be discussed. Vote on the motion to overrule failed with Board members Crawley, Hooks and Rachal supporting the motion and Board members Riall, Green, Pierson, Trammel, Priest, Crawford, Ramsey, Armstrong and Bell opposed.

Mrs. Crawley encouraged the board to support spending $50,000 for parking at Byrd High School. Mrs. Crawford reminded everyone this is a capital projects’ expenditure and not General Fund, just as all capital projects are funded; and this is not only for the students’ safety, but for residents living in the Byrd neighborhood, and it needs to be addressed for next school year.

Mr. Ramsey said there has been a parking problem at Byrd for some time; and even if there were 300-400 less students at Byrd, this parking is still needed. He said he believes staff has presented a very inexpensive way to provide some additional parking spaces and encouraged the board to do the right and reasonable thing and pave the parking spaces.

Mr. Rachal stated his disgust that it has been necessary to go through this over a $50,000 expenditure out of capital projects to deal with a problem that has been in place for 25 years. He reminded everyone that students attend Byrd from all across Caddo Parish, and he asked if it is possible to discuss information shared at the last meeting on this item? Mr. Riall responded that it is not. Mr. Rachal asked the superintendent, in providing services for students at Byrd High School, a school that serves students from all across Caddo Parish, how many students are at Byrd, and Dr. Dawkins said there are 2,000 plus. Mr. Riall ruled that this item is not on the agenda. Mr. Rachal stated that if we are not going to be concerned about safety and security, he encouraged board members to vote against the motion on the floor. He said he doesn’t believe we are being a good neighbor when we force all those that live around Byrd High School to complain and have issues of just trying to park at their own house. Mr. Rachal stated that in supporting the motion on the floor, we are being community oriented and a part of the community that Byrd is in.

Miss Green moved, seconded by Mr. Pierson, to call for the question. The vote to end debate carried with Board members Crawford and Rachal opposed and Board members Riall, Green, Pierson, Crawley, Hooks, Trammel, Priest, Ramsey, Armstrong and Bell supporting the motion.

Vote on the main motion carried with Board members Priest and Bell opposed and Board members Riall, Green, Pierson, Crawley, Hooks, Trammel, Crawford, Rachal, Ramsey, and Armstrong supporting the motion.

PROPERTY AND CASUALTY INSURANCE RENEWALS 2012-2013

Mr. Ramsey moved, seconded by Mr. Rachal, to renew the casualty coverage through the LSIG and property insurance with Continental Casualty Company and to authorize Risk Management to reject uninsured motorist underinsured bodily injury coverage on automobile liability policy as submitted in the mailout. Mr. Pierson shared his only concern of whether or not this went out for bid. Tommy Armstrong explained that staff begins in November putting together an insurance packet that is sent to the insurance industry, making it available to the insurance companies through Caddo’s broker, A.J. Gallagher and Company. He reported there were 13 responses, two casualty submissions, two terrorism liability quotes, and two property quotes. He also said there was one submission on crime, one on pollution liability, and one submission on
cyber liability. Mr. Pierson asked if this information should have been a part of the mailout for backup, because for him, it would have been beneficial to see all the relevant information. Mr. Pierson said he is not interested in holding up this item, but would like to request that in the future those items that are put out for bid, all information is provided to board members in the backup. Mr. Riall reminded board members that between meetings they have the opportunity to contact the person whose name is listed adjacent to the agenda items so as to get answers to any questions on a particular item. Mr. Pierson asked if these companies are ones we have done business with in the past and Mr. Armstrong responded that is correct and further explained that staff negotiates up to the very last minute in order to get the School Board the very best coverage possible at the very best price. He added that while there was a mild increase in the property coverage, it was nothing in comparison to what was given around Louisiana as well as in adjoining states. Vote on the motion carried unanimously.

JULY CPSB MEETING

Mr. Riall stated that the board initially discussed having one meeting in July on July 17th; however, there have been some developments since that time that warrant further discussion. Dr. Dawkins explained that he received a call from State Superintendent John White relative to a series of meetings he is scheduling across Louisiana and his desire to address Caddo Parish on July 24th. Mr. Riall noted the conflict with the NSBA Southern Regional meeting at which several board members are scheduled to attend. Mr. Riall asked Mr. Abrams if he understands correctly the possible need for a special meeting for the charter school. Mr. Abrams stated that a charter school application was received from the Magnolia Charter School which needs to be reviewed in addition to a public hearing being held. He suggested there be a separate meeting for this in order to allow for public input and ask questions prior to the main board meeting on the 17th if possible. After discussion of various possible options for this schedule due to the fact of scheduled vacations and other travel plans in place, a decision was made to contact State Supt. White’s office about possibly changing the date he comes to Caddo. Mr. Abrams said, in response to Mr. Riall’s inquiry regarding the timeline, that the timeline is a very tight one and it is anticipated that interviews will be held next week with recommendations hopefully prepared for the board’s meeting on July 17th.

Mrs. Bell asked for clarification on what charter is being referenced? Dr. Dawkins stated that he believes he communicated to the board that an application for a charter was received. Dr. Dawkins reported that staff is currently reviewing the application and shortly this information will be made available to the public via the Caddo website. She asked if the public hearing could be held on Monday, July 16th and the regular meeting on the 17th. Dr. Dawkins encouraged the board members collectively, or as many as possible, to be in attendance on the 24th to hear the State Superintendent and get a handle on his vision for the state.

Mr. Rachal stated that, in discussing the issues for the July calendar, and the review of a charter application in July, he prefers to have the public hearing at least a week in advance of voting on it. Mr. Rachal asked the superintendent his preference of having the State Superintendent on the same date as a special meeting to address the charter application. Dr. Dawkins said he doesn’t believe having the charter school item on the same date as the State Superintendent is a bad thing since the State Superintendent desires to share his vision and may have something to add to it. Mr. Rachal asked if this requires a motion and Mrs. Crawley stated that Mr. Rachal has already spoken. Mr. Rachal moved that a special session is scheduled for a public hearing for a charter school application on July 17th and that the regular session be scheduled for the 24th when John White meets with the board.

Mr. Riall asked for a count of who will not be in town on the 24th and at this time, five board members will be out of town. Mr. Riall asked the superintendent to follow up and determine if
the State Superintendent can change the date he speaks to the board, because he believes it is important for the board to attend and hear what the State Superintendent has to say.

Mrs. Armstrong said her concern is everyone needs to be in attendance to vote on the charter school application; therefore, at this point the 24th is not a good date. She also stated the need to ask the State Superintendent for another date since his visit on the 24th interferes with too many other scheduled activities. Mrs. Armstrong said the Caddo Parish School Board is elected to represent the constituents in their communities and it is important to be present and hear with the State Superintendent has to say. Mrs. Armstrong asked if the public hearing for the charter school application could be July 12? Mr. Riall announced that he will be out of town that week.

Miss Green stated she believes every board member needs to be present to vote on the charter school application; and asked the superintendent if we have agreed to meet with the State Superintendent on the 24th? Dr. Dawkins responded that when he gave the State Superintendent the July 24th date, he told him it was tentative until the board approved it; however this date has already been published. Miss Green stated concern that if we do not move forward with July 24th, it could be much later in the year before Caddo can schedule him to meet with the board.

Mr. Pierson moved, seconded by Mrs. Crawley, to schedule a Charter School Public Hearing at 4:30 on July 16th, the CPSB regular monthly meeting on July 17th at 4:30 p.m. and a meeting with State Superintendent White at 4:30 on July 24th (or whatever date the State Superintendent can be here). Dr. Dawkins announced that the charter application in its entirety will be posted to Caddo’s website on Wednesday. Vote on the motion carried unanimously.

**DISBAND SUNGARD**

Mr. Hooks moved to accept the staff’s recommendation to suspend the conversion of Human Resources and Payroll functions to SunGard system and return to the Legacy system. Dr. Dawkins clarified that staff has not made a recommendation. Mr. Hooks moved that we suspend the conversion of Human Resources and Payroll function to SunGard system and return to the Legacy system. Mr. Rachal seconded the motion. Mr. Hooks thanked the auditors for the outstanding job on the survey, as well as the employees that took the time to complete the survey. Mr. Hooks also thanked Mr. Woolfolk and his team for the hard work put into SunGard. He said he brings this motion because as a result of the lack of training of employees, he believes SunGard in some departments is inaccurate and undependable, with Purchasing the only department where it is working. He noted comments in the survey that SunGard is more time consuming because of the numerous steps to perform a function; and in looking at the charts and surveys, he believes there were more that spoke against SunGard than there were for SunGard, and this is why he brings his recommendation to return to Legacy for the Human Resources and Payroll functions. Mr. Rachal asked the superintendent if he is satisfied with what they have given us, because it seems that at every opportunity they have charged us for what he thought was included, and asked if they have the capability to provide the services that Caddo needs?

Superintendent Dawkins shared with everyone that the SunGard System was reviewed and selected by a team of Caddo Parish School experts and approved by the board on July 14, 2009. He said he has supported this decision since he has been here and he continues to wholeheartedly support SunGard. Dr. Dawkins reported that staff is working through details and problem areas with SunGard’s full cooperation and they have staff here on the ground. He stated if there are areas that still must be addressed, and he knows there are some, he, Mr. Woolfolk and Mr. Lee will personally meet with the head of SunGard next week to clear up these issues. The superintendent stated that if board members have not heard from anyone who has missed a paycheck or payday, then the SunGard system is functioning. He further stated that if the decision is to go in a different direction, this will set the district back five years technologically. This is the largest system change the district has experienced since the introduction of the
mainframe computing; and all employees who interact with computers in their daily work will have a change in how their work is performed. Dr. Dawkins announced that 11 payrolls have been run in SunGard and if changed, it will be necessary to convert these back to the Legacy System. He stated we are in the age of cloud computing and the Legacy System cannot be repaired or expected to replace 21st Century functions. The district will lose $2.3 million if cancelled as well as the ability to have live desktop computing, and it would be disregarding those who find SunGard System useful and helpful. He said we will also lose our ability to eliminate the mainframe maintenance cost of $330,000 a year versus the SunGard web base cost of $130,000. Dr. Dawkins stated that if there is a decision to disband SunGard, he will begin the process of exploring outsourcing opportunities for all of Accounts Payable and Payroll functions so we can insure that all of the things said that we don’t have will be picked up. Dr. Dawkins said the administration strongly recommends we continue its work and agreement with SunGard.

Mr. Rachal asked if it is a viable option to outsource? Superintendent Dawkins responded that this is something he would definitely begin to explore as a viable option. Mr. Rachal asked, regardless of what decision is made at this time, that staff explore this option. Mr. Rachal also said with technology changing, he understands the need to have a timeline or date that says yes or no. Dr. Dawkins responded he believes we should have already been there, but we will go live with SunGard in July with all systems. If this can’t be accomplished in that timeframe, Dr. Dawkins stated that he has spoken with Mr. Lee and Mr. Woolfolk about a face-to-face meeting with the SunGard President. With the entire process having a shaky beginning, and despite the fact that the staff has done a great job, he believes a drop dead date is needed. Mr. Rachal asked the superintendent to keep the board members in the loop and up to date on this project’s status.

Mr. Pierson asked about coaches, and others, who receive stipends and that under the Legacy system they received their regular school pay in one check and stipend in a separate check, and now in the new system both are in one check. He stated he understands when this is done that it places the employee in another tax bracket which takes out additional taxes, etc. and the take home pay is not as much. Mr. Pierson said these employees were told that they would get it back when filing their income tax; however he is familiar with this and how it affects the employee’s take home pay. Mr. Pierson also stated his concern that the district is being overcharged, someone is paying it, and the Director of Finance does not know it. At this time, he shared his belief that SunGard was made for purchasing; and, after three years, he is unsure if it can be adapted to Human Resources and Payroll. He asked if it is possible to keep SunGard for purchasing and do something different for Payroll and Finance, because we have spent a lot of money on SunGard and he believes we will spend a lot more if it doesn’t start working.

Superintendent Dawkins responded that regarding stipends, it is not the SunGard system, but it an administrative decision. He believes adaptation is what has been frustrating and has taken more time, and he also agrees there should not be any overcharging. At this time, he believes we got off to a bad start and he agrees some of these changes can be made; however administration has been told that Legacy has no backup once we leave it, and if the district goes back to Legacy, it will be antiquated. Mr. Pierson suggested that staff meet with Mr. Carter, some coaches, band directors, and others that receive stipends to get their feedback, as they are the ones affected.

Ms. Trammel noted there has been a lot of training; however concerns expressed to her are that once one finishes the training sessions and begins entering data in the computer, nothing happens. She said she would never recommend disbanding SunGard because too much money has been invested in it; however, she would like to know when will everyone see that the glitches have been resolved? Dr. Dawkins responded that we are closer now than ever before and he hopes these things will be worked out this summer. Ms. Trammel also asked if he received something from staff to say this is not a working tool. Dr. Dawkins responded that staff members have brought forth some of the issues because there have been some good results and some bad results; and in some cases, things did not occur as they were supposed to occur. He
further stated that “adaptation” is a good word to describe it because the district must adapt it to what we need and there are some unique things, i.e. insurance, overtime, coaches’ stipends, etc.

Mrs. Crawford stated that she remembers board members asking questions about this new system for a long time and it has taken long time to get numbers of what has been spent, etc. She asked about the hardware and the fact that we bought the servers in ’09 and we are not using them and we are paying SunGard an extra $300,000 to be a server. Also, she asked why under software maintenance have we purchased licenses and paid for maintenance on six applications that are not being used, i.e. accounts receivable, punch out, bid online, contract management, grants, etc.

Mr. Woolfolk explained that regarding the purchase of the hardware, we did pay for hardware that has not been received and it was IT’s decision not to receive it and continue to use the web-based version of SunGard and not get into analyzing and diagnosing the software at the same time as the hardware. The intent was once the system was up and running, then a decision would be made as to whether or not we wanted to use hardware or continue to use the cloud as the software package. Even though this has been purchased, we can request it to be credited and the money applied to the monthly charge for the use of the cloud. Mr. Woolfolk also stated that he met with Ms. Golett and a final decision, to bring it in and run from Caddo’s server base or continue to use the client’s web-based server, has not been made. Mrs. Crawford asked about the additional programs purchased but not being used. Mr. Woolfolk explained these came with the package and staff has been concentrating on the purchasing, accounting, finance, and Human Resources. At this time Purchasing and Accounting have been active in SunGard for a couple of years; and HR and payroll have been in a test mode with partial implementation. When one says it is working for purchasing, Mr. Woolfolk said that is true because it has been in place for approximately two years. Regarding HR and payroll, he stated that 11 payrolls have been run and staff still plans on going 100% in July with the final payroll, believing at this point that they can make this happen. Mr. Woolfolk said stated that staff has been very careful to make sure that someone’s check is not messed up and that everyone is satisfied. Mrs. Crawford asked if we do not use the other modules is it possible to receive a credit for them? Mr. Woolfolk responded staff will go back to them regarding those that we thought we wanted or needed and at some point realized we did not want or need them, and determine what type of credit the district might receive. Mrs. Crawford asked should the board wait until July when the system goes active to see what happens before disbanding? Mr. Hooks said his original date was May 18th, and Mr. Woolfolk said that was the goal; however, they ran bi-weekly payrolls over the past 12 weeks and now plan to go live July 15th. Mr. Riall reminded Mr. Hooks that Mrs. Crawford has the floor, and she said she came to the meeting ready to support Mr. Hooks’ motion; however after hearing everything said, she asked Mr. Hooks if he is willing to wait another month and see what happens (does it work or not work). Mr. Hooks agreed to withdraw his motion, and Mr. Rachal withdrew his second.

TENURE HEARING FOR TENURED BUS DRIVER

Mr. Abrams explained that Mrs. Smith has notified us that in lieu of proceeding with a tenure hearing in this matter, and subject to board approval, she is willing to resign from her position as a school bus driver for the Caddo Parish School Board, effective immediately; and that she waives her presence and appearance before the board and understands that this matter will be presented to the board on today’s date. Mr. Ramsey moved, seconded by Ms. Priest, to approve Mrs. Smith’s resignation and acceptance of her waiver of appearance. Vote on the motion carried unanimously.

ANNOUNCEMENTS AND REQUESTS

Mrs. Crawley asked for an update on implementing the teacher evaluations. She also announced that she will email the superintendent questions she has on SunGard.
Miss Green referenced the employee meeting giving employees an opportunity to share their concerns, and she received many calls that employees were unaware it being held. She asked that we do a better job about getting notification to the employees. Miss Green also commended staff on the graduations, but also expressed her concern that the policy on graduations needs to be reviewed, as there was specific incident with twins where one did not pass English and one did not pass a part of the GEE 21, yet one was allowed to walk and the other was not.

Mrs. Armstrong asked that the board and public remember the Ramsey Branch family in its thoughts and prayers. Mr. Branch is a special education teacher and baseball coach at Byrd and while on vacation his wife went into early labor. The baby boy is in ICU in Galveston with seizures and brain bleed and the family is staying at the Ronald McDonald House. An account has been set up at Chase Bank and staff was asked to share this information through the web site.

Mr. Pierson stated his concern about the off-line schools and the need for them to continue to be on the maintenance and upkeep schedule the same as if they were occupied.

Mr. Rachal requested a report on the list of employees at the alternative schools at the end of the 11-12 school year and where they will start or continue in the 12-13 school year, and that a copy of the State Statute on alternative schools and responses to the questions be provided to each board member. He also asked that “Pay Salary for Occupational Therapists” be added to the July agenda, and for an update on the school schedule policies.

Mr. Hooks requested that employees fill out the same survey in August that the Auditing Department recently conducted to get employee feedback after SunGard is implemented.

Ms. Trammel expressed her appreciation to the Transportation Department for a job well-done in their assistance with their church’s summer camp. Ms. Trammel also asked the superintendent about the recommendation to implement SunGard and the information received and said she believes staff has done an excellent job. She said there are however some additional issues she would like to discuss with the Superintendent.

Mrs. Bell asked for clarification on the State Department doing away with the Leap, and what grades will be taking what test next year. She also asked if parent orientations will include copies of the policy on truancy and absentees. Dr. Dawkins stated it will be included in the package, including the Blue Book.

Mrs. Crawley asked Superintendent Dawkins to follow through with clearly defining the school day in our policies as shared by Mrs. Lansdale. Dr. Dawkins stated that he met with Mrs. Lansdale and the other employee associations and told them that staff will look at this and bring a report back to the board with a recommendation.

Mr. Ramsey asked that an item be added to the July agenda “Requesting that Staff Bring the Board a Budget at the March 2013 Executive Session and that the Final Budget be Approved in May 2013”.

Adjournment. Mrs. Crawford moved to adjourn. The motion was seconded by Mrs. Armstrong and vote on the motion to adjourn carried. The meeting adjourned at approximately 7:40 p.m.
July 16, 2012

The Caddo Parish School Board (CPSB) held a public hearing in its office at 1961 Midway, Shreveport, Louisiana at 4:30 p.m. on Monday, July 16, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present was Reginald Abrams, legal counsel. Mr. Ramsey led the prayer and Pledge of Allegiance.

President Riall welcomed those present to the public hearing for the Shreveport Charter Foundation’s proposed Type 1 Charter School for 2103-14 – Magnolia School of Excellence.

Dr. Mary Nash-Robinson announced that a copy of the recommendation report is available for anyone interested in a copy.

Dr. Phillip Rozeman expressed appreciation to the District leadership for working with the group on the application, and they believe that education is local and if they are going to do a charter school, it will be advantageous to work with the community. Dr. Rozeman shared a personal experience with his son and how by the end of the third grade, he was reading on the first grade level. At that time, they were able to move him to another school and within the first nine weeks the teacher moved him from first grade reading level to the third grade reading level and he continued to excel from that point. He noted that while he was able to move his child to another school, not every child has that opportunity, which he believes is one of the important things about charter schools. While there are great schools in Caddo Parish, Dr. Rozeman said the choices are limited; and Magnolia will be a choice school not dependent upon some of the same factors in the public system’s choice schools. He explained that the Magnolia School of Excellence has a diverse board of community leaders, and they are bringing in Charter Schools USA, a company that has a successful track record and financial stability. Dr. Rozeman asked the board to favorably consider this charter proposal as another opportunity for the children in Caddo Parish.

Earnest Lampkins, retiree of the Caddo Parish Public School System, shared his strong interest in education and his strong belief that every child can learn. Mr. Lampkins also shared his strong conviction that two important factors in any education system are a strong curriculum and effective teachers. These to him are priority because one teacher can make the difference in many students’ lives.

Zazell Dudley, graduate of Booker T. Washington High School, stated that she comes from a family of educators and has the utmost respect for the public school system. She explained that her interest in charter schools initiated from her involvement in the chamber of commerce and it is her desire to work with school systems and choices. Ms. Dudley said it is her belief that the charter and school district can work closely together and offer successful opportunities for students in Caddo Parish.

Jackie Lansdale, president of Red River United, shared with everyone a speech she wrote in 1996 on charter schools noting a comparison between what the people thought about charters then and what they think now relatively to teacher certification, exemptions and BESE policies, oversight of budget and financial reports, professional rights re: tenure, sabbatical leave, evaluations; discipline guidelines, at-risk students, etc.

Jon Glover, Caddo employee, referenced the mission statement of the Magnolia School of Excellence and the similarity to the Caddo Mission Statement. She asked the board if the Magnolia School of Excellence will do anything different from what Caddo schools are doing, and if not, why?
Scott Hughes, Alliance for Education, stated the specific discussion should be around the merits of the Magnolia School of Excellence application and the need to come to grips with the larger issues that involve all of Caddo Parish well beyond the facts and numbers of the Magnolia application. He said this is an opportunity to explore Caddo Parish embracing in a small way what seems to be the way of the future in terms of Louisiana and National education trends. He said regardless of the outcome of the various lawsuits, change and choice are two obvious factors that the Caddo Parish School Board and every other board in Louisiana will need to address in coming years. He stated his support of choice and commended Caddo Parish for being open to consider different governance models because this group did not have to come before the board for approval, but could have submitted their application directly to the State, and would likely have received approval. However, the willingness by the local board to consider exploring new models allows choice while maintaining some level of local control. He, along with representatives from the chamber of commerce, encouraged the board to move forward and support choice by approving this application.

Lillian Priest recognized Michael Jackson from Senator Mary Landrieu’s office present at the meeting.

Kimberly Williams, independent consultant working with local school boards, the state department and charter schools, clarified that Superintendent John White does not believe that certification warrants a teacher’s success in the classroom, but that a teacher is able to get the students to where they need to be. She also explained that charters are required to abide by the same discipline policy that the local school system has in place; and relative to assessments, charters are required to take the same, as well as more, assessments as the local school system; that Charter Schools USA is incorporating what the state is using as its model, and tenure is only saying what is the best option for the children in Caddo Parish.

Mr. Riall announced that this item will be on the July 17th CPSB meeting agenda and board members may ask their questions at that time.

There being no additional speakers, the meeting adjourned at approximately 5:04 p.m.
July 17, 2012

The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at 4:30 p.m. on Tuesday, July 17, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl Pierson, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. President Riall announced that Board member Crawley will not be in attendance at today’s meeting. Also present was Reginald Abrams, legal counsel. Mr. Ramsey led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JUNE 19, 2012 CPSB MEETING

Mrs. Bell moved, seconded by Ms. Priest, to approve the minutes of the June 19, 2012 CPSB meeting as submitted. Vote on the motion carried.

VISITORS

Phillip Rozeman shared with the board that on Monday at the public hearing he shared the vision of the Shreveport Charter Foundation, and today he will share the commitments to the Caddo Parish School System, including a school with grade level performance and achievement potential for all children, a commitment to the idea that all students can earn a high school diploma, an open enrollment charter school dedicated to this core commitment, and a plan based on accountability and empowerment in instruction to get there. Dr. Rozeman said they will bring a teaching staff of certified teachers, a competitive starting salary, a substantial budget with performance bonuses, and a focus on empowerment and classroom discipline. He said they will bring the first state of the art physical plant in Caddo Parish in almost three decades, a K-6 school with a 638 student capacity and will add a grade a year up to the 12th grade. They will also bring a diverse, independent board of community leaders that are committed to building another great school in Caddo Parish and be independent of any other organization, churches, etc., and not connected to the Alliance for Education, Chamber of Commerce, Community Foundation, et.al. He added that the group on the board each wears different hats and this is a separate initiative in building this charter school. Dr. Rozeman also announced they will bring the expertise of experienced national operators with a long track record of success by each, who are leaders in a Florida charter school movement, and who bring financial stability annually to every school in their network with 90% student and parent satisfaction in every school they are in. He said they are the only SACS accredited organization in the country for charter schools and this school will be SACS accredited on day one when it opens. He said he believes this is another opportunity for choice for all parents and students regardless of academics, athletics, or ability to pay. He closed by sharing an experience of attending a mission trip to Mexico and that you change the world one person at a time and the goal in this school will be to positively impact the 638 initial students and then the 200 plus that will be added each year.

Zazell Dudley addressed the board on the proposed charter school application and that they do not take the application process lightly. She said they have interviewed other charter schools across the state, and they are following due diligence so that they are appropriately suitable to provide the management needed, as is with Charter Schools USA that has been picked as of today. Ms. Dudley further explained that they will strive to be a contributor to a student’s quality education, as well as complimentary through exercising and leveraging School Choice. They will have open enrollment and believe that all children can learn. Teachers that will be selected will be certified and/or competent to do the task set before them.

Dr. Melba Williams, Shreveport Charter Foundation board of directors, expressed appreciation to the Board for its time and commitment to this process. She addressed her personal interest in educating youth; and with their pool of students coming from students that Caddo educates, it is
their desire to make certain there are more students to reach out to. She expressed the appreciation to the superintendent and staff for the time invested in this proposed project and thanked everyone for their work for Caddo Parish.

Jackie Lansdale, Red River United, asked the board if it is still the Caddo Parish School Board, because she is unsure if under Act 1 the board can still call itself a board. She referenced a teacher contract between teachers and the board that she does not remember the board approving; and asked if that is one of the responsibilities removed from the board, why it would state that it is a contract between the board and the employee. She said there are many ways to get in touch with her and she would have welcomed the opportunity to sit down and discuss it. Contract to her means both sides come together and if the board doesn’t believe teachers have a right to say anything, she differs from that. Mrs. Lansdale questioned how the board in all good conscience could ask a teacher to sign this contract. She asked that the board review the proposed contract and that a meeting be called between interested parties.

Celeste Powell, 12-month occupational therapist for Caddo Parish Schools, asked the board to reconsider a decision, when accepting and implementing Rahmberg’s salary proposal, that significantly lowered all the OT and PT’s salaries below market value. She said last year the board reversed that decision, which is very much appreciated; however, thinking that the board reinstated it for all the OTs, but it was not true for her since she is a 12-month employee. She said currently her salary, which is well below market value, will be frozen for the next eight years; and she would appreciate the board’s consideration of reinstating her salary as well.

Jon Glover, employee, stated that her comments do not reflect on any employee of the Caddo Parish School System, but she speaks as a parent, grandparent and concerned citizen of Caddo Parish. She said Caddo has 46 academically unacceptable schools, two alternative schools, children who are at-risk are housed at these schools, and she asked if anyone knows the ratio of student, black to white. Ms. Glover said the 46 AU schools are predominantly Black and the majority of the students attending the alternative schools are Black, and asked if the Board sees a pattern. She further stated that she gained this information from the Louisiana Department of Education from 2010-11 statistics; and it would appear from this that the only Caddo students who are at-risk are students of color and asked if it is because we are not adequately using resources sufficient to the counterparts whose schools are not academically unacceptable. Ms. Glover further stated that in Louisiana alone, there are 380,000 students labeled at-risk and of that number, 7,500 students’ academic needs are to be addressed via the voucher program. She asked what will happen to the additional 372,500 students, as Caddo has only been awarded a total of 88 vouchers and has a total of 46 AU schools and asked if everyone could see what she is talking about. With charter schools now espousing that they can do a job that our schools can no longer accomplish, and alternative schools turned over to an outside source, she questions if they can do something different than what has already been tried. As a proponent of public education, Ms. Glover said it plagues her soul to see the course that has been set for an inadequate education for Caddo’s students. She said it is not the statistics that will educate our students, but only those persons who truly have a love for education; and until all begin to work together, a deterioration of education as none has seen will be witnessed.

**ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JULY 17, 2012 CPSB MEETING**

Dr. Mary Nash-Robinson highlighted the items for the board’s consideration and the following items were recommended for the consent agenda: 7.02, 8.01-8.06, and 8.09-8.14.

Mrs. Bell moved, seconded by Ms. Priest, to approve the consent agenda as submitted. Vote on the motion carried unanimously and the following is a summary of the board’s action on consent agenda items.
Item No. 7

**Bids – Construction/Capital Projects.** The board approved the bid of Rimmer Electric, Inc., with a Base Bid for the sum total of $170,450 for Project 2013-403, “Queensborough Lighting Retrofit”; and to accept staff’s recommendation to terminate the contract with A. Williams Enterprise, Inc. for the construction of Green Oaks Paving Repair Phase II, Project 2013-212 for cause and that the project be awarded to Blount Brothers Construction, Inc., the next lowest bidder, with a Base Bid and Alternate 1 & 2 for a sum total of $190,603.00. A copy of the bid tabulation sheets are attached and made a part of the permanent record of this meeting.

Item No. 8

**Performance Evaluation Plan for 2012-13 and Job Descriptions for Classroom Teacher, Counselor and Librarian.** The board approved the Performance Evaluation Plan for 2012-13 and the job descriptions for classroom teacher, counselor and librarian as recommended by staff and submitted in the mailout. A copy of the 2012-13 Performance Evaluation Plan is attached and made a part of the permanent record of the July 17, 2012 CPSB meeting.

**Approval of Shared Services Agreement – Linwood Charter.** The board approved the shared services agreement between Shreveport Charter School, Inc. and the Caddo Parish School Board as submitted in the mailout.

**Approval of Shared Services Agreement – Linear Charter.** The board approved the shared services agreement between State of Louisiana Recovery School District and the Caddo Parish School Board as submitted in the mailout.

**Approval of Louisiana Compliance Questionnaire Resolution.** The board approved the Louisiana Compliance Questionnaire as recommended by staff and submitted in the mailout.

**Approval of Rahmberg’s Recommendations Regarding Position Assessments.** The board approved the Rahmberg, Stover & Associates’ recommendations regarding position assessments (K-8 administrators, Bi-lingual clerk, assistant foreman, mechanics; and senior computer tech, child nutrition programs) as submitted in the mailout.

**Resolution Ratifying the School Board’s Sale of Hosston and Hendrix Schools.** The board adopted the proposed resolution ratifying the acts of Tim Graham in signing the deeds of the Hendrix and Hosston properties to the respective buyers as submitted in the mailout. A copy of the resolution is attached and made a part of the permanent record of the CPSB July 17, 2012 meeting.

**Approval of Revised Oil, Gas, Mineral Lease Resolution, re: Kirby Oil.** The board approved the revised Oil, Gas, Mineral Lease Resolution, re: Kirby Oil, as recommended by legal counsel and submitted in the mailout. A copy of the revised resolution is attached and made a part of the permanent record of the July 17, 2012 CPSB meeting.

**Approval of OGM Lease Resolution, re: Tacoma Energy.** The board approved the proposed resolution requesting the Louisiana State Mineral Board to seek proposals, etc. for Tacoma Energy Corporation’s lease request, and a copy is attached and made a part of the permanent file.

**Approval of Cooperative Agreement between CPSB and Shreveport Job Corps Center.** The board approved the Cooperative Agreement between the CPSB and the Shreveport Job Corps Center as recommended by staff and submitted in the mailout.
**Outside Use of Bethune School.** The board approved the request and hold harmless agreement from Free Spirit Church for long-term usage (August 5, 2012 through October 28, 2012) of the auditorium and one classroom at Bethune Math Science Academy.

**Recommendation for Approval of Land Donation.** The board approved the acceptance of the donation of land located at the corner of Cody and Lister to the Alexander Learning Center.

**Permission to Bid Lease Agreement for Vacant Property located at 2805 Missouri Avenue.** The board approved bidding out for lease the CPSB property located at 2805 Missouri Avenue.

**SALARY SCHEDULE FOR OCCUPATIONAL THERAPISTS**

Mr. Rachal moved, seconded by Mrs. Crawford, for administration to look at the one employee (occupational therapist) and bring back possible options for the board’s consideration. Mr. Rachal withdrew this motion, and Mrs. Crawford withdrew the second. Mr. Rachal moved, seconded by Mrs. Crawford, that this be sent back to Rahmberg for review and a recommendation brought back to the board in August. Vote on the motion carried unanimously.

**REQUEST THAT STAFF BRING THE BOARD A BUDGET AT THE MARCH 2013 EXECUTIVE SESSION AND THAT THE FINAL BUDGET BE APPROVED IN MAY 2013**

Mr. Ramsey moved, seconded by Mrs. Armstrong, that staff bring the board a budget at the March 2013 executive session and that the final budget be approved in May 2013. Mr. Ramsey stated that the process followed this past year began in February; and based on staff’s comments, March appears to allow for more time and information needed and still allow ample time for the board to meet, discuss, ask questions and be prepared to vote on a final budget in May, which provides the District a direction for the next school year. Mr. Rachal expressed appreciation to Mr. Ramsey for bringing forth this motion, and asked if in March the board could receive the full budget that includes everything. Mr. Pierson asked for clarification of the motion and will this alleviate the budget work sessions, and Mr. Riall verified that staff will bring the proposed budget in March and the president of the board at that time will set budget work sessions between March and May for budget discussions. Vote on the motion carried unanimously.

**SHREVEPORT CHARTER FOUNDATION’S PROPOSED TYPE 1 CHARTER SCHOOL FOR 2013-2014, MAGNOLIA SCHOOL OF EXCELLENCE**

Jackie Lansdale, president of Red River United, referenced a story shared at the public hearing for the Magnolia School of Excellence on Monday regarding a student struggling in school and the parents’ opportunity for choices that helped make this child successful. She also shared with the board that her youngest son was in Kindergarten in 1996 and she was told he may need to be held back; but it never occurred to her to blame the teacher for his struggles; but at that time, as the parent, she did what needed to be done to help him succeed. Mrs. Lansdale said it is not a blame thing, but it is a time to ask what needs to be done. She also stated that she does not want anyone to think she is anti-charter schools, but she believes we need to look at what works. Noting this group’s intention to build a new school, she questions where was this group when the board was discussing building two new schools, one in Southeast Shreveport and one in Greenwood? She also said everyone knows that having good quality teachers in the classroom works and one way that is measured is by certification which gives a degree of assurance that this person has met some credentials and standards. She asked that a commitment be made to universal pre-kindergarten and to getting the children the help they need early on, paying our teachers and getting them in a program such as TAP, and focus on things that we believe will work. She also reminded the board that the current two charter schools are not working, and that is probably because the real issues plaguing those schools (socio economics) were never dealt
with. If a child cannot read in middle school, a child will not be successful; and again reminded the board that there is nothing irretrievably broken in public education that, if we put the money and time on what is important to us, can’t be fixed.

Keith Anton, business owner, shared that he is a young business owner that is very vested in the local economy. Mr. Anton said he is hiring younger and younger employees; and as he does, he is finding that many of them are in need of a lot of training. He stated that he finds it exciting with the charter schools that there is opportunity to educate the students with new and innovative ways. Mr. Anton also explained that he also become interested in charters when he reviewed the data from the Louisiana Department of Education web site and stated his support of the movement to charters. He also clarified previous statements regarding vouchers and that vouchers are not required for charter schools and anyone can attend these schools. Mr. Anton also stated his lack of understanding at being faulted for not bringing this proposal sooner, because they are here now and trying to make change. He also noted that regarding certification, he believes qualified teachers are needed and he doesn’t believe a school can run effectively and pass the stringent charter school requirements without hiring qualified teachers. Mr. Anton stated his excitement to see the new opportunities that can open up as a result of implementing charters.

Frederic Washington said there is not a question of whether or not the Magnolia School of Excellence will exist, but the question is who will be the governing agency to authorize a charter, the Caddo Parish School Board or the Louisiana Department of Education? He noted all the various forms of education reform and that when one listens to all the input, one must reach a point that the board agrees to embrace this concept and that it will be better if the Caddo School Board has a hand in it and works with the stakeholders to have some sort of influence and to make sure that they are qualified and certified. He encouraged the board to become more receptive to these changes and beat the State Department of Education at its own game. He added the largest districts in Louisiana have already reached out into the community to create charters; and he believes it is smart to not create any dissension by saying we will not accept charters as this is not the first or last. He encouraged the board to embrace this and do it in a way that the board will have some autonomy in it.

Ms. Priest moved, seconded by Mr. Ramsey, that the CPSB authorize Shreveport Charter Foundation, Inc.’s formation of Type I charter school, Magnolia School of Excellence in accordance with its application and authorize the superintendent and the president to execute any documents necessary in order to effectuate the formation of the school. Ms. Priest shared that she has reviewed the proposal and also visited the Orleans Public School District, along with an 11-member evaluation team made up of representation from all areas within the Caddo Public School System. She said she believes in looking at the various components, she believes it is in the Caddo Parish School Board’s best interest to move forward even though we may not agree with all components of the reform. Ms. Priest stated she prefers for the district to be in a partnership role rather than an adversarial role. She believes in certification and that students should be tested at the same level as any student in the public school system, and that by accepting this type of charter, and as the governing authority, it gives us a partnership arrangement with Caddo receiving a 2% management fee as well as the possibility of negotiating on possible support services if they wish. Mr. Ramsey echoed Ms. Priest’s comments and anyone not realizing this change was coming after completion of the last Legislative Session must have had their head in the sand because legislation incorporated charter schools which will be a part of public education moving forward. Mr. Ramsey said he has been an advocate of this for a long time and if an appropriate partner comes forward in the application process that can be a viable partner, it is something he believes we should be involved in. Per Mr. Ramsey’s request, Mr. Abrams shared with the board that during his review of recent legislation, he pointed out the piece that stated BESE will not be authorizing schools as Type II charters but will create an entity that will be a 1B authorizer to come in and authorize such a charter as
Magnolia School of Excellence to compete against the local school system. Mr. Abrams stated that the pros would include it is a Caddo Parish School and they will be Caddo Parish students, funding comes to Caddo Parish, disbursements come from Caddo Parish, which means the Caddo District controls the flow of money in and out. He also stated that they will be required to submit reports to the Caddo Parish School Board, and if they are not in compliance by doing so, they will have to respond to the Caddo Parish School Board. The 2% administrative fee means that the local school district will receive 2% of the funds coming in to make sure everything is being followed. Mr. Abrams also stated that it is not the same as the Type 5 charter (RSD). He also explained that with this contract, disciplined students cannot be bumped back into their regular school, but the money will follow the child and they will be sent to one of the alternative schools being run by Ombudsman with Caddo controlling the money that follows the student. In a Type II charter, Mr. Abrams explained that the RSD gets the reports, they can cherry pick the students and Caddo will not be clear if they recruit students from around the parish or not. Also, if the students are in a Type II, BESE-run school, we will not have access to this information. Another avenue that as board counsel he is concerned about is in a recent discussion with the State Department of Education staff learned that the schools in which Caddo is under an MOU (Woodlawn, Fair Park, BTW and Green Oaks) were put out for bid for charter operators for these schools. In sharing their concern with the State Superintendent, he told them that he could go to BESE with old MOUs and have them removed (cancelled) which in essence said to Caddo that either Caddo fixes these schools or the State will take them and fix them. To him, Mr. Abrams said this will not be the last discussion the Board has on charters and he believes the board’s comments and how it deals with this reform will reflect on the future of Caddo Parish. Mr. Abrams also reminded the board members that in accordance with law, this group did not have to present their application to the local board; however, he believes rather than going directly to BESE, they are interested in working with the local board.

Mr. Ramsey encouraged board members as they vote tonight to remember that how the Caddo Board votes on this issue will send a strong message to the State Superintendent and can have a long-reaching impact. He also stated that if the local board turns down this application, this group will present it to BESE at its next meeting, so he encouraged the board to vote yes on this motion.

Mr. Hooks stated that while he is not a proponent of charter schools, he questions why the board is prolonging the agony. He said charter schools are here, and they are all over the United States, and Caddo has an opportunity to partner with this local group. Mr. Abrams pointed out in the contract that the CPSB has oversight and monitoring of everything. Mr. Hooks stated that since this group has presented the application, he would like to hear from them. Ms. Williams stated that they are interested in being a partner and is why they presented their application for a Type I charter which means they will answer to the CPSB and held accountable to the CPSB. Mr. Hooks stated he does not see this group as the board’s adversary, but he sees them as someone that has come to help and he sincerely hopes this group sticks to its word. Mr. Hooks referenced the Louisiana School Boards Association conference where he heard that once the State takes a school, we don’t get the school back; and he remembers also being told that the District should get a private organization to buy into the Caddo Program and hopefully save the District’s school(s). Mr. Hooks asked if the board doesn’t accept this charter application, will the State come in and take over the small schools? Mr. Abrams responded that is correct and this is a separate school; and at the present time, Caddo has four schools under MOUs and the State has put on their website that they are looking for operators to begin in the 2013-14 school year. He further stated his belief the State is planning to make some changes and it is only a matter of time before they attempt to take over some schools or require that the District do something drastic to save them, because the State Superintendent said they have been like this for too long, MOUS are the way of the past; and they want to see results. Mr. Hooks said he has been telling the board and the public for two years that charter schools are coming and they are now here. If the District has a voice, he believes we need to jump on this.
Mrs. Bell stated that she has listened, but at this time is still unsure what this charter school will offer. She referenced comments in the paper that this charter has great choices but noted that Caddo also has great choices for its students. She asked Mr. Abrams what will this charter offer that is different from what is currently offered in Caddo Parish? Dr. Rozeman said he believes there are some great schools in Caddo Parish and they are looking to build another great school. Regarding choices, he believes a lot of choices in Caddo Parish are based on academic potential and there are a lot of magnet schools. He explained that this proposed school will be an open enrollment charter school and will not have a test to determine whether or not one can get in the school. It will be a lottery and, by law, will have the same demographics as exist in Caddo Parish; it will be at least 2/3 minority and 2/3 free and reduced lunch; so it is an offering to those that he believes have not had the ability to have a choice. Dr. Rozeman further stated he believes it will be a place that parents and students can go if they are unhappy with the school they are in because of an academic issue, bullying, etc. He said it is also different in that there is no test to get in, one does not have to be athletic to get in, one does not have to have a lot of money as in some private schools and it is a choice for those who have had less choice than others. Mrs. Bell said she believes Caddo has schools that one does not have to be athletic to get in and asked if she understands correctly that choice does not mean it will be another academic magnet charter, and Dr. Rozeman confirmed that is correct.

Mrs. Bell stated that in reading the application she did not see one word that addressed special needs and autistic students and asked what is this charter school’s plan for addressing these needs? Dr. Rozeman said it is a lottery, but by law, special needs children who enter the doors of the school will be addressed and with this charter being a partnership, they can come to the local District leadership regarding ways to adequately meet the needs of the special needs students in this school and work out agreements for addressing those needs. Mrs. Bell said she still believes this group is asking for something for their school that Caddo already has in place; and she is looking for something different that this school will offer students. She also asked how discipline and truancy problems will be addressed, i.e. when a student is expelled, where will that student go? Shakona Fowler with Charter School USA explained that the discipline procedures will be addressed the same as Caddo Parish Public Schools enforce. She said the difference in their school is in the curriculum which is outlined in the application. It’s a research-based curriculum that has been in place since 1997 when their first school was opened. She said the curriculum is a guaranteed and viable one and the students and teachers have the opportunity to teach and learn in order to progress to the next grade and to be successful in school. Ms. Fowler also explained that part of what makes the curriculum different is it is very data driven and a lot of operators want to say theirs is data driven; however, the way their curriculum plays out in their schools, assessments and re-assessments indicate where students are ahead, their shortcomings, and teachers can use the data to tailor a student’s instruction, lessons, homework, etc. Mrs. Bell said she is aware of this; however, she still wants to know what will happen when this school expels a student. Ms. Fowler assured the board that they do not want to their Student Code of Conduct to differ from what Caddo Parish is currently doing. Mrs. Bell clarified that sometimes the charters expel students and the students return to the public school system. Mr. Riall reminded the board members that this time is designated for questions and answers about the item and not dialogue and dissertation. Mrs. Bell asked, since this group asked Caddo to partner with them, and the paper stated today that the charter schools do not have to abide by some of the rules that the public schools must abide by, that someone clarify the contract and if it will be a problem that the Caddo School system monitors the charter school based on the same criteria/rules that the State does the local school system? Dr. Rozeman explained that the “theory of action” of this charter school combines three things and is much like TAP, with the real concentration on curriculum that has worked well in other places and when you add innovative individual learning plans, they believe they are building something that will be excellence for this area. Mrs. Bell asked about the recommendation from ESP (Education Service Provider) and their concerns relative to the lack of detail in the proposal, i.e.
community and character promotion; project-based learning; the extracurricular activities; high school planning for career and college instruction; lack of a clear, true picture of a day in the life of a teacher and student; makeup and strength of the Board of Trustees; school site with no explanation of the funding for the facility; and the budget as presented. Mrs. Bell expressed her concern that the board is being asked to vote on something that concerns have been expressed and answers have not been given. Ms. Fowler responded that she was in the interview with the Naxis staff and their response to the questions asked was that they would get a series of follow-up questions and have an opportunity to respond to them. At that time they did not articulate any questions to the group to be able to provide a formal response to them. Being a new start-up, they cannot anticipate every need that may come through the doors of the school, but they did respond to the group that they looked at the benchmarks at other schools and how to address these needs as they became aware of them. Mrs. Bell said she believes the board needs to read this and noted her passion for the needs a student has relative to autism; and she is bothered that this group had concerns and questions that have yet to be answered. Dr. Rozeman said it is their intent to provide answers to every question and to work through issues. With the opening a year away, these things will be provided and worked through to be prepared. Ms. Fowler referenced A6 in the binder provided on the special needs of students and processes/procedures to be followed in addressing these students’ needs. Mrs. Bell stated the concern over the statement made at the public hearing that Superintendent White said they did not have to hire certified teachers; and she believes this is a conflict. Mr. Abrams said that is not required by the law. Dr. Rozeman responded that it is their intent to hire certified teachers as is Caddo’s intent. Mrs. Bell said she only asks for a charter that will do something different than what Caddo is presently doing. She also asked about the effort to build four new schools in Caddo Parish and the answer was “no”. She asked where will the new facility be built, and can it be built where they want? Ms. Fowler responded they are still looking at possible sites and do have a set of parameters. Mrs. Bell asked about the reference in Type A that specifies a new facility must be built; however, the contract states if this is not possible, a current site and building might be available.

Mr. Rachal shared his concerns about the budget shortage of $3-$6 million each year and asked when does the new charter school begin being rated from the State? Since this will be a Caddo School, he asked if the rating will come through the local school district? Also, do local revenues follow the students? He asked if, with the contracts between the charter and the Caddo Parish School Board, a Charter Type 1, applied for and approved at the State level, can still go through the local board if the local board did not approve it? He asked if Charter Schools can be built and run that are neighborhood schools that are not takeover schools, and can we advertise for charter schools to take over the AU schools previously mentioned? If the State can advertise and get out of MOUs, can Caddo advertise and get out of MOUs?

Mrs. Crawford shared that eight years ago she listened to someone address the destruction of public schools in this country and she never thought it would happen. After she was elected to the school board, she began to see changes; but when her children were in public schools, she was actively involved in the PTA and they worked hard to keep vouchers and charter schools away. While she understands vouchers and charters are here, she stated that this doesn’t mean she likes them or that she supports them; and she shared with the board that her reasons are the same as the reasons she gave years ago on a Federal level. She said it is very hard for her to vote the way she will today because she is not convinced that we have the answers. In reading the information, she said it was just like every other document/report that has been presented to the board, i.e. Best Practices, language in the report, people they will hire, free and reduced lunch percentages, which is mimicking the Caddo Parish schools. She said she is trying to understand the difference in the proposed charter and what Caddo is currently doing, and she is not finding that difference; and she hopes to receive answers to some of these questions if this group receives Caddo’s full support. Mrs. Crawford stated her 100% support for public schools and today’s vote is a difficult one for her.
Miss Green said she is excited about trying something different and the partnership. She said she feels the board members did a great job in presenting the proposed school; however, her problem is she has already shared with her district how opposed she is to charter schools.

Mr. Pierson shared he has a different take on this proposal and reminded the board and staff that there is still work to do. He stated he supports the charter; however that is not going to solve the issues in Caddo Parish, and he believes the children attending the charter will be those children who probably need less help than those who will remain in the public schools. Mr. Pierson said we still have a reputation to save, and we still will be looked down upon because schools do not take exams and when you talk about a School Performance Score, it’s really a Student Performance Score. If the students are not performing and the lower performing students remain in the public schools, we will still be considered as not doing well with these students. Mr. Pierson said he believes this charter school will do well; however, we can’t forget that there is work to do and we need to make that our focus.

When speaking with members of the charter board, Ms. Trammel shared her concern relative to board tenure and if the board will continue to make sure the school is set up or will this board be in place throughout the process of building the school and opening it? Ms. Fowler explained that the board that made the presentation will be the board that will be in place when the school opens and will make sure that everything is implemented correctly and as proposed. There presently are no tenure limits on the board members. Ms. Trammel also asked if there will be policies written to govern both boards (the charter board and the Caddo Parish School Board)? Ms. Fowler responded that the governing board of the charter school will abide by the regulations put into place by the Caddo Parish School Board. Ms. Trammel referenced the quote in the paper that the charter would not be governed by the same set of rules as the public schools. Ms. Fowler explained that the charter from Caddo Parish states they must abide by all the rules and regulations of the contract between the School Board and the governing board of the Magnolia School of Excellence. Ms. Trammel said while they have only seen a draft of the contract, she believes what they have seen is close enough to grasp and give an o.k. Ms. Fowler added that at this point there are still some “what ifs” and when the contract is completed, their bottom line is to be compliant. Ms. Trammel noted the apparent confusion regarding what will be special or different about this charter, and she sees that this charter is coming in under the umbrella of the public school system, and because of that, she too is questioning what she can expect to see different in this charter school. Ms. Fowler stated that what is different is what’s different with their educational model and came after a site visit to Lake Charles to observe and visit with the staff and students. Also, what is different is they believe, and have seen in their other 47 schools, that the curriculum they use has been successful and helps students achieve academically. Ms. Trammel shared that she believes there should be a parallel between the two, and Ms. Fowler responded that is correct and they do not want their discipline procedures to be different than Caddo’s; and they do believe that this application offers something above and beyond what the local school system offers.

Mrs. Armstrong said she is a public school person; however, she does feel that the time has come to be re-energized and accepting of other strategies that can be used in these new ventures. She said we don’t teach the same way she taught when she began her teaching career and the opportunities to be creative teachers are not the same. Mrs. Armstrong stated she believes this entity seems to allow for more opportunities for more creative teaching than what we are allowed to teach in public schools today across the State. She added she believes the State is hog-tying our teachers with all of the manifestations that are supposed to improve education, but the jury is still out. Mrs. Armstrong stated her support for this charter and that she hopes it will live up to the expectations to regenerate in its performance. With this being a difficult vote for many of the board members, she said she believes it is a new day and they not only need to support it, but to be enthusiastic about its success, because if it is successful, so will the students be successful.
Mr. Riall said the only perception of charter schools that the board has is when State Superintendent Paul Pastorek shared with the board when asked for more time to turn around Caddo schools that Caddo had had all the time it needed and he was taking over our schools. He stated that he believes this group of concerned citizens want to assist and help us educate Caddo’s children, and will bring in a new Caddo school to do this. Mr. Riall noted this group is not a foe, but a partner; and while he realizes the District is in uncharted territory, he believes we need to step out and support this.

Mr. Hooks called for the question, seconded by Ms. Priest. Vote on the motion to end debate carried unanimously.

Vote on the main motion carried with Board members Green and Bell opposed, and Board members Riall, Pierson, Hooks, Trammel, Priest, Crawford, Ramsey and Armstrong supporting the motion.

ANNOUNCEMENTS AND REQUESTS

Ms. Priest reminded the board members that at their stations is information for board members who have not completed their Ethics Training. This has been scheduled for August 21, 2012 at 3:00 p.m. in the IT training room, prior to the Board’s regular meeting at 4:30 p.m.

Mr. Ramsey asked that an item be added to the agenda for the Superintendent to provide an update on how the July 15th SunGard conversion went.

Mrs. Armstrong asked for an update on the possibility of the Caddo Parish School Board establishing charter schools.

Mrs. Armstrong also asked that staff look at rekeying Keithville School due to the age and wear and tear on these.

Mr. Hooks expressed appreciation to everyone, on behalf of he and his wife, for the many expressions of sympathy during the passing of his mother-in-law.

Mrs. Bell announced that Tabatha Taylor’s child, as a result of the iPads placed in student’s hands, was able to respond to his mother’s questions after not being able to for 17 years.

Ms. Trammel read a card and note from her family in appreciation for the many kind words and expressions during the passing of her Dad.

Mrs. Crawford asked that the superintendent schedule a meeting with the teacher organizations to discuss the teacher contract.

Dr. Robinson welcomed the Magnolia School of Excellence to the Caddo family. She also announced that on Wednesday, July 18th at 3:30 p.m., Southwood High School, approximately 300 retirees will be recognized at a reception. Dr. Robinson also announced that State Superintendent John White will be guest of the Caddo Parish School Board on July 24th.

Adjournment. Miss Green moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:47 p.m.
July 24, 2012

The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at 4:30 p.m. on Tuesday, July 24, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Charlotte Crawley, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Superintendent Dr. Gerald D. Dawkins and Legal Counsel Reginald Abrams were also present. Ms. Priest led the prayer and Pledge of Allegiance.

President Riall welcomed everyone to the meeting to hear from State Superintendent John White on Louisiana Believes. Superintendent Dawkins explained that because of a special called BESE meeting in Baton Rouge, Superintendent White will not arrive in Shreveport until approximately 5:30. President Riall called a recess until Superintendent White arrives, and the board recessed at approximately 4:39 p.m.

The board reconvened in open session at approximately 5:37 p.m.

State Superintendent John White – Louisiana Believes. Superintendent Dawkins again announced that Superintendent White is in route to Shreveport; however, his staff is prepared to begin the presentation until his arrival.

Erin Bendily, Deputy Superintendent for Policy and External Affairs; and Joan Hunt, executive counsel for the Department of Education, who are thoroughly familiar with the presentation began with Ms. Bendily sharing initiatives underway in the State Department of Education, many which are in response to the recent Legislative Session. With the time being one of a lot of change in education, Ms. Bendily said their staff is available to assist school districts with these changes.

Ms. Bendily explained that Louisiana Believes stems from their belief that every child can learn; and legislation implemented this past Legislative Session will highly impact education, i.e. Act 1 is one of those legislative pieces. She explained that Act 1 is focused on empowering teachers and school leaders to be able to make decisions easily in response to needs on the ground and to make decisions based on the data we have on other successes. Ms. Bendily also explained Act 2’s focus is around empowering families by providing them additional options through public schools, charter schools, scholarship programs, etc. She also added that the third major education piece is early childhood education and the mandate to bring all efforts for early childhood education together to make certain all children are kindergarten ready and are getting what they need socially, emotionally and academically.

Ms. Bendily further highlighted Act 1 which requires change to some school board policies, hiring and personnel decisions, timelines for making everyone aware of new requirements, and making sure everyone is in compliance with the new law. She stated that Act 1 is the legislation that links teacher performance and student outcome (evidence of student achievement) through multiple assessments and personnel decisions, i.e. tenure, dismissal, compensation, and seniority cannot be used as the majority factor that drives decisions. She explained that one requirement in this law has to do with the district letter grade of C, D or F, and beginning July 1, 2012 the requirement to have specific performance targets. Local districts must also present a copy of the local Superintendent’s contract to the State Department and when contracts come up for renewal, it’s important that they fully understand what these specific targets mean. Templates with model language that all districts can use are available to assist districts in developing this. They also must, by September 1st, adopt a reduction in force policy that is based upon demand on performance and effectiveness. By January 1st, the law requires that salary schedules be revised for teachers and school employees based on the area of effectiveness, demand by subject area, certification and experience, and only refers to salaries and not stipends or other performance
based incentives. She also announced that networks have been developed within the agency to assist districts in implementing the evaluation system as well as in the transition to the Common Core State Standards.

Ms. Bendily further explained that the last part of Act 1 is the deadline for local school districts to place the hiring and placement decisions of teachers and other school personnel to the principal and superintendent. Along with school principals, school personnel employment decisions must be based on performance, effectiveness, and qualifications, and eliminating seniority as the primary criteria in making all personnel decisions.

Superintendent Dawkins welcomed State Superintendent John White to Caddo and announced that he and Mr. Abrams met with Superintendent White and Superintendent Dobard from the Recovery School District and agreed to wait until all test scores are released to determine how to address the four lowest performing high schools – Green Oaks, Fair Park, Woodlawn and Booker T. Washington. They will meet again in late summer or early fall to come up with a solution.

John White, State Superintendent of Education, apologized for being late and stated that it is an exciting time in education in the state and a time we can make great things happen for the children in Louisiana. He stated that in sharing Louisiana Believes with the school districts, he hopes everyone senses the feeling of togetherness; because they believe if the State and districts do not work together, the plan nor the schools will be successful.

He highlighted the State’s plan, Louisiana Believes, and his appreciation that the local district has complied with the first component of the superintendent submitting his contract. The second piece, reduction in force policy, is due in approximately 6 weeks. Mr. White stated that with Caddo being one of the largest districts in the state, he understands everyone will not be in total agreement on everything; however, he believes if we maintain dialogue, we can be successful.

In everyone talking about improving education, Mr. White pointed out that in looking at the data, there are groups that are improving and showing progress, with Louisiana being a leader in education reform over the past 10 years, i.e. accountability before President George W. Bush and No Child Left Behind, comprehensive curriculum, Choice (La4), charter schools, Recovery School District, etc. While we have made great progress, he believes we can also say we have a long way to go. Statistics reflective of students entering high school and the percentages and numbers of those that will graduate, those that will go to college, etc. were also shared with everyone. Since we have a technical work force, it will be necessary for 50% (minimum) to gain education beyond high school and it will be a challenge to prepare them for these jobs. Mr. White said Louisiana Believes basically states it is time to “turn the page” and the best way to get there is to put faith in the hands of those closest to the children – educators and parents. If we believe the children can achieve a college education or career, then we must put our trust in those that love and care for them and know them; and that is their parents and their teachers who see them everyday.

The three areas Mr. White proceeded to cover were Belief in Teachers, Belief in Students and Belief in Parents with the goal to start with early childhood education, because at this time 52% of the students are entering Kindergarten ready and 60% of the students are ready for the next step beyond high school. Mr. White explained that this plan was developed through meetings all across the state with districts, schools, and communities; and it began with the belief in children. With early childhood centers in place all across the state getting 80-90% of the children ready for Kindergarten, there is still 10-20% of the children that are not ready for Kindergarten; and he doesn’t believe it is right that some children do not have the opportunity to be a part of an early childhood education program. He also shared his excitement over the implementation of the new Common Core and Compass systems and the changes the boards will see over time relative to assessments and the 24 states that will be taking the same assessment by 2014-15. Also
important in upcoming changes is the accountability system that supports the Common Core curriculum and creates incentives to challenge the students.

In looking at the Belief in the Power of the Family, Mr. White said he understands the differences in opinions in this area; however, he believes parents should have the right to choose, and hopefully they will work to help make these schools better. He commended the district, as well as those community partners involved in public education, for the commitment to work together with the Recovery School District on how struggling schools can be turned around. Also, relative to accountability, he doesn’t care whether or not a child attends a traditional public school, a charter public, a Type 1, or Type 5 charter, as long as we are doing what is right by the child and that all children are being assessed on a level playing field. Mr. White also stated there is a concern that too many of our children are being left behind and it’s not just students that are not receiving a diploma, but students receiving a diploma with no direction once they leave high school. He stressed the importance of developing skills beyond high school as today’s economy is not kind to those who do not have needed skills. Thus they are proposing to have a career education program in the state and an apprenticeship type model where particular industries can prepare its future employees.

Finally, Mr. White said if we are going to prepare students for college while they are still in high school, then we need to truly do just that. He said our students are as good as students in any other state, and the State’s plan is to expand advanced placement and began this summer by training 3,300 teachers across the state in advanced placement; and the State will pay for any test administered in the district for any low-income child or new advanced placement courses.

Mr. White shared that at the State Department there is an office for everything, and it is a problem that everyone is always needing to call the State Department for permission to proceed in any area, when all they need to know is what to do for the 25 students in their classroom. He said the network teams and staff specialists are in place to help districts and teachers and they will be flexible with local district teams to help observe teachers, to assess student learning, and to collaborate. He also added that it is time now to change the rules that dictate a teacher teaching a certain thing on a certain day and that 90% of instruction must be approved by eight people in Baton Rouge. He said this will not cut it anymore; and the rules have changed and administrators are now free to choose the content they desire to teach. Finally, Mr. White stated if superintendents and principals do not want accountability for who is in the classroom and how the dollars are being spent, then he believes there is a bigger problem to be addressed. School based budgets will be expanded across the state and the principals and superintendent will be empowered to choose the right people to be in the schools and the classrooms.

In closing, Mr. White said he hopes, that as controversial as it is, that the board members and superintendent agree to what’s before us and move forward and seize the opportunity to do something to help all of Louisiana’s students.

Mrs. Armstrong asked if the private and parochial schools will be assigned a letter grade as the public schools? Mr. White said they will not, but they will be assigned a scholarship co-hort, which is a mirror of the school performance score assigned to the schools. Mrs. Armstrong asked if only students that receive vouchers will be tested or will the entire student population be tested? Mr. White said only those students who receive the scholarship or publicly funded which is a Legislative decision. He said the rationale is that it is public funds and the public should demand accountability for the outcome. He also stated that the average tuition is approximately $8,500 and the scholarship is approximately $5,300 which is a total of $18 million in savings.

Mrs. Bell asked if a student receives a voucher and attends a private or parochial school, and the student is expelled, does the money come back to the district? Mr. White explained that with the MFP money and charter, there are two counts – one on October 1 and a second count on
February 1. With the scholarship option, there are four counts – October 1 and February 1 (where they keep the money); however on the December 1 count, the money will return to the home school. Mrs. Bell referenced comments on the testing and Mr. White explained that when he presented that the test results would be compared to 24 other states, he literally meant that because 24 states, by the fall of 2014, will be taking the same test at the same time. He further stated they are excited about this because for the first time it will give the State a really good benchmark on how well we are doing; and it will give the teacher information across the year as to how well a student is doing. Mrs. Bell asked if this will replace the test currently in place and Mr. White responded that it will replace the test in Grades 3-8. Mrs. Bell asked about the due process for teachers when the principal feels that a teacher is not adequate for the classroom, and will this teacher be able to defend themselves. Mr. White said absolutely and there is a provision stating that the school board must have an arbitration hearing; and as a board, the teacher has the right to have an arbitration process. This is different with a tenure due process. Mrs. Bell asked if a teacher will have an opportunity to meet and discuss her side? Mr. White responded yes and after that there will be an improvement plan at the first ineffective evaluation. Mrs. Bell asked if she understands the board will not have anything to do with this process? Legal Counsel for the State explained that a teacher with an ineffective rating has the right to grieve that rating and if they are a probationary teacher they can actually be dismissed at that point; however, a tenured teacher has an opportunity to respond to the rating within seven days and appear before a panel comprised of the superintendent’s designee, the principal’s designee, and the teacher’s designee. She also explained that in no way can a designee be an immediate family member or employee of the school system by which the employee is employed.

Ms. Priest asked for clarification of the response that only the students with scholarships will be tested. Mr. White said that is correct and it would not be legal under the law to make them do it. Mr. White also stated that of all the students that applied for scholarships in Caddo Parish, only 18% were granted scholarships, and it is relatively a small number of students in Caddo Parish that are being publicly funded. Ms. Priest asked if the private and parochial schools will be held to the same standards? Mr. White responded that the plan approved by BESE today actually puts them at a higher level. If a school program fails, Mr. White also reported that the school will not be allowed to take any students the following year. Ms. Priest also asked about Advanced Placement and Dual Enrollment, and Mr. White’s statement that the state would pay for these for students. Mr. White said in advanced placement, teacher training should be charged to the state; and they are doing this for low-income schools. Relative to the Reduction in Force policy, Ms. Priest asked Mr. White about the September 1 deadline to revise this policy and if the district must now base the RIF on an area that is more subjective. Mr. White said this is new to the state for the first year, and if it should happen, it will be done by licensed areas in order of the ratings of teachers. He added that at this time, it has not been adopted by the board but it is a law of the parameters of the board’s policy.

Mrs. Crawley shared with the board a recent study, a 20-year research program, out of the University of Arizona where they rank the states and those with the most rigorous testing and their successes according to No Child Left Behind and Louisiana still ranks among the top. She also noted another list where a test was given that truly rated a child’s achievement and ability to think and the states that did High States Testing actually scored the lowest. This study also ran mostly along states with high minorities and those with punitive action. She also asked about the Common Core coming as a brain child from a Governors’ conference, and the fact that Governors are not educators but politicians. Also, it states that Common Core is less rigorous and that they follow all the tests and how a student grows and improves in the test scores to say how much they have improved, but in reality they are doing the opposite. She asked Mr. White if he is familiar with this study and if these 24 states are the top states; and Mr. White said he is familiar with similar studies. Mrs. Crawley also noted that the person who wrote this and initially signed onto Common Core, did not sign onto it in the end, and she asked if this is more a ploy to lower the standards so they are testing even more? She also asked why can’t we come up
with a test that is truly approved. Mr. White said he truly believes the students will do better, but he also thinks there is a more creditable way of measuring the test. Mr. White explained that 46 states have adopted the Common Core and 24 states have come together to design tests that will meet the standards, and he believes the Common Core will make the teacher’s life and job easier. As evidenced, he shared that Massachusetts is the only state where the performance on a national assessment for education progress compares to the top countries around the world; and is why they got with this group to expand on it; and he believes the very first testing rate will be very humbling when compared across the country. Mrs. Crawley asked about the value added model versus the TAP program, and referenced a district program that has been highly successful, asking why all districts were not encouraged to check this program and what could the board do to participate in the program; because when she approached staff about participating in the TAP Program, she was told we could not. Mr. White said a debt of gratitude is owed to DeSoto Parish for showing all other states what they need to do about this; but as good as TAP is and as good as DeSoto Parish is, he would not say that it is rocket science; and what Caddo will be doing next year relative to observing teachers, providing feedback, using data and providing incentives in essence is what TAP is doing.

Mr. Rachal asked for clarification and if the average MFP funding in a given parish is $8,500 and Mr. White stated it is and the average scholarship is $5,500. Mr. Rachal said he only wants to make sure because Caddo students are not getting the $8,500. Mr. Rachal also stated his agreement with Mr. White’s statement of putting greater faith in the children and teachers/parents; however, in his opinion, it doesn’t appear to be going that way with the many phone calls he receives. He said he believes the State has basically told the districts to get out of the way, so he would like a phone number to pass along for those who call him. He did share his agreement with the 24 states all being tested the same, but he doesn’t agree that the revenue charter schools receive per student can be used for whatever they (charter) want to, i.e. buildings, etc. when the public school systems are told what it can and cannot do with funds. Mr. White said he doesn’t believe that is quite accurate, as there are school districts that use operating dollars to fund capital expenses. He also said that a lot of the rules and restrictions do not make sense and those in Baton Rouge should not necessarily be dictating how the local districts spend their money provided it is being spent for the children. Mr. Rachal also inquired about the change in the State’s grading scale and how students are unable to compete for scholarships because the grading scale is different from the colleges. Mr. White responded that he understands the importance of this question and that it is a Legislative issue and not a State Department or State Board issue. Mr. Rachal stated it was pushed through by BESE and no one did anything to stop it. Mr. White asked Mr. Rachal to email him about this; because even though things have happened that have necessitated these decisions, it doesn’t necessarily mean that he agrees with it and he is willing to discuss and look at this further.

Miss Green asked Mr. White about an update on the status of AU schools under MOUs. Mr. White said he doesn’t know the status, but he believes the State has taken a convoluted approach with the MOU structure, and he says this because there are a lot of Federal dollars coming to Caddo for turnaround schools, and they are also available for the RSD, thus there are two different structures in place supporting the same school. He said what they would rather do is look at which schools are currently eligible for these funds and make a plan. Mr. White said he will commit to the Superintendent and the Board and be very forthright as to what he has seen will work and what he has seen that does not work. He added his appreciation that the local board has done some bold things for the district and referenced his visit to Oak Park and that the District did what was right for kids – selection of who will lead the school, giving the leader the flexibility to bring in the right people, and videoing teachers and giving feedback, curriculum alignment, which is something that can be duplicated in other schools.

Mr. Riall asked about the two schools that have been taken over by the State and the fact that these students are not really improving and what is in line in the future to get these students out
of these situations. Mr. White said he doesn’t view these two schools as different from the MOU schools; and the State and districts can play a blame game, but in reality, neither is doing what is best for children. As a result, he believes the districts and the State need to work together on a plan for real change and move ahead with what is best for children.

Mrs. Armstrong referenced Mr. White’s comments regarding the keys to a school’s success being the instructional leader, because if every school has the same kind of instructional leaders as Oak Park, there would be much more success. She also referenced another comment regarding “culture of creativeness within two years”, and she can appreciate that because when the State comes in and takes over, the plan and the curriculum, the teachers are not allowed to be creative in their daily teaching as was true when she was teaching.

Mr. White closed that often times you will hear people say you are either on the creative side or the accountability side and he believes that is a false dichotomy and teachers can say there are ambitious standards, there are accountable tests, and goals in which they and their teams will figure out how to reach them, and accountability and creativity can co-exist.

There being no additional questions, the meeting adjourned at approximately 7:00 p.m.

Dr. Gerald D. Dawkins, Secretary

Steve Riall, President
August 7, 2012

The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, August 7, 2012 with President Steve Riall presiding and Dottie Bell and Larry Ramsey present being a quorum. Other school board members present were Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal and Ginger Armstrong. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mrs. Armstrong led the invocation and Pledge of Allegiance.

PRESENTATIONS

Common Core and Compass Evaluation Systems. Superintendent Dawkins stated that Louisiana is now one of 25 states involved in the Common Core curriculum and Caddo’s staff has been involved in training over the last year to implement Common Core. He said this curriculum will provide a common assessment tool used in all states teaching Common Core. He also said Compass is the new teacher evaluation model and staff has been in training the past two months and will share how this will impact classroom instruction and administrative operations.

Antionette Turner, chief academic officer, first recognized the instructional supervisors and professional development specialists and expressed appreciation to them for their work over the past year and summer to put together the needed resources to train teachers and administrators in the Common Core, resources which are now available to all of Caddo’s teachers.

Mrs. Turner reported that beginning in the Spring of 2009, the Common Core initiative began as a collaborative effort for many stakeholders. This initiative is driven by state leaders and designed to improve the academic outcome of Caddo’s students, and it is designed to standardize among states the content taught, testing and achievement levels. Common Core is also designed to ensure all students and teachers have the same expectations and the standards are designed to achieve four things: to be more focused for instructional purposes, to be internationally competitive, to prepare our students to be more college and career ready, and to be research based. She reported that standards were drafted in March of 2010 and the final standards released in June of 2010. While waiting for guidance from the state on the Common Core, she reported that Caddo needed additional information; and with state leadership being in a transitional period, training at the national level was available in the summer of 2011 and staff took advantage of this opportunity to network with other states across the country. After this training, a plan was put together for moving forward in Caddo to get teachers prepared for the Common Core. The first guidance from the state came in September 2011, and at that time Caddo had already planned and presented a plan to the administrative staff. Mrs. Turner stated that the overview of the state implementation plan solidified the need for pro-active thinking and the next year training at the school level was already underway when the timeline was released. Beginning with the 2012-13 school year, Mrs. Turner reported that all kindergarten and 1st grade teachers are expected to teach and will be evaluated on the Common Core instruction. PreK will also be well into their pilot to make early childhood education more rigorous as well, with 2nd grade following close behind.

She further explained that Grades 3 through high school will be in a transitional mode preparing for full implementation in 2014, and this transition means that some of the old curriculum and GLEs will be deleted and some of the standards will stay, with some of the new Common Core standards being taught as well, noting that the timeline provided indicates moving quickly in preparation of implementing the Common Core. Four conditions that Caddo must meet for successfully implementing the Common Core standards include (1) vision, (2) skill, (3) resources, and (4) planning. Mrs. Turner also stated that in order to provide continuous academic support for the classroom teachers and to ensure each school’s success with the
Common Core implementation, the following four questions will be addressed throughout the implementation and the school year – (1) are there things that we need to stop teaching, (2) are there things we need to start teaching, (3) are there current initiatives that are competing for time, money and staff, and (4) what professional development will the teachers and administration need to be successful.

Mrs. Turner shared that staff intends to stay on top of what has started and to take full advantage of those things that have worked well for us during the last year, continuing to update the classroom teachers and their instructional leaders regarding the Common Core. She reported that district staff (supervisors and area directors) continues to monitor the redelivery at schools to make certain information is redelivered to teachers; and teachers will be able to access powerpoints, videos, and other courses to improve their skill sets for high student engagement and rigorous instruction. Technology will also be available and used for teachers to ask questions and assistance in using the resources for teaching the Common Core.

Accomplishments through the summer institute were successful and will continue throughout the year to provide instructional materials and resources, and teachers were paid a stipend for attending during their summer vacation to prepare for students. Mrs. Turner shared that approximately 450 teachers gave up 40 hours of their time for this professional development in Kindergarten and 1st grade. With the middle schools and high schools not scheduled to begin teaching Common Core until 2014; Caddo has begun training these teachers and giving them the additional time to prepare for this major change. She also reported that over 500 hours were spent in integrating the Common Core with the Math-Science partnerships with each group (3rd and 4th grade, 5th grade and 8th grade), and through LaSIP we were able to work with the 6th grade teachers. On August 6th in new teacher orientation, staff worked with the new teachers to prepare them for Common Core, and teachers are encouraged to contact staff with any questions or concerns they may have.

Mrs. Turner announced that on August 8th staff administrators will continue working through the principals’ institute and administrative institute on Common Core as well as Compass to make sure there is consistency and accuracy in information shared with teachers, and needed resources have been prepared for administrators to use in their opening faculty meetings. Ongoing professional development and easy access to professional development is critical, and Mrs. Turner said ample, locally developed materials will be available and ready whenever the teacher needs them.

Regarding standards, previous GLEs and how they are transitioning to the Common Core standards, Mrs. Turner shared that staff will work with the teachers to ensure that grade level progression continues within the classrooms and will identify the skill set that a struggling student might need to strengthen. Also, if a student (4th grade for example) needs to be challenged, a teacher can look at the 5th grade expectations and use this to allow the student to move forward and accelerate what they are learning. She also reported that reading more non-fiction will be required and in writing, more emphasis will be placed on writing, defending one’s stance in writing, and integration of technical skills will be required. Writing standards are required in history, science and all technical subjects.

In mathematics, Mrs. Turner shared with the board a comparison of expectations at grade level standards and that they are different for high school. She also reported on the opportunity to accompany some of Caddo’s high school principals and advanced placement teachers to a training where they learned of the rigor and expectations in all courses and how to develop our information to allow us to progress quickly with real world applications.

A list of what is required of students (engagement, figuring the correct answer and not simple recall, but how to apply) was shared. She further explained that requiring students to be more
critical in their thinking in problem solving requires a different process on the part of the teachers and their involvement. The shift in mathematics is the practice of applying mathematics and this will be the major change in all courses at the high school level. Mrs. Turner stated that the PARC assessment will be fully implemented in 2014-15 and major changes in assessments related to the written portion of the assessments, constructive response, writing prompts and examples have been reproduced and distributed to schools. Assessing student progress and adjusting instruction will determine success, and a common assessment will assure equity of instruction school to school.

Mrs. Turner reported that staying up to date on Common Core, paying attention to any changes of implementation or in the planning on the part of the state, supporting teachers in every way possible to ensure their success, incorporating writing into all content areas by working closely with the librarians to incorporate additional non-fiction materials, performance, critical thinking and problem solving will all be on the list of things everyone can expect in the classroom.

Mrs. Turner shared with the board information on Compass, the new evaluation system, and how it connects to Common Core, and the two things that will cut across the entire Compass initiative are high expectations and support. She said if we believe students can achieve, we also have to believe that educators are in the best position to help them do so; and Compass is about raising expectations for teachers and supporting them in raising expectations for students. She said it will be important to focus and state clearly what the real priorities are if we want to succeed in all these changes, and Common Core and Compass are those priorities. While the two have been seen as separate, Mrs. Turner stated that Compass is immediate as it shifts educator support and evaluation practices in line with the new expectations of the Common Core curriculum, with one representing the work that students will do and the other establishing a pathway for how educators can improve their own practice to help students succeed.

Jan Holliday, director of certified personnel, shared information on how Compass works with the Common Core curriculum by providing the most effective instruction to achieve the ultimate that can be achieved. She reported all educators that will be evaluated through Compass will be required to write a set of quantifiable achievement goals (student learning targets –SLTs) using common assessments that are based on the Common Core curriculum. Principals and other leaders will observe all teachers, will provide feedback using the Common Core aligned rubric, and principals and other instructional leaders will also be evaluated based upon the same philosophy. Mrs. Holliday also stated that the Compass system will also be used to identify future leaders so staff can work with them about taking on additional responsibilities that will further impact student achievement. She explained that the ultimate goal of Compass is to ensure that students achieve at high levels and they will do that through the delivery of effective instruction by our teachers. Mrs. Holliday also reported that 50% of the evaluation will be based on the assessment of student growth and 50% based on the professional practice. Regarding student growth, all teachers will be required to write two student-learning targets for the specific group of students they are teaching and the SLTs will be used as the scoring mechanism for all non-tested grade level teachers, counselors, librarians, and administrators. Teachers of core subjects in grades 3 through 8 and teachers at the high school level (9th grade Algebra I, Geometry) will be evaluated using the Value Added Model (VAM). She further explained that SLTs may be used in cases where a teacher might not receive a VAM score. Professional Practice scores will be measured through classroom observation using the Compass teacher rubric with a minimum two observations – a formal or announced observation and the other an informal or unannounced evaluation; and evaluators may choose to do more. Once the two scores are determined, Mrs. Holliday explained they will be averaged and a rating given to each teacher as follows: 1.0-1.49 is ineffective, 1.50-2.49 is effective emerging; 2.50-3.49 is effective proficient; and 3.50-4.0 is highly effective. She added that all the ratings will be calculated through the State Human Capital Information System (HCIS) and Caddo has a district team that will attend training and return to the district to train evaluators using this system.
To attempt to better prepare all that will be affected by this new system, staff has identified over 250 administrators (principals, assistant principals, instructional coordinators, curriculum supervisors and directors) who will be evaluators or observers and all have been trained to implement this evaluation system. Mrs. Holliday added that principals will receive additional training during Caddo’s principals’ meeting and time will be spent addressing questions regarding the district’s performance plan approved by the board at its last meeting. School-based administrators will then deliver training on the Compass program at each school, training the teachers how it will work, how the rubric will be administered, and how students learning targets are to be written. Mrs. Holliday noted that she can see this training as on-going throughout the year, and assured the board that administrators and teachers will be given all the needed support.

Dr. Dawkins reiterated that the Compass training occurred this past week and the state has organized itself into networks with teams of 5-8 people to conduct this training and we have also been fortunate to have a team on Common Core to help in this area during the transition.

Mr. Rachal asked for clarification on identifying leaders to take on additional responsibilities and if this means new positions. Dr. Dawkins responded that staff is not talking about new positions but using the abilities of those that show the expertise and express an interest in leadership; and if it did mean new positions, staff would come back to the board. Regarding the observations, Mr. Rachal asked staff how long an observation might be; and staff responded that an evaluator is to observe a complete lesson within that class period. Mr. Rachal asked if he understands we will be training others to do these observations and how many observers do we need to accommodate the observation process? Dr. Dawkins explained that the principals and assistant principals are those that engage in the observations and have for years; however, we will train supervisors and other staff to assist as backup observers when needed.

Mr. Hooks stated his concern about the Common Core and Compass training and asked what grades are considered middle school grades? Dr. Dawkins said the 6th through 8th grade. Mr. Hooks asked if the 6th graders are being taught by the middle school curriculum and if the 6th graders that are at an elementary site (J.S. Clark) are classified as elementary or middle school? Dr. Dawkins responded that their instruction will be what is required under the Common Core curriculum for the 6th grade. Mr. Hooks stated he doesn’t believe this is fair, and Dr. Dawkins reminded Mr. Hooks that we also have K-8 school configurations as well as 7-12 school configurations. Mr. Hooks said he just doesn’t want these 6th graders to get left behind.

Mrs. Crawford asked for clarification on HCIS? Mrs. Holliday explained that HCIS is Human Capital Information System which is basically the data collecting system the State presented to us as a portal for the District to enter its data and through this, a score will be provided for teachers. Mrs. Crawford also asked if this is how the points (1-4) are determined? Mrs. Holliday explained there are five elements rated through the teacher observation and the evaluator will actually assign a rating to those five different areas and the system will calculate the rating to give an overall score. Mrs. Crawford asked if it will be consistent from evaluation to evaluation? Mrs. Holliday responded that through the evaluator training, all evaluators will be assessing those things the same. Mrs. Crawford asked how teachers will incorporate Common Core into their lesson plans? Mrs. Turner responded that not all teachers will begin at the same point and this summer staff worked very closely with the kindergarten and 1st grade teachers to make this adjustment and provide teachers with new lesson plans that include the Common Core. In talking about things we need to stop teaching and things we need to start teaching, Mrs. Crawford asked about the fact that the Common Core curriculum will not be teaching students about money? Dr. Karen Eason explained that it will be taught and each grade level has specific standards to work toward a year-end goal and under each of the goals there are sets of skills that are required to achieve this goal, i.e. working on word problems in math that require the use of money, then part of that skill set will teach the students how to identify coin value and how to
add, multiply, divide. Mrs. Turner also added that teachers are still in charge of making the professional decision about what the student may need in order to be successful in that lesson, and staff continues to discuss and provide feedback to the State as we go through this transitional year and if certain skills need to be added back to the Common Core. Mrs. Crawford asked if staff believes the new Common Core standards will develop readers? Mrs. Turner responded that, because of the increase in the ability to communicate academic vocabulary and interfacing with it, ultimately it will make a difference. Mrs. Crawford asked about Compass and if what is listed relative to the teachers in the rubric will be included in the five elements that teachers will be evaluated on? Mrs. Turner responded that is correct and what is expected will be represented in the rubric and the detail of it. Mrs. Holliday explained that the rubric is actually an appendix of the evaluation book and indicates exactly what the evaluator will be looking for.

Mr. Ramsey asked how, if the Common Core standards must be in effect in 2014-15 school year, will the professional development be done for teachers? Mrs. Turner explained that every opportunity available will be taken advantage of and staff began in 2010 to work with the teachers and more extensively with the kindergarten-1st grade teachers. Staff will continue to support the kindergarten-1st grade teachers by going to their classrooms, sharing information and providing opportunity for them to share with other teachers; and this will happen on professional development days throughout the school year, staff will continue to maximize the summer, training will continue until the start of school and through September for any teacher that has not had a first hand chance to see the information as well as bring back any teacher that wants to revisit the training. The trainings have also been videotaped so that classroom teachers can see the training and how to use different strategies for the new concepts and these can be revisited on Caddo’s website. Technology, Saturdays, after school, during school, learning communities, faculty meetings will all be used as tools to communicate with the teachers about instruction. Mr. Ramsey stated that if we know the drop-dead date for full implementation of Common Core is 2014-15, he believes we should know the number of opportunities to interact with the teachers between now and then and when and how we will accomplish this. Mr. Ramsey asked that staff look at this and not scheduling all-day seminars, etc., because it seems as though there is a lot of work to do and he is not confident that a lot has been done to implement this as predicted. Mrs. Turner responded that staff can provide a detailed timeline to board members. He also encouraged staff to calculate a plan to meet the timeline and minimize the amount of time teachers are away from the classroom. Dr. Dawkins said being in a transition year, staff may learn that there is more we need to do; and staff will be available to make those adjustments if needed.

Mrs. Bell stated that her observation is we are not trying to put more on teachers in Caddo Parish, but it is the Governor that has required (mandated) this program. She said her question is to the State and if they mandate us to do this, what are they going to provide for districts to implement these new programs. Mrs. Bell said if we are going to ask teachers to do more and extra trainings, we need to ask the State where is the money to pay for the teachers’ extra time for all the required training, and asked if a resolution needs to be approved by the board to address these issues?

Mrs. Armstrong asked if she is correct in assuming the format on the assessment tool may change but the observation is unchanged, and a teacher will still have her objectives for lesson plans and still observe completion of those objectives. Mrs. Holliday said that is correct and all teachers are already observed, but it’s only a new method by which teachers will be rated is a new more quantitative method. Mrs. Armstrong noted that while there are many new names and terms being used, for those that have been in education, this is not anything new as changes have been made over the years. While this new evaluation system is more specific, a teacher is still being observed the way they teach as they always have been; and asked how far into the school year must a teacher write her learning objectives specific to a class of students? Mrs. Holliday said they are to be in place by October 15th. Mrs. Armstrong said by this time, she believes a
teacher has an idea about the basic needs of the students and asked if a teacher can use, for example, a reading test similar to previous end of book tests as a guide for writing her objectives. Mrs. Holliday stated that it is her understanding teachers are to use the state identified common assessments, i.e. Dibels. Dr. Eason verified that is correct and Dibels is on the list and is the assessment that Caddo currently uses; however, they can use the tests that come with the textbooks as baseline data on how students are performing on certain skills.

Mrs. Crawley shared her high opinion of the report card where parents can see for nine weeks what their child needs to learn; and asked if the report card is being completely rewritten for kindergarten? Dr. Eason said that is something staff is looking at, student progress report, to make certain it matches the Common Core standards so the parents will know each nine weeks what is expected to meet the year-end goal. Mrs. Crawley said she would like to get a copy of the previous report card and the new one. Dr. Eason explained that it is her understanding that this will be brought to the board for approval before implementation and staff will be looking at the year-end assessment required in the pupil progression plan for kindergarten.

Miss Green asked Mrs. Turner about reference to 3rd, 4th and 5th and she would like to receive a copy of this.

Mr. Hooks asked if teachers will have a contract for Common Core and Compass because he remembers Mrs. Lansdale sharing a contract at the last meeting. Dr. Dawkins asked if this has anything to do with Common Core, but he will provide him with a copy of the teacher contract staff has been working on. Mr. Hooks asked if teachers will be paid for all the required professional development? The superintendent said some of it is required time and if there is extra time, they will be. Mr. Hooks asked if this will be included in the contract? Dr. Dawkins said the contract does not include professional development. Mr. Hooks said he would like to discuss this further with the superintendent.

Senior Voter Registration. Superintendent Dawkins recognized Mr. White and Mr. Jackson with the High School Voter Registration Program. Mr. Jackson shared that this was the 10th year of the program and highlighted the past 10 years toward the success of this program via a powerpoint presentation. Appreciation was extended to all who have helped them by presenting plaques of appreciation to Colonel Durr, President Riall, Superintendent Dawkins; Registrar of Voters and Sarah McCarty and representatives from the Alpha Kappa Alpha Sorority. Mr. Jackson also recognized Dr. Sandra McCalla, Captain Shreve High School, for registering more voters than any other school over the past three years. Mr. Jackson also reported that Caddo registered a record 1,200 seniors in one day, 60% of its seniors.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE AUGUST 21, 2012 CPSB MEETING

Superintendent Gerald Dawkins highlighted items for the board’s consideration at the August 21, 2012 meeting and the following discussion ensued.

2012-13 Caddo Parish Pupil Progression Plan. Lillian Priest referenced page 23 and the statement that students must pass ELA if reading is not offered in the school they attend, and she asked if Caddo has any schools (grades 6-8) that are not offering reading? She also asked if it is mandatory that parents place students at one of the ESL centers; and if they opt not to do so, what happens? Mrs. Turner responded that at the elementary level, reading is a part of the Language Arts instruction so it is not seen as a separate component. She also explained that at middle school level, the reading component provides support components, i.e. Read 180. She also said for students struggling in this area, they will not only have Language, but will also have Language Arts (two courses). Relative to ESL students, Mrs. Turner stated staff always encourages parents to take advantage of the resources available to them; however, if parents opt
not to participate in the centers, staff will monitor that student’s progress and determine if additional support is needed to assist a particular student.

Mrs. Bell asked staff about the EOC test because she was concerned about what was shared at the parent orientation at Huntington and that the Exit Exam has been removed and how EOC testing will be implemented with 25% of their final grade coming from the EOC test. She asked if a mid-term test will be calculated to where 20% will be applied to the final grade? Mrs. Turner confirmed that is correct and the EOC test counts 25% toward the final grade, and the End of Course Test (EOC) is used to determine if a student has mastered knowledge, skills and abilities at the end of the course and the content of those assessments is based on grade level expectations. In moving forward with the Common Core, Mrs. Turner said it is recommended by the High School Redesign Commission to ensure consistent and rigorous instruction and academic expectations throughout Louisiana’s high schools. End of course tests are administered to high school students only in Algebra I, English II, Geometry, Biology, English III and American History; and these are coupled so that if a student passes one they do not have to master the other as well. This began with the Freshman class in 2010 and the students must pass three EOC tests in the following categories: English II or English III; Algebra I or Geometry; and Biology or American History; and the EOC tests will replace the Graduation Exit Examination. She said the final grade being impacted by 25% of the EOC tests is being done so because in Common Core the students have to demonstrate Mastery of the Content and it is heavily weighted on the Common Core and the PARC assessment, so we do not want to practice on an assessment that is not as rigorous as the assessment they will have to pass at the State level. The second reason is tests account for school performance scores and students only have to pass one of the two pairs, i.e. if a student passes Algebra, they will not have to necessarily pass Geometry, even though we will strive to teach that they pass all of the courses. Mrs. Bell asked if a student fails Algebra I and they need to take the additional courses in 10th grade, when will they make it up (the course they fail)? Mrs. Turner explained that through the A/B Block Schedule students have an opportunity to accumulate 32 credits with 24 credits needed to graduate, and this provides a student the opportunity to repeat a needed course. She added there is an on-line course; however on-line courses only work if a student is very motivated and focused, so it will be necessary to monitor this student very closely. Mrs. Bell asked if she understands that students must pass these exams and their Core subjects to graduate, and Mrs. Turner confirmed that is correct.

**Rahmberg Recommendation, Re: Occupational Therapist.** Mr. Rachal stated that the information he received is confusing and noted that since he doesn’t know what was given to Rahmberg to make their decision, he asked staff to provide him with a copy of this information. Dr. Robinson stated that in compliance with Mr. Rachal’s request, she sent to Mr. Rahmberg a memo she received from Jackie Lansdale as the representative of the teacher describing what they were asking, a chronology of what the Board had done relative to this particular situation, and a copy of a demo sheet stating her current salary. Mr. Rachal stated he believes we may need the information sent, the old schedule and where we are now with this particular position. Dr. Robinson stated that in the chronology presented, Mr. Rahmberg had access to the old schedule. Mr. Rachal asked that the board receive this information because he believes what has happened seems unfair and in looking at some of the numbers, it appears under the Caddo pay scale that a 9-month Occupational Therapist is paid more per day than someone who works 12 months a year. Dr. Robinson explained that for those who work 260 days, the daily rate is smaller than those who work 180 or 190 days, which is a general premise with Caddo’s schedule. Mr. Rachal again asked staff to provide the board the entire detail on this position, because it does appear this employee is being penalized for being here longer. Understanding that staff went through many job descriptions, he just believes that this position is the odd man out and is only one person and she is being punished. Dr. Dawkins asked if he understands that Mr. Rachal
desires to receive the historical information of when this employee started? Mr. Rachal said relative to the original pay scale and after Rahmberg’s report was implemented, where are we with this position. Dr. Dawkins asked if he understands that Mr. Rachal is saying the Rahmberg recommendation should be set aside until this additional information is provided; and Mr. Rachal said that is correct.

IKFB. Mrs. Armstrong questioned Section B and if we are including the SREC Committee at each high school to make the decision for who will be allowed to participate in graduation exercises? She said she believes the policy should be all for one and one for all, and that a group of standards should be established for the graduating seniors; and if they meet those standards, they will graduate and participate in the ceremony because it is something they have earned. However, if they do not meet one or more of the standards, the students should not be allowed to march and be recognized at that time which is why she recommended the summer graduation offering students an additional opportunity to meet the required standards through further testing, tutoring or summer school. She said she believes board members agree that we need one set of standards and if now is the time to make an adjustment, encouraged the board to do something to correct this.

Ms. Priest said if we don’t have a uniform policy, it could be a district nightmare; because if each of Caddo’s 11 high schools sets their own criteria for graduation, you could have 11 separate practices.

Mrs. Bell stated she is the one that brought the change a couple of years ago, because she felt if a student has been in school for 12 years, passed all their course work, and had no discipline problems, then an exit exam should not hold a student back. With the new change in EOC testing, she understands we need to make this change.

Miss Green stated her agreement with all the comments and that she brings this for the board’s consideration because of an incident last spring where the policy was curved for one student, but not another.

Mr. Abrams stated that the policy was changed and it has standards in it regarding a student marching across the stage and graduate if they did not pass all parts of the exit exam. He said everyone was to follow the standards and he asked the board if they want to go back to what it was. Mr. Ramsey stated the importance of being consistent with all the schools and if a student graduates, it is because they have met all the requirements and deserve the right to graduate. Ms. Trammel stated her agreement with returning to where we were.

Mrs. Armstrong noted that the capital “A” and that when being rewritten that the words “graduate exit exam” are omitted and in Section B (introductory paragraph) needs to be reworded so it is not an option to use the committee.

Miss Green clarified that is what she is proposing, that the board return to the policy the way it was before the last revision. Ms. Priest encouraged staff to be ahead of time and educate everyone on staff.

Auditing Employees on SunGard. Mr. Hooks announced he will bring this to the board in October (after the September 15th payroll).

ADDITIONS

Mr. Ramsey asked that an item be added under Superintendent’s Report “Status of Virtual School Implementation Timeline”.
Mr. Rachal asked that “Resolution, Re: Caddo Bossier Port Proposed Roll Forward” be added to the agenda. He said because the Caddo Bossier Port Commission is not an elected body, but appointed individuals, he doesn’t believe they should bring this proposal; and also, every elected body in the parish chose not to roll forward taxes. He said this will bring additional property taxes across the parish to the taxpayers and this group has approximately a $30 million surplus at this time. He encouraged the board to support this resolution opposing a roll forward.

Mrs. Armstrong reminded board members that she brought forth at a previous meeting the idea of closing the school system the week of Thanksgiving as a cost-saver and a thank you to all employees. She said if this is something the board needs to vote on, she would like for this to be an item on the agenda for October for approval as a paid holiday. Mrs. Crawford stated that we still get calls during the holidays and it is difficult to track down people when no one is in the office, so she believes it is necessary to have someone in the office. Mr. Ramsey asked legal counsel if there are some issues we could encounter with this? Mr. Abrams said there are a lot of issues associated with this, one being a policy in place that specifies the holidays and it would need to be revised to reduce the number of days worked, and State law will not allow the board to reduce salaries. He also said that if the board does this (revise the policy) this year, it cannot go back and revise the policy next year. He added the district would also have to pay additional money to those that must work additional time, which will result in a monetary chain, and the board’s policy does not dictate who works and who does not. Mr. Ramsey asked the maker of the motion (agenda item) to request the superintendent to bring to the board what impact this will have before the board votes on it.

Ms. Trammel stated a skeleton crew works during the holidays; and if this is a budgetary decision, she asked could a skeleton crew work on these holiday days as well? Dr. Dawkins announced that there is a skeleton crew during this timeframe, however, it may impact those that may be planning vacation that week. Ms. Trammel asked if it would cost anything if it was set up this way during that week? Dr. Dawkins said staff can present some scenarios to the board.

Ms. Priest stated she believes this will impact our budget, and noted the concern expressed by others about the amount of time the district is off, because other fields of work or industry do not get two weeks at Christmas, Spring Break and time off in the summer. She asked the board needs to look closely at this.

Mrs. Crawley stated her appreciation of Mrs. Armstrong’s thoughts to reward employees; however teachers and school based employees are paid for their 182 days and will not get paid for this. She doesn’t believe the board needs to single out a small group of employees with a raise and no one else, and she also believes the public would like to see the school-based personnel get some raises.

Mr. Hooks asked Mrs. Armstrong to repeat her item so that he would have clarity. Mr. Hooks noted that he believed he remembered workers getting ripped off during the holidays and he agrees with Mrs. Armstrong in showing appreciation to our employees.

Mrs. Crawley asked that an item be added to the August 21st agenda titled “Bus Transportation for Stoner Hill students at Apartments on Stoner and Viking Corner that is within .9 of a mile from the school”. Mrs. Crawley stated there are approximately 40 students in this complex living within .9 of a mile from their assigned school; however, she believes it would be better if these students are sent to their neighborhood school. Ms. Trammel asked about students on St. Vincent and student living on 79th Street and beyond that are .9 of a mile from Atkins and she too appreciates these students being provided bus transportation. Miss Green stated she has the same situation in District 2 with Peach Street Apartments and Pine Grove Elementary.
Mr. Abrams responded it is not just what is inconvenient but it is requirements for allowing students to be on a bus if they live within one mile of a school, and there must be reasons and rationales provided for these students, i.e. sex offenders in the area. He explained the statute states that one must be very specific as to why a child within one mile should be allowed to ride the bus and if you don’t, the rule will be destroyed for the exception. Mr. Rachal asked Mr. Abrams if being an AU school qualifies? Mr. Abrams said not necessarily because AU is a status of how well a school is doing. Choice students will be allowed to go to another school by bus that is more than one mile away. Mr. Rachal asked if a parent opts not to take the opportunity of Choice, can this be used as the declaration of Choice as long as they still get transportation to their neighborhood school? Mr. Abrams said it will not work, because it is not an individual choice as to whether or not one gets transportation, but it’s the District’s (Board’s) choice based on the circumstances and this new provision was added to the law by Mr. Carmody, and the statute was written to cover a real need where there was possible danger. Mr. Rachal asked if in this example, an apartment complex, and Mr. Abrams explained that he understands in this particular area there are 33 sexual predators which may be possible grounds for the board to look at and decide. He also understands there are other schools that may have the same circumstances. Mr. Rachal asked if a specific block in the apartment complex can be considered? Mr. Abrams said when looking at the radius, he believes you would look at all who live within a .9 of a mile radius so it is not as though you are picking and choosing students. Mr. Rachal clarified that he is asking if what was introduced by Mr. Carmody requires a specific distance or a specific area? Mr. Abrams responded that the statute states the district may provide transportation for any student attending a school of suitable grade approved by the State Board of Elementary and Secondary Education within the jurisdictional boundaries of the board who reside one mile or less from the school when the school board determines that conditions exist that warrant transportation. Mr. Rachal said then he understands we can actually “shrink the circle” to .9 and select a section within that distance. Mr. Abrams explained that if that is done, it would be subject to being challenged because of the rationale for it, because if you use the rationale that there is a group of students that do not make it to school for a particular reason, someone could challenge it that lives in a house across the street (from the apartment complex if that is the group selected out of the .9 mile circle) and their child is not allowed to ride the bus. Believing that the statute has some problems the way it is written, Mr. Abrams said that is why it probably has not been law in the past; because one can always come up with a rational reason why a bus should be able to pick up a child that lives within a mile of the school.

Mr. Rachal stated that while he agrees with the intent of the item, he believes it is necessary that the board has a policy in place before voting on this item. Ms. Priest agreed with Mr. Rachal’s comments and she believes the board needs to look very long and hard before making a decision that will have a huge impact on the District if each of the 12 board members brings such a request. Mrs. Crawley stated her reason for bringing this request is there are 33 sexual predators that children may come in contact with on the way to school or when returning home after school. She said she is appealing to the board through budgetary because it will cost a lot more to send a bus to pick them up and take them across town than it will to send them to Stoner Hill (their neighborhood school) rather than A.C. Steere. Mrs. Crawley stated her understanding about the low-performing school, and the District has spent lots of money on low-performing schools; but this seemed like a small issue in which the District will spend less money instead of tripling it. Mr. Rachal reported there is currently a board policy in place that says if a student lives more than a mile from their neighborhood school, transportation is provided, and if a student lives less than a mile, they do not get transportation. He further added that the statute states what students are exceptions and it is the board that determines if conditions exist to warrant transportation for that student; and he reminded the board that as a body, the board should make the decision rather than staff. Mr. Riall stated that more students in District 1 probably ride the bus than any other district in Caddo Parish and he has had many calls relative to buses, which he quickly learned you need hard and fast rules to follow and stick to. If there
are exceptions, i.e. sexual predators, he asked what do you do if they move; thus it is the parents responsibility to get their children to and from school.

Mrs. Armstrong stated Mr. Abrams alluded to what she was going to say and reminded everyone of a student killed on Mansfield Road because he had to cross this highway in Keithville to get to his bus. Following this incident, the board addressed it by saying if a student had to cross a major thoroughfare, a different pickup was put into place for these students.

Mr. Riall reminded everyone that the item is addressing a specific school and the comments are getting away from the agenda item. He encouraged board members’ comments to be about the agenda item.

Mr. Ramsey said he will not be redundant, but he agreed with Ms. Priest’s comments and that the board needs to step back and look closely before jumping into this. He stated he believes Choice options are available for some students and possibly help with some of the issues; however, he encouraged staff to look at each one of the requests closely and that the board consider the impact on the District.

Mr. Hooks shared his agreement with the comments made and shared his experience with a specific incident last year at Caddo Heights. As bad as it hurt, the line must drawn somewhere so we do not open up Pandora’s Box.

Mr. Rachal asked Mr. Abrams if the board adopts a policy, does he understand correctly that the decision is the board’s policy, because he would like to see a list of the criteria that would meet the standards before the board votes on it.

Mrs. Bell asked the superintendent to look at the possibility of a preK-Kindergarten Center in District 12 in one of the vacated facilities. She said this initiative is one that Baton Rouge implemented without any financial support Mrs. Bell asked the superintendent about the cost to add one center. She also asked the superintendent to provide the cost of adding another Elementary year round school in District 12. She shared the need for one in Greenwood and asked that this be placed on the agenda under Superintendent’s Report and remain there until it comes to the board for a vote.

Ms. Trammel requested that Reginald Abrams look at possibly revising BHD, BHD-R, DLC and DLC-R and any others that address Board Travel. Dr. Dawkins asked staff if this is not in line for policy review by Foresight? Dr. Robinson said it has not been revised to date, but she will talk to the superintendent about getting it on the agenda in October.

Mrs. Armstrong asked the superintendent to check that all elementary, elementary/middle schools will have music, art and P.E. teachers when school begins.

Mr. Riall announced that meetings run smoother if agenda items are turned in to Mrs. Lohnes ahead of the meeting and encouraged board members to get them on the agenda prior to the work session.

CONFIRM THE AGENDA AND PROPOSED CONSENT AGENDA

Mr. Riall announced that Items 6.02, 6.03, 8.01 and 8.04 will be the consent agenda. Mrs. Bell moved, seconded by Mr. Ramsey, to approve the proposed agenda and consent agenda for the August 21, 2012 CPSB Meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE
Priscilla Savannah, employee, encouraged the board to support hearing her grievance on August 21st.

Celeste Powell, employee, encouraged the board to favorably look at her request of the board and relook at the response from Mr. Rahmberg regarding her situation with her salary and how it is being calculated. She pointed out that she is the only OT/PT that was affected this way as all the remaining OT/PTs for Caddo have been rescord.

Jackie Lansdale, president of Red River United, referenced the presentations at the beginning of the meeting and reminded the board what John White said about Common Core and the possibility of seeing some struggles to begin with and private investors are already looking at this and are pleased that we will struggle. She encouraged the board to be cautious when receiving the first scores because they will not be what we will want to see to start, but it is a part of the process. She also stated that the Value Added is a lot different, because a teacher will be told they are ineffective based on students’ scores from last year; and this does matter because it means a teacher could lose tenure, they could lose their pay increase increment, and if there is a reduction in force, an ineffective teacher is the first to go. She stated she is already seeing variances and standard deviation from 70 points from one year to the next, which says to her there is a real issue with the instrument itself, and we have not yet been able to get the rubric exactly how the students are to be geared. She also asked the board to remember that the request made by the employee is only one person. Mrs. Lansdale also said she hopes there is a time to sit down and talk about sabbatical leaves; and that relative to preK, DeSoto Parish has universal preK which they attribute, along with TAP, as why their scores have improved.

Adjournment. Mrs. Bell moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried and the work session adjourned at approximately 7:39 p.m.
August 14, 2013

The Caddo Parish School Board (CPSB) Long Range Planning and Development Committee met at approximately 10:30 a.m. on Wednesday, August 14, 2013, in Room 1 of the Central Office Complex, 1961 Midway, Shreveport, Louisiana. Committee members present were Ginger Armstrong, Chair; Curtis Hooks, Lillian Priest, Barry Rachal and ex-officio members Larry Ramsey and Carl Pierson. Bonita Crawford accessed the meeting via conference call. Others in attendance were Dr. Mary Nash-Robinson, Steve White, Rosemary Woodard, Jim Lee, Jackie Lansdale, Scott Hughes and Mary Wood. Mr. Ramsey led the prayer.

Mrs. Armstrong called the meeting to order and stated the purpose of today’s meeting is to hear an update from staff on the Gateway, Gifted and Discoveries classes, as well address the Ombudsman Program, the consolidation of underutilized schools, transforming one or more into the most up to date school buildings in Caddo, and a Comprehensive Academic Plan. She announced that putting plans into place to set aside funds on a yearly basis for new construction, review of the existing bond debt to determine our bonding capacity without raising taxes, and $100 for teacher M&S will be referred to the Insurance and Finance Committee. Discussion was held on these items being referred to other committees and the possibility of them coming under both committees. Mr. Ramsey stated that as president he believes this committee is beginning to be overwhelmed and he will be assigning items to the other committees to help move them along in the process; but at this time the major issues for this committee are Items (1) Ombudsman and (3) Consolidation of Underutilized Schools. He also expressed that this committee needs to begin dialogue with the RSD and the State Department and work with them relative to the future of some of Caddo’s schools. Mrs. Crawford stated her agreement, but she does not believe we can start putting money aside for new schools until we know this and have a plan. For clarification, Mr. Rachal stated he came to the meeting today expecting to discuss this item and it is his opinion that this committee is the one that would put a plan together to give to the superintendent on what we want and then the Finance Committee will provide input relative to the cost issues, feasibility of renovating areas, etc.

Relative to the $100 Teacher M&S and the CEEF funds, these items have been referred to the Insurance and Finance Committee that will meet on Tuesday, August 20, 2013 at 2:30 p.m. in Room 1. At that time, Mr. Lee will provide a report to the committee. Mr. Ramsey also reminded everyone that all board members are encouraged, if they are interested, to attend the committee meetings and provide their input. Mrs. Armstrong also mentioned the possibility of future joint committee meetings to discuss some of the mentioned issues.

Discoveries and Gateway Classes. Mrs. Armstrong stated that at the last meeting the committee agreed to wait until the numbers were available before moving further relative to the Discoveries and Gateway classes.

Rosemary Woodard reported that the spring test scores identified students eligible for Discoveries and Gateway and this data will be sent to the schools for screening, followed by an SBLC review. She added that everything is in place to move forward and where needed, teachers will be redeployed so that everyone receives some Gifted services. She further explained that the curriculum is being rewritten to align with the Common Core and it is being done so the Common Core integrates with the Gifted. Mrs. Woodard also explained that the goal is to strategize with partners to create curricula, i.e. STEAM, which will be the framework for Gifted. Upon implementation next year, she stated it is believed that this will provide more benefits for the students no matter where they are.

Ms. Priest suggested that at the next school board meeting a written update be provided to the Board relative to which schools have fulltime Gifted teachers and which schools have part-time/itinerant teachers. It was also suggested that it needs to be communicated to the schools that every parent and every student is made aware of what is offered and available so neighborhood schools do not continue to lose neighborhood students; as well as every counselor and principal being confident that the committee is looking closely and monitoring this. Mrs. Woodard stated that she will detail the procedures and develop a report for the Board from the committee which can then be communicated to the schools as to what they must be doing in this area.
Payroll Department Audit. Jeff Howard shared with those present highlights of the Payroll Department Audit noting specifically four of the 23 recommendations from the audit.

(1) It is an inefficient use of resources to produce multiple payrolls. Recommend the district consider paying all employees either bimonthly or biweekly. It is believe that this change to one pay period would reduce errors and be a more efficient use of resources. If a change is made, the administration needs to ensure that all stakeholders (HR, Payroll, Accounting and Insurance) are consulted to determine the best choice for the district). Mr. Lee explained that because payroll produced 135 payrolls in a 10-month time period, he believes this change would make things easier. He also shared how changes might affect certain groups of employees, complications of running so many payrolls, and Caddo is unique because it pays some in arrears and some in advance. Discussion also ensued on the present system that does not do what we were promised it could do, and this has continually created problems, errors and inefficiencies. It was agreed that before the committee moves forward with a recommendation to the Board, they would like to meet with representatives from Information Technology to cover additional questions.

(2) In accordance with law, the administrators’ contracts should have strict language that informs the employee that if they are removed from their position or reassigned a different location with a lesser pay, their pay will be adjusted to the approved pay assignment when their current contract expires. It should stipulate that if they are removed for cause within their contract term and placed in a lower paid position, their pay will be immediately reduced to the correct rate in accordance with the approved pay assignment. It was explained that some principals and assistant principals are still receiving principal pay even though they have been placed in a position with less pay, which is costing the district. It was also noted that legal counsel has issues with this interpretation since 17:444 requires a new contract unless the superintendent recommends against a new contract based on evaluation, cause for mid contract termination or elimination of position. If removed for cause, can reduce pay if removed following procedures.

(3) Relative to the Holiday Supplement of $500, it is recommended that the Board provide a clear definition of which employees should receive the supplement with sufficient time for HR to process terminations and Payroll to complete updates. Mr. Lee will talk to payroll and accounting for a recommended cut-off date for hires that will allow ample time for appropriate paperwork to be completed and define who will receive this supplement.

(4) The processing of substitute employees’ master records and time reporting is not properly segregated. The HR clerks should not be allowed access to create and accept assignments in the AESOP system. HR administrators should create and accept assignments only if the school administrator or primary teacher is unable to create the job and the substitute employee is unable to accept the assignment. Vacant positions should not be created in order to get a substitute because an employee is not at the school. The employee should be reported absent and on administrative leave if they have been excused from work and there is no other applicable code to use (i.e. professional leave).
The “long term substitute listing” should be corrected by SunGard to the satisfaction of the user without any additional cost. The question was raised if there was a need for two persons in the substitute system and Dr. Robinson confirmed the need for two and the responsibilities of these two employees beyond the substitute system.

Mrs. Crawley also noted the need for staff to be stricter in paying overtime and also asked about the VISA payroll card. Mr. Lee noted this is something staff would like to look into after addressing some of the other major things noted.

Mr. Howard also announced that the 120-day follow-up report on Accounts Payable and Transportation audits are currently being prepared for presentation to the Board in the near future.

Mr. Riall announced that he will schedule the next Audit Committee meeting when Mr. Lee gets an idea from IT on the Committee’s requests and gets back with him.

There being no additional business, the meeting was adjourned at approximately 4:00 p.m.
**Ombudsman.** Mrs. Armstrong stated there currently is a contract with Ombudsman through this school year; however, this committee is looking at Ombudsman to have something on the table to either replace it or enhance what is currently being done.

Mr. Hooks shared with the committee that his concerns are (1) Ombudsman was to mirror after Caddo and this is not being done; and (2) Caddo is paying Ombudsman for a certain number of seats and Ombudsman is not keeping all the students sent to them, but sending them to Red River Marine. Staff clarified that Caddo pays Ombudsman the same amount no matter how many students they have and Ombudsman has a set number of seats paid for in the $3.5 million we pay them. Additional concerns are students not being able to get the same courses at Ombudsman that they can in their home school, as well as who is giving the grades and credits to students.

Mrs. Woodard explained that last year Mrs. Turner wanted to maintain control of the grades and credits so she did not allow Ombudsman to put in the grades and credits and this process did create some problems. She added that beginning this year, this problem is being fixed and over the summer staff has put all high schools on the E2020 which will allow students to be able to get any course Caddo offers; and in cases where there is not an exact course, the principal can place the student in an equivalent course and she will make certain the course matches Bulletin 741. She further explained that Ombudsman is on the same grading scale as Caddo and this year they will use JPAM to put in the grades. Currently Phillip Givens has been assigned as the liaison with the Ombudsman Program to make sure these procedures are followed and problems are addressed, and Dr. Robinson added that several staff members have been assigned to assist him with Ombudsman. Dr. Robinson also explained that in the absence of a Chief Academic Officer, Rosemary Woodard, Leisa Edwards and Kathy Gallant will assist in the Academic area, with Mrs. Woodard being the lead staff person in this area.

Mrs. Crawford asked why can’t a student participate in a class via Distance Learning if a course needed is not offered? Mrs. Woodard explained if a student is expelled, they are expelled from participating in the home school classes; and it creates a problem if they are allowed to participate through Distance Learning.

Mr. Pierson asked for clarification on who gives credit and Mrs. Woodard explained that because the Ombudsman locations are Caddo schools, Ombudsman will post grades and credits to JPAM. Mr. Pierson also asked about these students’ eligibility for graduation and who determines where a student is toward meeting graduation requirements. Mrs. Woodard explained that when these students are transferred to an Ombudsman site, a drop packet goes with them from their home school, the same as if Caddo is accepting an out-of-state student; and if there are any problems with a student’s transcript, Mr. Givens refers it back to her (Woodard).

Discussion was also held on the monitoring of enrollments at the Ombudsman sites month to month, and Mrs. Woodard explained that last year, Attendance monitored the enrollments because expulsions were monitored by Attendance as well as Special Education. Mr. Hooks also asked for clarification on the difference between an Ombudsman diploma and a Caddo diploma and Mrs. Woodard responded there is no difference and that if a student graduates from Ombudsman, Ombudsman will be on the diploma just as a student that graduates from Captain Shreve, Green Oaks, etc., has that school on their diploma.

Mr. Rachal stated he believes the committee should suggest to the Board as a whole that a monthly update on Ombudsman’s student population and attendance be placed as an item on the agenda. Mr. Rachal moved, seconded by Mr. Hooks, that the Long Range Planning and Development Committee recommend to the Board that a monthly update from Ombudsman on student population and attendance be placed as an informational item on the agenda, and that quarterly, the staff provide a status on suspensions, job placements, career paths, etc. Vote on the motion carried. Mrs. Crawford also stated that she noted in the last career report the types of positions/internships students were placed in and she would like to see students placed in positions that could possibly lead to a career.

Dr. Robinson stated staff’s concern about paying for 400 plus seats and recent conversations on the number of over-age students in the classrooms and they will look at this more closely.

**Build new school(s) in SE Caddo and Consolidate underutilized schools and transform one or more into the most up to date school buildings in Caddo.** Discussion was held on the future possibility that
Caddo may get back some of its schools, i.e. Linear, (and it is important that the District continues to monitor this with the State), and the need for the Long-Range Committee to begin looking at the district as a whole to determine underutilized schools, demographics, programs in all five geographic areas and the need/possibility of consolidating schools, similar to the conversion of Bethune that now houses a K-8 school (Oak Park). It was also added that at some point the Insurance and Finance Committee could be brought into these discussions to determine the level of financing needed, i.e. bond issue, debt service, etc. Mr. Hooks also suggested the need to begin looking at salaries and when a principal is moved they do not continue to receive principal’s pay beyond their two-year contract.

Mr. Pierson said he would like to see recommendations from the staff as to what can be done and then the committee look at moving forward. Staff will begin preparing a report with appropriate numbers for presentation to the committee.

**Comprehensive Academic Plan.** Mrs. Woodard explained there is an Academic Plan and staff has been working a long-range plan which includes Ombudsman, Career Paths, etc., and she provided a copy to those present for their review. Ms. Priest stated that academics should always drive everything else we do and when academics is the first priority, the other things will fall into place.

**Adjournment.** There being no additional items for discussion, the meeting adjourned at approximately 12:15 p.m.
August 20, 2013

The Caddo Parish School Board (CPSB) Insurance and Finance Committee met at 2:30 p.m. on Tuesday, August 20, 2013, in Room 1 of the CPSB office, 1961 Midway Street, Shreveport, Louisiana. Committee members present were Lillian Priest, Chair; Dottie Bell, Jasmine Green, Mary Trammel and ex-officio members Larry Ramsey and Carl Pierson. Others in attendance were Ginger Armstrong, Barry Rachal, Jim Lee, Randy Watson, Tommy Armstrong, and Brynaca Johnson. Visitors in attendance were Mary Wood (The Times), Jackie Lansdale (Red River United), and Scott Hughes.

Ms. Priest announced that the insurance presentation by Mr. Watson will be rescheduled for another meeting in the next couple of weeks.

**CEEF.** Ms. Priest shared with the committee that she met with Mr. Lee earlier this month regarding the CEEF fund balance as reported in his response to Mrs. Crawley’s request. She highlighted history of the CEEF committee’s recommendations and the list of schools with CEEF funds allocated to each and that there is currently $123,000 available for allocation. She added that the list indicates some schools are spending their allocated funds; however, some schools still have unspent funds and the question was raised is this because they are saving these funds toward something specific.

Staff also responded to the committee’s questions regarding the CEEF funds explaining that these funds come to the district from the two riverboats in Caddo parish (Sam’s Town and Diamond Jacks), and the district can only draw off the interest earned from these funds (this process established by Legislative action). Mr. Lee also explained that because the interest has been so low for the past several years, the CEEF Committee decided to hold the interest and allow it to build before a distribution is made to the schools. It was also explained that in the beginning the interest was distributed evenly to all schools and later the Committee’s recommendation was to tier the allocations based on school enrollment ranges.

Mr. Lee reported that a CEEF Committee meeting will be scheduled as soon as he receives the names of teachers to include along with organization representatives, et.al. Following that Committee meeting, a recommendation will be brought to the Insurance and Finance Committee for review and submission to the Board for consideration.

**$100 Teacher M&S.** Ms. Priest reported on her meeting with Mr. Lee to discuss how the district can utilize the $123,000 from CEEF and possibly the funds from the State supplement to give teachers the $100 M&S. Mr. Lee explained that to give teachers the $100 it would cost the District about $45,000 which could possibly come from the one-time State supplement after half of the State allotment is distributed to certified teachers and possibly something to support staff. Mr. Lee further explained that the General Fund gives each school $50 per teacher and the principals can be told that this is for each teacher’s M&S and it is possible that $35 can be allocated from the CEEF funds to each teacher and the remaining $15 (to grant a total of $100 per teacher for M&S) can come from the one-time State supplement.

Mr. Ramsey noted that this will help this year, but this is an agenda item that keeps coming back each year and he would like to see the Finance Committee look at a possible permanent solution for providing the additional $50 (to be added to the $50 per teacher given to the schools from the General Fund) to give each teacher $100.

Mrs. Armstrong stated her concern that the money has already been allocated to the schools for this year, and Mr. Lee explained that they receive a preliminary allotment in the Spring, which many schools use to order books, and will not receive the remainder until the October 1 student count. Mrs. Armstrong added that she wants to make sure the principals are aware before they spend the $50 that it is to be allocated to each teacher for M&S.

Following discussion, the committee members were in agreement that a permanent solution needs to be sought and this item placed in the budget annually.

Mrs. Lansdale shared with the committee finding from her research and how since its inception the funds have been allocated to the schools; and because the manner in which it is allocated has changed, she doesn’t believe the committee is bound by how it has been allocated in the past.
She also added that she believes the Board would want an account of how the funds are being spent and encouraged consideration of dedicating CEEF funds to the Teachers M&S.

Mr. Ramsey announced that he will send a note to the Audit Committee to look further at this. Ms. Priest commented that in looking at the balances and the schools that have large amounts of money, she would like for the resources of these dollars to be looked into and a report provided.

**Future Meetings.** Ms. Priest announced that Mr. Watson will make a presentation on insurance renewals to the Insurance and Finance Committee on September 3rd at 2:00 p.m. She also announced that on September 9th at 3:30, employees and organization representatives will meet with the Committee to hear Mr. Watson’s presentation, and on September 26 at 2:00, following receipt of additional input, the committee will meet to discuss the options for now and in the future and a recommendation for the Board’s consideration.

Ms. Priest announced that additional topics for the committee’s future consideration will be putting plans in place to set aside funds for new construction and the District’s indebtedness and how much can the District seek without increasing any taxes. Mr. Ramsey added that as we move forward, it is important to look at what the District will look like in 2014-15.

In follow up to the Committee’s request at the last meeting, Tommy Armstrong provided a one-page total numbers on liability claims and reserves.

**Adjournment.** There being no additional discussion, the meeting adjourned at approximately 3:25 p.m.
The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at approximately 3:30 p.m. on Tuesday, August 20, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present was Legal Counsel Reginald Abrams, staff and visitors. Mr. Rachal led the prayer and Pledge of Allegiance.

VISITORS

Scott Hughes, Alliance for Education, addressed the Superintendent Search process and that after two searches during the search five years ago, the Board is now faced with the same challenge. He encouraged the Board before it begins this search to slow down and look closely at what may have happened last time. He stated his concern that there were not more quality applicants and the Board being dead-locked on the two local candidates. Noting that there are dozens of current employees that hold the certification for superintendent, he raised the question as to why they did not want to apply. Mr. Hughes encouraged the Board to review its compensation package, especially in light of the fact that North DeSoto is paying $167,000, and Bossier $180,000. Relative to the timeframe, he stated he believes anyone the Board might look to hire is currently running a school district and they are focused on getting that school system open; but again, he encouraged the Board to slow down and determine how the 12 members can find someone that hopefully all 12 can support.

Superintendent Search Process. President Ramsey announced that at 4:20 p.m., he will stop the discussion for consideration of any possible motion. He also announced that this meeting is to address how the Board moves forward with the superintendent search, and several options were supplied to Board members and other items have been added for the Board’s consideration.

Mr. Hooks stated his agreement with the suggestion to slow down, because the Board has spent over $30,000 and has not come up with anything. Mr. Ramsey asked Mr. Hooks if he has any questions, and Mr. Hooks asked if this search has to start today? Mr. Ramsey responded that is the will of the Board as it voted at the last meeting to commit to at least having the discussion on how the Board moves forward. Mr. Hooks asked Mr. Mainiero if the search starts today if there is anyway the Board can utilize his expertise versus an outside source? Mr. Mainiero stated he is at the will of the Board; and if the Board directs the superintendent to make that assignment, he will make it happen. Mr. Hooks asked if the Board uses staff, will it save more than $30,000, and Mr. Mainiero explained that if the search firm continues its work, there is no fee and they will continue for as long as the District is in search of a superintendent with the only additional charges being any travel to Shreveport and advertising, which the first search totaled about $3,000.

Mr. Mainiero explained that McPherson and Jacobson are still under contract and can continue the superintendent search without paying a fee and work with the staff to recruit applicants, receive applicants and Caddo will pay for any additional advertisement. He further stated a timeline will be established as before. An additional option is, as the staff person, he can take over the advertising, establish a new timeline, and determine who will receive the applications.

Ms. Priest moved, seconded by Mrs. Crawley, that McPherson and Jacobson conduct a new superintendent search, recruit applicants, and accept applications with the understanding that there be no additional fee for the service except for travel that is deemed necessary by the Board; and that McPherson and Jacobson begin the advertisement of the vacancy in the following publications: AASA, The Shreveport Times, Caddo Citizen, LASE/LASS, LSBA,
Shreveport Sun, Top Schools (Journal Jobs) online no later than September 2, 2013 meeting the necessary legal requirements, the salary is negotiable, that the applicants be vetted by McPherson and Jacobson for superintendent qualifications/endorsements and background checks only. Those applicants meeting their requirements and passing the background checks and presented to the CPSB for review and analysis at least three weeks before the Board votes to interview finalists with the intent to hire a superintendent by October 25, 2013.

Ms. Priest stated that Mr. Mainiero and the Board President have reported that McPherson and Jacobson are currently under contract so there will not be any additional cost for them to provide the service of advertising and vetting the candidates. Mrs. Crawley said that it is not a question of whether or not the Board is going to do this, because the Board approved this at its last meeting; but she asked for clarification if a Superintendent must have superintendent certification or can it be the State can approve them based on the staff? Mr. Abrams explained that if McPherson and Jacobson works with the individual and certifies with the State that the candidate meets the qualifications to serve as Superintendent, it will comply.

Mr. Riall asked if he understands correctly that relative to the motion, in the first search McPherson and Jacobson eliminated certain candidates and submitted a certain number of candidates to the Board; however, they will not do that during this search, but will give the Board all the candidates? Ms. Priest clarified they will give the Board all the candidates who qualify after background checks. Mr. Riall asked if, since we have a contract with this company, this is acceptable to them? Mr. Gibson responded it is acceptable, and they will give the Board all the candidates that qualify.

Mrs. Armstrong noted that what Mrs. Crawley addressed is a non-traditional superintendent and Caddo has had a non-traditional superintendent. This works as long as there is someone on staff that is in a leadership capacity (assistant superintendent, chief academic officer) who has superintendent credentials; and if the Board decides to go with non-traditional, then it must remember that the person in the CAO position must have superintendent credentials.

Ms. Trammel stated, since there is a good motion on the floor, and because it was specified in the first search that the people wanted a local person, she asked if we are stopping the search within a certain region. Staff explained that it will not, because the publications recommended for advertising will actually make notice nationwide.

Mr. Hooks also reminded everyone that the people attending the community meetings spoke in favor of hiring someone local and he believes the Board should grant them that wish.

Miss Green stated that at the last meeting, she remembers Dr. Robinson stating she would not apply for the permanent position if she were appointed to the interim position. Mr. Ramsey said because the agenda does not have this item on it and the Board is discussing a specific item, he does not believe the group can address this.

Mrs. Crawford stated that the Board put this out and there are approximately 40 local people with the superintendent qualifications and all they had to do was to apply. She reminded everyone that as a member of this committee, anyone can apply for the position, and the committee cannot pick and choose what it will or will not listen to.

Mr. Pierson stated that it appears from the motion on the floor that the 12 Board members will be vetting the applications and he doesn’t understand why we will not allow McPherson and Jacobson to do what they did the year before. Mr. Pierson asked if he understands that the 12 Board members will conduct the remainder of the screening beyond qualifications and vetting.
Mr. Gibson reminded the Board that McPherson and Jacobson is employed by them until a superintendent is named; and the only additional expenses will be the advertising and travel to Shreveport.

Mr. Abrams stated that because of the Board’s concerns in the last search relative to the number of applicants they received, the intent of the motion is to make certain the Board receives an ample number of applicants. He added that in the past the Board would receive and review all the information on their own and then vote on each applicant. Mr. Pierson stated he believes it would be difficult and time-consuming if the Board receives 12 applicants and attempts to check the qualifications and vet each one, which is why he believes McPherson and Jacobson should do this.

Mr. Rachal asked Mr. Gibson if McPherson and Jacobson conducts the entire search again, what the cost will be? Mr. Gibson responded the only additional cost will be media advertising and travel to Shreveport. Mr. Rachal asked about the qualifications, and Mr. Ramsey responded that he believes the Board has a good list of qualifications. Mr. Rachal asked Mr. Gibson if he has any idea why Caddo did not get the applications it would like to have received and if there is anything that can be done differently in the new search? Mr. Gibson responded that they were just as perplexed as the Board that no more local candidates from Northwest Louisiana applied.

Mr. Abrams, as a point of information, stated that she has been on a number of superintendent searches and this was the first time the consultants limited the number of applicants given to the Board. She added that previously candidates have been vetted and background checks completed, but the candidates’ resumes were sent to the Board and Board members would study them before the Board voted to eliminate and select the candidates to be interviewed, which is a process she liked.

Ms. Trammel, in response to Mrs. Armstrong’s comments, reminded everyone that the Board asked about receiving all the applications and it was reported to the Board that the Board would receive certain information on each candidate; and also, the firm did not limit the number of applicants, but the Board limited the applicants; but she believes the more we receive, the better.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, August 20, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Interim Superintendent Dr. Mary Nash-Robinson, Legal Counsel Reginald Abrams, staff and visitors. Mrs. Bell led the prayer and Pledge of Allegiance.

Ms. Priest moved, seconded by Ms. Trammel, approval of the minutes of the July 16, 2013, July 22-24, 2013, July 25, 2013, July 29, 2013 and August 6, 2013 CPSB meetings as submitted in the mailout. Vote on the motion carried with Mr. Riall absent at the vote.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following students and staff members for recent achievements. President Ramsey and Interim Superintendent Robinson presented each with a certificate recognizing their accomplishment. Administrators, family and friends present were also recognized.

Ten Schools Coming Out of AU Status. The following schools were recognized for being removed from Academically Unacceptable Status: Barret Paideia Academy, Caddo Heights Math/Science School; Cherokee Park Elementary; Creswell Elementary; E. B. Williams Stoner Hill; Sunset Acres Elementary; Turner Elementary School; Booker T. Washington High School, Green Oaks High School, and Huntington High School.

National Board Certified Teachers. The following teachers were recognized for attaining National Board Certification: Kasie Mainiero, University Elementary; Annette Lee, Youree Drive Middle School; John Lary II, C. E. Byrd High School; Chelle Williams Ludke, C. E. Byrd High School; and Paula Rowe, C. E. Byrd High School.

Wilfred Broussard Award. Larry Anderson, supervisor, was recognized for receiving the Wilfred Broussard Award in recognition for his dedication and service as a Supervisor of Child Welfare and Attendance.

Newly Appointed Administrators. Dr. Mary Nash-Robinson introduced and welcomed the following newly appointed principals: Tiffany Brown, Alexander Learning Center; Ramona Myrick, Arthur Circle; Greg O’Quinn, Barret Paideia Academy; Dawn Tyson, Shreve Island Elementary; Paul Zachary, Vivian Elementary/Middle School; Renee Ellis, Westwood Elementary; Kenneth Berg, Caddo Career & Technology Center; Dr. Stacey Russell, Booker T. Washington New Technology High; Dr. Marby Barker, North Caddo High; and Dr. Cedric Ellis, Woodlawn Leadership Academy.

VISITORS

Hayden Flynt, speaking on behalf of his sister, Kelly Flynt (student), addressed the Board relative to issues she faced at Byrd High School and not being able to accelerate, take E2020 courses and skip her Freshman year. He said because she has not been able to accelerate and skip a grade, she was ineligible for Byrd’s Math/Science magnet program, and a student is not allowed to accelerate in Byrd’s Math/Science magnet program. Even though this turned out to
not be a problem, she was then told she could not be in Honors Chemistry because she was not enrolled in the Magnet Program, even though she was in Honors Biology during her Sophomore year. Mr. Flynt shared correspondence between his sister and the principal requesting placement in a true Honors chemistry class; and when she approached the principal, he thought it was from the Mother, and again responded that because she was not in Honors program, she would stay in the class she was assigned. He said this is not right and there are State laws designed to encourage students in this regard. Mr. Hayden stated his sister also just learned she may not be allowed to enroll in Dual Enrollment Classes because her high school (C. E. Byrd) will not accept PSAT scores as credit for dual enrollment. He said he believes this is discrimination against her succeeding and something needs to be done to address this issue. Dr. Robinson will follow up on this issue.

Jon Glover, employee, shared disappointment that the Board did not select a superintendent when the Board, along with the Advisory Committee, devised the criteria for determining viable candidates for the superintendent. She further stated that everyone relied on the Board’s judgment, and she believes the people are owed an explanation. Ms. Glover stated the former superintendent shared with everyone that 10 of Caddo’s AU schools were released from the State and asked the Board to share with everyone what steps were taken to facilitate such a release, because she questions if the information given is valid. She also stated her belief if Caddo had a superintendent in place today, surely the question could have been addressed. Saying that in 90 days the Board will have someone to fill the vacancy, she questions how this will happen when the Board could not name someone after seven months. Ms. Glover encouraged the Board to be honest with everyone and explain why it is important to start the search again.

Jackie Lansdale, president of Red River United, addressed the Board on the following concerns: the Board said that because it does not know how it will allocate the MFP funds, it would be referred to committee and that they take umbrage to that since they have fought hard to get this. She said this is the teachers’ money and needs to come to them and it is up to the Board to say when it will happen. When referencing essential personnel, she believes in addition to the teachers, bus drivers and other support personnel are just as essential; and since their take home pay is now less because of increased insurance costs, the Board needs to look at the state allocated funds and provide something to these employees as well. Mrs. Lansdale also referenced the Finance Committee meeting, the discussion on the supply money and the need to look at the budget and hopefully identify a funding source to provide at least $100 to teachers for supply money annually. She also reported that the policy the Board approved providing 225 planning minutes per week is being violated and she also referenced the stipulation in Bulletin 741 that states a teacher cannot provide more than 750 instructional minutes per student, per week and teachers are getting above that because they are not being provided the planning time provided in policy. Mrs. Lansdale also said that regarding the Personnel Evaluation Plan based on Bulletin 130, Act 54 is contrary to Bulletin 130. She said that Act 54 states that every observation must be announced and the PEP states one has to be announced and one unannounced. She said this will create problems because every time there is an evaluation or observation unannounced and a teacher brings it to her, there will be an immediate challenge.

Mr. Rachal asked for a determination on this fact and a report back to the Board. Dr. Robinson explained that staff is aware of the conflict between Bulletin 130 and Act 54 and staff will follow up with the State Department. Mrs. Armstrong asked if the Plan needs to be amended or can the amendment be sent to the State Department at a later time? Dr. Robinson explained that because it is important to move forward, the plan is to announce any classroom observation.

Mr. Abrams explained that he believes it would be a good idea to state in the cover letter to BESE that we are aware of the discrepancy and announce to BESE that it needs to be corrected. He also stated that when the motion is made to approve the Personnel Evaluation Plan, it can be made with the change that both observations will be announced.
Sandra Hancock, paraprofessional, addressed the Board on her position and the work she does with special education children. She noted her per month pay and all the deductions taken from her monthly salary and asked the Board to consider a fair raise for the paraprofessionals.

Glenn A. Davenport, employee, shared with the Board the harassment he has experienced since coming to the Board with his concerns. Knowing that harassment can ultimately bring about unfavorable actions, he stated that this harassment has become unbearable and there should never be a time when an employee is exposed to such practices. He said it is his intent to bring to the Board’s awareness the practices in his immediate work environment that are bringing about this harassment. Mr. Davenport closed by stating that he expects retaliation, but he will only speak louder. Mr. Hooks said he has asked in the past that staff look into this complaint and Mr. Ramsey asked Dr. Robinson to follow up. Dr. Robinson responded staff has worked on this issue and will continue to work to resolve any issues in this personnel matter.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA FOR THE AUGUST 20, 2013 CPSB MEETING

Interim Superintendent Mary Nash-Robinson highlighted items for the Board’s consideration at the August 20, 2013 CPSB meeting and the following discussion ensued. Mr. Ramsey announced that the following items are presented as the Consent Agenda items, Items 6.01-6.03, 7.01, 8.01, 8.03, 8.05-8.08 and 13.01. Ms. Priest moved seconded by Mr. Rachal, to approve the proposed agenda and consent agenda for the August 20, 2013 agenda as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Mr. Pierson moved, seconded by Ms. Trammel, to approve the consent agenda (Items 6.01-6.03, 7.01, 8.01, 8.03, 8.05-8.08 and 13.01) as presented by the Board. Vote on the motion carried unanimously. The following is a summary of the Board’s action on the consent agenda items.

Item No. 6

**6.01 Personnel Recommendations.** The board approved the personnel recommendations as recommended by staff and submitted in the mailout.

**6.02 Personnel Transactions Reports – Certified and Classified Personnel.** The board approved the personnel transactions reports for the period of July 1, 2013 to July 31, 2013 as recommended by staff and submitted in the mailout.

**6.03 Administrative Contracts.** The board approved the renewal of administrative contracts as recommended by staff and submitted in the mailout.

Item No. 7

**7.01 Purchasing.** The board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheet: (1) Riddell/All American for a unit base price of $20.20 per helmet for Football Helmet Reconditioning. A copy of the bid tabulation sheet is attached and made a part of the permanent record of the August 20, 2013 meeting.

Item No. 8

**8.01 2013-14 Caddo Parish Pupil Progression Plan.** The board approved the 2013-14 Caddo Parish Pupil Progression Plan as submitted in the mailout.
8.03 Mental Health Interagency Agreements and Contracts. The board approved the Mental Health Interagency Agreements and Contracts as recommended by staff and submitted in the mailout.

8.05 Long-Term Use of CPSB Facilities. The board approved the requests for long term use of CPSB facilities as recommended by staff and submitted in the mailout.

8.06 Approval of Coca-Cola Concessions Contract for Southwood High School. The board approved the Coca-Cola Concessions contract for Southwood High School as submitted in the mailout.

8.07 Approval of Shared Services Agreements – Linwood Charter School and Linear Middle School. The board approved the shared services agreements with Linwood Charter School and Linear Middle School as submitted in the mailout.

8.08 Out of State Travel. The board approved requests for Out-of-State Travel (General Fund) as recommended by staff and submitted in the mailout.

2013-14 CADDO PARISH PERSONNEL EVALUATION PLAN

Mrs. Crawley moved, seconded by Mr. Rachal, to approve the 2013-14 Caddo Parish Personnel Evaluation Plan with the amendment of announced observations which brings it in compliance with Act 54 and a letter of explanation to BESE. Vote on the motion carried unanimously.

AWARD $500 FOR ACADEMIC RECOGNITION CELEBRATION TO THE 10 SCHOOLS THAT MOVED FROM AU STATUS

Mr. Rachal moved, seconded by Mrs. Bell, to award $500 for academic recognition celebration to the 10 schools that moved from AU status.

Mr. Rachal stated these schools deserve this recognition for their hard work and this is only a small token of appreciation recognizing their accomplishment. Mrs. Bell echoed Mr. Rachal’s comments.

Mr. Hooks said he agrees with the motion but he believes there is no proof until October. When talking about State Superintendent John White, he believes we need to thank him and the BESE Board because they changed the scale from 200 to 150. Mr. Ramsey stated the comments are beyond the scope of the motion to award these schools $500.

Mr. Pierson stated that having been in the system for many years, he recognizes the hard work of principals, teachers and the students in reaching this milestone; however, he also recognizes the supervisors and the other staff members, including the former superintendent, who made the changes and provided the support needed to help raise these schools out of the AU status.

Ms. Trammel referenced hearing no proof, but one can go online and see these results, and she believes it is proof enough to move to the next step. While the proof may not be what we read from the State Department, she is willing to express “job well done” to these schools for doing what they needed to do.

Ms. Priest said we did receive notification from the State Department of Education and asked staff to explain how the schools were removed from AU status. Mrs. Woodard explained that the accountability structure did change and for the high schools, they included ACT scores that have not been included in the past and EOC were also weighted as part of the formula, resulting in
heavier weighting in the testing area. She added the 200 point scale did change to a 150 point scale and that conversion means we cannot compare last year to this year but the bar for unacceptable was 50.

Mrs. Bell moved, seconded by Miss Green, to call for the question. Vote on the motion to end debate carried.

Vote on the main motion carried unanimously.

**DISTRIBUTION OF ADDITIONAL REVENUE FROM STATE SUPPLEMENT TO CADDO PARISH CERTIFIED CLASSROOM TEACHERS**

Mr. Rachal moved, seconded by Mr. Riall, to approve the allocation of additional State funds as follows: (1) a one-time $800 supplement to all teachers, as defined by Bulletin 1929, to be paid before December 5, 2013, and (2) remaining funds to be held and referred to the Finance Committee to study all options available and present a recommendation to the Board on or before November 15, 2013.

Mr. Rachal thanked Mr. Lee for presenting the information requested. He stated he believes we have a windfall, but at the same time some very serious financial issues need addressing and the Finance Committee should take the remaining funds, review how they best believe they should be distributed and bring a recommendation to the Board by November 15th. Relative to the recommendation for the teachers, he believes distributing it during the Holidays is a time when they all will need it. Mr. Riall echoed Mr. Rachal’s comments.

Mrs. Crawley stated she believes the Board should plan things further in advance and she asked if the $1.7 million is an additional amount from the General Fund? Mr. Lee explained that will come from the other half of the additional funds and not from the fund balance. Mrs. Crawley also asked if there is a clear definition of teacher, and Mr. Lee explained that the Bill references Bulletin 1929 which clearly states the specific accounting functions and object codes that teachers’ salaries are credited to. He added it does not include counselors, librarians, etc., but strictly teachers in the classroom. Mrs. Crawley asked about substitutes (long-term) and Mr. Lee said this is not one of the account codes specified in the Bill.

Mr. Hooks asked about classified employees and Mr. Ramsey explained that the motion refers that part to the Finance Committee and requests that a recommendation be brought to the Board by November 15th. Mr. Hooks asked if employees will still get the $500 Christmas bonus, and Mr. Ramsey explained that this supplement is on top of the $500 check at Christmas.

Ms. Trammel asked how many teachers will receive the supplement? Mr. Lee stated that it is approximately 2,300, but he can provide an accurate number on Wednesday. Ms. Trammel asked about the support employees and if it excludes those listed. Mr. Lee said he envisions, if the Board approves, an amount from the second half of the state supplement being allocated to everyone else.

Mrs. Crawford asked if we don’t do this before November, will staff be able to allocate the monies before Thanksgiving, and Mr. Lee responded that he does not believe it will be an issue.

Mrs. Crawley asked if the Board votes on this at the November meeting, how can it possibly be allocated to the employees by the Thanksgiving Holiday. Mr. Ramsey said he believes the Finance Committee can bring a recommendation in time to make this happen.

Miss Green asked if she understands correctly that the Finance Committee will bring a recommendation and Mr. Ramsey confirmed that is correct.
Mr. Rachal restated his motion to approve the allocation of additional state funds as follows: (1) a one-time $800 supplement to all qualified teachers as defined by Bulletin 1929 to be paid on or before December 5, 2013, and (2) the remaining funds to be referred to the Finance Committee to study all options available and present a recommendation to the Board on or before November 15, 2013. Mr. Abrams clarified that Bulletin 1929 followed the enabling legislation for the payment and that is payment to teachers as provided in the legislation that appropriates the money. *Vote on the motion carried unanimously.*

**ANNOUNCEMENTS AND REQUESTS**

Miss Green congratulated her school for coming out of AU status and thanked the faculty and staff for a smooth opening of school.

Mrs. Bell extended an invitation to attend District 12’s academic celebrations – Turner on September 20th and Huntington on September 27th.

Mr. Rachal congratulated all staff on a successful opening of school. While he received a few calls, he received far fewer calls than in past years. He also announced he will bring an item on the agenda next month relative to the Brandon Goyne Foundation.

Mrs. Crawley asked for a list of all substitutes teaching in the classroom (school, grade, subjects). She also asked staff to look into the student situation at C E Byrd because we need to be flexible with students and meet individual needs. Also, she asked why the policy reflecting the planning period time (225 minutes) is not posted to the web.

Mr. Riall welcomed Dr. Robinson as the new interim superintendent.

Ms. Trammel invited the Board to Caddo Heights for a celebration. Relative to substitutes, she would like to know how many subs are being utilized in Central Office and in what areas they are working.

Mr. Rachal requested a report on classroom sizes, type of class, at University, Youree Drive and Captain Shreve.

Mr. Ramsey recognized Mr. Ford, new Deputy Superintendent for Transformation for the State Department of Education.

Dr. Robinson expressed appreciation on behalf of the staff for the recognition of the smooth opening of school this year and she recognized those members of the team in the audience.

**Adjournment.** Mr. Pierson moved, seconded by Ms. Trammel, to adjourn. *Vote on the motion to adjourn carried unanimously* and the meeting adjourned at approximately 6:05 p.m.

______________________________________ ________________________________
Mary Nash-Robinson, Ph.D., Interim Secretary Larry E. Ramsey, President
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at 4:30 p.m. on Tuesday, August 21, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins and Reginald Abrams, legal counsel. Mrs. Armstrong led the prayer and Pledge of Allegiance.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of Communications, on behalf of the board and staff, recognized the following students and staff members. President Riall and Superintendent Dawkins greeted each one and presented them with a certificate recognizing their accomplishment. Administrators, family and friends present were also recognized.

South Highlands Student Wins First Place Art Award. Ashini Modi, third grader at South Highlands, was recognized as the first place winner in Group 2 of the art portion of the Environmental Awareness Art & Language Arts Contest sponsored by the Alcoa Foundation.

Caddo Parish Magnet Student Attended American Legion Boys Nation. Joshua Smoak, senior at Caddo Parish Magnet High, was recognized as one of 98 high school student representatives throughout the United States chosen to attend The American Legion Boys Nation in Washington D.C. Joshua was one of two delegates selected from Louisiana based on leadership skills, academic record and activity at the American Legion Boys State.

Caddo Parish Magnet Student Competed in the Paralympics Trials. Lakeria Taylor, 9th Grader at Caddo Magnet High, was recognized for her accomplishments in the Paralympics Trials. Lakeria, who lost her sight as an infant, began running at age 5 and recently participated in the Endeavor Games in Edmund, Oklahoma. She participates in the 100-meter, 200-meter, 400-meter, shot-put, discus, javelin and long jump. Mr. Mainiero stated Lakeria’s new goal is to compete in the Paralympics games at the Summer Olympics in Rio de Janeiro, Brazil in 2016.

Summer Grove Elementary Teacher Wins “One Class at a Time” Grant. Kelli Simmons, teacher at Summer Grove Elementary, was recognized for receiving the $1000 KTBS 3 “One Class at a Time” grant. Ms. Simmons plans to use the grant money to purchase LeapPad Explorer games that can be used throughout the curriculum.

North Caddo High School Teacher Attends Naval Academy. Karen Merritt was recognized as being one of 24 teachers from around the country to attend the 19th annual session of the distinguished Maury Project Workshop offered by the U.S. Naval Academy. This project is designed to give science teachers an in-depth study of various oceanographic and meteorological subjects including waves, tides, density and wind-driven oceanographic circulations.

Eighteen Caddo Schools Win Wings to Wellness Awards. The following schools were recognized for outstanding performance (achievement) in the areas of physical activity, nutrition,
and healthy behaviors through the year-long activities and programs: A. C. Steere (Kim Derrick, principal and Janice Adams, wellness coordinator); Arthur Circle (Eddie Smithey, principal, and Michael Carroway, wellness coordinator); Atkins (Mia Brooks-Cooper, principal, and Dan Cezar, wellness coordinator); Claiborne (Ellen Hall, principal, and Scott Wooden, wellness coordinator); Creswell (Tracey Harris, principal, and Margo Newell, wellness coordinator); Stoner Hill (Michelle Franklin, principal, and Victoria Wade, wellness coordinator); Sunset Acres (Stacey Jamison, principal, and Sharon Campbell, wellness coordinator); University (Paula Nelson, principal, and Norma Buteau, wellness coordinator); Werner Park (Deborah Alexander, principal, and Arthur Duhan (retired); Westwood (Rudgerick Brown, principal, and Gene Noel, wellness coordinator); and Ridgewood (Scott Aymond, principal, and Jena Blair, wellness coordinator).

The following schools were recognized for distinguished performance in the areas of physical activity, nutrition, and healthy behaviors through year-long activities and programs: Fairfield (Pamela Graham, principal, and Erin Bergeret, wellness coordinator); Caddo Middle Magnet (Keith Burton, principal, and Linda Killian, wellness coordinator); and Booker T. Washington (Patrick Greer, principal, and Jennifer Edwards, wellness coordinator).

The following schools were recognized for performance in the areas of physical activity, nutrition and healthy behaviors through the year-long activities and programs: Bronze Wings--Riverside Elementary (Christy Terrill, principal, and Katherine Thomas, wellness coordinator); Alexander Learning Center (Dawn Tyson, principal, and Jason McElveen, wellness coordinator); Silver Wings--North Caddo High (Kenneth Berg, principal, and Lory Kowaleski, wellness coordinator); and Gold Wings--Herndon Elementary/Middle Magnet (Brenda McDonald, principal, and Sharlene Wilson, wellness coordinator). The “Gold, Silver and Bronze Wings” are given to the top three schools in Caddo that have exhibited a variety of events that included school, family and community participation in the area of wellness.

**Newly Appointed Administrators.** Dr. Mary Nash-Robinson introduced the following newly appointed principals effective with the 2012-13 school year: Dr. Stacey Russell, Barret Paideia Academy; Pamela Graham, Fairfield Elementary Magnet; Dr. Karon Rankin-Manning, Judson Fundamental Elementary; Shelia Gladney, Mooretown Elementary; Billy G. Williams, Broadmoor Middle Lab; Tellauance Graham, Caddo Middle Career & Technology Center; Rick Carson, Youree Drive Middle School; Richard Dezendorf, Caddo Career & Technology Center; Travis Smith, Huntington High; and Kenneth Berg, North Caddo High.

**VISITORS**

Kelley Flint, Byrd High School student, addressed her desire to take Biology I Honors; but because she is not enrolled in the magnet program at Byrd, she was told she is not eligible to take that course and must take Biology I Enriched. She said as an academically Gifted neighborhood student, she has the right to enroll in rigorous courses under the Gifted umbrella, and this is not only discouraging to her, but she believes it is discriminatory against her trying to achieve academic success, and hypocritical. She cited Caddo’s mission and vision to improve the academic achievement of all students and to afford every student the opportunity to compete in a global society and Caddo’s values to embrace the individual growth of every student and that these include her. Miss Flint stated she presented her issue to the Chief Academic Officer, but the solution was to keep her in Enriched Biology I and give her Honors Biology I credit. With the superintendent’s message of high expectations of everyone (students, teachers, administrators, and parents), she is led to believe that he too shares high expectations; however, when made aware of her plight, the superintendent said he would take care of it Monday, and the same response came the following Friday. Miss Flint also cited her records which indicate that Honors I Biology is merited, and Act 660 which states that students shall be allowed to accelerate their academic process, provided flexible courses, and empowered to take new paths.
Vanessa Naquin, parent of an autistic daughter at Huntington High School, addressed the board on her desire to be an actively involved parent in her daughter’s education as well as the lives of other special needs children. She asked the board to define parent involvement, what is expected of her as a parent, and the limitations of her involvement in her daughter’s education so she can be a parent on the campus.

Jackie Lansdale, president of Red River United, reminded the board of State Superintendent John White’s presentation to the board, and pointed out the other part of the story not told as it relates to preK and that no child should ever be in a situation where they cannot avail themselves of a quality preK education; however he did not say that every child will not be able to avail themselves of the services of a preK program because Caddo does not have universal preK. Superintendent White also stated that Caddo has TAP; however even though Caddo does, there is no compensation for it in Caddo and is why staff has dragged its feet on moving forward. He also talked about the opportunity for mentor and master teachers which will be a boom to public education by compensating teachers for helping teachers that don’t become administrators. Mrs. Lansdale also stated that Mr. White said TAP is 50% just like Value Added and this is not true, and she challenged board members to look at any of the TAP models which will reflect that it is 30% student score and 20% SPS. For Value Added, it’s 50% for student scores and there is not an SP Score factored into it. She said the board has a fiduciary responsibility and encouraged the board to look at roll forward opportunities and ask the public if they would support it for addressing unfunded mandates, lack of state funding, charter schools, vouchers, etc. She also reminded the board that it will be responsible for developing a new salary structure prior to January 1 to be turned into the state; and she encouraged the board to be the fiduciary manager and policy maker for the Caddo District and do what needs to be done.

Celeste Powell, Occupational Therapist for Caddo Parish Public Schools, asked the board to favorably consider her request to relook at the recommendation from Rahmberg, Stover regarding her position as she is the only OT/PT that was affected the way she has been affected and is the only 12-month employee (OT/PT) remaining.

**ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA**

Superintendent Dawkins highlighted agenda items for the board’s consideration and the following discussion ensued. Mr. Rachal asked that Item 7.07 “Resolution Re: Caddo-Bossier Port Proposed Roll Forward” be pulled. Mrs. Crawley requested that Item 7.09 “Bus Transportation for Stoner Hill students at Apartments on Stoner Hill and Viking...” be pulled and that Mr. Abrams and staff draft a policy listing exceptions to the one-mile radius. Miss Green and Ms. Trammel stated their agreement with Mrs. Crawley’s request relative to Item 7.09. Item 12.02 “Legal Update......” was also postponed. President Riall announced that Consent Agenda items are 6.01, 7.01, 7.04, 7.06 and 12.01. Ms. Priest moved, seconded by Mrs. Bell, to approve the proposed consent agenda as presented. Vote on the motion carried unanimously, and the following is a summary of the board’s action on consent agenda items.

**Item No. 6**

*6.01 Bids Purchasing.* The board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheet: Buckelew, Inc., totaling $128,654.46 for the purchase of Large Kitchen Equipment. A copy of the bid tabulation sheet is made a part of the permanent record of the August 21, 2012 meeting file.

**Item No. 7**
7.01 2012-13 Caddo Parish Pupil Progression Plan. The board approved the 2012-13 Caddo Parish Pupil Progression Plan as revised and submitted in the mailout.

7.04 Approval of Revision and Addendum to Caddo Performance Evaluation Plan and New Job Descriptions for Principal, Assistant Principal, and Elementary Instructional Coordinator. The board approved the proposed revision and addendum to the Caddo Performance Evaluation Plan and new job descriptions for principal, assistant principal and elementary instructional coordinator as submitted by staff in the mailout.

7.06 Out of State Travel. The board approved requests for Out of State Travel from the General Fund as recommended by staff and submitted in the mailout.

Item No. 12

12.01 Student Readmission Appeal. The board approved staff’s recommendation for B.C. as submitted in the mailout. Parents are in agreement.

RAHMBERG RECOMMENDATION, RE: OCCUPATIONAL THERAPIST

Mr. Rachal moved, seconded by Mrs. Armstrong, to restore the salary configuration as established and vacation as established prior to compensation plan approval. Mr. Rachal stated that one employee was singled out and disenfranchised, and he doesn’t understand why we are telling a 13-year employee their salary will be frozen for 10 years. Also, while the new pay scale shows her gaining vacation, money is still being taken away. Since other individuals classified as OT or PT have been addressed, Mr. Rachal said correcting this employee’s situation is the right thing to do, and he appreciates the board’s support to correct this issue for this employee.

Mr. Abrams explained that the motion as presented by Mr. Rachal states going back to the old formula, which addresses all the employees whose salary is based on the teacher salary schedule; and if approved, it will affect more than this one employee. Mr. Rachal verified that is what he is asking versus this employee not receiving any additional income for 10 years.

Mrs. Armstrong stated that when this matter was first brought up, it was indicated that this employee’s daily rate of pay is less than the other OTs and she is doing the same work. She believes this is inconsistent and unfair, and this one employee should not be discriminated against because she works 12 months and the others work 9 months.

Board member Green asked for clarification and if there are two categories, one for the one 12-month employee who will be locked in, and another for the 9-month employees? Dr. Dawkins stated that the recommendation from the third party (Rahmberg) is this position is frozen for the period indicated and it is the recommendation presented to the board for this position. Miss Green asked if she understands correctly that this position is frozen for the 10 years. Mr. Riall responded that is correct and it only affected this one position.

Mrs. Crawley asked the superintendent if it is correct that this employee’s daily rate of pay is less than the other OT/PTs? Dr. Mary Nash-Robinson explained that she made the statement in the work session related to the structure of the current salary schedule, and in most cases when you compare two positions that are similar and one is 12 months (260 days) and the other is 9 months (182 days or 192 days), the 260 day position will have a daily rate that is less than those with 182 or 192 days. Mrs. Crawley asked if her duties are different for the extra 68 days she works? Dr. Robinson said it is the same job description with the only difference being the calendar year. Mrs. Crawley asked if Rahmberg looked at this scenario before the change in the compensation plans? Dr. Robinson referenced the last page in the package on the history from the year before the compensation plan was implemented to where we are currently. Mrs. Crawley noted a
supervisor’s position that even though they make more money, their daily rate of pay is less because of the number of days worked; and she doesn’t believe this makes sense even though she does understand Fair Market Value. Mrs. Crawley asked how many people are frozen at their current salary, because to her this means these employees have, for that number of years, been paid more than Fair Market Value. With staff not having that information on hand, she asked if Mr. Rachal’s motion will grandfather this employee in and any new employees hired will be under the new plan? Dr. Robinson explained this employee is the last employee with this 12-month calendar year and all the others, including future hires, have a 9-month calendar year. Mr. Lee pointed out that if the motion on the floor passes, there is another category of employees (Special Education Diagnostician) that will be affected since their salary is also on the teacher salary schedule, the same as this employee. Mrs. Crawley asked if we have always paid the additional 68 days at a lower rate? Dr. Dawkins restated Dr. Robinson’s analogy that those who work longer (260 days) have a lower daily rate of pay. Dr. Robinson said that is consistent and those in the school building who come to work at Central Office and assume a 260-day calendar year soon find out that their daily rate is less than when they were on the school campus. Mr. Abrams explained that is because the new position held is categorized higher and requires more days and it is a promotion; however the daily rate of pay is less because their annual salary is now divided by 260 days rather than the 182 days. Dr. Dawkins also added that employees are not purposely paid less, but they work more days which results in the daily rate being less. Mrs. Crawley stated she doesn’t understand why this employee’s daily rate should be less when she is doing the same job. Mr. Abrams further explained that according to Mr. Rahmberg, this particular position was being paid on the teacher salary schedule so they used 12/9ths to pay this employee; however, because this employee was on the teacher salary schedule, and getting holiday time as well as accruing vacation time, Rahmberg backed these out, compared the annual salary to what PTs are making in the area, and determined this employee was actually being overpaid, which resulted in freezing her salary for a certain number of years. Mr. Abrams said the daily rates are actually an arbitrary number and will change based on the position held by an employee. Mrs. Crawley asked if her vacation was cut and she should get three weeks, but is actually only getting two weeks? Jim Lee responded that based on the number of years service (13 years), she should be gaining 1.25 days per month. Mrs. Crawley asked if she will get fewer vacation days if she works fewer days with the new schedule? Mr. Lee said staff would not go into the system and tell it to accrue fewer days for this employee. Ms. Priest asked someone who is intricately involved with the salary schedule to explain the potential impact to the District from other positions should the board support this motion? Mr. Lee verified that he knows that Special Education Diagnosticians will be affected; however he is unaware how many and what their salaries are, and he would need to research this to determine the impact. Ms. Priest asked if other OTs are paid on the teacher salary schedule plus get vacation and holidays. Mr. Lee responded this employee is the only 260 day OT based on the teacher salary schedule and all the other OTs are either 182-day or 192-day positions. Mr. Ramsey asked Mr. Lee if we have only one OT in this position and as we hire new OTs, is the 260-day position being phased out? Mr. Lee explained that the calendar for that position is being phased out. Mr. Ramsey asked Mr. Abrams if the motion on the floor will resurrect a salary plan that is non-existent? Mr. Abrams said he believes the intent of the motion was to put the salary schedule back to where it was prior to the change; but the salary schedule before was using 12/9ths plus $1500 plus 10% for everyone in that department, and he believes the maker of the motion clarified that he only wants to address the 260-day employee. Mr. Ramsey referenced the documents provided and asked if the salary is the same under the Arthur Anderson compensation plan as it is today? Mr. Lee clarified that it is similar and on the previous salary schedule it was figured on where this employee fell on the teacher salary schedule (and factored up to 12/9ths), plus 10%, plus $1,500; and the Rahmberg plan changed the 12/9ths to 221 over 182, which is the only thing in question at this time, because everything else has been given back to this employee through board action. Mr. Ramsey stated that this is
not uncommon in business practice. Mr. Ramsey moved, seconded by Ms. Priest and Miss Green, that the CPSB approve the Rahmberg recommendation and staff’s recommendation as presented. Mr. Ramsey said after hearing the explanations and reviewing the information, he believes it unfortunate that this has happened, but if the board tweaks one, there will be others. He reminded the board that it approved the salary plan in place, and this is the third time the board has asked for a review of this position and the answer has not changed.

Mr. Pierson said when he came to work at Central Office from the classroom, he made more money because it was a promotion; however, his daily rate of pay was less because he worked more days. He said it would be his recommendation that we give this employee a promotion to the next level and at the salary she had before, but not destroy the integrity of the salary schedule. He said he doesn’t believe it fair to this employee to address it any other way. Mr. Pierson moved, seconded by Mrs. Crawley, to look for a promotion for this employee that will put her at a salary schedule and not take advantage of her. Mr. Ramsey asked if this is done how many employees would now want a promotion; and if this is something we want to do, it would be an item to refer to staff for review rather than tacking it onto a motion that we are unsure what the impact might be. Mr. Pierson said he doesn’t have a problem authorizing staff to look into this and bring something back to the board; however, he believes it is something that needs to be looked at seriously, especially since this is the last employee in this position and we will no longer hire a 260-day OT. Mr. Riall questioned if there is even such a position? Based on legal advice, Mr. Pierson stated that he will withdraw his motion and ask staff to bring to the board something where by this one time situation can be resolved, placing this item on the agenda at next month’s meeting. Mr. Pierson asked Mr. Ramsey if he would accept a friendly amendment to his motion to refer to staff to look at all these type positions and determine if there is anything we can do. Mr. Ramsey said he would be willing to change his motion to refer to staff for review rather than tacking it onto a motion that we are unsure what the impact might be. Mr. Pierson referred back to his original motion, second by Mrs. Crawley, to authorize staff to look at a situation whereby a promotion can be given to this employee so that her salary is not frozen, and not jeopardizing the integrity of the salary schedule.

Since the seconds were not agreeable, Mr. Pierson referred back to his original motion, second by Mrs. Crawley, to authorize staff to look at a situation whereby a promotion can be given to this employee so that her salary is not frozen, and not jeopardizing the integrity of the salary schedule. Mrs. Crawley asked if she understands correctly that staff is to bring to the board by the next meeting a way to work this out for this employee. She said she does not want to set precedence, but she does agree with Mr. Pierson.

Mrs. Rachal called for a Point of Order and Mr. Pierson withdrew his motion; however, the second to Mr. Pierson’s motion did not agree to withdraw her second.

Mrs. Bell moved, seconded by Ms. Trammel, to postpone this item. Mrs. Bell said to her there are too many different opinions and this is a single situation; and she reminded the board of the number of grievances filed when the Rahmberg salary plan was implemented. She encouraged the board to support the motion to postpone and allow time to look closely at what the board will do before making a final decision for this one employee which will ultimately affect many others as well as the number of grievances the board would have to address. Ms. Trammel said she is trying to understand as it relates to this one employee if we are attempting to find a solution; but, at least five different recommendations have been brought forward, all of which appear to be geared toward the same thing. She said she understands everyone saying “when they were employed by the school system”, because she too for six years was in and out of frozen positions and no one to look at it for her. Ms. Trammel said all the board is doing now is talking; and if the board is going to give staff the chance to come up with a solution, which she thought we had come up with a solution via the proposed recommendation presented, it is important to give staff the time to look at options, i.e. giving this employee 182 or 192 days so that this 12-month job
can be eliminated and we will not have this problem in the future. Ms. Trammel asked if a 192-day calendar year has been offered to this employee? Dr. Robinson said staff has not offered this change to the employee, but staff has discussed this with the employee’s supervisor who has some thoughts in this direction. Dr. Dawkins stated for clarity that it’s important to be creative in coming up with a solution with known parameters because this employee deserves the District’s respect in addressing this situation. Ms. Trammel stated she believes the change can be made without cutting her salary or making a large impact on the District.

Mr. Hooks said he doesn’t believe this conversation would be taking place if the superintendent had given the board the information before voting on the current salary schedule. After reading the proposal, he doesn’t believe anyone in their right mind would have voted for it, and he doesn’t believe it is fair so this situation needs to be corrected. He also stated that the board needs to make sure it is clear when approving something. Mr. Hooks asked if he understands correctly that the OTs and PTs were put back on their old salary schedule, because he believes that to be so and he doesn’t understand why this employee was not done the same way. Mr. Hooks said it should be in the minutes where he told the board this would happen.

Mr. Riall reminded the board that the motion on the floor is to postpone and comments should be about postponement. Mr. Rachal stated he has no problem with postponement, but agrees with it with some direction. He believes the staff is intelligent and can come up with a job code for the one 12-month employee along with the possibility of this position being changed to a 9-month position. Mr. Rachal stated his appreciation for the open discussion on this item.

Mr. Ramsey moved to call for the question on all motions on the floor. Vote on the motion to end debate carried with Board member Priest opposed.

Vote on the motion to postpone this agenda item until next month and that staff bring back to the board creative ways to address this employee’s situation carried unanimously.

REVISION TO CADDO PARISH SCHOOL BOARD POLICY IKFB (GRADUATION EXERCISES)

Miss Green moved, seconded by Ms. Trammel, approval of the proposed revisions to CPSB Policy IKFB as presented in the mailout. Miss Green stated she brings this proposed revision because of an incident last May with twins and one twin got to march with their class and the other twin did not. She believes the policy should be if a student does not pass all requirements to graduate, then the student does not march with their class. Ms. Trammel stated her agreement. Mrs. Bell said with GEE no longer a part of the requirements and EOC test now in place, she can support this revision. Mr. Abrams stated that the new policy is not specific to the requirements, but only that a student will fulfill the necessary requirements and qualify for an appropriate diploma. Vote on the motion carried unanimously.

RESOLUTION OF LEVEL IV GRIEVANCE

Mr. Ramsey moved, seconded by Mrs. Armstrong, to uphold Level III positions to all grievances.

Miss Green moved, seconded by Mr. Hooks, to go into Executive Session for 15 minutes to hear a Level IV grievance. Mr. Abrams explained this motion is out of order and is a violation of policy; and if the board chooses to hear it, it will be heard at the next meeting. Miss Green moved, seconded by Mr. Hooks, that the Level IV grievance be heard by the board at its next meeting. Miss Green said this individual has come to the board several times to be heard; and she believes the board owes it to her to hear her grievance. Mr. Hooks said everyone is due due-process. Mr. Ramsey asked Mr. Abrams to explain the grievance process and the documents provided. Mr. Abrams reminded the board that it revised the grievance policy and now the
grievance is heard totally through the submission of documents and a transcript, which board members were provided. He further explained there will not be a hearing, but at the next meeting the board will hear an argument by each side and a recommendation. Everything else has been presented and no additional information will be submitted. Mr. Ramsey stated he read the information and his decision was influenced by the documentation presented. Mrs. Crawley said she believes we should let the attorneys speak and have more of a due process for these employees. Mrs. Bell said she believes this employee should be given due process, but she understands that after this particular grievance, these will no longer be brought before the board. Mr. Abrams explained this is not a personnel issue, but it is a grievance filed by an employee; and because it is the board’s policy to provide employees with due process, the board will still direct the superintendent on how grievances are to be handled. Mrs. Bell asked if the board will go into executive session and look at the documents presented, and Mr. Abrams clarified that the employee and the staff will present their sides to the board. Mrs. Bell said she believes we need to offer this employee the opportunity to present their side to the board.

Ms. Priest asked for clarification on the delay since the information was on BoardDocs, no attorneys will argue this procedure, and no additional information will be submitted. Mr. Abrams verified that is correct, and there are no additional attorney fees unless the employee hires legal representation and he finds it necessary to pass this information to an attorney for Caddo.

Miss Green said she doesn’t see what is so difficult about this issue, because it is simple to her for the board to go into executive session to hear the information. She encouraged the board to move forward with hearing this grievance next month.

Ms. Trammel moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate passed with Board member Priest opposed.

Vote on the substitute motion to postpone this item and hear it at the next meeting in executive session failed with Board members Riall, Priest, Crawford, Rachal, Ramsey and Armstrong opposed and Board members Green, Pierson, Crawley, Hooks, Trammel and Bell supporting the motion to postpone.

Vote on the main motion to uphold staff’s recommendation at Level III failed with board members Riall, Priest, Crawford, Rachal, Ramsey and Armstrong supporting the motion and Board members Green, Pierson, Crawley, Hooks, Trammel, and Bell opposed.

CLOSING OF ALL FACILITIES DURING THANKSGIVING WEEK

Mrs. Armstrong moved, seconded by Mr. Hooks, that all facilities for Caddo Parish be closed and all employees released for Thanksgiving week. Mrs. Armstrong stated she believes if the superintendent says closing the facilities saves the District money, the same as the four-day week, and because these employees did not receive a pay raise, the board can say thank you to them by closing Thanksgiving week. While she doesn’t want any appearance that this is wrong in any way by her bringing this, she announced she will abstain from voting on this item. Mr. Ramsey asked the superintendent if this information is new; and in light of this information, is it something the staff can recommend. Dr. Dawkins responded that staff discussed this at today’s staff meeting and staff supports this. Mr. Ramsey stated because the superintendent confirmed this is something staff recommends, he accepts it as a staff recommendation.

Mrs. Crawley stated that if the board approves this, the board will give only a small group of employees a thank you; and if the board approves this, it will only be fair if this group of employees receives the time off without pay. Ms. Trammel asked the maker of the motion if this
Ms. Priest stated her agreement with Mrs. Crawley and that doing this will give a small number of employees a pay raise. She asked if the superintendent met with the employees at the school-based site? Dr. Dawkins said he met with employees at the Central Office, and Ms. Priest stated if she were at Central Office, she too would support being off Thanksgiving week. She noted that the budget for the 2012-13 school year has been implemented and the calendar developed and she believes we should adhere to the schedule and structure in place. She doesn’t believe this is the proper thing to do and encouraged the board to consider the public’s perception.

Mr. Rachal called for the question. Vote on the motion to end debate carried with Board member Pierson opposed and Board member Green absent for the vote.

Vote on the main motion failed with Board members Riall, Pierson, Crawley, Trammel, Priest, Crawford, Rachal, Ramsey and Bell opposed. Miss Green was absent for the vote, Mrs. Armstrong abstained, and Mr. Hooks supported the motion on the floor.

APPROVAL OF PROPOSED REVISIONS TO CPSB REDUCTION IN FORCE POLICIES

Jackie Lansdale, president of Red River United, shared that employee representatives met with the superintendent last week in a policy meeting; and even though they did not have enough time to study this proposal, they have taken the time to look at it and do have some questions. Three areas they want to review further include teacher administration (each targeted subject area), area certification (need for more specificity), and effective ratings. She noted lawsuits filed because of a lack of understanding as to what category meant, and that an explanation is needed on effectiveness and the need for administrative procedures written into this policy. She said if the District was forced to reduce staff today under this new policy, it would be firing some of its best and brightest teachers because of the flawed Value Added model; and she suggested adding the verbiage “after all appeals have been completed”. She also asked the board to look closely at the verbiage of “at date of receipt of individual termination” and the fact that it says “date of mailing” and Forethought’s verbiage is “date of receipt of the notification”. Under recall procedures, Mrs. Lansdale said that recall procedures are counter intuitive as you have fired people based on their level of effectiveness but according to the proposed policy, the District would begin rehiring employees based on the most ineffective. She asked the board to request the superintendent to review this language, to consider the language relative to reducing a school site, and that meetings are scheduled in a timely fashion to address the new salary structure that must be in place by January 1.

Mr. Ramsey moved, seconded by Mr. Rachal to approve the proposed revisions to CPSB reduction in force policies. Mr. Rachal noted suggestions he heard relative to the timeframe on individual terminations and that the grievance must be in writing and filed within 10 school days from the date of mailing of the layoff notice and asked that the board consider adding “no later than 10 or 15 days?” Mr. Abrams explained that the date was changed because the last policy had 10 days after the layoff date, and the intent of the 10 days is to make certain we had a mailing date so someone knows what 10 days from that date would be, because “from date of receipt” will be hard to track. Mr. Rachal asked about adding as a friendly amendment “10 days after the date of receipt, but no more than 15 days from the date of mailing.” Mr. Ramsey stated his agreement with this friendly amendment.

Mrs. Crawley asked for clarification and doesn’t the board implement a reduction in force when it votes on the budget? Mr. Abrams said that is not what the statute says, and the changes in the policy are about efficiencies in the school system; and it is the superintendent that makes the
decision as to how many positions are necessary, and that decision is driven by demand and not by the budget. Mrs. Crawley asked if she remembers correctly that the last layoff was driven by the budget and Mr. Abrams said that is correct. Mrs. Crawley asked about any problem with adding “after all appeals have been decided.” Mr. Abrams responded that this proposed policy came from Forethought as a part of their policy, and the State Department also sent a policy and the language in this policy was taken directly from the State Statute on “How to do a Reduction.” Now the board will approve a policy and procedures will be developed through the superintendent, with the district having both a policy manual (board driven) and a procedure manual (Superintendent developed). She also asked about the rehiring process and that we would never rehire someone that is ineffective, and Mr. Abrams said that is not necessarily true, because it will depend on how and why it happened; and procedures established may allow for a lot of discretion. Mr. Abrams also added that if it is the board’s desire, recall procedures can be eliminated, and Mrs. Crawley asked why would the board want to eliminate procedures? Mr. Abrams responded because the board does not want to rehire ineffective people, and Mrs. Crawley stated that because they were let go doesn’t necessarily mean they were ineffective. Mr. Abrams further explained that the way the policy is written, if an ineffective employee is terminated, they would have to be rehired in a recall; and suggested that the verbiage be added that “an employee will not have recall rights under the RIF if they have been declared ineffective, unless approved by the superintendent.” Mr. Rachal stated that he believes this should be clarified under procedures.

Mrs. Crawford noted the comment that the first ones to go are ineffective teachers, but if a teacher has tenure there is a chance of 5-6 years, and what happens if a Gateway teacher’s students all pass, but three of those students did not take the advanced curriculum. Mr. Abrams said that is a true indication that this system has a lot of problems, but this will be a part of the procedures developed by the superintendent, recognizing that a system has been developed that we must use, but we still must be fair to other employees. Even though they may be a Gateway teacher, if the system declares them ineffective, how can one say they are a better teacher than someone at a lower performing school that could not reach their target. He stated that procedures will need to be very detailed and will be important in making these determinations; and it will be necessary to address these things so that there are no absurd results. Mrs. Crawford asked if the policy should reflect guidance as to the procedures? Mr. Abrams responded it does and it follows the language in the statute on how it is to be done. Mrs. Crawford stated that she believes the policy should be more definitive so that when the superintendent puts together the procedures, there is a clear understanding as to exactly what the board is asking in policy. Mr. Abrams noted that there could be a lot of exceptions, i.e. distinctions, and a procedure needs to be outlined that includes all possible factors. Mr. Abrams noted the section on teachers and administrators and that within the paragraph it references teachers and not administrators. Mr. Abrams said it means all administrators, and there must be an evaluation for all, including the superintendent, and staff will need to develop procedures within the parameters of the law.

Mr. Rachal noted another calendar issue under recall procedures that states “within seven calendar days”, and his question is “within seven calendar days of what?” Mr. Abrams said it should be within seven calendar days of the notice of recall. Mr. Rachal asked that the same 10 and 15 days be included in the verbiage to clarify. Mr. Abrams said there has been a lot of experience in this recall; and the reason why is we call and ask them if they want their job back as well as send a letter. Mr. Rachal asked what happens if someone is on vacation, and Mr. Abrams stated that the same language used in the first area discussed can be used in this area and it will be consistent. He asked if he understands correctly that the board needs to decide how it wishes the superintendent to put together the procedures. Mr. Abrams said that is not correct and the board approves policy and gives the policy to the superintendent to develop procedures as to how that policy will be implemented/carried out. Mr. Rachal said he wants something in the policy that addresses how the procedures are developed and asked if the board approves the
procedures? Mr. Abrams said it is not, and Mr. Rachal stated his concern that the board will approve policy and it is given to the superintendent to develop procedures. His concern now is what can be added to the policy relative to how these procedures are done and if the board can approve them once they are presented. Mr. Rachal referenced contracts and agreements and once the board approves it, asked if it is true that the board is giving the superintendent a blank check to move forward because he doesn’t do business that way. Mr. Abrams said the board hires a chief executive officer to run the district in accordance with the board’s guidelines and if the chief executive officer does not do so, then the board terminates that person. Mr. Rachal stated the board does not get to do that anymore, and Mr. Abrams said the board does have that authority. Dr. Dawkins said he has nothing to hide from the board and when the policies are in place, staff is charged with putting together the procedures, and these will be shared with the board. Mr. Rachal added that he is not referencing the current superintendent with his concerns, but this could be an issue down the road.

Ms. Priest asked if the procedures can be attached to the policy as a working document, and the procedures brought to the board when complete. She also asked if the September 1st deadline is one that is set in stone. Mr. Abrams responded that it is. Ms. Priest stated her belief that the RIF and the new teacher valued added could potentially bring about a lot of activity and possibly reduce teachers by 10% each year; and asked if this is being looked at in the procedures. Mr. Abrams said it should not be procedure, but the policy states that one does not consider how people are doing relative to the use of RIF policies strictly for a Reduction in Force because the State Statute does require that the appeal process is followed. Ms. Priests said that is the performance side of the policy and if the board is going to have to address these policies, she believes the board should have input into the steps to be followed. Mr. Abrams said he doesn’t believe the board should be making that determination and is something the administration should follow and it would actually be a part of the performance evaluation of the employee. Mr. Abrams reminded the board that the real issue will be addressing support staff because teachers are always in demand, and are not a group the board would look to lay off.

Mr. Pierson called for the question and the vote to end debate carried unanimously.

The vote on the main motion to approve the proposed revisions to the CPSB reduction in force policies as amended to include that no employee declared ineffective will have recall rights unless approved by the superintendent carried unanimously.

SUPERINTENDENT’S REPORT

Superintendent Dawkins reminded the board that Summer School Graduation is Thursday evening at 6:00 p.m., at Caddo Magnet High School.

Dr. Dawkins also updated the board on the opening of school and expressed appreciation to all staff at every level for the outstanding preparation provided in order to begin the school year. He thanked those who participated in Hop on the Bus the opening day of school and the great job done by Booker T. Washington High School, J. S. Clark Elementary School, and the Ombudsmen site at Bethune. Since the first day of school, Dr. Dawkins reported visits to Blanchard, Oil City, Fairfield, North Caddo, Timmons, Riverside, Barret, Turner, Huntington, Queensborough, Stoner Hill, Walnut Hill, and Mooratown, and the teachers were ready to teach and children were ready to learn. Some of the issues addressed included bus routes, late buses, and traffic flow at some of the schools. He also reported that the Attendance Office, Child Nutrition and Transportation assisted approximately 800 students in 2.5 days here at Central Office. Dr. Dawkins also noted an issue where boundary lines were not completely updated; however, staff identified the source and corrections made to get students in the correct location. Dr. Dawkins also reported that as a new year begins, it is important that academics remains the focus no matter what one might hear or see. He also noted that staff will continue to look at how
students are moved around in the district, i.e. old transfers, district assignments, building capacity issues, homeless children, foster children, because some students are in locations they do not need to be and it is important that they are where they will get the best chances possible for their education. He announced that a group of principals and other staff members will be put together to look at this and determine how best to move children around. Regarding Forethought, Superintendent Dawkins stated that the District has outdated and ineffective policies and it is very important to accelerate this process with Forethought. Dr. Dawkins announced he will ask for a community forum on September 19th or 26th to address the new educational environment in Louisiana so everyone will come to understand it. A School Performance overview with specific school information will be provided in September or October, and staff will also update the board on the status of Caddo’s MOUs, the Department of Education and where we go forward from this point. Dr. Dawkins also announced a complete Virtual School report will be presented at the September work session and shared a written update with the members of the board. The superintendent also reported that staff is obtaining cost and sources of funding for preK Centers in Caddo as well as the Year-round schools.

ANNOUNCEMENTS AND REQUESTS

Mr. Hooks expressed appreciation to Dr. Dawkins and staff for chasing down the MOU for Bossier Parish Community College and thanked Jim Henderson for bringing the Pharmacy Tech Course to Fair Park Medical Careers Program. He announced that when seniors complete this two-semester course, they will earn six college hours.

Mrs. Bell commended staff for the outstanding job on converting J.S. Clark and reminded everyone that if we had voted on the bond issue, all the schools would look like this. She also shared how impressed she is with the Barber Program at Booker T. Washington and the fact that they are partnering with VoTech. She also commented on the Ombudsman Program and that this program is what Caddo needed to help get these students on track. Mrs. Bell said there are a lot of positive things going on in Caddo Parish and she encouraged the board members to begin changing the perception on the street.

Mrs. Crawford reported that while attending the Southern Region Conference in Biloxi, she, Mr. Pierson, Ms. Trammel and Mr. Hooks learned a lot of new things, one of which was how other districts are addressing drops in attendance in school on rainy days. Other districts have improved attendance on rainy days by partnering with organizations that provide students that walk to school raincoats and rain boots. She said she has begun working on this in Caddo by talking to the PTAs and other possible sponsors about partnering and helping in this area.

Mrs. Crawley requested that staff provide a more uniform definition of the school day for the employees, i.e. times/days for faculty meetings, time the teachers must be at school in the mornings, times teachers must remain after school in the afternoon, etc. She also asked that the board attorney look at bus transportation exceptions, and that three or four years ago she asked for the cost of year-round schools for the entire district.

Miss Green asked that staff provide her with an accurate number of 6th graders at J. S. Clark and Newton Smith, as well as the accurate number of 6th graders at Newton Smith last year. She also said she agrees with the comments relative to Hop on the Bus and thanked Mrs. Moore and her staff for the services offered to parents in getting students enrolled.

Mr. Pierson thanked Mrs. Bell for the accolades to the District 3 schools and he thanked Steve White for the work he and his staff did to get J.S. Clark ready for the opening of school.

Ms. Priest asked administration to begin compiling a plan to charter Caddo’s own preK for the District; and that staff, in working with the Judicial System on drop-out recovery, invite Judges
Lattier and Stone to make a presentation at a future meeting on this program. She stated there are a number of students in Caddo Parish that drop out for a number of reasons and she doesn’t believe it acceptable to continue to allow these students to leave the system without attempting to recover them to work toward their diploma or a GED.

**Adjournment.** Ms. Priest moved, seconded by Mr. Pierson, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 8:05 p.m.

_________________________  ________________________________
Dr. Gerald D. Dawkins, Secretary   Steve Riall, President
The Caddo Parish School Board (CPSB) Building, Grounds and Security Committee met on Tuesday, August 27, 2013, at 11:00 a.m. in the Superintendent’s Conference Room, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Bonita Crawford, Barry Rachal, Jasmine Green, ex-officio members Larry Ramsey and Carl Pierson. Staff members present were Tommy Smith, Roy Murry and Victor Mainiero. Jackie Lansdale, Red River United, was also present.

Mrs. Crawford called the meeting to order and explained that the purpose of today’s meeting is to discuss the focus of the Building, Grounds and Security Committee. She announced that this committee will meet at least once a quarter with additional meetings being scheduled on an as-needed basis. Following input from committee members present, it was agreed that Thursdays at 11:00 a.m. is a good time for all members.

At Mrs. Crawford’s request, staff members shared updates of their particular areas. Mr. Murry, director of security, reported that placing cameras in the schools has been completed and the process will begin on training the personnel at each school. He also reported that the next focus relative to security needs to be access control (using cards), which will happen as money becomes available. When asked what the committee can do to help in this area, Mr. Murry responded that the committee can help prioritize security projects for the parish; and staff will bring to the committee the cost figures involved in these projects.

Mr. Smith, director of maintenance, shared that one of the biggest concerns is planning for the future replacement of a/c units, because some of the units are now approximately 15 years old and they are beginning to see a rise in the maintenance costs for them. He also explained that he works closely with Steve White, capital projects, on issues to determine which expenditures are maintenance and which are capital improvements. Staff also shared additional system updates that will need to be made at some point, i.e. bell systems, because many companies are no longer making the systems Caddo has in place, and schools are going to a web-based system. The current systems in Caddo are changed manually, i.e. when going to Daylight Savings Time. Mr. Smith also noted capital project updates that will drive maintenance expenses down, and he explained procedures followed for addressing capital projects (attaining board approval for expenditures over a certain dollar amount), etc.

Mr. Rachal stated that he is aware that Mr. Murry knows which schools/areas are the most secure and asked staff to share with the committee where to start so it can then move forward to secure proposals. He said the committee should also be responsible for setting priorities and possibly allocating a certain amount of capital project funds.

Mr. Ramsey inquired as to how it had been done in the past, and Mr. Smith explained that each year in the fall the schools submit a list, maintenance submits a list, and capital projects prioritizes the needs, i.e. roofs, boilers, etc. A copy of the three-year priority list was shared and Mr. Smith explained that sometimes an item might be on the list for several years because an emergency comes up during a particular year and an item scheduled for that particular year was bumped in order to take care of the emergency situation. Discussion was held on the $18 million in the budget and if $18 million is enough to handle the demand, and staff responded that emergency situations vary from year to year with most of the major expenditures being heating and air conditioning, because as a 5 to 7.5 ton unit fails, it costs the district $10,000 to replace it. In response to the committee’s question about the 2004 bond issue for air conditioning, he responded the 2004 bond money was designated to replace window units.

Mr. Rachal requested that a binder be prepared for each committee member that includes (1) list of property owned by the Caddo Parish School Board, (2) usage of the property owned by the
School Board, (3) if the property is a school, the capacity and the student population at those schools, (4) a list of the capital projects for the budgeted $18 million, and (5) copy of the capital projects budget, etc. He also noted that the three-year plan presented to the committee represents about 1/3 of the budgeted $18 million; and he understands Mr. White maintains a contingency account, but asked where are the remaining budgeted funds allocated; because this committee will be the first target when Capital Projects come up, and he would like to see the numbers from the $18 million and a breakout of where the money is allocated. Mr. Rachal asked that he also be provided the cost of operating our buildings, including the cost of maintenance personnel at each school.

Mr. Ramsey requested a running list of the prioritized projects for each year and a summary of how each got to where they are on the list.

Mr. Smith also explained to the committee the system for turning in and responding to work orders and how the current system has cut costs, and will continue to do so, because of the capability to notify maintenance while someone is at a school about another problem, which cuts down on return trips to the same location.

Some additional areas of concern expressed by the committee were overhanging trees which force children to cross busy streets because they cannot get around them, and the need for flashing lights at school crossings because the City is not providing these any more. Mr. Murry will check about the cost for placing LED signs at school crossings.

Mrs. Lansdale asked about the safety in the schools and shared her experience of a lock down in one of Bossier’s schools. Staff responded that a lock down similar to this is not in place in all Caddo schools; however this summer a similar one was installed in Blanchard and staff continues to look at the District’s campuses relative to safety.

**Meeting summary.** Mrs. Crawford announced that the next Building, Grounds and Security Committee meeting will be at 11:00 a.m. on October 31st. She also confirmed that the protocol will still be followed where staff brings requests and concerns to the Superintendent and the Superintendent will share these with the Committee Chair. Staff was also asked to provide the binders for each committee member with the requested information prior to the next meeting.

There being no additional discussion, the meeting adjourned at approximately 12:15 p.m.
The Caddo Parish School Board (CPSB) Audit Committee met on Friday, August 30, 2013, at 2:30 p.m. in the boardroom of the CPSB offices, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Steve Riall, Charlotte Crawley, Ginger Armstrong, Curtis Hooks, ex officio Carl Pierson, Jasmine Green, Reginald Abrams, Jeff Howard, Jim Lee, Randy Watson, Sharon Golett, Victor Mainiero, Donayle Ashworth, Kristi Willis and Mary Wood (The Times). Mr. Pierson led the invocation.

Mr. Riall called the meeting to order and Jim Lee, in response to the committee’s request at the last meeting to talk to IT about the possibility of going back to Legacy, announced that Sharon Golett, director of Information Technology (IT), is in attendance at today’s meeting to address questions raised at the last meeting.

Ms. Golett addressed the committee’s question about possibly going back to the Legacy System (for HR and Payroll), highlighting the pros and cons to do so and costs involved (since the mainframe has not been maintained since 2009-10). She explained that since the change, the IT department has one less programmer and costs involved to go back could include contracting for additional services to upgrade the mainframe system. Ms. Golett stated she doesn’t believe going back to the mainframe is the answer because in a couple of years it would be necessary to upgrade again as those who currently have knowledge and experience with the mainframe could be close to retirement and no one new coming into the system would have mainframe knowledge and experience.

Discussion ensued as to the problems staff has encountered with the SunGard system over the last three years and most recently in the last year when the system went live before staff believed problems had been addressed, leaving the District with a year of bad data. Mr. Lee shared that after three years of attempting to make the new system work, he is concerned that this system is not providing what is needed and that is a system that posts correctly to the General Ledger, thus the General Ledger is not reliable. He also highlighted examples of his concerns where numbers posted to the General Ledger do not match.

Discussion ensued on fixing the issues, providing additional training, remaining time on SunGard’s contract, what other school systems use, going back one year when the numbers matched/balanced and building a new program. Mr. Woolfolk stated that the beginning place would be to break down what part of the system is not working and determine if it is a behavior problem, process problem or system problem.

After discussion, Mrs. Armstrong moved, seconded by Mrs. Crawley, that this matter be turned over to the Superintendent to work with staff to bring forth a recommendation as to how we should move forward and correct the inefficiencies for payroll, accounting and human resources, including options and cost. Vote on the motion carried.

Future Audits. Jeff Howard reported that staff soon will be prepared to share a follow-up report on the Accounts Payable audit.

There being no additional business, Mrs. Armstrong moved, seconded by Mr. Hooks, to adjourn and the meeting adjourned at approximately 4:00 p.m.
September 3, 2013

The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, September 3, 2013 with President Larry Ramsey presiding and Carl A. Pierson, Sr. and Bonita Crawford present being a quorum.: Also in attendance were Steve Riall, Jasmine Green, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Interim Superintendent Mary Nash-Robinson, Legal Counsel Reginald Abrams, staff and visitors. Mr. Rachal led the prayer and Pledge of Allegiance.

PRESENTATIONS

Recognitions. Victor Mainiero, director of communications and marketing, introduced the following administrative appointments. President Ramsey and Interim Superintendent Robinson greeted and congratulated each employee. Elementary Assistant Principals. Doloris Lynch, Claiborne; Paulette Houston, Keithville; Rudgerick Brown, Southern Hills; Kasie Mainiero, University; LaDonna Davenport and Cynthia Henderson, Vivian; Dr. Frederick Pinkney, Werner Park; and Robert Franklin, Westwood. Special Education. Cassandra Henderson, Instructional Facilitator; Penny Harris, Supervisor of Compliance; and Pamela Morgan, Supervisor of Instruction. Attendance. Marion Rushing-Robinson, Attendance Facilitator. Academic Affairs. Patrick Greer, Supervisor of Health, P.E., Athletics, and Driver’s Education. Human Resources. Emily Stanford, Staffing Administrator; and Charles Lowder, Director of Certified Personnel.

Summer School/Remediation Report. Leisa Edwards, director of school performance, reported that the timeline for summer school was developed in February by the District Support Team, and she introduced three Support Team members present at today’s meeting: Shelita Canon-Hoey (supervisor working with curriculum); Rosalind Bryant and Marilyn Bartlett-Jackson (parental involvement). Ms. Edwards reported that the Summer Fee Program began June 3-25, with testing on June 25-27, and it consisted of two semesters (June 3-27 and July 8-August 1), with 237 students attending and earning 339.5 credits. The high school summer fee program was held at Captain Shreve High School this year; and in addition to Caddo high school students, students from Loyola, Minden, Evangel, and middle school students from Caddo Middle Magnet and Keithville also attended the program at Captain Shreve. She shared the courses offered, the cost for students to attend, and announced that 53 students received their high school diploma as a result of summer remediation. Ms. Edwards also reported that the elementary/middle summer school fee program was held at Turner Elementary/Middle School and 45 students received credits and only one student will need to repeat their grade because of attendance. With only 13 days of instruction, Ms. Edwards noted the importance of the bridging requirements for ELA and Math which was 25 hours. She also reported that 616 of the 8th graders were promoted to the 9th grade and only 127 8th graders will remain in the 8th grade and they will receive response to intervention (RTI) in ELA and Math. Ms. Edwards also reported that 411 4th graders were promoted (320 passed the Leap and were promoted to 5th grade, 84 were promoted to 6th grade [from the 4th grade] by earning enough points; 89 transition students need RTI [and they will promote following Spring testing], and 443 4th graders will remain in 4th grade and receive RTI in ELA and Math. During summer school, 65 of the students not passing did move up a performance level in ELA, Math or both.

Ms. Shelita Hoey shared with everyone how application to the classroom was implemented from the process for filling the teaching positions, hiring process (Super Saturday), interviews, Professional Development sessions, review and evaluation of summer school materials to best meet the students’ needs, daily operations to assist the administrative teams, conduct observations and provide feedback, as well as assist teachers, students and parents. Additional
responsibilities included providing additional materials, contacting parents and assisting with parent meetings.

Ms. Rosalind Bryant reported on the parent meeting held on the second day of summer remediation at which time workbooks were provided to the parents so they could help students over the summer.

Marilyn Jackson stated that in addition to the parent meetings, parents were also given materials through the Parent Resource Center, and strategies were modeled with the parent so they could help their children better understand mathematics and ELA skills. She said they also encouraged parents to use robust vocabulary with their students to help them learn and write at a higher level.

Ms. Edwards reported that the next steps in the 2013-14 school year will be to provide RTI in reading and math throughout the school year and engage parents to increase their knowledge of Common Core in order to help their children. Board members were given a brochure about the Parent Resource Center and an upcoming parent meeting to encourage them to share with parents they talk with to take advantage of the resources available to them to help their children.

ESTABLISH THE AGENDA FOR THE SEPTEMBER 17, 2013 CPSB MEETING

Dr. Robinson highlighted proposed items for the Board’s consideration at the September 17, 2013 meeting and the following discussion ensued.

The Brandon Goyne Foundation. Mr. Rachal introduced Mrs. Goyne, Brandon Goyne’s mother, who shared with everyone that her son, student at LSU Alexandria, who played baseball and collapsed and died from ARVD, a condition that cannot be detected via physicals (even though he had seven physicals prior to this happening). She explained that EKGs can detect problems up to 85% of the time and the Cypress ECG Project in Houston offers testing for $15 per student. This foundation is traveling to school boards encouraging this testing of athletes. The EKGs are run and sent to the Cypress ECG Project in Houston where they are read and a report sent back to the students’ school nurse (or other authorized school official) that everything is o.k. or if there are any flags for concern.

Mrs. Bell asked if this can also be used to check other students, and Mrs. Goyne stated it can be, but they are beginning their focus on athletes, cheerleaders, and band members.

Mr. Ramsey asked how the costs are covered for $15? Mrs. Goyne explained that the main cost is the sticky tabs that attach to the leads, because they must be replaced; but the doctor reading the EKGs does so at no charge.

Mr. Rachal stated that he believes this is a preventative measure and thanked Mrs. Goyne for bringing this to everyone’s attention.

Mr. Pierson stated that when he was athletic supervisor, money from jamborees was used for insurance and asked that the new athletic supervisor look at this as a possible source for funds.

Use of CPSB Facilities. Miss Green asked if the request for CABOSA to use Youree Drive is the only request received from CABOSA for use of our facilities? Mr. Woolfolk responded he is not certain if there are others, but he will follow up. She also asked about the cost, and Mr. Woolfolk explained there is no cost, but they must provide the insurance for use of the outside field.

Request for Sale of Property. The question was raised did the Board not just approve Hamilton Terrace as one of the schools for the Sheriff Department to use? Mr. Graham said we did not
and Mr. Woolfolk explained that the Sheriff requested use of any available empty facility. Mrs. Armstrong asked about the plans if Hamilton Terrace is put out for sale and the possible need for this facility down the road. Mr. Woolfolk also reported on the vandalism at Hamilton Terrace since it was vacated, including air conditioners being destroyed. He further reported that Hamilton Terrace was put out for lease and there was so much work to be done to get it in shape to occupy, they did not want to put the money into a lease, but preferred purchasing the building. Mrs. Armstrong asked if they have pursued the criminal activity at Hamilton Terrace and Mr. Murry reported there was an arrest made in this case.

Ms. Priest recalled Board action several years ago that with the sale of any of the CPSB properties would include stipulations relative to the usage of the facilities, i.e. could not be used to establish a school. Mr. Graham stated that in leasing the facility we can list stipulations; however, if the Board chooses to sell the facility, we will no longer have control over the usage. Mr. Abrams verified that is correct and the last facility was a lease.

Ms. Priest asked if we have received an appraisal on Hamilton Terrace, and Mr. Graham reported that he did talk to the appraiser on this date and he is completing the paperwork which he believes will list the property at approximately $1.3 million. Miss Green asked about the specifics of the property, and Mr. Graham responded the building is approximately 70,000 square feet and the property consists of approximately 10 acres. Mr. Rachal asked who is interested in purchasing and Mr. Graham responded the Shreveport Rescue Mission. Mr. Rachal asked that Board members be provided a copy of the appraisal when it is received and how did the appraiser determine the value, and Mr. Graham, while he was not absolutely sure, stated that he used a comp building on Line Avenue and a previously sold school (Laurel Street). Mr. Rachal asked if, when a school building is sold, the Board is obligated to use the funds in a particular way, and Mr. Graham responded the funds are placed in the Capital Projects. Mr. Rachal suggested that this be referred to the Building and Grounds Committee to discuss and possibly make some recommendation on these additional funds.

Mr. Abrams clarified that if the Board is asking this to be put out for bid in accordance with law; then if it doesn’t sell, the Board can accept a minimum amount acceptable by the Board. Mrs. Crawford asked if the building has been completely emptied, and Mr. Graham explained there are still some items stored in the building, but it is mostly salvage or trash items.

Mrs. Bell shared her concern that we are closing buildings and they are only a target for vandalism. Because Caddo is responsible for these building, she supports selling these buildings if there is someone interested in buying them and placing the funds from the sell in capital projects to address some of the District’s capital project needs. She also asked that the minutes be researched, because she too believes the Board stated in the past sale of one of its buildings that the building could not be used as a school, i.e Hosston property.

Mr. Rachal asked if it was an HVAC company that stole the units and Mr. Graham responded it was not, but a pedestrian over a period of time. Mr. Pierson asked if we will maintain mineral rights and Mr. Graham confirmed Caddo would.

Approval of Services of Transformational Consultant. Counsel Abrams explained that the proposal presented is from New Millennium (Kim Williams), who previously worked for the State Department, is an attorney (even though she is not currently practicing as an attorney), has background in State operations, and worked with the RSD and Delano Ford. He further explained that her proposal is to work with Caddo Parish to help the District find alternatives that she knows the State will consider. Mr. Abrams added she has the ability to assist in proposals that will meet all the requirements for turnaround of our schools and options available. Ms. Williams’ work will include an analysis of all Caddo schools, looking at the statistics and making recommendations. She will work with the Board and staff and attempt to come up with
something that will work for Caddo Parish and be acceptable by the RSD and the State Department. Mr. Abrams also explained her proposal to act as the reviewer of charter school applications, and he reminded the Board that last year when the Board was responsible for reviewing the Magnolia Charter, the District had to pay $7,500 for an outside review. Her proposal provides for her services as the third party reviewer and the District will not have the additional expenditure for an outside review.

Mr. Ramsey reported he met with her and asked her if the Board approves her proposal would she be working for Caddo and not the RSD or State Department, and if all information would be confidential; and her answer was yes it would be confidential. He also said she has a vast amount of experience that he believes will be invaluable to Caddo as it moves forward, again noting that we would not have to pay for an outside vendor to review applications Caddo receives and he believes this is an opportunity for the Board to get someone with the experience at a reasonable cost.

Mrs. Armstrong stated that in studying this information she asked if we solicited this type of service or did she come to us and offer this proposal? Mr. Ramsey responded she has several contracts with various parishes, and initially, she came to Caddo with her proposal. After hearing her proposal, and knowing we need these type services, he believes she will offer experience that will be invaluable to Caddo. Mrs. Armstrong asked about her credentials and if Dr. Robinson feels two days a month is adequate to serve Caddo’s needs? Dr. Robinson stated that she introduced Ms. Williams to Mr. Ramsey and Mr. Abrams because with the District now treading new territory, it is important that we get the assistance needed in meeting the new timelines required. Dr. Robinson further explained that the proposal is a draft and she believes Ms. Williams will be amenable to doing whatever we need to do to insure that the plan put before BESE is one that will be beneficial to the District and will enable us to keep what is Caddo’s. Mr. Ramsey added that a great amount of the work will be with data and she has a staff that supports her so that it can be done at other locations as long as she has access to a computer.

Mr. Rachal stated that it is obvious that the Board President and Superintendent believe this is something we need; but he believes it would be best to do an RFP and receive proposals for comparison. He added it is not that he isn’t in favor of this; however, he would like to see this item postponed until the Board discusses it further. Mr. Ramsey stated that the window we have is not great and the RSD is requiring that a plan is presented to them December 3rd and 4th and it is necessary for Caddo to have something by the first part of October. He also stated there is a reason for the urgency and it is the timeline that will be presented to the Board at the next meeting. Mr. Rachal asked that the Board be provided information on additional districts she is assisting and invite her to share with the Board at the next Board meeting.

Ms. Trammel asked if this is the only company doing this at this time; because knowing there is an urgency and a timeline, she would like to know additional information needed in making a hasty decision. Ms. Priest referenced a visit to Orleans Parish and the report brought back to the Board last year on what the District would need to do to maintain its assets; and because we must do something and we must do it quickly, she believes this is a way to move forward and work to keep our assets.

**Student Readmission Appeals.** Mr. Rachal noted that the last readmissions did not include letters written by the students which is something the Board has directed and asked that these be included in the packet submitted to the Board.

*Mr. Pierson moved, seconded by Mrs. Crawford, to approve the proposed agenda and consent agenda (8.02-8.06) for the September 17, 2013 CPSB meeting. Vote on the motion carried unanimously.*
Daryl Roberson, president of Caddo Association of Educators (CAE), addressed the Board on programs, policies and procedures approved by the Board and the charge to administration to make it happen, i.e. A/B Block Schedule and the differences from building to building in the instruction requirements. He said the greatest impact on modifying schedules is on the students and their achievement, because the breaks given teachers on non-planning period days mean students lose up to 30 to 45 minutes of instructional time and sometimes in more than one block and possibly up to 90 to 135 minutes in one week. Mr. Roberson asked the Board to consider the impact of this loss of instruction time – (1) shorter time on task by students, (2) lower achievement in the classroom, and (3) lower scores on classroom assessments and state mandated assessments. Also to be considered is the impact on the teacher who must write SLTs and be assessed on the student’s performance when being evaluated, how will it impact teachers who are assessed by student’s performance on standardized tests, as well as the building administration whose Student Learning Targets and evaluations are based solely on student performance on standardized test, and ultimately it will impact the district. He said if the Board is really about improving student learning outcome, he encouraged the Board to reconsider the impact of the modified block schedule on students.

Mr. Ramsey asked that speakers in the work session keep their comments to only items on the agenda.

Jackie Lansdale, president of Red River United (RRU), asked the Board to provide additional information on the proposed consultant prior to Board action. She also said she looks forward to the Insurance and Finance Committee meeting to look at the supply money for teachers.

Mrs. Armstrong expressed her appreciation to Mr. George Adams, bus driver, Bus 221, for assisting her with a flat tire last week.

Ms. Trammel also expressed kudos to Caddo Heights for the academic celebration last Friday recognizing the school, students and teachers for their efforts in coming out of AU status.

Adjournment. Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:53 p.m.
September 3, 2013

The Caddo Parish School Board (CPSB) Insurance and Finance Committee met on Tuesday, September 3, 2013 at 2:00 p.m. in the Capital Projects Conference Room located on the CPSB property at 1961 Midway, Shreveport, Louisiana. Those in attendance included Chair Lillian Priest, Mary Trammel, Dottie Bell, Steve Riall, Jasmine Green, ex officio members Larry Ramsey and Carl Pierson, Jim Lee, Randy Watson and Dr. Mary Nash-Robinson, interim superintendent. Jackie Lansdale was also present for a portion of the meeting.

Chair Priest called the meeting to order and announced that today’s meeting is to hear a presentation from Director of Insurance Randy Watson on the 2014 Insurance Renewals.

Mr. Watson stated that the presentation today comes to the committee following six months of research and negotiations. He shared the history of Caddo’s plans, all which are fully insured, non-profit, and premiums based 100% on the District’s claims.

Mr. Watson highlighted the timeline for meeting the April 1 renewal date and the recurring process staff follows between now and April 1st and then beginning the research and negotiations over again. Areas covered in the presentation included the Affordable Care Act, minimum benefits, taxes and fees, penalties, laws, employer costs, Grandfather status, how premiums are set (employee cost), current trends (tracking claims and making projections), factors affecting health cost inflation which drives increases in premiums, importance of establishing premiums where they need to be, how trends affect reserves, reinsurance, factors affecting the employee cost (actual claims, employee’s share of contributions, what employee premiums should be based on market needs, loss ratio needs and budget needs), impact on the budget, the State Insurance Plan Option, and life insurance.

Following discussion, Ms. Priest announced that on Monday, September 9th, at 3:30, Mr. Watson will present the 2014 insurance renewals to a committee comprised of representatives from CAE, Red River United, A+PEL, Caddo Retired Teachers, staff (a school director, finance, Child Nutrition, maintenance, custodians) and principals. Mr. Watson explained that following the meeting with this committee on September 9th, each group will meet with their peers and provide input to him by September 25th. The Insurance and Finance Committee will meet on September 26th to consider this input and finalize a recommendation to the Board for October.

There being no additional business, Mr. Riall moved, seconded by Ms. Trammel, to adjourn and the meeting adjourned at approximately 4:05 p.m.
The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, September 4, 2012 with President Steve Riall presiding and Dottie Bell and Larry Ramsey present being a quorum. Other school board members present were Jasmine Green, Carl Pierson, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal and Ginger Armstrong. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mr. Riall announced that Mrs. Crawley will not be in attendance today. Mrs. Bell led the invocation and Pledge of Allegiance.

Superintendent Dawkins announced that Caddo survived the hurricane with minimal damage with five schools losing power and as a result all the food in the cafeteria refrigerator ruined. He also expressed appreciation to Carla Moore, Pittre Walker and Antionette Turner for their assistance in providing needed items to approximately 500 children evacuees who relocated here during the storm. The State Homeless Coordinator will reimburse the district for items provided to these children.

PRESENTATIONS

Virtual Schools. Superintendent Dawkins announced that Antionette Turner and Susan Rogers will share with the board an update on the Virtual School Program in Caddo Parish. Mrs. Turner began the presentation by recapping the research and timeline followed to implement Virtual Schools in Caddo Parish. She explained the research indicated that the majority of the virtual schools across the country are high schools; and high school programming, as well as services, includes on-line library access, on-line counseling and in-person services to support virtual schools. One of the key components is the monitoring on-line of student progress, specifically monitoring the management of time by on-line learners. She reported on the virtual platforms staff reviewed as well as a needs assessment for students at the high school level that virtual schools would be able to address. After completion of the needs assessment, Mrs. Turner reported that staff looked at other roadblocks staff could address by going into a virtual program for the high schools; and some areas they addressed were Common Core Instruction, increased opportunity for blended learning, opportunity to expand on advanced placement, accelerate summer school, additional courses through adult education, assisting students through academic recovery, additional courses and services for homebound and incarcerated students, and high-stakes test preparation. A decision was made to implement the pilots in the 2011 summer school and in the 2011-12 school year in Caddo. During 2012 Professional Development continued with school staff utilizing the virtual platform by expanding the access to all high schools as well as how we can better serve the students that are using the on-line courses. Mrs. Turner introduced Susan Rogers, Caddo’s Science Supervisor, who shared with the board additional information on the virtual school platform.

Mrs. Rogers explained she has assisted with the implementation of E2020 in Caddo schools. The E2020 program is one used nationwide and in Louisiana E2020 is used by numerous educational institutions from colleges down through school systems. She stated that students have shown they enjoy this on-line platform and use of this platform is growing. Currently, more than 2 million students nationwide are using an on-line platform of some type from preK through 12th grade; and by 2014, that number is expected to grow to more than 10 million students utilizing some form of on-line learning. Mrs. Rogers shared information on the use of E2020 in Caddo Parish last school year (141 courses completed for credit), and in the summer (280 courses completed for credit). During the past summer alone, she reported that Caddo’s students logged over 28,000 hours of course work and remediation, and to help the students with academic goals, E2020 programs are being used for grades 6 through grade 12. The courses are provided in a variety of formats and topics cover all the Core and some electives, as well as High
Stakes Testing, EOC (End of Course), and ACT Prep. Advantages for using on-line learning include the ability for students to engage and learn in a format they are familiar with and at their own pace (individualized). She added that all the courses Caddo is using are aligned with the Louisiana Comprehensive Curriculum; and this year, the transition to Common Core Standards for ELA, English and Math are being implemented as directed by the State. She also stated the course work through E2020 is automatically graded by the platform and facilitators (teachers) in the program are all certified.

Mrs. Rogers explained the formats (formative, summative, overall, diagnostic and prescriptive) that can be used to gather information throughout the program. With a lot of flexibility, acceleration can be provided those students ahead of the traditional student, remediation for those students who may be behind and want to catch up, homebound, and test prep. She further explained that waivers of class and seat time are available to carry out the curriculum so students can move ahead as they progress; and when the students take the test and cumulative exams, it must be done in their own attendance zone campus and under the direction and monitoring of a certified teacher. Mrs. Rogers detailed how students take the on-line courses, how teachers are seen during lessons, and links for additional on-line content, as well as how students, their participation and progress, are monitored, including academic feedback. She also explained that progress reports are available for the parents, students and the student’s school administrators.

Mrs. Rogers reported that Southwood High School has piloted the program and she shared video clips of the assistant principal/facilitator at Southwood as well as students in the program highlighting how they have benefited by having this program in place. She also stated that E2020’s virtual tutor is available to assist students in tech prep to indicate areas in which the student might need extra work or help. This program has been very successful in the summer remediation efforts for middle and high schools to provide exactly what students need.

Mrs. Turner added if the District chooses to expand the Virtual Platform outside the school district and make it available to more community learners, some items that would need to be addressed include technology component, additional curriculum needs, how teaching is handled, student services, assessments, policy and administration modifications, marketing and public relations with funding being the key to having the ability for this expansion of the program. Regarding funding, Mrs. Turner reiterated that this is a critical piece and staff has looked at several grants for addressing this. She added that possibilities for future expansion of the platform include consideration for staffing because the current program is built to service our high schools and middle schools and can do so within the schools’ environments without expanding. Expansion of the Virtual Platform would also need to include how pools of students are pulled together for assessment as well as the additional teaching positions and support staff needed to provide expanded services, i.e. reconfigure one of the high school buildings, use of a double wide T Building, labs at a separate facility, etc. and additional technology to support students outside the Caddo system.

Dr. Dawkins stated that along with charter schools, virtual schools are a part of this new landscape and how students learn today. He said this is available to Caddo’s high schools and approximately 50% of the middle schools.

Mr. Ramsey stated his appreciation for the presentation and that the latter part is something that has been discussed and noted the success the State is seeing by paying an outside company for their services. He said he believes if we continue to assess and not move forward, this opportunity will pass us by and we will miss out on the opportunity to be on the cutting edge. Mr. Ramsey said he thought the discussion reflected clearly that the MFP dollars would handle the cost of the program; and while he has an idea of what it will take, he doesn’t understand the continued procrastination. He stated that E2020 is a prime example of what we can do at the school; however, there is a tremendous amount that we can provide to students who will not
come on a campus environment. Mr. Ramsey encouraged moving forward with this program. The superintendent responded he believes we have come quite a distance with our program; and believing we need to move forward to the next step, staff is seeking additional funding; and staff is aware that MFP dollars will follow the students currently not enrolled in the school system and seeking this service. Mr. Ramsey stated that he looks forward to seeing the next phase.

Mrs. Crawford stated that it was her understanding that we were still piloting this program and she doesn’t understand the difference in what was shown tonight and what is available in Distance Learning that has been in place. She added it was her understanding that we were interested in doing a charter school type component in order to attract home-schooled students. Mrs. Rogers explained that in the past we had Louisiana Virtual Schools, and it was not student-paced, but was led by a facilitator on line and not a platform where students could work at their own pace or a test prep tutor program designed to meet individual student’s needs. Mrs. Crawford asked if we use our teachers for these classes. Mrs. Rogers responded that the course work is given through the company with an on-line teacher/instructor and students can work at their own pace. She further stated there is a certified teacher in the classroom to work with the students and manage what they are doing but not teaching every subject or lesson. Mrs. Crawford said she also believes initial conversations included MFP dollars as the funding and asked when did this become effective? Rosemary Woodard explained the District is enrolling students in this program every day and the students are managed at the individual high schools, and letters will be mailed to the 360 home-school parents next week. While we want to get the students in before the October 1 count date, the District also wants to be ready to serve them. Mrs. Crawford asked if staff knows how many elementary school students are home-schooled, and Mrs. Woodard responded that this is not available yet. Mrs. Turner added that Caddo does not have the elementary component. Mrs. Crawford noted the Virtual School in Baton Rouge and asked if staff is aware of the ballpark figure per student and how we will budget for it? Dr. Dawkins explained that at the present time a combination of funds is being used for what is in place; and Caddo could certainly reap the benefits from MFP dollars for students not currently enrolled in Caddo, and to purchase needed equipment for expanding the program. Mrs. Crawford again asked for clarification relative to students who complete some of their required coursework at home – do we pay a lump fee for a student to do so or is it paid by course (by the student or by the District)? Mrs. Turner explained that a Caddo student does not have to pay at all, because it is a part of what is offered to students in the school. Mrs. Crawford asked if a Caddo Virtual School will be established within the next year or so. Mrs. Turner responded that in looking at the research relative to setting up a virtual school, it is important to remember there is a targeted population wanting this because we have a virtual school in Caddo Parish for 6th through 12th grade. A different, expanded version for students outside the district requires additional funding to address the needs mentioned earlier in the presentation. Mrs. Crawford stated she wishes to visit with staff further on this.

Mr. Rachal asked if he understands correctly that Caddo currently has students in the system taking courses and there is no cost to Caddo students. Mrs. Turner responded that is correct. Mr. Rachal asked Mrs. Turner what is the district’s cost? Mrs. Turner responded that is a cost already invested in so as to provide this service. Mr. Rachal asked staff the cost for the Virtual program? Mrs. Turner responded it is $280,000 for three years. Mr. Rachal asked if this accommodates as many students as we want, and Mrs. Turner stated that currently 250 licenses can be used concurrently. Mr. Rachal asked how many students in Caddo are taking advantage of virtual school courses? Mrs. Turner explained that Caddo is currently enrolling for the Fall and the number is not known; however, Caddo had 261 enrolled in the Summer. Mr. Rachal asked if there have been complaints on students not being able to get online, and Mrs. Turner said there have not been any complaints. Mr. Rachal asked how is the facilitator’s time allocated, and Mrs. Turner explained it is a class period worked into the teacher’s schedule. On ACT, Mr. Rachal stated he believes this is one that every high school student should take. Mrs. Rogers responded that staff continues professional development to share the information with the
school counselors, administrations and teachers suggesting that students enroll in this, and Mrs. Turner added this is an additional option, because ACT Prep is offered at each of Caddo’s high schools. Mr. Rachal said rather than leaving it open for students to decide what they want to do, he believes, without making it a heavy handed directive, principals should know the facilitators will be in place so they can feel comfortable in openly promoting participation in this course. Mrs. Turner explained that at the 8th grade level, all 8th graders are taking the Explore Test (an ACT type prep test) which identifies a student’s strengths and weaknesses. The Plan is also another part of the ACT component that staff looks at, so staff is constantly building on what is done to better prepare the students for the ACT test. Knowing the benefits to the school and the student, Mr. Rachal said he would just like to see this encouraged of all students. Mr. Rachal asked about the goal of bringing in outside students for Virtual Schools. Dr. Dawkins explained the goal is to expand beginning with homebound students, and this year the plan is to see the expansion in a charter format. Mr. Rachal asked the superintendent the current capacity and Dr. Dawkins responded he believes between 400 and 500. Mr. Rachal asked if these students are totally home-schooled or those taking just one course. Dr. Dawkins stated it will be those that are home-schooled and anyone else not currently enrolled in Caddo Public Schools.

Ms. Priest stated she remembers when the board decided to begin a Virtual Platform and the board did not say necessarily to begin a Virtual School; but a platform that would be used to capture the students we were missing, i.e. those with work schedule conflicts, medical issues, those that were unable to perform in a classroom setting and dropouts. She asked if one of the main requirements did not say the students must have access to a computer, as well as to the Internet. We don’t have to have a building and asked if all the schools in Caddo Parish have the opportunity to participate? Also, what type of communications system are we putting into place to ensure that all school students and parents are aware of the services of the Virtual School Platform? Ms. Priest noted that we the District do not do a good job of marketing; and if we don’t do a good job of assuring the principals, assistant principals of instruction and counselors of what is available, many students will go by the wayside. She encouraged staff to better market the Virtual School Platform. Mrs. Turner indicated that is certainly staff’s plan to communicate this through the announcements at the school, through the District’s website, through parent communications, as well as through Academic Affairs; and this is a good way in which the District can compete. Ms. Priest asked if there is a charge for Advanced Placement. Mrs. Turner responded students pay to take the test, but not the course.

Mrs. Bell shared her concerns and questions and asked did State Superintendent White not say that the State would pay for every student to take the ACT in the 11th grade. In hearing this presentation, she believes parents would be encouraged to take their students out of school and place them in the Virtual School, because of the four characteristics she sees, i.e. homebound, behind, wants to accelerate, and be a fit. Mrs. Turner said staff continues to talk to students and offer them options, as well as confer with the API regarding a student’s various options and if they are a particular fit. Mrs. Turner added that typically if students are motivated to graduate, the students move to a different area in which teachers and others work very hard to make sure the students can graduate. Mrs. Bell stated it also bothers her that we will recruit the home-schooled students in the parish because there are a lot not home-schooled and missing days, etc. that she would like to see this program reach. Mrs. Bell said while she appreciates the program and students at Southwood High School, she also believes there are students at Booker T. Washington, Huntington and others.

She said she hopes this item is looked at during the September 18th meeting, and asked if she understands correctly that every student in Caddo Parish is enrolled in the Virtual School? Mrs. Turner confirmed that is correct and every student in Virtual School is a Caddo Parish student.

Mr. Pierson stated he understands that once it (Virtual School) is opened up, will the students be assigned to a school in their neighborhood for test scores? Mrs. Turner said currently Caddo
students participating in E2020 are in Caddo schools based on their home school; and at this time, staff has not flushed out all the questions for doing it for students outside the district.

Mrs. Armstrong stated her understanding that every student needs to schedule a class for virtual school if they are enrolled in Caddo’s schools. Mrs. Turner explained they are not required to schedule a virtual school course and only students signing up for Virtual courses will have a facilitator. Mrs. Armstrong referenced the Southwood student whose schedule is full and she still needs Spanish II and if her only access to a facilitator will be through the on-line Virtual School. Mrs. Rogers explained that there will be someone at the school monitoring her progress; and in a case such as this, the student can opt to take the course on the weekend, but someone at the school is still responsible for monitoring her progress and what the student is doing. She further explained that in such a case every time the student logs on, it shows them where they are (behind, on track, what the student needs to do). Also, parents can log on and monitor, as well as set up for an email notification. Mrs. Armstrong asked where do students register for the Virtual Program? Mrs. Turner said students register at their home school. Mrs. Armstrong stated her agreement that it is key to expand on the marketing efforts for this opportunity (radio, television, etc.), and encouraged staff to move forward as quickly as possible so this opportunity does not pass us by.

Miss Green asked staff how did the District come by the Education 2020 Program? Mrs. Turner explained that these companies are constantly sending the District information on their programs as well as through vendors at conferences, but staff asked them to come in and explain their Virtual Platforms available so we knew the program used would be in sync with Common Core and advanced placement type courses. Miss Green asked if staff talked to other districts who might have used this particular company, because when she looked up this particular company, she noted some negative reviews. Mrs. Turner responded that some of the school districts using E2020 are using it in lots of different ways and they have been satisfied with it. She added that staff has not talked to all of them, but the ones who have responded to staff’s emails have been satisfied. Miss Green said she would not want to spend this amount of money when it is not working in other districts.

Ms. Priest referenced marketing of the platform and not seeing Caddo’s name on the printed information on the 54 courses we purchased and she believes the language could be further enhanced to include Caddo’s name.

Mr. Ramsey clarified that his concerns are outside of E2020 and what the staff has done has been successful; and it will continue to be successful as it is nurtured. He also stated his understanding that there are a lot of students living in Caddo Parish that will never set foot on a school campus and he believes we need to address this targeted audience. With Southwood piloting this program and showing that it works, he believes if it is put in all our schools it will work. Dr. Dawkins stated his understanding that this is about an entire audience that is not currently attending Caddo Public Schools and we are moving toward attracting those students. He said while we were not set up as a District with a Virtual School, he believes much progress has been made and a lot learned from the last year’s experience.

ESTABLISH THE AGENDA FOR THE SEPTEMBER 18, 2012 CPSB MEETING

Dr. Dawkins shared with the board items for consideration at the September 18th CPSB meeting and the following discussion ensued.

CPSB Meeting Dates. President Riall noted the conflict with scheduled meeting dates and the board agreed that the November 6th executive committee meeting be changed to November 13th, that the January 1, 2013 executive committee meeting be changed to January 8th, that the March
5, 2013 executive committee meeting be changed to March 12th; and that the April 16th board meeting be changed to April 23rd.

**Approval of Corrective Action Plan.** Mrs. Crawford asked Mr. Abrams did she not understand correctly that we were getting out from under the Corrective Action Plan? Mr. Abrams responded we are very close to being compliant; however, there are a few areas where they would not agree and that we needed to stay under the CAP, but the State Department is requiring Dr. March to have a plan for Caddo’s exit. Mr. Abrams said he believes it is very promising that this will happen this year; however, this only means we will no longer have to pay an expert, but we will have to continue to do what we have been doing to maintain the District’s status. Mr. Abrams also noted that the amount paid to Dr. March has been curtailed and that this will not be paid out of the General Fund dollars. He also added that almost every school showed tremendous progress and only a few are very close to the state average regarding suspensions. He also does not believe there were any violations of any type actual IDEA during the last year relative to expulsions or not providing FAPE; and if so, it is minimal when compared to the past. Caddo has been commended on how well it is doing and only noted some elementary schools that need to work on their suspensions and a couple of high schools that are only one point from the average. Mr. Abrams also commented that they are using Caddo as the example of how districts can be turned around; and the same procedure will need to stay in effect long after Dr. March is gone with teams in place to insure this. Mrs. Crawford said she is still hearing comments that we are not doing better but that we are ignoring issues and asked if this is true. Mr. Abrams responded it is possible there are pockets where there are issues; however, there has certainly been tremendous gains as to how it is being done, i.e. issues with recording, computers, how things are inputted, etc. Mrs. Crawford said she is referencing end of school suspensions being recorded as out early, and Mr. Abrams responded that this should not be occurring and are violations. Dr. Dawkins responded that Mr. Abrams characterized correctly that major gains have been seen and where there are pockets of issues, we must focus on those for improvement and hopefully exiting as soon as possible.

Mr. Ramsey stated that in questioning the director of special education and Mr. Abrams he learned that it is not Dr. March but the State Department is why we are still where we are; and he too looks forward to hopefully exiting this year. Mr. Abrams confirmed that is correct and clarified that Caddo Parish was never a part of the litigation, but the State Department did an investigation when a complaint was filed and they missed the deadline. The State Department found no violations by Caddo Parish; however, the plaintiff appealed the findings, and again the State Department missed the deadline to respond and as a result the State Department did an additional investigation at which time they found some violations. The settlement agreement is between the State and the plaintiffs, not Caddo Parish.

Mr. Hooks stated he believes Mrs. Crawford is addressing discipline, because we do have some administrators looking the other way with habitual offenders and not doing anything. He stated his agreement with Mrs. Crawford, but the administrators’ hands are tied when it comes to suspensions and it is not fair when there is a student that is habitually a discipline problem.

Mrs. Bell noted an incident in one of her schools where it was said nothing could be done about it, and principals are actually afraid of what Dr. March and the State Department have done. Mrs. Bell said she agrees that something needs to be done about these type situations. Mr. Abrams said that is not the rule nor is it in any Caddo Parish guidelines, because Dr. March does not have any rules to prohibit a student from being suspended or expelled who is abusing another student. Students must follow the rules and policies; however before a student is suspended, other alternatives should be sought when it comes to minor infractions. Dr. Dawkins asked Mrs. Bell to get the information and he will follow up on this particular issue.
Mr. Rachal asked if teachers are allowed to enter discipline on JPAMS? Dr. Dawkins responded they are. Mr. Rachal asked if teachers are discouraged from doing so? The superintendent said he has no record of anyone being discouraged from doing so. Mr. Rachal said he only wants teachers to know it is o.k. and they are not discouraged from entering discipline. Dr. Dawkins stated that if there are schools not following this, he would like to know so he can follow up.

Mr. Hooks stated that he knows for a fact there are principals in several schools that have told their teachers they have a quota on writing referrals; and he also knows for a fact that principals are catching it from Central Office staff. Dr. Dawkins asked Mr. Hooks to share with him the names of those principals.

**Revisions to CPSB Policy DLC.** Mary Trammel stated that she is asking the board to look at revisions to CPSB Policy DLC relative to the reimbursement for meals. Mr. Abrams explained that he took the proposed amounts for reimbursement from the State’s policy and is recommending that Caddo’s Tier One be changed from $30 to $46, Tier II (New Orleans and out of state) from $36 to $54; and Tier III (High cost cities) from $45 to $65 per diem. Ms. Trammel asked for the board’s consideration of the proposed revisions.

**Purchase of PD360.** Mrs. Crawford asked if the $544,000 listed at the end of the first year is for three years or per year. Mrs. Gallant explained that is the total for the three years. Mrs. Crawford asked about the program being piloted. Mrs. Gallant explained that when she first became director last year she was approached by some principals about this type program. Wanting to first conduct some additional research and look at several companies, Mrs. Gallant explained that PD360 is on-line professional development that has modules teachers and administrators can access from anywhere (similar to E2020 for students). Liking what PD360 had to offer, Mrs. Gallant further explained that 10 licenses were purchased last year and used for teachers in intensive assistance. In the Spring, Mrs. Gallant reported that some of these ten licenses were put into schools (one license per school) across the district and grade levels to see how it would work, with positive results. Mrs. Gallant also reported that who is using the program and how long they are on-line, etc. can be monitored by administration, and she shared some success stories of how this is providing much needed support for the teachers in the classroom. Mrs. Gallant also shared that what she likes about this program is it is not just someone talking about the strategies in a classroom, but it is video of classroom teachers using the strategies in the classroom with students. Mrs. Crawford wanted to clarify that it is not a discipline component only and Mrs. Gallant said it is not. Mrs. Crawford also asked if this will come from General Funds and Mrs. Gallant said it will come from Title II funds set aside strictly for professional development.

Mr. Ramsey asked Mrs. Gallant about the consideration of other programs and if they were comparable to PD360? Mrs. Gallant explained that this is a sole-source provider; and while some offer pockets of professional development, they are more expensive per teacher and do not include as many topics as PD360. Mr. Ramsey asked if other Common Core Curriculum states are using this program? Mrs. Gallant stated she is unsure the number, but those that have used it have seen success. Mrs. Gallant added that the cost is about $55 per teacher.

Mr. Rachal asked if the $544,000 could be clarified on the documentation as the three-year cost.

**Rahmberg Recommendation re: Occupational Therapist.** Dr. Dawkins responded that staff continues to look at this situation and will have a response later this week. Mr. Rachal noted the numbers in the information provided and asked for clarification on how they arrived at the numbers presented. He asked if Louisiana’s average is $70,000 does this amount account for the number of years it takes someone to get to this point. Dr. Robinson explained that the geographic information presented was gathered from Rahmberg and Associates. Mr. Rachal asked if the average occupational therapist in the State of Louisiana makes $71,000, because our
pay chart indicates that someone would have to be employed with Caddo for 30 years before they reach that salary. Dr. Robinson referenced the teacher salary schedule and explained that this is base pay, and a formula is also used to determine the base salary for the OTs. Mr. Rachal stated it makes sense to him that if we are looking at the Occupational Therapist, that the OT salary schedule would be provided as well. Mr. Rachal added if the average OT is basically $71,000 in the State of Louisiana, and if someone has a Master’s Degree plus 30 years and makes $57,813; would you take this amount and multiply it by 1.1% and then add $1,500? Mr. Lee explained you take 221/182, then multiply by 1.1 and then add $1,500. Mr. Rachal asked if we know how many years someone would have to work in the Caddo System to reach this average. Dr. Robinson stated that the current salary is $73,292 and the employee has 15 years, and Rahmberg, Stover and Associates reviewed the Board’s discussion of August 21 and Mr. Rahmberg provided additional information which she will share with the Board once she has the opportunity to meet with Ms. Powell and her representative. Staff will also provide in the packet to the Board information from Information Technology (a copy of the compensation and benefit summary) that is sent to the employees in October outlining everything figured into the employee’s worth to the district. Mrs. Bell asked Dr. Robinson the salary of this employee and Dr. Robinson responded $73,292.

**Approval of Sale of Laurel Street Property.** Miss Green asked if there is a bid up for this building? Mr. Graham stated that it has been advertised, but at this time no bids have been received, but it doesn’t open until September 11. Mr. Graham also explained that the initial appraisal was $855,000 and public bid law will allow us to do 85% loan value.

**Approval of Lease of Missouri Avenue Property.** Ms. Priest asked about the proposed use for this facility and Mr. Graham explained that interest has been expressed to use it as a small organizational meeting place. Mr. Hooks asked about Ombudsman using three Caddo libraries because he remembers the board approving closing the schools, but, he does not remember receiving anything about Ombudsman using them. Dr. Dawkins explained they will be moving into permanent sites by the end of the month, but will reimburse the district for use of this space in the interim. Mr. Hooks asked if the board approved this? Dr. Dawkins responded that the board approved Ombudsman, but he doesn’t know if the board had to approve the temporary use. Mr. Hooks stated that he believes anything with any legality should have board approval. Mr. Abrams said he would look at policy on short-term use of facilities to see if the board must authorize. Mrs. Armstrong asked if this property will be used to meet at a time when the schools are not in session. Mr. Graham said it is a local sorority that holds weekend meetings. Mrs. Armstrong said she only does not want anything opposite from what the students are doing. She also asked if this group will be responsible for the upkeep of the property, and Mr. Graham said they will be responsible for upkeep.

**Revisions to Extended Sick Leave and Catastrophic Leave Policies.** Mrs. Bell asked Mr. Abrams to explain these various proposed revisions to the Catastrophic Leave. Mr. Abrams explained that it is the same throughout the state and it comes from the statute. He said there are several issues, they are redefining extended sick leave and what originally was for teachers and bus drivers (after use of regular leave) now includes all employees, and states if an employee uses all their regular leave, they can take extended sick leave only if it is for medical necessity due to an illness. He further added that the medical necessity is a result of a catastrophic illness or injury (life threatening or chronic or incapacitated) of the employee or member of immediate family, which means a doctor must certify that it is necessary for the employee to be absent for at least 10 consecutive working days. Mr. Abrams also stated that teachers can use extended maternity leave every six years but only 30 days can be used when the teacher has already used their 90 days extended sick leave.

Mrs. Bell asked about the history of teachers saying they are ill, bringing notes from three doctors and are out an entire year and does this eliminate that from happening and the District
holding jobs? Mr. Abrams explained that is an issue if you retain an employee and if the employee is being paid; but, this is a payment statute and an employee gets 65% of their salary. Mr. Abrams also stated that if the employee disagrees, the employee’s doctor can relook at the request. He also said it is questionable if an employer must have a catastrophic illness policy and Forethought did not include this in the new policy submitted. While the statute may have wanted to get rid of it, he believes the statute clearly states a catastrophic illness policy will be in place for teachers as well as other employees.

Mrs. Armstrong asked for clarification and if she understands that extended sick leave is 50% of the teacher’s salary? Mr. Abrams explained that extended sick leave is 65% of the teacher’s salary. Mrs. Armstrong also asked for clarification on the leave where teachers only pay for a substitute. Mr. Abrams said that leave is now obsolete.

Ms. Priest asked Mr. Abrams to explain the section on a teacher not allowed to take gainful employment while on extended sick leave unless the conditions are met, i.e. the teacher can demonstrate that he or she will be working not more than 20 hours a week in a part-time job and has not been working any less than 120 days prior to the beginning of any period of extended sick leave. Mr. Abrams explained that this comes directly from the statute and the Legislature is who declares how a teacher is eligible.

ADDITIONS

Mr. Ramsey requested that “Information on what it will take to Establish a Center for Autistic Students and evaluate the need for one” be added under Superintendent’s Report.

Mr. Rachal asked that “Proposals for Facility Energy Conservation” be added under Superintendent’s Report and that the information include both outsourcing and in-house, cost savings and costs associated with moving forward with this. Mr. Rachal said the District has been looking at this for six years and even though Superintendent Dawkins has moved forward, he believes more needs to be done. Dr. Dawkins stated that staff brought a recommendation and asked if Mr. Rachal is now asking for proposals. Mr. Rachal said he would like for staff to share information on the options we have to come up with the determinations.

PROPOSED AGENDA AND CONSENT AGENDA

President Riall announced that the following items will be the Consent Agenda: 7.01-7.02, 7.04-7.05, 7.07-7.09, 7.11-7.13. Mrs. Bell moved, seconded by Mr. Ramsey, to approve the proposed agenda and consent agenda for the September 18, 2012 CPSB meeting as presented. Vote on the motion carried unanimously.

VISITORS

Reginald Coles, School Liaison Officer at Barksdale Air Force Base, stated that in his position he assists military families in their transition when assigned to Barksdale. He shared his interest in the Virtual School presentation and that as a former educator he had the opportunity to work at the state level with the charter and voucher programs in Florida. He explained that many times families arrive here with some prejudices relative to the school system because they do not know what the schools have to offer and that the schools are good schools. Mr. Coles said they do understand Choice and he believes what is being offered in Caddo through the Virtual Platform gives them another Choice. While it is different from Distance Learning, it does offer another opportunity for these students and this pleases the parents. He said he has had a successful and productive time in working with the superintendent and the staff to help them in their transition.
Jackie Lansdale, president of Red River United, announced that on Saturday their organization will offer professional development for all teachers in the Caddo-Bossier area. Also on September 25th, she announced that teachers in Caddo and Bossier will gather in the Kilpatrick Auditorium at Centenary College to discuss tenure, and all board members are invited to attend and participate. Mrs. Lansdale also shared that in looking at these programs (CAP, Virtual, Professional Development Program), she feels that we are readily willing to open our wallets to Wall Street; but reminded the board that the most important factor in raising student achievement is not a Wall Street firm but the educator in the classroom. She also reminded the board that when spending this kind of money, the teachers in Caddo have not received any type of pay increase in almost five years. She encouraged the board to look at ways to address this as it begins looking at a new salary structure that must be in place by January 2013, and even asking the public to consider participating in this as well. Additionally, Mrs. Lansdale shared her concerns relative to the CAP program because teachers are told not to report “6” which is when a student is referred out of the class because of discipline issues. Even though there are a few schools that still do this, it is these schools that are cited with Dr. March; and if the board is not going to address this, she asks that the Superintendent step up and tell every single school to handle JPAMS the same. Also, she reminded the board that they have been asked to develop a policy that defines the school day and not to ask them what schools and principals are not following the rules. As a school system it means there are policies, rules and laws to guide this; and she also asked the board members to ask the special education director what occupational therapists and physical therapists mean to the school system and what they do.

Adjournment. Mrs. Bell moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 7:08 p.m.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at 4:30 p.m. on Tuesday, September 18, 2012 with President Steve Riall presiding and the following school board members present being a quorum: Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford (arrived at approximately 4:45 p.m.), Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins and Reginald Abrams, legal counsel. Mrs. Bell led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE AUGUST 21, 2012 AND SEPTEMBER 4, 2012 CPSB MEETINGS

Ms. Priest moved, seconded by Mr. Ramsey, to approve the minutes of the August 21, 2012 and September 4, 2012 CPSB meetings as submitted. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of Communications, on behalf of the board and staff, recognized the following students and staff members. President Riall and Superintendent Dawkins greeted each one and presented them with a certificate recognizing their accomplishment. Administrators, family and friends present were also recognized.

Little Kids Rock National Composition Winners for Outstanding Music Achievement

Alexander Festerman, 5th grade student at Turner, won first place in the guitar composition and received an acoustic guitar. Team C. J. Cobbs, Caleb Martin and Cody Willis from Donnie Bickham Middle School won the Little Kids Rock Prize Pack for their original song, “Words Spoken”. Maggie Scroggins, Donnie Bickham, won first place for her song “Would You?”, and Ja’Shundria Stokes, Donnie Bickham, won first place for her song “You and Me”. Both students won Fender acoustic guitars. Laney Martinez, 8th grader, was recognized as the grand prize winner for her song, “Hold My Hand”.

5-of-5 High Performance Club Award

Vanessa Davis, teacher at Caddo Career & Technology Center, was recognized for being awarded the 5-of-5 High Performance Club Award while attending the National Jobs for America’s Graduates (JAG) Conference for the accomplishments of her 2011 JAG student organization.

2012 Promising Practices Award Winner

Dr. Barzanna White’s “K-ROCK” practice was selected by the Character Education Partnership to serve as a model for other schools and organizations to integrate into their character education initiatives. Mr. Mainiero announced that this is the third year Dr. White has won the Promising Practices Award, and she will accept her award in November in Washington, DC at the 19th National Forum on Character Education.

2012 National Blue Ribbon Schools

Mr. Mainiero announced that the U. S. Department of Education recently recognized 269 National Blue Ribbon Schools, with five of the 269 schools being in Louisiana, and two of the five in Louisiana being Caddo Parish Schools. Claiborne Elementary and Oak Park MicroSociety will receive their awards at an awards ceremony in Washington, DC in November. The faculty, students and parents were recognized for this outstanding achievement.

Newly Appointed Administrators

Dr. Mary Nash-Robinson recognized the following newly appointed administrators: Ruthie Adams, assistant principal, J. S. Clark Elementary; Marvin Rainey, assistant principal, Oak Park MicroSociety; Yolanda Woods-Gibbs, assistant principal, Turner Elementary/Middle; Matthew Willis, assistant principal, Walnut Hill Elementary/Middle;
Ronald Wagnon, assistant principal, Youree Drive Middle; Kristi Young, assistant principal, Green Oaks Performing Arts; Keith Tyler, assistant principal, Huntington High; and Michael Edwards, assistant principal, Northwood High.

VISITORS

Alfonzo Williams reported that he submitted a bid security for a Green Oaks paving job; and after exhausting every avenue, he was not able to attain the performance bond and was informed he would not get back the $7,600 cashier’s check he put up for security. Even though he knows this decision is according to policy, he doesn’t understand because even though the Board’s policy states he must forfeit it, it also states that the owner has the right to attain the bid security at the end of the contract executed or bonds furnished. Mr. Williams said that when talking to school board officials, he was told his bonds were going toward liquidated damages; however he doesn’t know of any liquidated damages. He further stated that he understands the CPSB tries to help build up small businesses, but taking this $7,600 from a small business is a substantial loss. He asked the School Board to reimburse his $7,600 because a contract was done and the job completed. This request was referred to the Superintendent.

Ken Brown addressed the matter that began in the Spring of last year when Northwood conducted a survey of softball and baseball facilities. He reported they completed a lot of work themselves, but some of the issues (bleachers) are a liability and an accident waiting to happen. He added that handicap accessibility at the stadium is also much needed and asked the board for assistance in addressing these safety and handicap issues.

Jackie Lansdale, Red River United, addressed the comments made at the last School Board meeting relative to the availability of Common Core resources for all teachers and how resources is one of the four key components for successful implementation. Being weeks into the school year, Mrs. Lansdale reported that teachers have not received the needed resources, and she asked that teachers be advised where they can go to get these needed resources. It was also reported that technology would be available for teachers to access in teaching the Common Core and when teachers ask, administration responds they do not know. Mrs. Lansdale also referenced the statements that appear to be counterintuitive, because believing that the purpose of the Common Core is for alignment of equity and instruction for all states involved, she questions wouldn’t it be problematic to tamper with the skills taught and negate this purpose. If teachers are held responsible for exactness in lesson presentation, assessment and accountability, this could definitely be a problem. She also asked for assurance that the materials and assessments in Caddo are reflecting a common assessment for all schools and assuring equity of instruction. Mrs. Lansdale also reminded the board that public education and educators are under attack and it is incredibly important not to add to the problems. Teachers are not afraid of change in curriculum or programs, but she believes not having the dependable support they need to be successful will make them fearful and angry. Red River United is also hosting its second seminar of the year on September 25th on tenure, and on October 13th, the Characteristics of a Highly Effective Teacher workshop will be conducted. She reminded the board that based on the statement that how one spends their time and money indicates one’s priority, decisions made by the board tonight will state the board’s priority.

Eppie Adams, president of the Caddo District PTA, noted the PTA’s long relationship with the CPSB and that the PTA looks forward to this continued relationship. She said the goal for this year will be to center on increased visibility by the PTA in the schools as well as with other organizations such as NAACP, Red River United, et.al., in the community. In the next few weeks she said she would like to schedule an opportunity with each board member to discuss the schools in their districts and to hopefully better understand the needs in each school district and better focus on these issues. Even though the membership has been down the past few years, Ms. Adams stated it is still over 12,000 strong and includes parents, students, faculty, and
administrators. With the board’s help, Ms. Adams explained the PTA can better identify the schools in need of help and in need of a PTA’s presence to better strengthen our schools and communities.

Scott Hughes, Alliance for Education, expressed appreciation to the PTA for being at the meeting tonight. He also expressed appreciation to Pam Barker and the Special Education staff for their work on the Corrective Action Plan and for completing this process. He said while Dr. March has yet to answer questions on how this will help children in Caddo Parish and how they know the needs of Caddo Parish students, he appreciates the work of the staff and Mr. Abrams in moving toward getting out from under the CAP. He encouraged the board to support adoption of this CAP. While unsure whether or not it can achieve what it was designed to do, he added he sincerely hopes it will. He also added that he hopes any system put into place will accurately report what’s taking place and not develop a system where we are encouraged not to report certain incidents.

Daryl Roberson, president of the Caddo Association of Educators, also expressed appreciation to the board members who offered the prayer for the students and encouraged the board to truly be considerate of all students when adopting the CAP plan. He also stated that with the new alternative system (Ombudsman), he hopes we will not let them come in and not follow the law, i.e. FAPE. While he hopes the board is serious about getting out of the CAP, he hopes in doing so that we don’t misrepresent some things.

Arleesa Nash-Johnson, employee, shared her concern that the Caddo Mission to improve the academic achievement of students overall should not be at the cost of the parents. Regarding the dual enrollment program implemented in Caddo Parish, Ms. Johnson noted that Byrd contracts with LSU Shreveport at $50 per course and Northwood contracts with Louisiana Tech for $150 per course. Her son attends Northwood and she has paid three times as much for him to receive one college credit, and asked the board to review the policies in place that address the amount of the registration and the colleges/universities being used.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Dawkins highlighted the items for the board’s consideration and the following discussion ensued.

APPROVAL OF CONSENT AGENDA

President Riall announced that Items 6.01, 7.01-7.02, 7.04-7.05, 7.07-7.14 are the Consent Agenda. Mrs. Bell moved, seconded by Ms. Priest, to approve the proposed consent agenda as presented. Vote on the motion to approve the consent agenda items carried unanimously and the following is a summary of the board’s action on these items

No. 6

**6.01 Bids (Purchasing).** The board approved the bids of School Outfitters totaling $11,327.00, and Wenger Corporation, totaling $16,541.00, for the purchase of Music Storage and Performance Equipment for the Music Department as recommended by staff and submitted in the mailout on the bid tabulation sheet. A copy of the bid tabulation sheets is attached and made a part of the permanent file.

No. 7

**7.01 CPSB Meeting Dates.** The board approved rescheduling CPSB meeting dates as follows: November 6, 2012 Executive Committee meeting to November 13, 2012; November 20, 2012
CPSB meeting to November 27, 2012; January 1, 2013 Executive Committee meeting to January 8, 2013; March 5, 2013 Executive Committee meeting to March 12, 2013; and April 16, 2013 CPSB meeting to April 23, 2013.

7.02 Approval of Corrective Action Plan. The board approved the 2012-2013 Corrective Action Plan (CAP) as approved by the Louisiana Department of Education and submitted in the mailout.

7.04 Revisions to CPSB Policy DLC – Expense Reimbursements. The board approved the proposed revisions to CPSB Policy DLC as submitted in the mailout.

7.05 Purchase of PD360. The board approved the three-year agreement to purchase PD360, a program to be utilized to provide individualized professional development to administrators and teachers throughout the district as a support for Common Core and Compass, as recommended by staff and submitted in the mailout.

7.07 Special Education Interagency Agreements & Contracts. The board approved the Special Education Interagency Agreements & Contracts as recommended by staff and submitted in the mailout.

7.08 Beverage Agreement Between Captain Shreve & Coca-Cola Refreshments. The board approved the beverage agreement between Captain Shreve and Coca-Cola as submitted in the mailout.

7.09 Approval to Hold Salvage Sale for Information Technology Equipment. The board authorized staff to hold an auction sale in October, 2012 for the sale of used equipment for the Information Technology Department.

7.10 Approval of Sale of Laurel Street Property. There were no bids received.

7.11 Approval of Lease of Missouri Avenue Property. The board approved the bid of Gwendolyn Barnes, totaling $300.00 per year for a 3-year lease of Missouri Avenue Property as indicated on the bid tabulation sheets in the mailout. A copy of the bid tabulation sheets is attached and made a part of the permanent file.

7.12 Revisions to Extended Sick Leave and Catastrophic Leave Policies. The board approved the proposed revisions to the CPSB Extended Sick Leave and Catastrophic Leave policies as submitted in the mailout.

7.13 Approval to Bid Out E-Rate Services. The board authorized staff to advertise for E-Rate Services for the Information Technology Department.

7.14 Out of State Travel (General Fund). The board approved requests for out of state travel (General Fund) as submitted in the mailout.

LEVEL IV GRIEVANCE

Mr. Ramsey moved, seconded by Mrs. Crawford, to uphold Level 3 dispositions as to all grievances. Mr. Hooks stated that Union, Justice and Confidence is on the sign in front of the School Board and he questions if the Board realizes what this means. He said as a Board, they must make the right choice; and after reading the documentation submitted, he doesn’t believe this was handled properly. Mr. Hooks said he also believes the Board should want to hear from the employee affected and grant that person due process. He also stated he doesn’t understand why someone can go through Levels I, II and III and when progressing to Level IV not be
allowed to speak. This is not fair and the Board needs to listen to its employees and not just go by staff’s recommendation. He encouraged the board members to do the right thing.

Mr. Abrams clarified that what is on the table is a hearing because the Board established a policy whereby everything is submitted by transcript. The information gathered at Level III has been submitted for the Board’s information with the opportunity for briefs from the grievant and administration to be submitted also. He said this process is better than having people come to the hearing and testify. He further explained that the Board’s policy, which is basically how the courts operate, is the hearing is based on documentation that is complete and the transcript is the discussion, which is the hearing and the due process. When the lawyers come before the Board, it is argument; and what is before the Board today is the complete package of information to be submitted; and if the Board wants to hear this, the Board would have to approve doing so at the next regular Board meeting to allow time for grievants to prepare for oral arguments. At this point no additional documentation is allowed to be presented. The current motion on the floor is to uphold staff’s decision at Level III.

Miss Green moved, seconded by Mrs. Crawley, that at the next meeting the Board go into executive session to allow this employee to be heard. Miss Green stated that when an employee is only asking to be heard, she believes the Board should allow for that opportunity for 15 minutes. Vote on the motion failed with Board members Green, Pierson, Crawley, Hooks, Trammel and Rachal supporting the motion and Board members Riall, Priest, Crawford, Ramsey, Armstrong and Bell opposed.

Vote on the main motion to uphold dispositions at Level III for all grievances carried with Board members Riall, Pierson, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell supporting the motion and Board members Green, Crawley and Hooks opposed.

RAHMBERG RECOMMENDATION, RE: OCCUPATIONAL THERAPIST

Mr. Ramsey moved, seconded by Ms. Priest, to support staff’s recommendation re: Occupational Therapist as submitted in the mailout. Mr. Rachal thanked everyone for their indulgence in this matter, but there are still some things that bother him and he doesn’t know if we have full disclosure of what we are doing for the children with the OTs and PTs year around. He said he wishes the following information had been disclosed earlier and that is we have a contract with an outside company for two months of the year; and if the Board had been given this information much earlier, it could have determined the full background and disclosure of what we were doing, why we were doing it and how it would be addressed in the future. Mr. Rachal stated at this time we are paying an outside source approximately $75 an hour which is the same thing we pay Caddo employees for. He asked that this item be postponed until next month to allow the superintendent an opportunity to let the Board know exactly all the details of how this will be handled under the new format. Mr. Rachal also asked if Rahmberg is aware that Caddo is contracting out this service. Mr. Pierson called for a point of order because a motion cannot be discussed before it is on the floor. Having made the comments, Mr. Abrams advised Mr. Rachal that someone else needs to make the motion. Mrs. Crawford moved, seconded by Mr. Rachal, to postpone this item until October. Vote on the motion to postpone carried with Board members Trammel, Priest, Ramsey and Bell opposed and Board members Riall, Green, Pierson, Crawford, Hooks, Crawford, Rachal and Armstrong supporting the motion.

SUPERINTENDENT’S REPORT

Superintendent Dawkins announced that he will be in a meeting on Friday, September 21st with the Superintendent of the Recovery School District regarding Caddo’s MOUs that are expiring or have changed. A report will be brought to the Board on the outcome of that meeting.
Dr. Dawkins stated that regarding preK centers in one of Caddo’s vacant buildings, research via the Department of Education, charter schools can only fund students in K-12 and not in preK; however, they are looking at how charter school dollars are managed and there may be something on the horizon in this area. Mrs. Bell clarified that her request is not about charter schools, but proposed pre-K/K Centers in one of the closed facilities and Caddo Parish would fund the program. Dr. Dawkins said it can be done; and he is looking at funding possibilities.

He also reported that staff is still exploring the cost for year-round schools and models different than those currently implemented in Caddo Parish. He added he sent to the Board information on the establishment of a Center for Autistic Students and some possible legal issues.

Superintendent Dawkins also announced that in October at the work session, staff will bring two presentations (Energy Conservation Proposals and Growing Number of Students at Oak Park and their continued expansion).

ANNOUNCEMENTS AND REQUESTS

Miss Green apologized if she offended any Board members in her comments. She asked for the information on an accurate number of 6th graders at Newton Smith and at J. S. Clark previously requested. Miss Green also stated she was contacted by a group out of Marshall requesting shooting some movie footage in front of one of our schools and asked staff to provide her with the procedures to be followed in this type request. She also expressed appreciation to Caddo employees (Rosemary Woodard, Pam Barker) for getting the information she needed this week.

Mr. Rachal referenced meetings this past week with staff regarding the information on insurance. He commended the staff for the incredible job in keeping Caddo’s premiums at the levels they have been and what they have been able to negotiate as it relates to the insurance.

Mrs. Crawford asked staff to check into information regarding Ombudsman turning away students on a diploma path.

Mrs. Crawley asked staff to review and provide additional information on the Common Core and the services and resources for teachers. She also asked the superintendent to share with the Board why Dual Enrollment courses are offered at different prices. Also, Mrs. Crawley asked how many students receive services of OTs during the two months in the summer that are contracted out, what is the cost, and what is a comparison to the employee’s salary.

Mr. Hooks thanked Mr. Henderson, Bossier Parish Community College, for the Pharmacy Tech Program at Fair Park and also G. B. Caze, Vice President of the Cyber Innovation Center for bringing Cyber Technology to Fair Park. He added he is also working on getting this at one of the District 5 elementary schools. Mr. Hooks asked about his request on September 4th for information on the funding source for the medical careers coordinator and secretary. He referenced staff’s notation that the school principal has not indicated to staff the need for these positions; and clarified that a parent contacted him, and he needs this as soon as possible.

Ms. Trammel thanked staff for helping with uniform requests for several schools. She also expressed appreciation to the new PTA for her audience at today’s meeting and that one of the schools in District 6 now has a PTA. She also stated there was an incident at a school in District 6 and asked for clarification that the same key can be used to get in the gates at all schools.

Ms. Priest reminded staff about the information she requested on Dual Enrollment and costs associated with this program. She also asked about the information requested on graduation numbers for 2012 (numbers by gender/race, and the total number of seniors by gender/race – at
the beginning of the 2011-12 school year and the number who graduated). She asked if she can receive this information the first week in October.

Mrs. Bell expressed appreciation to the superintendent and staff for the change brought from the Caddo Plan. She said the announcement tonight about the two Blue Ribbon Schools is an indication of successful change in the District. Mrs. Bell also invited everyone to attend the Battle of the Bands on Saturday, September 22nd, at Lee Hedges Stadium, 6:00 p.m., hosted by Huntington High School band.

**Adjournment.** Ms. Priest, moved to adjourn. The motion was seconded by Miss Green. Vote on the motion carried and the meeting adjourned at approximately 6:05 p.m.

_________________________________  _________________________________  
Dr. Gerald D. Dawkins, Secretary   Steve Riall, President
Mr. Abrams if the board can ask that question and get a response in writing in order to know what questions were asked and they were turned down? Mr. Abrams responded that there is a difference between negotiations and failed negotiations and bringing it up in front of a body. Mrs. Crawley said she asked for the offer to the employee in writing, and Mr. Abrams noted the information provided on BoardDocs is relative to the Superintendent’s recommendation. Mr. Abrams explained that obviously there was a disagreement as to what the offer was or was not because they did not accept it either. Mrs. Crawley then asked if she understands correctly that the employee was not given an offer in writing, and Mr. Abrams said she was not. Mrs. Crawley responded she was misled by the statement that she was presented with an offer and it was rejected, and Mr. Abrams reminded her that discussion of negotiations is not appropriate. Mrs. Crawley asked about a negotiation being brought up that did not exist and was not in writing? Mr. Abrams said for the very same reason, it is not appropriate. Mrs. Crawley said she is trying to comprehend this, because the board was led down one path and when the board asks questions, the board is told it is not appropriate. Mr. Abrams said there is a difference when someone does it inadvertently versus deliberately, and today the question was asked in front of the body, which is this board; and the question asked was relative to settlement negotiations which you cannot discuss. Mrs. Crawley asked again for the proposal to the employee to be put in writing, and Mr. Abrams again responded this is inappropriate also. Mr. Riall called for order because the item on the agenda tonight is to discussion whether or not to uphold the Superintendent’s recommendation. Mrs. Crawley stated she believes the board can override this ruling, and Mr. Riall said if the board wishes to it can. Mr. Riall called to end discussion on this item, because the motion is to uphold the Superintendent’s recommendation and asked Attorney Abrams to confirm. Mr. Abrams confirmed that is the motion.

Ms. Priest restated the Superintendent’s recommendation to offer the same recommendation presented at the last board meeting, and that recommendation is to maintain the employee at the current level of salary and contract year of 260 days, and he is not extending any other offers.

**Annual Salvage Sale.** Miss Green congratulated staff on the last salvage sale and asked how this one will be conducted? Mr. Graham said it will be done in the same format, based on the highest bidder. Miss Green asked if they will walk around or will staff bring forth each item to bid on? Mr. Graham said they will go to each item. Miss Green asked about the location and Mr. Graham responded that staff is looking at the Bethune location.

Mrs. Bell asked for a list of items that will be sold. Mr. Graham said a flier will be distributed prior to the sale and it lists the items to be sold.

**Out of State Travel.** Mr. Hooks asked staff to provide a breakdown on the requested amounts for out of state travel because he notes a large difference between the two principals traveling cost. He questioned the superintendent if staff is monitoring travel. Dr. Dawkins responded that staff is monitoring the out of state travel and these particular requests are relative to these two schools receiving the National Blue Ribbon Award and the expenditures will be paid from the Superintendent’s budget. Mrs. Bell said she doesn’t understand why this is paid for out of the Superintendent’s budget when these two schools are receiving this top National award and she believes the board should approve payment of these requests.

**Approval of Recommendation of Internal Audit of Maintenance Department.** Mr. Ramsey stated that his motion will be to implement the recommendation of the internal auditor on the Maintenance Department.

**Request for Long-Term Use of Worley Observatory.** Mr. Rachal expressed his appreciation to the staff for working this out for the people who meet regularly at the Worley Observatory. Mrs. Crawford echoed Mr. Rachal’s comments and asked if it is possible to send students to the Worley Observatory?
ADDITIONS

Mr. Hooks requested that the superintendent provide a report on the implementation of SunGard and if the complaints have decreased since the first audit was conducted.

Mr. Hooks also asked that an item be added to the agenda to address Subcontract Employee Grievances to an Outside Independent Firm. The board’s attorney said that is not possible as the board has to address grievances as part of its responsibility. Mr. Abrams explained that this is not an item that can be discussed because notice was not given that it would be discussed. Mr. Abrams explained that such a motion violates the law. After discussion, Mr. Hooks agreed to withdraw his request to outsource the grievance process.

Ms. Priest added “Approve Renovations of the Bethune Campus Utilizing Capital Funds to House Oak Park MicroSociety K-8”.

PROPOSED AGENDA AND CONSENT AGENDA

President Riall announced that the following items will be the Consent Agenda: 7.01, 8.01-8.03, 8.05, 8.07-8.09. Mrs. Bell moved, seconded by Mr. Ramsey, to approve the proposed agenda and consent agenda for the October 16, 2012 CPSB meeting as presented. Vote on the motion carried unanimously.

Dr. Dawkins announced that staff has completed the first section of the CPSB Policy Manual and he will get with President Riall to plan some additional work sessions to review these sections as they are completed. He also announced that staff met with the State Department of Education Network Team who is charged with setting instructional goals for the School System, and shared a copy of the draft goals for Caddo and a full report will be presented to the board next month.

POLL AUDIENCE

Jackie Lansdale, president of Red River United, stated that regarding the insurance item on the agenda, there is a lot of angst in the teaching community because they will face a $26 increase, which results in a pay cut. She asked the board to keep this in mind since the employees have not seen a pay increase for five years. Regarding the Rahmberg recommendation, Mrs. Lansdale referenced the board’s discussion and the statement that it did not realize that not everyone was restored to their previous position when the board approved this happening. She reminded the board that it told the administration at the last board meeting to take it back and bring something creative to the board. Thinking this is what would happen and meeting with the administration, she said there was no offer brought to the table and they were the only ones who brought anything to the table. Mrs. Lansdale added they believed something was to be presented to the superintendent and this employee would get something back. She also noted her unsuccessful attempts to run down the offer mentioned by staff and now understands it was an informal conversation with this employee’s director; however when she questioned the director, she was told she could never have made an offer because she did not have the authority to do so. Mrs. Lansdale said they cannot abide by a system with abusive administrators, especially when the board advocates its responsibility; and if the board chooses to advocate its responsibility and let someone else do its thinking and support administrators who are abusive to its employees, then she suggested the board do what Mr. Hooks said and implement a contract that will take the board out of any decision making which will result in binding arbitration, which is legal.

Adjournment. Mrs. Bell moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 6:22 p.m.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, October 16, 2012 with President Steve Riall presiding and board members Jasmine Green, Carl Pierson, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong, and Dottie Bell present being a quorum. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mr. Riall led the invocation and Pledge of Allegiance.

President Riall announced that Board Member Crawley is absent due to illness.

CONSIDERATION OF MINUTES OF THE SEPTEMBER 18, 2012 AND OCTOBER 2, 2012 CPSB MEETINGS

Mrs. Bell moved, seconded by Ms. Priest, to approve the minutes of the September 18, 2012 and October 2, 2012 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications, on behalf of the board and staff, recognized the following students and staff members. President Riall and Superintendent Dawkins greeted each one and presented them with a certificate recognizing their accomplishment. Administrators, family and friends present were also recognized.

**National Merit Scholarship Program Semifinalists.** Byrd High School students Adam Burgess, Phillip Gill, Caleb Goff, Claire Hartgrove; and Caddo Magnet High students Ryan Browning, Staveley Kuzmanov, Henry Lin, Paul Nesbitt, Sean Nathan, William Pinkston and Samuel Reller were recognized as National Merit Scholarship Program Semifinalists.

**Outstanding School Support Employees.** Outstanding School Support Division Winners recognized were Sandra Moody, Academic Affairs Division, Title 1 Budget Coordinator; Aketa Latin, Support Services Division, Purchasing Processor, Child Nutrition Department; Saundra Roberson, Human Resources Division, Secretary III in Attendance; and Kelli Duffield, Superintendent’s Division, Auditing Department. The three Outstanding Division Support Employees recognized by the State Department of Education include Kelli Taylor, Office Clerk, Shreve Island Elementary; Rogers Gage, head custodian, Newton Smith 6th Grade Center; and Margarite Smith, General Fund Aide at BTW New Technology High School.

**State Counselor of the Year.** Mitzi Musgraves, Caddo Career and Technology Center, was recognized as the State High School Counselor of the Year.

**KTBS One Class at a Time” Grant Winners.** Barbara Jackson, 4th grade teacher at Oak Park MicroSociety School, was recognized for receiving KTBS Channel 3’s $1000 “One Class at a Time” grant. Spellers purchased will help the students increase their vocabulary, essay writing and language arts skills. Emily Claycomb, SPED teacher at Riverside Elementary, and Jennifer Douglas, 4th grade teacher at Riverside, were recognized for receiving the KTBS Channel 3’s $1000 “One Class at a Time” grant which they will use for their students to rotate through six centers (reading activities, computers, ipads, smart boards, and a craft/cooking center).

**National Principal’s Month.** Mr. Mainiero read a resolution recognizing October as “National Principal’s Month”. This resolution will be made a part of the record for the October 16, 2012 CPSB meeting and shared with all employees in the system.
Newly Appointed Administrators. Dr. Mary Nash-Robinson introduced the following newly appointed administrators (instructional coordinators): Melanie Randall, Fairfield Elementary Magnet; Angela Morris, Forest Hill Elementary; and Kimberly Davenport Marshall, Turner Elementary/6th Grade Academy. Dr. Robinson also announced that Pam Barker, director of special education, is retiring and this will be her last board meeting.

VISITORS

Stephanie Lynch, Caddo Parish Commissioner and resident of Hollywood Heights, addressed the board on the recommendation to move Oak Park MicroSociety K-8 School to Bethune Middle School. Ms. Lynch shared her concern for a vacant building in that area and the negative impact such a move would have on this area. She said she would like to make sure that all parties involved come together when discussions are held regarding the future of the current Oak Park school building. She referenced a decision in the 1970s to close Bethune and she believes the community has never recovered from that decision; and with Oak Park being at the height of its success, she does not want Oak Park to lose that momentum gained. She encouraged the board to carefully consider any decision it might make in moving forward in this and consider the totality of the impact on the community.

Jon Glover, employee, stated that her speaking does not reflect on any employee of the Caddo Parish School System and she is speaking as a grandparent and a concerned citizen of Caddo Parish. She said she is the board’s conscious since the board does not know when she will show up, but the board does know that is always a chance. She stated that she brings with her today an act that will convict the board or release it from practices in which it engages. Ms. Glover stated that manipulation is just one of the many tools utilized in an average circle where one’s focus should be – educating all children equally in Caddo Parish. She asked how many schools are currently labeled Academically Unacceptable, and what is the racial makeup of those schools. Noting that Ms. Priest stated at the work session that Bethune was closed to avoid a takeover by the State Department, she questioned why nothing was done for 13-15 years prior to its closing to address Bethune’s educational inadequacies. When Bethune was closed, the students were dispersed to other schools facing similar educational inadequacies; and the board continues to institute programs that are not meeting the needs of these students and she questions why. She also asked about the 25 substitute teachers at Fair Park High School. While there are students achieving, she reminded the board that the mass majority of students are not achieving and asked if the board believes substitute teachers contributed to this status. What is being presented is not the issue, but the issue is our children are being set up for failure and nothing is being done to avoid this. She encouraged the board to stop destroying Caddo’s children, more inner city children than any in Caddo Parish, to consider the disruption in the moving of these children from Oak Park to Bethune, and let the board members’ conscious be its guide and not continue this pattern for disadvantaged children.

Jackie Lansdale, president of Red River United, referenced the shifting of many of the board’s powers during the last Legislative Session to administration. She noted that it is true that the hiring and placement of authority in the school system have been delegated to the superintendent; however, LRS 17:81(a)(3) states that the local board has the authority to set the number of employees to be hired, the terms of their employment and their salary. Mrs. Lansdale asked that when employees come to the board via the grievance process, i.e. Occupational and Physical Therapists, and the board moved to override the Rahmberg study recommendation in totality, this is not only exercising the board’s authority, but its obligation, in setting pay, benefits, and terms of employment. In fact, she said that the board is granted broad discretion in setting salaries, benefits and terms of employment and the court presumes these actions were made in good faith and in accordance to law. What would not be in good faith or in accordance with law is if the Superintendent made a financial deal or offer with an employee or suggest that one had been made. She also said that another critical area for the board is the grievance policy
and procedure, because while the grievance policy provides LRS17:104, it at first does not appear to be outsourcing, the board is charged with disposing of the grievance and this was something presented by Board member Hooks at the last meeting. Mrs. Lansdale also referenced Section D which provides latitude for a different construct. She said that any provision contrary, the city and parish school boards may, in negotiating contracts with teachers and other employees, amend its rules, regulations and policies relative to the grievance procedure. She said this language provides the basis for allowing a completely or partially outsourced grievance process. Mrs. Lansdale stated that a good start would be for a board member to make a motion that pursuant to LRS17:100.4(d) to enter into a contract negotiation with teachers and other school employees for the purpose of amending the rules, regulations and policies relative to the grievance procedure and to recognize the Red River United as the bargaining agent for teachers and other school employees. She further stated that the passage of such a motion would ensure that a fair and balanced approach between the Caddo School Board and Caddo employees could be reached. She said this is what is in the best interest of the district and the boys and girls it serves.

Roy Thomas, former employee, addressed the board on what he read in the paper about moving the students from Oak Park to Bethune and that he is overjoyed at the fact that Mrs. Anderson still is doing great things for the kids at Oak Park. He stated that it disturbed him when he read in the article that Oak Park might lose its excellence if this move is made to Bethune given Bethune’s history. He said when Bethune opened, the staff was one that cared about students that needed hope; but Bethune fell on hard times and some misguided decisions were made resulting in it being very difficult for Bethune to recover; and he believes this is an opportunity to recapture what was lost in those decisions made. Mr. Thomas stated that buildings do not make, nor cause results to happen, it’s people. If the right people, leadership and staff, are in place, then results will trump history and a building and location. He ended his comments by stating an oft quoted statement “can anything good come out of Nazareth?”, and he paraphrased this by asking “can anything good come out of Mooretown?” He is convinced that something very good can come out of Mooretown.

Celeste Powell, employee, addressed the board on her request of the board to reconsider her salary and the fact that it is frozen for 10 years as a result of the Rahmberg study. She noted the importance of the district retaining its experienced and knowledgeable therapists. Also, she noted Caddo’s history in being able to employ and keep therapists on staff when the pay was not competitive. Ms. Powell said it has always been her belief that the board, when it corrected what happened when implementing the Rahmberg study, did not intend to single her out by freezing her salary and not making her salary as a 260-contract day employee competitive. She noted that she is only doing what other employees would do and that is seek equal pay for equal work. As a 260-day employee, Ms. Powell stated she doesn’t believe the total number of days she works in Caddo Parish should lower her rate of pay after working in Caddo for 13 years. Having never had any complaints from anyone relative to the work she does, Ms. Powell stated she is proud of the work she does for Caddo Parish and the accomplishment she sees in the students with whom she works, and she is hopeful that she will be able to continue to dedicate herself to the children in Caddo Parish and that the board will correct this salary calculation.

Vanessa Naquin, parent, thanked the board member that has helped her to address out of control situations regarding her daughter because nothing happened for over 2 years to address her concerns. She noted how she was treated when talking to a board member that told her they were not her board member, but expressed her appreciation for the help afforded her by Mr. Hooks in addressing her problem. She also cited the effects of poverty on young people’s lives and encouraged the board to focus on why the people elected them.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA
Superintendent Dawkins presented the items for the Board’s consideration and the following discussion ensued. He requested that Item 8.09 “Request for Long Term Use of Worley Observatory” be pulled. Mr. Riall announced that Items 6.02, 8.01-8.03, 8.05, and 8.07-8.08 are the consent agenda.

Mrs. Bell moved, seconded by Mr. Pierson, to approve the consent agenda (Items 6.02, 8.01-8.03, 8.05, and 8.07-8.08) as presented. Vote on the motion carried unanimously. The following is a summary of the board’s action with approval of the consent agenda.

**Item No. 6**

6.02 Personnel Transactions Reports. The board approved the personnel transactions reports for the period of August 24, 2012 – September 20, 2012 as submitted. A copy of this report is filed in the official record of the October 16, 2012 CPSB meeting.

**Item No. 8**

8.01 Proposed Revisions to CPSB Policy IDDF. The board approved the proposed revisions to CPSB Policy IDDF as recommended by staff and submitted in the mailout.

8.02 Self-Funding of Group Health Insurance. The board approved changing the CPSB Group Health Insurance funding arrangement from fully-insured to self-funded, to contract with Blue Cross Blue Shield of Louisiana to provide administrative services for the next two years in exchange for a guaranteed payment of $4.5 million from our premium stabilization fund, to allocate $2.2 million from general fund savings to complete the funding of the reserve requirements; and to establish an Internal Service fund to account for the Group Health Plan as recommended by staff and submitted in the mailout.

8.03 Annual Group Insurance Renewals. The board approved the annual Group Insurance Renewals as recommended by staff and submitted in the mailout.

8.05 Annual Salvage Sale. The board authorized staff to hold an auction sale of used furniture and equipment in November, 2012.

8.07 Out of State Travel. The board approved out of state travel (General Fund) requests as recommended by staff and submitted in the mailout.

8.08 Approval of Recommendation of Internal Audit of Maintenance Department. The board approved the recommendations of the internal audit of the Maintenance Department as submitted in the mailout.

**BIDS (PURCHASING)**

Mr. Rachal moved, seconded by Mrs. Armstrong, to approve the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) OtterBox, unit price totaling $26.57 for iPhone 4; unit price totaling $26.57 for iPhone 4s; unit price totaling $26.57 for iPhone 5 and unit price totaling $47.85 for iPad 2/3 for purchase of iPad and iPhone protective cases for Title 1 (Items are being purchased to protect existing iPads purchased through Title 1 for classroom use); (2) Music & Arts, totaling $7,755.00; Brook Mays Music, totaling $20,381.00 and Cascio Interstate Music, Inc. dba Interstate Music, totaling $5,388.00 for the purchase of band instruments for the Music Department; Grainger Industrial Supply, totaling $48,163.80 for the purchase of filters – heating, ventilating and air conditioning; and SafePlans, LLC, totaling $40,560.00 for the purchase of emergency response procedure manual for the Security Department.
Mr. Rachal asked about the $40,560 for the Emergency Response Procedure Manuals. Mr. Graham responded this is the REMS grant; and Roy Murry, director of Security, explained it is a quick-reference guide for the Crisis Response Plan for Caddo Parish that will be provided to each teacher providing them guidelines for what to do in specific crises. Mr. Rachal asked if this is for printing and binding? Mr. Murry said that is correct for 3,120 manuals. Mr. Rachal asked from where is the District receiving this grant and Mr. Murry responded from the U. S. Department of Education and Homeland Security.

Vote on the motion carried unanimously. A copy of the bid tabulation sheets is filed in the official papers of the October 16, 2012 CPSB meeting.

**RAHMBERG RECOMMENDATION, RE: OCCUPATIONAL THERAPIST**

Mr. Ramsey moved, seconded by Ms. Priest, to approve Rahmberg’s recommendation per request of Superintendent and staff. Mr. Rachal stated that after further review of the information received and becoming more aware of how we are handling the extra time during the year that we have students needing OT and PT services, by contracting out these services; and because we will no longer have anyone in the 12-month timeframe, it appears to him that it is costing us more to use the contracting company. Mr. Rachal moved, seconded by Mrs. Armstrong, to ask Rahmberg to reconsider the compensation plan based upon the same information provided to the Board that private contractors will be hired by the District at a substantially higher cost than continuing the position pay as prior to the Rahmberg study. Mr. Rachal stated that over the months we have continued to gather additional information and to him it is disturbing that we have someone working fulltime, with the same job description as those employees on nine month, who is paid less on a daily basis; and, not knowing if Rahmberg was provided the same information provided to the board, he would like Rahmberg to review the cost that the District is paying contractors for these services in lieu of having District employees provide these services, which impacts the budget.

Mr. Pierson called for a Point of Order and for the record, a motion cannot be discussed prior to making the motion and then the maker of the motion continue to discuss it.

Mrs. Armstrong stated that the information shared by Mr. Rachal is something she recognized when reading this information, and she supports the motion which is relevant not only to this situation, but possibly to others. Board member Armstrong said she believes the board and the administration need to continue to look more carefully at what is being done with outsourcing; because while outsourcing benefits us in some cases, in this case, it appears our own employees can be hired at a lesser rate and still be on the same scale as the 9-month employees. In lieu of the fact that the board was not initially given all the information requested, she supports taking the time for Rahmberg to review this additional information shared with the board.

Mr. Abrams explained that Mr. Rahmberg’s only duty is to determine the value of a position and it is up to the board to decide if it wants to spend money for additional outsourcing. He further stated he cannot tell the board whether or not it should outsource, so sending it back to Rahmberg is not appropriate for this determination. He only determines the Fair Market Value for what an OT or PT should make and provides the district with a salary schedule. The decision to outsource any of these services is something totally different and is a board’s decision.

Dr. Dawkins asked if the additional information being referenced is that coming from the OT/PT summer contract cost of $4,555? Mr. Rachal said it is the Elite contract where we are paying them $75 per hour. Dr. Dawkins asked if there is any additional information and Mr. Rachal said this is one of the pieces of information staff provided.
Mr. Rachal stated that since the motion to send it back to Rahmberg is not appropriate, he moved to correct the motion and change asking “Rahmberg” to asking “administration” to reconsider the compensation plan. Mr. Abrams explained that while the motion is an appropriate motion, if approved, the board is going against its own policy that an outside expert will determine the value of positions, and the expert has done that. The additional amount associated with what it cost the district for outsourcing these services is an additional sum of money and a decision for the board to make, and it does not change the value of the position as graded by the expert or the pay schedule. Mr. Rachal stated that the board does not have to approve everything Rahmberg sends to the board, and Mr. Abrams said that is correct; but it comes from the expert so that it is consistent across the board. Mr. Rachal said he has issues with the pay, and the board can vote on this tonight or not, but how this worked out is not what the board expected when it approved it. He also said that he believes that now that the board is aware there is some additional cost involved to outsource needed services that everyone should be aware of when considering it.

Mr. Ramsey asked Dr. Dawkins if the contract for these services is something new or is something that has been in place? The superintendent confirmed it has been in place. Mr. Ramsey asked if he understands correctly that this contract is in place for the summer and has been done in lieu of hiring an additional staff person(s) to provide these services and we can do so for $4,555 rather than paying an additional staff person a salary, benefits, etc. and asked if the work/services can be provided without doing a contract? Pam Barker, director of special education, explained that this contract has been in place for many years beyond her tenure as director of special education, primarily to work substitutes who are highly qualified, certified, when a licensed therapist is out. She explained we also use Elite for extended school year services since the District does not have a full range of OTs and PTs that work a full 260 days; and these are required services paid from IDEA dollars and not the General Fund. Mr. Ramsey asked if he understands correctly that Caddo uses these services very selectively to cover students’ needs and at the same time, if we don’t use Elite’s services, it would be necessary to hire additional personnel to address these needs? Mrs. Barker said that is correct. Mr. Ramsey asked the board to look at if it wishes to spend an additional $4555.00 to provide these needed services during the summer or does the board wish to spend an additional $70,000 plus to hire an additional person to provide these services. He added that selective use of contract services is not necessarily outsourcing the department, but it is utilizing services to supplement what we have. Mrs. Barker said that is correct for the days in June and July that someone is needed to provide these services and staff is not available. She also stated that the initial process for using Elite was for substitutes, because there is not a pool of substitute teachers or nurses to pull from when a therapist is out. Mr. Ramsey said this is very unique, and this information is very good to have. He also asked the board president to address the noise in the audience and Mr. Riall reminded the audience that this is the board’s meeting and not a meeting of the public even though it is held in public because of the Open Meetings Law. He expressed appreciation to the audience for silence while conducting this meeting. Mr. Ramsey said since this contract is strictly to provide services that we do not have an employee’s presence to support, and it has nothing to do with the salary schedule, he cannot support the substitute motion.

Mr. Hooks said Mr. Rahmberg is not an OT and he is not a profession in the area of OT; and he believes we owe this employee and should pay her. He further stated if the superintendent had presented this information prior to the board voting on it, he doesn’t believe the board would have approved it and is why the board is where it is at this time. He encouraged the board to do the right thing.

Miss Green stated that her heart goes out to this employee; however, she shared that she recently received a call from someone whose salary has been frozen for five years. If the board supports this request before the board, she was also told that those whose salary was frozen will be the next to appear before the board about it. Miss Green said the board has addressed this for months and she believes it is now time to move on.
Ms. Trammel stated she has previously shared with the board that as an employee, she experienced a similar situation. She said she believes if the board fixes it for this employee, it will be inundated with other requests from employees who have experienced a similar thing.

Mr. Rachal asked if he understands correctly that the district has been using Elite for years to handle substitutes needed during the school year; and since the board has made changes in how the OTs and PTs are hired, we now use Elite to provide services in the summer, which is an additional cost. He said when outsourcing works, he doesn’t have anything against it; but if we have staff we need to use staff. Mr. Rachal again stated that the board, superintendent or staff did not make the decision to intentionally address every OT and PT but one, and asked the board to let that be the basis for the decision when casting the vote.

Ms. Priest moved, seconded by Mr. Pierson, to call for the question to end debate on all motions on the floor. Vote on the motion carried with Board member Rachal opposed.

Mr. Rachal restated the substitute motion to ask administration to reconsider the compensation plan based upon the same information provided to the Board that private contractors will be hired by the District at a substantially higher cost than continuing the position pay prior to the Rahmberg study. Mrs. Bell asked for clarification of the motion and Mr. Rachal stated that this only addresses the one OT position involved. Mrs. Bell said she believes the first motion addresses the issue and this motion does not address the same thing. Mr. Abrams said it is still an appropriate substitute motion, because it is an item on the agenda and the substitute motion is instead of the main motion. Mr. Rachal said this also has to do with the budget, and Mr. Riall ruled that the conversation is going beyond what it should. Vote on the substitute motion failed with Board members Hooks, Crawford, Rachal and Armstrong supporting the motion and Board members Riall, Green, Pierson, Trammel, Priest, Ramsey and Bell opposed.

Vote on the original motion carried with Board members Hooks, Rachal, and Armstrong opposed and Board members Riall, Green, Pierson, Trammel, Priest, Crawford, Ramsey, and Bell supporting the motion.

REQUEST FOR HEARING IN ACCORDANCE WITH CPSB POLICY GBCB-R

Mr. Ramsey moved, seconded by Mrs. Armstrong, to note in the record the employee’s claim of retaliation and to require the superintendent or the superintendent’s designee to monitor and make sure no retaliation occurs against the employee in the future. Mr. Ramsey added that there is no admission of retaliation, but simply that the board has reviewed the information and this is the motion being brought. Vote on the motion carried unanimously.

APPROVAL OF RENOVATION OF BETHUNE CAMPUS TO HOUSE OAK PARK MICROSOCIETY K-8 UTILIZING CAPITAL FUNDS

Ms. Priest moved, seconded by Mr. Pierson, to approve renovation of the Bethune campus to house Oak Park MicroSociety K-8 School utilizing capital funds as submitted in the mailout. Ms. Priest encouraged her fellow board members to join her today in support of the boys and girls, faculty and staff, that attend and work in one of the six approved K-8 schools in Caddo Parish. She said the vote today is about academics and offering the students at Oak Park the same amenities as their fellow K-8 students attending Herndon, Oil City, Walnut Hill, Vivian, Turner and Keithville. With the bar being raised each year and with Oak Park rising to the requirements and standards with scores being up, Oak Park has been recognized as one in 269 National Blue Ribbon Schools in the United States. The enrollment continues to increase; and based on the Parsons Study, 85% capacity is 396 students. Oak Park has a current enrollment of 452 students with 6th and 7th grade students now taking P.E. in a classroom and there is no art
classroom or science lab as there are in other K-8 schools. She asked the board to support the movement of Oak Park MicroSociety School K-8 to the former site of Bethune which has the much needed space. The former Bethune campus has a cafeteria, auditorium, computer lab, science lab, culinary arts, hospitality space, gymnasium, choir, band room and counseling space more conducive to the added grade levels. The two facilities are less than a mile from each other and are located in the same community with the same culture. The attendance zones approved by the board earlier this year are in place, and the cost is approximately $3.9 million. She also noted that the current Oak Park location is land locked and to build the needed amenities is cost prohibitive ($12 million). Ms. Priest also stated that time is a factor as the 8th grade will be added to this K-8 next school year. Choice is being offered to parents by the State and by the District; however, Ms. Priest said it is her desire that the current 7th graders, and the future 8th graders, will be able to continue on the path of academic excellence achieved at Oak Park. She said she does not personally believe a building educates children nor that a building is jinxed; and while the building is different, it is not the building that educates the children, but what and who are in the building (teachers, students, support personnel, volunteers, community) that make a difference in the success of a school. Ms. Priest also stated that relative to the vacated building, those in the community will be brought to the table for their input with any proposed uses for the vacated facility. Again, she encouraged the board to support this proposal and place these students in a true K-8 facility.

Mr. Pierson echoed Ms. Priest’s comments and added that this makes good sense. He urged his colleagues to support this proposal.

Mr. Hooks stated he doesn’t understand why we are placing all our money in brick and mortar, which does not count, but it’s academics that count. He asked if the board is also interested in making Arthur Circle and A.C. Steere K-8 schools because their enrollment is approximately the same. He also stated he is concerned that the board is being asked to vote on this with only two weeks’ notice; and if this kind of money is going to be spent, he recommends putting it into the classroom since the employees have not had a pay increase in four years. Mr. Hooks referenced the great job Mrs. Anderson did at Mooretown, and he doesn’t think it is fair after doing a great job to turn the school around to move it to another area. Mr. Hooks said he believes this community is dead and he asked where are the students coming from? Ms. Priest reminded Mr. Hooks that when the board approved the attendance zones for Caddo Parish last April, an attendance zone was approved for Oak Park K-8. Mr. Hooks stated his understanding; however, he doesn’t believe there are any students living in that attendance zone. Mr. Hooks added that being in and out of the Mooretown area weekly, he has noticed how transit the people are that live in that area, and this negatively affects the school’s score. Mr. Hooks warned that the board will regret this if approved, the same as moving the 7th and 8th graders to high schools.

Mrs. Bell stated for Oak Park to be a K-8 school, the students are currently taking P.E. in a regular classroom which is the same thing the staff at Caddo Middle Career & Technology Center did. She noted this move is not something that just came up, but the 5th and 6th grades were added with the intent of adding 7th and 8th grades. Having received a call from one of her constituents questioning her support of this proposal when Greenwood does not have a school, Mrs. Bell said she reminded this person that twice new schools have been asked for and the superintendent brought forth a proposal to build in Greenwood and southeast Shreveport but the board voted against it, against presenting it to the people to decide. Later, the superintendent brought back to the board a plan to build four new schools and she will not support a new school in Greenwood unless the voters in that district say they want a new school. She said she doesn’t understand why the board wants to deny these students the same things that other K-8 schools have; and she will not play politics with children.

Mrs. Crawford asked if students attending 7-12 schools will transfer into Oak Park? Dr. Dawkins responded that parents in Oak Park attendance zone have opted to go to the 7-12 but
these parents will have the choice for their middle school children. Mrs. Crawford asked if they will be tested? Dr. Dawkins said they will not as they come under the current Oak Park admission criteria. Mrs. Crawford asked Mrs. Anderson if the number of 7th graders for next year is 15 and Mrs. Anderson responded the number is more than 15. Mrs. Crawford asked if board members will get the additional details mentioned, and Dr. Dawkins stated that staff attempted to answer all questions and the information was sent to all board members. Mrs. Crawford also stated her concern about the previous need to do something publicly to make sure that the first day students arrive on the new campus it is no longer Bethune, but it is Oak Park, and those attending the new Oak Park do not need to be “haunted” by the history of Bethune. Dr. Dawkins responded staff heard this concern from others and is looking at ways to address this PR need.

Miss Green said while she thinks this is a great idea, she has to agree with Mr. Hooks in that this is short notice to vote on this; however, believing that board members should know what is going on and what is best for their districts, she supports Board member Priest on this request. She also asked if the community is fully aware that this change is taking place? Dr. Dawkins explained that Mrs. Anderson has worked with the parents in this community. Miss Green stated she only wants to make sure the community is aware of this change. Dr. Dawkins added that he too wants to make sure the community is aware; and while it may not be at 100%, staff will continue working on it. Miss Green also asked if staff will proceed with the PR? Dr. Dawkins responded that the District has been blessed with some good publicity recently and once the board makes a decision, it is something that will be placed on the web site.

Mr. Rachal said this is a good idea; however, he does have some issues with this. While he appreciates the forward thinking in putting together the plans that there is a need for a K-8 school, he is looking at some of the board’s priorities and hopes that in the future when looking at a new school for another area in the district, board members will speak favorably for it. Mr. Rachal stated that his issues include spending $4 million in the capital projects budget, and he received two pieces of paper prior to the board meeting on this matter. He said what he would like to address is the immediate priority this project became when southeast Shreveport has been a priority with University Elementary having over 900 students. He said he previously asked about population guidelines in the district’s schools and his desire to see them applied across the district. Mr. Rachal said University is and has been a high priority and his issue is he does not agree with the current priorities. University has not been addressed and noted the lack of space when special programs are held, students begin eating lunch at 10:00 a.m., and the traffic in the neighborhood for programs as well as in the mornings before school and in the afternoon when school lets out. He added that 7,000 homes have been built in southeast Caddo Parish which represents approximately $8 million annually in revenue to the Caddo Parish School Board, yet there is still no plan as to how this issue will be addressed. He questioned how instantly the project presented became a top priority and he clarified that how he casts his vote tonight does not reflect that he doesn’t appreciate all the hard work the administration and faculty have done at Oak Park; however, it appears a little inequitable when nothing has been done in southeast Shreveport. Mr. Rachal challenged the superintendent and staff to provide pictures of a new K-8 school in southeast Shreveport so he can promote building a new school, because with the overcrowding in this one school, there are actually ample students in this area to open two charter schools. Again he reiterated previous comments; and while he understands staff has been working on this project more than two weeks, it only came to the board two weeks ago and it came at the top of the priority list where other issues for southeast Shreveport have been for some time but not addressed. Mr. Riall reminded the board that the motion is whether or not to approve renovating Bethune to relocate Oak Park MicroSociety K-8 and not what each district does or does not have. Mr. Rachal added the motion also directs the superintendent to spend $4+ million and this also is an issue with him.
Mr. Pierson reminded the board that since he has been on the board, there was an opportunity to vote for a bond issue that would solve a lot of issues, but the board chose not to do so. While he too recognizes the need for a school in southeast Shreveport and in Greenwood, that is not a reason to not take care of what we can in the current capital budget. He stated his support of Oak Park moving to Bethune; and it will be the leadership and staff reputation that will go before them. He also reminded board members that Oak Park will build its middle school from within because the 3rd, 4th and 5th graders will move up to the 6th, 7th and then 8th, in addition to some students who may transfer back into their neighborhood schools, which will help in the area of transportation needs. Mr. Pierson added the most significant thing to him is the opportunity this will be in providing a building with everything they need to have a great educational experience.

Ms. Priest restated that she does represent District 7 and reminded the board that when talking about the budget, we are talking about the capital projects budget and it cannot be utilized for instruction but only for facility improvements. She also stated that if board members recall, principals at every school submitted their priorities for capital improvements and they were asked to prioritize them, a copy of which has been provided to the board. Also, while Oak Park did receive the National Blue Ribbon School designation, it did so as a K-8 because Oak Park was approved as a K-8 several years ago with the 6th added one year, then the 7th, then the 8th grade. Again, she encouraged the board to support this capital projects expenditure.

Mr. Hooks moved, seconded by Ms. Priest, to call for the question. Vote on the motion to end debate carried unanimously.

Vote on the main motion carried with Board members Hooks and Rachal opposed, and Board members Riall, Green, Pierson, Trammel, Priest, Crawford, Armstrong and Bell supporting the motion. Mrs. Armstrong announced that Mr. Ramsey had to leave the meeting due to a family emergency.

EXECUTIVE SESSION

Student Readmission Appeal. Ms. Priest moved, seconded by Mrs. Bell, to approve student readmission appeal requests for F.E., E.H., J.H., O.K. and C.K. as recommended by staff and submitted in the mailout. The parents are in agreement with staff’s recommendation. Vote on the motion carried unanimously.

SUPERINTENDENT’S REPORT

Superintendent Dawkins announced that he will get to the board a copy of a memorandum from the Department of Education relative to MOUs in place until December 2014 giving the district an additional year to do everything it wants to do to turn some schools around. He also announced staff is waiting on a response relative to the district’s desire to enter into an agreement to reestablish Linear Middle School.

Relative to capital projects, Superintendent Dawkins shared with the board members a proposed three-year capital projects list, which at this time is a fluid document. He said QSCB projects are listed in addition to those projects that will be funded from Capital Projects.

ANNOUNCEMENTS AND REQUESTS

Ms. Trammel noted that she recently was in the car line at the referenced southeast elementary school and understands what Mr. Rachal is talking about. Also, she asked Dr. Dawkins to look at the traffic problems at two schools in her district that are located in close proximity to each other (Cornelious to Rainbow Drive). Dr. Dawkins responded that there are many schools with a similar problem and staff is visiting these concerns throughout the district.
Mr. Rachal asked if the amount listed on the three-year capital projects list includes the $4 million in year 1 for the new Oak Park. Dr. Dawkins responded it does.

Miss Green expressed her appreciation to Capital One for sponsoring a “green” project at three of four schools in her district and asked that staff send a letter to them for his donation.

Mr. Hooks asked for some copies of the MiniFacts, congratulated Mr. Pierson on being crowned the King of Sobek, and announced that Fair Park held a college and career fair last week that was very well attended by the 9-12 grade students. He asked that a note of appreciation be sent to Ora Hamilton for this successful event.

Ms. Priest shared with the board members her appreciation for their support of the project to relocate the Oak Park MicroSociety K-8 to Bethune.

Mr. Pierson announced that last Tuesday at J.S. Clark, the Donuts for Dads event was held and had a successful turnout. This event was co-sponsored by some of the men from his church and he asked that an expression of appreciation be sent to the appropriate person(s). Dr. Dawkins added Mr. Cunningham helped underwrite PTA membership for each one in attendance and is now interested in doing the same for other schools as well.

Mrs. Bell expressed her appreciation for the successful college and career fair at Huntington High School. Also, Grandparents Day was held at Walnut Hill and the turnout for this event was very successful. She also expressed condolences to Curtis Hooks and his family in the loss of his father-in-law.

Adjournment. Ms. Priest moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion carried unanimously and the meeting adjourned at 7:03 p.m.

Dr. Gerald D. Dawkins, Secretary

Steve Riall, President
November 13, 2012

The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, November 13, 2012 with President Steve Riall presiding and Dottie Bell and Larry Ramsey present being a quorum. Other school board members present were Jasmine Green, Charlotte Crawley, Lillian Priest, Bonita Crawford, Barry Rachal and Ginger Armstrong. Also present was Legal Counsel Reginald Abrams, staff and other visitors. Miss Green led the invocation and Pledge of Allegiance. President Riall announced that Board member Curtis Hooks is out of town and Board members Mary Trammel and Carl Pierson were absent due to recent surgeries.

ESTABLISH AGENDA AND CONSENT AGENDA FOR NOVEMBER 27, 2012 CPSB MEETING

Chief Academic Officer Antionette Turner highlighted items for the board’s consideration at its meeting on November 27, 2012 and the following discussion ensued.

Bids (Purchasing). Mr. Ramsey asked staff to provide him with information explaining the difference in the bid total amounts and why the bid recommended was chosen. Mr. Lee explained that he will follow up and provide a response to all board members.

Approval of Conflict of Interest Waiver of Malone Law Firm. Miss Green asked Attorney Abrams to clarify this matter and Mr. Abrams explained that Mr. Malone is currently an attorney for the CPSB and has chosen to be the counsel for the Shreveport Charter Foundation, the operator for the Magnolia School of Excellence; and he is asking that the CPSB waive any conflict of interest. He further explained there is not a true conflict of interest since he has no information that would be considered a conflict of interest or would he know the School Board’s information to use against the CPSB. He said it is a business issue for the CPSB to decide if it wishes to continue to do business with a firm that is now representing the CPSB and one of the charter schools; and if the board chooses not to waive the conflict, then Mr. Malone could no longer represent the CPSB. Mr. Riall asked Mr. Abrams to clarify that a “yes” vote would be to waive the conflict of interest and we would continue to retain this lawyer, and Mr. Abrams confirmed that is correct. Currently, the charter agreement is still being negotiated between Mr. Malone and himself (Mr. Abrams) because there is potential they will work together since the charter school will be under the CPSB.

Mr. Rachal said he takes issue with some of this since this attorney has already made a decision to represent this charter. Mr. Abrams said that is correct and he has been made aware that this would be put before the CPSB for a decision. Mr. Rachal asked are there some cases Mr. Malone is presently working on for the CPSB? Mr. Abrams said that is correct and because there are 5-6 law firms that handle general litigation (which is the area Mr. Malone handles), it would mean he handles a couple of cases a year. Mr. Rachal also asked Mr. Abrams if he believes there will be any issues relative to what Mr. Malone has done for the CPSB in the past and what he will be doing to represent the charter school in the future. Mr. Abrams said Mr. Malone has never worked with the inner workings of the school board, i.e. human resources (personnel), but handles bus accidents, slips and falls, etc. Mr. Rachal asked Mr. Abrams if he is confident the attorneys in place can pick up Mr. Malone’s cases? Mr. Abrams said that is correct; however, if the board decides not to waive any conflict, then the board will need to decide whether or not to retain Mr. Malone on files he is presently assigned since there is a cost for reassigning files. Mr. Rachal asked what is Mr. Malone currently handling and what is the possibility of allowing him to finish these cases? Mr. Abrams responded he will provide that information. Mr. Rachal asked Mr. Abrams how long has Mr. Malone been doing legal work for the School Board and Mr. Abrams responded since approximately 2006 and he has been very efficient in his work for the School Board. Mr. Abrams reminded the board that Mr. Malone did
come to him before he made a final decision; however Mr. Abrams told him it would be put
before the board.

Ms. Bell asked board members to remember that charter schools are competition for the public
schools, as are vouchers. She said she knows this attorney and he is a very good attorney;
however, she cannot vote to waive any conflict of interest, because she believes it is a conflict of
interest. She did agree to allow this attorney to complete his current cases.

Mr. Riall asked Mr. Abrams if he is in a position to give a recommendation on this matter? Mr.
Abrams responded that he has given his opinion as far as this attorney’s quality of work and that
he would continue to do good work for the School Board; and, he reminded the board that this is
a CPSB Charter School.

Ms. Priest said she believes one of the things in the hands of the board is to make the decision to
waive or not waive and the position should be basically the same as it is in other legal matters.

Ms. Bell stated she knows he is an honest man and it is great for him to let us know; however on
this decision, she does not believe it will work.

**Amikids Contract.** Mr. Ramsey asked Mr. Abrams to summarize this proposed contract for
Amikids. Mr. Abrams said the contract came from Amikids in the State Department; however
he removed a lot of the State Department verbiage and the State Department must approve the
District using them as the originally submitted contract was based on the State Department’s
requirements requesting us to provide MFP and local dollars as of October 1 and February 1
counts. Mr. Abrams also explained that Amikids was originally the Marine Boot Camp out of
Minden used by the Juvenile Court to send students as a last resort. When negotiating the
contract, Mr. Abrams asked about the number of students they would take, and the contract was
written that we would only pay for the number of students they actually had and not the October
1 and February 1 numbers. The State Department has instructed them, since they did not like the
money flowing through Juvenile Justice, to set up the operation similar to a voucher program,
thus the reason for the contract wording. Mr. Abrams also confirmed that when asked how many
students they could accept from Caddo, they responded up to 60, and the intent will be when
students act up at the Ombudsman sites, this will be the next option, which will cost less than the
other programs.

Mr. Ramsey stated there has been a need for such a place for these students and he believes this
opportunity may be the one that helps these students get back on track. Mrs. Crawley asked if
the facility in Minden will be the one used for these students? Mr. Abrams explained that the
students will be transported from Shreveport everyday. Mrs. Crawley asked if these are students
in our classrooms (before being expelled)? Mr. Abrams responded that the logistics are still
unknown; however, there are students at this facility that were previously at one of the
Ombudsman sites, and this is an expulsion center. Mrs. Crawley asked if this is in competition
with the Rutherford House. Mr. Abrams said they are not and do not necessarily have to be
adjudicated students, and Rutherford House could actually have their own contract.

Mrs. Bell asked Mr. Abrams if she understands correctly that students suspended and sent to
Ombudsman could be sent to this facility from Ombudsman if there are additional problems. Mr.
Abrams confirmed that is correct and that one of the good things is students do not have to
be referred by the Juvenile Center. He further explained that there are two reasons a student
could be referred: (1) expelled or (2) volunteered with parental consent.

Mr. Rachal asked if we have come up with another opportunity to try to get these students on the
right path? Mr. Abrams explained that this option came about when the Juvenile Justice System
was not funding any children and Amikids Red River contacted the School Board to determine if
the School Board was interested in entering into an agreement in an attempt to keep the program going. Not being limited to the Judicial part, this was a different way of getting the program funded. Mr. Rachal asked who will provide the transportation for these children? Mr. Abrams said when meeting and discussing the contract, one of the issues was transportation and that they desired us to provide transportation, which is an additional cost. He further asked Mr. Abrams if he understands correctly that Amikids is not Camp Minden, but Amikids is only using the Camp Minden facility? Mr. Abrams said he is not absolutely sure, but knows it is in Minden, and he can bring clarification by the next meeting.

Ms. Priest expressed her appreciation to Mr. Abrams for working on this additional opportunity for students. She asked Mr. Lee if the State allocation out of the MFP dollars, off the top, is a transfer of the approximate $124,000 to pay for that which is theirs (Office of Juvenile Justice), because this is coming out of Caddo’s MFP. Mr. Lee said if he remembers correctly, there are three facilities in the State that are run by the State. Ms. Priest asked about the Juvenile Justice Office and do the MFP dollars go through the State Juvenile Justice Office or through the local Juvenile Justice office? Mr. Lee explained that the last meeting he attended in Baton Rouge where OJJ was discussed in detail, the money was taken off the top; however, he will confirm this information and share it with the Board members.

Mrs. Crawley asked who will be supervising this school, and who will be held harmless? Mr. Abrams said there will be an insurance provision added and an insurance policy added at $1 million per incident. Mrs. Crawley stated her agreement with Mr. Ramsey’s comments; however, it appears that we do not know anything about this group, which is her only concern. Mr. Abrams stated this group has been in business for some time, and this is only a funding change; they have been providing services for free.

Mrs. Armstrong asked for Mr. Abrams to clarify who will be providing the $1 million insurance, and Mr. Abrams responded that they will be providing the insurance, making Caddo an additional insured on their policy. Mr. Rachal asked if he understood correctly that they have provided services in the past for free? Mr. Abrams said that is not correct, but they were funded through the Office of Juvenile Justice, and they need this type of agreement to use MFP dollars and not be funded through the State any more, i.e. MFP dollars will follow the student wherever the student goes. Mr. Rachal asked if these students went through the Juvenile System, would the funds still follow the child, and Mr. Abrams responded the funds would still come through Caddo, which is part of the agreement; and as he understands it, there are no funds coming through the Juvenile Justice System for this particular program. Mr. Rachal stated he likes that the children have another option, and especially if these children are disrupting the class and making it difficult for the other children to learn; however, if this service was provided free of charge in the past, he wants to make sure we are not putting out money that we would not have put up to begin with. Mr. Abrams also added in response to Mr. Rachal’s question that he is uncertain how they received these funds prior to now, other than it came through the Department of Juvenile Justice and he is uncertain if that is the money allocated, but the question is, are they going to now receive the $124,000 and the MFP dollars. Mr. Rachal also asked if the State is saying that rather than going through the Juvenile System, they will now go through the Amikids Program, and will the court take care of this. Mrs. Carla Moore explained that in the past students attending what was then called Red River Marine were sent by a judge and a probation officer. This type of referral was typically a short-term (90-day) situation funded through the State and the State funding has been cut. As a result of State funding being cut, MFP dollars are being picked up and in addition the judges will still have this as an option for students that come through the court system; but in more severe cases, the Parish will be able to now send students to this camp, which is the ultimate step prior to court. Mr. Rachal stated he understands these children need to be given every opportunity; however, if it is possible to provide these students this service at no cost to the District, he prefers that option. Mrs. Moore said that funding was cut and they were told they would not be in operation. With the funding through the juvenile
courts being cut, what will the courts do now with the students? Mr. Abrams said they would
send them back to the Caddo District.

Mrs. Armstrong requested that Amikids personnel be asked to attend the next meeting to answer
the board members’ questions. Mr. Riall stated that Mrs. Turner is taking notes and will relay to
the Superintendent that the board desires additional information prior to the next meeting.

**Resolution Giving Preliminary Approval to Issue General Obligation School Refunding Bonds.** Ms. Priest asked Grant Schleuter to provide the Board with more details regarding this
item? Mr. Schleuter, Foley, Judell, explained this is the preliminary approval of another
refinancing of outstanding General Obligation bonds from the 2005 Bond Issue. With approval,
the bonds would be refinanced at a lower interest rate with no extension of the debt, with the
savings benefiting Caddo property taxpayers. With the market being very attractive at this time,
and assuming it holds, adoption of the bond resolution will come to the Board in February with
completion in early March. He further explained the resolution provides that the underwriter can
price the bonds in between board meetings and the superintendent can sign a bond purchase
agreement at that time if a certain minimum savings level is attained that meets the State Bond
Commission criteria. Mr. Schleuter also added that the projected savings to the taxpayers after
all costs is in excess of $1 million on this bond issue. Also, if the market is not attractive in late
January, this will be placed on hold and watched until such time as it will bring the most savings
to the taxpayers. Ms. Priest said this information needs to be shared with the general public.

Mr. Ramsey restated Mr. Schleuter’s comment relative to a savings to the property taxpayers in
excess of $1 million as well as reducing payments every year. Mr. Rachal asked Mr. Schleuter if
it is not correct that we have refinanced a number of times over the past five years? Mr.
Schleuter responded that is correct with the savings being in the millions of dollars, an exact
figure which he does not have, but can provide. Mr. Rachal asked if that information could be
provided prior to the next meeting, because he believes there has been a savings to the taxpayers
of between $4 and $6 million. Mr. Rachal also asked about the total bond debt at this time? Mr.
Schleuter responded that the S&P has remarked in all of its ratings of the School Board that the
debt to the taxpayers is relatively low and he will provide that exact amount to the board.

**Donation of Basketball Goals to Atkins.** In the absence of Ms. Trammel, Ms. Priest stated her
desires to move forward with board approval of this request. She also clarified that the donation
is six basketball goals rather than four. She also commented on the provision in the agreement
that if Atkins should ever change or become a charter, these items would not be included and
would be removed from the campus.

**Out of State Travel.** Miss Green stated that this item is on the agenda every month and asked if
what the board approves is being monitored. Mr. Riall explained that during budget sessions last
year, the board requested that out of state travel be brought to the board for approval.

**2013-14 Critical Capital Projects.** Mr. Rachal referenced last month’s meeting whereby $4
million was approved for a project that came up and it took priority over everything in the
School District. He also referenced responses to information he requested relative to the balance
in reserves at the end of the year, and it was reported that the estimated capital projects balance
at the end of 2013 is a little over $8 million. Referencing the three-year capital projects plan
presented, Mr. Rachal asked staff what is considered to be year one, and Mr. White responded
this year (2012-13). Mr. Rachal also asked if he understands that the projects on this year’s list
total approximately $10 million and if a portion of that is QSCB funds? Mr. White explained
that the QSCB is a portion of the $18 million and the items for QSCB (italicized) are funded
from a separate budget which is an annual debt service amount. Mr. Rachal asked if he
understands correctly that those items “starred” in the list of approximately $10 million are not
included in that amount, and Mr. White said that is correct. Mr. Rachal asked about the
estimated $6.5 million in year two and will those projects “starred” in year one also carryover from year one to year two. Mr. White explained that basically what remains for the QSCB funds is approximately one-half of the elementary schools, and they should be complete in year one, which is why they are not seen in year two or three. Mr. Rachal asked if in years two and three there will still remain an approximate $2.3 million debt payment, and Mr. White said that is correct, with QSCB being a 20-year payback and this is the second year there has been a payback amount on the interest-free money. Mr. Lee explained how QSCB funds are structured and that they are not actually paid off each year, but the money is placed in a fund held by a third party which pays interest and everything is paid off in year 20. Mr. Rachal asked if he understands correctly that in year two staff anticipates only spending $6.5 million. Mr. White responded that is all that is requested at this point; however, he anticipates additional needs will arise that were not anticipated when the requests were originally submitted. Mr. Rachal again stated that it appears with some proper long-term planning, the money could be set aside very easily while maintaining a cushion for emergencies and making some substantial capital project improvements without going to the public for bond money to build a school in Greenwood if needed. He also noted that within the next 10 years there will also be a need for a new school in North Caddo and now is the time to be putting money aside to fund it.

Mrs. Armstrong asked staff about the budgeted $1 million designer fee and what it covers. Mr. White explained that all projects formally bid must be stamped by an architect or engineer and the cost on the state fee curve for renovation is approximately 10% of the construction cost. This covers producing the plan specifications, overseeing the job, monitoring payment applications, final closure documentations, etc. Mrs. Armstrong asked Mr. White if this is anything he could do or must this be outsourced? Mr. White responded that this is something that must be outsourced. Mrs. Armstrong asked about the lighting for Keithville and Huntington and if these are retrofits? Mr. White responded they are and at this time, we are lacking four schools being complete with lighting retrofit. Mrs. Armstrong also asked about new bleachers at Northwood and Caddo Middle Magnet and if Southwood is included on the list? Mr. White explained that the bleachers at Caddo Middle Magnet are the original bleachers and the boards and the metal frames are coming apart. The bleachers to be replaced at Northwood are the exterior boys’ baseball field and there are safety issues with these also.

Mrs. Crawley inquired about the budgeted item of salaries and benefits? Mr. White explained that this amount is salaries and benefits of the entire construction/capital projects staff, which was moved from the General Fund budget because the tax initiative was written allowing those funds to be used for persons who administer construction contracts. Mrs. Crawley also asked about the building controls budgeted item, and Mr. White responded that this is a continuation of putting computer-operated controls on the larger plants. Mrs. Crawley also asked about the Byrd parking reserve, and Mr. White responded this money will be set aside for the Byrd parking lot in hope of attaining the middle piece of property on Kings Highway since this would be much more cost effective in providing 90 parking spaces. Mrs. Crawley noted that the money was set aside under Ollie Tyler for the purpose of purchasing this lot and to begin work on the lots on either side of the middle lot. Mr. White agreed that is correct and the money was set aside for the actual construction of a parking lot. With the fact that the owner of that middle property may hold that property another 30 years, Mrs. Crawley asked if there is a plan or estimate to move forward on the two lots. Mr. White said he believes it to be approximately $500,000, but can’t provide the exact cost from memory. She noted how she and the City Council are being inundated with calls because of the students parking on the streets surrounding Byrd. With parking being safety, she reminded everyone that the SACS has noted this is unsafe for the students; and since it does not appear that this option will ever work out, she believes there is a need to move forward with finishing the two lots and address this situation. Mr. White reminded the Board that part of the reasoning staff has not recommended this to this point is the need for driveways in and out of the two separate lots which will cost valuable parking spaces. Mrs. Crawley asked if this wouldn’t be corrected at some point down the road when the middle lot is
purchased and the driveways are converted into additional parking spaces. Mr. White stated he understands there is definitely a problem; however, he further explained the problems associated with building two separate lots that are not on the same elevation, and the two separate lots will provide 19 parking spaces each while the three lots would provide a total of 90 parking spaces. Mrs. Crawley asked if there is any temporary solution to the two lots we own (leveling the lots but not paving them), and Mr. White explained there is actually a City Ordinance against stone parking lots and we have actually been held to that. Also, Mr. White added he has never recommended stone parking lots since it allows students the opportunity to pick up and throw something. Also, a layover of asphalt would only last two or three years and he doesn’t believe that to be a good expenditure of taxpayer dollars. Mrs. Crawley asked if she is correct that money is already in capital projects to purchase the remaining lot at its appraised value; however, this is not that money? Mr. White said that is correct and the Board approved the expenditure of funds to purchase those lots as those lots become available. Mrs. Crawley also asked staff to look at the lot on the south side of line on Byrd’s side.

She also referenced the critical overcrowding at University Elementary yet she doesn’t see anything in the budget to address this need. Mr. White responded that with $18 million to go around and $100 million plus in needs, staff attempts to distribute the funds in the most equitable fashion; and relative to University, he doesn’t believe building an additional wing is the answer. Mrs. Crawley asked if Oil City is using all their lockers and Mr. White said they are and they are basically the original equipment, and when they become a safety issue, they need to be replaced.

Mr. Riall asked Mr. White how the capital projects fund is replenished each year? Mr. White explained it is a local tax initiative and two funds actually support capital projects which combined total approximately $18 million annually. Mr. Lee added that one of those is up for renewal next year and the other in 2016.

Miss Green asked staff if the paving at Northside addresses the bus loop or the parking lot? Mr. White explained that at this time, parking is on the north side of the school on an earth/stone lot and staff will look at enlarging this. If any funds are left over, staff will look at extending the bus loop. Miss Green stated she believes if a couple of thousand dollars were added to this amount, both could be addressed. Mr. White said it could because it only takes money; but staff is attempting to spread the $18 million to address the many much needed requests. Miss Green explained her request for staff to look at widening the bus loop, maybe even taking a part of the grassy area for this purpose. She also asked about Pine Grove and Mr. White explained that it is a situation where water drainage is a major problem and the difficulty in removing water so it does not stand and eventually destroy the concrete. Mr. White also said there is not a safe place to drain the water to. Miss Green asked when will these projects be complete, and Mr. White responded that staff will ask that these two sites not be used for summer programs so that both projects will be completed during the summer.

Ms. Priest expressed appreciation to staff for resubmitting the Capital Projects Three-Year Plan as she remembers receiving this document and addressing it during the budget process in the Spring. She said she believes this is something the board needs to look at closely because it is the principals’ list of priority needs. In looking at the list submitted by principals in the Spring in comparison to the revised list submitted, Ms. Priest said there are few schools where the principal submitted requests that made the revised list and asked staff to explain this. Mr. White said there were no changes and if a school was inadvertently left off, he made that mistake and would fix it if brought to his attention.

Mrs. Bell noted that Walnut Hill is also overcrowded and asked if it is the only school with outhouses for bathrooms and T Buildings? Mr. White responded that whereas numerous schools have T Buildings, Walnut Hill is the only school that has temporary style restroom structures. In brick and mortar, Mr. White explained there are enough toilet facilities at Walnut Hill to meet
code; however, he understands that the additional restroom facilities were put into place to assist students in T Buildings (approximately 28). Mrs. Bell noted the walkway added at Turner and if something similar can be done at Walnut Hill. She also noted the need for a separate cafeteria and auditorium at Walnut Hill.

**Long-Term Use of School Facility.** Mrs. Crawley asked staff how long is the long-term agreement? Staff responded that it is for the basketball season.

**ADDITIONS**

Mr. Ramsey asked that a “Detailed Report on the Status of Ombudsman” be added under Superintendent’s Report.

Mrs. Crawley requested that staff provide an “Updated Budget with the Changes in Personnel” under Superintendent’s Report.

**CONSENT AGENDA**

President Riall recommended Items 8.02, 8.05-8.08, and 8.10-8.11 as the Consent Agenda. Mrs. Bell moved, seconded by Mr. Ramsey, to approve the proposed agenda and consent agenda for the November 27, 2012 CPSB meeting as presented. Vote on the motion carried unanimously.

**POLL AUDIENCE**

Barry Rachal recognized Oak Park and Claiborne for being awarded the Blue Ribbon Schools of Excellence in Washington D.C. He also encouraged recognizing these schools in the near future for this accomplishment. Mrs. Bell stated her agreement and noted the positive recognition this has received in the media the past several days. She also announced that Oak Park will be holding a celebration on Friday, November 16th.

Jackie Lansdale, president of Red River United, shared with the board the importance of the proposed bond issue and that administration has written a Race to the Top grant of which they are excited to be a part. She also stated that she looks forward to the opportunity to expand the TAP Program and hopes the opportunity is afforded to present this to the public, in addition to having a pre-school program in every Caddo Parish elementary school. Mrs. Lansdale also stated her support for additional professional development and ways to compensate teachers as well as bringing resources to students who do not have them. While she was excited to have the two days off at election time, Mrs. Lansdale said she would be interested in seeing how successful the Fair was by students and employees being out of school for two days. Mrs. Lansdale announced that on December 17th at 1:00 p.m. Act 1 will be going to court because of the inclusion of eight different things in the legislation when in fact it was to have only one. Also on November 28th Act 2 will be in court relative to due process and the damage to extended sick leave, and she is currently writing a resolution addressing women’s needs, i.e. sick leave, maternity leave, accommodations for Mothers of nursing babies, etc.

**Adjournment.** Mrs. Bell moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 6:22 p.m.
November 27, 2012

The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, November 27, 2012 with President Steve Riall presiding and board members Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong, and Dottie Bell present being a quorum. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Miss Green led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE OCTOBER 16, 2012 AND NOVEMBER 13, 2012 CPSB MEETINGS

Ms. Priest moved, seconded by Mrs. Bell, to approve the minutes of the October 16, 2012 and November 13, 2012 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications and marketing, on behalf of the board and staff, recognized the following students and staff members. President Riall and Superintendent Dawkins greeted each one and presented them with a certificate recognizing their accomplishment. Administrators, family and friends present were also recognized.

SPAR Weightlifting Competition. The following students were recognized for placing in the National SPAR Weightlifting Competition: Boys 11 and under from Lakeshore Elementary include Melvin Williams (3rd Place), and Nicholas Dyer (2nd Place), and Walnut Hill student DeAngelo Charles, (1st place). Stanjuan Persley (1st Place) from Lakeshore, Jacobe Sweet, 1st place at Walnut Hill; and Jacoby Dyer, 1st place, J. S. Clark. Winners in the Boys 12 & 13 Division are Vickers Haynes (3rd Place), Woodlawn; Kaylin Williams (2nd Place), Newton Smith; and Derrick Davis (1st Place), Booker T. Washington. The winner in the Boys 14 & 15 Division is Justin Harvey (3rd Place) of Captain Shreve. The winner in the Boys 16 & 17 Division is Devensky Duncan (7th Place), Huntington; and the winner in the Girls 14 & 15 Division is Horeka Mash (1st Place) of Woodlawn.

National Merit Commended Students. The following were recognized as Caddo’s 2013 National Merit Commended students: Molly Gouletas, Avery C. Hennigan, Darren Li, Kelly K. Smith, Joshua Ursua and Morgan C. Watkins of Caddo Magnet High. John Keene, Caddo Magnet High, was recognized as the National Hispanic Scholar.

2012 Siemens Competition in Math, Science & Technology. The following Caddo students were named winners in the 2012 Siemens Competition in Math, Science & Technology: Semifinalists from Caddo Magnet High are Joan Liu and Sean Nathan, and Christine Hennigan from Captain Shreve High. The Regional Finalist is Henry Lin of Caddo Magnet High.

JROTC Cadets. Col. Durr introduced Command Sgt Major Howard Warren, assistant director of Army Instruction, who recognized Cadet Colonel Zachariah Chrisman, Caddo Parish JROTC Corps Commander for 2012-13 from Caddo Magnet High; and Cadet Colonel Hollie Fields, winner of the prestigious Legion of Valor Award of North Caddo High School.

Caddo Magnet High JROTC Leadership Team. The Caddo Parish Magnet High School Army JROTC Leadership Team was congratulated on being recognized by U.S. Secretary of Defense, The Honorable Leon Panetta, for participation in the 2011-12 JROTC Leadership Symposium and Academic Bowl Championship in Washington D.C. in June 2012.
Outstanding Social Studies Teacher Award. Patrick Murphy from Herndon Magnet and Roy Keene of C. E. Byrd High School were recognized for receiving the Outstanding Teachers of Social Studies Award sponsored by the Louisiana Council for Social Studies.

Wings to Wellness State Health Award. Caddo Middle Magnet was recognized for receiving the State Health Award for the middle school division. This award, a part of the Wings to Wellness School Initiative Program, was presented to Caddo Middle Magnet on October 24, 2012 in Baton Rouge at a State Conference.

SciPort Award/Omega Grant. Ann Fumarolo, CEO of SciPort, presented a $28,000 check to Ginger Daigle and Natalie Howell, Caddo Middle Magnet School teachers, for an Omega grant that will fund a three-year program to help students develop laboratory skills and encourage them to consider careers in fields that utilize these skills. Cathy Williamson, Caddo Education Coordinator at the SciPort Louisiana Science Center, shared some of the details of what the students will be doing over the three years of the Omega Grant.

Landscaping at Pine Grove, Newton Smith and Northside. Jasmine Green, CPSB District 2 representative, recognized and expressed appreciation to Capital One and Shreveport Green for their generosity in the recent landscaping projects at Pine Grove Elementary, Newton Smith 6th Grade Center, and Northside Elementary School.

Newly Appointed Administrators. Dr. Mary Nash-Robinson recognized the following newly appointed administrators: (1) Dr. Shelia Lockett, interim director, Special Education; (2) Pam Morgan, interim compliance supervisor, SPED; (3) James Outley, principal, Fair Park High School; (4) Michelle Berry, assistant principal, Fair Park High School; and (5) Kasie Mainiero, instructional coordinator, University Elementary.

VISITORS

Jon Glover, employee, shared with the board that she approaches the board as a grandparent and Caddo Parish constituent. She congratulated Oak Park MicroSociety and Claiborne Fundamental Magnet on achieving Blue Ribbon status, expressed appreciation to the leaders for their efforts and questioned if we could clone them and their efforts. Ms. Glover added that it is only these two schools that have been labeled academically unacceptable that have been able to achieve this accomplishment and she doesn’t understand why. She said she believes a significant change could be seen in all AU schools if what they are doing is cloned in the others. The easy response to getting these type successful leaders appears to be we need to pay them, because isn’t it true that we all get what we pay for. She questioned why so many schools (mainly in the Black community) are failing and nothing is being done about it. She encouraged board members to look closely at why charter schools, private schools, etc. are on the rise – will it promote excellence or do we have the resources to accomplish what they are saying they can do. She added that dividing the school system is not the answer unless it is the Board’s decision to project a non-caring attitude about all the children in Caddo Parish. Ms. Glover noted the vision Superintendent Dawkins shared with the community, which vision she believes has not been so good for the inner city schools. A lack of interest in education by the students attending these schools has been the result of merging schools in jeopardy with other schools that mirror the same. There is a realization that not all students have taken on this persona but the majority has, and it is evident by the labeling of these schools as being academically unacceptable. Ms. Glover stated that the focus should be what it will take to make a magnificent change in the education of minority students. She noted that we look to every excuse of why children, specifically minorities, are not gaining ground educationally and we use programs to keep children at a disadvantage, we revel in showing the negatives at every given opportunity in hope that a despondency and tiredness is acquired and ensure that things remain as they are. Ms. Glover said that not really wanting minorities to rise to a level of excellence in education is
harsh, but she believes the evidence speaks for itself. She noted we should look at those schools that are engulfed with failure to find out why it is so and she is hurt by the callousness exhibited relative to the education of the children in Caddo. As a constituent in Caddo Parish, Ms. Glover said she is tired of what is being seen and change is needed. Knowing there are positives in Caddo Parish, she added she believes there are more negatives. She asked the board members to let their conscious be their guide as they look at the betterment for every child in Caddo Parish.

Gladys McKnight, Fair Park Alumni, stated her voice in not moving the Fair Park Alumni office from its present location. She said it is very sad that the Superintendent has charged this association with this, and she does not believe this is right. The Fair Park Alumni has worked very hard for Fair Park and its students and she encouraged the board to make a decision to keep the office where it is currently located and show respect toward the Alumni and Mrs. Bonds.

Joe Huffman, Southern Hills Church of Christ and President of the 1963 Fair Park Class, stated that they are currently working on Fair Park’s 1963 Class’s 50th Reunion; and he supports not moving the Alumni office, as the Fair Park Alumni has provided many dollars and programs for Fair Park High School and its students.

Chester Kelly, Fair Park Alumni, Class of 1963, stated his support of public education and not moving the Alumni office. Because they do what they do for the children, Mr. Kelly said the Fair Park Alumni Association should be encouraged, appreciated, nourished and supported. He noted the job that Cathy Bonds has done as the Executive Director of the Alumni Association.

Bryan Salvatore, LSUS faculty, shared how closely LSUS works with many of the public school programs; and that when the board of directors (community, citizens, shareholders, etc.) speaks the CEO (Superintendent) should listen. He recognized Mrs. Bonds involvement in the many programs implemented and how Fair Park has been a model for the ASPIRE Program. He encouraged the Board to not move the Alumni office.

Ernestine Coleman, President of Fair Park PTSA, stated she believes in fairness and she is a champion for Civil and Human Rights. She stressed the importance of respect and shared how Mrs. Bonds helped her when she met her approximately five years ago during their efforts to get parents involved. Ms. Coleman said Mrs. Bonds is a viable part of Fair Park and she should be respected and not disrespected. She said there is no reason for the Alumni office to be moved, it is unacceptable and encouraged the Board to allow this office to remain where it is today.

Jackie Lansdale, president of Red River United, shared a copy of an article on the Tangiapoha School District going to Federal court and the judge agreeing with them that Acts 1 and 2 would harm their ability to comply with their desegregation decree. With Caddo also being one of the districts under such an order, she encouraged the board to look at this very closely to see if there is something the Board can bring to the Federal courts as well. She also announced that on Wednesday the lawsuit on Act 2 will be heard in the 19th Judicial District Court. Mrs. Lansdale noted the disappointment in how we arrived at this point by having a Legislature and a Governor that do not appreciate who we are and what we do. With most of the employees being women, and women with children, she believes the Legislature and the Governor have lost sight of this fact, because she doesn’t believe they would have implemented a maternity policy that forces a teacher to use all their current and accumulated days before they can use the maternity leave. Her question is what is a teacher to do when they return from maternity leave, and they need to take their baby to the doctor? Do they take unpaid leave? Is it a break in service? With the change in the extended sick leave policy, an employee must have 10 consecutive, catastrophic illness days before leave can go into effect. She shared the experience of one of Caddo’s custodians whose husband died and she is not being paid because she only took eight days. Mrs. Lansdale also asked about accommodations for teachers who desire to nurse their babies, something that is recommended by the American Pediatric Association. Being continually told
that children are the District’s priority, she asked doesn’t the teachers’ and employees’ time, count also. She encouraged the board to not forget about its charge despite the fact that the Governor and the Legislature have forgotten theirs; and she reminded the board that the Louisiana Revised Statute states that the School Board may by a collective bargaining agreement or by its own policy provide additional compensation or extended leave days in excess of what is required. She requested that the board entertain policies to correct the harm caused by the change in the maternity leave and grant maternity leave without requirement of use of current accumulated leave, allowing the teacher the appropriate time to tend to their child when they return to work, as well as the requirement of 10 continuous days of catastrophic illness before it can be used. Mrs. Lansdale also noted a recent article on historic contracts which could be used for embedded professional development for our teachers.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Dawkins highlighted the items for the Board’s consideration and Mrs. Bell moved, seconded by Mr. Ramsey to approve the proposed Consent Agenda items as submitted. Vote on the motion carried unanimously. The following is a summary of the board’s action.

Item No. 7

7.01 Purchasing. The board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheet: (1) Gerlach Meat and Reinhart Food for purchases of Canned and Frozen Food and Fish, Poultry, Eggs, Meat and Specialty; (2) Carefree Janitorial, totaling $183,472.40; Long’s Preferred, totaling $36,115.85, Reinhart Food, totaling $10,229.87 and VCC Janitorial totaling $142,121.70 for purchases of Food Service Paper and Supplies; (3) Unifirst Corporation for the purchase of Uniforms for Maintenance and Transportation; (4) Area Wholesale Tire Co., totaling $885.00 for the purchase of Truck Tires and Wheels; (5) Central Oil and Supply, totaling $.42 per gallon for Sale of Used Motor Oil and Antifreeze; and (6) Fruehauf Uniforms, Inc. totaling $24,999.75 for the purchase of Band Uniforms for Northwood High School. A copy of the bid tabulation sheets are attached and made a part of the permanent record of the November 27, 2012 meeting.

7.02 Agricultural Lease Bid for Walnut Hill Property. NO BIDS RECEIVED.

Item No. 8

8.02 Request to Advertise for Bids for Recreational Lease of Worley Observatory. The board authorized staff to advertise for bids for recreational lease of Worley Observatory as submitted in the mailout.

8.03 Amikids Contract. The board approved the Memorandum of Agreement between CPSB and AmiKids Red River as recommended by staff and submitted in the mailout.

8.04 Resolution Giving Preliminary Approval to the Issuance of General Obligation School Refunding Bonds and Providing for Other Matters in Connection Therewith. The board approved the following resolution giving preliminary approval to the issuance of General Obligation School Refunding Bonds and providing for other matters in connection therewith as recommended by staff and submitted in the mailout.

RESOLUTION

A resolution giving preliminary approval to the issuance of not to exceed Seventeen Million Dollars ($17,000,000) of General Obligation School Refunding Bonds of Parishwide School District of
Caddo Parish, Louisiana; making application to the State Bond Commission for approval of said Bonds; and providing for other matters in connection therewith.

WHEREAS, pursuant to the provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, Parishwide School District of Caddo Parish, Louisiana (the Issuer) has heretofore issued $20,000,000 of General Obligation School Bonds, Series 2005 (the Series 2005 Bonds); and

WHEREAS, in order to provide debt service savings to the Issuer, the Issuer desires to refund all or any portion of the Issuer’s outstanding Series 2005 Bonds pursuant to the provisions of Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority (the Act), through the issuance of its refunding bonds; and

WHEREAS, pursuant to the Act, and subject to the approval of the State Bond Commission, the Issuer desires to accomplish the refunding by authorizing the issuance of not exceeding Seventeen Million Dollars ($17,000,000) of its General Obligation School Refunding Bonds (the Bonds), to be payable from unlimited ad valorem taxes; and

WHEREAS, the Issuer desires to make formal application to the State Bond Commission for approval of the issuance of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the Governing Authority), acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. Preliminary Approval of the Bonds. Preliminary approval is given to the issuance of not exceeding Seventeen Million Dollars ($17,000,000) of General Obligation School Refunding Bonds (the Refunding Bonds), of the Issuer, to be issued for the purpose of refunding all or any portion of the Issuer’s outstanding General Obligation School Bonds, Series 2005, and paying the costs of issuance of the Refunding Bonds, said Refunding Bonds to be payable from and secured by unlimited ad valorem taxes now being levied and collected annually in excess of all other taxes on all the property subject to taxation within the territorial limits of the Issuer. The Refunding Bonds shall bear interest at a rate or rates not to exceed four and one-half percent (4.5%) per annum, to be determined by subsequent resolution of this Governing Authority at the time of the sale of the Refunding Bonds, and shall mature no later than March 1, 2030. The Refunding Bonds shall be issued in fully registered form, shall be sold to the purchasers thereof at a price of not less than 97% of par, plus accrued interest, and shall have such additional terms and provisions as may be determined by this Governing Authority.

SECTION 2. Employment. This Governing Authority finds and determines that a real necessity exists for the employment of special counsel in connection with the issuance of the Refunding Bonds, and accordingly, Foley & Judell, LLP, of New Orleans, Louisiana, as Bond Counsel and Jacqueline A. Scott & Associates, APLC, of Bossier City, Louisiana, as Co-Bond Counsel, are hereby employed to do and perform work of a traditional legal nature as bond counsel with respect to the issuance and sale of said Refunding Bonds. Said Bond Counsel and Co-Bond Counsel shall prepare and submit to this Governing Authority for adoption all of the proceedings incidental to the authorization, issuance, sale and delivery of said Refunding Bonds, shall counsel and advise this Governing Authority as to the issuance thereof and shall furnish their opinions covering the legality of the issuance of the Refunding Bonds. The total combined fee of Bond Counsel and Co-Bond Counsel shall be fixed at a sum not exceeding the maximum fee allowed by the Attorney General's fee guidelines for such bond counsel work in connection with the issuance of revenue bonds and based on the amount of said Refunding Bonds actually issued, sold, delivered and paid for, plus "out-of-pocket" expenses, said fees to be contingent upon the issuance, sale and delivery of said Refunding Bonds. That pursuant to instructions
from the Superintendent, Bond Counsel shall cause to be prepared an official statement with respect to the sale of the Bonds and the costs of the preparation and printing of said official statement, as approved by the State Bond Commission, shall be paid from the proceeds of the issue for which it has been prepared. Said Official Statement may be submitted to one or more of the nationally recognized bond rating service or services, together with a request that an appropriate rating be assigned. Payment for all ratings shall be made by the Superintendent upon presentation of appropriate statements from the particular rating service furnishing the ratings. A certified copy of this resolution shall be submitted to the Attorney General of the State of Louisiana for his written approval of said employment and of the fees herein designated, and the Superintendent is hereby empowered and directed to issue vouchers in payment for the work herein provided for upon completion of the work herein specified and under the conditions herein enumerated.

SECTION 3. State Bond Commission. Application is hereby made to the State Bond Commission, Baton Rouge, Louisiana, for approval of the issuance and sale of the Refunding Bonds and for consent and authority to proceed with the issuance and sale of the Refunding Bonds as provided above, and Bond Counsel is directed to make application to the State Bond Commission in accordance with the foregoing on behalf of the Governing Authority.

By virtue of applicant/issuer’s application for, acceptance and utilization of the benefits of the Louisiana State Bond Commission’s approval(s) resolved and set forth herein, it resolves that it understands and agrees that such approval(s) are expressly conditioned upon, and it further resolves that it understands, agrees and binds itself, its successors and assigns to, full and continuing compliance with the State Bond Commission Policy on Approval of Proposed Use of Swaps, or other forms of Derivative Products Hedges, Etc., adopted by the Commission on July 20, 2006, as to the borrowing(s) and other matter(s) subject to the approval(s), including subsequent application and approval under said Policy of the implementation or use of any swap(s) or other product(s) or enhancement(s) covered thereby.

SECTION 4. Appointment of Investment Banker/Underwriter. Raymond James/Morgan Keegan, of New Orleans, Louisiana (the Underwriter), is hereby appointed as investment banker/underwriter in connection with refunding the Series 2005 Bonds, any compensation to be subsequently approved by the Issuer and to be paid from the proceeds of the Refunding Bonds and contingent upon the issuance of the Refunding Bonds; provided that no compensation shall be due to said investment banker/underwriter unless the Refunding Bonds are sold and delivered.

SECTION 5. Sale of Bonds. The Bonds are hereby authorized to be sold to the Underwriter, and the Superintendent is hereby authorized to execute a Bond Purchase Agreement with the Underwriter, in form and substance satisfactory to Bond Counsel to the School Board, provided the sale of the Bonds produces minimum net present value savings (after payment of all costs) to taxpayers of not less than 3.00% of the principal amount of Series 2005 Bonds being refunded.

8.05 Acceptance of Donation of 6 Basketball Goals for Atkins Elementary from the Cedar Grove CDC. The board approved acceptance of the donation of six basketball goals for Atkins Elementary from the Cedar Grove CDC as requested by staff and submitted in the mailout.

8.06 Resolution Calling for a Tenure Hearing for a Tenured Bus Driver. The board approved the resolution calling for a tenure hearing for a tenured bus driver as submitted by staff in the mailout.

8.07 Out of State Travel (Academic Affairs). The board approved the request for out-of-state travel as recommended by staff and submitted in the mailout.

8.09 Long-Term Use of School Facility. The board approved the long-term use of school facilities as recommended by staff and submitted in the mailout.

8.10 Approval to Advertise Bids to Sell Laurel Street Property at a Minimum of $300,000. The board authorized bids to sell the Laurel Street Property at a minimum of $300,000. Vote on the motion carried unanimously.
13.01 **Student Readmission Appeal Hearings.** The board approved the student readmission appeals for D.M. and L.C. as recommended by staff. Parents are in agreement with staff’s recommendation.

13.02 **Legal Update on Greening v. CPSB, Suit #532,799-C.** The board approved the settlement in the Greening v. CPSB, Suit #532,799-C based on staff’s recommendation.

**PERSONNEL TRANSACTIONS REPORTS**

Mr. Rachal moved, seconded by Ms. Trammel, to approve the personnel transactions report as recommended by staff and submitted in the mailout. Ms. Priest asked that someone explain sabbatical medical leaves to her and if the superintendent approves leaves? Mr. Riall explained that the superintendent does approve these requests. *Vote on the motion carried.*

**APPROVAL OF CONFLICT OF INTEREST WAIVER OF MALONE LAW FIRM**

Mrs. Bell moved, seconded by Mr. Ramsey, to waive the conflicts of interest on current files held by the Malone Law Firm and not send any new files to the Malone Law Firm. *Vote on the motion carried unanimously.*

**2013-14 CRITICAL CAPITAL PROJECTS**

Mr. Ramsey moved, seconded by Mrs. Bell, to approve the recommendations for the proposed 2013-14 critical capital projects as recommended by staff and submitted in the mailout. Mr. Ramsey stated that he believes this item was discussed thoroughly at the work session. Miss Green shared her two concerns regarding Northside and Pine Grove and asked if the budget of $250,000 will cover what needs to be done at these two campuses. If it is not, she would like to put it aside until next year when additional monies can be added to the budget for these projects. Steve White responded that if this should not be enough money based on the new provisions in state law, and the design professional’s indication that it will not, then staff would need to come back to the board and amend the budget or postpone the project until more money is available. He also mentioned areas that could be a problem; however, he does believe that this project can be done within the budgeted amount. Miss Green shared pictures with the board on the projects she is referencing and asked Mr. White if he talked with the principals? Mr. White responded that he talked to Mrs. Henderson relative to the drainage problems and it has been some time ago that he talked to Northside regarding the paving. Miss Green asked the superintendent to contact these principals and talk to them on these issues. Dr. Dawkins explained that he and staff will review all the projects being proposed.

Mrs. Crawley asked if it is correct that principals used to submit requests, but have not in the last two years? Mr. White stated that is incorrect, because principals were asked to provide their top three (3) recommendations and one to two schools did not respond. Mrs. Crawley noted she did remember seeing the paperwork; however, she wanted it brought to the board’s attention again.

Ms. Trammel stated that if there is a school that doesn’t believe the budget is large enough to do what is needed at the school, then she would like to ask if any board member would be interested in donating monies designated for their schools to schools in other districts.

Mr. Rachal reiterated his issue that $4 million was added; and while he understands the need, he doesn’t understand the urgency in which it became a priority. Voting against the $4 million at that time, he did so because he doesn’t understand the priorities of the list and noted the struggles
at University Elementary because of being overcrowded. The need for another school has not changed in Southeast Shreveport and he asked Mr. Lee what millage is collected and deposited in the capital projects account. Mr. Lee responded that while he didn’t have the number, it generates approximately $17 or $18 million annually. Mr. Rachal said having the millages would help him. He also stated that with Southeast Shreveport growing as it has, over 7,000 homes have been built, and with the property taxes paid by those homeowners, a needed school has yet to be built. Mr. Rachal said his issue is how this has been prioritized, where the funds are being collected and where the funds are being spent. He stated there is enough student population in Southeast Shreveport to build two new elementary schools, a middle school, and almost a high school. He reminded the board that the only school considered a neighborhood school in Southeast Shreveport is University Elementary. He reiterated that he understands the need for the capital projects listed; however, he knows there is a need in Southeast Caddo Parish and would appreciate the superintendent’s and board’s support to address this need. He asked approximately seven years ago if funds could be set aside to do this; and at this time, we are still in the same place. He also asked that the superintendent look into the possibility of getting a school in Southeast Shreveport. Mr. Lee, in response to Mr. Rachal’s question about the millages, responded that it is approximately 12 millages. Superintendent Dawkins stated that the staff is well aware of the need for a school in Southeast Shreveport; and in the original plan of $130-$140 million, plans for two schools were included, but the board did not support it. He further added that staff can look at the proposed plan and determine if this plan will address the needs in Southeast Shreveport.

In listening to the comments, Ms. Priest listed each one of the documents submitted to the board relative to the specific capital project requests received from the school principals, listing the principal’s top three requests and how priorities were reached. She said she believes it to be in the board’s best interest to move forward with the list submitted by staff as it is the principals on the campus that best know what the campus needs.

Mr. Hooks stated that while serving as principal over 15 years, each year he was asked to provide his top three capital projects. His top priority each year was a parking lot; however he has been retired for five years and there is still no parking lot. He said this is a safety issue and he remembers someone from staff visiting the campus and sharing what could be done. Mr. White stated that he remembers when assessing this situation, there were adequate parking spaces (in the south parking lot) based on the number of students. With the influx of additional students and thus additional teachers, Mr. White said they are not only filling the south parking lot, but they are spilling over into a temporary parking lot, which has moved this project up on the priority list, and it was the school’s second priority. Mr. Hooks said he was told that the construction would be done that week. Dr. Dawkins responded that while he is not aware of that, the staff does believe it to be a priority and the new principal at CMCT has submitted this as a priority. Mr. Hooks said he agrees with Board member Priest and what is the use in asking the principal for their priorities and nothing is ever done, and he believes the list is just black and white words on a piece of paper. Superintendent Dawkins stated that he is not aware of what happened in the past, but staff is committed to complete the job.

Mrs. Bell stated that she has visited University and did not see any outhouses like Walnut Hill uses, along with rows and rows of temporary buildings. Believing Mr. Hardison capped the enrollment number at 1,800, he still has a waiting list of 200-300 children, so there is a desire and need for a school in this area (Greenwood, ECE – 5th grade). When looking for dollars to address a school in Southeast Shreveport, she asked the Superintendent to look for dollars to build a school in Greenwood. She also referenced the cafetorium at Oak Park and when Oak Park celebrated receiving the Blue Ribbon Award, there was not ample space to accommodate the parents and others who wished to participate in the celebration. Superintendent Dawkins added that $130 million totals what everyone wants; however, there is only a small pool of funds allotted annually to accomplish these projects each year, which means not everyone will be
happy every year. Mrs. Bell reminded board members that some voted against taking a bond issue to the voters for these much needed projects, including a salary increase for the teachers.

Mrs. Armstrong moved, seconded by Ms. Priest, to call for the question. Vote on the motion to end debate carried with Barry Rachal and Jasmine Green opposed. Vote on the main motion carried with Board members Hooks and Rachal opposed.

SUPERINTENDENT’S REPORT

Detailed Report on Ombudsman Program. Dr. Dawkins reported that the first semester will end on December 21st and staff will bring a full report after that time. Regarding the concern that there may not be enough teachers based on the number of students, he shared again the previous information sent to the board responding to this request. Dr. Dawkins also addressed the concerns expressed relative to the process for getting overage students into the Ombudsman Program and staff continues to address the process for this part of the alternative program. Meetings with principals will take place next week.

Updated Budget Changes. Dr. Dawkins reported there have not been any budget revisions and noted information sent to the board on the movement of one staff member. He also reported that in December he will bring a revised Organizational Chart.

ANNOUNCEMENTS AND REQUESTS

Mr. Riall asked board members to return the Superintendent’s Evaluation to him by December 4.

Miss Green clarified her understanding that principals submitted their top three priorities, but she is saying that when it comes down to the design, she is asking that the superintendent get with the principals because some time the designers do not understand the full scope of the project. The superintendent stated that the principals are included in the process. She also asked if the Superintendent’s Evaluation is mandatory, and Mr. Riall explained that the board members are expected to do an evaluation as the Superintendent’s employer.

Mrs. Crawford announced she has letters for businesses if board members wish to pick them up and distribute to businesses regarding providing raincoats for students.

Mrs. Crawley referenced comments and questions during the meeting and asked that the following items be added to the Superintendent’s Report: (1) review and revise the need for maternity leave, (2) review and revise the 10-day catastrophic illness; and (3) review and revise a plan to accommodate the need for nursing mothers.

Ms. Priest announced that as a member of the SciPort board, she had the opportunity on November 17th to spend the day with the students from several parishes and observe the Robotics Competition. She asked that the students from the two Caddo schools (CMCTC and Donnie Bickham) be recognized at a board meeting. She also recognized the efforts of the Ridgewood Science teacher who was instrumental in this competition.

Mrs. Bell announced that their annual “Party with a Purpose” will be held on December 7th and those attending are asked to bring an educational toy for the homeless students in Caddo Parish. Those who cannot attend and wish to donate an educational toy may leave those in the Superintendent’s office.

Mr. Pierson expressed his appreciation to everyone for kindness expressed during his recent surgery and in the loss of his son.
Ms. Trammel also expressed appreciation for everyone’s kindness expressed during her recent surgery.

Mr. Hooks expressed appreciation for the many acts of kindness expressed to their family during the loss of his father-in-law earlier in the month.

**EXECUTIVE SESSION**

*Ms. Priest moved, seconded by Mrs. Bell, to go into executive session for the purpose of hearing a legal update on Burnes v. CPSB, No. 531360, First JDC Caddo Parish. Vote on the motion carried* and the board went into executive session at approximately 6:30 p.m. The board reconvened in open session at approximately 6:51 p.m.

**Adjournment.** *Ms. Priest moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried* and the meeting adjourned at approximately 6:52 p.m.

Dr. Gerald D. Dawkins, Secretary
Steve Riall, President
December 4, 2012

The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, December 4, 2012 with President Steve Riall presiding and Dottie Bell and Larry Ramsey present being a quorum. Other school board members present were Jasmine Green, Carl Pierson, Charlotte Crawley, Mary Trammel, Lillian Priest, and Barry Rachal. Also present were Superintendent Gerald Dawkins and Legal Counsel Reginald Abrams, staff and other visitors. Mr. Pierson led the invocation and Pledge of Allegiance. President Riall announced that Board members Hooks and Crawford are out due to illness, and Mrs. Armstrong is out of town.

PRESENTATIONS

Technology Update. Superintendent Dawkins stated that over the last two or three years staff has shared with the board the fast approaching Common Core Curriculum that the State of Louisiana is heavily invested in. Also over the last two or three years, he has shared in the Vision 2020 plan the District’s obvious need to upgrade its technology, because while we’ve achieved some of our operational and instructional goals in that regard, we still have work to do.

Dr. Dawkins announced that today staff will present a pilot plan to encourage and advance student use of technology and related digital resources that will boost learning and ultimately increase student achievement. Additionally, this initiative will inform our processes and allow us to explore how to achieve PARCC readiness by Spring 2014.

He prefaced the presentation with the following assumptions:

1. This technology initiative will cause more students to engage in school work resulting in higher academic achievement.
2. Hardcover textbooks will soon become extinct.
3. I’m planning to redirect funding from all budget categories to fund this technological initiative.
4. Staff training will be needed to maximize our abilities to use technology.
5. Access for all students must be achieved.

Antionette Turner, chief academic officer, shared with the board that with the Common Core Assessments just around the corner, students need critical, digital literacy and 21st Century skills for taking the online assessments. Mrs. Turner stated that staff has shared with the board the Common Core Standards (the Blueprint of what our students are expected to learn), as well as the importance of rigor and relevance for real world application. She said we can develop students that are not only knowledgeable, but skilled as well as literate in order to be better prepared for careers in their future world. In talking about English Language Arts standards, Mrs. Turner stated that the board will see the technology that students will need to be able to use, including the Internet and interacting and collaborating with other students both locally and abroad. Mrs. Turner also stated that when talking about college and career readiness, it’s this that will be the standard for the K-12 standards so students will learn the skills they need through technology and multi-media. Louisiana is one of 24 states participating in the PARCC assessment, and beginning in 2014-15, all students in grades 3-12 will be assessed. She also noted the critical point that all these assessments will be done utilizing electronic devices and the District is responsible for providing the necessary technology.

Sharon Golett, director of information technology, explained that to handle the assessments on the Common Core Curriculum, the assessment requires technology. She further explained that beginning in April, the State began collecting data to assess how ready the districts are technology wise for handling taking assessments on electronic devices. When this was done last June, many did not understand and began working for volume discount for computers and hopefully tablets. The Readiness group reported that three Caddo schools are PARCC ready in terms of technology; and based on the numbers, it is reported that she believes they are three of Caddo’s low enrollment schools. She also announced that the PARCC Readiness Study indicates that Caddo will possibly need 2800-2900 devices upgraded or replaced to meet the
requirements, hoping that the iPad or tablet will meet the requirement needs for the devices for use during the PARCC assessments.

Reginald Dodd addressed infusing technology and that what works best is when technology is infused in what teachers and students do everyday. Mr. Dodd reported that plans are to pilot some technology at various schools on each level (elementary, middle and high schools). He said the pilots will also include particular technology resources, i.e. web-based curriculum aligned with the Common Core, use of students’ Smart phones in the classroom, use of eTextbooks, etc.

Dr. Lockett, interim director of special education, stated that in an effort to support pilots, staff is also looking at autism students and where this technology will grant new and amazing opportunities to foster and enhance communication between students, parents, teachers and the community, independent skills and developmental growth. She also stated that the iPads will give those without a voice a chance to be heard and new opportunities for students to learn.

Dr. Dawkins stated results of the pilot will be to drive the revision of the District’s technology plan and determine purchases that will be made in the school district for PARCC Readiness, instructional needs and Common Core requirements. He also stated that we currently spend approximately $2 million plus textbooks, and an additional $3 million for supplemental resources and materials; and we will now fundamentally rethink the process and how to align instructional resources to meet instructional needs in a more digital world because beginning in Spring of 2014 all assessments will be done electronically (35,000 over a 15-day window in Caddo).

Mr. Dodd, Ms. Golett, and Instructional Technology Specialists Christine Gremillion, Cheryl Anderson, Dora Honore and Luna Martin demonstrated programs that will be implemented in the pilot in an effort to maximize student engagement throughout the day and the resources available for use. Elementary schools participating in the pilot will be North Highlands, Caddo Heights, Shreve Island, Eden Gardens, Judson, and Mooretown Elementary Schools. Additionally, they will pilot some apps in autistic classes at North Highlands. Middle schools participating in the pilot will be Ridgewood, Donnie Bickham and Caddo Middle Career & Technology; and high schools participating in the Bring Your Own Device (BYOD) pilot and SMART training will include Booker T. Washington, Southwood, Northwood and Huntington (autistic classes).

Mr. Dodd stated that when it comes to technology, the children are digital natives as they have grown up with a multi-media rich environment and interaction. He also demonstrated music and art apps, i.e. piano, on the iPad and how the students will work with music (play an instrument, music theory, create art and save it – all in line with the Core Curriculum standards). Mr. Dodd reminded the board that the PARCC assessment will require every child to take an exam on some type of computer or tablet and the District is doing everything possible to get our students ready to participate in these assessments. Professional development will also be continued throughout the pilot.

Superintendent Dawkins concluded by stating we cannot afford to wait any longer and presented a very aggressive timeline for the pilot which will help determine what needs to be done over the next two years. He said it is critical to move forward if we want to give our students the instructional resources they have never had, as well as comply with the state requirement of testing our students. Along with this will also be the need for additional bandwidth, infrastructure needs, etc. to provide the instructional resources. Dr. Dawkins reported that in December additional professional development will begin as well as a review of needed revisions to CPSB policies governing electronic devices, since students are now suspended for having electronic devices on the school campuses and they will actually be using their own devices in the Bring Your Own Device (BYOD) pilot. He reported that the pilots will be implemented in January to insure that these schools are PARCC ready by the end of the school year and provide guidance for what it will take to get the remainder of Caddo’s schools ready.

Mrs. Turner further explained that as part of the evaluation process, the District is currently assessing all students at various levels using a number of instruments and staff will compare how the students in the pilots utilizing technology will be able to effect student achievement versus those students not using the technology. Relative to evaluation, Mrs. Turner reported that staff will compare achievement of students in the pilots to determine the level of engagement with the
use of technology and other resources, will look at how to use technology to increase student achievement and engage students more, and will determine PARCC readiness and if technology helped enhance the instruction for the autistic students.

Superintendent Dawkins added that we will determine how to replicate these pilots in other schools beginning next school year, as well as identify funding sources once it is determined how PARCC ready Caddo’s schools are. While it doesn’t cost anything to implement BYOD, there will be some expenses to make certain all our schools are PARCC ready and this will be determined with implementation of the pilot followed by an evaluation of the pilot and development of a two-year plan.

Mr. Lee explained that in looking at the cost of the pilot program, staff looked at various areas where contributions can be made; and for what is needed and not contributed, Mr. Dodd has determined the equipment needs for the pilot at a cost of approximately $100,000.

Mr. Rachal asked for clarification on the cost breakdown, which Mr. Lee explained. He also asked if it is not possible to get a better discount on these iPads, as he understands Apple is a major supporter of public education? Dr. Dawkins reported the State is attempting to negotiate a bulk rate discount. Mr. Rachal encouraged someone to negotiate this, because he believes you will not get a discount if you don’t ask and you should keep asking until you get it. He also asked if we will need additional services when we purchase them, and staff said we would not.

Mr. Ramsey stated his understanding of the Bring Your Own Device concept and the Cloud arrangement; but asked if we are addressing our bandwidth for our Enterprise arrangement and backbone network for testing. Sharon Golett announced that an RFP has been released for the District’s bandwidth for student internet and the District’s Wan and we will be able to double the Enterprise Internet for the same cost of $500 and use the savings to fund the Student Internet access. Mr. Ramsey inquired about adjustments at the end point? Sharon Golett responded that fiscal devices will increase to 10g and we will have the ability to expand.

Ms. Trammel asked if it is possible to use other tablets? Ms. Golett responded that staff has used other tablets in general; however staff has focused on iPads because of the number of free educational apps that can be used throughout the year in a teaching and learning environment.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE DECEMBER 18, 2012 CPSB MEETING

Superintendent Dawkins announced that the deadline for the compensation schedules required by the State Department is now April 1, 2013 rather than January 1, 2013. Dr. Dawkins also reported that an update on property tax renewals will be added to the January agenda to address for a May election.

Bids. Mr. Rachal asked staff to explain Prop 5, and Mr. Lee explained it is one of the tax issues specifically for technology and from the beginning has been referred to as Prop 5. Mr. Rachal asked staff how much money is in this annually for technology, and Mr. Lee said approximately $2 million. Mr. Rachal asked if we are spending it all, and Ms. Golett explained that it is spent and we receive a 75% discount on eRate and we pay the other 25%. With the additional Prop 5 money, Sysco Gear is purchased as well as taking care of firewall services, filtering, D and S Services, and other services that support the District’s Internet and connectivity. Mr. Rachal asked if the cost is approximately $10,000 per site and Ms. Golett answered that the cost is approximately $60,000 a month and 75% is eRate. Mr. Rachal asked if she is saying that 75% of the $750,000 is paid through eRate Federal funding and the District pays the rest--that we need to charge the technology fund the total $750,000, but it is actually only 25% of that amount. Ms. Golett said that is correct. Mr. Rachal requested if there are additional numbers, he would like to receive this information. Mr. Rachal also asked staff to provide the Board with a copy of the technology budget, the expected expenditures for this current budget, and the remaining balance.

OTHER ACTION ITEMS

Approval of Job Descriptions. Dr. Dawkins announced there are two positions presented for the board’s consideration: (1) Chief Financial Officer and (2) Chief of Staff. Mrs. Crawley
asked if staff has determined how this will impact the budget. Dr. Dawkins stated that at this point it is not believed there will be an impact on the budget.

**Educational Goals.** Dr. Dawkins stated that the State has established educational goals for all school districts and Caddo is working with a Network Team, collection of educators assigned to this portion of the state, and based on the State’s goals, staff has developed some corresponding goals for the academic achievement of students in Caddo Parish. Mrs. Turner reviewed the State established educational goals as referenced by State Superintendent White’s visit to the District. The eight areas include (1) importance of students being Kindergarten ready, (2) assessment of where the State is currently, (3) actual goals set by the State for all districts, (4) the year in which it is hoped that the goal is achieved; (5) students arriving at 4th grade on time and on level, and specifically passing the state assessment both in ELA and Math, (6) arriving at the 9th grade on time and on level, (7) students on track for college in the 11th grade based on their ACT scores; and (8) students enrolling in college or joining workforce. In terms of the current goal for the State, Mrs. Turner reported that staff will work to make certain the District is in alignment with the State’s 70%, 60%, 50%, 40%, etc. goals and focus on those items that will allow increased student achievement in our District at every level. She further stated that there is a focus on what has been done in the pre kindergarten program and how critical it is to make certain students enter Kindergarten ready. Mrs. Turner also reported that when meeting with the State’s Network Team, Caddo was asked to prioritize in our eight goals what we thought would get us the most bang for the buck and really make a difference in our SP Scores as well as increase student achievement. Goals prioritized by staff included (1) students arriving in the 4th grade on time and on level (focus on literacy and the importance of learning to read), (2) students arriving to 9th grade on time because when students begin 9th grade on time, they have a better chance of graduating and moving to college or being workforce ready, and (3) students graduating on time.

When asked if these are students entering before we ever have this in place, will the State begin to fund preschools or will the District do so? Dr. Dawkins said the State has indicated additional involvement in preschools; and as a result, it will be necessary to combine efforts. In the real world, if they are aligned with the Common Core, they will be ready to learn at a higher rate when they enter Kindergarten. Mrs. Crawley asked if this is all the students or only the students we currently have enrolled? Dr. Dawkins said we will be measured on all, so we will wait for direction from the State in terms of how it will be lined up since we are required to have goals in place.

Mrs. Turner also noted that staff has been aggressive in trying to move forward with our goals and the expectations, having put a number of things in place, i.e. response intervention, providing additional on-line courses, working with high school counselors information for assessing students as part of pre-testing by honing in on skills for students to be successful on the ACT and prepared for the workforce or for college.

Ms. Priest stated that in looking at the starred areas, it is evident that students entering Kindergarten ready is a key component and a great resource would be Head Start. In the most recent year, professional development and inservices were put into place providing excellent opportunities to foster and enhance Kindergarten readiness. Because children in all the Head Start Centers will become Caddo Parish School students, she believes it behooves us to bring this group to the table in these discussions. Ms. Priest asked that staff provide the board additional information before 2013 so the board can become more involved in the instructional side, and be able to share information with the public on what we are currently doing and what the District is putting into place.

Mr. Ramsey stated that as the cohorts change, the focus is more on improving the number of students from Basic to a more proficient category and he would like to see additional detailed data for accomplishing this.

**Professional Designers for 2013-14 Projects.** Ms. Priest asked staff to provide more specific details as to selecting professional designers for the projects, and if we are insuring diversity in those companies doing business with Caddo Parish Public Schools. She asked if this information could be shared with the board in the form of a matrix.
Mr. Riall asked for clarification on the process? Mr. White explained that staff first received approval of the projects in order to know what type designers need to be recommended to the board. The second aspect is advertising in the Official Journal and those interested have until December 7th to reply. At that time, staff will put together a matrix on all the designers with a recommendation for the board’s consideration.

**ADDITIONS**

**$100 M&S for Teachers.** Dr. Dawkins stated for clarification that there were no plans to give another $100. Mrs. Crawley explained that she is bringing it for the Board’s consideration since it was reduced to $100 at the beginning of the school year with the possibility of giving the teachers the second $100 the second half of the school year.

**Accommodations for Nursing Mothers.** Ms. Trammel asked for clarification on providing accommodations for nursing mothers. Mrs. Crawley stated that mothers returning to work from maternity leave and are nursing their newborns have a need for a private location to pump and store their milk. If a school does not have any new mothers they do not have to have space, but principals need to be aware if such a location is needed, and they need to provide the time and space to do so and not in the restroom or in a teachers’ lounge where other teachers are coming and going. Ms. Trammel stated she understands mothers nursing their babies; however, she asked where would such a location be? Mrs. Crawley said each school would be required to come up with such a space. Ms. Trammel asked how many new mothers do we have at each location, and Mrs. Crawley responded that it doesn’t matter, but if there is a need, the accommodation will be provided.

Mrs. Bell asked if this is being added for a board vote at the next meeting, she would like to receive some additional information. While she understands, she doesn’t see many employees wanting to nurse their babies and requiring a private area at the school. Mrs. Crawley said you would not want to do this in a bathroom because they are nasty, and it doesn’t matter if there is only one person, it is something that needs to be provided if there is a need. She added she is not asking someone to set aside space if it is not needed, but as needed, a private space/area will be provided. Mrs. Bell asked if this will be mandatory for each school; and Mrs. Crawley clarified that her motion will be space will be made available when needed.

Mr. Ramsey asked Mr. Abrams if this is an issue where the Board is directing and allocating space in a school? Mr. Abrams responded the Board can suggest that space be allocated, but the Board directing where that space is allocated would be a problem, as that should be at the principal’s discretion. Mr. Abrams said it appears the Board is saying this space must be made available for expressing milk; and whether or not the space is used all the time, it would need to be available.

Ms. Priest asked about the “reasonable break time to express milk”, and are we saying we will allocate time for a break for this purpose? She asked if the mother must express milk at a certain time, will the employee have to be given that time to do so? Mrs. Crawley, because she bought a pump for her goat, said it is done within a timeframe, and there may be a 15-minute recess during which time it could be done; but if the mother needs longer, the principal needs to allow the needed time. She added it is her belief that the principal and the employee can work this out.

Ms. Trammel asked if the principals find a place that can be sanitary for as long as the mother is expressing milk, what happens to the space when the mother is no longer expressing milk? Mrs. Crawley said it is not a big deal, but she doesn’t believe the bathroom or the teachers’ lounge is appropriate.

Mr. Abrams asked for clarification why this has to be done during the school day? Mrs. Crawley said that a mother cannot go that many hours without doing so. Mr. Abrams asked what are the mothers currently doing if they have a need to express milk during the school day? Mrs. Crawley responded they may be locking their classroom door or finding the best possible place.

Mr. Pierson stated while the principal may have to identify space, where is the milk kept once it has been expressed? Mrs. Crawley responded on an ice pack. Mr. Pierson said if the nursing mothers are currently expressing milk, he wants to understand is this item to provide them a better place? Mrs. Crawley said she believes this shows the Board’s support of babies’ health.
Mr. Pierson asked how long does this continue, and Mrs. Crawley said possibly a year. Mr. Riall stated he believes there is too much conversation between Board members and asked that questions be directed to the Superintendent or the Board Attorney.

Mrs. Bell asked that the staff conduct a survey to determine what others, i.e. City of Shreveport, Sci-Port, Parish Commission, do, as well as survey the employees before the Board votes on this. Superintendent Dawkins stated that he received the information from Mrs. Crawley this evening and the staff will look at other districts and government entities and bring something to the Board.

Mr. Rachal said he believes this is a health issue and asked if we had an employee with an injury whose bandage needed changing twice a day, do we not do what is needed to accommodate this employee? He said accommodating a teacher or employee for a given length of time for this purpose seems to him to be something that can be worked out at the school.

Mrs. Crawley said in doing a survey, the difference in a large company might be that the person has a private office.

Mr. Ramsey noted good points made by Board members; and finding it hard to believe that the principals are not cooperating with the employees in this issue, he asked the Superintendent if he is aware of a problem. Dr. Dawkins said there has not been a report of any problem. Mr. Ramsey said he believes if there are problems, i.e. principal not cooperating, they should be brought to the Superintendent. He does not believe this to be something addressed at the Board level.

Miss Green stated she doesn’t believe this should be a problem and if so, the principal and the superintendent should work on this issue. She said it looks like to her that some adjustments only need to be made at the principal level.

Ms. Priest asked if Mrs. Crawley is bringing this item for the Board’s decision in December, and Mrs. Crawley responded that is correct.

Superintendent’s Evaluation. President Riall added the Superintendent’s Evaluation under Executive Session and reminded Board members if they have not turned in evaluations, to please get them to him.

CONSENT AGENDA

President Riall announced that the following items are the consent agenda: 8.01-8.03, and 8.05. Mrs. Bell moved, seconded by Mr. Ramsey, to approve the proposed agenda and consent agenda for the December 18, 2012 CPSB meeting as submitted. Vote on the motion carried.

POLL AUDIENCE

Fredricka Vercher, student at Fair Park High School, addressed the Board on the decision to move the Fair Park Alumni Office from the front of the building. Miss Vercher stated she believes it is unfair, because Mrs. Bonds was instrumental in informing her about the programs at Fair Park as well as keeping her up to date on what is going on at school. She encouraged the Board to consider moving Mrs. Bonds back to her old office.

Mrs. C. Vercher, parent, shared with the Board when attempting to get her children in school, Mrs. Bonds was very helpful and she also keeps her current on what is going on in the school.

Kevin Fortson, on behalf of the Fair Park Alumni Association, spoke in support of Mrs. Cathy Bonds and the support of Fair Park by the Alumni Association. Mr. Fortson stated that on Monday, he was bombarded by calls requesting support for moving Mrs. Bonds back into the 8 x 8 closet her office was located in. Over the years, this is the location for the Alumni Office and it was very beneficial and recognizable. Mr. Fortson stated that he met with Mr. Outley and he also met with the superintendent at which time Mr. Outley advised him that he needed this space for a discipline area. Mr. Fortson said he believes the discipline issues should not be addressed in the main front corridor and that Mrs. Bonds needs to be receiving students in a more visible location. He stated that the Alumni Association brings positive things to the Fair Park campus.
and everyone that comes on the campus needs to have direct easy access to the Alumni office. He encouraged the Board to move the Alumni Office back to its original location.

Brenda O’Brock stated that she enjoyed watching the presentation on technology and hearing that the United Nations may take over the Internet, asked if that happened is the technology safe from childhood predators, etc.? Ms. O’Brock also stated she is a 1971 alumni of Fair Park and believes that as much a friend that Cathy Bonds is to the community and our students, the Board should be interested in placing her office so it is convenient and can do the best job for the students. Ms. O’Brock also noted that having a room for nursing mothers would be excellent; but if not, she believes it is an issue to be addressed by the employee and the principal.

Jackie Lansdale, president of Red River United, noted that when asking the staff to conduct surveys, under the Affordable Care Act it is law that a District must provide this. Because Caddo is a public entity, it is not specific to us and is why she asks the CPSB to look at this. She also noted the many great policies Caddo has that other districts do not and she believes this is what sets Caddo apart. Mrs. Lansdale stated that she would like to believe that at some point this would be elevated to the point it will not make the Board uncomfortable in discussing this topic and would recognize what the Surgeon General and American Pediatric Society have said and promote these activities for Caddo’s young teachers and their children. She also shared that the Mayor of New York has become involved and is prohibiting hospitals from giving out formula and encouraging mothers to nurse. She stated this is an issue because two mothers came to her regarding this matter when the principal told her she needed to put her baby on the bottle, which someone should not be telling a young mother what to do with their child. Regarding technology, she encouraged the Board to not get one thing in front of the other because it is important to have a staff that knows how to use and integrate technology into the lesson so the emphasis first needs to be on professional development. Also, Mrs. Lansdale said that being kindergarten ready means we need to make sure we have pre kindergarten for every child.

Adjournment. Mrs. Bell moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:54 p.m.
January 18, 2012

The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, December 18, 2012 with President Steve Riall presiding and board members Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Larry Ramsey, Ginger Armstrong, and Dottie Bell present being a quorum. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mrs. Crawford was out of town. Mr. Pierson led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE NOVEMBER 27, 2012 AND DECEMBER 4, 2012 CPSB MEETINGS

Mrs. Trammel moved, seconded by Ms. Priest, to approve the minutes of the November 27, 2012 and December 4, 2012 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Walnut Hill Choir. The Walnut Hill choir, led by Mrs. Michelle Deslattes, shared Christmas selections with the CPSB and audience.

Victor Mainiero, director of communications, on behalf of the board and staff, recognized the following students and staff members. President Riall and Superintendent Dawkins greeted each one and presented them with a certificate recognizing their accomplishment. Administrators, family and friends present were also recognized.

We Care Essay Contest. Bob Griffin and Tom Watts, Community Renewal, recognized recent Caddo winners in the We Care Essay contest on why and how they care for their families, schools and communities. Third Place winners: Lauraleigh Lawrence, 5th grade, Eden Gardens; Kameron Smith, 6th grade, Herndon Magnet; and Rachel Patteson, 12th grade, Northwood. Second Place winners are Onya Jackson, 3rd grade, Claiborne; Janae Richardson, 7th grade, Walnut Hill; and Chandler Williams, 10th grade, C. E. Byrd. First Place winners are Clarissa Henriques, 2nd grade, University; Breanna Gipson, 8th grade, Donnie Bickham; and Callie Graham, 12th grade, C. E. Byrd. Ouachita Independent Bank sponsored the We Care contest.

Louisiana State Fair Baton, Danceline & Cheer Team Competition. Mr. Mainiero announced that there were over 162 entries this year in the State Fair of Louisiana Baton, Danceline & Cheer Team Competition. Dr. Barzanna White, Caddo District Psychologist, is responsible for coordinating the competition yearly. The following students from 17 schools brought home a total of 35 awards: Middle Schools - Vivian Magnet Spirit Steppers (2nd Place, Small Pom and 1st Place, Small Lyrical); Caddo Middle Magnet Starline (3rd Place, Medium Pom, 1st Place, Medium Hip Hop, and 1st Place, Medium High Kick); Donnie Bickham Patriot Belles (2nd Place, Medium Pom, 1st Place, Medium Military, 1st Place, Small Pom, 1st Place, Medium Cheerleaders, 1st Place, Small High Kick); Herndon High Steppers (1st Place, Large Hip Hop, Pom, High Kick and Military and Overall Grand Champion Award); Oil City Tigerettes (4th Place, Medium Pom, 2nd Place, Medium High Kick and Large Pom, and 1st Place, Medium Lyrical); Walnut Hill Cheerleaders (2nd Place, Medium Cheerleaders, 1st Place in Medium Cheerleaders Hip Hop and Small Cheerleaders); Walnut Hill Golden Hornets Dance Line (2nd Place, Small Hip Hop); and Youree Drive Spartan Line (2nd Place, Medium Military and 1st Place Medium Pom). High Schools - Booker T. Washington Cheerleaders (1st Place in Medium Cheerleaders Hip Hop and Medium Cheerleaders); C. E. Byrd High Steppers (2nd Place in Medium Hip Hop and 1st Place in Medium High Kick, Jazz and Novelty); Captain Shreve Gator High Line (3rd Place in Medium Jazz and Hip Hop and 2nd Place in Medium Pom); Green Oaks Danceline (1st Place in Small Modern);
Northwood Falcon Line (1st Place in Large Pom, High Kick and Military and Overall Grand Champions); and Woodlawn Redline (1st Place Small Hip Hop). **Elementary Schools** - Creswell Elementary Mustang Cheerleaders (2nd Place in Medium Cheer and Medium Hip Hop); Blanchard Elementary Cheerleaders (1st Place in Medium Cheer, Medium High Kick and Medium Show Production); Fairfield Golden Girls (1st Place, Small Hip Hop); and Southern Hills Vikettes (1st Place in Medium High Kick, Jazz and Hip Hop).

**Oratory Contest Winner.** Shelby Payne, Captain Shreve, was recognized for placing first in the Oratory Contest at the Southern Association of Student Councils Conference in Orlando, Florida. She competed against contestants in 15 states and her speech was “Be the Change.”

**Southwood Robotics Team Places Second in Regional Robotics Circuit Competition.** Members of the Southwood Robotics Team (Galen Bias, Matt Moore and Lucas Parmer) were recognized for placing second in the Regional Robotics Circuit Competition which focused on science, technology, engineering and mathematics (STEM fundamentals). The teams received points based on their performance in various challenges and were ranked accordingly.

**Caddo Instructional Technologist.** Christina Gremillion, Caddo Instructional Technologist, was recognized as one of 20 people from around the world accepted to attend the APPLE Academy in California.

**Outstanding Math Teacher Award.** Eunhee Choi, Math teacher at Woodlawn, was recognized for being selected as a finalist for the 2012 LATM Outstanding New Mathematics Teacher Award. Ms. Choi was Caddo’s High School Teacher of the Year.

**Six Schools on the 2012 NCEA Higher Performing Schools List.** The following Caddo schools were recognized by NCEA (National Center for Educational Achievement) for (1) consistent improvement in student achievement from the previous year; and (2) absolute student achievement using the schools’ Advanced Achievement Level on the 2010-2012 iLEAP for Grades, 3, 5, 6, and 7 and the Grade 4 Leap Test: Claiborne Fundamental, Eden Gardens Fundamental, Judson Fundamental, Oak Park MicroSociety, South Highlands Magnet and Caddo Middle Magnet.

**Twelve Caddo Schools Show Top Gains for 2011-2012.** The following schools were recognized for improving their School Performance Score by or beyond a pre-determined growth goal for 2011-12. Caddo Parish Middle Magnet, Captain Shreve High, Cherokee Park Elementary, Claiborne Fundamental, Eden Gardens Fundamental, Herndon Magnet, Judson Fundamental, Midway Professional Development, Northside Elementary, Pine Grove Elementary, Southwood High and A. C. Steere Elementary. Each school will receive $8,453.00 from the Department of Education for educational purposes within the school.

**Presentation by National Sorority of Phi Delta Kappa, Inc., Beta Alpha Chapter of Shreveport.** Cathleen Johnson, president of the National Sorority of Phi Delta Kappa, Inc., Beta Alpha Chapter of Shreveport, and Board Member Dottie Bell presented a special monetary gift to their adopted school Newton Smith and to the two Blue Ribbon Schools, Oak Park and Claiborne, in recognition of a job well done.

**Presentation to Homeless Department.** Levada Palm and Board Member Dottie Bell made a special presentation to Pittre Walker and the Homeless Department in their annual effort to make sure that at least four students at each elementary school received something for Christmas. Mrs. Bell added there remain 40 children that will not receive anything for Christmas and urged anyone who might be interested in participating to drop off a gift or monetary donation to Ms. Walker in the Homeless Department.
Mr. Mainiero also announced that if anyone is aware of a student’s need for a coat to please contact one of the school counselors as Porters Cleaners will provide coats for them.

VISITORS

Daryl Roberson, president of the Caddo Association of Educators, first wished everyone a Merry Christmas and Happy New Year; and he expressed appreciation to the board for its support of the children and employees of the district, including adjusting the schedule so employees received the $500 additional check during Thanksgiving. Regarding financial matters, Mr. Roberson reminded everyone that the Legislature has frozen the local school district salary schedules to the 2011-12 levels and that as these schedules are addressed to remember the times are filled with increasing costs in numerous areas, college tuitions have increased making it difficult for those who might be interested in pursuing an educational vocation, and increased healthcare costs will be reflected in the March payroll. He encouraged the Board and staff as they look at the salary schedules to formulate a schedule that will help the teachers and employees keep their present salary level and not diminish it.

Jackie Lansdale, president of Red River United, shared her connection with one of the students at Sandy Hooks Elementary School and the teachers who gave their lives to protect these students. As she was reminded at a news conference held on this date, Mrs. Lansdale noted it is everyone’s job to protect our children; and she encouraged everyone to honor the students and educators that lost their lives in Connecticut by admitting that they made a difference, representing the core of public education. Mrs. Lansdale added the relationship between teachers and students is invaluable and deserves our respect and appreciation. She also noted the importance of sending a clear message to Louisiana’s Governor that cuts to public education and healthcare in the schools are unconscionable, as are BESE’s proposed cuts to librarians and counselors. She also announced that the first seven pages of Act 1 were deemed unconstitutional and they will be working with the Legislature in the coming session regarding the remainder.

Rob Broussard, taxpayer and parent of students at Caddo Magnet and Byrd High Schools, stated that he is upset over how the newspaper has blasted the educational system and the magnet program by inferring that Black students cannot compete with White students on standardized tests in order to get into the magnet schools. He also noted that the magnet schools came about as a part of the consent decree which is still not resolved, and he believes this is an insult. He urged the School Board to respond to this negative and erroneous reporting/commenting and encourage the paper to address equality 100% and not 50%, because equality and opportunity must refer to the figures of dollars that go to each school for each student and the magnet schools receive very little money compared to Title I schools (Booker T. Washington receives average of $18,563 per student and Byrd receives $4,300 per student).

Claretta Vercher encouraged the board to move the Fair Park Alumni Office back to the front part of the school where it is more convenient for parents and students.

Jerry Nelson, Fair Park graduate and former CPSB member, encouraged the Superintendent and School Board to reconsider the decision to move the Fair Park Alumni office. Mr. Rachal asked that the Superintendent and staff meet with the Fair Park Alumni Association.

Chester Kelly spoke in support of the Fair Park Alumni Association and asked that the Alumni office be relocated to its former space in the front building of the school. He also shared his concern that when approaching School Board members regarding this issue, he was told repeatedly that under the new legislation it is difficult for School Board members to provide input into the daily operations of a school, which he also expressed to State Senator Peacock. After reading the legislation, he believes it only addresses the direct hiring and firing of employees by the Superintendent and not providing input into the daily operations. He noted the
outstanding job Cathy Bonds does, and he supports moving the Alumni Office back to its previous location.

Chiquita Hamilton, parent, addressed the Board on her son’s placement in school; and after numerous failed attempts to talk to appropriate staff regarding what test(s) he needs to take, she asked for the Board’s assistance in addressing her son’s issue of now being yet another year behind in school.

Jon Glover, as a grandparent and constituent, addressed the Board on the continued devastation in the inner city schools and the failure to educate inner city students with no changes being made. She noted 50% of students attending Academically Unacceptable schools are failing the state assessment and asked what resolutions are in place to address these failing students? Educating every child in the parish should be paramount and Ms. Glover added that no amount of technology will make a difference if every child has not comprehended the basics of reading, writing and arithmetic. Ms. Glover reminded the board that it is being looked to for solutions.

At this time there was a moment of silence for the families of the victims of the Sandy Hook Elementary School (Connecticut) tragedy on December 14th.

ESTABLISH THE AGENDA AND CONSENT AGENDA

Superintendent Dawkins highlighted items for the Board’s consideration and President Riall announced that Items 6.02, 7.01, and 8.04-8.06 are the consent agenda. Mrs. Bell moved, seconded by Mr. Rachal, to approve the consent agenda as presented. Vote on the motion carried unanimously and the following is a summary of action on the consent agenda items.

Item No. 6

6.02 Personnel Transactions Reports. The board approved the personnel transactions reports for the period of October 20, 2012 – November 16, 2012 as recommended by staff and submitted in the mailout.

Item No. 7

7.01 Bids – Purchasing. The board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheet: (1) Verizon Wireless for purchases of cellular service for information technology; (2) AT&T Corp. for purchases of metro Ethernet network services for information technology; (3) Centurylink Solutions, LLC, for purchases of internet access service for information technology; and (4) AT&T Corp. for purchase of student access services for information technology. Copies of the bid tabulation sheets are attached and made a part of the permanent file for the December 18, 2012 CPSB meeting.

Item No. 8

8.04 Education Goals. The board approved the proposed District Educational Goals as submitted by the superintendent in the mailout. A copy is filed in the official records of the December 18, 2012 CPSB meeting.

8.05 Professional Designers for 2013-2014 Capital Projects. The board approved the proposed professional designers for the 2013-2014 Capital Projects as recommended by staff and submitted in the mailout.

8.06 Out of State Travel. The board approved requests for out of state travel, funded through General Fund, as recommended by staff and submitted in the mailout.
BIDS – CONSTRUCTION/CAPITAL PROJECTS

Mr. Rachal moved, seconded by Ms. Priest, to approve the following bids as recommended by staff and submitted on the bid tabulation sheet: (1) ELA Group, Inc., with a Base Bid, Alternate 1, Alternate 2 and Alternate 3 for the sum total of $3,103,000 for project 2013-082, “Bethune School Renovation”; and (2) J.D. Electric, Inc., with a Base Bid, for the sum total of $269,500 for Project 2013-Q509 for “QSCB2 Data Wiring & Security Cameras at Bethune”. Vote on the motion carried unanimously. Copies of the bid tabulation sheets are attached and made a part of the permanent file for the December 18, 2012 CPSB meeting.

Mr. Rachal also noted the savings the district sees as a result of the eRate and that this substantial savings (approximately $600,000) is money that goes back into the classroom.

APPROVAL OF COS JOB DESCRIPTION AND PROMOTION

Mrs. Bell moved, seconded by Ms. Priest, to approve the proposed job description for Chief of Staff and the promotion as recommended by the superintendent and submitted in the mailout.

Jackie Lansdale, president of Red River United, questioned the board in its decision on this item and what happens with other 12-month employees whose salaries were frozen, as well as those employees who are on the same rank on the salary chart. Mrs. Lansdale also stated that during the process of meeting and reviewing the board’s directive to staff, none of the board’s suggestions were considered and a position was taken that if a particular employee’s salary was unfrozen, the other employees on the same lane would want the same thing done for them. She said it is ironic that two of the administrative team members who would not waiver in this position are the same two administrators who will receive salary adjustments at the recommendation of Rahmberg. Her question to the board was will the others on the same salary lane not want the same adjustment as well? Mrs. Lansdale said that while they would never criticize anyone about getting a pay increase if the market bears and the funds are available; she doesn’t understand why this is being considered when there has not been a pay increase in five years and there has not been a bond, a roll forward or any tax. She also noted those that were left out of the incentive payoffs and the fact that no one has communicated any information to them. She urged the board to address the supply money, the incentive payoffs, and a funding source for pay, and then there could be an agreement on this particular agenda item.

Jon Glover referenced the December 4th executive work session in which she attended and the board asked in the discussion on the approval of job descriptions on the agenda if there would be an impact on the budget and the answer was a resounding “no”. She said it is apparent that the constituents were not told the truth, because today the board is being asked to not only approve the job descriptions, but also the recommendations and the additional monies and she questions where these funds will come from?

Mrs. Bell said she believes the COS position is in order because of the responsibilities added to this position and encouraged the board to support the motion on the floor. Ms. Priest shared that she has reviewed the organizational chart, looked at the span of control and supervision, as well as the duties of this COS position and she believes it is now before the board to make a decision.

Mr. Hooks moved to postpone, seconded by Miss Green. Mr. Hooks said he believes this is putting the cart before the horse and because the board voted against adjusting the occupational therapist’s salary and employees have not had an increase in five years, this needs to be postponed. He also said he does not see anything about giving the secretaries of these two administrators an increase, and he is opposed to the request. He said he would rather be told the truth than lied to and he has been lied to too many times since serving on the board. Mr. Hooks
stated he doesn’t understand why anyone would want to support this and then follow with proposing a tax to give teachers a raise. Mrs. Bell encouraged Mr. Hooks to tell the truth also because the board voted against going to the public with a proposed bond issue for teacher raises. He said he doesn’t believe any one should receive a raise unless every employee in the parish receives a pay increase.

Miss Green shared her agreement with Mr. Hooks to postpone this item until budget time; however, she doesn’t believe this small amount of money is unmanageable.

Ms. Trammel questioned the use of the word lie and lying and if it is being used relative to everyone on the board; because if so, she encouraged board members to be cautious about what is said around the horseshoe and handle these matters by directly addressing the source. She stated she understands the need for board members to know information, but she would like to know why, periodically, the board’s first knowledge of some things is via members of the audience?

Mrs. Crawley called for a point of order and that it is inappropriate for a board member to address another board member’s motives.

President Riall called for a five-minute recess at 6:25 p.m. and the board reconvened in open session at approximately 6:35 p.m.

Mr. Rachal stated that he visited with the superintendent since the last meeting and at that meeting asked about the impact on the budget and he understood there would not be an impact. He also reminded the board that for two months he revisited another position that would mean a total of approximately $300; and while he believes both these employees’ responsibilities warrant this proposal, it does put him in an awkward position. He inquired of the superintendent if not approved at this time, will it affect these individuals’ duties and responsibilities? The superintendent responded that both individuals are currently carrying out the duties and responsibilities; however, some of the departments that will be added to their responsibility have not been added prior to board approval. Mr. Rachal said he questions if there will be a great deal of harm waiting on this until budget considerations.

Mrs. Bell asked for clarification on postponing until following the superintendent’s evaluation; because if these employees have been doing this job, she believes this is a personal thing and the board needs to move forward.

Mr. Ramsey moved, seconded by Mrs. Priest, to call for the question. Vote on the motion to end debate on all motions on the floor carried unanimously.

Vote on the motion to postpone failed with Board members Green, Crawley, Hooks and Rachal supporting the motion and Board members Riall, Pierson, Trammel, Priest, Ramsey, Armstrong and Bell opposed.

Vote on the main motion carried with Board members Crawley and Hooks opposed and Board members Riall, Green, Pierson, Trammel, Priest, Rachal, Ramsey, Armstrong and Bell supporting the motion.

**APPROVAL OF CFO JOB DESCRIPTION AND PROMOTION**

Mr. Ramsey moved, seconded by Mrs. Bell to approve the Chief Financial Officer job description and promotion. Miss Green asked for a point of clarification as she thought these two job descriptions were together. Mr. Riall explained they were separated between the work session and today’s meeting. Miss Green stated her confusion as to why this was separated and
Mr. Abrams explained that board policy states if a board member requests that grouped-together promotions be separated, they can be; and a board member did make this request. Miss Green stated her disappointment because she thought she was putting a second on both positions and she believes it is conniving when it is done this way and she hates that a board member requested them to be separated. Mr. Riall said it was done because a board member, by policy, requested to separate the two recommendations, and they were separated and posted as of Monday at 4:00. Miss Green noted she thought at the beginning of the meeting today that both positions would be considered together.

Mr. Hooks moved, seconded by Mrs. Crawley, to postpone. Mr. Hooks reiterated his comments from the previous motion; and while he is not calling any board member a liar, he can truthfully say that Dr. Dawkins lied to him. Mr. Riall called Mr. Hooks out of order. Miss Green called for a Point of Order and urged the board to move forward. Mrs. Crawley stated that we put Common Core and other things on the teachers and she would like to postpone until we come up with a plan to give everyone a raise.

Mr. Ramsey moved, seconded by Ms. Priest, to call for the question. Vote on the motion to end debate on all motions on the floor carried unanimously.

Vote on the motion to postpone failed with Board members Green, Crawley, Hooks and Rachal supporting the motion and Board members Riall, Pierson, Trammel, Priest, Ramsey, Armstrong and Bell opposed.

Vote on the main motion carried with Board members Crawley and Hooks opposed and Board members Riall, Green, Pierson, Trammel, Priest, Rachal, Ramsey, Armstrong and Bell supporting the motion.

APPROVAL OF REVISIONS TO ORGANIZATIONAL CHART

Ms. Priest moved, seconded by Mrs. Trammel, to approve the proposed revisions to the organizational chart (CPSB Policy CCA). Mrs. Crawley noted an error on the organizational chart in that the duties of the Chief Financial Officer’s (CFO) because the job description reflects that Purchasing comes under the CFO and the organizational chart does not reflect this. Dr. Dawkins explained that the Purchasing Department will remain under the Chief Operations Officer. Mrs. Crawley asked if it will be necessary to amend the motion to approve the CFO job description. Mr. Abrams stated that once a job description is approved by the board, the Superintendent can amend it down the road; and if an adjustment needs to be made to the organizational chart, the correction only needs to be stated and it can be corrected following the meeting. Mrs. Crawley, for clarification, asked if the Organizational Chart being voted on is correct, and Dr. Dawkins verified it is, and the job description will be corrected. Mr. Ramsey moved to call for the question. Vote on the motion to end debate carried unanimously. Vote on the main motion carried with Board member Hooks opposed and Board members Riall, Green, Pierson, Crawley, Trammel, Priest, Rachal, Ramsey, Armstrong and Bell supporting the motion.

RELOCATION OF FAIR PARK ALUMNI OFFICE

Mrs. Bell raised objection to this agenda item as no backup was provided. Mr. Rachal asked for clarification and that since an objection to this item being considered has been raised will the vote be whether or not it remains on the agenda. President Riall said that is correct and it will take a 2/3 vote (yes vote the board will hear it and a no vote the board will not hear it). Vote to hear agenda item 8.07 failed with Board members Riall, Green, Crawley, Hooks, Rachal, Ramsey, and Armstrong supporting the motion and Board members Pierson, Trammel, Priest and Bell opposed.
ADDITIONAL $100 FOR M&S FOR TEACHERS

Mr. Rachal moved, seconded by Mr. Pierson and Mrs. Armstrong, to approve the additional $100 for M&S for teachers. Mr. Rachal asked the superintendent about the cost to the budget and Dr. Dawkins responded it will be a $300,000 cost to the budget. Mr. Rachal noted this was discussed in original budget discussions; and since the teachers need and deserve this, he asked the Superintendent if he had any concerns. The superintendent said only that staff will have to find the $300,000. Mr. Rachal asked about the reserves at the end of the budget? Mr. Lee, while he did not have the reserve numbers, the budget ending balance is overspending by approximately $4 million. Mrs. Armstrong stated that too often we neglect to think about necessities teachers need in the classroom and that this added expenditure is paid out of their pockets, and she believes the board owes this to the teachers during the second semester.

Ms. Trammel stated that she has visited in her schools and the principals have explained to her that some teachers do not use their allotted $100 and asked if what is left rolls over into the second semester? Mr. Lee responded that it will not necessarily roll over; and it doesn’t actually cost the extra $300,000 but staff budgets that amount in the event that each teacher does spend that amount. Mrs. Crawley added that many times the teachers do not know the money is available for their use, and encouraged staff to come up with a better way to notify the teachers.

Mr. Hooks moved, seconded by Mr. Pierson, to call for the question. Vote on the motion to end debate carried unanimously. Vote on the main motion carried unanimously.

ELECTION OF OFFICERS FOR 2013

Mrs. Bell moved, seconded by Mrs. Armstrong to elect the following slate of officers for 2013: Larry Ramsey, President; Carl Pierson, First Vice President; and Bonita Crawford, Second Vice President. Vote on the motion carried unanimously.

AUTHORIZATION FOR PRESIDENT TO USE FACSIMILE SIGNATURE

Ms. Priest moved, seconded by Ms. Trammel, to authorize the president to use a facsimile signature. Vote on the motion carried unanimously.

SUPERINTENDENT’S REPORT

Superintendent Dawkins announced that he will send a written mid-year update on the target schools. He also reported that relative to reviewing and revising the 10-day catastrophic illness leave and maternity leave policy changes, staff is currently reviewing all policies. At this time, the District is in compliance, but staff will bring recommendations once the review is complete.

ANNOUNCEMENTS AND REQUESTS

Miss Green announced that Newton Smith will do a special green project for the 20 children lost at the Sandy Hook Elementary School by planting a tree for each student. Specific details will be provided at a later date. She also extended Christmas greetings to everyone and encouraged the board members to practice respecting each other in the New Year.

Mr. Rachal asked, if possible and in light of what happened in Connecticut, that the superintendent and attorney consider possible opportunities for Caddo employees to help families affected by this tragedy.

Mr. Hooks again asked about a response to his request for information on textbook orders for Fair Park for the 2012-13 school year.
Ms. Trammel reminded the board the true meaning of the season; and also apologized if she stepped out of line in her comments. However, she believes it is personal and when one gets to a point of assassinating another’s character, there are repercussions. Ms. Trammel encouraged all to respect one another as well as those in the audience.

Mr. Ramsey expressed wishes to everyone for a Happy New Year.

Mrs. Bell asked for clarification on the connection Mrs. Lansdale has with one of the Sandy Hook students and encouraged the superintendent to review what opportunities are available for employees in Caddo to assist those in Newtown. She also shared with everyone how emotional and personal it becomes for her when she feels something is going on that she doesn’t believe is right; however she will never assassinate anyone’s character and hopefully everyone can come together in 2013. She also wished everyone a Merry Christmas!

Ms. Priest expressed appreciation to the 2012 officers for their services during the year and congratulated the new officers for 2013. She also encouraged the superintendent and appropriate personnel (Mr. Murry) to convene a meeting and share what is happening in our schools so we can inform and educate our parents and the community on our policies, procedures, security measures, etc.

Mrs. Armstrong shared her concern about the destruction of the historical, architectural structure of Fair Park High School, because being on the National Register, every part should be preserved. She stated sometimes new administrators come into the schools and they do not do a historical search of that school. When looking at the history of the older Caddo schools, it is important to stop and think about all the students who have walked the halls over the years, and she believes this might need to be a prerequisite for newly appointed principals (to learn about the history of the school), as well as for those in the Maintenance Department. Mrs. Armstrong stated that when we allow schools to be destroyed by tearing down bookshelves, for example, that were original to a school, then we are destroying history. This is happening at Fair Park and is why the issues at Fair Park keep resurfacing. Also, as we go into the New Year, Mrs. Armstrong stated she hopes these type issues do not continually reoccur. She wished everyone a Very Merry Christmas.

Mr. Hooks stated that he makes no apology to anyone and gave Mr. Rachal credit for trying to bring everyone together. He also stated that the effort must be made on both sides, and he will not tolerate disrespect. Mr. Hooks said he doesn’t believe this is asking for anything unreasonable.

Mrs. Crawley said she has forwarded emails concerning Fair Park because she believes the main problem with Fair Park is ignorance and now that many have enlightened the board why this was an ignorant decision to move the alumni office behind three locked doors where students and parents can’t get to them, she thought this would change. So, she too is asking the superintendent and staff to rethink the decision to move the alumni office and relocate it back to its original place. Mrs. Crawley noted that the board is behind any alumni in their schools.

Mr. Ramsey reminded Mr. Hooks if he desires something to be an agenda item, he only needs to request it and provide the backup information/motion.

Miss Green thanked the class of 1976 at Green Oaks for donating many toys for the students at Pine Grove and Northside.

Mr. Riall expressed appreciation to the board for its confidence in him to serve as the Board’s president during 2012.
Superintendent Dawkins stated that he has never lied to anyone in his career and the collective board can be assured of that. Also, his heart goes out to the Newtown community and he will work with staff to see what Caddo can do. Dr. Dawkins also stated that Fair Park is academically unacceptable and his priority is to get the school out of this status and will do everything possible to make every Fair Park student an alumni. Finally, he wished everyone a Merry Christmas and a Happy New Year.

EXECUTIVE SESSION

Student Readmission Appeal. Mrs. Moore announced that the father withdrew his request for an appeal.

Tenure Hearing for a Tenured Bus Driver. Mrs. Bell moved, seconded by Mr. Rachal, to approve the retirement of the tenured bus driver in lieu of a tenure hearing as presented at board members’ stations. Vote on the motion carried unanimously.

Superintendent’s Evaluation. Mr. Rachal moved, seconded by Ms. Priest, that the board go into executive session for 15 minutes for the Superintendent’s Evaluation. Vote on the motion carried and the board went into executive session at approximately 7:40 p.m. The board reconvened in open session at approximately 7:47 p.m.

Adjournment. Mrs. Bell moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 7:48 p.m.

____________________________________ ___________________________________
Dr. Gerald D. Dawkins, Secretary   Steve Riall, President
January 8, 2013

The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, January 8, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Other school board members present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mrs. Crawley led the invocation and Pledge of Allegiance.

PRESENTATIONS

Ombudsman. Superintendent Dawkins announced that Guy Cooper, director of the Ombudsman programs in Caddo, will share with the board the first semester baseline data and a full report will be presented at the end of the school year. He added that at this time, the program is still being customized to fit the District’s needs. Mr. Cooper stated that the purpose of the Ombudsman Alternative Program is to focus efforts on improving the graduation rate and overall academic achievement for students assigned to an alternative placement. He explained that the Ombudsman Program includes an onsite program at Academic Recovery for middle school 1 and 2, serving all age levels, grades 6 through 8 who have been suspended, expelled, or are academically behind or over aged. The Academic Recovery full-day six-hour program serves special education and regular education students in grades 6-12 who have been suspended, expelled or who are academically behind and require additional services to meet their academic and behavioral needs. Mr. Cooper reported that the off-site programs (high schools) are located in the North, South, East and West areas of the parish and serve over-age middle and high school students who have been suspended, expelled or are academically behind. He added that teacher-led instruction and small group instruction have proven to be beneficial to all enrolled students, in addition to the electronic, computer-based programs used to instruct students. He shared information on enrollment counts as of December 7th for all sites, average daily attendance by center, scores in the Star Math range (including the score when enrolled at one of the sites and the score today, reflecting the growth), level testing, discipline referrals, social worker interaction, testimonials, career and college readiness and lessons learned the first semester. Issues experienced and being addressed include transportation, group expulsions, security issues and streamlining of student intake.

Mr. Hooks asked if high school students are receiving course credit for subjects taken? Mr. Cooper responded they are and Ombudsman issues grades (report cards) for the Core Curriculum courses (Math, Science, Social Studies and English Language Arts) as does the Caddo Parish School System, thus each student receives two report cards every nine weeks.

Mrs. Crawford asked for clarification on the average daily attendance; and while the middle schools are fairly consistent, she thought in the initial presentation the board was told Ombudsman would aim to keep the attendance rate at 80% or higher, and she sees that some are in the 60s. Carla Moore explained that they continue to see trends with the same students and truancy problems and some are now attending the Ombudsman program. She added they are
following these students and making referrals to district court as mandated, and also working with Juvenile Justice to hopefully remedy these situations. Mrs. Crawford asked did the initial conversations not indicate they would work within Ombudsman and not our staff? Dr. Dawkins explained this is the first semester baseline data and is actually an improvement for some students over their previous attendance records, with the 80% daily attendance being the goal.

Mr. Rachal asked how many certified teachers are there on a daily basis in the Ombudsman Program? Mr. Cooper responded there are approximately 35-40 teachers, all of which are certified with the exception of 4 or 5 substitutes (and the minimum qualification for substitutes is a Bachelors Degree), and he shared the numbers of staff members and certified teachers at each site/program. Mr. Rachal asked Dr. Dawkins about the cost of the program, and Dr. Dawkins responded approximately $2 million, as opposed to the $4 million spent on the other program. Mr. Rachal also asked Mr. Cooper about Ombudsman’s goal for increasing the scores (percentages)? Dr. Dawkins stated the goal is always to get each child up to grade level; and obviously the students enrolled in the Ombudsman Program are deficient in different areas but the goal is and always has been to get them to grade level. Hopefully, in the Spring/end of the year, we will see these students’ scores rise to their grade level. Mrs. Turner also explained that students at Ombudsman follow the same curriculum as the high schools, and staff looks to move them to “proficient” and the next level. She further added these students are required to pass the same EOC tests, and take the same assessments, and staff is working with Ombudsman to make certain these students are test accommodated and test prepared for the state assessments, and hopefully able to transition back into the regular classes. Mr. Rachal asked for a copy of the presentation.

Miss Green asked for clarification of the schedule for students seeking jobs; and if they are only going to school ½ day, what are they doing the second half of the day? Mr. Cooper explained that job coaches at the high school sessions work with students to develop resumes, skills, and contacts with possible employers. Miss Green asked the superintendent about the Board’s desire to provide a career or trade center for students who are only going to class ½ a day. Dr. Dawkins responded that the career and college readiness portion of the plan is to help these students find jobs and for the younger students, volunteer opportunities.

Mrs. Bell stated she is impressed because the program was put into place for students who could not function in the regular school setting, but yet they would have somewhere to go besides being placed out on the streets. She reminded Board members why these students were referred to the Ombudsman Program, and shared positive feedback she received from parents about their children in the program, and their apprehension for them to leave Ombudsman and return to the regular school setting. Mrs. Moore confirmed their experience with parents requesting their students to remain even though Ombudsman recommended they return to their neighborhood school; and staff is reevaluation to determine what is best for each student.

Mr. Hooks asked if the drop in attendance because of truancy is mainly seen in the a.m. session, p.m. session or the all day session? Mr. Cooper said initially the biggest drop in attendance was in the a.m. session, so these students were shifted to the p.m. session. Mr. Hooks asked for clarification on what Ombudsman is doing for students who are not in class the entire day, and Mr. Cooper again explained that the career curriculum is in place for students in 8th through 12th grade and those who are too young to work are counseled and matched with volunteer opportunities or a skill program to begin developing certain skills.

Ms. Trammel asked, since this is an alternative program, if Ombudsman works closely with the parents even though they only attend four hours? Mr. Cooper explained that social workers, when students are habitually tardy or absent, make contact with the parent, and also work with homeless parents and refer them to Caddo’s Homeless Department for assistance. Ms. Trammel stated her belief that if students are in the program only four hours each day, parents need to
understand the remainder of the day is the parents’ responsibility. Mr. Cooper added there is an orientation mandate for parents when students begin the program and parents must also sign a required document.

Mrs. Crawley asked how many students are in the Ombudsman Program? Mr. Cooper responded they run a weekly population report and there have been approximately 369 to 380. Mrs. Crawley asked Dr. Dawkins to verify an average number of students served in alternative programs last year? Dr. Dawkins said approximately 400.

Mr. Ramsey stated it is his hope that we do not let capacity be the overriding issue in providing these services, because he feels the key to success in the school system is to address the needs of the alternative students. He said it is important that we have an effective program in place, and he believes that the 60-70% attendance rate is much better than what we have seen in the middle and high schools. Mr. Ramsey said he sees in this initial report that this program certainly has potential, but we do need to continue to nurture it.

Schoolwide Security Update. Superintendent Dawkins announced that staff is bringing an update on the District’s security so everyone is fully aware of our preparedness in crisis or emergency situations. With the Newtown, Connecticut tragedy being right before the Christmas break, the time was short to prepare this information; however, he wants everyone to be assured it is our number one priority each and every day to provide world class learning and teaching in a safe, secure and orderly environment. Dr. Dawkins also recognized and expressed appreciation for the long-term cooperation of the partners in the Police Department, Fire Department, Sheriff’s Office, City Marshall, Emergency Preparedness, and additional first responders, and we are better prepared because of their work and efforts.

Roy Murry, director of security, introduced the support representatives present at the meeting and stated that crisis management in Caddo Parish was in place before he became the director of security, and after he became director of security, it has continued because of this support on a daily basis. Mr. Murry provided an overview of the following three areas in the District’s campus safety and security: (1) personnel, (2) planning and training, and (3) physical security upgrade.

He reported there are approximately 102 security coordinators on the 38 elementary, 8 elementary/middle, 15 middle, 20 7-12 configurations, 14 high, and 7 special and alternative campuses. The security coordinators are full time employees of the District and cost the District approximately $5.3 million. Personnel also includes police and deputies on the campuses – (1) SROs on 10 high school campuses that are full time and work their 8-hour shifts on Caddo’s campuses. The District has a contract with the Sheriff’s Department and the Police Department and Caddo pays their salary and benefits. (2) Off-Duty Officers and Deputies on campuses are paid $25 an hour. The cost for these officers/deputies is approximately $879,000.

Relative to planning and training, Mr. Murry reported the two-year Federal REMS (Readiness and Emergency Management in Schools) grant from the U. S. Department of Education has just been completed. The amount of this Federal grant was $462,000 and one of the things accomplished through this funding was the continued review and revising of the crisis response plan, which is a live document that is updated as needed when situations change and standard operating procedures are added/changed. He also reported that the grant was used to review and revise the District plan to national incident management compliance (the National Standard).

Mr. Murry also stated that the security and vulnerability assessment was completed on each campus by an outside agency, and these will continue to be conducted on an annual basis. Additional training sessions were also offered and completed covering incident reporting, emergency response by fire and EMT, active shooter overview, etc. Selected students also
received the CERT training in ROTC classes. Security awareness and safety training were provided to all principals responding to an active shooter, a lockdown plan, and decision making in an emergency. Three lockdown trainings are conducted in a year; and at the end of last year’s training, three tabletop exercises were held on an active shooter scenario. Mr. Murry also announced that all law enforcement entities working on Caddo’s campuses have completed active shooter training. Caddo also cooperates by providing our facilities for use by other law enforcement officers to complete their active shooting training. Principals and directors have also received the active shooter training which makes them aware of law enforcement’s response in an active shooter situation. He also reported that all security personnel received eight-hours training on bomb recognition and awareness, as well as Emergency Response Information Portal (ERIP) as part of the REMS grant. He explained that ERIP can be accessed by the responding agencies and the plans for each campus can be updated through this web page, as well as their crisis plan and new assessment data. Mr. Murry reported that law enforcement, fire and EMS, and homeland security personnel have all been trained in operating the ERIP program and highlighted via the ERIP web site the various ways a campus can be monitored and investigated in the event of an emergency.

Physical security upgrades, through capital projects, include the completion of security camera upgrades in 75% of Caddo schools and all schools will be complete by August 2013. Mr. Murry reported that he met on Monday with representatives from the Sheriff’s office and chief of police to discuss concerns, with access control being the primary concern for all. He noted that Parsons, in discussions, reminded Caddo representatives that the Caddo schools’ average age is 60 years and our schools were built for kids to walk to school. He added that access control in Caddo is a great concern and, in the 7-12 configurations, staff is working on electronic access control to separate the middle schools from the high schools, and in the future staff will look at electronic access control for the outside (entering and leaving the building). Practices currently in place are locking classroom doors, locking gates, etc. anything that can be done to control traffic where we want them to be. He also said fencing is a part of access control; and while he knows that eight and 10-foot fences around school campuses are frowned upon by many, it does allow a means to control outside access. Mr. Murry also noted the padded lock system being installed throughout the district as systems are being replaced, which will prohibit anyone from getting a key made since we make and authorize keys.

Mark Connella, retired Shreveport Fire Department and the REMS grant coordinator, shared with the board and audience his observation when going onto the school campuses through the implementation of the REMS grant. He noted his belief that this grant fostered a better relationship between the school system and public safety sector; and he shared his experience of entering one of Caddo’s schools, the door locking behind him and going into a lock down, which showed him how pro-active Caddo has been in safety on the school campuses.

Fire Chief Mulford reiterated the comments of Mr. Connella and the pro-active efforts in keeping all our children safe.

Ms. Priest stated her appreciation to all involved in this effort and that this definitely fits in with the District’s goal to provide a safe learning environment for the students. Referencing the layouts of some of Caddo’s campuses and the age of those campuses, she said she believes it should be mandatory to instill the importance of making known that if someone is not an employee of the Public School System and does not have a badge, that all doors must be locked and anyone entering the campus should always check into the office. She also said she believes security code cards should be looked at for all schools and certain areas of the school building should have limited access.

Mrs. Crawley stated her concern that only the good folks will check in to the office. She asked if the elementary schools have armed officers on their campuses? Mr. Murry responded only six
officers are working in the elementary schools. Mrs. Crawley stated she believes an armed law officer is needed at each school.

Miss Green expressed appreciation for the presentation and noted that on one of the campuses in her district, the security guard is number 1 in following instructions. She also noted she believes one of the campuses in her district was recently recognized as the safest campus in Caddo.

Mrs. Bell asked Mr. Murry about the cameras whereby we can know what is going on inside and outside 24 hours a day, and if someone is monitoring all these cameras on a daily basis? Mr. Murry said if the monitors are pulled up the cameras can be observed, and schools attempt to place the camera monitors where someone sitting at their desk the majority of the day can view them. He added a small elementary school has approximately 60 cameras, which is the fewest number of cameras on a campus; and large high schools have 200+ cameras.

Mrs. Armstrong asked about any grants on the horizon. Mr. Murry explained that the REMS grant was not funded during the last budget session; however, there is talk it will be reinstated, and if so, we can reapply and apply for something different within the grant. He added the law enforcement entities also help us through COPS grants, etc. Mrs. Armstrong asked who is in charge of writing and being proactive with the REMS grant? Mr. Murry said the REMS grant has been completed but the District’s grantwriter at that time put the information in the correct format; and if there is another opportunity, we will again go through the District grantwriter.

President Ramsey expressed appreciation to the staff and the District partners for the report and their efforts to keep our employees and students safe each and every day.

ESTABLISH THE AGENDA FOR THE JANUARY 15, 2013 CPSB MEETING

Superintendent Dawkins highlighted items for the board’s consideration at its meeting on January 15th and the following discussion ensued.

Personnel Recommendations. Dr. Dawkins asked that this item not be placed on consent. Mrs. Crawley asked if there is more than one personnel recommendation that they be separated.

Bids. Superintendent Dawkins announced that bids will open on Wednesday and the information made available at that time.

Relocation of Fair Park Alumni. Mr. Hooks asked if a meeting has been held with the director of the Fair Park Alumni regarding moving the alumni office back to its original location. Mr. Ramsey said it would be helpful if Mr. Hooks would add his motion to this item so the board understands what he is requesting. Mr. Rachal shared his disappointment with how this was handled and that with the approval of the maker of the motion, he would like to add that in the event the original area is not conducive, the alumni is given something accessible and comparable to the original location.

Ms. Trammel questioned a comparable, accessible location, because she believes if it is in the building, it is accessible.

Ms. Priest asked the Superintendent if to his knowledge space has been offered and provided to the Fair Park Alumni, and Dr. Dawkins responded that space is located in the building. Ms. Priest inquired, in lieu of the board’s conversation regarding limited access to our school buildings, as to what accessibility is desired; and do the principals at North Caddo, Booker T. Washington, Caddo Magnet, Woodlawn, Captain Shreve, and Byrd provide permanent office space for alumni at their schools? Staff responded that Captain Shreve, Byrd and North Caddo have an alumni office and the principal determines the space. There is no contract, but the
alumni groups and the principals work together. Ms. Priest asked Mr. Abrams if the Caddo Parish School District is required to provide office space to any entity, organization or group that requests space in a school building; and if so, is the school board required to provide that entity with the exact space requested, and Mr. Abrams responded absolutely not. Ms. Priest stated that the Board is the policy-making body and she questions if this is an appropriate item for the Board to address. Mr. Ramsey responded no, because teachers’ classrooms and offices are moved around, changed to accommodate the needs at the school. Superintendent Dawkins stated that in his 12 years as a superintendent, he has not received a directive from a school board regarding staff assignment of rooms. Mr. Ramsey stated that his determination of accessibility per Mr. Hooks’ request is that the association members are able to get to the association office without going through locked doors. Mr. Hooks said it is just difficult for the elderly to get to the alumni office when needing to go through three locked doors. Regarding if it is an appropriate item for the agenda, Mr. Ramsey stated if a board member brings an item for the agenda and provides the documentation, he believes it is his duty as president to place it on the agenda. Ms. Priest again reminded the board of the report on security and the need to make sure access to our campuses is limited and asked that an item be added to the January 15th agenda to “seek an opinion from the State Attorney General’s Office and the Louisiana Ethics Board if this is an appropriate matter for the board and if the board has the right to inform, coerce, and authorize the superintendent and principal to allocate space in a school”.

Mr. Riall stated that it is his understanding that the prior alumni office was located in a sectioned off part of a classroom; and asked if any planned renovations should be postponed until the Attorney General’s decision is received. Dr. Dawkins explained that this space is being prepared for classroom space; and even though halting renovations affects progress for students, he will abide by the board’s decision.

Mrs. Bell asked Mr. Abrams if she understands that legislation passed last year included the board not micromanaging the Superintendent by making decisions that are a part of daily operations; because when she taught in Caddo, she was moved from her classroom to a temporary building at the principal’s direction and without her input. She asked if this item is micromanaging and possibly an ethics violation? Mr. Abrams responded it is micromanaging and reminded the board that he explained in the board’s training that it is a policy-making board and not a board that runs the daily operations. He also added he doesn’t believe Act 1 applies to this situation as it deals with principals having authority over the employees at a work site, and the alumni director, and the alumni office, does not fit the statute; and the Louisiana Ethics Law applies to money, funds, benefits to family members, etc. Mr. Abrams also said if the board asks for an AG opinion, it can go either way; and while it may not be an ethics issue, Act 1 allows the Superintendent to have authority over the schools. The board determines the number of school sites, but not who is in the school sites; and if the board does not address what employees are at a school site, he believes it would not address volunteers. Mrs. Bell stated her concern relative to safety; and asked if a non-employee is on the campus everyday and something happens to that non employee, is Caddo responsible? Mr. Abrams noted that if an employee is injured on the job, they are limited to workers’ compensation and a non employee is limited to tort damages, which could result in liability to the District. If the person injured is not an employee, they must prove something is wrong for the District to be liable and the District could also have the liability for a non-employee who might be doing employee things. Mrs. Bell stated if the board decides it will tell the principal where to locate the alumni office, she believes we will be opening up for all organizations, alumni, etc. to request specific space? Mr. Ramsey stated if a board member brings such a request in an agenda item and gets seven votes, the possibility exists.

Miss Green stated while she is uncomfortable with this being on the agenda, she doesn’t see a problem if an alumni is doing what they are supposed to in supporting the students.
Ms. Trammel stated she doesn’t understand the complete argument if we are providing space at Fair Park for the Alumni Association. Dr. Dawkins said while he has not seen the office, he understands it is a fully functional office; and Tommy Smith, director of maintenance, explained that the walls and doors were put into place for the office and Information Technology installed the phone and technology data needed.

Mrs. Crawley asked Mr. Hooks if the alumni office, in its new location, is able to perform the same functions or is the new location a hindrance to them performing all the things they have been providing Fair Park? Mr. Hooks responded it is a hindrance, and it now opens the school up for the outside public and he believes the new location is more of a danger than when it was in front of the building. Mrs. Crawley asked if the doors are being left unlocked in order to get to the alumni office, and Mr. Hooks said no and he would not have been able to get to the alumni office had Mrs. Bonds not been in the office to let him in. She also asked if the alumni office was informed about the relocation before or after the principal’s first day? Mr. Ramsey moved to the next item.

Resolution Requesting BESE to not Change the Counselor Allotment. Mrs. Crawley presented a proposed resolution opposing the changes to the staffing levels of school counselors presented to BESE by the State Department and that BESE will consider at its meeting on January 16th. She said that in light of recent shootings in schools and the treatment of mental illness, she believes it is important that we continue to recognize the unique and vital role performed by school counselors. She encouraged the board’s support.

Mr. Abrams asked for clarification as he did not see the documentation stating the change in the allotment. Mrs. Crawley added it is being proposed to change the allotment for counselors. Mr. Abrams stated that he would like to see the proposed BESE resolution. Mrs. Crawley explained that it is a change from the word “required” to “recommended”.

Mrs. Crawford asked if BESE has done anything to change the requirement to a recommendation? Mr. Abrams verified that is his question as he has not seen a copy of BESE’s resolution. Mrs. Crawley stated BESE is scheduled to vote on this January 16th. Mr. Abrams explained that currently a District can have as many counselors as it chooses to pay for; however, he understands that this proposed revision might be an attempt to get out of paying for any of the counselors. Mrs. Crawley added they are attempting to make funds more flexible for charters.

Ms. Priest confirmed Mrs. Crawley’s comments as correct and that when the Department of Education made a presentation, they shared this information with the board of placing more responsibility and burden on the local Districts. Mr. Ramsey encouraged board members to share these things with the Board Attorney for verification prior to the board voting on them.

Accommodations for Nursing Mothers. Mr. Abrams explained that basically the statute does not require that teachers are provided breaks for expressing milk for their infant children; however, the proposed policy is written in such a manner as to give all employees the same advantage with the provision for up to one year of reasonable break time(s) to accommodate an employee’s need to express milk. He highlighted specifics of the proposed policy directly from the statute, and noted that a place does not have to be tied up all the time, but only when an employee has the need for such a space. Dr. Dawkins stated if this is done for any group of employees, it will be done for all employees.

Mr. Rachal, for clarification, read the second paragraph and the possible interpretations of “the need”; and could it be possible that “the need” is for six times a day? Mr. Abrams responded it could; and if so, that could be a problem, however it is not for us to make the determination as to the number of times which is why the policy is explicit and includes a built-in regulation that if it is abused, it is possible the employee could lose time.
Mrs. Crawford asked who will monitor this and is this not tied to the State Law? Mr. Abrams responded that it applies to the Affordable Care Act and it does not apply to teachers, but it should be applied in the same way as for support personnel, and the language is as it is in the statute. Mrs. Crawford questioned if there was a need to adopt a policy, and Mr. Abrams confirmed the need for a policy because it is the law.

Ms. Trammel said it appears the board may be adding additional spaces and questioned how this will be monitored and is it a payroll issue when talking about time?

Mr. Abrams further clarified that the break issue was presented to the hourly employees. The “as needed” doesn’t mean that the area must be locked down all the time, but only when there is a need to provide the space to a nursing mother.

Ms. Priest said she remembers the board requesting and the superintendent providing a survey of employees regarding the nursing mothers. Dr. Robinson explained staff did not conduct a survey; however, at the parishwide principals meeting on December 6th, staff polled the administrators and provided the board a copy of the information shared with administrators.

Mrs. Crawley added that some time the principals don’t know about it until they unlock the door and stumble upon a teacher, which creates embarrassing situations; and she did receive an email which is why she brings this forth.

**Out of State Travel.** Information on the out of state travel requests was presented to the board for approval.

**Renewal of Special Taxes.** Superintendent Dawkins announced that the 10-year renewal of special taxes is up this year for consideration by the public; and if not renewed, it could mean serious implications for the District.

Jim Lee, Chief Financial Officer, explained that these property tax millages are up for renewal every 10 years. He explained that two will expire in 2013 and one will expire in 2014; and in an effort to save on the cost of an additional election, staff recommends bringing 2014 into this renewal. Mr. Lee said these are strictly renewals, will not be an increase in taxes and will be at the rates just reassessed by the tax assessor. He also reported there are two millages, one representing approximately $44 million to the General Fund; which if not passed will greatly impact the General Fund; and the second millage represents approximately $10 million which is approximately one-half of the capital projects revenue used to maintain the schools, custodial staff and support (not the salary and benefit millage). For the record, Mr. Lee said staff is hoping to spread the information to taxpayers and local organizations that the District has been fiscally responsible, coming closer to a balanced budget last year and working in that direction this year, and reducing the debt service millage from 7.6 mils to 6.0 mils. He again reminded everyone that this is not a new tax, but a renewal of an existing tax.

Dr. Dawkins also reported on the team’s effort to put together information for meeting with groups throughout the city to explain these renewals, because it is $50+ million at stake.

Mr. Rachal requested a complete list of all the millages and the renewal dates; and he reminded everyone that in the past eight years, during the roll forward option, Caddo has never rolled taxes forward, which means we have decreased the millages and the total tax dollars remained the same. He stated he believes it is important for the public to know that the current sitting board has never voted to roll forward or increase taxes, and this an attempt to maintain status quo.

Mr. Riall inquired as to the date of the election and Mr. Lee responded it will be on May 4th.
Mr. Ramsey stated he requested the Superintendent to provide data and specific information that board members can share with constituents.

Request for Consent to Assignment of Lease(s) TX/LA EXCO Operating Co., LP to EXCO/HGI JV Assets, LLC. Mr. Woolfolk explained this is a typical request when a lease is being transferred from one entity to another, which requires board approval.

Request for Long-term Use of One or All of the Off-line Schools (Hillsdale, West Shreveport, Central) by the Shreveport Training Academy. Mr. Woolfolk explained it is a classroom training along with practice drills on what they do in schools, and they have done this before.

Superintendent’s Contract. Mr. Abrams explained that a copy of the portions of the Superintendent’s Contract needing revision is at board members’ stations and these changes coincide with the recent adopted state legislation that requires if a District has schools labeled “C”, “D” or “F”, the superintendent must have performance targets in the contract that mirror the statute. He further explained that one judge did determine a portion unconstitutional; however, at this time, the board needs to move forward and be in compliance with Act 1 requirements. He highlighted the proposed revisions in the Performance Targets and Bonus Section (Section 6) and attached as Exhibit A, as well as Paragraph 16 which addresses the Superintendent’s Evaluation so the evaluation coincides with the changes in Paragraph 6.

Mr. Abrams also explained that the extension to Dr. Dawkins’ original contract stipulates that by February 11th the board will provide the superintendent with notice of whether or not it will extend his contract and the conditions on which the contract will be renewed (length of contract extension, additional performance objectives, etc.) and then the superintendent will have 30 days to accept. He further explained if the board does not provide the superintendent notice that the board intends to renew the contract, then in accordance with the superintendent’s contract, the contract will extend for one year after the termination date and at the end of that year, the contract will end. Mr. Abrams said it doesn’t mean that if during this process an agreement is not reached that the board can’t go back at a later date.

Mr. Riall asked if he understands the board will have the finished new contract before voting, and Mr. Abrams said that is not correct. If the board approves extending the contract, and lists the stipulations, the superintendent then has 30 days to accept or present something different, then the board will continue to vote until there is a final agreement. Mr. Riall asked if the board will know the basic terms when voting and Mr. Abrams responded yes. He further stated if the superintendent agrees with what the board presents at the next meeting, he recommends the board pass a motion as to what it wants, because that will mean the board has complied with the contract requirements and the statute. Mr. Riall asked if it takes seven votes of the board to extend the superintendent’s contract and the vote is 6-6? Mr. Abrams said it depends on the motion. If the motion is to extend the superintendent’s contract and the vote is 6-6, then the board has virtually done nothing; it does not have a notice to give to the superintendent before February 11th, and the contract automatically would be extended by one year. Mr. Riall asked about any guidelines in place, i.e. executive committee members working with the superintendent and board attorney on the contract. Mr. Ramsey stated that typically the board attorney and the executive committee (or a portion of) works with the superintendent. Mr. Abrams explained that the board approved the superintendent’s goals last month and the contract states that the evaluation shall be reasonably related to the job description and performance targets/goals and objectives. The additional pieces are already in the original contract, but only moved to a new location in the contract. Mr. Riall asked if the board, in negotiating the contract, has the privilege to submit a modified/revised contract, and Mr. Abrams said it does. Mr. Riall asked if the differences will be worked out and provided prior to the meeting next week, because
he only wants to make certain that the powers that be work together with the board attorney and
the superintendent so something is available before the next meeting. Mr. Ramsey asked if he
understands that at this time the board is looking at the length of the extension of the contract?
Mr. Abrams stated he believes the board needs to state clearly that it wants to renew and the
length of time to extend the contract, and he believes the board should consider specific special
education goals in the goals and objectives (those established through the CAP) as well as
graduation rates.

Mr. Rachal asked if he understands correctly that we are agreeing to make an offer, but we will
not have the details (how long, etc.)? Mr. Abrams said you will have the details before the next
meeting. Mr. Rachal asked Dr. Dawkins if he will be requesting any additions/deletions to the
existing contract? Dr. Dawkins responded that he only just received the information presented
and he will review his contract versus Act 1 and the provisions there. Mr. Rachal asked if,
outside the provisions of Act 1, there are any additional provisions he as the superintendent is
expecting. Dr. Dawkins said he will not respond to that at this point, but he will review
everything. Mr. Rachal asked that the board have this by Friday and not receive it at 2:00 on
Tuesday. Mr. Ramsey responded he believes the superintendent needs the time to review it; and
if he needs until Monday, he is o.k. with that. Dr. Dawkins stated he has some concerns relative
to what the state has included; and he will review and make his decisions, which will be very
clear. Mr. Rachal also asked if all the information will be available by Friday. Mr. Ramsey said
he is available and Mr. Abrams stated that at this time the superintendent needs to share with him
what he wishes to see in his contract; and at that time, he will present it to the Board President.
Mr. Rachal also asked for a copy of the existing contract.

Mrs. Armstrong asked if she understood correctly that if board members have specific items they
desire to see in the contract, they should contact Mr. Abrams and Mr. Abrams responded that
board members should contact the Board President. He also stated that he and the Board
President will meet with the superintendent and part of the negotiations will be if the
superintendent agrees with something being in the contract or if it is appropriate that something
is included in the contract.

Mr. Hooks asked for clarification and doesn’t a 6-6 vote to renew the superintendent’s contract
mean the motion dies on the floor? Mr. Abrams explained that the superintendent’s contract
states he has to have notice as to whether or not the board intends to renew or extend the
contract. A 6-6 vote is no action by the board, and doesn’t tell the superintendent yes or no. Mr.
Hooks asked if that is only for this motion or any motion, because he remembers his motions
dying on the floor because of a tie vote. Mr. Abrams said it doesn’t die, but it does not pass. He
further explained that the statute states a majority vote of the board will extend the contract,
unless you have a majority vote of the board not to extend the contract, thus a 6-6 vote is the
same as doing nothing.

Ms. Priest asked if this is something new, because she does not remember in previous contract
renewals that board members were to notify the Board President of those items they wished
added to the superintendent’s contract? Mr. Abrams stated that the last renewal was only an
extension; and with this renewal, the State Statute requires that performance objectives be
included in the superintendent’s contract (listed in Exhibit A).

Mr. Riall asked Mr. Abrams if a motion is made to renew the superintendent’s contract and the
vote is 7 for and 5 against, it is renewed; and if the vote is 7 against and 5 for, it is not. Mr.
Abrams said that is correct. Mr. Riall asked what will happen to the contract if the vote is 6-6?
Mr. Abrams stated that the board has not given the superintendent any direction on what it
intends to do, and his contract states that a failure to provide notice of an extension by the
deadline (February 11), the contract will automatically extend for one year past the expiration
date and then it will expire.
Mr. Pierson stated he believes the board is hung up on a 6-6 vote, because whether the motion is to renew or not to renew, if the vote is 6-6, the motion still fails and the board has done nothing. Mr. Rachal said he is still not clear, because a 6-6 vote on any other item means the motion fails, and Mr. Abrams said that is correct because it means whatever was being proposed, the board did not approve. Mr. Rachal said he doesn’t understand, because in the past if a board member made a motion and the vote was 6-6, it was noted that the motion failed. Mr. Ramsey added that on a 6-6 vote, the motion does not go forward as presented and this item is the same; however, it’s the verbiage provided in the superintendent’s contract and State Statute. Mr. Abrams further explained that State Statute says the board has to approve the renewal of a contract with the approval of the majority of the board, unless the board by a majority of the board votes not to extend the contract, and the superintendent’s contract states if you do not advise the superintendent if the board intends to renew or not (which according to statute takes a majority vote either way), then his contract renews for one year.

Miss Green asked Mr. Abrams to clarify if this is ours or the State’s; and Mr. Abrams said it is ours. Miss Green asked if the board desires to change the contract, re: superintendent’s bonus, for example, can the board do so, and Mr. Abrams said the board can. Miss Green asked not knowing what the board will do, what happens if it is not renewed? Mr. Abrams responded if the board makes a motion to extend the contract based upon the terms approved by the board, it will be an offer to the superintendent. Within this motion, seven board members could say they want the performance bonus removed from the contract, then that is eliminated from the contract. If everything remaining in the contract is approved by the board, then the proposed contract, with the elimination of the bonus, is presented to the superintendent. If the superintendent doesn’t agree, he has 30 days to respond back to the board whether or not he agrees with the removal of the bonus; and if the board does not agree, there is no contract. At that point what happens is there was action by the board and notice provided to the superintendent to extend the contract based on the conditions; but if the superintendent does not accept it, the contract will expire on August 11th of this year (because the board complied with the contract and did give notice).

Mrs. Crawford asked why it cannot be done in two parts – the State-required changes and then a separate item for the renewal and possible revisions. Mr. Abrams said there is a deadline of February 11th for the board to give the superintendent notice along with the terms and conditions.

Superintendent Dawkins stated that he will review the information from the State and present a contract extension that hopefully is reflective of the work and the needs of the District.

ADDITIONS

Mrs. Crawford requested an item under Superintendent’s Report addressing late school buses.

Mr. Ramsey proposed Items 8.03-8.05, 8.07-8.08 and 13.01 as the consent agenda. Mr. Pierson moved, seconded by Mrs. Crawford, to approve the proposed agenda and consent agenda for the January 15, 2013 CPSB meeting as presented. Vote on the motion carried.

POLL AUDIENCE

Jon Glover, speaking to the board as a constituent, grandparent and concerned citizen, stated that deceit, deception, impropriety, and integrity are truths that define one’s character, with character being the action taken to carry out the values, ethics and morals one believes in, and being consistent in what one says, what one will do and what one actually does and putting them into practice. She further stated that aside from the obvious, the same character defines, builds or breaks your reputation and asked the board if it can see where the line of communication is going? Ms. Glover said that each board member has been granted an authority to implement
good, sound decisions on recommendations brought before the board by the superintendent. She added that when each one on the board conclusively supports recommendations, they should be ready to answer any questions that may arise from such suggestions; and it is incumbent upon each board member to assess any issue or recommendation brought forth in an effort to offset such questions being proposed. If the board cannot be looked to for protecting our interests, she asked where should one go for help? She said they will oppose any decision that brings cause for this action and implored the board when it offers its support, that every aspect is addressed regarding an issue or concern to avoid any impropriety that may arise; because if trust, integrity, deceitful practices, deceptive tactics, and impropriety presents a problem. She ended her comments with a quote from William Penn that “what is wrong is wrong even if everyone is doing it. Right is still right even if no one else is doing it”.

Tafta Rogers, teacher, expressed her appreciation to the board for the proposed policy to accommodate nursing mothers, allowing teachers to return to the classroom rather than taking extended leaves.

Jackie Lansdale, president of Red River United, expressed the organization’s support of the proposed bond renewals in encouraging the public to support public education for all boys and girls by supporting these renewals. She also stated that part of that support is paying teachers and school employees appropriately and reminded the board there has not been a pay increase in the past five years. Mrs. Lansdale also asked the board to recognize the importance of where real reform needs to be and that is providing a preK program in every school in Caddo Parish with extended day and year for those who need it. She added that she will do everything possible to get the public’s support for public schools in Caddo Parish.

**Adjournment.** Mrs. Crawford moved, seconded by Mr. Pierson, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 8:10 p.m.
January 15, 2013

The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, January 15, 2013 with President Larry Ramsey presiding and board members Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong, and Dottie Bell present being a quorum. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mrs. Crawley led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE DECEMBER 18, 2012 CPSB MEETING

Mr. Rachal moved, seconded by Mr. Hooks, to approve the minutes of the December 18, 2012 CPSB meeting as submitted. Vote on the motion carried unanimously.

RECOGNITIONS

Superintendent Dawkins announced that recognitions scheduled for tonight have been moved to the first meeting in February because of the inclement weather.

President Ramsey made a presentation to Steve Riall in appreciation for his service and leadership to the Board as President during 2012. Mr. Riall thanked the Board and expressed his appreciation to the Board for its confidence in him to serve in this position.

VISITORS

Earnestine Coleman, President of the Fair Park PTSA, expressed concern that Fair Park has been labeled an academically unacceptable school and asked what has the Board done to address this problem and bring it back. She noted the many things the Alumni Association has done; and the Board continues to ask for help from the community, but when the community steps up, the Board rejects what it brings or has to offer. Mrs. Coleman reminded the Board members that each ran for the office in which they hold in order to bring about a positive change and to help the students; and if the Board does not help all of the children, what does this tell the communities? She encouraged the Board to look at Fair Park and its Alumni, along with the list of all that the Alumni has done, and know the help is there, but the Board has rejected it.

Kevin Fortson addressed the Board on behalf of the Fair Park Alumni and Mrs. Cathy Bonds. He said he is angry, appalled, frustrated and disgusted at the wasted time by the Board and Superintendent and the efforts to undermine a fair and equivalent education of Fair Park students. He stated his disagreement with comments made by Board members that Mrs. Bonds’ only reason for being at Fair Park is to save the historical significance of the Fair Park building, because this is not the truth. He noted her work as a volunteer for the last six years at Fair Park investing and building relationships with students, parents, teachers and alumni. Mr. Fortson said he believes time, money and manpower have been wasted, and the constituents are tired of the current Board’s wasteful management and spending. He said he believes it is a personal attack on Mrs. Bonds and challenged the Board to not do anything against this humble servant, but to do the right thing and move the Fair Park Alumni office back to its original location in the main corridor.

Karen Rothell stated she believes the heart of every campus is the professional school counselor; and in light of the proposed change to Bulletin 741 by Superintendent John White, they are anxious about how these changes will affect students across the state. With school counselors being an integral part of the educational team, they were extremely excited when the State of Louisiana invested money, resources and time in revamping the Louisiana School Counseling
model and those revisions are currently underway to design programs that address the academic development, personal social development, and career development of every student. With classroom teachers being charged to develop children academically and principals charged with the management of the school, it is the professional school counselor that addresses the whole child; and without them in the schools, students will suffer. Ms. Rothell also noted that in light of the recent events in Connecticut, the timing is critical for counselors to be in the schools to help students and the proposed change to Bulletin 741 is a mistake and an injustice to the children in Louisiana. She expressed appreciation to the Board for recognizing this and taking a strong stand against these proposed changes and support for all children.

Frederic Washington asked the Board members if they had ever watched a Caddo Parish School Board meeting; and if not, he encouraged them to do so. He said he brings this to their attention because he believes all who see it, see adults acting as 6th graders in a Social Studies classroom on a day with a substitute teacher. He said there is more time spent discussing “dead” subjects than there is discussing the children and faculty that are suffering. Mr. Washington encouraged Board members to either vote for it or against it and move forward. He likened the Caddo Board to the Orleans Parish School Board pre-Katrina and encouraged the Board to become more children oriented.

Jackie Lansdale, president of Red River United, stated the appreciation for the Board’s approval of the additional $100 M&S money and for the resolution of support to BESE regarding the school counselors and maintaining a staffing ratio for them in Caddo schools. Mrs. Lansdale also expressed appreciation for the approval of the lactation policy and that she believes this is indicative of where the District stands in support of new mothers and employees returning to the classroom. She also encouraged the Board to further look at adjusting the current maternity leave policy (GCBD and GDBD) because it currently is not a part of the extended sick leave policy and adjustments might encourage new mothers to return to the classroom. Mrs. Lansdale encouraged the Board to continue to work together as this indicates its support of the classroom which speaks volumes when addressing the public for their continued support of public education. In looking at the Board’s consideration of the Superintendent’s contract, Mrs. Lansdale stated that while they do not have a position in this regard, they do support a contract.

Chester Kelly addressed the Board on the relocation of the Fair Park Alumni Office, seeking an Attorney General’s opinion and the Superintendent’s Contract. Mr. Kelly stated it disturbs him that some feel the need to seek an Attorney General’s opinion about ethics, because last month he addressed legislation that supposedly tied the Board’s hands relative to what it can and cannot do to provide input to the Superintendent. He said he believes there is a misunderstanding as to the Board’s power, because he believes he along with the others in the room are the voters and should be the most powerful and should have a way to reach the daily operations of the school system, which is through the elected officials. Mr. Kelly said he does not see the need to seek an Attorney General’s opinion regarding ethics, because he doesn’t believe the AG will believe he needs to rule on such a matter. Regarding the Fair Park Alumni office, Mr. Kelly stated he believes the resolution to this matter is somewhat ridiculous and the position should be that the Board strongly encourages the development of alumni associations because of the positive impact they have on the schools in general. He also shared with the Board many awards he has received; however, they do not hold a candle to what Mrs. Bonds has done for the Fair Park Alumni Association, and the Board should recognize her for six years of dedication to the children at Fair Park High School. He also stated that while he has nothing personal against the Superintendent, he has seen nothing during his term that would cause him to think that his contract should be renewed and suggested that the Board not renew his contract.

Joe Huffman expressed his support of the Fair Park Alumni Association and the value of an alumni association on a school campus. He said he grew up in Queensborough, he and his family are Fair Park people, and he has always been a Fair Park Indian but clearly he believes
this issue is more than about an alumni association or Mrs. Bonds, but it is about a continuation of the efforts to remove Fair Park as a high school, but he assured everyone that no matter where the alumni association is located, it is not going away. Its members are citizens, voters, and they believe in the children of Queensborough and Mooretown.

Glen Davenport said he is hesitant to appear before the Board because he fears retaliation and intimidation. He noted that he is the employee who has been harassed constantly about his reported activities that are in violation of the Caddo Parish School Board’s weapons policy. Mr. Rachal asked that staff follow up on this.

Jon Glover, speaking in her capacity as a constituent, asked the Board if it is their brother’s keeper? She noted that the Superintendent has brought to the Board recommendations that would prompt such a question being asked, and she asked did the Board consider the effect when adopting the compensation plan which decreased salaries; did Vision 2020 affect anyone positively because AU schools were joined with other AU schools; did Ombudsman offer the different perspective of managing students with discipline concerns? While it may be a little less expensive, Ms. Glover said this was due to the alteration in the hours and not in how parents would be affected. She said typically such a question would not be needed if there were no concerns or issues; but she has seen too often where the Superintendent has brought recommendations, some even questionable, and the Board’s support was aligned thereto. She asked if the Board was seeking to be its brother’s keeper. If so, she asked what does this exemplify? She said differences must be put aside in an effort to put the children first.

Gladys Starks reiterated everyone’s comments on the Fair Park Alumni issue, and she added if one gets in the way of what God wants, He will knock them out of the way. Mrs. Starks said Mrs. Bonds has set the tone for six years at Fair Park and she believes this has more to do than just a room, but there are those who are intimidating and not speaking to her in the appropriate tone. She believe the Fair Park Alumni Office should be relocated to its original office and that the Board should not be involved in this. Mrs. Starks noted that Mrs. Bonds loves the students at Fair Park and that is what is needed at their school.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Dawkins highlighted items for the Board’s consideration and President Ramsey announced that items 6.02, 7.01, 8.02-8.06, 8.07-8.08 and 13.01. Mr. Rachal moved, seconded by Mrs. Crawley, to approve the proposed agenda and consent agenda as presented. Vote on the motion carried unanimously and the following is a summary of the Board’s action on the consent agenda items.

Item No. 6

6.02 Personnel Transactions Reports. The board approved the personnel transactions reports for the period of November 16, 2012 – December 20, 2012 as recommended by staff and submitted in the mailout.

Item No. 7

7.01 Sale of Laurel Street Property. The board approved acceptance of the bid of Galilee Baptist Church, totaling $306,000, as recommended by staff and submitted in the mailout.

Item No. 8
8.02 **Resolution Requesting BESE to not Change the Counselor Allotment.** The board approved the proposed resolution requesting that BESE not change the counselor allotment as presented at Board member stations.

8.03 **Accommodation for Nursing Mothers.** The board approved the proposed policy for providing accommodation for nursing mothers as submitted in the mailout.

8.04 **Out of State Travel.** The board moved to approve requests for out of state travel funded through the General Fund as submitted in the mailout.

8.05 **Renewal of Special Taxes.** The board approved the following resolution ordering and calling for a special election to be held in the Parishwide School District of Caddo Parish, Louisiana, to authorize the renewal of special taxes therein; making application to the State Bond Commission in connection therewith; and providing for other matters in connection therewith:

BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of the Parishwide School District of Caddo Parish, Louisiana (the "District"), that:

SECTION 1. **Election Call.** Subject to the approval of the State Bond Commission, and under the authority conferred by Article VI, Sections 30 and 32 and Article VIII, Section 13(C) of the Constitution of the State of Louisiana of 1974, the applicable provisions of Chapter 5 and Chapter 6-A of the Louisiana Election Code, and other constitutional and statutory authority, a special election is hereby called and ordered to be held in the District on SATURDAY, MAY 4, 2013, between the hours of seven o'clock (7:00) a.m., and eight o'clock (8:00) p.m., in accordance with the provisions of La. R.S. 18:541, and at the said election there shall be submitted to all registered voters qualified and entitled to vote at the said election under the Constitution and laws of this State and the Constitution of the United States, the following propositions, to-wit:

PROPOSITION NO. 1
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy a 17.11 mills tax on all the property subject to taxation in the District (estimated $27,842,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2014 and ending with the year 2023, for the purpose of providing funds for operation, maintenance and additional support of public elementary and secondary schools in Caddo Parish, Louisiana?

PROPOSITION NO. 2
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy a 6.86 mills tax on all the property subject to taxation in the District (estimated $11,163,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2014 and ending with the year 2023, for the purpose of acquiring sites for and the construction and improvement of public school buildings and other public school facilities in Caddo Parish, Louisiana?
PROPOSITION NO. 3
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy an 11.26 mills tax on all the property subject to taxation in the District (an estimated $18,323,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2015 and ending with the year 2024, for the purpose of providing additional support to public elementary and secondary schools in Caddo Parish, including the acquisition, replacement and maintenance of microcomputers, buses, air conditioners, and other equipment, and for the operation and maintenance of the public school system of Caddo Parish, Louisiana?

SECTION 2. Publication of Notice of Election. A Notice of Special Election shall be published in The Times, a newspaper of general circulation within the District, published in Shreveport, Louisiana, and being the official journal of the District, once a week for four consecutive weeks, with the first publication to be made not less than forty-five (45) days nor more than ninety (90) days prior to the date of the election, which Notice shall be substantially in the form attached hereto as "Exhibit A" and incorporated herein by reference the same as if it were set forth herein in full.

SECTION 3. Canvass. This Governing Authority shall meet at its regular meeting place, the Board Room, 1961 Midway Avenue, Shreveport, Louisiana, on TUESDAY, JUNE 18, 2013, at FOUR-THIRTY O'CLOCK (4:30) P.M., and shall then and there in open and public session proceed to examine and canvass the returns and declare the results of the said special election.

SECTION 4. Polling Places. The polling places set forth in the aforesaid Notice of Special Election are hereby designated as the polling places at which to hold the said election, and the Commissioners-in-Charge and Commissioners, respectively, will be the same persons as those designated in accordance with law.

SECTION 5. Election Commissioners; Voting Machines. The officers designated to serve as Commissioners-in-Charge and Commissioners pursuant to Section 4 hereof, or such substitutes therefor as may be selected and designated in accordance with La. R.S. 18:1287, shall hold the said special election as herein provided, and shall make due returns of said election for the meeting of the Governing Authority to be held on Tuesday, June 18, 2013, as provided in Section 3 hereof. All registered voters in the District will be entitled to vote at the special election, and voting machines shall be used.

SECTION 6. Authorization of Officers. The Secretary of the Governing Authority is hereby empowered, authorized and directed to arrange for and to furnish to said election officers in ample time for the holding of said election, the necessary equipment, forms and other paraphernalia essential to the proper holding of said election and the President and/or Secretary of the Governing Authority are further authorized, empowered and directed to take any and all further action required by State and/or Federal law to arrange for the election, including but not limited to, appropriate submission to the Federal Department of Justice under Section 5 of the Federal Voting Rights Act of 1965, as amended.

SECTION 7. Furnishing Election Call to Election Officials. Certified copies of this resolution shall be forwarded to the Secretary of State, the Clerk of Court and Ex-Officio Parish Custodian of Voting Machines of Caddo Parish and the Registrar of Voters of Caddo Parish, as
notification of the special election, in order that each may prepare for said election and perform their respective functions as required by law.

SECTION 8. **Application to State Bond Commission.** Application is made to the State Bond Commission for consent and authority to hold the special election as herein provided, and in the event said election carries for further consent and authority to continue to levy and collect the special taxes provided for therein. A certified copy of this resolution shall be forwarded to the State Bond Commission on behalf of this Governing Authority, together with a letter requesting the prompt consideration and approval of this application.

This resolution having been submitted to a vote, the vote thereon was as follows:

And the resolution was declared adopted on this, the 15th day of January, 2013.

Secretary   President

EXHIBIT "A"

**NOTICE OF SPECIAL ELECTION**

Pursuant to the provisions of a resolution adopted by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of the Parishwide School District of Caddo Parish, Louisiana (the "District"), on January 15, 2013, NOTICE IS HEREBY GIVEN that a special election will be held within the District on **SATURDAY, MAY 4, 2013**, and that at the said election there will be submitted to all registered voters in the District qualified and entitled to vote at the said election under the Constitution and Laws of the State of Louisiana and the Constitution of the United States, the following propositions, to-wit:

**PROPOSITION NO. 1**

**(MILLAGE RENEWAL)**

Shall the Parishwide School District of Caddo Parish, Louisiana, levy a 17.11 mills tax on all the property subject to taxation in the District (an estimated $27,842,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2014 and ending with the year 2023, for the purpose of providing funds for operation, maintenance and additional
support of public elementary and secondary schools in Caddo Parish, Louisiana?

PROPOSITION NO. 2
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy a 6.86 mills tax on all the property subject to taxation in the District (an estimated $11,163,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2014 and ending with the year 2023, for the purpose of acquiring sites for and the construction and improvement of public school buildings and other public school facilities in Caddo Parish, Louisiana?

PROPOSITION NO. 3
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy an 11.26 mills tax on all the property subject to taxation in the District (an estimated $18,323,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2015 and ending with the year 2024, for the purpose of providing additional support to public elementary and secondary schools in Caddo Parish, including the acquisition, replacement and maintenance of microcomputers, buses, air conditioners, and other equipment, and for the operation and maintenance of the public school system of Caddo Parish, Louisiana?

The said special election will be held at the following polling places situated within the District, which polls will open at seven o'clock (7:00) a.m., and close at eight o'clock (8:00) p.m., in accordance with the provisions of La. R.S. 18:541, to-wit:

The polling places set forth above are hereby designated as the polling places at which to hold the said election, and the Commissioners-in-Charge and Commissioners, respectively, shall be those persons designated according to law.

The said special election will be held in accordance with the applicable provisions of Chapter 5 and Chapter 6-A of Title 18 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and the officers appointed to hold the said election, as provided in this Notice of Special Election, or such substitutes therefor as may be selected and designated in accordance with La. R.S. 18:1287, will make due returns thereof to said Governing Authority, and NOTICE IS HEREBY FURTHER GIVEN that the Governing Authority will meet at its regular meeting place, the Board Room, 1961 Midway Avenue, Shreveport, Louisiana, on TUESDAY, JUNE 18, 2013, at FOUR-THIRTY O’CLOCK (4:30) P.M., and shall then and there in open and public session proceed to examine and canvass the returns and declare the results of the said special election. All registered voters of the District are entitled to vote at said special election and voting machines will be used.

THUS DONE AND SIGNED at Shreveport, Louisiana, on this, the 15th day of January, 2013.

ATTEST: 

______________________________
Secretary

______________________________
President

8.07 Request for Consent to Assignment of Lease(s) TX/LA EXCO Operating Co., LP to EXCO/GHI JV Assets, LLC. The board approved the request for consent to the assignment of leases with TX/LA EXCO Operating Co., LP to EXCO/GHI JV Assets, LLC as recommended by staff and submitted in the mailout.

8.08 Request for Long-term Use of One or All of the Off-line Schools (Hillsdale, West Shreveport, Central) by the Shreveport Training Academy. The board approved the request for long-term use of one or all of the off-line schools (Hillsdale, West Shreveport, Central) by the Shreveport Training Academy as recommended by staff and submitted in the mailout.
Executive Session, Student Readmission Appeal. The board approved the student readmission appeal for J.K. The parents are in agreement with staff’s recommendation.

PERSONNEL RECOMMENDATIONS

President Ramsey explained that speakers’ comments can be general, i.e. filling the position or not filling the position, procedures, etc., but nothing relating to the specific individual.

Jon Glover stated that, in an effort to avoid any acts of impropriety, it behooves each Board member to address the recommendation offered by the Superintendent for the position of Supervisor of Buildings and Grounds. She noted that the individual has some 20 years. President Ramsey reminded the speaker that there are to be no comments related to the individual at all. Ms. Glover stated if she does not call a name, no one knows who she is speaking of. President Ramsey stated it is a personnel issue and if comments are specific to an employee’s employment, that employee needs to be given notice. He added it is acceptable for general comments relative to filling the position or against filling the position; but comments relative to any detail about an employee are not acceptable. Ms. Glover asked for verification as to what she has the right to say and what she does not have the right to say. Mr. Abrams explained that comments cannot be made that in any way discuss the competence of an employee or whether or not an individual is appropriate for the job, because this employee is listed and there are no additional recommendations. Ms. Glover continued her comments stating there are issues recognized that would prohibit this position being filled; because when a promotion of one that offers divisiveness….. President Ramsey again reminded the speaker that the comments are related to an individual. Ms. Glover stated she believes her comments are being critiqued before she can even complete them and asked if her statement could be reviewed before she continued? Mr. Ramsey stated that it is the Board’s policy to not get into any argument with or reply to any speaker, and Ms. Glover responded that she is not arguing. Ms. Glover continued that possibly no one wants to be reminded of attitudes and behaviors that could permeate emphasis in a negative way, yet that is what we are faced with. She added they are not willing to relive such attitudes and behaviors and implored each Board member to encourage the Superintendent to set aside this recommendation. Times are tedious and emotions are running rampant and those who do not mirror unity should not be in the forefront of any organization. If this happens, she questions what this says about the Board; and she closed with the following William Penn statement: “What is wrong is wrong even if everyone is doing it. Right is still right even if no one is doing it.”

Mr. Rachal moved, seconded by Mr. Riall, to approve the recommendation as submitted by administration. Vote on the motion failed with Board members Riall and Rachal supporting the motion and Board members Green, Pierson, Crawley, Hooks, Trammel, Priest, Crawford, Ramsey, Armstrong and Bell opposed.

RELOCATION OF FAIR PARK ALUMNI OFFICE

Mr. Hooks moved, seconded by Charlotte Crawley, that the Fair Park Alumni Office be moved back to its original location; and in the event the original location is not a possibility, that a comparable, accessible office will be provided.

Mr. Hooks stated that his heart is heavy because he is reminded of his mother who served as the PTA president and when she passed in 2001, the late Albert Moody shared with him at her funeral how she saved him many times with all the fund raisers she headed up. He stressed the importance of the alumni office being accessible and available to students, teachers, principals, parents and members of the alumni. He noted the list of projects that the Fair Park Alumni has
done for the students and school, and the Alumni Director was responsible for bringing programs and textbooks to the school at no cost to the school. Mr. Ramsey reminded Mr. Hooks that the motion is relative to the location of the office and asked him to get to this as quickly as possible. Mr. Hooks said with accessibility comes opportunity for the Alumni Director to get to know students and being able to provide recommendations for students who might wish to further their education and/or get employment. By developing relationships with students, the Alumni has been successful in encouraging students’ involvement in programs such as the Honor Society and even provide these students with what they need to be a part of this program. Mr. Hooks noted that many Fair Park graduates enjoy visiting Fair Park and when doing so, visiting the Alumni office, but the elderly find it difficult to get to an office that is not easily accessible. He closed his comments by saying these are only a few of the needs for an accessible location and noted that the previous location (Room 103) is not a part of the administrative offices. When former graduates are ready and willing to invest in the lives of students at Fair Park, he can’t think of anything better; and asked why would we push the Alumni Association to the back of the building and not support this group. He added that Superintendent Dawkins promised that Room 103 would remain the Alumni Office, and he believes a man’s word should be his bond.

Mrs. Crawley stated that she cannot compete with all those present today who shared their feelings relative to this issue and stated she believes supporting this is the right thing to do.

Mr. Rachal stated his support of the Alumni and he believes this is a no-nonsense decision. He added he has felt like we have been kicking the Fair Park Alumni Association to the curb and he hopes this will resolve this and turn things around.

Mrs. Crawford stated she is a tried and true public school advocate and spent 25 years volunteering in Caddo Parish schools. She further added she believes a lot would have been lost had this equity not been placed in these schools and students; even though everyone knew their work was at the pleasure of the school system and the principal. She said it behooved them to resolve any conflict, so she doesn’t understand why this issue has not been resolved since it is a relationship that should be continually cultivated and propagated. She also noted the things that the alumni steps up and does for a school at the pleasure of the principal. She also said while she does not like voting on this, Mrs. Crawford said it has been placed in the Board’s lap and she encouraged the Board to vote and move forward. Accessibility of alumni associations is key, but she hopes that after tonight the principal and alumni associations will come together and do the right thing.

Mrs. Armstrong said the children will be losers, because it has been the children that have been placed at the forefront of what the Alumni Association has done over the last several years. She said she believes every effort has been made to meet the needs of the students, and students must have accessibility to the executive director of the Alumni Association in order to make their needs known. She added accessibility is the key in this decision and encouraged the Board to support the motion on the floor.

Mr. Riall said accessibility of the Alumni Office is possibly one of the keys to keeping things going; and since he began serving on the Board, he believes a lack of community support has been seen. He said he believes it to be a no nonsense decision when deciding on placing the Alumni Association office, especially when looking at all the Alumni has done for Fair Park.

Ms. Priest noted an earlier statement that school board members should stay out of this. She said Act 1, HB 974, was enacted and became effective on July 1, 2012 and LSA-RS 17:81 was revised to change the duties of school board members and clarify that the Board is to make policy in the interest of all students under the board’s jurisdiction with the policies prioritizing student achievement, financial efficiency and workforce development. Ms. Priest said she believes the motion on the floor is asking the CPSB to vote on and take a position on an item that
does not fall within the duties and responsibilities of the Board. Mr. Hooks called for a point of order in that he believes the speaker is attacking the motion. President Ramsey ruled that her comments are appropriate in talking to the motion, so the point of order is overruled. Ms. Priest also noted that the statute states that each principal shall be appointed and serve under the direction of the local superintendent and the principal shall have the administrative responsibilities for the direction, activities and administration of the affairs of his or her school, so this item is not one the Board should vote on.

Mr. Hooks asked for a point of information on the explanation that all discussion and arguments on the motion shall be limited to the merits of the motion as he does not believe Ms. Priest was speaking to the merits of the motion. President Ramsey ruled that she did speak to the merits of the motion.

Ms. Trammel asked for clarification that the Board is being asked to vote on an accessible location, and if the current office was provided at a cost to the district? Superintendent Dawkins responded that the cost to renovate the office space was minimal. Ms. Trammel noted the great job done by the Alumni Association, and it has been provided space.

Mr. Rachal stated his disagreement with a fellow board member because he believes the Board has the right and responsibility when elected to represent the people in the community. President Ramsey reminded the Board there is to be no discussion back and forth between Board members. He added that the Board has the responsibility to reach out to the community and ask for help and accept it when it is voluntarily given. If we don’t, that is a real issue. President Ramsey reminded the Board that the discussion is away from the merits of the motion, and Mr. Rachal said he is stating his beliefs and why he is voting the way he is voting, which does have merit.

Mrs. Crawley stated that Act 1 was recently found unconstitutional (with the exception of tenure and evaluation of teachers), and she believes the Board needs to be pro-active and approve a policy concerning the location of said offices.

Mr. Pierson stated that his real issue in voting for this, and he applauds Mrs. Bonds and the Alumni’s work, is if a teacher on the third floor no longer wants to be on the third floor because of the inconvenience of walking three flights of stairs and asks to be relocated to the first floor, how will the Board respond to such a request? He said it is difficult for him to support the motion on the floor, when he cannot apply it to all situations.

Mrs. Bell moved, seconded by Mr. Pierson, to call for the question. Vote on the motion to end debate carried unanimously.

Vote on the motion carried with Board members Pierson, Trammel, Priest, Ramsey and Bell opposed and Board members Riall, Green, Crawley, Hooks, Crawford, Rachal and Armstrong supporting the motion.

Mr. Hooks asked for clarification on a deadline, and Mr. Ramsey stated there wasn’t a deadline in the motion.

**EMLOYEE TERMINATION APPEAL AND REQUEST FOR HEARING IN ACCORDANCE WITH CPSB POLICY GBCB-R**

Ms. Priest moved, seconded by Ms. Trammel, that the Board uphold the termination of the employee and deny retaliation claim.

Mrs. Crawley moved, seconded by Mr. Hooks that the Board hear oral arguments in accordance with CPSB Policy GBCB-R. Mrs. Crawley stated she is an advocate for due process and it is the
Board that has the final determination. She did state her concern that there was no transcript at Levels 2 and 3, and asked if there were hearings? Mr. Abrams explained there is no Level 2 and 3 in an employee termination appeal; and if an employee is terminated, the appeal goes to Level 4 directly from the termination. He added the same procedures are used for a Level 4 - a transcript is done, which it was, and presented to the Board for a decision. The motion tonight is asking for oral arguments by the attorneys. Mrs. Crawley stated that the recommendation states that the employee hearing it at Level 4 agreed with Levels 2 and 3; and whether or not the Board agrees with the employee, the employee does have the right to due process.

Mr. Pierson asked Mr. Abrams if oral arguments are between attorneys or will the employee be allowed to state their case? Mr. Abrams explained that the employee does not, and attorneys will make arguments in accordance with CPSB policy. The Board has the transcript which includes the employee’s side of the case and the attorney briefs, and no additional evidence can be submitted.

Vote on the substitute motion to hear oral arguments failed with Board members Green, Crawley and Hooks supporting the motion and Board members Riall, Pierson, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell opposed.

Vote on the original motion carried unanimously.

SUPERINTENDENT’S CONTRACT

Mrs. Bell moved, seconded by Ms. Priest, that the Superintendent’s employment contract be extended and approved with the following changes: (1) Article 1, that the term of the contract be extended two years until August 11, 2015; (2) that Article 3 be amended as provided in the mailout and on BoardDocs, (3) that Article 6 be amended as provided in the mailout and on BoardDocs, (4) that Article 15 be amended as provided in the mailout and on BoardDocs, and (5) that the performance objectives established in Exhibit A as provided in the mailout and on BoardDocs; and that any noted provision be amended to reflect the changes necessary. Mrs. Bell said the Board’s evaluation was satisfactory and she believes the Board needs to extend the Superintendent’s contract for the two years. Ms. Priest reiterated Mrs. Bell’s comments, and in looking at the accomplishments for 2012, she encouraged the Board to support the extension of the contract.

Vote on the motion to extend the contract failed with Board members Pierson, Trammel, Priest and Bell supporting the motion and Board members Riall, Green, Crawley, Hooks, Crawford, Rachal, Ramsey and Armstrong opposed.

APPROVAL TO SEEK OPINION FROM STATE ATTORNEY GENERAL AND ETHICS COMMISSION, RE: FAIR PARK ISSUE

Ms. Priest moved, seconded by Mrs. Bell, that the CPSB seek an opinion from the State Attorney General’s office if the Board has taken an appropriate action to require the Superintendent and principal to allocate space in its buildings and that until such time, the timeline for relocation will be deferred until an opinion is received. Ms. Priest said that as she previously stated, Act 1, and the only language declared unconstitutional was relative to the vouchers and not Board member duties and responsibilities, LSA-RS 17:81 was revised to change the duties of school board members and clarifies that the board is to make policy in the interest of all students under the board’s jurisdiction; and that policies shall prioritize student achievement, financial efficiency and workforce development. Also, LSA-RS 17:414.1 provides that each elementary and secondary principal shall be appointed and serve under the direction of the local superintendent of schools and the principal shall have the administrative responsibility for the direction and supervision of the personnel, activities and the administration of the affairs at his or
her school. She explained that the Board Attorney provided Board members information on Act 1 and she doesn’t believe the Board is taking its attorney’s advice, thus she believes the Board should seek the Attorney General’s opinion. Mrs. Bell stated her agreement with Ms. Priest’s comments and again stated that she believes the Board is micromanaging and the Legislature says the Board cannot do. Mr. Hooks asked for a point of understanding because the motion passed. Mr. Ramsey explained that this motion stands on its own, so if the motion on the floor passes, the Board’s attorney will ask for an opinion as to whether or not the action taken by the Board was appropriate. Mr. Hooks asked if Ms. Priest can seek an opinion from the Attorney General, can he do so as a rebuttal?

Mr. Pierson asked Mr. Abrams what will happen if the Attorney General’s opinion supports the fact that the Board should not be interfering? Mr. Abrams explained that if the Board votes to seek an opinion from the Attorney General and the AG rules that the Board should not be micromanaging (or doing whatever was done), he doesn’t believe the AG will undo what the Board has done, and that it would be information for future reference. Mr. Pierson stated he believes the Board has put itself in a position to accommodate everyone that comes before them for a room change, so maybe it would serve as reference for future requests.

Vote on the motion failed with Board members Riall, Pierson, Trammel, Priest, Ramsey, and Bell supporting the motion and Board members Green, Crawley, Hooks, Crawford, Rachal and Armstrong opposed.

SUPERINTENDENT’S REPORT

Superintendent Dawkins shared with the board preliminary information from the Transportation Department on late buses.

ANNOUNCEMENTS AND REQUESTS

Ms. Priest announced that the Legislative Luncheon will be held on January 23rd at 11:30 a.m. at the Hilton Downtown. All Board members are invited and encouraged to attend. She also reminded the Board that this year’s Legislative Session is a fiscal session and the session begins in April. At this time, she also announced that there has been a good response from the Delegation members. This time will be used to discuss with them the misunderstandings relative the MFP formula as well as other critical issues that affect education.

Miss Green announced that Newton Smith will be planting 20 trees on January 17th in memory of the 20 students who lost their lives in the Connecticut tragedy.

Mr. Rachal requested an update on magnet school populations, i.e. number leaving one school to attend another.

Ms. Priest expressed appreciation from staff on the pilot pre-K program and asked that staff provide her the number of pre-K students on the waiting list in Caddo Parish.

Adjournment. Mr. Riall moved, seconded by Mr. Pierson, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:25 p.m.
February 5, 2013

The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at 4:30 p.m. on Tuesday, February 5, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Other school board members present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mr. Hooks led the invocation and Pledge of Allegiance.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR FEBRUARY 19, 2013 CPSB MEETING

Superintendent Dawkins highlighted items for the board’s consideration at the February 19, 2013 CPSB meeting and the following discussion ensued.

Bids – Purchasing. Mr. Hooks inquired about the number of bus engines for this bid and Mr. Graham explained there is no set number, but the bid covers engines as they are needed and the cost is between $7,000 and $8,000 per engine. Mr. Rachal questioned the line item charged to the General Fund and if these funds are already allocated or are we pulling these funds from reserve, and Mr. Graham responded the funds are already allocated.

Bids – Worley Observatory. Mr. Rachal expressed appreciation to the superintendent and others who worked on this to keep it from being closed down.

Bids – Construction. Mr. Hooks asked staff about the wiring and security bid at Broadmoor, Caddo Middle Magnet and Caddo Middle Career and Technology schools. Steve White explained these are Phase II of the QSCB projects that began last year and should complete all Caddo schools. The projects are in two components, i.e. the data infrastructure (Internet and wireless capabilities), and the backbone of the security system (i.e. cameras, video component). The card swipe is not included in this bid. Mr. Hooks asked if it is a request from the principals? Mr. White responded everyone has asked for the Internet to be upgraded and while doing the wiring, it is more cost effective to do the security at the same time.

Resolutions re: Issuance and Sale of General Obligation School Refunding Bonds. Jim Lee and Grant Schluter shared a summary sheet from the 2013 refunding issue which refunded the 2005 bond issue and Item 8.01 will finalize this. He added the net savings to the taxpayers is approximately $1.2 million. Item 8.02 is basically the same, but it refunds the 2006 bond issue, which should bring approximately $700,000 in savings to the taxpayers.

Mrs. Bell expressed appreciation to Mr. Lee and staff on the AA- rating and she is confident that next year it will be an AA+ rating.

Out of State Travel. Mr. Riall asked staff to clarify School Dude University. Tommy Smith explained this is the school where staff is trained on our computerized work order program.

Request for Long Term Use of Ridgewood. Mr. Rachal asked if there is a standard fee for each facility, because he thought the last request was extremely low. Mr. Woolfolk responded there is a standard fee adopted by the board and noted how the fee for use of Lee Hedges was raised because it was extremely low and may be an area the board wishes to look at in reviewing CPSB policies. Mr. Rachal asked that staff provide him with a copy of the list of fees for facility use.
ID Badges for All Schools. Mrs. Bell noted the backup information provided and the list of schools that currently have the equipment and IDs and those that do not. She explained she is working with Roy Murry who provided an estimate on the cost to add this to all schools. Mrs. Bell asked if each school is allotted so much money annually, and Dr. Dawkins explained there are a variety of ways in which schools receive funding, i.e. Title I, General Fund, Special Education, grants, etc. Mrs. Bell asked if new money is provided each year for each school. Mr. Lee explained there are different General Fund allotments to the schools; and based upon the attendance at each school, the allotments for MFP, textbooks, etc. vary and are received annually. Mrs. Bell asked if Title I money can be used for name badges? Mrs. Parker responded that in the past Title I has been allowed to use Title I money for such items; however, she was required to explain to the state that it was a concern or potentially dangerous situation. She also reminded the Board that if Title I dollars are spent at other schools, the dollars must also be spent on the Title I schools. Mrs. Bell asked Roy Murry about grants as a funding source for Security and ID Badges, and he responded it is possible; however, at this time staff has not seen the release on a possible new REMS grant. Upon talking with the consultant on the last REMS grant, Mr. Murry stated before there is another REMS grant, Congress must have a budget and the grants would follow. Most recently, he explained that grants released have been for training and not as much for equipment, but it is possible. Mrs. Bell stated with the cost being approximately $11,000 per school, she believes Title I schools can more easily fund the cost. Mr. Murry reminded Mrs. Bell that this was a bid and anything like this must be bid. Mrs. Bell asked staff to look at the possibility of using Title I funds to provide badges in the Title I schools and the possibility of grant funds to defray the cost in non-Title I schools. She noted that each year the District provides a certain number of air conditioned buses, and she believes the Board can provide ID badges to a certain number of middle schools and increase the number each year. Mrs. Bell asked the possibility of starting with Title I schools and then look at the middle schools and high schools until all are provided ID badges. Mrs. Bell said she will bring this to the board for action on February 19th.

President Ramsey asked that a committee comprised of Mrs. Bell as chair, Miss Green, Mrs. Crawford, Mrs. Armstrong and Mrs. Crawley meet and bring a recommendation to the board.

Resolution Regarding Sale of Laurel Street Property. Miss Green asked staff if the highway (I-49) is coming through this property? Mr. Graham responded that he has no idea.

Superintendent Search. Reggie Abrams shared with the Board how the Superintendent search was conducted in the past. He said there are current board members who were not on the board at the time of the last search, some that actually participated in the search and did a lot of the work, and he shared with the board the process followed in 2008 when the board last sought a new superintendent in Caddo Parish. Mr. Abrams explained that in 2007 the board authorized staff member Burnadine Anderson to have the responsibility of following through with the superintendent search, and she shared with the Board a presentation on the search process followed in 1988, 1995, 1999, and 2003, explaining that the recruiting, hiring and evaluating a superintendent is the board’s most important function. As explained by Mrs. Anderson, there were different actions to be taken by the board, which could take place in different meetings, i.e. do the search in-house or hire an executive search firm and determine the range of the search (local, regional or national). From these steps, a timeline was established relative to when a superintendent should be in place, along with the proposed cost for a search. An advisory committee comprised of a representative living in each of the 12 board member districts, and a representative from the employee organizations, PTA, etc., approximately 16 members, was appointed to provide the Board feedback. In the 2007 search, the Board voted for a regional search, a nationally competitive salary and a recommended length of the contract.

He further explained that since the 2007 search did not yield the appointment of a new superintendent, the board then approved an RFP seeking an outside firm to conduct the search.
and established a budget for the search, a search which resulted in the hiring of Dr. Gerald Dawkins. Mr. Abrams explained that it is necessary for the board to decide if it wishes to use in-house to conduct the search or create an RFP for hiring an outside agency to conduct the search.

Mr. Ramsey requested that copies of the 2008 RFP and minutes during the search be provided to board members. Miss Green asked if there is a rule on how long the district can go without a superintendent, and Mr. Abrams explained the board would appoint an interim in the absence of a superintendent.

**Student Readmission Appeals.** Dr. Dawkins announced there will be four student readmission appeals for the board’s consideration and backup information will be provided prior to the February 19th meeting.

**ADDITIONS**

Mr. Lee requested that an item relative to a claim from Risk Management be added to the agenda for February 19th. Mr. Abrams will provide the wording and Mr. Lee will provide the backup.

Mr. Hooks requested that Julie Scruggs bring a report at the next board meeting on the process for selecting students for the magnet program.

Mr. Riall asked that an item be added to the agenda “Proposed Revision to CPSB Policy IGD, Section XI. A.” to remove the calendar year limitation under the M to M transfer. Mrs. Bell asked for clarification because backup has not been provided.

Mr. Riall clarified he is asking to remove the one calendar year stipulation under A which addresses M to M transfers. Mr. Pierson said M to M transfers are not legal for athletic eligibility, which is a LHSAA rule. Mr. Riall further explained that Caddo Parish has a policy and LHSAA has a policy, and he is asking that Caddo’s policy be revised and then place it in LHSAA’s court because they tend to follow policy. He also explained that the only school affected by this policy is Northwood High School; because every other Caddo high school has the ability to transfer, and because of a magnet program, they are eligible to play.

Mr. Abrams explained the policy currently states that M to M transfers will not create immediate athletic eligibility unless the student attended middle school in the attendance zone of the high school the student wishes to attend for at least one calendar year, and he understands this policy was used to keep immediate eligibility if a student was transferred on an M to M to another school. He also stated he believes this was challenged in Bossier and the decision made that this could not be used as a way for students to receive M to M transfers. Mr. Abrams further stated it looks as if this policy would keep down the transfers and he believes Mr. Riall is stating that Caddo Parish would not put any impediment in place, but let the LHSAA make the decision. He believes this also was challenged in Bossier and was struck down. The question will be if LHSAA will attempt to keep students from being eligible.

Mr. Pierson further stated that Caddo’s students attending middle school all across the parish have dual eligibility, and the purpose for the LHSAA rule is to keep students who might get mad at the coach from dropping from one school and enrolling in another school and then possibly jumping to yet another school.

Mr. Rachal asked if he understands that basically the policy is to not hinder students and punish them because they qualify for an M to M transfer. He also stated that it appears to be possible there could be some bouncing back and forth between schools, asked about the possibility of using it only one time. Mr. Abrams stated he would have concerns because moving the requirement gets us out of the deal, and one idea might be that the Louisiana High School
Athletic Association should police it rather than the school system, as M to M issues include a Federal aspect. Mr. Rachal stated his agreement with the idea; however, he too is concerned over the possibility that a student follows the rules but LHSAA could come in and make a different ruling. Mr. Rachal asked Mr. Pierson if he knows that the Athletic Association patrols this and Mr. Pierson confirmed they do, and that each high school pays to be a part of the LHSAA. Mr. Pierson also stated that Caddo can make all the rules it wishes; however, when it comes to athletic eligibility, the LHSAA has the final word and will have a rule that is good statewide. Mr. Pierson stated he does not have an issue of being less restrictive when it comes to the students; however, not all schools will get M to M transfers. Mr. Rachal stated his agreement and he believes if the board approves the proposed revisions, the board has done its part to help the children locally.

Ms. Trammel asked Mr. Riall about the feeder schools for Northwood, and Mr. Riall responded they are Mooringsport, Donnie Bickham, North Highlands and possibly Oil City. Ms. Trammel stated she thought there were a number of feeder schools into Northwood and based on that, she would think it would provide a good size population. Mr. Riall stated that most of the M to M transfers for Northwood are from Green Oaks. Ms. Trammel shared an issue at Woodlawn High School and she believes if requirements would have been removed, it would have helped this Woodlawn student be eligible to play.

Ms. Priest shared her concern because in watching the recent LHSAA rulings, she believes we need to keep this in the equation. With the potential of allowing students to jump all across the district based upon race, she said she is aware that this has resulted in a drain of students and programs away from Green Oaks. Ms. Priest asked the president to do the same with this issue as with the ID Badge and appoint a committee to look at this closer. Mr. Ramsey announced he will appoint a policy review committee to look at not only this issue but additional issues as they come about during the year. Mr. Abrams reminded the board that there is a policy review committee currently in place and Mr. Ramsey announced he will refer this matter to that committee and revisit this item at a later meeting. Mrs. Armstrong announced that Coach Carter and Coach Wyndham attended a recent LHSAA meeting to receive updates on these policies, and she encouraged seeking their input in this consideration. Mr. Ramsey agreed that when looking at these issues, it is important to seek the expertise from the professionals in these various areas. Mr. Abrams explained that on each committee, expertise from the various areas is brought to the meetings. Mr. Ramsey asked the superintendent to determine what committee should look at this so it can be referred and reviewed.

Mr. Hooks shared his agreement to bring in those with the expertise, because he heard some big changes, re: athletics, were made recently. Mrs. Bell stated she is aware that changes are being made and reminded the board that when Huntington was sanctioned for one year, the entire school was affected.

CONSENT AGENDA

Mr. Ramsey announced that Items 7.01-7.03, 8.01-8.05 and 8.07 are the consent agenda. Mr. Pierson moved, seconded by Mrs. Crawford, the approval of the proposed agenda and consent agenda for the February 19, 2013 CPSB meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE

Daryl Roberson, president of Caddo Association of Educators, requested that the CPSB add to its February 19th agenda a proclamation declaring Saturday March 2, 2013 as Read Across Louisiana Day in Caddo Parish. Caddo Parish board members and staff were encouraged to participate by reading on that date between 10:00 a.m. and 1:00 p.m. at the Dillard’s court in
Mall St. Vincent. Mr. Roberson also announced that the CAE has provided two Compass workshops and the third will be held on February 16th. Additionally, and so there will be no confusion, he also announced that CAE will sponsor a forum on issues affecting public schools and submitted copies of information that will be shared during that forum.

Jackie Lansdale, president of Red River United, addressed the importance of Items 8.01 and 8.02 and noted an employee brought to her attention that two years ago their W-2 reflected earnings of $41,450, but this year only $40,852, which is less than two years ago. She said the board needs to be aware of this when asking the public for support of the schools. Also, she reminded the board that today is the 20th anniversary of the Family Medical Leave Act, which is 12 weeks of unpaid leave that is in Federal Law, and the fact that 162 nations have paid family medical leave, but not in this nation. She encouraged the board to continue to support families by providing whatever medical leaves are available. Mrs. Lansdale also announced that Act 1 will return to court on February 25th.

**Adjournment.** Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:03 p.m.
February 12, 2013

The Executive Committee of the Caddo Parish School Board (CPSB) met in a special session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 2:00 p.m. on Tuesday, February 12, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Other school board members present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Legal Counsel Reginald Abrams, staff and other visitors were also present. Mr. Pierson led the invocation and Pledge of Allegiance.

Mr. Ramsey announced that the purpose of the meeting was to discuss the process the board will follow in the Superintendent Search. He noted that three items were posted on the BoardDocs agenda: the 2008 RFP, the minutes from the 2008 search, and a revised RFP for possible consideration and approval at next week’s meeting. Mr. Ramsey asked Purchasing Director Tim Graham to highlight the timeline used in the 2008 RFP.

Mr. Graham explained that when sending out an RFP it must be advertised for three consecutive weeks and shared a timeline should the board approve an RFP at its March meeting. He added the timeline should also include time for those presenting bids to make a presentation if the board desires.

President Ramsey opened the floor for questions from board members and asked each board member to limit their questions to three minutes.

Mrs. Bell asked Mr. Graham if the RFP is the legal guidelines and Mr. Graham confirmed that is correct. She also asked if she understands, based on the timeline presented, that an RFP could be approved by April 23 and Mr. Graham said that is correct. Mr. Abrams stated that the response should have been that if the RFP is approved at the next meeting (February 19th) and the approval of the search firm would be by April 23.

Mrs. Armstrong asked if the bids in response to the RFP will include the firms’ charges? Mr. Graham responded they will submit to us their cost and their cost will also be considered in the scoring of the bids. Mrs. Armstrong also asked about the point system and if it will be used as established in the RFP on April 23.

Mr. Rachal asked about Activity #5 relative to presentation or proposal (if required) as invited and the process; and Mr. Graham explained if the board chooses, those submitting bids can be invited to explain their RFP to the board. It’s not something that is required, but only if the board desires to ask additional questions. Mr. Rachal suggested that he would like the board, if the district receives a lot of RFPs, to have the opportunity to review them (following the staff’s review), and select the top two or three to visit the Caddo School District. Mr. Graham reminded the board that the window between Activities 4 and 5 is only one week in order to make the proposed deadline; however, if that is the board’s desire, it can be done.

Mr. Ramsey stated that this process for Request for Proposal would not be consistent with what the board is asking companies to submit; and the board needs to fill those requests the same as any other RFP, cataloguing each bid’s cost, etc. starting with the lowest bid and confirming the consistency with all items included for consideration. At that time if the board wishes to go through a question process, then the board would ask for a presentation on the vendor’s proposal, giving the board the opportunity to decide if it is the firm it will approve.

Mr. Rachal said he believes that is what he is saying, and he is not particularly concerned if it is a committee, and he would be glad to be one of the representatives on that committee, but he doesn’t believe it is the staff’s responsibility to do the interview process, but the board’s to
follow through with the due diligence in this process. As a board member, Mr. Rachal said he believes his due diligence is, once the board or the committee selects the top two or three (and he would like the opportunity via the board or a committee), to interview these vendors face to face. He added they are bidding a job, and he understands the bid process; but it is the board’s responsibility to follow due diligence.

Mr. Abrams explained it would have to be determined that each one could make a presentation and a date should probably be included in the RFP (between Activities 4 and 5) for the board to come back and make a decision if it wishes for anyone to make a presentation or not. Mr. Abrams explained that it is not about interviews, but about the vendors making presentations and reminded the board that questions asked would have to be very specific and each vendor asked the same questions. Mr. Rachal stated his understanding of a question per board member, but he would like the opportunity to have some interview process prior to a presentation and accepting one of the bids. Mr. Ramsey stated that his only concern is the word interview, because if you go out for an RFP, this is the interview. Mr. Rachal said he has looked around the country at other school boards going through this same process, and one of the consistencies he is seeing is once the school board narrows it down to two or three, they are inviting those in for a “meet and greet” in addition to an interview/presentation. He noted that he wants to make certain that those submitting bids know something about Caddo and what Caddo has to offer.

Mrs. Crawford stated she remembers in the last search that the board provided general ideas of what the district was looking for and vendors submitted bids; and when the board accepted one of the bids, it then was specific with the firm on what it was looking for in a superintendent.

Ms. Priest asked staff how wide will the market be for firms/companies that serve as headhunters, as well as how many and what publications will we advertise in for a headhunter, and the scope of work that each firm will perform? She also noted that in the last search a brochure was submitted with the RFP, and it outlined information about the district.

Mr. Pierson stated he believes any company who wants to do business will study the district; and during the presentation, a specific number of questions could be decided upon and asked. He said he would like to see us make it more exact, but not necessarily cumbersome.

Ms. Trammel asked if we establish an RFP and set up firms to make presentations, what will happen when the board begins to change the guidelines listed in the initial RFP, as it is the RFP that sets the guidelines and events the district desires. She also added that from her experience, limiting to three is not necessarily the best number and suggested that the number five be considered. She also asked the board to remember that the district does not have a lot of money to spend and it will be important to be frugal and stay within a budget.

Mr. Hooks asked if it is necessary to do an RFP? Mr. Abrams responded the board does not have to use an RFP, but in order for the board to best determine the firm, the process of an RFP is recommended for getting the “best bang for the buck”. He further explained that the last search began in-house and was a regional search; and the search ended in a 6-6 vote and a superintendent was not hired. Then the board proceeded to approve an RFP for a search firm and the search firm brought back the candidates to the board for a decision. Mr. Hooks stated he agrees we need to look at the money and not spend money for something we can do. He said he believes there is someone locally and he doesn’t see the need to go outside to seek a new superintendent; but conduct a local search by advertising in the local media. He also encouraged community input through forums and the importance of this step as a way of involving the communities and regaining the communities’ trust, and to remember it is the support of the taxpayers in the communities that we will be seeking for passage of the tax renewal in May.
Mrs. Crawley stated that having been through three superintendent searches, it is her opinion that each time the candidates have been worse. She said there were many local applicants in the first search, and she believes a superintendent could have been selected from this group. The second search had satisfactory applicants, however, the board was looking for more; and she believes there might as well not have been a search the last time. Mrs. Crawley also stated she believes the board should look at someone who is truly vested in the community.

Mr. Riall asked for clarification of the RFP timeline and if once the information is received on RFPs, will all the information be placed on BoardDocs. Mr. Graham stated it will. Mr. Riall asked when in the process will the Board determine if it will do a local, regional or national search? Mr. Graham noted on page 8, item H, the firms are asked about the type of search, i.e. a local, regional or national; and during that time, the board can decide on the type search. Mr. Riall asked if the vendors who might respond to the RFP are specialists seeking educators, and Mr. Graham said he is unsure as the prior searches were done prior to him.

Mr. Ramsey stated that he will get with Mr. Graham and Mr. Abrams about adding the additional time to the timeline in case the board decides to bring these firms in for interviews. Mr. Abrams pointed out that on page 7 on the schedule it states that the executive search firm is to provide a timeline that should be conducive to having a superintendent in place prior August 12, 2013. Mr. Abrams said because that is what the RFP says, it doesn’t mean that is what the board must do, and it can be changed based on what the board wishes to do. Mr. Rachal asked for clarification and if this is similar to what has been done with RFPs, and if there is an issue in the proposals, it is something we can negotiate with? Mr. Abrams didn’t suggest this because one could tell a firm something impossible to do and then change that when it is time for the interview. Mr. Abrams reminded the board that the schedule is a very compressed one compared to the last two search schedules, but has been chosen because of the situation.

Mr. Ramsey stated that because the board members scheduled to attend the NSBA National Conference have cancelled and he is asking that the board consider moving the regular meeting back to April 16th and, if needed, a special session could be held on April 23rd for vendors to make presentations. He asked that staff update the previously-used brochure and pull a list of trade publications used last time. Mr. Ramsey stated that the RFP is the first step, and he believes this needs to be addressed as soon as possible (on February 19th). If at all possible, he hopes the board will move forward with a motion to approve it. He asked board members to begin thinking who they will appoint to the Citizens Advisory Committee so that as soon as Phase I is moving forward, we will be able to move to Phase II.

Mrs. Bell asked Mr. Ramsey and Mr. Abrams if it is possible to do this by April 16th, and will the vendors know what Caddo is looking for in a superintendent? Mr. Abrams said what the board is looking for will be included in the RFP and referenced page 7 of the RFP which states what they will do. She asked if she is in order to call a meeting in her district to receive from her constituents what they want in a superintendent before April 16th? Mr. Abrams suggested that if the board gets a search firm in place, a part of this process will be setting up community forums; and within this, each district will have a representative, appointed by that district’s board member, on an advisory committee. Mr. Abrams also explained that if the board approves an RFP at its meeting next week, the first advertisement can be next Wednesday. Mr. Graham added that the first advertisement, if approved on the 19th, will be Friday, the 22nd. The second advertisement would be March 1st and the third on March 8th, with bids due in by March 15th. Mrs. Bell asked if she remembers correctly that in the last search there were community forums held in several different areas, because what she is desiring to do is to hold her own community forum and with the search firm. Mr. Abrams said if a board member does this, it changes the RFP, because they will present to the board a schedule for forums, but not one meeting in each district; however, it doesn’t mean a board member can’t have a meeting on their own without the search firm.
Mr. Rachal asked if he understands correctly that the new timeline gives an extra month, with the RFP deadline of March 15th versus April 16th, allowing time to decide how the board will address the RFPs and the opportunity to share with the top firms highlights of the district and not just a presentation by the firms. He also stated his agreement relative to the advertising and asked that the board receive a copy of the publications list.

Mr. Ramsey noted that when moving the dates, the board really doesn’t have an extra month because of the need to publish in national publications. While it is good to start in February, the board still needs to be cognizant of the dates and the tight timeline.

Ms. Priest asked when is each board member’s appointment to the advisory committee due; and asked if the board will want to have someone (maybe staff) attend conferences, i.e. LSBA and have an information booth set up with information about Caddo and the search.

Miss Green asked if each board member can appoint more than one person to the advisory committee and President Ramsey said they cannot. She also asked about the date of August 12th to have a superintendent in place, because she believes the schedule is complex and she doesn’t believe the board needs to put a time limit on the process. Mr. Ramsey explained that a timeline has been followed on every superintendent search, and whether or not the timeline is reached is another issue. He added the current superintendent’s contract will expire on August 11th, so August 12th is the goal to have a replacement in place; and he believes if the board moves forward at the February meeting by approving an RFP, it is a timeline that can be accomplished.

Mr. Riall asked how often will the advisory committee meet and what will be required of the members. Mr. Ramsey responded that there will be a number of meetings so it will be necessary that the board members’ appointments understand the commitment. Mr. Riall asked if there will be specific statements from the firms relative to fulfilling their obligations in the contract to find a superintendent.

Mrs. Armstrong asked about Activity 1 regarding “requesting release for proposals to vendors”, and if we will have by this time all the possibilities in terms of individual firms that will be sent a package as well as published in The Times. Mr. Graham said that is correct. Mrs. Armstrong encouraged staff to search over the Internet any additional viable firms that might be interested in presenting a proposal.

There being no additional discussion, Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 3:12 p.m.
February 13, 2013

A special committee of the Caddo Parish School Board (CPSB) met in session at approximately 10:00 a.m. on Wednesday, February 13, 2013, in the Superintendent’s Conference Room located at 1961 Midway Street, Shreveport, Louisiana. Members of the committee present included Dottie Bell, Chair, Jasmine Green, Bonita Crawford, Ginger Armstrong, and ex-officio members Larry Ramsey and Carl Pierson. Board member Mary Trammel was also present. Staff members present were Roy Murry, director of security; Jim Lee, chief financial officer; and Janis Parker, director of Title I. Members of the media were also present.

The meeting was called to order at 10:00 a.m. and President Larry Ramsey explained the committee is to address questions and concerns related to ID badges for all Caddo students. Following prayer by Carl Pierson, Chair Dottie Bell explained she is bringing this forward because she believes we need to identify all of Caddo’s children; and she is bringing it now in order to address this need in the budget considerations for next year. Mrs. Bell asked Mr. Murry to explain the ID system currently in place, the number of schools with badges and the number of schools that do not have badges.

Mr. Murry shared with the committee the history on implementing the use of ID badges with the rationale being that not everyone at every school will know every child; and with badges, anyone can walk up to a group of students and see which students have badges and which do not. Over the last three years staff has worked to integrate the security system, and the district is now working under the Basis software which includes an ID system, as well as cameras and alarms. Because everything is under the same system, Mr. Murry said it allows for more access control, and with IDs already being used for access control, if the district continues down the path of extending the security program, he believes we need to stay with this system. He further reported that the bid last year was $10,950 per school; however, if anything is done this year, it will be necessary to bid again, and it could be possible to look at adjusting some of the areas to possibly bring down the cost.

Mrs. Bell asked about school employees’ ability to open any doors, and Mr. Murry explained that whatever access a principal gives an employee is what their badge allows them to access. He added high schools are the hardest because of the number of students and the number of times students change classes/buildings. Mr. Pierson asked about the ability to lock doors to the main entrance in a school and Mr. Murry explained Caddo Heights implemented this procedure this year, and the office personnel can buzz visitors in the front door. Mr. Pierson also asked about elementary students having ID badges and if it is necessary for elementary students to have something this sophisticated. Mr. Murry stated that in the elementary schools, typically the teacher is escorting the students from one area to another and the teacher is the one who has access (badge).

Mr. Ramsey noted that teachers and administrators definitely need ID badges, and asked if there is a way students can be identified with certain teachers/certain classes? He also said he likes the idea of being consistent with the programs in place; and he would like to see if we can come up with a reasonable timeframe for putting them in all the schools, making sure the principals buy into the program so it will be successful.

Mr. Murry noted that in elementary schools most students are escorted by teachers; however if every child’s picture is on file, he has the ability to print out the children’s pictures for identification purposes on field trips, for example. It was also noted that JPAM has the ability to take students’ pictures and store them in the system; and even though there are some unexplored aspects of the JPAM system, maybe this is something staff can look into.
Mrs. Bell said she believes it is something that can be broken down and we can begin by looking at the middle schools and add schools each year.

Mr. Pierson also said it is important to identify what you want the badges to do at each level; because the purpose for badges in high schools may be completely different than for elementary or middle schools. He also asked who would be responsible for putting all the information in the system, because a school with 700 plus students could take some time.

Mr. Murry stated he will prepare some proposals based on the discussion, also checking with other departments to see if this is something that can be implemented through the JPAM system.

Mrs. Bell announced the next meeting will be on March 13th at 11:00 a.m. after Mr. Murry has the opportunity to put together some additional information for the committee’s consideration.

Mr. Ramsey asked Mrs. Bell about moving this agenda item to the March meeting and Mrs. Bell stated her agreement.
February 19, 2013

The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 4:30 p.m. on Tuesday, February 19, 2013 with President Larry Ramsey presiding and board members Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong, and Dottie Bell present being a quorum. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mr. Hooks led the invocation and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JANUARY 8, 2013, JANUARY 15, 2013 AND FEBRUARY 5, 2013 CPSB MEETING

Ms. Priest moved, seconded by Mrs. Bell, to approve the minutes of the January 8, 2013, January 15, 2013 and February 5, 2013 CPSB meetings as submitted. Vote on the motion carried unanimously.

Mr. Ramsey announced that in error he placed Magnet Testing under Superintendent’s Report (9.02) and it should actually be under Presentations. There being no objection, President Ramsey moved Magnet Testing Report to “Presentations and Recognitions”.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications, and Dr. Mary Nash-Robinson, chief of staff, on behalf of the board, recognized the following staff members and students for recent achievements, as well as newly appointed administrators. President Ramsey and Superintendent Dawkins presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Character Education Week Poster and Essay Contest. Mr. Mainiero recognized the following students as Grand Prize winners in the Character Education Week Poster and Essay Contest: Hope Costanza, Arthur Circle Elementary; Annabelle Parker, Herndon Middle; and Alexa Babin, C. E. Byrd High School. Bullying Prevention Grand Prize poster winners are Ashley Hudson, A.C. Steere; Jordan Jones and Steven Holman (tie), Caddo Middle Magnet; Destiny Franklin, Captain Shreve; and Annie Carlisle, C. E. Byrd (Essay). Red Ribbon Week Grand Prize winners are Anton Murphy, Cherokee Park (Poster); and Darrian Mills, C. E. Byrd (Essay).

Donnie Bickham Robotics Team. Will Cantrell, Mark Crouch and Nike Vinzant were recognized for competing in the First Lego League Competition on November 17, as well as qualifying to participate in the Louisiana State Invitational Tournament in New Orleans on December 8th.

Robo-Chargers. The following CMCTS Robo-Chargers competed in the First Lego League competition on November 17th at Sci-Port and were recognized as the top finisher from any Caddo or Bossier Parish school: Rodarious Ashton, Treanna Frazier, Everett Henderson, Calvin Martin, Daeja Martin, Destini Rogue, Kris Rose, TyKierra Russell, LaBritnney Sudds and D’KenDrick Taylor.

Caddo Middle Magnet Student Writes Book for Children. Safa Michigan, 8th grader at Caddo Middle Magnet, presented a copy of her book to each board member and explained her book profiles eight children in history who made a significant difference and have inspired her.
Mudbug Madness Poster Contest Winner. Shatamber Wade, senior at Captain Shreve and second-year Commercial Art/Advertising Design student at Caddo Career and Technology, was recognized as the winner of the 30th annual Mudbug Madness poster contest.

Auto Tech Teacher is AYES Instructor of the Month. Tom Evans, Auto Tech Teacher at Caddo Career and Technology Center, was recognized as the AYES (Automotive Youth Educational Systems) Instructor of the month for November, 2012. Mr. Mainiero explained this national recognition is made each month to one instructor who shows incredible dedication in implementing the AYES model in their program.

Outstanding Elementary Math Teacher Award. Laci Stokes, teacher at Caddo Heights Elementary, was recognized for being named the outstanding Elementary Math Teacher of the Year for Louisiana by LATM (Louisiana Association of Teachers of Mathematics). LATM is dedicated to the promotion of excellence in the teaching and learning of mathematics in Louisiana’s schools.

Caddo Teacher Named Vice President of Elementary Schools for LATM. Amanda Bundrick, teacher at Caddo Heights Elementary, was recognized as the Vice President of Elementary Schools for LATM (Louisiana Association of Teachers of Mathematics).

KTBS One Class at a Time Winner. Lynda Delo, librarian at Woodlawn Leadership Academy, was recognized as a KTBS “One Class at a Time” winner.

Golden Apple Award. Minette Gilbert, teacher at Eden Gardens Fundamental Magnet, was recognized for winning the Golden Apple Award. She was presented a check for $500 for her classroom which she will use to enhance her classroom smart board use by purchasing a smart document camera.

Newly Appointed Administrators. Dr. Mary Nash-Robinson, chief of staff, recognized the following newly appointed administrators: Renee Ellis, instructional coordinator, Eden Gardens; Denise Pleasant, instructional coordinator, J.S. Clark; and Monte Demars, assistant principal, Green Oaks High School.

Report on Magnet Testing and Placement. Julie Scruggs, supervisor of magnet schools testing, shared with the board a report on the testing and placement of applicants for the 2012-13 school year at the elementary and middle magnet schools. She highlighted data relative to the number of applicants tested and placed at all levels, placement simulations, cutoff scores at each grade, number of openings at each elementary and middle magnet school for the last four years, how openings are considered and processed, hypothetical placements, number of children tested and placed in kindergarten as well as the number of siblings tested and placed, and a comparison of that information over the prior four years, summary of students tested and placed in kindergarten and placed on the waiting list. She further shared that information on the magnet schools is also on the web site for all to see, along with CPSB policies that govern magnet testing and placement at every level. Mrs. Scruggs explained that all students are placed on one list in order of their score (from highest to lowest); and if a student is not placed, they are placed on the waiting list. Regarding kindergarten testing, which has the most applicants with the fewest number of seats, she reported that 748 children tested and of that number 641 asked for South Highlands or Eden Gardens as their first or second choice. This year she reported there were 108 kindergarten seats available at South Highlands and Eden Gardens after the placement of siblings, meaning that 641 were competing for the 108 available seats.

Mrs. Crawford asked about the total number of students asking for the magnet slots at Youree Drive and Broadmoor. Mrs. Scruggs explained that these students apply the same as for Middle Magnet and Herndon Magnet, and staff looks at the students’ scores and their choices for
placement. Mrs. Crawford asked if the students are not placed a Caddo Middle Magnet, does staff offer them Broadmoor or Youree? Mrs. Scruggs said staff does if that is listed as one of their choices and they go on the waiting list.

Mr. Hooks asked if there were four students (one from Claiborne, one from Eden Gardens, one from Judson and one from South Highlands) and they all scored high enough to attend Caddo Middle Magnet, can all four be placed at Middle Magnet? Mrs. Scruggs responded that staff follows board policy according to their scores and choices, and they would all go in. Mrs. Armstrong expressed appreciation for all the detailed information put together and provided to the board. Mr. Hooks also expressed his appreciation for the thorough job in preparing the report.

VISITORS

Eppie Adams, president of Caddo District PTA, shared comments regarding the superintendent search and encouraged the Board as it makes decisions for a new superintendent to not miss any necessary steps as was done in the 2008 search. Noting that seven of the current board members were involved in the 2008 search, a search that was to only take a few months actually took 16 months and she believes this was a waste of time, energy and money. Also, Mrs. Adams stated the community was not really involved in the last search; and with the PTA representing over 10,000 members, she believes they are directly impacted by the board’s choices and should have a say via community meetings, town forums throughout the district. She also asked the board to remember that this community is different than other communities, having unique situations and needing someone that will hit the ground running.

Chester T. Kelly thanked the board for its service and said he is here today to address the board on his fear that the board will once again fall victim to the “white knight” theory/fantasy, because it is unrealistic to think someone from afar will ride in and rescue us and solve our problems. He doesn’t understand going outside the local area to find the leadership necessary to move Caddo Parish public schools forward. He said he believes it is absurd to think a total stranger is better equipped to face the challenges of this school system than someone who lives here, has family here and knows the history, but that is what we have done, and shared examples of when choosing a local person worked. He encouraged the board to keep the process in-house and consider the men and women within the current system.

Bonita Bandaries addressed the board on the article referencing the amount it would cost to outsource the superintendent search. In a letter she wrote to the paper, she stated that a simple solution, and one better for the citizens of Caddo Parish, would be for the board to handle the selection in-house. Having worked in Caddo for 17 years, she has served under superintendents hired as a result of the use of headhunter firms and she believes the result was a diminished quality of education along with a waste of funds. She stated she doesn’t understand why we are locked into this process when it continues to bring failure and urged the board to forget hiring an outside consultant, handle the search in-house, and hire a superintendent who does care about the local students and the needs. She, too, agreed that there are tremendous educators and business persons in the parish and surrounding area that should be considered.

Jon Glover stated that the board has been deemed the gatekeepers of the school system which is an awesome responsibility, overseeing practices engaged in choosing candidates for employment, along with insuring that every child in Caddo Parish is equally afforded the educational resources and opportunities. Noting that it takes strong persons to recognize inadequacies that exist in both arenas, she said more importantly it’s how such is approached when presented. Ms. Glover also said apprehension is acknowledged, because she believes there are chances that retaliation and intimidation may be ensued against her as a result of these statements that the practices engaged in to choose a viable candidate for the position of
supervisor of buildings and grounds have been impugned to the extent that questions exist. She said that beyond the hiring practices being at risk, she also believes the education of every child in Caddo Parish, especially those attending schools labeled Academically Unacceptable, is at risk. She reminded the board that some time ago each board member was presented a chart on how each school labeled AU was graded and she doesn’t remember one board member ever mentioning the AU schools in a board meeting. Ms. Glover said it is topics that have nothing to do with educating children, particularly students of color, that get more attention and she questions is it because we digressed so much that attitudes and behaviors are being brought about that promote inferiority in students who are at-risk. She added that positions are masqueraded to detract attention from what is truly important and efforts are supported that will not change, and continue to engage in practices that question the integrity of the hiring process. She reminded the board that it is about to embark on the hiring of a new superintendent; and she asked if such practices are suspect, she questions where it leaves the district when the board chooses a new superintendent. She completed her comments with a quote from William Penn that what is wrong is wrong even if everyone is doing it. Right is still right even if no one else is doing it.

Ray Abnes, Jr., employee, addressed the appointment of a new supervisor of buildings and grounds and asked the board how is it that the qualifications of the job were changed overnight, i.e. when first posted, there was no mention of having a certain number of years experience; it was for employees only and the second posting opened it to the public. While he doesn’t have a problem doing what he is asked, but being used as a doormat is something he cannot take anymore. When someone states there is no one in the system with the capabilities and qualifications to fill this position, he questions is there someone but maybe not someone certain that would like to be seen in that position. He asked the board to look at the first list and not through the eyes and mind of someone else and more importantly what they want. He ended his comments sharing an experience with his grandfather and that his grandfather told him he could not be as good as, but you will always have to be better than.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Dawkins highlighted the items for the board’s consideration. President Ramsey announced that items 6.01-6.02, 7.01-7.02, 8.01-8.04, 8.06-8.08, 13.01 (students C.R. and N.R.), and 13.02 are the consent agenda. Mr. Riall moved, seconded by Ms. Priest, that the proposed agenda and consent agenda be approved as presented. Vote on the motion carried unanimously. The following is a summary of the board’s action on the consent agenda items.

Item No. 6

6.01 Personnel Recommendations. The board approved the personnel recommendation as recommended by the superintendent and submitted in the mailout.

6.02 Other Personnel Transactions Report. The board approved the other personnel transactions report for the period of December 21, 2012 through January 17, 2013 as submitted in the mailout.

Item No. 7

7.01 Bids – Purchasing. The board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Yolanda Sharkey (Fisher Science Education) totaling discount percentage of 32%; Kaplan Early Learning Company, totaling discount percentage of 18%; Lakeshore Learning Materials, totaling discount percentage of 7%; Paula’s Educational Supply, totaling discount percentage of 20%; S&S Worldwide, Inc. totaling discount percentage of 16%; School Specialty, totaling discount percentage of 19% and Unity Education Resources and Equipment, totaling discount percentage of 26% for the purchase of
Full-Line School Supplies – Catalog; and (2) Pliler International, “unit prices per engine” totaling $5,950 for IH Diesel Engine; totaling $6,595 for Caterpillar Diesel Engine and totaling $3,400 for installation for purchase of school bus engines. A copy of the bid tabulation sheets is filed in the official papers of the February 19, 2013 CPSB meeting.

7.02 Lease of Worley Observatory Property. The board accepted the bid of Shreveport Bossier Astronomical Society, Inc., totaling $12.00 per year for 5 years for lease of the Worley Observatory Property. A copy of the bid tabulation sheet is filed in the official papers of the February 19, 2013 CPSB meeting.

Item No. 8

8.01 Resolution Giving Approval to the Issuance and Sale of General Obligation School Refunding Bonds and Providing for Other Matters in Connection Therewith. The board approved the following resolution providing for the issuance and sale of Fifteen Million Two Hundred Eighty Thousand Dollars ($15,280,000) of General Obligation School Refunding Bonds, Series 2013, of Parishwide School District of Caddo Parish, Louisiana; prescribing the form, fixing the details and providing for the rights of the owners thereof; providing for the payment of the principal of and interest on such bonds and the application of the proceeds thereof to the refunding of certain bonds of said School District; and providing for other matters in connection therewith.

WHEREAS, pursuant to the provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and a special election held on April 17, 2004, the result of which was duly promulgated in accordance with law, Parishwide School District of Caddo Parish, Louisiana (the Issuer), acting through its governing authority, issued $20,000,000 of General Obligation School Bonds, Series 2005, dated March 1, 2005, of which $16,485,000 is outstanding (the Series 2005 Bonds); and

WHEREAS, the Issuer is authorized to borrow money and issue general obligation school bonds payable from ad valorem taxes to refund its outstanding general obligation school bonds, pursuant to Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended (the Act), and other constitutional and statutory authority; and

WHEREAS, the Issuer has found and determined that the defeasance and advance refunding of a portion of the outstanding Series 2005 Bonds, consisting of $15,220,000 of Series 2005 Bonds which mature March 1, 2016 to March 1, 2030, inclusive, as more fully described in Exhibit A hereeto (the Refunded Bonds), would be financially advantageous to the Issuer and would result in a lower effective interest rate on such Refunded Bonds and debt service savings to the Issuer; and

WHEREAS, pursuant to the Act and other constitutional and statutory authority, it is now the desire of the Issuer to adopt this resolution in order to provide for the issuance of Fifteen Million Two Hundred Eighty Thousand Dollars ($15,280,000) principal amount of its General Obligation School Refunding Bonds, Series 2013 (the Bonds), for the purpose of refunding the Refunded Bonds, to fix the details of the Bonds and to sell the Bonds to the Underwriter thereof; and

WHEREAS, in connection with the issuance of the Bonds, it is necessary that provision be made for the payment of the principal and interest of the Refunded Bonds described in Exhibit A
Article I
DEFINITIONS AND INTERPRETATION

SECTION 1.1. Definitions. The following terms shall have the following meanings unless the context otherwise requires:

Act shall mean Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other applicable constitutional and statutory authority.

Bond or Bonds shall mean any or all of the General Obligation School Refunding Bonds, Series 2013, of the Issuer, issued pursuant to the Bond Resolution, as the same may be amended from time to time, whether initially delivered or issued in exchange for, upon transfer of, or in lieu of any previously issued Bond.

Bond Obligation shall mean, as of the date of computation, the principal amount of the Bonds then Outstanding.

Bond Resolution shall mean this resolution, as it may amended and supplemented as herein provided.

Business Day shall mean a day of the year other than a day on which banks located in New York, New York, and the cities in which the principal offices of the Escrow Agent and the Paying Agent are located are required or authorized to remain closed and on which the New York Stock Exchange is closed.

Code shall mean the Internal Revenue Code of 1986, as amended.

Costs of Issuance shall mean all items of expense, directly or indirectly payable or reimbursable and related to the authorization, sale and issuance of the Bonds, including but not limited to printing costs, costs of preparation and reproduction of documents, filing and recording fees, initial fees and charges of any fiduciary, legal fees and charges, fees and charges for the preparation and distribution of a preliminary official statement and official statement, if paid by the Issuer, fees and disbursements of consultants and professionals, costs of credit ratings, fees and charges for preparation, execution, transportation and safekeeping of the Bonds, costs and expenses of refunding, premiums for the insurance of the payment of the Bonds, if any, and any other cost, charge or fee paid or payable by the Issuer in connection with the original issuance of Bonds.

Debt Service for any period shall mean, as of the date of calculation, an amount equal to the sum of (a) interest payable during such period on Bonds and (b) the principal amount of Bonds which mature during such period.

Defeasance Obligations shall mean (a) cash, or (b) non-callable Government Securities.

Escrow Agent shall mean with respect to the Refunded Bonds, Argent Trust, a division of National Independent Trust Company, in the City of Ruston, Louisiana, and its successor or successors, and any other person which may at any time be substituted in its place pursuant to the Bond Resolution.

Escrow Agreement shall mean the Defeasance and Escrow Deposit Agreement dated as of March 6, 2013, between the Issuer and the Escrow Agent, substantially in the form attached hereto, and to provide for the call for redemption of the Refunded Bonds pursuant to a Notice of Defeasance and Call for Redemption; and

WHEREAS, the Issuer desires to fix the details of the Bonds and the terms of the sale of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana, acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:
hereto as Exhibit B, as the same may be amended from time to time, the terms of which are incorporated herein by reference.

Executive Officers shall mean, collectively, the President and Secretary of the Governing Authority.

Fiscal Year shall mean the one-year accounting period ending on June 30 of each year, or such other one-year period as may be designated by the Governing Authority as the fiscal year of the Issuer.

Governing Authority shall mean the Parish School Board of the Parish of Caddo, State of Louisiana, or its successor in function.

Government Securities shall mean direct general obligations of, or obligations the principal of and interest on which are unconditionally guaranteed by, the United States of America, which may be United States Treasury Obligations such as the State and Local Government Series and may be in book entry form.

Interest Payment Date shall mean March 1 and September 1 of each year, commencing September 1, 2013.

Issuer shall mean Parishwide School District of Caddo Parish, Louisiana.

Outstanding, when used with reference to the Bonds, shall mean, as of any date, all Bonds theretofore issued under the Bond Resolution, except:

(a) Bonds theretofore cancelled by the Paying Agent or delivered to the Paying Agent for cancellation;

(b) Bonds for the payment or redemption of which sufficient Defeasance Obligations have been deposited with the Paying Agent or an escrow agent in trust for the owners of such Bonds as provided in Section 11.1 hereof, provided that if such Bonds are to be redeemed, irrevocable notice of such redemption has been duly given or provided for pursuant to the Bond Resolution, to the satisfaction of the Paying Agent, or waived;

(c) Bonds in exchange for or in lieu of which other Bonds have been registered and delivered pursuant to the Bond Resolution; and

(d) Bonds alleged to have been mutilated, destroyed, lost, or stolen which have been paid as provided in the Bond Resolution or by law.

Owner or Owners shall mean the Person reflected as registered owner of any of the Bonds on the registration books maintained by the Paying Agent.

Paying Agent shall mean Argent Trust, a division of National Independent Trust Company, in the City of Ruston, Louisiana, as paying agent and Registrar hereunder, until a successor Paying Agent shall have become such pursuant to the applicable provisions of the Bond Resolution, and thereafter Paying Agent shall mean such successor Paying Agent.

Person shall mean any individual, corporation, partnership, joint venture, association, joint stock company, trust, unincorporated organization, or government or any agency or political subdivision thereof.

Record Date shall mean, with respect to an Interest Payment Date, the fifteenth day of the calendar month next preceding such Interest Payment Date, whether or not such day is a Business Day.

Refunded Bonds shall mean the Issuer's outstanding General Obligation School Bonds, Series 2005, dated March 1, 2005, consisting of $15,220,000 of Series 2005 Bonds which mature March 1, 2016 to March 1, 2030, inclusive, which are being refunded by the Bonds, as more fully described in Exhibit A hereto.
State shall mean the State of Louisiana.

Underwriter shall mean Raymond James, the original underwriters of the Bonds.

SECTION 1.2. Interpretation. In this Bond Resolution, unless the context otherwise requires, (a) words importing the singular include the plural and vice versa, (b) words of the masculine gender shall be deemed and construed to include correlative words of the feminine and neuter genders and (c) the title of the offices used in this Bond Resolution shall be deemed to include any other title by which such office shall be known under any subsequently adopted charter.

ARTICLE II
AUTHORIZATION AND ISSUANCE OF BONDS

SECTION 2.1. Authorization of Bonds; Refunding of Refunded Bonds.

(a) This Bond Resolution creates a series of Bonds of the Issuer to be designated A General Obligation School Refunding Bonds, Series 2013, of Parishwide School District of Caddo Parish, Louisiana, and provides for the full and final payment of the principal of and interest on all the Bonds.

(b) The Bonds issued under this Bond Resolution shall be issued for the purpose of refunding the Refunded Bonds through the escrow of a portion of the proceeds of the Bonds, together with other available moneys of the Issuer in Government Securities, in accordance with the terms of the Escrow Agreement, in order to provide for the payment of the principal of and interest on the Refunded Bonds as they mature or upon earlier redemption, as provided in Section 13.1 hereof.

(c) Provision having been made for the orderly payment until maturity or earlier redemption of all the Refunded Bonds, in accordance with their terms, it is hereby recognized and acknowledged that as of the date of delivery of the Bonds under this Bond Resolution, provision will have been made for the performance of all covenants and agreements of the Issuer incidental to the Refunded Bonds, and that accordingly, and in compliance with all that is herein provided, the Issuer is expected to have no future obligation with reference to the aforesaid Refunded Bonds, except to assure that the Refunded Bonds are paid from the Government Securities and funds so escrowed in accordance with the provisions of the Escrow Agreement.

(d) The Escrow Agreement is hereby approved by the Issuer and the Executive Officers are hereby authorized and directed to execute and deliver the Escrow Agreement on behalf of the Issuer substantially in the form of Exhibit B hereof, with such changes, additions, deletions or completions deemed appropriate by such signing officials, and it is expressly provided and covenanted that all of the provisions for the payment of the principal of, premium, if any, and interest on the Refunded Bonds from the special trust funds created under the Escrow Agreement shall be strictly observed and followed in all respects.

SECTION 2.2. Bond Resolution to Constitute Contract. In consideration of the purchase and acceptance of the Bonds by those who shall own the same from time to time, the provisions of this Bond Resolution shall be a part of the contract of the Issuer with the Owners of the Bonds and shall be deemed to be and shall constitute a contract between the Issuer and the Owners from time to time of the Bonds. The provisions, covenants and agreements herein set forth to be performed by or on behalf of the Issuer shall be for the equal benefit, protection and security of the Owners of any and all of the Bonds, each of which Bonds, regardless of the time or times of its issue or maturity, shall be of equal rank without preference, priority or distinction over any other thereof except as expressly provided in this Bond Resolution.

SECTION 2.3. Obligation of Bonds. The Bonds shall constitute general obligations of the Issuer, and the full faith and credit of the Issuer is hereby pledged for their payment and for the payment of all the interest thereon. The Issuer is bound under the terms and provisions of law and this Bond Resolution to impose and collect annually, in excess of all other taxes, a tax on all the property subject to taxation within the territorial limits of the Issuer, sufficient to pay the principal of and interest on the Bonds falling due each year, said tax to be levied and collected by the same officers, in the same manner and at the same time as other taxes are levied and collected within the territorial limits of the Issuer. All ad valorem taxes levied by the Issuer in each year for the payment of the Bonds shall, upon their receipt, be transferred to the Governing
Authority, which shall have responsibility for the deposit of such receipts and for the investment and reinvestment of such receipts and the servicing of the Bonds and any other general obligation school bonds of the Issuer.

SECTION 2.4. Authorization and Designation. Pursuant to the provisions of the Act, there is hereby authorized the issuance of Fifteen Million Two Hundred Eighty Thousand Dollars ($15,280,000) principal amount of Bonds of the Issuer to be designated General Obligation School Refunding Bonds, Series 2013, of Parishwide School District of Caddo Parish, Louisiana, for the purpose of refunding the Refunded Bonds. The Bonds shall be in substantially the form set forth as Exhibit C hereto, with such necessary or appropriate variations, omissions and insertions as are required or permitted by the Act and this Bond Resolution.

This Governing Authority hereby finds and determines that upon the issuance of the Bonds, the total outstanding amount of general obligation school bonds of the Issuer issued and deemed to be outstanding will not exceed the Issuer’s general obligation bond limit.

SECTION 2.5. Denominations, Dates, Maturities and Interest. The Bonds are issuable as fully registered bonds without coupons in the denominations of $5,000 principal amount or any integral multiple thereof within a single maturity, and shall be numbered R1 upward.

The Bonds shall be dated the date of delivery, shall mature on March 1 in the years and in the principal amounts and shall bear interest, payable on March 1 and September 1 of each year, commencing September 1, 2013, at the rates per annum, as follows:

The principal and premium, if any, of the Bonds are payable in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts at the principal corporate trust office of the Paying Agent, upon presentation and surrender thereof. Interest on the Bonds is payable by check mailed on or before the Interest Payment Date by the Paying Agent to the Owner thereof (determined as of the close of business on the Record Date) at the address of such Owner as it appears on the registration books of the Paying Agent maintained for such purpose.

Except as otherwise provided in this Section, Bonds shall bear interest from date thereof or from the most recent Interest Payment Date to which interest has been paid or duly provided for, as the case may be, provided, however, that if and to the extent that the Issuer shall default in the payment of the interest on any Bonds due on any Interest Payment Date, then all such Bonds shall bear interest from the most recent Interest Payment Date to which interest has been paid on the Bonds, or if no interest has been paid on the Bonds, from their dated date.

The person in whose name any Bond is registered at the close of business on the Record Date with respect to an Interest Payment Date shall in all cases be entitled to receive the interest payable on such Interest Payment Date notwithstanding the cancellation of such Bond upon any registration of transfer or exchange thereof subsequent to such Record Date and prior to such Interest Payment Date.

SECTION 2.6. Book Entry Registration of Bonds. The Bonds shall be initially issued in the name of Cede & Co., as nominee for The Depository Trust Company (DTC), as registered owner of the Bonds, and held in the custody of DTC. The Secretary of the Governing Authority or any other officer of the Issuer is authorized to execute and deliver a Blanket Letter of Representation.
to DTC on behalf of the Issuer with respect to the issuance of the Bonds in book-entry only format. The terms and provisions of said Letter of Representation shall govern in the event of any inconsistency between the provisions of this Bond Resolution and said Letter of Representation. Initially, a single certificate will be issued and delivered to DTC for each maturity of the Bonds. The Beneficial Owners will not receive physical delivery of Bond certificates except as provided herein. Beneficial Owners are expected to receive a written confirmation of their purchase providing details of each Bond acquired. For so long as DTC shall continue to serve as securities depository for the Bonds as provided herein, all transfers of beneficial ownership interest will be made by book-entry only, and no investor or other party purchasing, selling or otherwise transferring beneficial ownership of Bonds is to receive, hold or deliver any Bond certificate.

Notwithstanding anything to the contrary herein, while the Bonds are issued in book-entry-only form, the payment of principal of, premium, if any, and interest on the Bonds may be payable by the Paying Agent by wire transfer to DTC in accordance with the Letter of Representation.

For every transfer and exchange of the Bonds, the Beneficial Owner (as defined in the Blanket Letter of Representation) may be charged a sum sufficient to cover such Beneficial Owner's allocable share of any tax, fee or other governmental charge that may be imposed in relation thereto.

Bond certificates are required to be delivered to and registered in the name of the Beneficial Owner under the following circumstances:

(a) DTC determines to discontinue providing its service with respect to the Bonds. Such a determination may be made at any time by giving 30 days' notice to the Issuer and the Paying Agent and discharging its responsibilities with respect thereto under applicable law; or

(b) The Issuer determines that continuation of the system of book-entry transfer through DTC (or a successor securities depository) is not in the best interests of the Issuer and/or the Beneficial Owners.

The Issuer and the Paying Agent will recognize DTC or its nominee as the Bondholder for all purposes, including notices and voting.

Neither the Issuer or the Paying Agent are responsible for the performance by DTC of any of its obligations, including, without limitation, the payment of moneys received by DTC, the forwarding of notices received by DTC or the giving of any consent or proxy in lieu of consent.

Whenever during the term of the Bonds the beneficial ownership thereof is determined by a book entry at DTC, the requirements of this Bond Resolution of holding, delivering or transferring the Bonds shall be deemed modified to require the appropriate person to meet the requirements of DTC as to registering or transferring the book entry to produce the same effect.

If at any time DTC ceases to hold the Bonds, all references herein to DTC shall be of no further force or effect.

ARTICLE III
GENERAL TERMS AND PROVISIONS OF THE BONDS

SECTION 3.1. Exchange of Bonds; Persons Treated as Owners. The Issuer shall cause books for the registration and for the registration of transfer of the Bonds as provided in this Bond Resolution to be kept by the Paying Agent at its principal corporate trust office, and the Paying Agent is hereby constituted and appointed the registrar for the Bonds. At reasonable times and under reasonable regulations established by the Paying Agent said list may be inspected and copied by the Issuer or by the Owners (or a designated representative thereof) of 15% of the outstanding principal amount of the Bonds.

All Bonds presented for registration of transfer or exchange shall be accompanied by a written instrument or instruments of transfer in form and with a guaranty of signature satisfactory to the Paying Agent, duly executed by the Owner or his attorney duly authorized in writing.
Upon surrender for registration of transfer of any Bond, the Paying Agent shall register and deliver in the name of the transferee or transferees one or more new fully registered Bonds of authorized denomination of the same maturity and like aggregate principal amount. At the option of an Owner, Bonds may be exchanged for other Bonds of authorized denominations of the same maturity and like aggregate principal amount, upon surrender of the Bonds to be exchanged at the principal corporate trust office of the Paying Agent. Whenever any Bonds are so surrendered for exchange, the Paying Agent shall register and deliver in exchange therefor the Bond or Bonds which the Owner making the exchange shall be entitled to receive.

No service charge to the Owners shall be made by the Paying Agent for any exchange or registration of transfer of Bonds. The Paying Agent may require payment by the person requesting an exchange or registration of transfer of Bonds of a sum sufficient to cover any tax or other governmental charge that may be imposed in relation thereto.

The Issuer and the Paying Agent shall not be required to issue, register the transfer of or exchange any Bond during a period beginning at the opening of business on a Record Date or any date of selection of Bonds to be redeemed and ending at the close of business on the Interest Payment Date.

All Bonds delivered upon any registration of transfer or exchange of Bonds shall be valid obligations of the Issuer, evidencing the same debt and entitled to the same benefits under this Bond Resolution as the Bonds surrendered.

Prior to due presentment for registration of transfer of any Bond, the Issuer and the Paying Agent, and any agent of the Issuer or the Paying Agent may deem and treat the person in whose name any Bond is registered as the absolute owner thereof for all purposes, whether or not such Bond shall be overdue, and shall not be bound by any notice to the contrary.

SECTION 3.2. Bonds Mutilated, Destroyed, Stolen or Lost. In case any Bond shall become mutilated or be improperly cancelled, or be destroyed, stolen or lost, the Issuer may in its discretion adopt a resolution and thereby authorize the issuance and delivery of a new Bond in exchange for and substitution for such mutilated or improperly cancelled Bond, or in lieu of and substitution for the Bond destroyed, stolen or lost, upon the Owner (i) furnishing the Issuer and the Paying Agent proof of his ownership thereof and proof of such mutilation, improper cancellation, destruction, theft or loss satisfactory to the Issuer and the Paying Agent, (ii) giving to the Issuer and the Paying Agent an indemnity bond in favor of the Issuer and the Paying Agent in such amount as the Issuer may require, (iii) complying with such other reasonable regulations and conditions as the Issuer may prescribe and (iv) paying such expenses as the Issuer and the Paying Agent may incur. All Bonds so surrendered shall be delivered to the Paying Agent for cancellation pursuant to Section 3.4 hereof. If any Bond shall have matured or be about to mature, instead of issuing a substitute Bond, the Issuer may pay the same, upon being indemnified as aforesaid, and if such Bond be lost, stolen or destroyed, without surrender thereof.

Any such duplicate Bond issued pursuant to this Section shall constitute an original, additional, contractual obligation on the part of the Issuer, whether or not the lost, stolen or destroyed Bond be at any time found by anyone. Such duplicate Bond shall be in all respects identical with those replaced except that it shall bear on its face the following additional clause:

This bond is issued to replace a lost, cancelled or destroyed bond under the authority of R.S. 39:971 through 39:974.

Such duplicate Bond may be signed by the facsimile signatures of the same officers who signed the original Bonds, provided, however, that in the event the officers who executed the original Bonds are no longer in office, then the new Bonds may be signed by the officers then in office. Such duplicate Bonds shall be entitled to equal and proportionate benefits and rights as to lien and source and security for payment as provided herein with respect to all other Bonds hereunder, the obligations of the Issuer upon the duplicate Bonds being identical to its obligations upon the original Bonds and the rights of the Owner of the duplicate Bonds being the same as those conferred by the original Bonds.
SECTION 3.3 Preparation of Definitive Bonds, Temporary Bonds. Until the definitive Bonds are prepared, the Issuer may execute, in the same manner as is provided in Section 3.5, and deliver, in lieu of definitive Bonds, but subject to the same provisions, limitations and conditions as the definitive Bonds except as to the denominations, one or more temporary typewritten Bonds substantially of the tenor of the definitive Bonds in lieu of which such temporary Bond or Bonds are issued, in authorized denominations, and with such omissions, insertions and variations as may be appropriate to temporary Bonds.

SECTION 3.4 Cancellation of Bonds. All Bonds paid, together with all Bonds purchased by the Issuer, shall thereupon be promptly cancelled by the Paying Agent. The Paying Agent shall thereupon promptly furnish to the Secretary of the Governing Authority an appropriate certificate of cancellation.

SECTION 3.5 Execution. The Bonds shall be executed in the name and on behalf of the Issuer by the manual or facsimile signatures of the Executive Officers, and the corporate seal of the Issuer (or a facsimile thereof) shall be thereunto affixed, imprinted, engraved or otherwise reproduced thereon. In case any one or more of the officers who shall have signed or sealed any of the Bonds shall cease to be such officer before the Bonds so signed and sealed shall have been actually delivered, such Bonds may, nevertheless, be delivered as herein provided, and may be issued as if the person who signed or sealed such Bonds had not ceased to hold such office. Said officers shall, by the execution of the Bonds, adopt as and for their own proper signatures their respective facsimile signatures appearing on the Bonds or any legal opinion certificate thereon, and the Issuer may adopt and use for that purpose the facsimile signature of any person or persons who shall have been such officer at any time on or after the date of such Bond, notwithstanding that at the date of such Bond such person may not have held such office or that at the time when such Bond shall be delivered such person may have ceased to hold such office.

SECTION 3.6 Registration by Secretary of State. The Bonds shall be registered with the Secretary of State of the State of Louisiana and shall bear the endorsement of the Secretary of State of the State of Louisiana substantially in the form set forth in Exhibit C hereto, provided such endorsement shall be manually signed only on the Bonds initially delivered to the Underwriter, and any Bonds subsequently exchanged therefor as permitted in this Bond Resolution may bear the facsimile signature of said Secretary of State.

SECTION 3.7 Registration by Paying Agent. No Bond shall be valid or obligatory for any purpose or entitled to any security or benefit under this Bond Resolution unless and until a certificate of registration on such Bond substantially in the form set forth in Exhibit C hereto shall have been duly executed on behalf of the Paying Agent by a duly authorized signatory, and such executed certificate of the Paying Agent upon any such Bond shall be conclusive evidence that such Bond has been executed, registered and delivered under this Bond Resolution.

ARTICLE IV
SINKING FUND; PAYMENT OF BONDS

SECTION 4.1 Sinking Fund.

(a) For the payment of the principal of and the interest on the Bonds, the Issuer will maintain a special fund, to be held by the regularly designated fiscal agent of the Issuer (the Sinking Fund), into which the Issuer will deposit the proceeds of the aforesaid tax described in Section 2.3 hereof. The depository for the Sinking Fund shall transfer from the Sinking Fund to the Paying Agent at least one (1) day in advance of each Interest Payment Date, funds fully sufficient to pay promptly the principal and interest falling due on such date.

(b) All moneys deposited with the regularly designated fiscal agent bank or banks of the Issuer or the Paying Agent under the terms of this Bond Resolution shall constitute sacred funds for the benefit of the Owners of the Bonds, and shall be secured by said fiduciaries at all times to the full extent thereof in the manner required by law for the securing of deposits of public funds.

(c) All or any part of the moneys in the Sinking Fund shall, at the written request of the Issuer, be invested in accordance with the provisions of the laws of the State of Louisiana, in which event all income derived from such investments shall be added only to the Sinking Fund. Accrued
interest, if any, received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.

SECTION 4.2. Payment of Bonds. The Issuer shall duly and punctually pay or cause to be paid as herein provided, the principal of every Bond and the interest thereon, at the dates and places and in the manner stated in the Bonds according to the true intent and meaning thereof.

ARTICLE V
REDEMPTION OF BONDS

SECTION 5.1. Optional Redemption of Bonds. Those Bonds maturing March 1, 2024 and thereafter, will be callable for redemption by the Issuer in full, or in part, at any time on or after March 1, 2023, and if less than a full maturity, then by lot within such maturity, at the principal amount thereof and accrued interest, if any, to the date fixed for redemption. In the event any Bond to be redeemed is of a denomination larger than Five Thousand Dollars ($5,000), a portion of such Bond ($5,000 or any multiple thereof) may be redeemed. Official notice of such call of any of the Bonds for redemption will be given by first class mail, postage prepaid, by notice deposited in the United States mails not less than thirty (30) days prior to the redemption date addressed to the registered owner of each bond to be redeemed at his address as shown on the registration books of the Paying Agent.

SECTION 5.2. Mandatory Sinking Fund Redemption. The Term Bonds maturing on March 1, 2029 shall be subject to mandatory sinking fund redemption on March 1 in the years and in the principal amounts set forth below at a redemption price equal to 100% of the principal amount thereof, plus accrued interest thereon:

<table>

</tr>
</tbody>
</table>

* Final Maturity

ARTICLE VI
APPLICATION OF BOND PROCEEDS

SECTION 6.1. Application of Bond Proceeds. As a condition of the issuance of the Bonds, the Issuer hereby binds and obligates itself to:

(a) Deposit irrevocably in trust with the Escrow Agent under the terms and conditions of the Escrow Agreement, as hereinafter provided, an amount of the proceeds derived from the issuance and sale of the Bonds (exclusive of accrued interest), together with additional moneys of the Issuer, as will enable the Escrow Agent to purchase Government Obligations described in the Escrow Agreement, which shall mature in principal and interest in such a manner as to provide at least the required cash amount on or before each payment date for the Refunded Bonds (said amounts being necessary on each of the designated dates to pay and retire or redeem the Refunded Bonds, including premiums, if any, payable upon redemption). Prior to or concurrently with the delivery of the Bonds, the Issuer shall obtain an independent mathematical verification that the moneys and obligations required to be irrevocably deposited in trust in the Escrow Fund with the Escrow Agent, together with the earnings to accrue thereon, will always be sufficient for the payment of the principal of, premium, if any, and interest on the Refunded Bonds. The moneys so deposited with the Escrow Agent shall constitute a trust fund irrevocably dedicated for the use and benefit of the owners of the Refunded Bonds.

(b) Deposit in the Expense Fund established with the Escrow Agent such amount of the proceeds of the Bonds as will enable the Escrow Agent to pay the Costs of Issuance and the costs properly attributable to the establishment and administration of the Escrow Fund on behalf of the Issuer.

(c) Deposit accrued interest, if any, received on the delivery date of the Bonds into the Sinking Fund established by Section 4.1 hereof and to apply said funds to pay a portion of the interest due on the Bonds on the first Interest Payment Date therefor. Accrued interest, if any,
received upon delivery of the Bonds shall be invested only in Government Securities maturing on or prior to the first Interest Payment Date.

ARTICLE VII
SUPPLEMENTAL BOND RESOLUTIONS

SECTION 7.1 Supplemental Resolutions Effective Without Consent of Owners. For any one or more of the following purposes and at any time from time to time, a resolution supplemental hereto may be adopted, which, upon the filing with the Paying Agent of a certified copy thereof, but without any consent of Owners, shall be fully effective in accordance with its terms:

(a) to add to the covenants and agreements of the Issuer in the Bond Resolution other covenants and agreements to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;

(b) to add to the limitations and restrictions in the Bond Resolution other limitations and restrictions to be observed by the Issuer which are not contrary to or inconsistent with the Bond Resolution as theretofore in effect;

(c) to surrender any right, power or privilege reserved to or conferred upon the Issuer by the terms of the Bond Resolution, but only if the surrender of such right, power or privilege is not contrary to or inconsistent with the covenants and agreements of the Issuer contained in the Bond Resolution;

(d) to cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision of the Bond Resolution; or

(e) to insert such provisions clarifying matters or questions arising under the Bond Resolution as are necessary or desirable and are not contrary to or inconsistent with the Bond Resolution as theretofore in effect.

SECTION 7.2 Supplemental Resolutions Effective With Consent of Owner. Except as provided in Section 7.1, any modification or amendment of the Bond Resolution or of the rights and obligations of the Issuer and of the Owners of the Bonds hereunder, in any particular, may be made by a supplemental resolution, with the written consent of the Owners of a majority of the Bond Obligation at the time such consent is given. No such modification or amendment shall permit a change in the terms of maturity of the principal of any outstanding Bond or of any installment of interest thereon or a reduction in the principal amount thereof or in the rate of interest thereon without the consent of the Owner of such Bond, or shall reduce the percentages of Bonds the consent of the Owner of which is required to effect any such modification or amendment, or change the obligation of the Issuer to levy and collect taxes for the payment of the Bonds as provided herein, without the consent of the Owners of all of the Bonds then outstanding, or shall change or modify any of the rights or obligations of either the Paying Agent or the Escrow Agent without its written assent thereto. For the purposes of this Section, Bonds shall be deemed to be affected by a modification or amendment of the Bond Resolution if the same adversely affects or diminishes the rights of the Owners of said Bonds.

ARTICLE VIII
TAX COVENANTS; CONTINUING DISCLOSURE

SECTION 8.1 Tax Covenants. The Issuer covenants and agrees that, to the extent permitted by the laws of the State of Louisiana, it will comply with the requirements of the Code to in order to establish, maintain and preserve the exclusion from gross income of interest on the Bonds under the Code. The Issuer shall not take any action or fail to take any action, nor shall it permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in any manner, to acquire any securities or obligations the acquisition of which would cause any Bond to be an arbitrage bond as defined in the Code or would result in the inclusion of the interest on any Bond in gross income under the Code, including, without limitation, (i) the failure to comply with the limitation on investment of the proceeds of the Bonds, (ii) the failure to pay any required rebate of arbitrage earnings to the United States of America, or (iii) the use of the proceeds of the Bonds in a manner which would cause the Bonds to be private activity bonds under the Code.
The Executive Officers are hereby empowered, authorized and directed to take any and all action and to execute and deliver any instrument, document or certificate necessary to effectuate the purposes of this Section.

SECTION 8.2. Continuing Disclosure Certificate. The Secretary of the Governing Authority is hereby empowered and directed to execute an appropriate Continuing Disclosure Certificate (substantially in the form set forth in Appendix I of the official statement issued in connection with the sale and issuance of the Bonds) pursuant to S.E.C. Rule 15c2-12(b)(5).

SECTION 8.3. Not Qualified Tax-Exempt Obligations. The Bonds are not designated as "qualified tax-exempt obligations" within the meaning of Section 265(b)(3) of the Code.

ARTICLE IX
REMEDIES ON DEFAULT

SECTION 9.1. Events of Default. If one or more of the following events (in this Bond Resolution called Events of Default) shall happen, that is to say,

(a) if default shall be made in the due and punctual payment of the principal of any Bond when and as the same shall become due and payable, whether at maturity or otherwise (in determining whether a principal payment default has occurred); or

(b) if default shall be made in the due and punctual payment of any installment of interest on any Bond when and as such interest installment shall become due and payable (in determining whether an interest payment default has occurred); or

(c) if default shall be made by the Issuer in the performance or observance of any other of the covenants, agreements or conditions on its part in the Bond Resolution, any supplemental resolution or in the Bonds contained and such default shall continue for a period of forty-five (45) days after written notice thereof to the Issuer by any Owner; or

(d) if the Issuer shall file a petition or otherwise seek relief under any Federal or State bankruptcy law or similar law; then, upon the happening and continuance of any Event of Default and the Owners of the Bonds shall be entitled to exercise all rights and powers for which provision is made under Louisiana law. All remedies shall be cumulative with respect to the Paying Agent and the Owners; if any remedial action is discontinued or abandoned, the Paying Agent and the Owners shall be restored to their former positions.

ARTICLE X
CONCERNING FIDUCIARIES

SECTION 10.1. Escrow Agent; Appointment and Acceptance of Duties. Argent Trust, a division of National Independent Trust Company, in the City of Ruston, Louisiana, is hereby appointed Escrow Agent with respect to the Refunded Bonds. The Escrow Agent shall signify its acceptance of the duties and obligations imposed upon it by this Bond Resolution by executing and delivering the Escrow Agreement.

SECTION 10.2. Paying Agent; Appointment and Acceptance of Duties. The Issuer will at all times maintain a Paying Agent having the necessary qualifications for the performance of the duties described in this Bond Resolution. The designation of Argent Trust, a division of National Independent Trust Company, in the City of Ruston, Louisiana, as the initial Paying Agent is hereby confirmed and approved. The Paying Agent shall signify its acceptance of the duties and obligations imposed on it by the Bond Resolution by executing and delivering to the Executive Officers a written acceptance thereof. The Governing Authority reserves the right to appoint a successor Paying Agent by (a) filing with the Person then performing such function a certified copy of a resolution giving notice of the termination of the agreement and appointing a successor and (b) causing notice to be given to each Owner. Furthermore, the Paying Agent may be removed by the Issuer at any time for any breach of its duties set forth herein, affective upon appointment of a successor Paying Agent as set forth above. Every Paying Agent appointed hereunder shall at all times be a trust company or bank organized and doing business under the
laws of the United States of America or of any State, authorized under such laws to exercise trust
powers, and subject to supervision or examination by Federal or State authority.

ARTICLE XI
MISCELLANEOUS

SECTION 11.1. Defeasance.

(a) If the Issuer shall pay or cause to be paid to the Owners of all Bonds then outstanding, the
principal and interest become due thereon, at the times and in the manner stipulated therein and
in the Bond Resolution, then the covenants, agreements and other obligations of the Issuer to the
Owners shall be discharged and satisfied. In such event, the Paying Agent shall, upon the
request of the Issuer, execute and deliver to the Issuer all such instruments as may be desirable to
evidence such discharge and satisfaction and the Paying Agent shall pay over or deliver to the
Issuer all moneys, securities and funds held by them pursuant to the Bond Resolution which are
not required for the payment of Bonds not theretofore surrendered for such payment.

(b) Bonds or interest installments for the payment of which money shall have been set aside and
shall be held in trust (through deposit by the Issuer of funds for such payment or otherwise) at
the maturity date thereof shall be deemed to have been paid within the meaning and with the
effect expressed above in this Section. Bonds shall be deemed to have been paid, prior to their
maturity, within the meaning and with the effect expressed above in this Section if they have
been defeased pursuant to Chapter 14 of Title 39 of the Louisiana Revised Statutes of 1950, as
amended, or any successor provisions thereto.

SECTION 11.2. Evidence of Signatures of Owners and Ownership of Bonds.

(a) Any request, consent, revocation of consent or other instrument which the Bond Resolution
may require or permit to be signed and executed by the Owners may be in one or more
instruments of similar tenor, and shall be signed or executed by such Owners in person or by
their attorneys-in-fact appointed in writing. Proof of (i) the execution of any such instrument, or
of an instrument appointing any such attorney, or (ii) the ownership by any person of the Bonds
shall be sufficient for any purpose of the Bond Resolution (except as otherwise therein expressly
provided) if made in the following manner, or in any other manner satisfactory to the Paying
Agent, which may nevertheless in its discretion require further or other proof in cases where it
deems the same desirable:

(1) the fact and date of the execution by any Owner or his attorney-in-fact of such instrument
may be proved by the certificate, which need not be acknowledged or verified, of an
officer of a bank or trust company or of any notary public or other officer authorized to
take acknowledgments of deeds, that the person signing such request or other instrument
acknowledged to him the execution thereof, or by an affidavit of a witness of such
execution, duly sworn to before such notary public or other officer. Where such execution
is by an officer of a corporation or association or a member of a partnership, on behalf of
such corporation, association or partnership, such certificate or affidavit shall also
constitute sufficient proof of his authority;

(2) the ownership of Bonds and the amount, numbers and other identification, and date of
owning the same shall be proved by the registration books of the Paying Agent.

(b) Any request or consent by the Owner of any Bond shall bind all future Owners of such Bond
in respect of anything done or suffered to be done by the Issuer or the Paying Agent in
accordance therewith.

SECTION 11.3. Moneys Held for Particular Bonds. The amounts held by the Paying Agent for
the payment due on any date with respect to particular Bonds shall, on and after such date and
pending such payment, be set aside on its books and held in trust by it, without liability for
interest, for the Owners of the Bonds entitled thereto.

SECTION 11.4. Parties Interested Herein. Nothing in the Bond Resolution expressed or implied
is intended or shall be construed to confer upon, or to give to, any person or entity, other than the
Issuer, the Paying Agent, the Escrow Agent and the Owners of the Bonds any right, remedy or
claim under or by reason of the Bond Resolution or any covenant, condition or stipulation thereof; and all the covenants, stipulations, promises and agreements in the Bond Resolution contained by and on behalf of the Issuer shall be for the sole and exclusive benefit of the Issuer, the Paying Agent, the Escrow Agent and the Owners of the Bonds and the owners of the Refunded Bonds.

SECTION 11.5. No Recourse on the Bonds. No recourse shall be had for the payment of the principal of or interest on the Bonds or for any claim based thereon or on this Bond Resolution against any member of the Governing Authority or officer of the Issuer or any person executing the Bonds.

SECTION 11.6. Successors and Assigns. Whenever in this Bond Resolution the Issuer is named or referred to, it shall be deemed to include its successors and assigns and all the covenants and agreements in this Bond Resolution contained by or on behalf of the Issuer shall bind and enure to the benefit of its successors and assigns whether so expressed or not.

SECTION 11.7. Subrogation. In the event the Bonds herein authorized to be issued, or any of them, should ever be held invalid by any court of competent jurisdiction, the Owner or Owners thereof shall be subrogated to all the rights and remedies against the Issuer had and possessed by the owner or owners of the Refunded Bonds.

SECTION 11.8. Severability. In case any one or more of the provisions of the Bond Resolution or of the Bonds issued hereunder shall for any reason be held to be illegal or invalid, such illegality or invalidity shall not affect any other provision of the Bond Resolution or of the Bonds, but the Bond Resolution and the Bonds shall be construed and enforced as if such illegal or invalid provisions had not been contained therein. Any constitutional or statutory provision enacted after the date of the Bond Resolution which validates or makes legal any provision of the Bond Resolution or the Bonds which would not otherwise be valid or legal shall be deemed to apply to the Bond Resolution and to the Bonds.

SECTION 11.9. Publication of Bond Resolution. This Bond Resolution shall be published one time in the official journal of the Issuer; however, it shall not be necessary to publish any exhibits hereto if the same are available for public inspection and such fact is stated in the publication.

SECTION 11.10. Execution of Documents. In connection with the issuance and sale of the Bonds, the Executive Officers are each authorized, empowered and directed to execute on behalf of the Issuer such documents, certificates and instruments as they may deem necessary, upon the advice of bond counsel, to effect the transactions contemplated by this Bond Resolution, the signatures of the Executive Officers on such documents, certificates and instruments to be conclusive evidence of the due exercise of the authority granted hereunder.

ARTICLE XII
SALE OF BONDS

SECTION 12.1. Sale of Bonds. The Bonds have been awarded to and sold to the Underwriter at the price and under the terms and conditions set forth in the Bond Purchase Agreement attached hereto as Exhibit D, and after their execution, registration by the Secretary of State and authentication by the Paying Agent, the Bonds shall be delivered to the Underwriter or its agents or assigns, upon receipt by the Issuer of the agreed purchase price.

SECTION 12.2. Official Statement. The Issuer hereby approves the form and content of the Preliminary Official Statement dated January 15, 2013, pertaining to the Bonds, which has been submitted to the Issuer, and hereby ratifies its prior use by the Underwriter in connection with the sale of the Bonds. The Issuer further approves the form and content of the final Official Statement and hereby authorizes and directs the execution by the President and Secretary of the Governing Authority and delivery of such final Official Statement to the Underwriter for use in connection with the public offering of the Bonds.

ARTICLE XIII
REDEMPTION OF REFUNDED BONDS
SECTION 13.1. **Call for Redemption.** Subject only to the actual delivery of the Bonds, the Refunded Bonds are hereby irrevocably called for redemption on March 1, 2015, at the principal amount thereof and accrued interest to the redemption date, in compliance with the resolution authorizing their issuance.

SECTION 13.2. **Notice of Defeasance and Call for Redemption.** In accordance with the resolution authorizing the issuance of the Refunded Bonds, a Notice of Defeasance and Call for Redemption in substantially the form attached hereto as Exhibit E shall be sent by the paying agent for the Refunded Bonds to the registered owners as the same appear on the registration books of said paying agent by means of first class mail not less than thirty (30) days prior to the date of redemption.

The foregoing resolution having been submitted to a vote, the vote thereon was as follows:

/s/ Gerald Dawkins       /s/ Larry Ramsey
Secretary                President

**8.02 Resolution Giving Preliminary Approval to the Issuance of General Obligation School Refunding Bonds and Providing for Other Matters in Connection Therewith.** The board approved the following resolution giving preliminary approval to the issuance of not to exceed Seventeen Million Five Hundred Thousand Dollars ($17,500,000) of General Obligation School Refunding Bonds of Parishwide School District of Caddo Parish, Louisiana; making application to the State Bond Commission for approval of said Bonds; and providing for other matters in connection therewith.

WHEREAS, pursuant to the provisions of Article VI, Section 33 of the Constitution of the State of Louisiana of 1974, Sub-Part A, Part III, Chapter 4, of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, Parishwide School District of Caddo Parish, Louisiana (the "Issuer") has heretofore issued $20,000,000 of General Obligation School Bonds, Series 2006 (the "Series 2006 Bonds"); and

WHEREAS, in order to provide debt service savings to the Issuer, the Issuer desires to refund all or any portion of the Issuer’s outstanding Series 2006 Bonds pursuant to the provisions of Chapter 14-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority (the "Act"), through the issuance of its refunding bonds; and

WHEREAS, pursuant to the Act, and subject to the approval of the State Bond Commission, the Issuer desires to accomplish the refunding by authorizing the issuance of not exceeding Seventeen Million Five Hundred Thousand Dollars ($17,500,000) of its General Obligation School Refunding Bonds (the "Bonds"), to be payable from unlimited ad valorem taxes; and
WHEREAS, the Issuer desires to make formal application to the State Bond Commission for approval of the issuance of the Bonds;

NOW, THEREFORE, BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. Preliminary Approval of the Bonds. Preliminary approval is given to the issuance of not exceeding Seventeen Million Five Hundred Thousand Dollars ($17,500,000) of General Obligation School Refunding Bonds (the "Refunding Bonds"), of the Issuer, to be issued for the purpose of refunding all or any portion of the Issuer’s outstanding General Obligation School Bonds, Series 2006, and paying the costs of issuance of the Refunding Bonds, said Refunding Bonds to be payable from and secured by unlimited ad valorem taxes now being levied and collected annually Issuer. The Refunding Bonds shall bear interest at a rate or rates not to exceed four and one-half percent (4.5%) per annum, to be determined by subsequent resolution of this Governing Authority at the time of the sale of the Refunding Bonds, and shall mature no later than March 1, 2031. The Refunding Bonds shall be issued in fully registered form, shall be sold to the purchasers thereof at a price of not less than 97% of par, plus accrued interest, and shall have such additional terms and provisions as may be determined by this Governing Authority.

SECTION 2. Employment. This Governing Authority finds and determines that a real necessity exists for the employment of special counsel in connection with the issuance of the Refunding Bonds, and accordingly, Foley& Judell, LLP, of New Orleans, Louisiana, as Bond Counsel and Jacqueline A. Scott & Associates, APLC, of Bossier City, Louisiana, as Co-Bond Counsel, are hereby employed to do and perform work of a traditional legal nature as bond counsel with respect to the issuance and sale of said Refunding Bonds. Said Bond Counsel and Co-Bond Counsel shall prepare and submit to this Governing Authority for adoption all of the proceedings incidental to the authorization, issuance, sale and delivery of said Refunding Bonds, shall counsel and advise this Governing Authority as to the issuance thereof and shall furnish their opinions covering the legality of the issuance of the Refunding Bonds. The total combined fee of Bond Counsel and Co-Bond Counsel shall be fixed at a sum not exceeding the maximum fee allowed by the Attorney General's fee guidelines for such bond counsel work in connection with the issuance of revenue bonds and based on the amount of said Refunding Bonds actually issued, sold, delivered and paid for, plus "out-of-pocket" expenses, said fees to be contingent upon the issuance, sale and delivery of said Refunding Bonds. That pursuant to instructions from the Superintendent, Bond Counsel shall cause to be prepared an official statement as approved by the State Bond Commission, shall be paid from the proceeds of the issue for which it has been prepared. Said Official Statement may be submitted to one or more of the nationally recognized bond rating service or services, together with a request that an appropriate rating be assigned. Payment for all ratings shall be made by the Superintendent upon presentation of appropriate statements from the particular rating service furnishing the ratings. A certified copy of this resolution shall be submitted to the Attorney General of the State of Louisiana for his written approval of said employment and of the fees herein designated, and the Superintendent is hereby empowered and directed to issue vouchers in payment for the work herein provided for upon completion of the work herein specified and under the conditions herein enumerated.

SECTION 3. State Bond Commission. Application is hereby made to the State Bond Commission, Baton Rouge, Louisiana, for approval of the issuance and sale of the Refunding Bonds and for consent and authority to proceed with the issuance and sale of the Refunding Bonds as provided above, and Bond Counsel is directed to make application to the State Bond Commission in accordance with the foregoing on behalf of the Governing Authority.

By virtue of applicant/issuer’s application for, acceptance and utilization of the benefits of the Louisiana State Bond Commission’s approval(s) resolved and set forth herein, it resolves that it understands and agrees that such approval(s) are expressly conditioned upon, and it further resolves that it understands, agrees and binds itself, its successors and assigns to, full and continuing compliance with the "State Bond Commission Policy on Approval of Proposed Use of Swaps, or other forms of Derivative Products Hedges, Etc.", adopted by the Commission on July 20, 2006, as to the borrowing(s) and other matter(s) subject to the approval(s), including subsequent application and approval under covered thereby.
SECTION 4. **Appointment of Investment Banker/Underwriter**. Stephens Inc., of Baton Rouge, Louisiana (the "Underwriter"), is hereby appointed as investment banker/underwriter in connection with refunding the Series 2006 Bonds, any compensation to be subsequently approved by the Issuer and to be paid from the proceeds of the Refunding Bonds and contingent upon the issuance of the Refunding Bonds; provided that no compensation shall be due to said investment banker/underwriter unless the Refunding Bonds are sold and delivered.

SECTION 5. **Sale of Bonds**. The Bonds are hereby authorized to be sold to the Underwriter, and the Superintendent is hereby authorized to execute a Bond Purchase Agreement with the Underwriter, in form and substance satisfactory to Bond Counsel to the School Board, provided the sale of the Bonds produces minimum net present value savings (after payment of all costs) to taxpayers of not less than 3.00% of the principal amount of Series 2006 Bonds being refunded.

The foregoing resolutions having been submitted to a vote, the vote thereon was as follows:

And the resolution was declared adopted on this, the 19th day of February, 2013.

/S/ Dr. Gerald D. Dawkins               /S/ Larry Ramsey
Secretary                                President

**8.03 Out of State Travel.** The board approved requests for Out of State travel funded by General Fund as recommended by staff and submitted in the mailout.

**8.04 Request for Long-term Use of Ridgewood.** Move to approve the request for long-term use of Ridgewood Middle School’s gymnasium by Xpress AAU Basketball team as submitted in the mailout.

**8.06 Resolution Regarding Sale of Laurel Street Property.** The board approved the resolution regarding the sale of the Laurel Street property as submitted in the mailout.

**8.07 Proclamation – Read Across Louisiana Day.** The board approved a proclamation calling all citizens of Caddo Parish to assure that every child is in a safe place reading with a caring adult on March 2, 2013 in recognition of Dr. Seuss’s birthday. A copy is attached in the permanent file of the February 19, 2013 CPSB meeting.

**8.08 April Board Meeting Date.** The board approved the April 23 CPSB meeting date to be changed back to the original meeting date of April 16, 2013.

**13.01 Executive Session, Student Readmission Appeals.** The board approved readmission appeals for students C.R. and N.R. as recommended by staff and submitted in the mailout. The parents are in agreement with staff’s recommendation.
13.02 Litigation Update: Demand of Sara Opie dated November 8, 2012. The board approved staff’s recommendation as submitted.

BIDS – CONSTRUCTION/CAPITAL PROJECTS

Ms. Priest moved, seconded by Mr. Rachal, to accept the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) J. D. Electric Co., Inc., with a Base Bid, for the sum total of $560,000 for Project 2013-Q501, “QSCB2 Data Wiring & Security at Broadmoor, Caddo Career Technology and Caddo Middle Magnet”; and (2) Johnny’s Roofing & Metal Works, Inc., with a Base Bid, Alternate 1, Alternate 2 and Alternate 3, for the sum total of $860,635 for Project 2013-091, “Bethune Roofing Repair”. Mr. Rachal asked if the $860,000 for the roof at Bethune was included in the $4 million set aside for Bethune, and Mr. White responded yes. Vote on the motion carried unanimously. A copy of the bid tabulation sheets is attached and made a part of the permanent file for the February 19, 2013 CPSB meeting.

REQUEST FOR USE OF SCHOOL BUS BY SUSLA

Mr. Rachal moved, seconded by Mrs. Bell, to approve the request for use of one CPSB bus by Southern University at Shreveport for the Educational Talent Search Program as submitted in the mailout. Vote on the motion carried with Board member Jasmine Green abstaining.

RFP FOR SUPERINTENDENT SEARCH

Mr. Riall moved, seconded by Mrs. Bell, to approve the RFP for the Superintendent Search as submitted in the mailout. Mr. Rachal stated his belief that this is the proper thing for the board to do in following due diligence. He said the board also has a fiduciary responsibility to make sure no stone is left unturned by limiting the search to only Caddo Parish. He said the last search began internally and the results did not fare well, and it turned out to be quite expensive.

Ms. Trammel asked the board to keep in mind that if it is done internally, someone on staff will have to be named to conduct the search. She said there may be those in the system that may desire to apply for the position and would not be able to conduct the search, and these are things that need to be considered, in addition to looking outside the box in order to get what is best for Caddo, noting that the best person might be here.

Mr. Hooks stated that it seems we are talking about five to six years ago, and he does believe we have someone locally that can fill the position, someone that knows the people in the community and they know him, someone that has an open door policy, and someone visible in the community.

Mr. Ramsey reminded the board that the motion on the floor is to move the RFP forward, which is asking for contractors to tell the board their cost to do three different type searches – a local search, a regional search and a national search. He added this motion is not to debate what type search the board will do, but to move forward and get costs. Mr. Riall and Mrs. Armstrong also reiterated that the motion is an RFP for a contractor and not a superintendent.

Mr. Hooks moved, seconded by Mrs. Crawley, that while we are waiting on the proposal on the RFP that staff advertise for a superintendent in the southern region including Texas, Arkansas and Louisiana utilizing the print media, the Internet, NSBA and LSBA. Mr. Ramsey clarified that this motion is to do an internal search utilizing those vehicles to conduct it. Mr. Hooks stated that he believes if we do this, it may not be necessary to use an outside company. He said he is suggesting that we only use the Sunday editions of newspapers in these areas as a possible way to cut costs, which is what he is looking at when it is not in the budget.
Mrs. Crawley said she will not use the money argument, because she believes a good superintendent is worth what we spend; and her recollection is that the national searches do not work. She also announced that Rapides and East Baton Rouge parishes are currently in a search with an outside firm and they are not having success. Mrs. Crawley asked Mr. Abrams how many times do we send out an RFP and then the board changes its mind and states they will not do it that way? Mr. Abrams said he is not certain, but he knows that he has never seen someone come back. Mrs. Crawley stated that is what she understands and once the board votes to send out RFPs that is the route the board will follow, it will hire one of the companies. Mr. Abrams explained that the RFP is designed so the board can make a decision about whether or not it wishes to move forward, and if there isn’t a budget, then the RFP would devise whether or not the board does a local, regional or national search, and based on the cost of each, the board can elect one of the areas or it can elect to not do any if the cost is too high or they do not provide what is needed, and it’s the board that makes that decision. Mrs. Crawley asked if the board has ever made such a decision in other areas, i.e. construction? Mr. Ramsey reminded Mrs. Crawley that the motion is on using an in-house search team to do the search, and it is an alternative motion to moving forward with an RFP, and asked her to keep her comments to the motion on the floor. Mrs. Crawley stated that is why she supports Mr. Hooks’ motion, because she doesn’t remember going out for an RFP first before looking in-house.

Mr. Riall stated he believes this is putting the cart before the horse since the board has not spent any money; and once RFPs are received, then the board can make these other decisions.

Ms. Trammel moved to call for the question, seconded by Mrs. Bell, and end debate. Vote on the motion carried with Board member Crawley opposed and Board members Riall, Green, Pierson, Hooks, Trammel, Priest, Crawford, Ramsey, Armstrong and Bell supporting the motion. Mr. Rachal was absent for the vote.

On the substitute motion, Mr. Riall asked for clarification and Mr. Ramsey asked Mr. Hooks if he understands his motion is to do a local search using the staff, and Mr. Hooks said that is right. Mr. Riall asked if this means we will also move forward with an RFP, because the substitute motion state “while waiting for the proposal”. Mr. Abrams stated that Mr. Hooks’ motion was to be a friendly amendment to the original motion with the intent that if the motion passes to do an RFP, that while waiting for the RFP staff would begin advertising in the regional area. Mr. Abrams further stated that is not the motion he heard, but he believes it is what the maker of the motion intended. Mr. Ramsey stated he believes Mr. Hooks’ motion is a substitute motion and was made to replace the original motion. Mr. Hooks clarified that he first stated he would like to add a friendly amendment and was asked what is the motion and he read it. Mr. Ramsey stated that what was stated was “to start a local search” which is different from an RFP. Mr. Hooks said he believes his words are being thrown around. Mr. Ramsey restated that the motion on the table is as stated and is a separate motion.

Vote on the substitute motion failed with Board members Crawley and Hooks supporting the motion and Board members Riall, Green, Pierson, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell opposed.

Vote on the original motion to move the RFP forward carried with Board members Crawley and Hooks opposed and Board members Riall, Green, Pierson, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell supporting.

ANNOUNCEMENTS AND REQUESTS

Mr. Ramsey asked that board members submit their nominee for the Superintendent Search Advisory Committee by April 1st.
Ms. Trammel stated that last week she visited the Ombudsman location and she was pleased to see what was going on in the schools with students making progress.

Ms. Priest expressed appreciation to Mr. Murry for speaking to the Downtown Rotary on the Caddo Public School System security program. She said it was very well received by those in attendance. Also, she announced that Mayor Glover visited Oak Park and joined every PTA in the Caddo Parish Public School System.

Mr. Hooks stated he has two concerns: (1) has administration at Fair Park been told not to receive anything from the Alumni Association, because 15 guitars were donated; however they were refused by the administration. Dr. Dawkins stated he is unaware of that and he will follow up. Mr. Hooks announced he will put his additional requests on the request sheet.

Mrs. Bell expressed appreciation to the ID Badge Committee and announced this group will meet again and bring something to the board. Also, she too was very impressed when visiting the Ombudsman program and believes it is an answer to prayer for those students who want to shared conversations with some of the students and how it is working for them. Regarding the recent visit by BESE to some of Caddo’s schools, Mrs. Bell commented on how impressed the president of BESE was with what is happening in Caddo, and she believes he now understands all that has been put on the teachers. She also announced “Walking the Walk” for autism awareness and encouraged board members to participate. Board members were also encouraged to attend some of the play-off games, i.e. Huntington boys and girls basketball teams.

Mr. Pierson also announced that the bus carrying the BTW basketball team to New Orleans broke down between Alexandria and Opelousas; however, another bus was sent to pick them up and they are now on their way again.

**EXECUTIVE SESSION**

**Student Readmission Appeal.** Mr. Pierson moved, seconded by Mrs. Bell, to go into executive session for up to 15 minutes to hear a student readmission appeal for A.C. Vote on the motion carried unanimously and the board went into executive session at approximately 6:13 p.m. The board reconvened in open session at approximately 6:35 p.m. Mr. Riall moved, seconded by Ms. Priest, that the board accept staff’s decision at the present but with the agreement that as soon as A.C. finishes his drug program that he can come back to the board and apply for readmission to Northwood. Vote on the motion carried unanimously.

**Adjournment.** Ms. Trammel moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 6:37 p.m.

Dr. Gerald D. Dawkins, Secretary  
Larry E. Ramsey, President
March 4, 2013

The Caddo Parish School Board (CPSB) met in a special work session at approximately 5:00 p.m. on Monday, March 4, 2013, Paragon Casino Resort, 711 Paragon Place, Marksville, Louisiana immediately following the First General Session of the Louisiana School Boards Annual Conference with President Larry Ramsey presiding. Other board members present were Steve Riall, Jasmine Green (arrived at approximately 5:25 p.m.), Carl Pierson, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were staff members Jim Lee, Dr. Mary Nash Robinson (recording), and Attorney Reginald Abrams.

President Ramsey addressed the need for better discussion in the face of the camera and the need to work more cohesively as a group. For that reason, he asked Mr. Abrams to draft a policy to establish “standing committees”, and requested that Mr. Abrams share this information with the board.

Mr. Abrams issued copies of a draft policy for discussion. Per the discussion, standing committees #3 “Finance” and #4 “Insurance” were combined, and standing committee #5 was revised to read “Long-Term Planning and Development Committee”. It was the Board’s consensus that “Board Committees” would serve the board and district well and that it would be placed on the agenda of the March work session/regular session.

Mr. Abrams also briefed the board on new legislation, LSA-R.S.17:416.13, 416-13, a student code of conduct, requirements, bullying, prohibition, notice, reporting, accountability, which requires school districts to revisit the “bullying policy”. A copy of the legislation was provided and discussion ensued on the changes from current policy, requirements of new legislation and management issues. While it was deemed difficult to manage, the board agreed the district is required to comply.

After questions were addressed, Mrs. Armstrong moved to adjourn, seconded by others, and the meeting adjourned at approximately 6:10 p.m.

______________________________  ______________________________
Dr. Gerald D. Dawkins, Secretary   Larry E. Ramsey, President
March 12, 2013

The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at 4:30 p.m. on Tuesday, March 12, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Other school board members present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Ms. Trammel led the invocation and Pledge of Allegiance.

PRESENTATIONS

Fit for Life. Jimmy Windham, athletic supervisor, shared with the board an overview of the Fit for Life event over the past five years, explaining that this event has been held in May for all 5th graders, after testing, to introduce them to new fitness activities. This event is held each year at Independence Stadium and focuses on what the District is doing in Physical Education as well as promoting testing in Physical Education. During the fourth year, Bossier and DeSoto 5th graders were added to the event. Following a brief video of the Fit for Life event, Superman Blount shared with the board his appreciation for the Superintendent’s support of this annual event and how he began this as a way to give back to his community. With Louisiana being 49th in the Nation in obesity and infectious diseases, 4th in the Nation with cancer deaths and being overweight, he said it is no longer not an option for the children to get in shape; and how, when health and fitness were removed, the State began to die. He said the goal is to have over 50,000 students in Independence Stadium with a message to the President and Nation that Caddo Parish schools are the leaders in fitness and health in Louisiana.

KTBS DVDs on Louisiana’s Bicentennial. Jan Elkins shared that last year during Louisiana’s Bicentennial Birthday, KTBS highlighted Louisiana’s history and heritage through monthly stories profiled for an entire month. She added that while at a ballgame, a Bossier teacher thanked the station manager for the Louisiana Bicentennial as it had been a helpful tool in her classroom. As a result, Ms. Elkins said Station Manager George Sirven made the decision to donate to all the parishes in the area all the stories and promos in a DVD for each 4th and 8th grade where Louisiana History is taught, which means approximately 741 for Caddo Parish. She also shared with everyone one of the stories from the DVD relative to the great log jam, Captain Henry Miller Shreve and how Shreveport came to be.

Ombudsman Update. Superintendent Dawkins announced that the staff will tonight bring an update on the first semester of the first year of implementation of the Ombudsman Program, with a complete annual report being shared with the Board at the conclusion of the school year. Dr. Dawkins noted that a lot has been learned and some nuances have been found in integrating academics and the operational components of the program, which are being aggressively addressed by all parties, the results of which are already apparent in the program. He shared with the Board a brief history of how the District arrived at this point and reminded everyone that this report is only for the first semester of the first year. The information on SPS Baseline scores for Hamilton Terrace (2.5) and Academic Recovery (33.8) as provided by the state; as well as the total cost of the program ($3.9 for Hamilton Terrace and $4.9 for Academic Recovery), was shared; and Dr. Dawkins noted that the program was implemented with a savings of $3.5 million. Superintendent Dawkins added that the District embarked on this venture and is aggressively addressing the needs of children first.

Lisa Chitty with Ombudsman shared data from the first semester of the Ombudsman Program and introduced the following team members: Ralph Thompson, Vice President, Community Relations; Emily Langfeldt, Vice President, Accountability; Gail Henderson, Chief Instruction
Officer; Sue Fila, Vice President of Center Operations; and Guy Cooper. Sue Fila shared an overview of the first semester, also highlighting how the programs are set up: Recovery Program consisting of two middle school programs and one full-day program; and Community Ombudsman Programs, which are the four satellite locations, all running with a morning, mid-day and evening session. The middle school programs run with a morning and mid-day session. Ms. Fila explained that important components include the programs are SACS accredited and approved by the State of Louisiana. She reported that Ombudsman provides a rigorous academic program aligned to Common Core and Louisiana State Standards, and it provides social skills instruction as well as academics to prepare them to return to their home school or to successfully remain in the program. Special education services and counseling are also provided to students who need them, as well as career and job-readiness services. The focus during the first semester was (1) academics, (2) attendance, (3) behavior, and (4) career and college readiness; and with all students in the program designated as at-risk students, there are reasons why they need a different environment and a different level of involvement and these four areas are key to the success of this group of students. She explained that the majority of students come to the program three to four grade levels below in reading and math, so the focus is on reading skills 45 minutes a day as well as math remediation sessions. Regarding attendance, Ms. Fila explained that the staff works with the students on the challenges that keep them from attending the program everyday by using social workers, wrap-around services, working with parents, and the juvenile justice system to create a support system for them. She added staff also works with the students through BPIS on strategies to address their behavior in preparation for transition back to the home schools. With the career and college readiness, she said these are opportunities to prepare the students for getting in the workforce, provide mentors, and participate in community service projects in preparation for where their plans lead them following graduation.

In summary of the first semester, Ms. Fila announced that the students are learning in a welcoming and safe environment; and at this time, approximately 30 students have returned to their home school based on their academic and behavior progress. Currently 19 students are employed, and five are actively interviewing for positions. The average attendance in the program for the first semester was 71%, and 98% of the students who have entered the program remain and are working to gain their credits. Regarding academic growth, Ms. Fila explained that they use the Star assessment which is also used in Caddo Parish. With this assessment, students are tested when they arrive in the program and they are tested on a quarterly basis, using this information to guide the instruction and determine how to meet the needs of each student. The first semester has reflected some good gains and they are looking for increased gains as the students finish out the school year, which they will share with the Board at the end of the school year.

Mr. Cooper further highlighted information for the Academic Recovery site (middle school one and middle school two); and the Community PASS rate for the North, South, East and West sites which serve students in the 9th through 12th grades. The first semester enrollment in the sixth grade is approximately 57, approximately 91 in seventh grade, and the largest population is 8th grade with 118 students. Mr. Cooper noted the data on attendance for each site, populations per each site, reasons for referrals to the program during the first semester, and career fairs. He also explained that relative to college and career readiness, they have made contacts with area businesses and one of the most recent is with the Goodwill Industries.

Ms. Chitty expressed appreciation to Board members who participated/attended the career day and encouraged those who did not have this opportunity to schedule an opportunity. Since they are always looking for volunteer opportunities for the students and they welcome any recommendations from the Board members.

Chief Academic Officer Antionette Turner shared that as the staff continues to work through the Common Core implementation and planning from the State, staff will ensure that the rigor of
Ombudsman’s curriculum, grading and assessments are consistent with the District’s practices and State requirements by having conversations and collaborating with them the expectations and updating of the curriculum to meet the increased academic goals and demands on Caddo’s students. Mrs. Turner stated that as we learn more about the PARCC assessments, staff continues to share that information with them and allow Ombudsman’s participation in Caddo’s professional development so they are aware of the PARCC assessment requirements as well as the weighted factors on which students are assessed. As the State requirements continue to change, Mrs. Turner explained this means a monthly update sometimes to make sure the curriculum is adjusted, along with the grading practices and assessments so they are consistent with the District’s. She also explained that progress is being made aligning E2020 with the alternative schools to expand the options for the students. Mrs. Turner added that the most recent change in the State’s policy requiring a demonstration of Mastery for students graduating with diplomas gives some flexibility in being able to proficiency test where we are not clearly demonstrating for the State that the diploma needs to be earned. In issuing diplomas from the school site code, Mrs. Turner said diplomas need to be issued where the students are meeting the requirements while enrolled in the program. It is also being recommended that the one full-day component be increased to two full-day components in order to expand the ability to work with students with disabilities as well as middle school students. The fourth recommendation will be to formalize when students return to the secondary schools so when it happens there is less distraction in the transition and make sure they are on schedule when returning to their home school, which will come with an attendance update, a behavior update as well as grades. Also important is the transportation needs for the at-risk students.

Dr. Dawkins explained that these are some of the recommendations staff is working on based on what staff has heard from principals, counselors and parents. He reminded the Board that the reason we are here today is because we were not getting results in the previous program and it is important to do something that is different.

2011-12 Financial Audit Report. Jim Lee introduced Margie Williamson of Allen, Green and Williamson CPAs, who highlighted the financial results for the 2011-12 year ending June 30, 2012. Ms. Williams went over key areas in the CAFR noting the Independent Audit Report and their opinion on the financial statements, as well as the unqualified opinion on the financial statement which means the Financial Statements are fairly stated without any qualifications. She explained there are two financial statements in the report, (1) Statement A on the Net Assets, and noted that the Total Net Assets is a deficit because included in the long-term liability section is the OPEB liability which is growing each year, and is now $426 million. Ms. Williamson also presented a set of financial statements based on the budget with no capital assets or long-term debt included. She noted that $30.4 million is unassigned and $24.4 million is the committed portion of the fund balance. Under the General Fund, she said the net change in the fund balance which shows a decrease of $15 million, part of the reason being $12 million was transferred from the General Fund over to the OPEB trust which went through expenses in the trust. With this being the first year for the OPEB trust, Ms. Williamson further explained that once the money is transferred to the trust, it no longer belongs to the school board, but it is fiduciary fund. To date, approximately $11.9 million in total assets is actually in the trust.

Noting the CEEF fund, Ms. Williamson reported that the cash balance in this fund is a little over $18 million and reminded the Board that it can only spend the earnings on this money. The interest earnings for the year was $29,000 and is what can be transferred to the CEEP operating fund to be used for instructional purposes.

Ms. Williamson also highlighted the remaining special revenue funds, i.e. tobacco settlement with a fund balance of $182,000 and the Child Nutrition Program fund’s $8.8 million fund balance, and the CEEF Operating Fund with a $311,000 balance. Also pointed out was the fact that each year the report is submitted to two organizations (GFOA and ASBO) and the report is
reviewed for its certificate of achievement for excellence in financial reporting and announced that Caddo did receive these certificates from GFOA and ASBO on the 2011 Financial Audit making it the 24th year it has received these awards.

Regarding the Compliance on the Single Audit Report, Ms. Williamson stated that this is the list of Federal grants and reported that the District actually received $64 million plus for the 2011-12 year. Any findings noted in the audit are listed in this report and it was reported that the two findings in this audit are (1) controls over inventories, and (2) compliance for Federal programs for the procurement, suspension and debarment requirement.

The final audit report presented was on CEEF a report required by the Legislative Auditor’s Office. The report is not an audit, but a method of assuring that everything is being done in accordance with the law. If there are any exceptions, these must be reported; however, the audit did not note any in this report.

Mr. Lee announced that each one of these audit reports is posted on BoardDocs if anyone wishes to see copies. Mrs. Bell expressed appreciation to Mr. Lee and the staff for this outstanding report.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR MARCH 19, 2013 CPSB MEETING

Superintendent Dawkins highlighted items for the board’s consideration at the March 19, 2013 CPSB meeting and the following discussion ensued.

Resolution of Continued Employment. Mrs. Bell asked for clarification on this item and Cleveland White explained that each year the Human Resources Department sends out reasonable assurance letters for employment the next school year to those who are not employed in the summer.

Approval of Salary Schedule. Mrs. Crawley expressed appreciation for the meetings with Board members to discuss the proposed salary schedule and asked why a decision was made to couple the last years? Dr. Mary Nash-Robinson explained while it is always a budget matter, staff wanted to keep the same model of the current salary schedule. Mrs. Crawley asked staff to provide her with where our actual employed teachers fall in the scale, i.e. near the top, near the bottom. Dr. Robinson responded that staff should have this information by the end of the week. Mrs. Crawley asked if there is information on a budget impact? Mr. Lee responded that the preliminary projection is approximately $1 million. Mrs. Crawley asked if all this is declared unconstitutional; will we go back to the old or remain with the new schedule? Dr. Dawkins responded that as legal challenges are being discussed, we are moving forward with what the law says we must do by April 1. Mr. Abrams added that is correct and the Board must follow the law and noted that it was designed that employees will continue to get their step increases unless an employee is declared ineffective. Also, the categories reflect step increases for anyone who is emerging and the additional issue will be to add a $250 stipend for any employee declared extraordinary, which can be added at a later date if needed.

Mr. Riall asked if there have been any changes since the Board members met individually with the staff? The superintendent explained there were some minor changes which Mr. Lee is continuing to work on. Mrs. Bell commented that she believes the public needs to understand where this is coming from, a mandate from the State; and the State will not give us the extra money. Dr. Robinson confirmed this information is correct. She wants to make sure that everyone understands this mandate is coming from the State and they will not give the districts any extra money. Dr. Robinson said that is correct and if it passes, Caddo will need to find the money to fund it.
Approval of CPSB Policy on Board Committees. Mr. Rachal asked how soon will appointments be made? Mr. Ramsey stated that as soon as the item is approved, appointments will be made within a week. Mrs. Crawley stated that last year Board members were given committee assignments and asked if this is a different concept? Mr. Ramsey said it is different and the CPSB will begin doing this the same as other governmental entity committees are constructed. Mr. Ramsey said that is correct and he will appoint CPSB members as they are developed.

Revision to 2013-14 School Calendar. Mr. Rachal asked for clarification on the four minutes added. Kathy Gallant clarified that the four minutes is added to the entire day and high schools would add one minute to each class. She further explained that this year the State allowed districts to go to minutes instead number of days which allows the District to add a Professional Development Day to the calendar for the Common Core. By doing this, Mr. Rachal asked if he understands correctly that it cuts back two days in which students are in class, and Mrs. Gallant said that is correct over the year’s period.

Proposed 2014-15 School Calendar. Mr. Riall asked for clarification that when the students go home for the Christmas holidays if the first semester ends at this time. Mrs. Gallant verified that the first semester grading will end before the Christmas Holidays.

Ombudsman Contract. Mrs. Crawley asked of the 25 seniors, how many have or will receive a State diploma? Mr. Cooper explained that the data shared is only for the first semester. Mrs. Crawley asked how many of the 25 are on track to receive a diploma at the end of the school year? Mr. Cooper stated that a large portion of that number has transferred back to their home school, so the courses they took have gone back to the home school also. Mrs. Crawley shared a particular student who did not get anything in writing stating the student completed two semesters of work in three months, and asked if that is possible? Mr. Cooper said that is not possible (to complete two semesters in three months). Mrs. Crawley asked what does a student get in writing when they finish at Ombudsman after the first semester? Mr. Cooper explained that all students’ grades issued from Ombudsman are put into the JPAM system and the schools can access the student’s final semester grade. Mrs. Crawley stated that this particular student did not get any credit for the semester and is confused and was told because Ombudsman is on A plus platform, it doesn’t correlate what the student is getting at the home school, so the student did not receive any credit. Mrs. Crawley asked what does a student get in writing when they finish at Ombudsman after the first semester? Mr. Cooper explained that all students’ grades issued from Ombudsman are put into the JPAM system and the schools can access the student’s final semester grade. Mrs. Crawley stated that this particular student did not get any credit for the semester and is confused and was told because Ombudsman is on A plus platform, it doesn’t correlate what the student is getting at the home school, so the student did not receive any credit. Mrs. Turner further explained that an assessment is made on what the student has completed at Ombudsman, which is done for all students to make sure they are on track and can transition back into the classrooms. She further stated that this particular situation is one in which she cannot go into great detail and the issuing of credits is a little different for this particular student in terms of what was accomplished and what was completed. Mrs. Turner reported that staff sat down with this particular parent to explain to her and to make arrangements for assessments and staff will continue to work with this parent and the student to make sure they understand. Mrs. Crawley shared that what she does not understand is the student did start school with his class, coming here from another district, and then because of an expulsion, he was sent to Ombudsman for October through December; therefore, she doesn’t understand why this semester he completed is not transferring when he finished the first semester in our system. She asked if it is possible to do the classwork from another computer off site, i.e. his home? Ms. Fila explained that students can utilize the curriculum outside the center for additional work; however, the assessments must be completed at the location with the teachers monitoring the work to insure the student is mastering the concepts. Mrs. Crawley said that makes sense to her, but it is not what the student and the principal are saying. Dr. Dawkins added it is possible there could be some unique situations; however, the majority of students have a packet that returns to the school with the student via JPAM. He further stated that the online platform is similar to Caddo’s E2020; however when a student comes to Caddo from another State and was expelled, it can complicate the situation. Dr. Dawkins also added that the real
issue is whether or not the student is on schedule to graduate. Mrs. Crawley asked is it possible for a student to request taking a proficiency test and by-pass the remainder of what this student is doing? Mrs. Crawley asked the staff to provide the board with a detailed report on the 25 students (seniors) with their initials, the school, their credits, and if they are on track to graduate.

Mrs. Crawford noted the highest number of students referred to Ombudsman being in the 8th grade and that this is a transition year for students. She asked if Ombudsman surveys 8th graders in the Ombudsman Program relative to why they were expelled, i.e. fighting, excessive absences so Caddo can hopefully find ways to help students through this transition time. Dr. Dawkins responded that staff has spent a lot of time determining why the students were referred to Ombudsman, and continue to work through the data, so we can intervene and help them return to their home school as well as help future 8th graders as they enter this transition year. He also reminded them there are students in Ombudsman that were at Academic Recovery for two years before being transferred to the Ombudsman Program. Mrs. Crawford said she believes if we can successfully address some of the reasons, then the students will be better prepared and more successful in high school and these numbers will go down.

Miss Green asked if the agenda item is the Ombudsman contract, and if the backup provided is what the Board is considering? Mr. Ramsey explained the only information on BoardDocs is what Board member Hooks provided. She also asked about the Career Day held by Ombudsman, as she was not aware of this event. Staff responded it was held on February 15th.

Mrs. Bell asked where each of the four Ombudsman locations are located? Mr. Cooper responded that the East location is at Shreve City, the North location is on North Market, South location on Jewella and the West location is on Greenwood Road. Mrs. Bell noted that the Board did receive an invitation to the Career Day and noted that she was very impressed with the program. She also reported on a visit to one of the night classes in which she observed 25 students actively engaged in learning. One of the students in this class was a gifted student and because she had a knife in her lunch box, she was suspended. She asked if it is possible that gifted students can continue her classes and can the student’s teachers from her home school come to the Ombudsman site to observe and help that student, and Mr. Cooper said absolutely.

Regarding E2020, Mrs. Bell expressed her appreciation for the article and asked if E2020 is available or being adopted as part of the Ombudsman Program. Ms. Fila responded that E2020 is already in use in the Ombudsman Program; however, the idea is to expand the use of E2020 to provide additional opportunities for students.

Mr. Abrams clarified that the current contract has a March 31st deadline for the Board to decide if it wants to renew or not. One recommendation is revising the one-day to two-day and also the formalization of secondary returns (students returning to schools) and the Board will decide if it agrees with these recommendations and if they should be placed into an addendum to the current contract. He further explained that he assumes the change of one-day to two-day would involve a cost and it would be important to know that cost and address it prior to next week. Ms. Fila responded that an addendum would be possible, and the recommendation regarding the transition is something they definitely would accept and place in an addendum. She also stated they have looked at changing the one-day to two-day and will make this change.

Mr. Riall noted the average attendance of 71% and the graph reflecting attendance at between 63% and 79% and asked if this means the students are missing an average of 29% of their classes? Ms. Fila explained that the typical issue with attendance is some students have chronic truancy issues which affect the overall attendance for those locations. Mr. Riall asked if these students are still under the guidelines of the parish truancy policy, and Ms. Fila responded they are and they report truancy just as any of the other Caddo schools. Dr. Dawkins added that the parents of students at Ombudsman also still receive the JPAM calls as they do when at their
home school; and he reminded the Board that many of the students at Ombudsman come to us with chronic truancy issues as well as other issues.

Mr. Hooks stated that he received a copy of the contract today and he does not have any questions until he has reviewed the contract. He also asked that staff provide him with an itemized report to date showing how much has been spent to date on Ombudsman. Dr. Dawkins stated that Mr. Lee will have that report tomorrow.

Ms. Priest referenced the causes for students to be enrolled in Ombudsman classes as shared in the presentation; and relative to the 71% attendance rate, asked the superintendent what the attendance was in the previous alternative school system? Dr. Dawkins explained that staff looked at the overall for the last year because some of the data was approximately 72-73%. Ms. Priest also asked about the 19 students who have gained employment and if we are looking at fields that are currently needed in the economy that would ultimately transition the student into a career? Mr. Cooper explained the curriculum used by Ombudsman for college readiness (Nuance) and this curriculum goes over different types of careers and the students are exposed to this information through the career coaches. Ms. Priest asked Mr. Cooper to what he contributes the 71% attendance, and he responded they talk with the parents and the students attending Ombudsman, and all go through an orientation process. He also highlighted the many services available to the students through this program. Ms. Fila reported that the largest population is the over-age and also the students (31%) that are at Ombudsman due to behavior problems. Ms. Priest indicated she does like the wrap-around services being provided not only for students, but also for the families.

Mr. Ramsey asked that the slide presentation be added to BoardDocs. Mr. Rachal asked if he understands this is only a presentation and has nothing to do with the contract? Mr. Abrams noted that the board agenda item states “Ombudsman Contract,” and the contract is crafted to reflect that it is self-renewed on March 31 unless one party gives the other party notice that they are not going to renew. So, the Board could decide on or before March 31 to not renew the contract; and, if the Board does nothing, the contract will continue. Dr. Dawkins clarified that staff’s recommendation at the end of the presentation is to continue the program for the next year. Mr. Rachal asked about the information on the average number of students, and Ms. Fila announced that the total number is 518. Mr. Rachal asked if the contract has been adjusted to reflect this new number and Ms. Fila responded that the number of students remains the same at 450 and this number (518) represents the total number of students that have transitioned through the program throughout the year; and there has never been a time when there were more than 450 students enrolled at one time. She also added that this number also includes some students who have transferred between sites in the program, so the actual total number of students that have been through the program is 508. Mr. Rachal asked if 58 students have transitioned back into the classroom? Ms. Fila stated that 30 students were recommended for transition back to home schools by the program and agreed upon the school district; some students moved, and some students were dropped for attendance/behavioral reasons or possibly incarceration and would constitute the 58 students. Mr. Rachal also asked about the E2020 on-line courses and if Caddo signs them up to what is available? Ms. Fila responded that there are students in the program already placed in courses and they can continue in those courses. Regarding the all-day program, Mr. Rachal asked about the number of students enrolled and Ms. Fila reported there are 30 students in the all-day program. He also asked about the cost for these students and Dr. Dawkins responded that while he does not know what the cost is, it is within the contract. Mr. Rachal asked how many of the 30 all-day students have transitioned back into their home school? Mr. Cooper stated that the majority of the full-day program population is primarily special education and these students have an IEP date which they are to return to their home location, and he would anticipate approximately seven.
Mrs. Crawley asked if students have been suspended or expelled for certain behaviors, i.e. group fights, and not allowed to attend the Ombudsman program? Dr. Dawkins said the beauty of satellite sites is the ability to put different students in different places and no one is refused unless the issue is so serious they cannot get in a school anywhere, and it is sometimes necessary to look at the cases individually. Mrs. Crawley said the message she received is when there is a group fight, Ombudsman has said they do not accept students involved in group fights. Carla Moore responded that is not correct; however, in incidents such as a group fight, the expelled/suspended students may not all need to be together and they might be sent to different sessions. Mrs. Crawley asked if students who have been arrested are enrolled in Ombudsman and Mrs. Moore said we do and there are approximately 31 students. Ms. Fila also stated the District refers students and Ombudsman accepts all students sent to them by the District.

Ms. Trammel asked about not tolerating violence in any location and because there is such a high number of 8th graders, she would like to see the number of referrals for 8th grade and what we can do to change the number.

Mr. Riall asked that staff provide figures on the number of children referred to Ombudsman versus the old referral system and also the number of children transferring out of Ombudsman back to their original school compared to the number referred out of Hamilton Terrace and Academic Recovery. Dr. Dawkins explained that a little more time will be needed for providing this information to the Board.

Mrs. Armstrong asked if there will be any changes in terms of the costs with the new contract? Dr. Dawkins said at this point, additional costs are not anticipated. She said she appreciates the report and the content of the presentation, and she hopes it will be successful for the children. She also asked about the contract and if anyone has seen a student leave and then come back, and Ms. Fila responded this is something being monitored. Mrs. Armstrong said she would also like to know in the transition process if we are being successful in accommodating the needs of these students; and if they are returning, are they returning for the same reasons.

Mr. Abrams clarified that the contract has an automatic renewal and is a three-year term after each year; and if the Board does nothing, there is no need to do a new contract, but to only provide an addendum to attach to it relative to the recommendations.

With the conclusion of staff’s report, Superintendent Dawkins announced that staff is recommending continuation of the program.

Mr. Ramsey asked that the superintendent add the recommendation and a copy of the contract to BoardDocs.

**ADDITIONS**

**Textbook Adoptions.** Superintendent Dawkins announced that because State law requires it, it is necessary to move forward with textbook adoptions for K-2 math textbooks and K-5 Reading textbooks. He explained that both books will come in a digitized format and the publishing company will not release the digitized version until a hard copy is purchased.

Mrs. Crawford asked President Ramsey if he will be referring the maternity leave policy to one of the Board committees for review?
Mr. Pierson moved, seconded by Mrs. Crawford, to approve the proposed agenda and consent agenda (Items 6.02, 7.01, 8.01-8.07, and 8.09-8.10) be approved for the March 19, 2013 CPSB meeting as submitted. Vote on the motion carried unanimously.

POLL AUDIENCE

Josephine Jones, grandmother, explained that she has had custody of her granddaughter for the past four years and offered kudos to the Ombudsman Program because of the drastic change she has seen in her granddaughter since she became involved in this program approximately one month ago.

Jon Glover, employee, referenced the audit report; and that after listening to it, she has questions about some of the practices, i.e. procurement, suspensions and debarment. She said it offered there were some problems with the way we handled vendors and that we were not going through the bid process for projects of more than $25,000. If so, she would like to know the vendors paid without going through the appropriate guidelines. Also, she noted discrepancies in another item relative to Federal procedures in the expenditure of Federal funds and that the Board should investigate the expending of funds during this budget crisis, not wanting to find ourselves being fined for utilizing funds that are not being subjected to the processes as we need to be.

Jackie Lansdale, president of Red River United, also addressed the audit report and noted a discrepancy in the number of 2,974 certified teachers reported on page 22 compared to 2,640 teachers reported on page 25. Also, she asked about the matrix available on where the teachers were on the salary schedule and how they will be impacted by the new salary schedule. Mrs. Lansdale also expressed that she agrees and likes the 1.4% steps as well as the differentiation between the lanes, but questioned why the steps doubled up when getting at year 12. While she heard the question about the budgetary impact to not have the double year steps, she did not hear the answer and believes the Board should address this. She also asked that the Board look at including an appeal process in the emerging; and lastly, it has been known for a long time that minutes rather than days could be counted and she encouraged the Board to look at the economic impact of adding another day in the Fall (during the Louisiana State Fair) by only adding a few minutes to the day because of what it will do for the community.

Superintendent Dawkins shared with the Board a Memorandum regarding the granting process for Federal dollars related to early childhood programs and the new laws that require us to work with private providers (day care centers) and if we don’t, the funding could close to Caddo Parish.

Adjournment. Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:50 p.m.
March 13, 2013

A special committee of the Caddo Parish School Board (CPSB) met in session at approximately 11:15 a.m. on Wednesday, March 13, 2013, in the Superintendent’s Conference Room located at 1961 Midway Street, Shreveport, Louisiana. Committee members present were Dottie Bell, Chair, Bonita Crawford, Ginger Armstrong, and ex-officio members Larry Ramsey and Carl Pierson. Staff members present were Roy Murry, director of security; Jim Lee, chief financial officer; Rick Jones and Stephen Hall, Information Technology. Charlotte Crawley and Jasmine Green were absent. Mrs. Bell led the prayer.

Mr. Murry reported that since the last meeting, he met with additional staff members to discuss the current system, JPAM and Basis, its capabilities (including pictures of students being put into the system for ID purposes), set up costs, licensing fees, etc. In the bid shared, Mr. Murry explained the software fee is actually a licensing fee as the District already has the software but there is a license for each piece of the Basis System, which Mr. Jones will look to negotiate down the cost of $2850. Mr. Murry also shared that with this bid, the District would be looking at a cost of $409,400 to set up every school throughout the system; however, if a mobile printer or central printer location is set up, the cost would be a lot less depending on the number of printers. The cost of each printer is $3,175. He also shared that staff discussed the possibilities of doing everything with one card, i.e. library and cafeteria, by adding a bar code to the card for these services.

Mr. Murry also reported that information has been transferred from JPAM to the Basis System and it is now important to decide which fields we want to populate; and if the information is on the Basis system, we should be able to send it to JPAM, i.e. pictures. As a result, this will possibly lower the cost somewhat, noting one principal’s idea of getting a CD from the photographer that takes the school pictures and uploading the pictures to the system.

The committee asked staff to clarify how the licensing works, the possibility of purchasing a set number of printers and placing them at the Technology Center (or other location such as Professional Development), principals setting up a time to use a printer to print their school’s IDs, staff responsible for the printing, etc. Mr. Jones, in response to the question regarding the life of the printers, responded that printers should last at least five years. He also stated that for students transferring in after pictures have been taken, the school can take a picture of the student with a digital camera and upload the picture to the system. He also clarified that the licensing fee is for the location and not the user. Additional options discussed included taking the pictures every other year; starting with all K-8 and middle schools (high schools already have badges), having a centralized location for five printers, deciding who will be responsible for printing all badges. Regarding badges in the elementary schools, the question was raised relative to the need as elementary students are typically escorted from one place to another and adding cards might be more cumbersome for the teachers.

Following discussion, it was the consensus of the group that the focus for additional information will be: (1) a central location for printing the badges (with possibly four printers), (2) staff clarifying the licensing fees (which are a recurring cost), (3) badges for all middle schools and K-8 schools, and (4) IT negotiations relative to costs of licensing fee(s). The group agreed that the next meeting would be scheduled following the availability of additional requested information from staff.

No additional discussion, the meeting adjourned at approximately 12:12 p.m.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, March 19, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Ms. Trammel led the prayer and Pledge of Allegiance.

Mr. Pierson moved, seconded by Mrs. Bell, to approve the minutes of the February 12, 2013, February 13, 2013, February 19, 2013, March 4, 2013 and March 12, 2013 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications, and Dr. Mary Nash-Robinson, chief of staff, on behalf of the board, recognized the following students and staff members for recent achievements. President Ramsey and Superintendent Dawkins presented each with a certificate recognizing their accomplishment. Administrators, family and friends present were also recognized.

Music Appreciation Month. As part of music appreciation month, a music group from Riverside Elementary performed various musical selections for the board and audience.

Suicide Prevention Poster & Essay Contest. The following students were recognized as Grand Prize winners in the Suicide Prevention Poster & Essay Contest: Katherine Gray, 5th grade at Forest Hill, Grand Prize Elementary Poster Contest Winner; Hope Monroe, 8th Grade, Herndon, Grand Prize Middle Poster Contest Winner; and Diamond McKinney, 8th Grade, Herndon, Grand Prize Essay Contest Winner.

Candidate for Presidential Scholars Program. Sean Nathan, Caddo Magnet High School, was recognized for being selected as a candidate for the United States Presidential Scholars Program. Being one of the highest honors a senior can receive, Sean will travel to Washington, D.C. in June to participate in the National Recognition Weekend where he will be presented the Presidential Scholars medallion during a ceremony sponsored by the White House.

National Youth Leadership Forum on National Security. Cadet Captain Kerry Johnson, Huntington High School JROTC, was recognized for being chosen to attend the National Youth Leadership Forum on National Security (Exploring American Diplomacy, Intelligence and Defense) in Washington, DC March 5-10, 2013. Mr. Mainiero explained that this challenging 6-day program introduces students to careers in defense, intelligence and the diplomatic corps.

Louisiana Jr. Science and Humanities Symposium. Henry Lin and Joan Liu, Caddo Parish Magnet High School, were recognized for placing first and second respectively, in the Science & Medicine Academic Research Training Program (SMART) sponsored by the Biomedical Research Foundation of Northwest Louisiana and LSU Health Science Center. This program is jointly sponsored by the U.S. Departments of the Army, Navy, and Air Force, in cooperation with the leading research universities throughout the nation.
**LPBs Young Heroes.** Mr. Mainiero announced that Rachel Patteson, Northwood High, and Hollie Fields, North Caddo High, in conjunction with Louisiana Young Heroes Day in Baton Rouge on April 17th, will be recognized for rising past dire adversities in their lives to achieve academic and personal success.

**Prudential Spirit of Community Awards.** Prudential Chairman and CEO John Strangfeld introduced and recognized the following Caddo students as recipients of Prudential’s Spirit of Community Awards for their contributions to their communities: Erica LeMere, 8th grade, Caddo Middle Magnet, Louisiana’s Top Youth Volunteer.; Lucia Boyd, 8th grade, Caddo Middle Magnet, certificate of excellence; and Safa Michigan, 8th grade, Caddo Middle Magnet, and Alexa Babin, senior at Byrd High, distinguished finalists.

**Southwood Lady Cowboys Basketball Team.** The Southwood Lady Cowboys and the coaching staff were recognized for winning the Class 5A Championship for the 11th time. Steve McDowell is the head coach for the Southwood Lady Cowboys, Matt Gallion and Monique Reese, are the assistant coaches. The Lady Cowboys finished the 2012-13 season with a 33-1 record and the Louisiana 5A Championship. Also, the Lady Cowboys’ record over the last four years is 142 wins and 6 losses, and they are ranked No. 15 in the Nation.

**2013 School Social Worker of the Year.** Dottie Cary Armand was recognized as the Shreveport Region, National Association of Social Workers School Social Worker of the Year for 2013. She was nominated for this honor by Kathleen Cush.

**Capital One Bank Presentation.** Connie Delaney, Capital One Bank, presented an $8,000 grant to South Highlands Elementary Magnet School for their Club RAD (Reaching and Discovering) after-school program. This program is open to any student and focuses on study skills, testing strategies, and problem-solving through hands-on and cooperative methods.

**RFPs for Superintendent Search Services.** Purchasing Director Tim Graham shared with the board the results of the RFPs for Superintendent Recruitment Services. Mr. Ramsey announced he will add this to the Thursday, March 21st work session, for review and discussion. Mr. Rachal asked about the reference under expenses of “not to exceed”? Mr. Graham explained that the amount is based on the basic search; and if the board wishes to go beyond the basic search to seek additional candidates, it means there will be additional fees. Mrs. Crawley asked about the reference to “staff in Louisiana”, and Mr. Graham explained they have staff in the State (Baton Rouge office). Mr. Riall asked about the one-year guarantee and Mr. Graham responded that if the candidate selected decides to leave, they will come back and do the services without charging an additional fee, but for expenses only. Miss Green asked if these are the closest to do searches and Mr. Graham responded these were the only ones to submit proposals.

**Administrative Appointment.** Dr. Mary Nash-Robinson introduced and welcomed Gary Brewer, newly appointed supervisor of buildings and grounds.

**VISITORS**

Jackie Lansdale, Red River United, referenced agenda items that will directly affect employees, i.e. pay schedule and school calendar. She expressed the organization’s appreciation and concerns as follows: (1) Recognizing that the board is operating under a timeline to meet the Department of Education’s April 1st deadline for submitting a new pay schedule tied to performance, and despite today’s Court ruling that pay tied to performance is unconstitutional, she reminded the Board that the pay schedule is extremely important in communicating what the District values. She said they were pleased that degree lanes were established as this will encourage teachers to attain a BS Degree, which pursuing advanced degrees is an equitable opportunity for those who wish to pursue it. Mrs. Lansdale also noted appreciation for the
consistency between steps (1.4%), but noted the doubled steps (frozen for two years), beginning at Step 11, and the message this sends to the veteran teachers. She asked if the board is aware that over 50% of its teachers are in the Year 11 category or above and that freezing their salaries on top of the added pressures that continue to tax education is demoralizing to them? She again thanked the board for what it got right, but encouraged the board to correct what is wrong and revisit and reconsider what Rahmberg recommended. Understanding that the board must submit this to the State by April 1st, she asked that the board revisit the salary schedule before implementation. Mrs. Lansdale added she will speak to the school calendar before the board votes on it.

Dadrien Waite, Caddo employee, addressed his concerns which were brought to his attention by Red River United, that the State will be voting to take away sick days and how some of the employees that work under his supervision will be affected. He also addressed a concern shared with him that the Superintendent shut down six schools and has mixed the middle school students with high school students which he believes is a problem. Mrs. Armstrong asked that someone from staff visit with Mr. Waite.

Jon Glover, Caddo employee, shared her discontent with how the Board handles its issues because it is obvious if the Board does not wish to share the intricacies of any subject matter, it is placed on the consent agenda. She noted that 10 of the 14 items on the agenda have been placed on consent, i.e. salary schedule, out of state travel, financial audit, and asked if the Board did not have additional questions after concerns were expressed. Ms. Glover stated the Board needs to remember that it answers to the constituents; and when the Board deliberately places items on consent that are worthy of addressing, she believes it suggests the constituents do not need to know about the particular issues, which is what she feels the Board did to her at the last meeting. She asked if the Board realized that the destruction of the school system is at hand and if the Board is part of the problem, because she believes if the Board had seen what she sees, it surely would have done something by now. Ms. Glover stated she is not the Board’s enemy, and if she tells the Board the truth, she doesn’t want the Board to demean her; because she does not do it to the Board. However, when things are not right, they’re not right; and when things are wrong, no matter who does them, they’re wrong.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

Superintendent Dawkins highlighted items for the board’s consideration and President Ramsey announced that the following are the proposed Consent Agenda items: 6.01-6.02, 7.01, 8.01, 8.04, 8.07, 8.09-8.10, 8.12-8.13, and 13.01 (C.A.).

Mrs. Lansdale, president of Red River United, addressed Item 8.09 “Revision to 2013-14 School Calendar”, and she believes it goes hand-in-hand with the pay schedule. She noted there are 63,720 instructional minutes and the schedule can be set up to meet these minutes anyway the District desires. Mrs. Lansdale shared how DeSoto Parish’s calendar has eight less contact days than Caddo by building in an additional 15 minutes each day. She encouraged the Board to be more cerebral and look at the important things, i.e. absenteeism and building a school calendar which allows for breaks in the school year.

Mr. Rachal moved, seconded by Mrs. Bell, to approve the agenda and consent agenda as presented. Vote on the motion carried unanimously. The following is a summary of the Board’s action on the consent agenda items.

Item No. 6
6.01 Personnel Recommendations. The board approved the personnel recommendations and
the administrative contract renewals as recommended by the superintendent and submitted in the
mailout.

6.02 Personnel Transactions Reports. The board approved the personnel transactions reports
for the period of January 19, 2013 through February 21, 2013 as recommended by staff and
submitted in the mailout.

Item No. 7

7.01 Construction/Capital Projects. The board approved the following bids as recommended
by staff and submitted in the mailout on the bid tabulation sheets: (1) Camus Electric, with a
Base Bid, for the sum total of $517,915, for Project 2013-Q502, “QSCB2 Data Wiring &
Security at Fairfield, Barret and Atkins”; (2) Camus Electric, with a Base Bid, for the sum total
of $815,000, for Project 2013-Q503, “QSCB2 Security at Keithville, Ridgewood, Newton Smith,
Youree and Caddo Heights.” A copy of the bid tabulation sheets is attached and made a part of
the permanent file record for the March 19, 2013 meeting.

Item No. 8

8.01 Resolution of Continued Employment. The board approved the resolution of continued
employment authorizing the superintendent to write letters of reasonable assurance of continued
employment as submitted by staff in the mailout.

8.04 2011-2012 Financial Audit. The board accepted the 2011-2012 financial audit reports as
submitted by Allen, Green & Williamson, LLP.

8.07 Agreement Renewal Youth Enrichment Program. The board approved the agreement
for the continuation of the YEP afterschool program for 2013-2014 as recommended by staff and
submitted in the mailout.

8.09 Revision to 2013-14 School Calendar. The board approved the proposed revision to the
2013-14 school calendar adding four minutes to each school day, allowing for two additional
professional development days.

8.10 Proposed 2014-15 School Calendar. The board approved the proposed 2014-15 school
calendar (minus the State testing dates) as submitted in the mailout.

8.12 Approval of Textbook Adoptions for K-2 Math and Reading K-5. The board approved
the recommendations for Math textbooks for Grades K-2 and Reading textbooks for Grades K-5
as recommended and submitted in the mailout.

8.13 Approval to Begin Process for Renaming Southwood High School Gymnasium for
Coach Steve McDowell. The board approved to begin the process for renaming the Southwood
High School gymnasium for Coach Steve McDowell.

13.01 Student Readmission Appeal Hearings. The board approved the readmission appeal for
student C.A. whose parents are in agreement with staff’s recommendation.

APPROVAL OF SALARY SCHEDULE

Mr. Rachal moved, seconded by Mrs. Bell to approve the salary schedule as submitted. Mrs.
Crawley asked if the Board will be able to amend this schedule if needed, understanding that the
Board is approving today to meet the State’s guideline? Mr. Abrams explained that if the Board
approves it, it is the salary schedule; however, the Board can come back and change the salary schedule. Mrs. Crawley stated that as noted by one of the speakers, we will get what we focus the money on and noted the years on the salary schedule where previously steps were doubled up four times and the fact that the recommended calendar is recommending nine double steps. She asked if the any of the classified scales are similar and there are double steps. Dr. Robinson responded there are other pay schedules where the salaries are frozen at certain years, but she is uncertain about the extent. Mrs. Crawley stated that she would have liked more time to study this; but understanding that the first proposal is due in Baton Rouge, but noted that on those years that the salaries may be frozen, and the insurance increases, an employee could experience a decrease in their check. Mrs. Crawley asked staff how much does the District pay Mr. Rahmberg for this because she thought Caddo’s staff would do this. Dr. Robinson said she has received the invoice to date but will provide the requested information when she does.

Mr. Hooks stated that every time he sees the name Rahmberg, he has nightmares. Knowing that submitting this new salary schedule is a new State Mandate, he cannot vote for something that he knows is not right. He stated there are some years when employees do not get a step increase and he does not believe this is right; and asked staff about the $250 increase for some employees. Dr. Robinson explained that this is for those who receive a highly effective rating. Mr. Hooks added that he also doesn’t believe it right to evaluate the teachers based on their performance. Mr. Abrams reminded the Board that there is no longer any automatic moving in the salary schedule; and while the old schedule looks very similar to the new one, and it was important that the expert was involved in this so as to have a witness to its compliance with Act I, and Caddo looked at it a lot differently than what the State has said relative to raises and the three parameters in Act I state you address performance, evaluation, experience and demand. He also said this is how it is able to work with the key feature being that the law states we cannot give anyone who is ineffective any increase. If anywhere in the three parameters an employee is not ineffective, the employee still gets to move up a step. He further stated that it is important to make sure that evaluations are done correctly and objectively. Mr. Abrams also reminded the Board that Caddo used the step system when a much of the remainder of the State used a formula.

Mrs. Bell moved, seconded by Mr. Pierson, to call for the question. Vote on the motion to end debate carried with Board member Crawley opposed.

Vote on the main motion carried unanimously.

OUT OF STATE TRAVEL

Mr. Rachal moved, seconded by Ms. Priest, to approve requests for out of state travel funded through the General Fund as submitted in the mailout. Mrs. Crawley noted incidents in the past where staff would attend a conference at the end of the school year and retire shortly after their return. She stated that if employees attend learning conferences, the Board believes it is approved based on the fact that these employees attending are those that will have the biggest impact on the students. She asked that staff monitor this closely to make sure that those approved to travel are approved to benefit the staff and students. Mr. Rachal stated that he is not aware of this, but asked if it is possible to put something in policy that states if someone is retiring they cannot be approved to attend such conferences. Dr. Dawkins stated he is not aware of any of the employees requesting out of state travel retiring; however, staff will keep this in mind when scheduling out of state travel at the end of a school year. Mrs. Armstrong stated her appreciation that this was brought up as she remembers a specific incident where this happened and she supports having a contingency in place in the event this occurs. Mr. Riall asked if there are any retirement notification requirements and Mr. Abrams said there are not. Vote on the main motion carried unanimously.
REQUEST FOR CONSENT TO ASSIGNMENT (EXCO/HGI JV ASSETS)

Ms. Priest moved seconded by Mr. Rachal, to approve EXCO Resources Inc.’s request to assignment from BG US Production Company. Mr. Hooks asked for clarification and Mr. Abrams explained that oil and gas leases are transferred all the time and in the lease it requires that the land owner (lessor) approves the consent or assignment in between the other parties and this is the formality for that. Vote on the motion carried unanimously.

REQUEST FOR USE OF CPSB FACILITIES

Mr. Riall moved, seconded by Mr. Hooks, to approve the requests for long-term use of the Vivian, North Caddo and Southwood school gymnasiums as recommended by staff and submitted in the mailout. Mr. Riall asked if he understands correctly that the rental fees for Vivian and North Caddo have been waived by the principal. Mr. Woolfolk responded it has. Mr. Riall asked if he remembers correctly about a fee for cleaning being included. Mr. Woolfolk explained that the air conditioning cost is included for use and is the only cost for these requests. Ms. Priest asked if she understands correctly that the principal waives the fee and Mr. Woolfolk clarified that anytime a request is made and staff notifies the principal of the request for usage. The principal notifies staff of the school’s availability and if there is any community impact, the principal typically will request that the fees are waived; and if that is the case, which is rare, this fee is waived. Custodial fees for cleaning up, opening and closing the building, are not waived. Vote on the motion carried unanimously.

APPROVAL OF CPSB POLICY ON BOARD COMMITTEES

Mrs. Bell moved, seconded by Mrs. Armstrong, to approve the proposed CPSB policy as submitted in the mailout. Mrs. Bell stated that since the appointment of the ad hoc committee on ID badges, she believes this is the process the Board needs to follow. Mr. Hooks asked if the committees will meet between the Board meetings? Mr. Ramsey said that is correct and the Chair of each standing committee will call the meetings when needed. Mr. Hooks asked about Board members not being able to attend committee meetings because of previous committee involvement? Mr. Ramsey stated there may be some logistics that need to be worked out, but this is a process that other Board’s are already following. Miss Green asked if she places four items on an agenda, and the Board President assigns all four items to a committee, does she have to attend meetings of all four? Mr. Ramsey said it would depend on the agenda item and these referrals will be made on items brought by Board members so that it is heard by a committee. Miss Green stated she has always heard if you want to kill something, send it to a committee. Mrs. Crawley commented that she received a notice a couple of days before a committee meeting and she was unable to attend, and she heard there was a second meeting in which she was not notified. Mrs. Crawley said she believes if we establish this process, it must be carried out correctly for it to be successful. Mr. Ramsey clarified that these committees may not meet every month, and when there is a need, it is referred to the appropriate committee and he doesn’t anticipate that many problems or difficulties with the proposed process. Ms. Trammel stated that for clarification, will everything go to committee, because there are items brought to the board that have ample information to explain what the Board is voting on while further explanation/investigation is needed on others. Mr. Pierson stated that sometimes there is confusion relative to what Ad hoc committees and Standing committees are, because the standing committees are those items listed in the agenda and Ad hoc committees address items that might possibly need additional discussion. He believes Mrs. Bell’s request has developed into an Ad Hoc committee request because if it had not, and based on the two meetings held, the Board will be discussing indepth all the issues that arose in the conversation. He said he believes “Standing Committees” is important as well as Ad Hoc committees when needed. Mrs. Crawford stated that she has never been on a board that did not have committees, and she believes it saves time at board meetings by bringing pertinent information to the meetings.
Vote on the motion carried with Board members Green and Crawley opposed and Board members Riall, Pierson, Hooks, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell supporting the motion.

Miss Green left the meeting at approximately 6:10 p.m.

**OMBUDSMAN CONTRACT**

Mrs. Armstrong moved, seconded by Mrs. Bell, to approve continuation of the Ombudsman contract for year 2 to include recommendations presented by staff the mailout. Ms. Glover asked the Board if it ever wondered if Hamilton Terrace and Academic Recovery could have been as effective with their pupil-teacher ratio as with the Ombudsman program. She added that Hamilton Terrace and Academic Recovery facilitated students on a full-day basis, and Academic Recovery, for 2011-12, facilitated 192 students and Hamilton Terrace facilitated 208 students. She asked what happened, because when Ombudsman began in August 2012 there was no notice of how many students Ombudsman was assigned, but according to the Minifacts issued in January of 2013, a total population of 370 students. She said these students are at four different locations (East-69, North-43, South-66, and West-74); and while Ombudsman is doing well to meet the needs of the referred students, not every child affected is being addressed. She said it is true that Reading, Writing and Arithmetic are essential, but the totality of the students also needs to be addressed and asked where should we go from here?

Mrs. Armstrong stated that with some tweaking, she believes we stand to recover some students with this program as opposed to what we have had for many years. She said she hopes Ombudsman will be open to our staff and the staff’s suggestions relative to making this program even more efficient than it is today to serve more students in the future, as well as the Board being open to try new things. If what we have is not working, she believes there is a need to be open for looking outside the box.

Mr. Hooks moved, seconded by Mrs. Crawley, that CPSB cancel the Ombudsman contract in accordance with the contract terms and to reopen Hamilton Terrace and Academic Recovery as the alternative schools for the 2013-14 school year. Mr. Hooks stated he is perplexed because since February 19th he has requested an itemized report of how much Caddo has paid Ombudsman from the time it started until that particular day and was told at the last meeting that he would receive this information the next day. Mr. Ramsey reminded Mr. Hooks that his item is to reinstate Hamilton Terrace and Academic Recovery and to limit his comments to the merits of his motion. Mr. Hooks said he is doing that; and because Board members are held accountable as to how business is conducted, if he can’t get a report, he questions what might be wrong. Referencing the contract, Mr. Hooks asked if there will be additional costs for the year 2013-14? Mr. Abrams responded that Year 2 does have an increase for cost of services, as does Year 3, and Mr. Hooks asked what the increases might be? Mr. Abrams stated that the contract states that for 2013-14 the cost will increase from $3,531,000 to $3,636,990 or $67.47 per slot. The same is true for the off-campus students and the Special Ed students slots went up from $18,500 to $19,055 per slot in 2013-14, all which is in the contract. Mr. Hooks stated that with the Board preparing to ask the voters to approve a tax renewal; and while he understands the importance of this renewal passing, it will be difficult without the information. He also asked staff to explain who gives the students their credits. Mrs. Turner explained that for the transition back to the school, we must make certain we have met the obligations and the requirements (.5 or full semester), then the credit is awarded accordingly. Mr. Hooks asked if the credit is coming from Caddo rather than Ombudsman? Mrs. Turner explained that Ombudsman is the program in Caddo. Mr. Ramsey stated that it is time for him to present his argument as we are not in the work session. Mr. Hooks said he has been quiet and he believes Mr. Ramsey is being disrespectful in telling him the need to move on when he has questions concerning his motion.
Mr. Ramsey stated there is a motion on the floor relative to cancelling the contract and reopening Hamilton Terrace and Academic Recovery. Mr. Hooks confirmed that is correct and the people need to know why he brings his motion. Mr. Ramsey reminded Mr. Hooks that there was opportunity at the work session for board members to ask questions and now it is time to present arguments in support of the substitute motion on the floor. Mr. Hooks read aloud a copy of the CPSB policy governing the Board’s agenda, and that he believes the Board President is trying to sabotage his motion. Mr. Ramsey stated that the key word is “merits of the motion” and while Mr. Hooks is asking questions about the Ombudsman contract, his substitute motion is about canceling the contract and reopening Hamilton Terrace and Academic Recovery which is the motion on which he needs to hear the merits. Mr. Hooks responded that he has a need to respond to this parent, and Mr. Ramsey said it is possible that those questions might be answered when the discussion returns to Ombudsman and not his (Mr. Hooks’) motion on cancelling Ombudsman. Mr. Hooks stated he previously had a motion and everyone acted as if they did not understand and he added that four hours in a classroom is not enough. While he has nothing against Ombudsman, Mr. Hooks’ point is he has not received the information he requested and he still wants to receive it.

Dr. Dawkins stated that Mr. Lee can respond to Mr. Hooks’ question, but we have only paid Ombudsman what the contract says we will pay them, nothing more, nothing less. Mr. Hooks asked that this information be sent to him in writing.

Mrs. Crawley shared she has spoken with parents and staff; and in the beginning it was reported that with Ombudsman, a student could receive one of two types of diplomas, i.e. an Ombudsman diploma (certificate of attendance), and a State diploma. A student cannot attend Ombudsman without returning to their home school and the home school accepting the credits from Ombudsman. What she is hearing from one parent is her son took the classes and tests many, many times before getting it right, and now that his first semester is complete, he has no credits for that semester; and she understands there are 25 students that this has happened to. She also shared other incidents with students not getting what they would be getting at Hamilton Terrace and Oak Terrace (Academic Recovery). With these students not getting credit at the end of the first semester, parents will be very unhappy.

Dr. Dawkins stated that the Ombudsman Program is registered with a school site code the same as any other school in the State of Louisiana and the credits (which are Louisiana credits) are transferred schools. Also, he clarified that the District was not serving these students very well in the old program, having the lowest scores in the State, so anything better than that is what we are attempting to do; and even though everything is not perfect, we were never perfect.

Mrs. Crawley added that he is not singing praises to anyone and comparing, she said there was a time when the Board was able to attend the Summer graduation, etc.

Mrs. Bell moved, seconded by Mr. Riall, to call for the question on all motions. Vote on the motion carried with Board members Crawley and Rachal opposed.

Vote on the substitute motion to cancel the contract and reinstate Hamilton Terrace and Academic Recovery failed with Board members Hooks and Crawley supporting the motion and Board members Riall, Pierson, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell opposed. Board member Green was absent for the vote.

Vote on the main motion to continue the Ombudsman contract for Year 2 carried with Board members Crawley and Hooks opposed and Board members Riall, Pierson, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell opposed. Board member Green was absent for the vote.
SUPERINTENDENT’S REPORT

Superintendent Dawkins announced that information on the May 4th tax renewal has been provided at Board members stations and additional information will be available at the work session on March 21st.

ANNOUNCEMENTS AND REQUESTS

Mr. Pierson noted his concern that it takes three people to place agenda items on the consent agenda, yet one person can remove it from the consent agenda. He believes if something is placed on the agenda by a vote, then any changes should also be made by a vote of the board.

EXECUTIVE SESSION

Mr. Pierson moved, seconded by Ms. Trammel, to go into Executive Session for the purpose of a student readmission appeal for up to 15 minutes. Vote on the motion to go into Executive Session carried and the Board went into Executive Session at approximately 6:40 p.m. The Board reconvened in open session at approximately 7:10 p.m. Mr. Pierson moved, seconded by Mr. Rachal, to uphold staff’s recommendation for R.D. Vote on the motion carried unanimously with Board member Green absent for the vote.

Adjournment. Mr. Pierson moved, seconded by Mr. Rachal, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:12 p.m.

__________________________________  ______________________________
Dr. Gerald D. Dawkins, Secretary   Larry E. Ramsey, President
March 21, 2013

The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 2:00 p.m. on Thursday, March 21, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green (arrived at 2:27 p.m.), Carl Pierson, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Secretary Gerald D. Dawkins, and Reginald Abrams, legal counsel. Ms. Trammel led the prayer and Pledge of Allegiance.

President Ramsey announced that the purpose of today’s meeting is to begin discussing items the Board will be facing in the near future: (1) the 2013-14 budget, (2) the RFPs for Superintendent Search Services, and (3) update on tax renewals; and following the staff’s presentation, each Board member will have the opportunity to ask questions and make comments.

Superintendent Dawkins stated that with the many changes at the State and Federal levels, staff has been working diligently to craft a proposed budget for the coming school year. Some of the information is still not available, but staff will present the information it has and continue to provide information as it is received.

Jim Lee, chief financial officer, shared a copy of his presentation; and while a complete proposed budget is not available today, the staff continues to prepare the reports on information relative to employees’ salaries for next year and it will be rolled into the proposed budget projections. Per President Ramsey’s request, Mr. Lee began with the three-year revenue projections, much of which is dependent on State funding and the outcome of the May 4th tax renewal election, which will be modified each year as state funding plans and local tax expectations are learned. Mr. Lee shared background information on the MFP funds received by the District; and even though they are not 100% complete, the projection should be within $1 million either way. He also explained that the State adjustments for Linwood and Linear charters, as well as what is anticipated for Magnolia Charter School, have been included in the proposed budget and if the number of students is over estimated, adjustments would be presented to the Board. With additional MFP shares to other LEAs totaling approximately $6 million, Mr. Lee reported that reductions to our MFP dollars represent approximately $14 million and total revenue projections for the General Fund for the next 3 years are approximately $4 to $5 million.

Mr. Lee also shared known expenditures and anticipated increases for next year, i.e. retirement ($5 million increase), increase in health insurance, and the implementation of the newly adopted salary schedule (approximately $1.5 million). Mr. Lee reported the District will need to budget a minimum increase of $13 million in expenditures; and with revenue projected to increase about $4 to $5 million, hard decisions will need to be made to have a balanced budget.

Mr. Lee also highlighted capital projects for the next 3 years and the projected revenue (all from property taxes and the result of the tax renewal) of approximately $20 million a year over the next three years. Requested (requests from principals) projects and required (capital projects staff, asbestos abatement, roofing, air conditioning, etc.) projects over the next three years total approximately $24,266,000.

Update on Tax Renewal Election. Mr. Lee reported that on Wednesday a meeting was held with all Central Office supervisors and administrators who will be assigned to each school to assist in getting out the information to staff, faculty and parents. He added that following Spring Break, meetings are scheduled with several outside organizations, i.e. labor leaders, Southern Hills Business, etc. to share the same information. He also shared recent information added to the web site on the tax renewal including what the District has done, how this election will not increase taxes, taxpayers will continue to pay what they are currently paying, as well as links to the proposition wording, brochure with the same information and highlights on why we need this
renewal, along with Frequently Asked Questions. Additional information included the facilities report, S & P credit reports since 2008, savings seen over the past few years, and how they can contact staff with their questions.

Mrs. Bell stated she is tired of trying to explain the false information on taxes that is out in the public and asked if the information being shared could possibly be placed in the local newspapers, on billboards, etc. because it is simple to understand. Dr. Dawkins responded staff is responsible for getting out this information; and that it is not promoting a yes vote, but it is getting out correct information and stay within the guidelines. Mrs. Bell asked, relevant to the budget, the MFP funding and possibly 600 students to Magnolia Charter, if she understands that these have been deducted from the General Fund budget? Mr. Lee said all these numbers are included in the 2013 model with the exception of Magnolia as the money for Magnolia will come to Caddo and be forwarded to Magnolia. While we provide services to Linwood and Linear, we tack onto that an administrative fee; but, this is not the case with Magnolia. Mr. Abrams further explained that because of the charter contract, the District must document what it does for them (i.e. administrative), so there needs to be a procedure in place for documenting everything staff must do since we are reimbursed 2% for those services. Mrs. Bell asked about the teacher salary schedule and if this expenditure comes from Caddo’s budget ($1.5 million) or will the District be reimbursed by the State for this expenditure. Mr. Lee said the State told Caddo it must come up with this new salary schedule, but it is the District that must fund the cost. Mrs. Bell stated it is important to note that the implementation of the new salary schedule is State-mandated.

Mrs. Armstrong expressed her appreciation of the simplified version of the proposed budget and noted in capital projects that “requested” projects are projects the principals and staffs feel are necessary at their facilities; and while the list is not as large for the 2014-15 and 2015-16, that list will grow as principals present their needs.

Mr. Rachal asked for clarification on the $8 million in the Child Nutrition reserve and that it must be used for very specific items. Mr. Lee responded that it must be used for child nutrition and the other funds are for equipment. Mr. Rachal also noted that the taxpayers are contributing approximately $6 million of local dollars to the State charter schools, in addition to the State dollars that are no longer coming to Caddo public schools but to the charters. Mr. Rachal asked Mr. Lee an estimated number of students that this amount represents and Mr. Lee responded approximately 1,300 students. Mr. Rachal noted that based on the numbers, the cost to operate the charter schools is almost double the cost for public schools to operate. Relative to retirement, Mr. Rachal said the private retirement system (Social Security) costs approximately 7% to participate; and Caddo’s cost to the Teacher Retirement System increased from approximately 14% to 26% over the past four years. Regarding capital projects, Mr. Rachal asked for clarification on the real costs versus the projected costs because typically so many additional projects come up, there is never any money left over. Mr. Lee clarified there are always projects added during the year and typically most of the capital revenue is spent with none or a small amount left. Mr. White added these funds are also used to replace failing equipment, safety projects, and other liability issues. Mr. Rachal referenced the needs submitted from the schools and asked if he remembers correctly the total of those needs to be over $100 million? Mr. White responded that is correct and the information provided was modified because items such as new structures, gymnasiums, classroom wings, cafeterias are not typically funded from capital projects, but with bonds. Items funded from capital projects include flooring, roofing, paving, etc. Mr. White reminded the board that he provided the complete list of needs submitted by all the schools, which he can provide again, but on that list were items not funded from the capital projects. Mr. Rachal asked if with the speed of technology, will we ever catch up; and Mr. White said probably not because what is state of the art today will not be in five to ten years. Mr. Rachal asked about safety issues the District is still attempting to correct and Mr. White responded that this year should complete all elementary schools, as well as the installation of the security camera program, and there will be some things done if the tax renewal is successful.
Ms. Priest asked about net MFP in the General Fund and her understanding that the local District is still asked to fund unfunded mandates, i.e. National Board certified teachers, counselors, etc.; and when moving to the next budget phase, asked that staff provide this type information to the Board. Also, in looking at the State adjustments, which can apply for the Magnolia Charter as well as the other charters, she would like to be very clear and specific on the numbers because it may mean staffing a liaison for Caddo Parish Public Schools to stay on top of the numbers and not cut the District short. Also, Ms. Priest said when looking at the Magnolia Charter and their estimated numbers, we need to know how this will impact Caddo’s staffing? Mr. Lee said staff will need to look at everything; and while staffing is always a tricky item, just because we lose 600 students, it doesn’t mean 600 students worth of staff will be cut, but staff will have to make reductions somewhere to offset the loss of revenue. Ms. Priest also inquired about the scholarship program and if this number is flat and Mr. Lee said he will provide the number of students this amount is based upon. Regarding MFP, Ms. Priest asked if the District is taking into consideration Course Choice. Dr. Dawkins explained that staff will bring a packet of information on Course Choice to the Board on April 2nd. Knowing this is the initial budget meeting, she encouraged staff to look into these items when looking at the budget. Ms. Priest also asked that the annual external audit be placed on the District’s web page.

Knowing that the Board and District have some major issues to face, Mr. Ramsey said he believes it important for the Board to also go through the budget exercise for 2014-15; and while Mr. Lee reflected some on these long-term issues, it is a reality and there is a need to see these numbers soon. Mr. Lee reported that he has contacted the State for an estimate for 2014-15 if the millages ending in 2013 are not renewed. Mr. Ramsey also referenced the rumors that some time in the near future there will be an announcement to take over Caddo Parish Schools and the need to understand there will be some budget exercises that will include looking at some extreme adjustments. Because it is important to make sure the school system is healthy as we move forward, Mr. Ramsey announced the Board can anticipate a lot of budget meetings in April.

Mr. Pierson stated he doesn’t believe the Board needs to panic, but should definitely be cautious and prepare for the unforeseen future in order to make necessary adjustments. Mr. Lee added that is what staff will do; and if it becomes evident there will be additional changes from the State and/or that the State will be taking additional schools, staff will come back to the Board with this information. He also added these changes will not affect next year’s (2013-14), but it will affect the following years, and staff will be prepared to address what needs to be done.

Ms. Trammel asked for clarification on the increase in TRSL and the determining factor for the increase? Mr. Lee explained that each year TRSL receives an actuarial on their unfunded liability and they adjust accordingly how much is needed to pay that liability in a certain number of years. He also stated he hopes to provide a complete proposed budget to the Board which will compare last year’s actual to this year’s estimate and next year’s budget. Ms. Trammel asked how will decisions made by the State Department impact the Caddo System? Mr. Lee stated any decision at the State level that can affect the local District, i.e. reduction of grants, additional modifications to MFP, will be passed on to the Board with staff’s recommendation.

Miss Green asked about the possibility of this information being available on the web site and Mr. Lee responded that it is not currently, but it will be. Miss Green also asked President Ramsey if it is possible to get input from the 12 Board members as to the time budget sessions are scheduled? Mr. Ramsey responded he will gladly receive input before calling the meeting.

Mr. Riall asked Mr. Lee to clarify the separation of the two General Fund adjustment pages. Mr. Lee explained that the charters receive funds from two different pots of money for the students enrolled at the charters. With the requirement that MFP dollars follow the student, Mr. Lee explained that is the information on the first page of information and the local adjustment is the
amount of our tax dollars attributed to the students that live in Caddo, but attend a non-public school. Mr. Riall noted the $5 million for retirement for 2013-14, and asked Mr. Lee about the following two years. Mr. Lee stated he would estimate an increase of at least $5 million each year, but until a cap amount is determined, it will increase because of the increase in salaries. Mr. Riall also asked if the Governor is successful in the proposed sales tax plan will it affect the District, and Mr. Lee said he definitely believes it will affect local sales negatively.

Ms. Priest referenced the local shares of LEAs and noted the amount for Juvenile Justice and that these local tax dollars are not used to fund or support truancy or juvenile justice in Caddo, but are local tax dollars used for the two juvenile facilities in Baton Rouge.

Ms. Trammel stated that she was previously told when she asked the question about this double dipping; that it is because of the number of students in Caddo. Mr. Pierson said the funds that are a part of the millages we will ask taxpayers to renew, and it is important for people to understand these funds are not just to help Caddo Parish, but are a part of a State assessment that goes to other places, i.e. students doing virtual work, and it will affect a lot of people. Mr. Pierson asked if there is a decision to take over a number of schools this Spring, how soon will Caddo be affected by this? Mr. Abrams responded he does not know if BESE has made any decision to take over any schools in the Fall; and we currently have MOUs for four Caddo schools that do not expire until 2014. In the State’s call for quality schools, Mr. Abrams stated it is his understanding the State has put out an application process for those who might be interested in operating a charter school. At this time, there have not been any applicants for the four schools in Caddo; however, he knows the State will again make the call for quality operators of charter schools. It is also possible for Caddo to apply for its own charter and put its own operators in schools that are subject to takeover; however at this time, there is not enough time for notification that a school will be taken over for the 2013-14 school year because the deadline to do so has passed.

Review of RFPs for Superintendent Recruitment Services. President Ramsey announced that RFPs were posted on BoardDocs on Monday and this item is on the April work session agenda. Mr. Riall asked, if and when a company is chosen, does the Board provide the company with the Board’s guidelines? Mr. Ramsey noted there were a lot of guidelines in the RFP and if the Board wishes to add additional guidelines, all companies responding would have to be given the opportunity to look at and respond to the additional guidelines.

Mr. Rachal stated that at this point in time there has not been a decision made by the Board to hire an outside firm, but the process has been to look and determine if it is a viable option. He said there are other options he believes will be addressed to make sure everything is on the table before a decision is made. Mr. Ramsey clarified that the Board will be voting on this in April; and at that time, a motion could be made to dismiss this option and go in another direction.

Announcements. Mrs. Bell announced that the next ID Badge Committee meeting will be April 10th at 11:00 a.m. and minutes will be forwarded to committee members prior to the meeting.

Mr. Ramsey announced that on Friday at 4:00 at Cane’s (corner of Jewella and Mansfield Roads) there will be a celebration for the Southwood Lady Cowboys winning the State Championship.

Ms. Trammel stated that relative to advertising, as it relates to the tax renewal, there are certain laws that dictate how certain things can be advertised and it is important to know these prior to advertising so as to avoid any fines against the school system.

Adjournment. Ms. Priest moved, seconded by Mr. Pierson, to adjourn. Vote on the motion to adjourn carried and the work session adjourned at approximately 3:27 p.m.
April 2, 2013

The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, April 2, 2013 with President Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Mary Trammel, Lilian Priest, Barry Rachal and Dottie Bell. Also present were Dr. Gerald Dawkins, secretary, and Reginald Abrams, legal counsel. Ms. Priest led the prayer and Pledge of Allegiance. President Ramsey announced that Mr. Hooks, Mrs. Crawford and Mrs. Armstrong are absent today.

VISITORS

Jackie Lansdale, president of Red River United, expressed greetings from the Central Trades and Labor Council who voted unanimously today to support the May 4th tax renewal election. She also announced that Red River United is proud to support education by supporting the May 4th election. She encouraged board members to not delay the election until later in the year when is it possible other items may be on the ballot, and to let the public decide on the renewals because it is a public decision.

RFPS FOR SUPERINTENDENT SEARCH SERVICES

Ms. Trammel moved, seconded by Ms. Priest, to retain the services of McPherson and Jacobsen in accordance with the response to the RFP for the superintendent search services. Ms. Trammel expressed the importance and need to begin the search in order to have a leader in place when school starts. Ms. Priest stated that in looking at the three proposals submitted, she believes all have the credentials and potential, but noted the partnership this firm has with LSBA and other searches in the State of Louisiana.

Mr. Rachal moved, seconded by Mrs. Crawley, that the CPSB advertise the position to be filled and follow the application process the same as for any other individual administrator and that applications will be received by the internal auditor and opened as any other bids are received on a given date. Mr. Rachal stated he believes that at this time it to be expeditious to advertise and receive applications that will be opened and handled as any other bid. The Board could review the applications and determine if this process can be used to name a superintendent. He believes it will be quicker, will cost less, and will hopefully lead to finding someone from the State of Louisiana that understands the issues with education and the State as opposed to someone from outside who may not have a clear understanding of education in Louisiana. Mrs. Crawley stated her agreement with Mr. Rachal’s comments and she believes we would be looking for the impossible if searching all corners of the United States for someone to come in and save the district. She also said if we start out with a National search, she believes we are eliminating local qualified persons.

Mrs. Bell shared what she is hearing the public say and that is because the superintendent’s contract was not renewed, they do not have confidence the Board can select a superintendent. Before a superintendent is selected, she wants a meeting whereby the people tell the Board what they want in a superintendent, and she will put out a survey to get input from the public.

Mr. Riall asked about any obligation the Board may have to the three companies submitting a proposal? Mr. Abrams responded the Board has no obligation to these companies. Mr. Riall asked if the Board decides to use one of the companies, is there a time line on it? Mr. Abrams explained that because April 2nd was listed in the RFP, if the Board delays acting for a month or two, it could possibly be that the company(ies) is not available.
Ms. Trammel explained that her reason for making the motion for McPherson and Jacobsen is because of their affiliation with the Louisiana School Boards Association and will be able to help us in the State of Louisiana to find a qualified candidate. She also said she would like to see the Board looking at applications from without and within the system.

Ms. Priest stated her belief that the CPSB needs to be consistent in whatever it does. Having advertised for a head hunter and doing a National search, it is true that the Board is seeking from all over, and this does not exclude anyone from the local, regional or national from applying. In a district the size of Caddo, Ms. Priest said the Board needs to have a wide variety from which to choose and select. He does not believe it possible for the Board to go through all the applications within the time constraints she has provided. Moving forth with a search company, and specifying what we wish for them to bring to the Board, she believes the Board will adequately, efficiently and effectively go through the applications submitted and choose a new superintendent. She asked the Board members to remember that Caddo is competing globally and we do not want to be left behind.

Mr. Rachal stated his previous arguments in favor of hiring a company and he agrees that the application process will not limit where the applicants come from; however he believes the Board will be limited when the company recommends only 10. Noting the comment that the public does not have faith in the Board at this time, he said he is not certain that we cannot come up with a viable candidate through an internal process; and that the public should be aware that because the Board received three proposals doesn’t mean it must enter into a contract with them.

Mrs. Crawley asked where McPherson’s home office is located? Staff responded that their Louisiana office is in Baton Rouge. Mrs. Crawley said her concern is this company did the search for East Baton Rouge, and Caddo will receive the applications that EBR did not consider.

Mr. Riall asked what did we request from the firms through the RFP as to what the Board is looking for? Mr. Ramsey explained that this was part of the request to McPherson and that is we will include local, regional and National applicants. He further explained they will cover all areas; which was part of the request (cost for local, regional, national).

Ms. Priest also stated that this company will take the entire Board through a consensus decision making process to identify the top criteria of the new superintendent.

Vote on the substitute motion failed with Board members Crawley and Rachal supporting the motion and Board members Riall, Green, Pierson, Trammel, Priest, Ramsey and Bell opposed.

Vote on the main motion carried with Board members Green and Crawley opposed and Board members Riall, Pierson, Trammel, Priest, Rachal, Ramsey, and Bell supporting the motion.

RECONSIDER TIMING OF TAX RENEWAL ELECTION

Mr. Pierson moved to cancel the May 4, 2013 tax election and to reset as necessary at a later date. Motion failed for a lack of a second.

Adjournment. There being no additional business, Mr. Pierson moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:18 p.m.

Dr. Gerald D. Dawkins, Secretary
Larry Ramsey, President
April 9, 2013

A special committee of the Caddo Parish School Board (CPSB) met in session at approximately 11:10 a.m. on Tuesday, April 9, 2013, in the Superintendent’s Conference Room located at 1961 Midway Street, Shreveport, Louisiana. Committee members present were Dottie Bell, Chair, Bonita Crawford, Jasmine Green, and ex-officio members Larry Ramsey and Carl Pierson. Staff members present were Roy Murry, director of security. Charlotte Crawley and Ginger Armstrong were absent. Mr. Pierson led the prayer.

Chair Dottie Bell called the meeting to order and stated that this is the third meeting of the committee looking at ID badges for Caddo students and asked President Ramsey to make comments. Mr. Ramsey stated he believes the committee process is the best avenue for conducting the business of the Board and he looks forward to additional successful committees.

Mr. Murry reported that as follow up to the last meeting, and because schools have the capability of getting student pictures when school pictures are made, he met with staff members to discuss setting up a printing station for schools to use for printing student/school IDs. He reported that the cost to set up the station would be $25,820, and the price includes five (5) computer work stations and five (5) print stations. Relative to previous discussions about additional licenses, Mr. Murry stated the District will not need to purchase any more software licenses. He also reported that Kathy Gallant agreed to designate space for the print stations in the Professional Development Center and Rickey Jones agreed to ensure that the room has the wiring required to access the network. Mr. Murry also added he is scheduled to meet with the school directors on April 15th to discuss this proposal for all middle schools before getting with the principals.

Following discussion, it was the consensus of the group that a recommendation to move forward and include this in the 2013-14 budget would be prepared by staff for the May board agenda. No additional discussion, the meeting adjourned at approximately 11:25 p.m.
April 11, 2013

The Caddo Parish School Board (CPSB) Executive Committee met in special session in its office at 1961 Midway Street, Shreveport, Louisiana, on Thursday, April 11, 2013 at approximately 4:45 p.m. Executive Committee members present were President Larry Ramsey, 1st Vice President Carl Pierson and 2nd Vice President Bonita Crawford. Other board members present were Steve Riall, Jasmine Green, Ginger Armstrong and Dottie Bell. Also present was Superintendent Gerald Dawkins.

President Ramsey explained that today’s meeting is being held in accordance with CPSB Policy GBM to allow employees to share with the Executive Committee their comments and concerns.

Steve Umling stated he is not before the Executive Committee to ask why, to blame anyone, to criticize, or to ask for an investigation, but to be able to discuss a sensitive issue. Because of the content and the confidential information, Mr. Umling stated he believes it best to discuss this privately, allowing him the opportunity to answer questions and restore his reputation with each Board member.

Marc Weddleton, 1st year teacher at Lakeshore, shared that one of the things he sees, in Caddo Parish as well as across the State, is seasoned teachers retiring at an alarming rate. He petitioned the Board to look closely at this issue and determine if the Nationally Board Certified teachers who have a wealth of knowledge and experience can be retained. As a rookie teacher, he needs these teachers to share their knowledge and help him become a good teacher. He also said that it is his belief that every decision should be made based on what is in the best interest of the child.

Jon Glover asked the Board about the policy for employees to address the executive committee about any concerns, but she said she doesn’t understand why there is never any feedback. She also asked the Board to look at the hiring practices because there are some integrity concerns and she has often seen practices that manipulate to accommodate whatever anyone wants, which is not a good perception in the neighborhood.

Sandra Stewart shared her concern about the flock, the family at the Caddo Parish School Board, and what is really going on, because employees are working hard, but everything is going up but the pay. She also stated she knows that everyone should care for one another, but she doesn’t understand why money can be found to pay for everything else but the workers are last in line.

Joyce Lars shared with the Board her concerns as an employee who has 25 years of satisfactory evaluations and good attendance; and because of the 2010 compensation plan, she was red circled, her position downgraded, and her salary frozen for the remainder of her career in Caddo. Realizing if she wanted to stay in the system it would be necessary for her to enhance her marketable skills in order to hopefully move into a higher paying position, this is what she did. Mrs. Lars said she went back to school, earned her Master’s Degree in Public Administration and prepared to apply for other positions in the school system. Today she announced her dismay and discouragement when she learned that the latest position she applied for was filled by a relatively new employee with less credentials and experience, and now questions if loyalty to the system and professionalism means anything.

Carol Pabst stated that she is present to make the Executive Committee aware of some things happening with the Compass evaluations. She clarified that teachers are not against educational reform, which is how the media has portrayed them; however, she works next to teachers who are ineffective and it makes her job harder. Ms. Pabst stated she is for reform that keeps qualified teachers in the classroom and makes everyone’s job more effective. While she understands it is not the CPSB that wrote the legislation that put COMPASS into effect, she wanted to make the Board aware of what it can do to make everything more palatable for the teachers. She noted the inconsistencies on how things are marked, some schools deciding that a teacher would be evaluated twice by two different administrators and some are being evaluated
by the same person both times, recommendations for improvement, too many variables in COMPASS, etc. She also noted the many different roles a teacher plays in the students’ lives and she would like to encourage the Board to help by being on television with positive reinforcement, email the Legislators about the support for teachers, the Board President recognizing the sacrifices teachers make, go to Baton Rouge. Ms. Pabst stated she is grateful to teach in Caddo and loves what she does, and she doesn’t work from 8:15 to 3:45, but 7:30 to 6:00 and has only missed one day of school this year.

Dolores Lynch shared her concern about awareness and taking a pro-active posture. She noted that we live in a society where crises are being deliberately created or manufactured and these crises have come to divert everyone’s attention so that further crises can take place, i.e. Compass, Course Choice. Regarding Course Choice, Ms. Lynch stated that this is something the Board needs to be aware of and pro-actively working against it. With Course Choice allowing 42 providers to provide courses for Caddo students (some on-line, some hybrid), it takes away MFP money from Caddo schools and gives it to these providers. Students are currently being recruited and signing up to attend the charter schools and students are recruiting other students. As parents are signing their children up to take the Course Choice courses, she explained that she was asked to call these parents which she did and learned about the complaints. She added there are only three ways a school can turn down a student for Course Choice, and there are parents that do not even know their children are signed up in the program, children are being given an iPad for signing up in the program. From the information on the web site, she stated that the courses are available from almost any web site or any computer with Internet connectivity and each student that signs up is given an iPad. Also, Mrs. Lynch shared additional impact on the neighborhood schools as budgets are approved to implement these programs. She also shared her disappointment in the Board’s decision to go with an outside search, because she believes the most successful superintendents have been home grown. Also, the alternative education contract was approved for Ombudsman; and she is concerned about this decision because she sees students who want to go there and they want to because their siblings or friends are there and they do not have to attend school all day. She also encouraged the Board to familiarize itself with ALEC and hopefully take a position of being more pro-active.

Angellun Wilder shared with the Executive Committee a recent incident associated with testing on April 9th where a staff member was asked to act in the role of testing coordinator at one of the elementary schools and to stay in the role for the remainder of the testing week. The incident involved a student with special needs and an exceptionality of visual impairment, meaning that the student had a certain level of blindness and did not have his glasses. She highlighted concern expressed about the student being tested without his glasses, but was given a hand held magnifier to assist him in his test, and the testing administrator refused to continue administering the test. She highlighted the testing process and that this student was allowed to continue with the testing as long as the testing administrator read the information slowly. Among the accommodations provided were test read aloud, extended time, large print, video magnifier, handheld magnifier and calculator. She stated her concern that there are several entities in the system, especially at the school level, that are a detriment to the education of special needs children. When the testing administrator refused to continue the test, the Caddo Parish Special Programs Center was called and it was noted that the Testing Administrator was belligerent and refused any of the suggestions made; and the testing administrator was advised they were no longer needed because of the creation of an adverse environment. She further stated she does not believe it o.k. for a student to be tested without their medically prescribed glasses, and she is concerned about the level the District intervenes in these type situations. Ms. Wilder encouraged the Board to be aware of these incidents that are occurring during testing.

Jackie Lansdale, president of Red River United, commended the Board for offering this venue for employees to share their thoughts and concerns and she invited all board members to attend the Red River United’s prayer vigil for public education on May 2nd at Riverview Hall. She also announced that the Most Improved Student Banquet will be held on May 9th at 6:00 p.m. at Southwood High School, as well as the First Responders Award. Because there is plenty of
negativity, she encouraged everyone to step up and not allow the negative anymore. She also encouraged the District to begin again with an administrative leadership program, because there are those being placed in leadership roles that are not prepared for it.

Members of the executive committee thanked employees for taking the time to come and share their thoughts and concerns. They also shared their appreciation for the job done by everyone and apologies for not telling the employees more often how much they are appreciated. Mr. Pierson also commented that he has had others call him about the Superintendent Search; and clarified that because the Board hired a firm from outside Shreveport to conduct the search, does not mean that someone local will not be considered. They can and they can check online as to how they might apply. Mrs. Crawford agreed and that this is an important way of receiving input from the employees as to their concerns.

There being no additional speakers, the meeting adjourned at 5:37 p.m.
April 11, 2013

The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 2:30 p.m. on Thursday, April 11, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present was Secretary Gerald D. Dawkins. Ms. Priest led the prayer and Pledge of Allegiance.

Superintendent Dawkins stated that staff is prepared today to report to the board where it is in the planning process and will reflect the moving parts (unavoidable costs, i.e. State mandates in increases in health care and retirement, revenue projections from various sources, staffing issues in all departments). Jim Lee, chief financial officer, announced that this proposed budget is the first run for the budget and is not how it will end up even though it is a budget that is legally adoptable. He shared two documents – the budget as well as what is influencing this year’s budget. He stated the projected MFP is approximately $195 million (adjusted amount after removing requirements for charters, vouchers, etc.), and it is based on the projections from the State Department, as well as a flat projection for property taxes, and a reduction in sales tax (because of mineral gas production). Also, the teacher salary schedule will cost approximately $1.5 million to implement, in addition to increased healthcare and retirement costs. He reported on the 2011-12 actual results, the proposed revision to the 2012-13, how the 2012-13 budget will end this school year as well as a proposed 2013-14 budget. He reported an initial projection for 2013-14 of more spending than revenue, even though it is a legally adoptable budget. Mr. Lee reminded the board there is no new revenue for Caddo Parish at the present time and what is reflected in the proposed budget is projected through the property tax and a slight increase in MFP. Because expenditures are in those areas which staff cannot typically control, i.e. benefits, healthcare/retirement, programs put into place, it is imperative to look closely at the budget to determine what expenditures can be reduced; and even though the presented budget is legal to adopt, he reminded the Board that it is not legal to spend this kind of money when it is not coming in; and meetings will be held with the Board to discuss what can be done. Mr. Lee also highlighted the projected growth in revenue of 1% (slight increase in MFP), and some of the larger expenditure items of healthcare and retirement, and that staff is looking for the Board’s suggestions in moving forward and to bringing a budget to the next meeting reflecting these suggestions.

Dr. Dawkins also asked Mr. Lee to share with the board the total fund balance information, and Mr. Lee explained the various reserves in place, noting that the balance for the undesignated fund is approximately $300,000, which does not include the current reserves in place. This list has been shared in past years’ budget work sessions and the total fund balances equal approximately $22 million.

Mr. Riall asked about the remediation program being drastically reduced. Mr. Lee explained that this is an accounting adjustment, because in past years incentives paid to target schools were included in this line item and this was shifted into the teachers’ line item, and the board will see this reduction in other line items.

Mr. Riall asked about a five-year projection on health care costs, and Mr. Lee responded in looking at the history, it is anticipated it will continue to increase based on the number of claims.

Mr. Ramsey requested that Mr. Lee highlight the line items on employee benefits; and Mr. Lee explained that the total regular education section reflects an increase of approximately $3 million from $167 million to $170 million. He also noted that employee benefits increased from $53 million to $57 million, as well as the expenditures listed under Special Education benefits.
Miss Green asked for clarification on the Drivers’ Education expenditure. Mr. Lee explained that it includes the cost of the vehicles, stipends for the instructors, and it is a break even item, as the fees charged students are set to offset the expenses. Miss Green also asked about the music program and if the amount budgeted includes instruments and whose turn is it to get instruments.

Mrs. Crawley asked when will Board members receive information on the number of positions, and Mr. Lee responded that it will come to the Board at the next budget session.

Mr. Hooks asked if the Board will be able to ask questions pertaining to this information received today at the next meeting? Mr. Ramsey stated that today is a starting point and Board members will be given the opportunity to ask additional questions, with the next packet of information being more detailed. Mr. Hooks explained that he likes to take the information home for review before asking his questions. Mr. Ramsey encouraged him to get with Mr. Lee between meetings to get his questions answered, and Mr. Hooks stated he likes to get his questions answered in the open meetings so it is recorded. He also asked what impact the May 4 election will have on the budget if the voters do not approve the tax renewals, and Mr. Lee said it will not affect this budget, but the affect will begin the following year.

Ms. Trammel asked about the successfulness in saving money in travel? Mr. Lee reported the travel budget was reduced last year and he will bring additional information to the board. Ms. Trammel also asked if she understands correctly that Board members can call staff as they have questions on the budget, and Mr. Lee responded absolutely and to start with him to get the information needed.

Mr. Pierson asked was there not a time that the District made more on Drivers’ Education than is being made now and students were charged less? Mr. Lee said it is possible and he will research and provide additional information.

Ms. Priest commented that $21 million is a huge amount when talking about expenditures over revenue and asked if there is any idea how many retirees Caddo will have this year? Mr. Lee responded that he believes at the present time, there are 125 certified and 100 classified, but he expects that number to increase by the end of the school year. Ms. Priest asked about vacant positions, critical areas, and the impact attrition can have on the debt. Mr. Lee responded that for each teaching position, it is approximately $70,000; and for classified positions, it is approximately $40,000 per position for those retiring.

Mrs. Crawford asked if we are still underestimating revenue and overestimating expenditures as in the past? Mr. Lee explained that relative to revenue, the only item being underestimated is taxes; and under expenditures, staff looks at worse case scenarios; and at this time, staff is budgeting everything possible and being as conservative as possible. Mrs. Crawford asked if, other than current vacancies, staff anticipates having to do teacher reductions? Mr. Lee responded that if the Board expects the budget to be better than $21 million excess spending over revenues, there will have to be some cuts somewhere and 85% of the budget is people. Dr. Dawkins said the answer will be what is learned as attrition rates and numbers are known, and as always, we will stay as far away from the classroom as possible.

Mrs. Crawford asked about information from the first budget meeting and Mr. Lee explained it was basically a presentation on predictions for revenues and this budget today is the first one the Board has seen. Mrs. Crawford also asked staff to provide an estimated number for the percentage increase in healthcare and retirement costs. Mr. Lee shared that information is approximately $10 million.

Mr. Rachal asked for clarification that the budget the Board is currently looking at reflects the reduction in MFP for charters and vouchers. Mr. Lee said that is correct and it is based on the
model the State gives the District. Mr. Rachal asked that staff provide the Board the 2010-11 total cost for benefits, the 2013 estimated cost, and the difference, pointing out that the revenue is only anticipated to increase approximately $250,000. Mr. Rachal stated his assumption that the benefits cost will be in the millions, and he would like to see where the State began raising the District’s percentage to the retirement, as the revenues are basically the same as four years ago yet the cost now is the impact from outside sources. He also asked for the total MFP reduction as it applies to the charters and vouchers and how it has impacted the local District, because in addition to withholding MFP funds they also have reduced our MFP by an average amount of what the local tax revenues are by student, and he would like this information over a three year period. Mr. Rachal also asked for the total additional cost for the lower performing schools and those currently under an MOU (back to 2010). Mr. Rachal also asked Mr. Lee if he were to tell him he does not want the District to have a $300,000 ending balance at the end of 2014, but a $9 million balance (a target number), what would staff’s recommendation be for accomplishing this and while holding our reserves at a comfortable amount.

Mr. Ramsey said the focus needs to be on a balanced budget, which means the Board needs to focus on eliminating the $21 million amount, and he wants everyone to know and see that is the Board’s focus. Mr. Rachal stated he believes the public needs to know the impact of mandates from the State and asked Mr. Lee the cost for the National Board Certified teachers that the State originally said it would cover and now the local districts have to cover. Mr. Lee responded that it is in excess of one-half a million dollars. Mr. Rachal reminded the Board that these are people who live outside and far from Caddo Parish that are making the decisions for the local LEAs; and when the State continues to increase the cost of the children’s education and not fund these mandates, the Board then must go to those who reside in Caddo to fund what the State wants.

Mrs. Armstrong asked staff how long will Caddo have a reserve for the Filipino teachers and what is the reserve for? Mr. Lee explained that the reserve originally was set up for immigration costs per teacher, and he anticipates keeping it for the next few years because we are still paying costs related to them. Mrs. Armstrong asked if this is repeated annually. Mr. Lee stated he is unsure if it is the same firm but will research and provide the Board the costs of both. She asked how long will the Board continue to pay additionally for their services. Mr. Lee responded that some are now seeking green card status and to do so they must have a sponsor. Dr. Robinson agreed with Mr. Lee’s response and that approximately 42 teachers are in their fifth year of residency and service to the District and are now beginning the green card process. She added the immigration attorney advises staff in this regard and staff is following the advice given and have made a commitment to the Filipino teacher. She also added it is staff’s understanding from the immigration attorney that the green card process can take three to five years. Mrs. Armstrong asked if new employees are paying into Social Security, and staff responded no one pays into Social Security. Mrs. Armstrong also asked about the Legal Counsel line item and the ongoing increase in legal fees. Mr. Lee said $600,000 is the same amount that the District began with last year and an attempt is made to see that the legal expenses are kept in check. Mrs. Armstrong asked staff to provide the Board legal fees paid prior to having multiple attorneys.

Mrs. Bell stated that it appears many things stated in meetings get blown out of proportion and asked staff to clarify that no one has said anything about laying off anyone. Mr. Lee and Dr. Dawkins responded that nothing has been said about laying off any Caddo employees. Mrs. Bell added that in looking at the 225 retirees, will this not be money we can reduce in expenditures; and Mr. Lee said that is correct assuming they are not replaced. She also noted that most of the budget is based on the items added by outside sources, and knowing that the Board will be blamed for spending money, she believes we need some help since the State is making mandates on the District, but not assisting in the funding for implementation of the mandates. She also referenced the $1.5 million for the new teacher salary schedule which the State mandated but did not provide any funding. Mrs. Bell also asked about the liability and self-insurance claims and Mr. Lee explained that the liability insurance is on the facilities in the event someone is injured.
and the self-insured is basically workers’ compensation through the State. Mrs. Bell asked how much, when a person is out for sick leave, of the employee’s salary do they receive? Mr. Lee responded that if the employee has regular or accumulated sick leave, they receive full pay. Regarding workers’ compensation claims, the District pays the medical part or the employee can use their sick days if they wish to receive full pay. Mrs. Bell also asked what is included in the “rent” line item, and Mr. Lee explained that the majority is the convention center for graduations.

Mr. Ramsey commented that he believes the newspaper article in today’s paper reported some issues with the mid-year adjustment but also pointed out that the District did not receive the 2.75% increase over the last number of years. He asked the Board as it goes through the budget process to continue to focus on what it needs to do with the dollars that are allocated to the District. As we move forward, he pointed out that the attrition rates will change and will be a “moving target” until a budget is submitted for the Board’s approval at the May 21st general session. He noted the mid-year surprise that had a tremendous impact on the District and it is showing through the reduction because of the student count of approximately $3.8 million. Mr. Lee reported that he contacted the State Department regarding this issue; because while he can see where we lost some students from last February, he does not believe we have lost the number reported by the State. He reported on the explanation he received relative to the mid-year adjustment of $4.1 million and the previous year’s adjustment of approximately one half a million dollars. Mr. Ramsey asked for a projected 2014-15 budget with and without tax renewals, that staff review all the reserve funds, and that Mr. Abrams detail the attorney fees.

Mr. Riall asked Mr. Lee if he remembers correctly that the State has Caddo on a financial watch. Mr. Lee responded they have had us on one, but he has not heard anymore in the past year.

Mr. Pierson inquired about no new buses in the budget and Mr. Lee responded that new buses have not been purchased for approximately five years. Currently, purchasing 10 buses would cost approximately $1 million and until some other cuts or reductions in expenses, there is not money to purchase buses. Dr. Dawkins added that staff has discussed buses along with cameras for buses, and noted the State law that limits use to 25 years, which means something will need to be done. In addition, he reported this is only one of the challenges presently being looked into, but textbook adoptions will need to be considered, as well as PARCC readiness (testing students electronically on state assessments).

Ms. Priest asked for the next work session, and because $20 million is a lot to make up in order to have a balanced budget, that the superintendent and staff provide the Board recommendations on a plan for addressing the need for a balanced budget without affecting student services. Even though Mr. Lee stated the Board can legally adopt this budget, she knows, if we go into the reserves to balance this budget, it will not be better next year. Dr. Dawkins said staff will bring some recommendations to the Board.

Mrs. Crawford asked if the $10 million in healthcare is the increase or is it the total amount? Mr. Lee said is the increase for retirement and healthcare. She also asked if the $4.1 million reduction includes the students for the Magnolia Charter School. Mr. Lee again explained he has a call into the State to ask some of these questions, but has not received a return call.

Mr. Rachal asked about the local revenues, i.e. ad valorem taxes and sales taxes, and who is paid to collect the ad valorem taxes. Mr. Lee responded it is the Sheriff. For the $91 million that is collected in property taxes and the $71 million in sales tax, he asked if he sees correctly that it actually cost the District $300,000 to collect $71 million in sales tax and $1.9 million to collect $91 million, because he does not understand why we pay six times as much for them to collect only a little more. Mr. Lee responded that while he doesn’t have a good answer, he knows part of it is the sales tax office reports directly to the School Board and the City. Mr. Lee responded that he will research this and provide additional information to the Board because he is not clear
on the collection of ad valorem taxes. Regarding legal counsel, Mr. Rachal noted that the District is budgeting $600,000 yet the expenditure has been at approximately $1.1 million for the last two years. Mr. Lee stated that this has been a standstill budget and is what the staff budgets to begin the year. Mr. Lee said a realistic number would possibly be $1 million. Mr. Rachal also noted that it is policy how many administrators and teachers are allotted to each school and he knows during the school year, additional personnel at schools if there is a need. He asked staff to provide him with that count, and where we have made special allowances to meet the schools’ needs as they are presented to the Board.

Mrs. Bell noted that at last budget meeting, Mr. Lee explained the money for the charter schools and vouchers and how much this would reduce the $21 million deficit.

Dr. Dawkins expressed appreciation for the Board’s comments and questions which staff will consider in continued budget preparations. He also announced receipt of a report from the Governor on the graduation cohort rates and that Caddo Parish reflects a 1.8% increase.

Mr. Ramsey announced that the initial visit from McPherson and Jacobson will be April 23 and the Board will meet with them in the boardroom at 2:00 that day. A tentative visit is also scheduled for April 30th.

There being no additional discussion, the budget work session was adjourned at approximately 4:00 p.m.
Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, April 16, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Ms. Priest led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE MARCH 13, 2013, MARCH 19, 2013, MARCH 21, 2013 AND APRIL 2, 2013 CPSB MEETINGS

Ms. Priest moved, seconded by Mr. Rachal, to approve the minutes of the March 13, 2013, March 19, 2013, March 21, 2013 and April 2, 2013 CPSB meetings as submitted. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications, and Dr. Mary Nash-Robinson, chief of staff, on behalf of the board, recognized the following students and staff members for recent achievements. President Ramsey and Superintendent Dawkins presented a certificate to each student group or employee in recognition of their accomplishments. School officials, family members and friends in attendance were also recognized.

Autism Awareness Month. The following students were recognized for their achievement in academics and the arts as a part of National Autism Awareness Month: Kiarra Johnson, 4th grade student at Alexander, who sang for the board and audience “When I Get My Name in Lights”; Jonah Jones, 3rd grade student at North Highlands for his artwork; and Emily Risinger, 5th grade student at Riverside for her artwork.

Louisiana School Boards Association (LSBA) 2013 Art Competition Winners. The following students were recognized as winners in the 2013 art competition held by the Louisiana School Boards Association: Terris Giles, 4th grade, Queensborough Elementary, 3rd Place; and Bakeem Newby, 12th grade, Huntington High, 2nd Place.

Byrd Army JROTC Yellow Jacket Brigade Marksmanship Team. The members of the C. E. Byrd Army JROTC Yellow Jacket Brigade Marksmanship Team were recognized for winning the State/National Title held in Salt Lake City, Utah. Cadet Stormy Sanders also placed 9th in the nation.

Paint Your Heart Out Contest. The Department of Community Development (Bonnie Moore, Director; Darlene Rossum, chair; Lillian Priest, co-chair, and Marcia Nelson, management assistant) recognized the following students as winners in the Paint Your Heart Out LOGO Contest: 3rd Place, Alexis Rodriguez, 10th grade student at CCTC and Southwood; 2nd Place, DeAnthony Taylor, 11th grade student at CCTC/Captain Shreve; and 1st Place, Dayja Cole, 10th grade student at CCTC and Southwood.

2013 SkillsUSA State Medalists Winners. The following students were recognized as Gold Megal/1st place winners in the 2013 SkillsUSA State competition: Bruce Sibley, Auto Service Tech, CCTC/Captain Shreve; Andrew Davies, Technical Drafting, CCTC/Caddo Magnet; Cody Watson, Welding, CCTC/Byrd; Chase Johnson, Architectural Drafting, CCTC/Byrd; Devonte Lewis, Advertising Design and Opening/Closing Team, CCTC/Captain Shreve; Cheyenne Manshack, Job Skill Demo B, CCTC/Southwood; Clark McCrery, Related Technical Math,
Students of the Year District Finalists. The following students were recognized as district finalists in the CPSB Student of the Year Program: Sophie Glick, A. C. Steere; Chloe Dean, Eden Gardens; Matthew Randall, Fairfield; Camerin Kimble, Judson; Lindsey Kelley, Shreve Island; Callie Moore, Summerfield; James Rushing, University; Madelyn Rice, Vivian; Jonathan Pouncy, Werner Park; Joylin Eppinette, Donnie Bickham; Abigail Davis, Herndon; Ashley Wolfe, Vivian; Shelby Johnson, Youree Drive; Mary Beth Turner, Byrd; Joan Liu, Caddo Magnet; and Evan McMichael, Northwood. District winners, who are in Baton Rouge today for the announcement of State winners, are Ceara Johnson, South Highland; Safa Michigan, Caddo Middle Magnet; and Madeline Wagnon, Captain Shreve.

Bowling Foundation’s Educator of the Year. Sharlene Wilson, Herndon Magnet, was recognized as The Bowling Foundation’s Educator of the Year.

Yale Distinguished Music Educator. Krista Fanning, music teacher at Caddo Middle Magnet, was recognized from a pool of nearly 300 nominations representing 45 states as the recipient of the Yale Distinguished Music Educator Award for her accomplishments and vision as a public school music teacher.

As a point of personal privilege, Ms. Priest stated that recognizing students and employees for their accomplishments is something done every month and expressed appreciation to the parents for entrusting Caddo Parish Public Schools with their boys and girls.

Newly Appointed Administrators. Dr. Mary Nash-Robinson introduced and welcomed the following newly appointed administrators: Dr. Sheila Lockett, director of special education; Pamela Morgan, supervisor of compliance/complaint management/SPED; Regina Washington, pupil appraisal supervisor/SPED; and Donna Vishnefski, Sci-Port education coordinator.

VISITORS

Jon Glover noted the number of times she has appeared before the Board pleading on behalf of inner city students in Caddo Parish to be afforded equal access to education and their resources. She said that she often sees and hears the rhetoric that is espoused and wants everyone to believe that the interest of an African American student is just as important as the other race of students in Caddo Parish. Beguiling her with pretty words or threatening words is not the answer to her questions, because what she has and recognizes is that beguiling of words is used to entice — entice one to adapt an attitude or behavior that is usually in opposition to what the attention should be — educating every child in Caddo Parish. She said that dressing up words in efforts to disguise what is really going on is what has been done in Caddo Parish, and what surprises her is those who have experienced the same attitudes and behaviors that you are not worthy of a proper venue for equal education have aligned themselves with the same mindset. She doesn’t understand why, because the transition from segregation into integration today appears to be nothing more than a dressed up segregation. She believes the wall of segregation exists more today than yesterday; and because the children of color are not achieving as their counterparts, she believes what is not being said is a deliberate sabotage. Ms. Glover noted the enlightening comments from principals of color at the BTW meeting on how they rose above the norm, but it
doesn’t change the fact that the children are failing. She said she would like for someone to explain to her how a charter school, voucher program, or any other avenue that has been brought about to make sure presently disadvantaged students will gain ground in education, and why the public school system has failed these students. Beguiling is not it, but what is evident is that this beguiling is true; because she has attempted to not bring about a course of rhetoric that means nothing to anyone, but to make them think outside the box. Noting that the public school system we once knew exists no longer, and asked the Board to remember its contribution to the plight of African American students of the inner city schools and will they continue on the path of failure or will there be an institution of practices that will insure a quality of education for all students?

Eppie Adams, president of Caddo District PTA, extended appreciation to the School Board for the continued support of the PTAs throughout Caddo Parish. She said as questions have arisen relative to policies, procedures and the upcoming millage renewal, they are appreciative that the staff has made themselves available to meet with them and address their concerns. Ms. Adams also expressed appreciation for the opportunity to participate in the Discipline Review Committee and School Safety Committee, etc. because it has been beneficial in providing information in a timely manner to the members, as well as for them to provide input. She invited Board members to attend their annual awards ceremony on May 9th at which time scholarships, volunteer awards and recognitions will be made to Caddo’s world class students.

Martha VanCleve, realtor, shared with the Board the many changes she has seen in the community over the past 47 years she has lived in Shreveport; and she believes her comments today represent those of a silent constituency. She reminded the Board members that they represent everyone; and because the District is rapidly losing its tax base, she wants the Board to know that those who want to stay are tired of the political rhetoric. Rather than make tough, common sense decisions, she stated the Board has squandered taxpayers’ money by not closing schools. Ms. VanCleve recommended that students in schools with low numbers should be offered the opportunity to attend a school that will offer them more opportunities to succeed. Additional areas of expenditures that can be cut include travel because the perception in the public is that trips made are no more than nice vacations. She said the enormous budget and the high cost per child for an education in Caddo Parish is the same as a business, yet the perception is that educators on the Board have been totally ineffective. Additional concerns/ideas shared included uniforms in all schools, ID badges required in all schools, dress code for teachers, no more social promotion, students not having skills needed upon graduation to meet business requirements, lack of work ethics, discipline problems, etc.; and her disagreement with the Board’s decision to ask the electorate to renew taxes and that the Board should be aware of consequences when the Board asks for an extension of or for additional funds and encouraged the Board to have the intestinal fortitude to do the right thing for Caddo Parish.

Daryl Roberson, president of Caddo Association of Educators, addressed the tax renewals and that their goal is to always do what is in the best interest of the students in Caddo Parish and the opportunity to prove that this is true by supporting the tax renewals on May 4th. With these taxes retiring after 10 years, he stated by law there must be an election to renew them. If they do not pass, the CPSB will have to make serious reductions which will have a negative impact on the students and schools. He encouraged everyone to look at what is at stake if the election fails -- student safety and security, individualized instruction, increased class sizes and student teacher ratio, transportation. If public education is truly valued, he said now is the time to make sure that for the next 10 years Caddo Parish Public Schools will be able to provide a free and appropriate education for all students in Caddo Parish and encouraged the Board to do whatever is necessary to provide the best public education possible for every child.

Jackie Lansdale, president of Red River United, stated that although Act 1 and Act 2 were found unconstitutional and are presently headed to the Supreme Court, the Board members should be reminded that they are unconstitutional. Based on the item on the agenda, she reminded the
the Board that it’s confusing that there is a group of employees’ contracts that need the Board’s approval, yet there is another group that does not. As an organization, she stated she has issues with this because of who now has to be approved by the board and who does not, based on the Board Attorney’s interpretation of Act 1. She encouraged the Board to rethink this and presented a proposed resolution for the Board’s consideration. Mrs. Lansdale also invited the Board members to attend a prayer vigil for public education on May 2nd and the Most Improved Student Celebration on May 9th.

ESTABLISH AGENDA AND PROPOSED CONSENT AGENDA

Superintendent Dawkins highlighted items on the agenda for the Board’s consideration and President Ramsey recommended that Items 6.01-6.02, 7.01, 8.01-8.03 and 8.06-8.07 be the consent agenda. Item 8.04 was postponed until the May meeting and Items 8.05, 8.08 and 8.09 were pulled.

Jon Glover addressed the Board on 8.01 “2012-2013 General Fund Budget Revision” and her concern that this was placed on Consent which means the Board supports it; and as the Board is asking the taxpayers to renew millages, and she doesn’t understand why. Ms. Glover asked, if our system as we know it is being torn apart, how will this funding be utilized, because the State Superintendent has said the funds will follow the students to whatever institution they choose to attend. Understanding that jobs could be in jeopardy, a number of jobs, she asked where will the axe fall if this happens, because she doesn’t believe administrators will eliminate their jobs. She asked if this will happen even if the millage does not pass.

Ms. Priest moved, seconded by Ms. Trammel, to approve the agenda and the proposed consent agenda (6.01-6.02, 7.01, 8.01-8.03 and 8.06-8.07) for the April 16, 2013 meeting as presented. The following is a summary of the Board’s action on consent agenda items.

**Item No. 6**

**6.01 Personnel Recommendations.** The board approved the administrative contract renewals as recommended by the superintendent and submitted in the mailout.

**6.02 Personnel Transactions Reports.** The board approved the personnel transactions reports for the period of February 19, 2013 through March 21, 2013 as recommended by staff and submitted in the mailout.

**Item No. 7**

**7.01 Bids (Purchasing).** The board approved the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Doerle Food Service; Gerlach Meat and Reinhart Food for the purchase of Canned and Frozen Food, Fish, Poultry, Eggs, Meat and Specialty; (2) Carefree Janitorial, totaling $146,322.30; Doerle Food Service, totaling $5,917.20; Long’s Preferred, totaling $9,170.20; Reinhart Food, totaling $120,815.15 and VCC Janitorial, totaling $97,962.20 for the purchase of Food Service Paper and Supplies. A copy of the bid tabulation sheets is attached and made a part of the permanent file for the April 16, 2013 CPSB meeting.

**Item No. 8**

**8.01 2012-2013 General Fund Budget Revision.** The board approved the revision to the 2012-2013 General Fund Budget as recommended by staff and submitted in the mailout.
8.02 Out of State Travel. The board approved requests for out of state travel funded through the General Fund as recommended by staff and submitted in the mailout.

8.03 Authority to Hold Salvage Sale. The board authorized staff to hold a salvage sale on Saturday, May 11, 2013.

8.06 Resolution in Support of Louisiana Library Association Re: Library Issues. The board approved the resolution in support of the Louisiana Library Association regarding library issues as submitted in the mailout. A copy of the resolution is filed in the permanent records for the April 16, 2013 meeting.

8.07 Resolution Exempting Sales and Use Tax During 2013 for Capital Equipment for the Biomedical Research Foundation of Shreveport. The board approved the resolution exempting sales and use tax during 2013 for capital equipment for the Biomedical Research Foundation of Shreveport as submitted by staff in the mailout. A copy of the approved resolution is filed in the permanent records for the April 16, 2013 meeting.

BIDS (CAPITAL PROJECTS/CONSTRUCTION)

Mr. Rachal moved, seconded by Mrs. Crawley, to approve the following bids as recommended by staff and submitted at member stations on the bid tabulation sheets: (1) Camus Electric Co., Inc., with a Base Bid, for the sum total of $620,000 for Project 2013-Q504, “QSCB2 Data Wiring & Security at Midway, South Highlands, Mooretown”; (2) Carter Construction Co., Inc., with a Base Bid and Alternate 1, for the sum total of $458,000 for Project 2014-207, “Eden Gardens Handicap Accessibility Elevator”; (3) Camus Electric Co., Inc., with a Base Bid, for the sum total of $565,975 for Project 2013-Q506, “QSCB2 Data Wiring & Security Cameras at University, Eden Gardens, Eighty-First”; (4) Fitzgerald Contractors, with a Base Bid, Alternate 1, 2 and 3, for the sum total of $544,400 for Project 2014-301, “North Caddo Building Controls”; and (5) Johnson Controls, Inc., with a Base Bid, for the sum total of $342,300 for Project 2014-302, “Fair Park Building Controls”.

Mr. Rachal inquired as to the budgeted amount being a lot more than what the actual cost and if this overage amount goes back into the Capital Projects General Fund and a decision made as to where these funds will be spent. Mr. White explained that if it was not utilized in the existing bid project, the remaining amount will be culminated in the current year’s Capital Projects and rolled forward into the beginning balance for next year’s fund. Mr. Rachal also asked if he understands correctly that QSCB dollars must be spent on technology and Mr. White confirmed that is correct. With an approximate $200,000 savings in QSCB dollars, Mr. Rachal asked where will these funds be used? Mr. White responded there remains a couple of additional projects for bidding under the QSCB funds as well as some updated equipment to support these projects. Mr. Rachal noted that with many things up in the air at this time, he is concerned about spending dollars on projects that could potentially close. He said there are some projects that he is concerned about relative to putting money on projects in facilities that could be closed. He asked if the projects budgeted cover a year’s time, and Mr. White responded that is correct. Mr. Rachal asked for an updated list of projects bid from the budget and what is remaining. Mr. Lee added that regarding QSCB funds, the District has three years in which to spend the funds and cannot hold this money in reserve.

Mrs. Crawley agreed with Mr. Rachal’s comments. Mr. Hooks asked if cameras are being placed in the schools as a result of problems in schools? Dr. Dawkins responded that some schools do not have the appropriate cameras to cover the site and we are providing more coverage. Mr. Hooks commented on the cameras placed in Fair Park and the fact that a big screen television was stolen yet never picked up on camera. He asked how could this type of vandalism occur on the campus and we not be aware. Mr. White deferred to Roy Murry for a
response. Mr. Hooks said his point is if we are going to put up cameras, location is strategic, and he noted last year at Fair Park when a piano was pushed off the stage and there was not a camera in the auditorium. Mr. White explained that the last project will pick up these type projects. Mr. Murry explained that in talking with the public over the past two years about cameras, and he has made a commitment to the public, just as the Board has, to make the schools as safe as possible. When cameras were installed in Fair Park High School the primary concern was the middle schoolers being separated from the high schoolers and is where the cameras were set up. He said it is highly possible that they were not placed in every location and they do know there are some needed supplemental locations for cameras, but the plan is designed so that as more cameras are installed, they have learned about the placement of cameras, which is what will continue. Mr. Hooks said we can put up as many cameras as we want, but the students will continue to find a way to commit any crime they wish.

Mrs. Armstrong stated her belief that some strategic planning needs to take place before the Board continues to spend money in any fashion. Realizing this is the third year and this is QSCB money, she still believes there is a need to evaluate the schools and the possibility of any closures before spending additional funds on them.

Mr. Ramsey stated this is the time for questions and not debate, and he also reminded the board that these are projects already approved by the Board and these are only the bids on (bid process) those board-approved projects. He also pointed out that agenda items have a staff name and number listed beside them and he encouraged Board members to call and get questions answered before the meeting.

Mrs. Bell moved, seconded by Mr. Riall, to call for the question. Vote on the motion to end debate carried with Mrs. Crawley opposed.

Vote on the main motion carried unanimously. A copy of the bid tabulation sheets is attached and made a part of the permanent record of the April 16, 2013 CPSB meeting.

SUPERINTENDENT’S REPORT

Superintendent Dawkins announced that he was informed earlier today that the District has received a $325,000 grant from the State Department through a partnership with Northwestern State University to enhance Caddo’s early childhood education program.

ANNOUNCEMENTS AND REQUESTS

President Ramsey announced that a work session on the Superintendent Search will be held on Tuesday, April 23rd at 2:00 p.m., with the focus for this meeting being to establish a timeline. He also announced that he has asked the members of the Superintendent Search Advisory Committee to provide him with their feedback on what they would like to see in the next Superintendent of Caddo Parish Schools. These will be accumulated and shared with the representative from McPherson and Jacobson.

Ms. Priest commented on the great announcement relative to the partnership with Northwestern State University. She also informed the Board that with the issues and concerns with Course Choice and Bulletin 132 requiring that the local District/LEA must provide computer access, Internet, technical assistance, paras, SPED and transportation, as well as manage students’ grade input, monitor progress and approve the credits; however, the funding is being sent to the private provider. In talking with the lobbyists for the LSBA, she said there is to be discussion on this matter on Friday. Dr. Dawkins stated that he and Mr. Ramsey discussed this and not only are their requirements of the school, but these providers are also enrolling students in courses they do not need, in addition to enrolling students that were expelled. He announced an update will
be brought to the Board next week. Ms. Priest also added that students are also being enrolled in courses without parental awareness/approval.

Mrs. Crawley shared that she is hearing a lot of people in her neighborhood express confusion about the Magnolia Charter School and asked that Magnolia Charter bring an update to the Board and that the report verifies that the Magnolia Charter School is looking for 63% low socioeconomic students from the low performing schools, and that they will not open in August if they are not following their contract. Mr. Abrams stated that we are under Announcements and Requests and discussion/questions are not to take place at this point. She also asked if the Transportation Department implemented the recommendations from the audit approved by the Board; and if not, asked what help is needed in order for these to be implemented. Mrs. Crawley also stated the displeasure she is hearing from parents about the Professional Development Day being moved to Wednesday rather than on Friday. She received an answer as to why it was done this way; and she asked that staff provide her the data (absenteeism) used to make this decision. Regarding budget issues, Mrs. Crawley requested that the travel line item be separated with one being reimbursement for work mileage and the other reimbursement for attending conferences/meetings.

Miss Green requested information on the policy for employee hearings and the steps followed in this process.

Mrs. Crawford also noted her desire to have Magnolia Charter make a presentation to the Board, and Mr. Ramsey responded that staff is preparing to do this. She also asked if students who are tested for Caddo Middle Magnet, but live in Broadmoor, do not get into Middle Magnet, can they be offered a spot at Broadmoor or have they been? Mrs. Crawford also asked if Board members can ask for community support on the renewal or can Board members only share information. Mr. Abrams responded they can.

Mr. Rachal stated that he doesn’t believe we need to send a request to Magnolia Charter School to bring the Board an update, but we should only let them know we want a report on the construction of the Magnolia Charter. Mr. Abrams explained that there is a contract spelling out everything that is to be done, including their plan and opening procedures, which lays out everything and how it is supposed to be. He added there is no transportation in the plan and they will not have transportation. Mr. Rachal asked for clarification on Caddo’s legal responsibilities as the grantor of the charter school?

Mr. Pierson thanked Board members who attended the meeting at BTW on April 9th and also thanked Attorney Abrams for sharing correct information to those in attendance which has led to more dialogue in smaller groups. He also thanked Dr. Dawkins for allowing the four principals to attend and address the group and they look forward to moving forward.

Mr. Hooks announced that Thursday, April 25th will be his Town Hall meeting at 6:30 p.m. in the Fair Park Auditorium. Guest panelists for his forum will be Judge Shonda Steward (Juvenile Court), Jim Lee, Jackie Lansdale, Daryl Roberson, Elliott Stonecipher, Michael Williams, Willie Bradford and Scott Hughes. He also requested for alternative education expenses for 2012-13 school year to include Ombudsman food costs, facility costs, utilities, Caddo personnel, as well as any additional incidental costs associated with the program.

Mrs. Bell asked for information clarifying what is an at-risk student, what schools are going to be closed (based on what everyone is saying), and announced that teacher appreciation is taking place. The ID Badge Committee hopes to bring an item in May on this matter; and she also announced that she attended the Swag Nation graduation for 32 young men.
Ms. Trammel asked for an update on the bus fleet (condition of buses, maintenance, cost for repairs and other suggestions) in the audit. She also asked if there is anything the Board can do to help alleviate some of the problems as it relates to Transportation. She also extended an invitation to every Board member to visit Woodlawn High School and observe the many great things taking place at Woodlawn.

Mr. Riall announced that he will reschedule the Audit Committee meeting. He also bragged on his 15-year old granddaughter who was inducted into Northwood High School’s National Honor Society.

**EXECUTIVE SESSION**

**Student Readmission Appeal Hearing.** Ms. Trammel moved, seconded by Miss Green, to go into executive session for up to 15 minutes for the purpose of hearing a student readmission appeal. Vote on the motion carried and the board went into executive session at approximately 6:26 p.m. The board reconvened into open session at approximately 7:10 p.m. Ms. Priest moved, seconded by Mrs. Bell, to uphold staff’s recommendation for CD. Vote on the motion carried with Mrs. Armstrong absent for the vote.

**Adjournment.** Ms. Priest moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:12 p.m.

____________________________  ______________________________
Dr. Gerald D. Dawkins, Secretary    Larry E. Ramsey, President
April 18, 2013

The Caddo Parish School Board (CPSB) Long Range Planning and Development Committee met at approximately 11:10 a.m. on Thursday, April 18, 2013, in the Superintendent’s Conference Room located at 1961 Midway Street, Shreveport, Louisiana. Committee members present were Ginger Armstrong, Chair, Bonita Crawford, Lillian Priest, Barry Rachal and ex-officio member Carl Pierson. Committee member Curtis Hooks and ex-officio Larry Ramsey were absent. Others in attendance were Dr. Mary Nash-Robinson, Dr. Sheila Lockett, Antionette Turner, Steve White, Rosemary Woodard and Jackie Lansdale. Mr. Pierson led the prayer.

Chair Ginger Armstrong called the meeting to order and stated that the purpose for the committee meeting is to consider the possibility of Gateway, Gifted and Discovery classes throughout Caddo Parish.

Dr. Robinson presented information including a list of the schools with these programs, the numbers of qualifying students at the neighborhood schools that do not have these programs, as well as a copy of the Parsons Report (facilities).

Dr. Sheila Lockett highlighted the data on the number of students currently in the Gifted Program, the process followed at the school level for recognizing students for referral to the SBLC and testing for these programs; and if principals are not referring students to the SBLC they cannot test them. Additional numbers for the 2010-11 and 2011-12 school years were also shared with those present along with how many students were tested, how many qualified, and the percentage accepted.

Committee members shared their concern that there are not more students in the neighborhood schools, who did not get into a magnet school, being identified and tested for opportunities in the Gifted Program at their neighborhood school, and parents are being told they need to enroll a child in a Gifted Program (magnet school), but because the neighborhood school does not have a Gifted Program in place, which is something that should never happen. Additional concerns expressed were teachers not being as open as they should be relative to the needs for the Gateway Program, teachers are not cognizant of students and what they are able to accomplish, the policy that if 15 or more students are identified, referred, tested and enrolled, a full-time teacher can be added, and based on the numbers, it is not believed that policy is being followed.

Staff also explained that Bulletin 1508 defines and provides the criteria for the Gifted and Talented Program which starts at the school building level with a requirement that teachers teaching Gifted classes must be certified in Gifted. Dr. Lockett reminded the committee that where there is a vacancy the numbers may be there, but there may not be a teacher with certification to teach Gifted.

Committee members also noted they believe we are missing the boat at the Discoveries level and we need to be able tell parents we will provide everything the child needs at the neighborhood school.

Suggestions/requests of staff included:
- Generate a list of above average students (80%) at each school and encourage them to look closer at these students.
- Target the list highlighted in blue (schools that have not identified any students for referral to the SBLC) and ask the principals why students are not being referred to the SBLC.
- Sell the importance of this matter to the principals who sells it to their faculties.
- Need to do something about the culture.
• What will it take to accomplish some of the issues discussed. Of the children being served, what is the number of Black children.
• Have this as a standard item on meeting agendas with principals.
• Be pro-active in getting the word out to teachers that we are very supportive of these programs and the potential that they hold for Caddo students.

Chair Armstrong summarized that for the next meeting staff will
• provide stats on the level in which students have tested and the potential for Gifted and Discoveries Program, in addition to information from each school on students that have gone through the process for testing but may not have been successful.
• provide information on how many children qualify (identify the numbers in the “blue” schools), the staffing requirements and cost.
• communicate with schools that have not identified any students for these programs, the school’s stats and encourage them to identify potential students.

Next meeting – Chair Armstrong announced that Dr. Robinson will advise her when the information is available which will determine scheduling a second meeting.

No additional discussion, the meeting adjourned at approximately 12:30 p.m.
April 23, 2013

The Caddo Parish School Board (CPSB) met in a special work session at approximately 2:00 p.m. on Tuesday, April 23, 2013, in the boardroom at 1961 Midway, Shreveport, Louisiana with President Larry Ramsey presiding. Other board members present were Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Ms. Priest led in the prayer and Pledge of Allegiance.

President Ramsey announced that the purpose for today’s meeting is to be introduced to and hear from representatives from McPherson and Jacobson, the superintendent search services approved by the board to assist the District in finding the next Superintendent of Caddo Public Schools. He also announced an additional meeting will be scheduled for April 30th for the purpose of defining a timeline for the search. Input on characteristics of the next superintendent received from members of the Superintendent Search Advisory Committee was at each board member’s station, and Mr. Ramsey asked Board Members to provide him with their input prior to the meeting on the 30th.

John Smith with McPherson and Jacobson introduced himself and extended thanks and appreciation for the opportunity to work with the board in the effort to find a superintendent to lead the Caddo school system. Mr. Smith pointed out that the most important function of a school board is to select a superintendent of schools and that the State of Louisiana requires every school board to hire a competent and qualified superintendent, and that the qualifications are established by law in Louisiana. He explained that today he will spend time on the overall process for selecting the next superintendent and look at some timelines that will help meet District requirements for selecting a new superintendent, and presented proposed timelines as a starting point with an assumed date of July 1 to have a new superintendent in place; however, it can be adjusted as the board deems necessary. Mr. Abrams reminded the board that the current superintendent’s contract does not end until August 11th, and while the Board can name a new superintendent prior to that date the start date cannot be until August 12th.

Mr. Smith also shared that in looking at the process in phases, things that should occur in Phase 1 will include deciding the criteria for the next superintendent, what the advertising venues will be and hopefully set a calendar with the additional dates and things that need to take place when the board meets again on April 30th. He did state that advertising by McPherson and Jacobson will include, but is not limited to, Louisiana School Boards Association and Administrator’s Association publications, colleges and universities, McPherson and Jacobson’s web site, AASA and NSBA web sites, Education Week publication, as well as the School Board’s official journal. Additional advertising venues should be reported to Victor Mainiero.

Highlighting that the School Board has already appointed a Superintendent Search Advisory Committee, their firm also will ask the School Board to indentify other groups in the community that they will contact for input, including, but not limited to, school administrators, classified staffs, students, staffs, community persons (Chamber of Commerce, clergy, non-denominational ministerial alliances, etc.) who value public education in the community. Regional meetings (North, South, East, and West) throughout the community will be scheduled and advertised to afford the opportunity for anyone in the community who wishes to provide input to attend. At these sessions four critical questions will be presented to the attendees for input: (1) Tell us about your community, its assets, those things that make this community what it is; (2) Good things about Caddo’s school system (things that should be preserved and built upon in order to make it a better school system; (3) What are the critical issues in the school system that might impede the ability of anyone being successful as a school leader in Caddo; and (4) What are the skills and abilities a candidate should possess in order to be a successful school leader in the Caddo School System? He also stated that these questions will be posted to the District’s web
site for input from those who cannot attend one of the forums. Responses to these questions will be collected and placed in a booklet; and even though there will be a lot of overlapping, they will pull out the overlaps and those that stand out and place them in a separate list to use as a reference in making decisions in the process of selecting the next superintendent.

Mr. Smith explained that when applications have been received, McPherson and Jacobson will finalize the background checks on all who apply and screen out those who do not meet the qualifications as outlined by the board, and give the Board the number of applicants the Board requires and who meet the criteria established by the Board for the position. McPherson and Jacobson will then meet with the Board to review those candidates and for the Board to narrow the list to those they wish to interview and the process/procedures for the interviews. He explained that they typically like to bring in the candidates and their spouses for them to look at the community, the schools and meet the people in the various groups involved in the search. The candidates will also meet with the Superintendent Search Advisory Committee for dialogue prior to interviews by the Board.

Mrs. Bell asked for clarification on the community meetings because she serves a rather large district, and how the regional meetings will be coordinated, will the appointees to the Superintendent Search Advisory Committee be included to assist in gaining input from the community? Mr. Smith responded that members of the Superintendent Search Advisory Committee are invited to attend any of the forums held throughout the district. Mr. Ramsey stated that members of the Superintendent Search Advisory Committee have been asked for input and they will also be asked to attend the community meetings as well as with the finalists one on one during the interview process. He also stated that he will work with Mr. Mainiero to strategically schedule these forums so that they are easily accessible to those wishing to attend. Mr. Ramsey also reported that as the Board goes through the process, meetings will be videoed for those unable to attend the meetings and get their input. Mrs. Bell stated that she has promised her constituents that she will not make the decision on the next superintendent without their 100% participation. She wants her Superintendent Search Advisory Committee appointee to always be with her throughout the process.

Mr. Riall reminded everyone, relative to the timeline and the proposed August 11th date, that this could be a conflict because of vacations and Board members attending the Southern Region Conference in July. Mr. Smith noted he is familiar with the Southern Region Conference.

Mrs. Crawford asked if the proposed timeline is a reasonable length of time for finding someone? Mr. Smith responded that he believes it is a good calendar. Mrs. Crawford also asked Mr. Smith if he has done superintendent searches recently in Louisiana, and Mr. Smith stated his School Board is currently involved in a superintendent search also. Mrs. Crawford asked Mr. Smith if he believes, with the current educational climate in Louisiana, that Caddo will be able to get a good selection of candidates because she heard one Louisiana parish only had three candidates. Mr. Smith explained that what is happening in public education in Louisiana is no different from what is happening in public education across the country and Louisiana is not unique in the challenges it faces. He also said he believes the Board is involving itself in the search for a new superintendent at a very good time of the year as it is a time in which those who are superintendents might be looking, and he believes the District will have an excellent pool of applicants from which to choose.

Ms. Priest referenced additional venues for advertising and she suggested that the firm look at the possibilities of advertising in AASA Journal, CUBE and Greater Cities in Schools.

Mr. Trammel asked about Mr. Smith’s reference to the “top 10” candidates and where this specific number might have come from? Mr. Smith explained that this came up as something to share with the Board how applicants are screened to come up with how many will be presented.
to the Board. Ms. Trammel also asked about the calendar and the fact that it is very compact, which has not worked in the past, and if the time needs to be extended, will there be additional cost? Mr. Smith explained that the contract is not based on the timeline, but it is a part of the process and the first thing he tries to get in place with the Board so he knows how to proceed. If the end date needs to be moved, he only needs to know what that date might be. She also reminded Mr. Smith that one of the groups that should always be included in this process is parents. She also stressed the importance of giving the next superintendent some lead time before reporting.

Charlotte Crawley stated her confusion about bringing the top 10 people to the Board, because last time approximately 21 applicants were brought to the Board; but after screening and checks, there were only a few viable candidates. Mr. Smith said they will receive all the applicants and once they have screened all applications, conduct background checks, then all who meet the qualifications and criteria as outline by the Board will be brought to the Board for the Board to narrow down the number it wishes to interview. Mrs. Crawley also announced that Mrs. Bessie Smith’s husband passed away and asked that everyone remember her in their thoughts and prayers. Mr. Ramsey referenced Mr. Abram’s recommendation that as part of the process the Board gives the company the number it wishes to receive and the company continues to advertise until it receives that number of qualified applicants. Mr. Smith confirmed that is correct, and that sometimes candidates will apply for positions but they do not want their names mentioned until the list actually becomes public information.

Mr. Ramsey introduced the following members of the Superintendent Search Advisory Committee that were present: Eppie Adams, Caddo District PTA; Valerie Brown, District 6; Rev. Joe Gant, Calvary, District 12; Tabatha Taylor, District 2; Arthur Douglas, District 5; Myra Robinson, District 7; Robert Jackson, District 3; Jackie Lansdale, Red River United; John Albright, District 11; Kim Burton, APEL; Scott Hughes, Alliance for Education; Paige Carlisle; Lola Kendrick, District 10; Walter Lee, Caddo Retired Teachers Association; and Ann Fumarolo, SciPort.

Mr. Rachal asked when applications are received, that the information included is confidential, and is there the possibility of someone beginning on July 1st or before the start of the next school year? Mr. Smith stated that whatever the Board deems appropriate is what he will do for the Board and reminded the Board that the attorney pointed out those things that the Board needs to take into consideration.

Mr. Ramsey also highlighted the minimum number of area forums that would be held across the parish. Mr. Smith stated that he will get with Victor Mainiero to plan the forum meetings in a way that addresses concerns expressed by the Board and will report on this at the meeting on April 30th. Mr. Rachal asked Mr. Smith if he is currently on a Louisiana School Board? Mr. Smith responded that is correct. Mr. Rachal asked if St. Charles is also looking at hiring a new superintendent of schools, because he feels this could be a conflict of interest. Mr. Smith reassured Mr. Rachel that he is not only doing a superintendent search in his own district, but conducting superintendent searches is what he does; and he does not steer candidates in a particular direction, but they put 100% of their efforts toward meeting the terms and agreement with the District. He also said that he does not have a contractual agreement with the District in which he serves on its Board.

Mr. Pierson asked if the number of applicants will affect the timeline? Mr. Smith said that the number should not affect the timeline with exception of the fact that if by a certain time in the timeline there are not an adequate number of applicants. In response to Mr. Pierson’s question on what is “adequate”, Mr. Smith explained that for a District the size of Caddo, he would want to see between 15 and 20 good candidates. Mr. Pierson asked if 15 candidates will affect the timeline and Mr. Smith said he does not see a problem with it. Mr. Pierson offered a timeline of
August 1st for naming a new superintendent and asked Mr. Smith to use this as his guide and bring back additional information at the April 30th meeting. Mr. Smith noted that August 1st is a Thursday, and Mr. Pierson said the date can be adjusted to be Friday or Monday. It was agreed that a timeframe of July 28 – August 5 to have a superintendent is a good date for naming a new superintendent. Mr. Pierson also encouraged finalizing the forums and what area each will cover.

Mr. Hooks asked if he understood correctly that this will be advertised in the local newspaper and Mr. Smith explained that the District must advertise in the Official Journal twice. Mr. Hooks asked if it is possible to have someone local apply and Mr. Smith confirmed that is correct. He said he believes if we name someone local, it could happen sooner than the July 28th week.

Mrs. Bell suggested that the process not be rushed and that she believes there should be at least five forum meetings (North, South East, West and Central).

Mrs. Armstrong referenced the applications received in previous searches and the fact that when screening the large number of applications, they learned that many did not meet the qualifications. She asked if the Board can be assured that the applications brought to the Board will meet the qualifications as set by the Board for this position. Mrs. Armstrong stated that she wants to make sure the applicants brought to the Board are vetted and screened and can stand the test for a superintendency in the State of Louisiana.

Mr. Smith responded that McPherson and Jacobson will bring to the Board those candidates that meet the criteria as established by the Board. He said they will do reference checks and will additionally contact references given to them by the original reference. They also make contact with the District in which the candidate is currently employed, as well as conduct background checks. Finally, the candidates that have cleared this inspection will be brought to the Board for its consideration. Mrs. Armstrong asked about the timeline for checking candidate’s background and how far back the report will cover? Mr. Smith responded that McPherson and Jacobson has access to a website, but he is unsure how many years back it will go.

Mr. Riall asked if someone in Texas applies for the position, is there a reciprocal agreement if they are qualified? Mr. Smith responded that the candidate would have to have a State Superintendent endorsement.

Mr. Ramsey expressed appreciation to the Superintendent Search Advisory Committee members for being in attendance. He also noted that the Superintendent Search Advisory Committee will elect co-chairs, and they were also invited to provide him feedback through the Superintendent’s Office. All Superintendent Search Advisory Committee members were encouraged to provide all venues of current communication.

Ms. Trammel also stated the importance of the Superintendent Search Advisory Committee members receiving all the necessary information about the meetings.

There being no additional questions at this time, Mr. Ramsey announced that the meeting is adjourned, and the meeting adjourned at approximately 3:35 p.m.
The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 2:00 p.m. on Tuesday, April 30, 2013 with President Larry Ramsey presiding and Board members Steve Riall, Jasmine Green, Carl Pierson, Mary Trammel, Lillian Priest, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell present representing a quorum. Mr. Ramsey announced that Mr. Hooks is absent due to another meeting. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Ms. Priest led the invocation and Pledge of Allegiance.

**BIDS**

Mr. Pierson moved, seconded by Ms. Trammel, to approve the bid of J. D. Electric Co., Inc., with a Base Bid, for the sum total of $598,000 for Project 2013-Q507, “QSCB2 Data Wiring & Security Cameras at Judson, Lakeshore, Midway, Queensborough” as recommended by staff and submitted in the mailout on the bid tabulation sheet.

Mr. Rachal stated that he knows it is QSCB dollars, but his concern is we do not know if these schools will still be under our control in 1.5 years. He added it doesn’t have anything to do with security or providing for the children at those schools, but he remembers what happened with Linwood and the medical clinic there when the State took it over.

Mrs. Bell shared that the schools listed are not on the list to be taken over and reminded everyone that a school must be in AU status for four years before the State would consider taking it over. She said we need to take care of the children we have in our schools.

Ms. Priest reiterated Mrs. Bell’s comments and that she also is aware a school must be on the academically unacceptable list for four years before the State Department will consider taking it over. She also reminded everyone that the information on each school has been provided to each board member and this should be the driving force for the Board’s decision. As long as children are in a building, Ms. Priest said we need to provide for them.

Mr. Abrams explained that he recently analyzed this data for a presentation and Judson is not on the list, Lakeshore is AU1 (first year) and .9 of a point from being out of AU status; Queensborough is also AU1 and 2.8 points from being out of AU status; and Midway is in AU3 status and is one that could be an AU4 school with the potential takeover.

Ms. Trammel asked, if there is a potential problem with one of the schools, is pulling that school something the Board should consider, and the response was the bid has been submitted and includes all the schools listed.

Mr. Riall moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried with Board member Rachal opposed.

Vote on the main motion carried with Board member Rachal opposed.

**Adjournment.** Mr. Pierson moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 2:20 p.m.

Dr. Gerald D. Dawkins, Secretary

Larry E. Ramsey, President
April 30, 2013

The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway Street, Shreveport, Louisiana, at approximately 2:00 p.m. on Tuesday, April 30, 2013 with President Larry Ramsey presiding and Board members Steve Riall, Jasmine Green, Carl Pierson, Mary Trammel, Lillian Priest, Barry Rachal, Larry Ramsey, Ginger Armstrong and Dottie Bell present representing a quorum. Mr. Ramsey announced that Mr. Hooks is absent due to another meeting. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Ms. Priest led the invocation and Pledge of Allegiance.

BIDS

Mr. Pierson moved, seconded by Ms. Trammel, to approve the bid of J. D. Electric Co., Inc., with a Base Bid, for the sum total of $598,000 for Project 2013-Q507, “QSCB2 Data Wiring & Security Cameras at Judson, Lakeshore, Midway, Queensborough” as recommended by staff and submitted in the mailout on the bid tabulation sheet.

Mr. Rachal stated that he knows it is QSCB dollars, but his concern is we do not know if these schools will still be under our control in 1.5 years. He added it doesn’t have anything to do with security or providing for the children at those schools, but he remembers what happened with Linwood and the medical clinic there when the State took it over.

Mrs. Bell shared that the schools listed are not on the list to be taken over and reminded everyone that a school must be in AU status for four years before the State would consider taking it over. She said we need to take care of the children we have in our schools.

Ms. Priest reiterated Mrs. Bell’s comments and that she also is aware a school must be on the academically unacceptable list for four years before the State Department will consider taking it over. She also reminded everyone that the information on each school has been provided to each board member and this should be the driving force for the Board’s decision. As long as children are in a building, Ms. Priest said we need to provide for them.

Mr. Abrams explained that he recently analyzed this data for a presentation and Judson is not on the list, Lakeshore is AU1 (first year) and .9 of a point from being out of AU status; Queensborough is also AU1 and 2.8 points from being out of AU status; and Midway is in AU3 status and is one that could be an AU4 school with the potential takeover.

Ms. Trammel asked, if there is a potential problem with one of the schools, is pulling that school something the Board should consider, and the response was the bid has been submitted and includes all the schools listed.

Mr. Riall moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried with Board member Rachal opposed.

Vote on the main motion carried with Board member Rachal opposed.

Adjournment. Mr. Pierson moved, seconded by Mrs. Bell, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 2:20 p.m.
The Caddo Parish School Board (CPSB) Audit Committee met at approximately 3:15 p.m. on Wednesday, May 1, 2013, in the Superintendent’s Conference Room, 1961 Midway Street, Shreveport, Louisiana. Committee members present were Steve Riall, Chair; Ginger Armstrong, Charlotte Crawley, Barry Rachal and ex-officio members Larry Ramsey and Carl Pierson. Curtis Hooks was out of town. Others in attendance were Jeff Howard, chief internal auditor, and Scott Hughes, Alliance for Education. Mr. Rachal led the prayer.

Mr. Riall called the meeting to order and recognized Jeff Howard, CPSB Chief Internal Auditor. Mr. Howard shared background information on the District’s Auditing Department and a list of the major functions provided through this department. He reported to the committee on the Accounts Payable audit, which is the most recently completed in a series of departmental audits requested by the Board, and highlighted the findings and recommendations of the audit.

Mr. Rachal requested, if not in place, a follow up review to determine if the recommendations are being implemented. Mr. Pierson commented that he believes the Audit Committee needs to recommend to the Board the acceptance of the audit and the recommendations of that audit, as well as recommend that based on the findings of the audit that a follow up report be provided within a certain number of days.

Following discussion, it was moved, seconded, and unanimously carried that the Audit Committee recommend that the CPSB accept the internal audit of the Accounts Payable Department and to implement the recommendations of the internal auditor with a follow up review of those recommendations within 120 days.

The Audit Committee also directed Jeff Howard to begin a review of the Superintendent’s accounts as a part of an exit process.

There being no additional business for discussion, the meeting adjourned at approximately 4:20 p.m.
The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 2:30 p.m. on Tuesday, May 7, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Secretary Gerald D. Dawkins and Reginald Abrams. Mrs. Crawford led the prayer and Pledge of Allegiance.

Superintendent Dawkins expressed appreciation to the Board members, associations, staffs, parents, everyone who supported the renewal effort. He also stated that today’s meeting is to give the Board an update on where we are in the budget planning process. He reported that staff met with high school principals, as well as elementary principals, and work sessions are also scheduled for Wednesday and Thursday. Mr. Lee reiterated the Superintendent’s comments relative to this budget being a work in progress and highlighted what the staff has been working on for the last several weeks. He recapped what was presented at the last meeting ($1.5 million in expenditures over revenues), and the undesignated fund balance of less than $500,000 which the Board has said is unacceptable. Mr. Lee shared with the Board a comparison of enrollment to staffing for the past 9 years; and while enrollment decreased by 3,000, the number of teachers increased by 4%. Expecting staffing to decrease with the decrease in student enrollment, and if it decreased by the same percentage, the District should have reduced the number of teachers by approximately 200, however just the opposite occurred in Caddo. He also highlighted where staff attempted to make necessary reductions away from the classroom; and how revenue remaining flat is making it harder to do so. Mr. Lee also explained that an additional reason for the expenditures being over revenues is benefits to employees; and with 85% of the expenses being tied to people, it is very difficult to reduce expenditures without affecting the classroom. Also, the three major employee benefit components are health care costs (now and over the next several years); health care costs for retirees; and retirement costs. In looking at the cost for these, the District has very little control over the cost of retirement other than by reducing the number of employees, and the District’s contribution to the Teachers Retirement System is increasing from 24.5% to 27+% and the contribution to the LSE will be approximately 32%, which are amounts the District has no control over. Mr. Lee noted that the District does have control over health care for retirees and actives and this might be something the District needs to look more closely at in the next couple of years; and we can control it by (1) reducing the amount of benefits in the plan and (2) increasing the percentage paid by employees for the premiums, which decreases the amount paid by the District. Mr. Lee noted that this is not something the staff has considered in this year’s discussions, but he brings it to the Board’s attention because it is something staff will need to consider in future years.

Mr. Lee also explained how the MFP funds have continued to shrink each year and the prediction that in the next 5 years MFP will not cover benefits in the General Fund, so at some point in time this is an area that will need to be looked at as a way of reducing cost to the district. Relative to Central Office and the message being heard that it is “top heavy”, Mr. Lee pointed out, as he has in speaking to organizations, that the number of employees compared to the total General Fund employees last year is less than 3% of the General Fund employees. When adding in the area directors and instructional supervisors located at Central Office, who do have a direct impact on the classroom, it still only brings the percentage up to 4%. He also stated that the expenditures for Central Office total approximately $24 million, which is about 6% of the total budget. When looking at this $24 million last year and when hearing people say eliminate Central Office, he reminded the Board the services will not go away because of the support it provides to the students and the schools. A very liberal estimate would be if the Board could find someone (company) to come in and run the District, there could be a savings of
approximately 15% or approximately $3.6 million of the $24 million, which leaves $17 million coming from somewhere else to balance the budget.

Mr. Lee continued his presentation by sharing ways in which the Board might consider addressing the $21 million deficit. He highlighted where we are with the $21 million hole and suggestions that could take the deficit to less than $2 million. The suggestions included increasing revenue estimates by $1 million, increasing MFP to General Fund, and increasing $2 million from Child Nutrition. Suggested reductions in expenditures included the staffing formula (remove the 22:1 hard coded formula in K-1 which will save 29 positions at a value of $2 million); add 1 to the formula at 4th and 5th grade (will reduce nine positions); and a 24:1 formula and no block schedule at the high schools. Mr. Lee stated this was discussed with the high school principals and he will meet with them again to discuss some additional, less drastic ideas. He also highlighted how the change to 24:1 at high schools will affect each high school, with these changes resulting in a reduction of 151 positions, which staff believes can be accomplished through attrition without any RIF.

Non-formula reductions suggested included a reduction of 45 special education teachers (and at this time there are more than 45 vacant positions), which can be done through attrition; reduction of six Central Office supervisors (which are certified positions that can go to the classroom), as well as the clerical positions for those positions; reduction of five special education instructional specialists (returned to the classroom), 30 special education aide positions; reduction of the sub teacher budget by approximately $500,000 from the current $4 million budgeted; reduction of the $600,000 for teacher M & S; smaller school consolidations; rural transportation provider; and reinstitute the classified employee hiring freeze and only hiring internally. Mr. Lee noted that while these changes still do not present a completely balanced budget, staff continues to look at additional reductions in the Central Office area. Dr. Dawkins added that the principals are meeting and looking at additional opportunities to be more efficient in their services and he will hear from them their ideas at a meeting on Wednesday.

Mr. Ramsey expressed appreciation for staff engaging the principals at all levels for their input. Dr. Dawkins also added that Attorney Abrams has reported there could be some additional adjustments to the MFP funds based on today’s Supreme Court ruling that the voucher portion of Act 2 is unconstitutional. Mr. Lee said while that may be possible, and if it happens, it is something that can be brought to the Board as a mid-year budget adjustment.

Mrs. Crawley stated she believes adjusting the ratio is going to be difficult for the schools, and that before this is done, she believes all salaries should be cut before cutting a teacher that affects the classroom. She also said she believes consolidating some of the smaller schools and adjusting the staffing formula could result in 28 students in a Kindergarten class, and Mr. Lee noted State law does not allow a District to have 28 in a Kindergarten class. In cutting non-essential travel, Mrs. Crawley asked if staff could provide that amount since she knew staff reported it, but she did not have it with her. Mrs. Crawley asked Mr. Lee to clarify outsourcing Central Office services and the savings. Mr. Lee explained that if all the services provided through Central Office were outsourced, it would only be a 15% savings to the district or approximately $3 million of the $24 million. Mrs. Crawley asked about the services Central Office does not have to provide, i.e. director type jobs, and maybe reassignment of some personnel, and would this not represent a couple of million dollars. Mr. Lee said not if you don’t remove warm bodies; and Mrs. Crawley added you would remove them from Central Office positions and place them in vacant principal or teaching positions. Mrs. Crawley asked about the possibility of eliminating any programs other than block scheduling, i.e. Discoveries teachers? Mr. Lee reported there are approximately 30 Discoveries teachers and Mrs. Crawley said she believes these could go back into the classroom. Mr. Lee added that one of the problems is when you have as many employees as Caddo, people will be affected with cuts in expenditures, and that this is a discussion that will happen next year also. Mrs. Crawley also asked about
recommendations relative to employee benefits and Mr. Lee responded that staff has not yet looked at this, because it is areas that we do not have any control over other than reducing them through a reduction in people or reduction of benefits offered to the employees (by increasing the percentage employees pay for the benefits which reduces the District’s cost).

Mr. Hooks stated his concern over the possibility of cutting Discoveries teachers as there are many students that will be affected by this change. Mr. Hooks asked about any cuts in services, and Mr. Lee stated that there are not any cuts at this time, but he was only sharing with the Board what would happen if services were cut. Mr. Hooks asked Mr. Lee how close are we at looking at another RIF? Mr. Lee responded that we are not talking about a RIF and the cuts being recommended would be handled through attrition. Mr. Hooks asked what happens if we can’t make the necessary cuts through attrition, and Mr. Lee said at that time a decision would need to be made to not do it or institute another Reduction in Force; however, what has been presented for discussion today staff believes can be accomplished without implementing a RIF. Mr. Hooks inquired about transportation and the number that travel in the rural areas, and Mr. Lee responded there are approximately 30 routes. Mr. Jones clarified it has been 3-4 years since new school buses were purchased and there are approximately 33 rural routes.

Ms. Trammel asked about the state ratio for K-1 grades, and staff responded 26:1 and Caddo is currently at 22. Staff is not asking to increase that number, but just asking to remove the hard coded formula. Ms. Trammel asked, since the outsourcing of Central Office services is not that great an amount, what would be the next recommendation other than a RIF. Mr. Lee said staffing in some form must be looked at; and if not, maybe additional school consolidations. He also said that there will probably not be a complete answer relative to dollars by the time the budget is adopted; however, staff can also bring back additional recommendations for the Board’s consideration.

Mr. Hooks asked if he understood correctly that the 45 special education teachers can be addressed through attrition; and Mr. Lee said that is correct because currently there are approximately 50-60 vacancies. He also asked if there is a pupil-teacher ratio for special education, and Mr. Lee said there is a methodology and he will get that from Dr. Lockett.

Mr. Pierson asked if it is factual that 85% of the budget is employee cost? Mr. Lee said it is between 80 and 85%. Mr. Ramsey asked what portion of the 85% is classroom teachers, and Mr. Lee said approximately 50% and when including aides and staffing at the school site, it could be 70-75%. Mr. Lee further explained that as staff has looked at this, he doesn’t believe it is possible to make the cuts without impacting the classroom; and staff will continue to work with the principals in an effort to minimize the impact on the classroom as much as possible. Mr. Ramsey noted that the information requested by the Board is reflected in what staff has presented today.

Ms. Priest asked about the benefits and what the employees are paying and if staff could provide the Board with some recommendations and/or options in these particular areas, especially with healthcare and how we can continue to offer the coverage with some options for cost savings. Mr. Lee reported that he has planned a meeting with the insurance manager; and since it may not be able to go into effect this year because renewals were approved last October, it will definitely be looked at for the future years. Ms. Priest also asked when looking at attrition, and the approximate 240 positions that could be eliminated or reduced through attrition, what dollar amount this represents. She understands that when sales are down, adjustments need to be made; and when you have fewer students, the resources are reduced. Ms. Priest asked if cross-training is being taught in the non-essential areas in the District, and Mr. Lee responded he believes so in some of the departments. Ms. Priest said that in lean times, she believes cross training is essential and is how departments can address costs. She encouraged staff to present a presentation on a plan for cross training by department. Relative to Distance Learning, Ms.
Priest stated there should be some cost-saving mechanism associated with the system and asked staff to provide this information. Mr. Lee announced this came up in the high school principals’ meeting on Monday, i.e. not enough enrollment to have a teacher in a particular class and E2020 is being used.

Mrs. Crawford asked about the recommendation to remove the hard number in the K-1 staffing formulation and what number does staff have in mind? Mr. Lee responded that the ratio would not change (22:1) and staff is not asking to increase the number, but the hard code means if there are 22 Kindergarten students in a class, one teacher is provided; and if one student is added to make it 23, a second teacher is added. Removing the hard code would allow rounding it up to 25 and 26 without adding another teacher. Mrs. Crawford asked if the 3,000 teachers are only classroom teachers or does it include supervising teachers (through Central Office). Mrs. Crawford also asked staff for the number of students in the high school classrooms, and if changing to a seven-period day will affect the curriculum changes received from the State for college-bound students. Mrs. Turner responded that the way students are scheduled could be impacted and thus the number of teachers providing that instruction as well; but the District will still be required to offer AP courses, CORE, etc. Mrs. Crawford asked if the students will still be able to get their required credits in the four-year period? Mrs. Turner confirmed that students would be able to accrue the required 24 credits. Mrs. Crawford asked if the 3,000 teachers are only classroom teachers or does it include supervising teachers (through Central Office). Mrs. Crawford also asked staff for the number of students in the high school classrooms, and if changing to a seven-period day will affect the curriculum changes received from the State for college-bound students. Mrs. Turner responded that the way students are scheduled could be impacted and thus the number of teachers providing that instruction as well; but the District will still be required to offer AP courses, CORE, etc. Mrs. Crawford asked if the students will still be able to get their required credits in the four-year period? Mrs. Turner confirmed that students would be able to accrue the required 24 credits. Mrs. Crawford asked about the students in the block schedule who have not earned all their required credits and will they be able to graduate with the required number of credits if they are changed to a seven-hour day? Mrs. Turner explained that using E2020 and Dual Enrollment will allow students the opportunity to complete their required courses.

Mr. Rachal asked about the money paid to the Sheriff for collection of the taxes and does he understand that $1.6 million of that amount given to them, the Sheriff’s office then pays to the retirement systems (all retirement systems)? Mr. Lee said the $1.6 million is teachers’ retirement and the District takes the credit in June for that same amount which reduces the amount recorded from the local district. Mr. Rachal referenced the budgeted amount of money on a budgeted number of teachers and staffing, and asked if he understands correctly that the Board is being asked to change the staffing formula. Mr. Rachal also referenced efficiencies in consolidations and he believes more should be placed in the budget in a way that they are reconfigured with ample schools available in each neighborhood. He added he doesn’t believe the $600,000 in consolidations is enough and Mr. Rachal reminded him that when consolidating schools, the reductions will be in support personnel, utilities, and some administration. Mr. Rachal asked if it is possible to outsource the District’s EAP (Employee Assistance Program), and Mr. Lee said he will get with staff and look further into it. Mr. Rachal also referenced what the District pays for employee benefits; and with the cost to the District being in excess of $30 million more than what it was three years ago, he believes that takes care of the $21 million and he would like to know what the cost difference would be to each employee if $10 million from what the Board pays is passed back to the employee. Mr. Rachal said he believes a plan needs to be determined, the impact to the employees, and how teachers/employees can be grandfathered in. Mr. Lee stated that while he is not speaking against these suggestions, but grandfathering employees in allows for a slower savings. Mr. Rachal noted he understands some vested way may need to be determined, but maybe a transition to address the numbers in the “blue” blocks.

Mrs. Armstrong asked about the rural transportation provider and if this company will furnish new buses, will they buy our buses? Mr. Woolfolk explained it is a flexible plan – this company can use Caddo’s employees, Caddo’s buses, they can use their own, and it all depends on what the District wants and the savings it would like to see. Mr. Woolfolk added it would be his suggestion that they provide the buses themselves. Mrs. Armstrong asked if this (the provider provides their own employees and buses) will bring the greatest savings, because she knows it is very difficult today to get ample number of bus drivers and she is interested in knowing if this is a lucrative plan for bus drivers. Mr. Woolfolk responded that it is an option that allows us more
bus drivers and additional spare buses for Caddo’s fleet, and newer buses for the rural routes. Mrs. Armstrong stated she believes it would also afford Caddo the opportunity to retire some of the older buses. Mr. Woolfolk reminded Mrs. Armstrong that buses are automatically retired after 25 years by State law. Mrs. Armstrong also stated that when changing to the block schedule under protest from some schools, it was a huge investment; and while she likes the idea to return to the 7-period day, asked if Southwood would stay with the block schedule since it has been in place for many years? Dr. Dawkins responded that it has been discussed and discussions will continue on Tuesday; but staff is only presenting a proposed savings if it is changed. Mrs. Armstrong also commented relative to attrition that in a typical year the District retires over 300 individuals; and with the numbers provided today in terms of classroom, she believes these could be covered by what we have without laying off persons. Regarding special education and exceptionalities, Mrs. Armstrong noted that even with the minimum and maximum requirements from the State, she believes these classes can be staffed appropriately.

Mrs. Bell asked if it is possible to have department heads in the next budget meeting to answer questions as they are asked. Mr. Ramsey announced that staff members not present were required to be at the CAP meeting. Mrs. Bell also asked about the possibility of another budget meeting, and Mr. Ramsey said he will schedule as many budget meetings as are needed. Mrs. Bell asked about a dollar amount spent on substitutes each year. Mr. Lee said he believes the cost for sub teachers is between $4 and $4.5 million; but, he will confirm and provide definitive information. Mrs. Bell said if you have 30 great teachers, is it possible for each school to hire a certain number of sub teachers for a school to use every day? Mr. Lee said if they are there fulltime as a pool of subs, the IRS could consider them fulltime employees. She also asked if the rural routes are outsourced, will the rural children be taken to the magnet schools? Mr. Lee said he is not familiar with how the routes will work and will follow up. Mrs. Bell said she would like to know what kind of savings we could expect as well as the number of students in the rural areas that attend the magnet schools. Regarding “blocking”, Mrs. Bell said she wants the same for all high schools, and she also reminded everyone about the news today that Course Choice was declared unconstitutional. Mr. Abrams explained that it will only not be paid to a private provider; however, a public school system can continue to provide Course Choice.

Mr. Riall asked Mr. Lee about the difference in the reduction in staffing (one number is 197 regular teachers and another is 151). Mr. Lee explained that is because of the change in enrollment numbers from last year to this year, there would be a reduction of 45 without the proposed changes. Mr. Riall asked for confirmation that these reductions can be addressed through attrition and staff confirmed that is correct. Mr. Riall asked about rural transportation and the areas being referenced, and staff responded North Caddo Parish. Mr. Riall asked if an outsourcing company would use the District’s facility in Vivian or would Caddo staff it. Mr Woolfolk said staff has only had preliminary discussions and they are flexible and can use our garage and mechanics or they can take it over 100%, and these are only a couple of options. The most expensive would be for the company to take over everything and the least expensive would be to use our facility, our buses and our mechanics. While there is a need for many more discussions, Mr. Woolfolk stated that staff did not want to continue the discussions unless it is something the Board is palatable with doing.

Mrs. Armstrong asked about staffing and if we are staffing, don’t we pay benefits and retirements; and if the outsourcing company is staffing, Caddo does not have to pay benefits and retirements. She asked for additional detailed information on this. Mr. Woolfolk said staff will provide additional information; however, it is believed the District would experience approximately 15% reduction in expenditures to provide this service.

There being no additional discussion, the budget work session adjourned at approximately 4:15 p.m.
The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at 4:30 p.m. on Tuesday, May 7, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Other school board members present were Steve Riell, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mrs. Bonita Crawford led the prayer and Pledge of Allegiance.

PRESENTATIONS

Update on Magnolia Charter School. Ann Stokes, president of the Shreveport Charter Foundation Board of Directors, trustee and president of the Magnolia School of Excellence, introduced the following board members: Melva Turner-Williams, Zazell Dudley, Keith Hanson, Dr. Ernest Lampkins, Cynthia Peatross, Dr. Phillip Rozeman and Delano Wilson. She also introduced Mr. Richard Page, Charter Schools USA education provider and vice president of business affairs. Mr. Page shared that they worked with a governing board to prepare the information presented to the CPSB. Mr. Page reminded everyone that Magnolia is a Type 1 charter school authorized by the CPSB which means it is open to all Caddo Parish students. He reported the facility will open for K-8 grade students, with K-6 grade students this year. He added there should be approximately 660 students the first year (K-6), they will open the 7th grade the following year, followed by the 8th grade, and have 860 students when at full capacity. If a high school is built in the future, he announced it will be a different location and facility.

Mr. Page explained that the charter school enrollment process is open enrollment, and during open enrollment on January 15 through March 15 they received 865 applications and they are still receiving applications today for a total of 1,172 applications. After March 15, they conducted a lottery based on the 865 applications received during the enrollment window of January 15 through March 15. He explained that in the State of Louisiana the law states they must identify students who are at-risk (and it was self declared on the application) and they get first in. The remaining applicants in the pool are then offered a space in the school based on the other preference criteria until they reach 660 (number of seats available). When applicants are offered a seat, they have one week to respond if they do or do not accept; and then they continue down the wait list until they fill the number of seats. In going through this process, he said seats were offered to every applicant in the original 865 enrollment window and there is a waiting list of those who applied after the open enrollment period. He further explained that the initial application is one page with very limited information since by law they are not allowed to ask information such as race, special education status, etc. Once an applicant accepts the offer, they are then given a registration packet; and in working with the District staff, they today provided all the names and addresses of the 660 accepted students. Mr. Page also shared enrollment by grade level, noting that every seat is filled; and the information on the students declared at-risk is from information pulled from the application, and 61% of the 1172 applications declared the at-risk status. Also, of the 660 accepted students, 400 (61%) are currently listed in the data base as being in the at-risk category.

Mr. Page also emphasized that as the school continues in this process, registration information is still required and there will be times when some will change their minds and not complete the process. When this happens, they will go to the waiting list and offer the vacant seat to the next in line on that list. At this time, he reported they are confident they will have the 660 students and can provide a more detailed profile at the start of school. Having marketed the new school widely and broadly, he reported to the Board that they believe the applicant pool is very evenly distributed across the community. He also stated that the new facility is on the timeline target date for the opening of school. Mr. Page also addressed the parent pickup process and began by announcing bus transportation will not be provided, thus the parents will bring the children.
Knowing there will be some problems, he added they try very hard to meet parents needs for after school programs and they will provide explicit instructions for parents dropping off their students. With this being the first school and the first Type 1 Charter in Caddo, Mr. Page said they have been very impressed with the work and collaboration seen in working with the staff and they are very appreciative of the opportunity to do this together and make the partnership successful.

He noted they have based their working relationship from a template provided and highlighted the many items that they must comply with and submit to the local district to indicate the progress; and they will also be using the JPams System for reporting enrollment and student information. He also reported that he is aware that this school is a part of the local system and they understand that it is essential for the data needed by the local district to be able to report for funding and compliance reports and they will provide it through the system as any other school. He also reported they have their own proprietary student information system that their teachers and parents will use, so they will essentially be running two systems. A mid year report will also be submitted to the School Board as an update on where their school is in accordance with the contract as well as an annual report that will be submitted to the Board and community. The annual operating budget will be submitted to the CPSB in July following ratification by Magnolia’s chartering board in June. Mr. Page also explained that Magnolia Charter is also subject to an annual independent audit and the board will hire an independent accounting firm to conduct a full audit which will be provided to the CPSB.

Lastly, Mr. Page announced Pamela Barker was hired as the inaugural principal for the school.

Mr. Rachal asked for clarification on the applicants (865), and Mr. Page clarified the number received during the initial open enrollment window and the total number of applications received. Mr. Rachal asked Mr. Page for clarification on what is being done to verify the at-risk students? Mr. Page explained that the more important verification process is the address, because students must be a Caddo Parish resident to attend this school; and they can’t stop them from applying, but they attempt to validate address and at-risk status and hopefully from the information provided they can validate them the same as any other school. He said they also use the forms provided through the formal Federal certification program, and they will meet with them. Mr. Rachal asked about the percentage of applicants that were not considered at-risk? Mr. Page responded that of the applications received, 61% checked the box at-risk and 39% did not. Mr. Rachal asked of the 61%, how many of those were determined to be not at-risk? Mr. Page said they do not have that information at this time. Relative to the check list provided to the charter schools, Mr. Rachal asked about receiving a copy of this information. Mr. Page said they can provide a copy to him.

Miss Green asked why does the organization not provide transportation? Mr. Page explained that the first year is pretty much pulling everything together and assuring that the budget can support it because the money comes from the operating budget, a source that most charters do not get. He added it is a challenge to add this in and they do provide some transportation in some charter schools. At the end of the year, he added they will sit down with the Board to determine whether or not they will provide transportation. Miss Green asked how far along is the building construction, and Mr. Page reported that weekly reports from the construction company indicate everything is on schedule.

Miss Green asked if this charter school is under the CPSB umbrella. Mr. Abrams highlighted that as a school board we chartered the school and received information from the school relative to their meeting the requirements of the contract; and the board makes the decision if it will renew the charter at such time the contract is up for renewal. He explained that the school is governed by a separate board, and the contract spells out the reporting; and the purpose for today’s reporting is the CPSB had three questions – (1) progress on the opening, (2) meetings
regarding enrollment and the effects it has on Caddo Parish Schools’ enrollment, and (3) percentages of the enrollment toward meeting the goals. He added the contract does not provide that this report must be done to the Board. Mr. Ramsey said the other question was if the school would be a K-8, and he believes all the questions were answered in the brochure.

Miss Green asked Mr. Abrams if she understands correctly that the charter school does not have to report to the CPSB? Mr. Abrams said that is not what he said, but that if the Board looks at the contract, it states written reports will provide information to the Board so they do not have to appear before the Board in person.

Mr. Ramsey expressed appreciation for the report and announced that the Magnolia Charter representatives have agreed to present a written report and any information requested which can go through Mr. Woolfolk relative to operations and Mr. Lee relative to finances. Mrs. Crawley and Mr. Hooks asked for a point of understanding relative to the purpose of stopping the discussion since the work session is for discussing these items. He stated he doesn’t remember being given a timeline when he became a board member, and he can’t represent District 5 if he is not allowed to ask his questions. Mrs. Crawley moved to allow these questions to be asked. Mr. Ramsey said there is no motion, and Mrs. Crawley said the Board can override the President’s ruling. Mr. Abrams reminded Mrs. Crawley that she is not a member of the executive committee so she cannot make a motion. Mr. Ramsey reminded everyone this is an executive committee meeting and the presentations are given for the Board’s information. Mr. Hooks asked how much voice does Caddo have with the charter school? Mr. Ramsey said the line of discussion cannot be continued, and Mr. Hooks told President Ramsey he is out of order. Ms. Priest suggested that since this is the executive committee meeting and there are questions Board members have regarding the charter school, maybe a list of questions could be submitted and a response provided to the Board. Mr. Hooks said he has requested information in the past and he is still looking for answers.

**Red River Waterways Grant.** Donna Vishnefski, Caddo’s education coordinator to SciPort, introduced Ken Latin, director of operations and visitors services at SciPort, and reported they are before the Board to announce Louisiana Science Center in Shreveport being awarded $51,220 from the Red River Waterway Commission. She explained this Title 1 grant is for 4th grade students in Caddo as well as six additional parishes. Riverworks Discovery allows all Caddo Parish Title 1 4th grade students, teachers and chaperones to visit the science center for free, including funds for transportation and admission to SciPort’s exhibits and the Riverworks Travel Exhibit which is designed to teach the importance of commerce, culture and conservation of America’s inland waterways. She also highlighted additional opportunities for students through this grant. Ms. Priest commented how pleased the SciPort board is to offer these activities and opportunities for the students through this grant and partnership. Mrs. Armstrong asked if the program is available to any Caddo Parish school that would like to experience it, but the funding is restricted to Title 1 schools/students. Mr. Riall asked for clarification of what is a watershed, and Ms. Vishnefski explained it is basically an area where any pollution, anything put into the environment, will wash into the waterway (and in this case the Red River). This grant has been restricted to those parishes in which the Red River flows through because those are the watersheds for the Red River.

**CAP (Corrective Action Plan) Update.** Dr. Rob March stated that under the Corrective Action Plan agreement he is to provide the Board an annual update and explained to the Board what will happen upon the exit of CAP. He announced there is a team in town from the Louisiana Department of Education to visit schools; and explained what the expectations will be once the CAP has ended and the process to follow in order to avoid getting back under the CAP. Dr. March recapped the history of the CAP when a complaint was filed by the Southern Poverty Law Center on behalf of a group of parents and investigated by the Louisiana Department of
Education, and when it was learned that the complaint was valid, an agreement was entered into to hopefully remedy the problem and issue semi-annual reports to the Louisiana Department of Education, the Parish and to the petitioners. In terms of the timeline, Dr. March stated that 30 schools were identified as being non compliant in specific areas; and today, that number is down to four schools. While a couple of those schools will not meet the marks agreed upon, it is still being recommended for them to exit the CAP.

Dr. March also stated that in coming into this CAP, they knew the following four groups of children were most vulnerable in terms of complaints: (1) students in poverty, (2) students with disabilities who were weak academically and were most vulnerable to being suspended or expelled (3) the mobility rate, and (4) African American males’ suspension rate. In terms of exiting the CAP, Dr. March stated that a full compliance is needed with some basic structural laws that have to do with functional behavioral assessments, BIP, and FAPE. While Caddo Parish has put policies in place to address these issues, it also has a strong team of instructional specialists through the Special Education Department and Behavior Interventionists; and he believes the team in place now is a solid one. Dr. March also reported on demonstration of successful implementation of the data management system making sure JPams was working, checking how the data was being entered, and random reviews of data to make sure they matched with what was being reported to the State Department.

He also briefly explained the difference in percentages at the elementary and secondary schools as it relates to the suspension/expulsion numbers/percentages, and shared some of the success stories in Caddo’s schools to decrease these numbers.

In terms of exiting, Dr. March reported they will make a recommendation to the State Department of Education that Caddo be exited from the CAP, and the steps that must take place for this to happen include (1) Department of Education representatives will visit Southwood, Keithville and Queensborough and their successes, (2) the petitioner visited Green Oaks and Alexander and was very impressed with what he saw and that Caddo is ready to exit the CAP, and (3) end of year report following schools’ deadline to enter information for submission to the State Department.

He also said he will recommend that what he started in presenting data on a regular basis that the Board continues to receive this information quarterly and that it is made a part of the school system’s institution. Because of the sophisticated data system in Caddo, Dr. March noted it can do a lot and the Board will be able to make some good decisions based on the data provided. Regarding the mobility rates, he noted some of the schools with high percentage of mobility and stated the importance of knowing how to address this through the school and the school’s expectations. Dr. March reported that a final report will be submitted to the State Department in a meeting in Baton Rouge; and he expects the letter between the State Department and the Petitioners to be signed allowing exit from the Corrective Action Plan.

Mrs. Crawley asked Dr. March for his suggestions regarding the mobility, and Dr. March stated that he met with Dr. Barzanna White about teaching the hidden curriculum, which is social behavior, organizational skills, and self regulation/self management. Mrs. Crawley expressed her appreciation to Dr. March for his patience with the Board.

Mr. Abrams reported that when the plaintiffs attorney attended the last meeting and visited Green Oaks and Alexander, his comments were in his 35 years of being in this business, he has never seen education taking place like he observed at Alexander. Mr. Abrams said it meant something to him before he prepares to retire to see special needs children being educated. Mr. Abrams said he also made it clear that there would be a presentation made at a National Conference about Caddo Parish as a National model in how to use PBIS and get results.
ASPIRE Program. Dr. Brian Salvatore, LSUS, shared with everyone that he has seen a real need to motivate students and show them what is expected which resulted in the development of the ASPIRE Program. Dr. Salvatore noted the importance for the District to be pro-active in how the curriculum will be adapted so students of the future like school and are really learning. He reported that the test base curriculum adopted in this country is something pushed on the local District by the Federal and State government, and High Stakes Testing is not an accurate reflection of what students are capable of doing. Dr. Salvatore expressed the need to look at the reasons why we feel we must go to war against student performance. Noting that he is not satisfied with State Superintendent John White’s commitment to public education, Dr. Salvatore stated that as a city, we must take every opportunity possible to hold onto what is ours in the public schools. He shared how the ASPIRE (After School Program for Innovation and Respect for Education) Program came to be and how this program was implemented within the school curriculum to teach the children why they need to be more respectful of education. He added that this program is a STEM (Science, Technology, Engineering, Mathematics) after-school program in grades 7-12 with a lot of teamwork. Because the students in the program want to be in the program, discipline is very limited, and he noted the schools that participate in this foundation-supported program that is administered by LSU Shreveport.

Dr. Salvatore shared how project-based learning is able to bring out the multiple intelligences and the different strengths for each child better than a teacher and how technology is used today rather than spending hours in the library. He added there is a need for an educator to be a motivator, a coach and a facilitator to make learning an enjoyable experience for all children. He quoted the old Chinese proverb “Tell me, I will forget,” “Show me, I may remember,” “Involve me, and I will understand.” Dr. Salvatore shared examples of projects by which students in this program learn.

Mrs. Armstrong expressed appreciation to Dr. Salvatore for his dedication to Caddo’s students and for being a role model they can look up to. She also hopes that this will be an encouragement to others in the community to participate with Caddo’s students in similar positive programs.

Update on Superintendent Search. Victor Mainiero shared with the Board a packet of information that included: RFP which included the five phases of the Superintendent Search (Phase 1 [characteristics of next superintendent] and Phase 2 [timeline] completed), finalization of advertising venues, schedule of dates and times for community input meetings, completion of the brochure, and costs for advertising. Additional information included a press conference on Monday, May 13th, to announce the position and meetings for the community input from all stakeholders, which will be scheduled for Monday through Wednesday, June 3rd – 6th.

Mr. Mainiero also reported that the Board approved a $2,000 budget for advertising the position and highlighted the cost for advertising in some of the major publications, which exceeds the $2,000. Mr. Ramsey added that NSBA and LSBA should be added to the list, and Mr. Rachal asked if the Board needs to adjust the budget for advertising. Mr. Rachal also inquired about the size of the ad for $1,500, and the distribution level. Mr. Mainiero responded he will verify additional information and report back to the Board. Mr. Lee verified that $35,800 was placed in the budget for the Superintendent Search, $26,500 for the contract with McPherson and Jacobson and the remainder for advertising and additional expenditures. Mr. Riall asked if EdWeek is a McPherson and Jacobson recommendation, and Mr. Mainiero confirmed that is what was sent to him today.

Mrs. Bell asked that we also advertise in the Shreveport Sun and Caddo Citizen. Ms. Trammel agreed with adding these two venues, as did Mr. Hooks.
Mr. Rachal asked if the recommendations being made will come back to the Board to approve, and Mr. Ramsey responded he believes that is correct.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE MAY 21, 2013 CPSB MEETING

Superintendent Dawkins highlighted the items for the Board’s consideration at the May 21, 2013 CPSB meeting and the following discussion ensued.

ADDITIONS TO AGENDA

Mr. Abrams requested that Revisions to CPSB Policy IDDF be added. Mrs. Crawley asked that Selection of Board President be added. Mr. Riall asked that M and M Transfers allowed to play sports be added. Mr. Ramsey stated he remembers this was referred to the policy review committee, and Dr. Dawkins responded that he will follow up. Mrs. Bell asked that an item be added relative to Additional Information on the Magnolia Charter School. Mr. Ramsey interjected that he has talked to Mr. Abrams and he will call a special meeting for him to address the Board’s concerns and the School Board’s role in this charter. Mrs. Bell asked if the Board member’s can receive a copy of the contract with Magnolia Charter. Mr. Ramsey stated that if there is no backup information for the Selection of Board President, he will not add it to the agenda. Mrs. Crawley said she believes she can do it and it is a simple process. She also asked, relative to questions about the Magnolia Charter, if the Board members could give their questions to the Board president to ask. Mr. Ramsey said he will commit to do that when the special session is called; and he further explained that they will present a written report at the end of each semester, and they have agreed to answer any questions we ask. Mr. Ramsey also stated he will further discuss this with Mr. Abrams for the special called meeting. Ms. Priest called for a point of order and that the items on the agenda should be discussed first and then items added.

Purchasing. Mr. Hooks asked for additional information on recappping the tires, and Mr. Graham explained that this is for recappping tires over the year. Mr. Hooks asked how many miles can you get from a recappped tire, and Mr. Graham responded he will have to get that information from Mr. Jones. Mr. Hooks shared his experience of recappped tires not lasting as long. Mr. Riall asked if these are for trucks and not school buses and Mr. Graham said that is correct. Mr. Hooks stated that the attorney explained that is all they put on the trucks now.

West Shreveport Conversion to Student Service Center. Mr. Rachal asked if this conversion has gone through the Long Range Planning Committee, the Budget Committee before spending $2.65 million, because he has not seen any information on how this fits in the plans, and he would like to see this postponed until work on the budget is complete and additional information received. Dr. Dawkins said the decision is certainly at the Board’s pleasure; however, since his first year in Caddo, the Board has asked to sell Building 6 and use another available Caddo facility. He further explained that staff has provided information on this comprehensive center to serve parents and students, and it is a budget neutral proposal with the sale of Building 6. Mr. Rachal said everyone knew we would be selling Building 6, but asked if the building is currently under contract? Dr. Dawkins referenced the presentation made to the Board approximately one month ago, and Mr. Rachal reiterated in going through the budget process, he would like to see this postponed. Mr. Rachal asked if Building 6 is under contract or has it been put out for bid? Mr. White responded that an appraisal has been done on Building 6 and is one of the reasons staff is coming back to the Board, and the appraisal is $2.23 million with the caveat that if we repaired the parking lot, we could get up to an additional $350,000. At this time, he is looking at the cost to repair the parking lot. Mr. Rachal reiterated he does not believe we should do this until we have the money in hand, and he would like to see it postponed until the building is sold.
Mrs. Bell stated she disagrees because the Board asked for this central location for these services, and she believes the Board should support this. Ms. Priest also stated her disagreement to postpone this item because the presentation was made, and the Board had the opportunity to ask questions so the Board needs to move forward in providing this central location for these services. Mr. Riall asked if we have started the implementation of this, and Mr. White said no, except for preliminary plans to make sure renovation would allow ample space for all the departments involved. Mr. Riall asked if it is currently vacant, and Mr. White responded it is and at this time windows are not boarded up, but there is evidence of recent break-ins.

Mr. Pierson agreed with Board members that there is no reason not to move forward. Mr. Ramsey again stated that this is not the time to debate the agenda item, but to only ask questions. Ms. Trammel asked if this is a General Fund Budget item, and Mr. White explained that this expenditure would be from Capital Projects.

Mr. Rachal asked where will the money come from in the meantime when the Capital Projects funds are already budgeted for other projects and the building has not sold? Mr. White explained that it can come from the cash flow or Capital Projects reserve fund. Mr. Rachal asked if he understands that we are spending money we do not have, and Mr. White responded that is a fair assessment. Mr. Rachal reminded everyone that the last piece of property put out for bid had no takers until the price was drastically reduced, and Mr. White stated the last property the District sold was Laurel Street and we did receive appraised value for it. Mr. Rachal asked wasn’t the original appraised value much higher than the $300,000 the property sold for? Tim Graham stated that the original appraised value for Laurel Street was $855,000, and explained we did have takers, but they knew the State law relative to the bid process and they held out until the price dropped. Mr. Rachal added the same thing is possible for Building 6. Dr. Dawkins interjected that Laurel Street was a school, and this is a commercial building. Mr. Rachal again stated we are spending money we do not have yet, and Mr. White confirmed we have not receive monies from the sale of Building 6.

Ms. Trammel stated she believes Building 6 and its location would be favorable for resale, and staff confirmed the appraiser reported it appears to be a very favorable piece of property for resale.

Mr. Hooks asked when will we receive the funds, and Mr. White responded he cannot provide an exact date, because the property must first sell. Mr. Hooks asked for verification that the funds from the sale of Building 6 will be used for the West Shreveport renovation, and Mr. White said it is his understanding from the Board not to leave abandoned schools in the neighborhood and this would fulfill that obligation.

Mrs. Bell asked Mr. Lee to clarify the interim funding for this project, and Mr. Lee explained that all funds except for some investments are available through one checking account and there are ample funds in that account so there will not be a cash flow problem. He also stated he is looking at the Capital Projects reserve if funds are needed prior to the sale of Building 6, which he will provide to the Board.

Mrs. Crawford asked if any other projects will be delayed or bumped in order to do this, and Mr. White said it will not, because staff was instructed to make this project budget neutral and not come from the $18 million projects presented to the Board each year, but funded strictly from the sale of Building 6.

Mrs. Crawley asked if staff feels comfortable in moving forward even if Building 6 does not sell immediately, and if there are any emergency capital projects would there be a problem in taking care of them. Mr. White explained that every year a contingency amount in capital projects is planned for emergencies, added costs in projects between the bid and actual construction, etc.
and the District has always been able to address these issues through Capital Projects without having to come back to the Board for General Fund dollars. However, he added that if a tornado were to completely destroy a school, there would not be ample dollars in the reserve to address that loss from capital projects.

Miss Green asked if staff can reassure her that there is ample space for all the departments that are to be relocated to the renovated West Shreveport. Mr. White explained staff has met with all the departments about this, and there is some collaboration of space in some areas (meeting rooms), but all believe there is ample space. Miss Green stated her support of this project.

Mr. Hooks said he believes the Board is being told that the people need to move out of Building 6 before we will be able to sell it. Mr. White responded that he is a builder and not a real estate person, but he believes it would be easier to sell if the building were empty. Mr. Hooks said he believes we need to move forward.

**Agreement with Housing Authority on Lease of Oak Park Property.** Mr. Rachal asked how much money has been spent on Oak Park in the past 3-5 years? Mr. White responded an A/C upgrade was completed, a new roof over the office building and cafeteria, a new canopy, and staff held off on the technology upgrades since it would no longer be in use; and he will verify any additional dollars spent at Oak Park and provide him the information. Mr. Rachal asked if he understands we will lease this building for a total of $1 per year, because he is trying to determine how many years at $1 per year would it take to get back the money invested in the facility. Mr. Woolfolk explained that the project included tearing down Oak Park because a commitment was made that we would not leave a vacant building in a neighborhood. Short of tearing down the building and the District being responsible for maintaining the grass for the next 99 years, staff talked with the City about any interest in using the facility. SPAR was not interested, but the Housing Authority was interested if the building was torn down. It was agreed that the building would be torn down, the Housing Authority would maintain the green space and the District would no longer have any responsibility for the property. A hold harmless agreement would be also be in place that all responsibility would go to the Housing Authority, and we would accomplish not leaving a vacant building in the neighborhood. Short of tearing down the building and the District being responsible for maintaining the grass for the next 99 years, staff talked with the City about any interest in using the facility. SPAR was not interested, but the Housing Authority was interested if the building was torn down. A hold harmless agreement would be also be in place that all responsibility would go to the Housing Authority, and we would accomplish not leaving a vacant building in the neighborhood. Short of tearing down the building and the District being responsible for maintaining the grass for the next 99 years, staff talked with the City about any interest in using the facility. SPAR was not interested, but the Housing Authority was interested if the building was torn down. It was agreed that the building would be torn down, the Housing Authority would maintain the green space and the District would no longer have any responsibility for the property. A hold harmless agreement would be also be in place that all responsibility would go to the Housing Authority, and we would accomplish not leaving a vacant building in the neighborhood. Short of tearing down the building and the District being responsible for maintaining the grass for the next 99 years, staff talked with the City about any interest in using the facility. SPAR was not interested, but the Housing Authority was interested if the building was torn down. It was agreed that the building would be torn down, the Housing Authority would maintain the green space and the District would no longer have any responsibility for the property. Short of tearing down the building and the District being responsible for maintaining the grass for the next 99 years, staff talked with the City about any interest in using the facility. SPAR was not interested, but the Housing Authority was interested if the building was torn down. It was agreed that the building would be torn down, the Housing Authority would maintain the green space and the District would no longer have any responsibility for the property. A hold harmless agreement would be also be in place that all responsibility would go to the Housing Authority, and we would accomplish not leaving a vacant building in the neighborhood. Short of tearing down the building and the District being responsible for maintaining the grass for the next 99 years, staff talked with the City about any interest in using the facility. SPAR was not interested, but the Housing Authority was interested if the building was torn down. It was agreed that the building would be torn down, the Housing Authority would maintain the green space and the District would no longer have any responsibility for the property. A hold harmless agreement would be also be in place that all responsibility would go to the Housing Authority, and we would accompl
a triple net lease where we have no responsibility at all. The intent was to have it leased before it became vacant so as to hopefully avoid from having the property destroyed. The agreement also includes the Housing Authority must provide proof of insurance; and if the District needs it back, there are provisions for that to happen, as well as limitations as to how the property can be used.

Ms. Priest continued by asking if the District saves money as it relates to securing this building with it being partially demolished and partially occupied by a quasi governmental body? Mr. White explained his understanding that the Housing Authority, under the lease agreement, is solely responsible and we would have no expenditures relative to security for this building. Ms. Priest asked if the CPSB approve demolishing this building? Mr. White said the Board made a commitment to the public not to leave abandoned structures in neighborhoods. Ms. Priest asked if the 99-year lease cost the District any money to maintain the grounds left vacant by the demolishing of the building? Mr. White stated his understanding that the Housing Authority will be responsible for all maintenance of the grounds and buildings. Ms. Priest asked if the School District will be required to retain insurance on the vacated building, portions of the building remaining, etc? Mr. Woolfolk explained that the property is leased to the Housing Authority and the District is self-insured through Risk Management. Ms. Priest asked if the Caddo District saves money or will it have a cost relative to the utilities being retained intact? Mr. White responded that we would possibly leave water on in the building, and some electricity for future inspections; and it is his understanding the lease agreement states the Housing Authority under the City of Shreveport will pay for the utilities. Ms. Priest asked about any cost to the District, and Mr. White explained only fees for putting together the lease.

Mr. Pierson asked if the occupants of the facility can sell or in any way dispose of the property without CPSB permission? Mr. White said they do not have the right to do so, and the property still belongs to Caddo Parish. Mr. Riall explained that the answers to almost every question asked are included in the lease information posted on Board Docs. He also asked about the cost to demolish the building? Mr. White responded that at this point he does not have an exact number; because it has yet to be determined exactly what all will be torn down. The question was raised relative to asbestos in the building, and Mr. White stated while he is sure there is some, this type information will come to the Board. Mr. Riall asked Mr. White to give him a ballpark amount for tearing down all but one finger wing, cafetorium, and library, and Mr. White indicated approximately $40,000-$50,000.

Mrs. Armstrong asked if the Housing Authority has been approached to cover the cost of demolition, and Mr. White said not to his knowledge. Mrs. Armstrong stated she believes this is something that needs to be looked at, and asked if the improvements made to the building can be salvaged for use in other buildings. Mr. White said it can as it is in other construction projects. Because there is no current use for the air condition units, the plan is to make sure they are working and offload them to the warehouse for use as present units need to be replaced. Dr. Dawkins stated he believes the demolition cost is included in the project cost. Mrs. Armstrong stated she has no problem with the project, but she does have concern over salvaging our investment in the facility and her concern over the cost of demolition, especially when looking at the investment made into Oak Park. She asked staff to research and determine if the cost of demolition can be covered by the Housing Authority.

Mrs. Bell noted the property located behind her residence in which the Parish Commission has a lease agreement for 99 years. Mr. White responded he does not doubt Mrs. Bell’s word, but he has been unable to locate any documentation.

Mrs. Crawley stated her agreement that the Housing Authority should have been the ones to request any changes, and she remembers when discussing the tearing down of Rodessa, and while it may be because of asbestos, etc., but for years we could not tear it down. She asked for
more concrete numbers so we know how much will be coming from the Capital Projects budget before moving forward.

Mr. Rachal asked if the purpose of the Caddo Parish School Board is to rent out property for 99 years or to be in the rental business? Dr. Dawkins responded the preference is not to be in the rental business at all. Mr. Rachal asked about the current market value of the property? Mr. Woolfolk explained that as work on the project began, the position was the property was worth zero because the District was going to demolish the property so we did not leave a dilapidated building in the neighborhood. If the District did demolish the property and leave only the green area, it would still own the property and would be responsible for maintaining the property. Mr. Rachal asked if the plans were for us to maintain the property for 99 years? Mr. Woolfolk responded that what he has experienced is if you own property, the City will force you to cut the grass; however, that may not be the case here, but he believes that would be true to be a good neighbor. When the Housing Authority said they could use the property, staff believed this might be a good deal, because we could save some money in maintaining the property. Mr. Rachal asked Mr. White if the School Board needs all the funds it can possibly get right now? Mr. White responded he doesn’t know anyone who would say they couldn’t use more funds. Mr. Rachal asked if anyone knows how much we could get for this property if we sold it? Mr. White responded he does not know. Mr. Rachal asked Mr. White if he could use some additional funds in the capital projects to offset some of the additional costs, and Mr. White responded absolutely.

Ms. Priest asked the Superintendent and Mr. White if the Board approved this project for approximately $3.9 or $4. Million which included the renovations of the old Bethune campus as well as the demolition cost at the existing Oak Park campus? Mr. White said he believes that is correct. Ms. Priest asked the Board Attorney if the question being discussed is whether or not the Board wishes to enter into a lease agreement and not whether or not we will demolish the structure or portions thereof, because it has already been approved. She asked if the question today is whether or not the District wishes to enter into an agreement with the Housing Authority. Mr. Abrams responded that the agenda item is whether or not to approve the long-term use of Oak Park. He added if the decision was made to demolish the entire facility, it has been made; and the law provides for governmental entities to use properties together for the public’s benefit, which is what this action will do. Ms. Priest asked if in approving the $4 million for this project, did the Board approve proposed improvements for the vacated property?

Mr. Riall noted the approval of funds for demolition of the entire structure, and he asked for an estimate for selling a clean piece of property in this area? Mr. White indicated he does not know what the property would appraise for.

**Facility Usage – Hamilton Terrace.** Mr. Riall asked if the Rescue Mission made contact with School Board staff about use of Hamilton Terrace, and Mr. Woolfolk reported that they came to look at it and one of the problems was vandals stole the air conditioners from the top of the building and the gymnasium is the only portion of the building with air conditioning. He also stated that another meeting was held with them to report the air conditioners were not available, and this request is for a basketball team through the month of July. Mr. Pierson asked if the gymnasium allows for access to the remainder of the building and Mr. Woolfolk reported that doors have been put into place that do not allow access to the remainder of the building. Mr. Woolfolk also stated that if the Rescue Mission rented the building, the District would not lease out the remainder or any portion of the building.

**CPSB Student ID Badge Committee Recommendation.** Dottie Bell reported the committee met and is recommending that the District set up and maintain a centralized printing station for ID badges. She said this station can be utilized by any school needing to print badges, and the cost to the District is approximately $25,820. Roy Murry stated that Kathy Gallant has donated space in the Professional Development Center to use as the central printing station.
Recommendation from Audit Committee on Accounts Payable Department Internal Audit.
Mr. Riall reported on the recommendation of the CPSB Audit Committee that the CPSB accept the internal audit of the Accounts Payable Department and to implement the recommendations of the Internal Auditor with a follow-up review of the recommendations within 120 days.

Mrs. Crawford asked the Board President to appoint a committee to look at the Maternity Leave policy. Mr. Ramsey referred this item to the Long-Term Planning Committee.

Mrs. Bell asked for more information on HB696 which deals with not being able to suspend students regardless of what they do. Mrs. Bell asked if it is possible for the Board to consider a resolution regarding legislative matters. He encouraged Mrs. Bell to get with Ms. Priest about follow up on this item.

Mr. Pierson asked Mr. Lee to bring the Board information on Spring sports payments. Mr. Ramsey asked the Superintendent to bring the board information on this issue.

PROPOSED CONSENT AGENDA ITEMS

President Ramsey proposed the following items as the consent agenda: 7.01, 8.01, 8.05-8.08, 8.10, and 8.12-8.15. Mr. Pierson moved, seconded by Mrs. Crawford, approval of the proposed agenda and consent agenda for the May 21, 2013, CPSB meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE

Jackie Lansdale, president of Red River United, expressed appreciation to Mr. Pierson for bringing up the Spring athletics, to Mrs. Crawford for bringing up policy revisions relative to maternity leave, and her concern that one of the employees reported to her that she heard in their faculty meeting that every high school is to lay off 14 teachers. Additionally, she said teachers were told that anyone who put in for a transfer would be the first to go. She asked administration to reiterate to the schools that this is not what administration said, and this is why she has asked to be included in such decisions (because she is asked to respond to certain issues that she has no knowledge of). She also encouraged the Board to begin another Internship Program because of the need to have professionals in the schools. Mrs. Lansdale also reminded Board members that the Most Improved Student Banquet is Thursday, May 9th at 6:00 p.m., at Southwood High.

Mr. Ramsey asked Superintendent Dawkins to address the comments and issues that principals make.

Adjournment. Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:30 p.m.
May 14, 2013

The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 3:30 p.m. on Tuesday, May 14, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Secretary Gerald D. Dawkins and Reginald Abrams. Mr. Ramsey led the prayer and Pledge of Allegiance.

Jim Lee shared with the Board the revisions made to the proposed budget since the last work session and highlighted the increased revenue projections of $2 million and the decreased expenditures to bring the $21 million deficit down to approximately $3 million and an undesignated balance of approximately $18 million. He explained that the changes in the revenue were discussed at the last budget work session, and the proposed decreased expenditures would require a board change in the staffing formula, as well as staffing changes that are non school based and do not require a change in policy which would result in a total of approximately $16 million. Mr. Lee reminded the Board of the numbers reported at the last budget work session and that the proposed changes that represent a change in the staffing formula was $10 million plus. This recommendation eliminated block scheduling and returning to a seven-day schedule; however, the recommendation now is a modified version of the block schedule which will modify fewer teachers than the full blown block schedule. He added that in the current block schedule teachers teach six blocks a day and in the proposed modified block schedule, teachers would teach seven blocks (4 blocks one day and 3 blocks one day), which means if each teacher can teach one more block, it would eliminate the need for as many teachers, and this is the biggest reduction proposed. Relative to staffing formula changes, Mr. Lee explained that K-1 would eliminate the hard coded 22:1, which saves 29 positions; no change at 2nd and 3rd grade; add 1 to the formula at 4th and 5th grade (which reduces 9 positions); no changes at the middle school; and at high school we would retain the modified block at a reduced staffing from the current block. All these revisions represent 107 positions (which can be done through attrition), and approximately $7.5 million in savings. He also presented a list of non-formula reductions in special education teachers based on Human Resources’ discussion with the Special Education Department; reduction of four instructional supervisors at Central Office; reduction in vocational staffing; clerical positions; temporary positions in Human Resources; increase Instructional Specialists from 5 to 14; M & S; school consolidations if the Board wishes; savings in Workers Comp since it is outsourced, outsourcing rural transportation all of which comes to a total of approximately $8.7 million (which was $6 million when presented at the last budget work session).

Mrs. Armstrong asked about the massive reduction in Special Education Instructional Coordinators and her concern because of what they do. Mr. Lee explained that these positions are not directly assigned to a school on a daily basis, and are not the ones assigned to schools, but are located at Building 6. It has been recommended these could move into a Special Education teaching position. Mrs. Armstrong asked if their salaries remain the same? Mr. Lee explained that if they are not on the teachers’ salary schedule, they would remain the same until they catch up with the salary schedule. Mrs. Armstrong asked who will handle the responsibilities/load of these positions? Dr. Lockett explained that the Special Education Budget (IDEA and Federal funds) was significantly cut, and the initial plan was 12 positions would be paid from her budget and retain four. When looking to see if the General Fund could pay for the 12, but General Fund is in a deficit. She noted the need to have instructional specialists carried over into the General Fund, because they are responsible for the IEPs, Compliance, and making sure these things go forward. Her budget will not allow her to pay for any additional positions because of the need to use the Federal money for school materials and supplies, and services for special education is why she had to make a reduction through IDEA. She further explained that IDEA had 12 and General Fund had 14 and the original recommendation was to eliminate 5
positions, but because of the budget constraints, the Board is being asked to consider the possibility of retaining at least 8 positions in the General Fund. Dr. Lockett also explained that for years Caddo had the luxury of having a middle man to take care of IEPs, compliance, behaviors and other supports; but the removal of the instructional specialists will mean that the responsibilities of these positions will fall back on the principals and administrative teams because we still must be 100% compliant, especially as we are exiting the CAP. Mrs. Armstrong stated that just now exiting corrective oversight is one of her concerns, and to cut these positions that have direct oversight over these areas of documentation is a major concern. Dr. Dawkins stated that technology has helped to make a big dent in being able to keep track of the data related to these students allowing it to be done with fewer people.

Ms. Priest asked about the significant number of budgeted clerical positions because with full implementation of technology and the fact that many directors and supervisors type their own letters, etc., she questions the need for this many. Mr. Lee clarified that for Human Resources, the number 19 does not mean there are 19 secretaries in that department, because some of the positions included in that number are retirement benefit specialists, those that run the sub teacher system, data processing programmers, to name a few. Ms. Priest also asked about cross training and if the positions in place are being fully utilized? Dr. Robinson agreed that the 19 clerical in HR includes a varied number of positions; and the Human Resources Division, for example, includes a number of departments, i.e. classified and certified human resources, attendance, homebound, and special services. Relative to cross training, Dr. Robinson explained that with the onset of the new system for payroll and HR, it has not been optional and the department has moved in that direction.

Dr. Dawkins referenced Ms. Priest’s comment on technology and assured her that staff continues to look at all the areas, the employees, and who is delivering services to the schools, etc. Ms. Priest stated she believes we need to look at all areas more closely, because a $3.6 million deficit is still not acceptable to her and she would like to see a balanced budget. She asked the superintendent and staff to look at the areas very closely that could be cut. She also believes there are personnel trained and could serve as subs.

Mrs. Bell asked Dr. Robinson for the requested information on the number of retiring teachers and the number of PL teachers (on certificates). Dr. Robinson responded there are 139 PL’s employed and 15 are currently on the termination list; and as of May 14, 2013, there are 157 (3 deceased, 106 teachers and 48 others (administrators, counselors, etc.). This number does not include the bus drivers. She also referenced instructional supervisors, and if Special Ed has thought about putting all their positions in the schools so that someone who best addresses these areas is closer to those they are providing services to.

Ms. Trammel asked about the instructional supervisors and if these will be handled through attrition and Mr. Lee responded they will or moved back into a classroom position. Ms. Trammel asked how much savings would this reflect. Mr. Lee stated that is what he shared when he mentioned the number of positions we would save, because we are not just eliminating their salaries and benefits, but we would look at the vacant positions we would not fill. Ms. Trammel stated that the Board has looked at almost every department, and asked about the formula for librarians? Ms. Trammel asked if we have looked at the small population schools for possible consolidation? Mr. Lee stated that for a small elementary school, you could see a savings of between $200,000 and $300,000 for each school; and you would not see a lot of savings on the certified personnel side, because wherever the students attend, the majority of the teachers will be needed, but you would save the cost of an additional administrative staff.

Dr. Dawkins referenced the last page of the original Vision 2020 document (July 2010) and the suggestions on proposed facility closings and new construction to be used as a baseline at one time. He also noted that the total cost savings over a 3 year period of time were also presented in
the document. He further stated that the recommendation to consolidate schools is not a new one for the Caddo Parish School Board, but it is one that has its own challenges.

Mr. Lee asked about rural transportation and the savings of $50,000 and if this service is outsourced, he is not seeing any reduction in that cost, and what will those who work in the northern part of Caddo and live there do. Mr. Lee explained that in the preliminary discussions with companies that do this type of work, none of them felt like they could take on the entire district at one time, but wanted to look at a section. Mr. Woolfolk reported that a preliminary discussion has been held with two companies that provide this service. At this time, they too would like to start small and believe the area north of Northwood could possibly be approximately 33 drivers. He said any additional discussion will be based on how this could be accomplished through attrition. Relative to dispatchers, mechanics, etc. they would still absorb them in the Shreveport Garage. He added additional conversation is needed to determine if this project is feasible or not. While $50,000 is on the low side, approximately $1 million or $1.2 million is needed. Mr. Riall stated that until he sees more information, he cannot support this item.

Mr. Riall also asked about meetings between staff and principals in which they were asked to submit ideas and the only idea offered was the $200 M&S. Mr. Lee responded that much of the discussion with principals revolved around staffing, especially at high school level (giving up an aide or library aide versus a teacher). He further explained that staffing is based on a formula that tries to keep the staffing as fair as possible to all schools, and is why the recommendation was to go to a modified block.

Mrs. Armstrong asked for a list of the schools that will retain instructional specialists for special education (because some go to four or five schools), and she is very concerned there are not enough for filling in the gaps. Mr. Lee explained that when Federal cuts are made, General Fund cannot always pick up and take over, and is why the General Fund cannot pick up the 12 instructional specialists referenced by Dr. Lockett. In Dr. Lockett’s decision on positions to eliminate, Mr. Lee said if a position was not as critical for Dr. Lockett to keep, he didn’t understand why the General Fund should continue to fund positions that IDEA feels are no longer needed. Mrs. Armstrong asked the superintendent if we are mainstreaming more special education students in the regular classroom? Dr. Dawkins responded that he doesn’t have the numbers, but inclusiveness is something the District strives for and continues to look at.

Mrs. Bell stated that she asked for a count of every student in Caddo Parish because of her concern about Huntington’s 700 students, because in the up-to-date list provided to her, there are 11 schools that have 400-500 students, 5 schools with 300-400 students and 5 with 100-300 students. When talking about consolidated schools, she asked if consideration has been given to cross teaching as there are teachers who can teach more than one subject? Mr. Lee explained that the 7-12 scenarios are different bell schedules, and he believes it would be difficult for a teacher to teach on two different schedules and still keep the middle school students and high school students segregated. Mrs. Bell said she believes with some changes, it is something that could be done, and that some thought be given to this possibility. Mr. Lee added that is something that would also mean relooking at the staffing formula since the middle school staffing formula is different than the high school formula.

Mr. Rachal asked about information on the benefits and retirement and Mr. Lee’s responded that it may be difficult at this time. Mr. Lee explained the District is in the middle of a planning year with Blue Cross and it is difficult, if not impossible, to make major changes in the middle of the plan year. He stated that staff can bring something for the Board’s consideration in October; however, it will not affect this budget, but the next year’s budget. Mr. Lee explained there are some savings to be recorded if we pass on a little more of the premium cost to the employees, if we reduce benefits the District provides (both of these suggestions would cause us to lose our grandfather status). Because Caddo has such a robust health care plan with the Affordable Care
Act, we are grandfathered in and do not have to offer more benefits than the Federal Government is requiring others to add to their plans. If major changes are made, we could lose our grandfather status; and even though there could come a time where it will not be worth keeping, it could be something the Board wishes to begin thinking about for next year. Mr. Ramsey interjected that these are items that need to be pushed into committee because insurance and retirement are two primary areas that need to be in a long-term review status with the pending changes. Mr. Rachal also noted the importance for the public to understand why this may or may not be addressed at this time. He said it may not be reflected in the current budget, but it will be in the next budget and budgets to come. Randy Watson explained that staff is continually looking at insurance and because we are fully insured, there is a contract to be renewed by the Board once a year. He also reported that this year will be a turning point year for insurance because the next leg of the Affordable Care Act is approaching and we will need to look at many issues that will need to be included, which he is in the process of doing. He added the principle behind the Affordable Care Act is everyone has coverage, and everyone has affordable coverage; so adjusting premiums before getting to the implementation date in 2014 would be contrary. Also, Mr. Watson stated that if we make more than a 5% change to the benefit, we lose our grandfather status and there are numerous benefits we did not have to eliminate. He assured the Board members that staff is looking at all options available and will bring this to the Committee and the Board. He recommended allowing him more time to get more of this together so that when it comes to the Committee, it will address the remainder of the budget year in 2014 and the year following.

Mr. Rachal stated that he doesn’t understand the consolidation numbers? Mr. Lee explained that the $600,000 is for two schools; and Mr. Rachal noted this represents a principal and assistant principal who are gone immediately, as well as security. Mr. Lee reminded him that if there are no positions for the administrative staff members to move into and they do not choose to retire, then it will be important that the District finds a position for them. Mr. Lee said the savings may be more than this, but until someone is ready to tell him which schools they are willing to close, but not knowing which schools this can be, and until he gets more specifics, he cannot offer any further explanation.

Ms. Priest asked about the technology instruction and the cost savings and referenced the 24 Distance Learning courses for high school (currently there are 24), and how all children learn differently. She encouraged everyone to take full advantage of the technology we have to offer. She stated she believes Distance Learning can save us money and offer more courses to students and asked about the possibility to expand this to the middle school level, because these students are learning through technology.

Mrs. Turner explained that the District has tried some Distance Learning courses with schools and it is the schedules between two high schools (the CORE assessment) that seem to cause problems. If the class is even slightly different to the point that the two classes cannot connect, it is a problem; however, staff is continuing to look at ways schools can share Distance Learning courses and resources. Ms. Priest said she believes this is important because of how money can be saved, and she also asked staff to look closely at the staffing formula, but protect the core courses.

Mr. Riall asked Mr. Ramsey to clarify if the rural transportation issue is being referred to committee, and Mr. Ramsey confirmed that is correct. Mr. Riall asked if the Board will be asked to vote on the budget on May 21st? President Ramsey responded that is correct, and since nothing can be done in Transportation the first semester, the Board can relook at this after the Committee has reviewed and presented something to the Board for consideration. Mr. Riall asked about the reduction of 69 teachers in the block schedule and how we can keep block scheduling with this reduction? Jimmy Kennedy explained that the District is currently on an A/B block schedule, each day having four classes, with teachers having a planning period on
each day. Instead of the teachers now teaching six classes over two days, they will teach seven classes over the two days. By teachers picking up an additional class, this is where the savings will be seen.

Mrs. Crawley stated that she has not received any notification of committee meetings and asked for a monthly schedule with the date and time of every budget meeting so every Board member has it. Mr. Ramsey said he can, but since the new process has just begun, he believes the chair should have some flexibility in scheduling these meetings because of the time allowed for staff to gather the information needed. Mrs. Crawley stated her understanding, but she believes if there is a calendar sent to the Board, staff can update the calendar and Board members will always know when the meetings are scheduled, because she doesn’t believe anyone would be scheduling a committee meeting the day before. Mr. Abrams explained that there could possibly be a need to call a committee meeting with less than a full week’s notice. Mrs. Crawley stated she believes there should be an attempt to do so. Regarding the budget, Mrs. Crawley said the world will not come to an end if the Board does not vote on a budget on Tuesday, and she believes the Board needs additional time to more thoroughly look at the budget. Relative to insurance, Mrs. Crawley stated she believes employees should be vested in insurance before being able to retire as she is aware of instances where someone may be in the system only one or two years and they are able to retire with full insurance benefits for the employee and their spouse for the remainder of their life. Mr. Lee explained this has been discussed and with some work, it can be accomplished; however, with the tendency to grandfather employees in, it would be several years before the District sees any savings. Mrs. Crawley said she believes the time should be five to 10 years; and she understands that those who have already retired with less than five years would not be addressed in this way, but it would be from this time forward. Mrs. Crawley also asked about non-employees on insurance (i.e. spouses) and could there be some revision in this area. Mr. Lee said the premium for those who have beneficiaries is already higher, and Mr. Watson further noted that if an employee only is covered, the District pays 80% of the premium; if there is an employee with one dependent, the District pays 75%; and if a covered employee has two or more dependents, the District pays 70%. He further added that the law will not allow the District to differentiate between two or more dependents. Mr. Watson also stated there is no other plan in the State of Louisiana with a benefit like Caddo’s HMO plan where the employee pays a $250 deductible. He also stated that one of the problems is the State sets the eligibility rules; and because we receive MFP funding, we are required to follow those eligibility rules. Mr. Watson also explained that where the District could have changed before the Affordable Care Act is the percentage the employee pays. Mr. Watson added that some private sector employers say that if a spouse is covered by another plan, the State will not allow the local District to cover them also; and the challenge to the District’s employees is we have richer benefits, low employee premiums, and we cover retirees. Mrs. Crawley still questioned how the Board can be asked to approve a budget when they do not have a complete understanding of the changes being suggested, and asked what is the proposed budget? Mr. Lee shared that the Board is being asked to consider tabling rural transportation for now, as well as some consolidations and reduction in sub teachers. Mrs. Crawley asked if these two items are removed, what is the amount being considered by the Board? Mr. Lee responded that if these two items are removed, the estimated ending fund balance will be in the neighborhood of $17.2 million, and the deficit spending would go from approximately $3.6 to approximately $4.2. Mrs. Crawley asked about the fund balance, and Mr. Lee explained that the $21 million is the beginning fund balance, and the numbers presented represent a $17.2 million ending fund balance.

Mrs. Bell asked about the reduction in substitute teachers and the $500,000. Mr. Lee explained that currently approximately $4 to $4.5 million is budgeted for substitute teachers; and if we reduce positions, we should not need as many substitutes, thus the reduction of this item by $500,000. Mrs. Bell also asked about the idea of creating subs on contract and can this be referred to an Ad Hoc committee of the Long-Range Planning Committee to discuss this and
what other districts are doing? Mr. Ramsey indicated he would like to discuss this further with Mrs. Bell. Mrs. Bell referenced pulling the suggestion of consolidation of schools and that she hopes when considering this that if neighborhood schools are consolidated, that it is done in a vacant school in that area similar to J. S. Clark and Oak Park. Mr. Lee responded that would be what staff looks at as opposed to having the expense of moving in temporary buildings to accommodate the number of students.

Miss Green asked if consolidations will be referred to committee, and Mr. Ramsey stated it will be referred to the Long-Range Planning Committee. Miss Green asked if Board members not on the committee can attend? Mr. Ramsey responded that the chairman always recognizes others in attendance for input or questions, but they do not have a vote. Miss Green stated that is one of the reasons she does not appreciate committees. She also asked about staffing and if the 4 x 4 block Southwood implemented several years ago and if it is the same as the seven-hour day.

Mrs. Turner responded that the 4 x 4 block did not generate as many credits as the A/B (the one we are doing now).

Mr. Rachal asked to receive a copy of the newest proposed budget instead of the summaries. Relative to the number of budgeted positions and the proposed changes, Mr. Rachal asked about the 107 decrease as a result of changes in the staffing formula and how the numbers were reached. Mr. Lee explained that the enrollments must be determined at each school in order to determine the staffing needed, and then determine the savings from the reductions. Mr. Rachal asked about the reduction in number of students, and Mr. Lee responded that HR has that information which they can provide to the Board members. Regarding special education instructional coordinators, Mr. Rachal asked for clarification of the 14 positions reduced and the current 50 unfilled vacancies and the 10% reduction in the number of teachers. Mr. Lee answered there are two parts, with the first being the reduction of special education teachers as discussed between Special Education and Human Resources. Mr. Rachal also asked about the reduction of the special education instructional specialists, and Mrs. Turner explained that staff is working on these positions for support needed, but they are currently looking at eliminating four positions.

Ms. Trammel stated that a lot of items for savings have been looked at, but she would like to know if someone has looked at merging and consolidating from inside the building. Dr. Dawkins agreed and that Ms. Priest touched on this with the cross-training, and staff is continually looking at how staff can be more efficient in the operation. Ms. Trammel asked if staff sees that jobs can or should be connected, can staff look at these jobs and determine if one employee rather than three can do a specific job? Superintendent Dawkins agreed that this can be done, and there are those that are doing this at the current time.

Mr. Riall asked how many positions are in the current budget that are currently vacant? Mr. Lee said approximately 85 certified positions. Mr. Riall asked how many positions are in the proposed budget, but are not currently filled? Mr. Lee said he cannot give an accurate answer because of the reductions staff is currently looking at, and noted the difficulty the District has encountered in filling Special Education teacher positions, so there are always vacancies. Mr. Riall asked Mr. Lee what the average salary and benefits would be for one of these positions? Mr. Lee stated that it is approximately $70,000 in salary and benefits. Mr. Riall asked where does the money go. Mr. Lee explained that is the variance he previously explained, and how this year staff is predicting $3.5 million in overspending; however, the savings from vacant positions and from staff not spending their allotments will result in a positive ending fund balance.

Mrs. Crawley asked if staff polled the teachers for their suggestions on cuts, because she remembers doing this when she was a teacher. Dr. Robinson explained that as directed by the Superintendent, all principals met with teachers prior to bringing their recommendations for cuts in expenditures. Mrs. Crawley said she would like to have actual input from the teachers and not
through the principal. While she understands every principal’s suggested cut may be different as they are looking at how they can best serve the students at their particular school, she believes if it goes through someone else, it may not be the actual suggestion presented to the principal. Mrs. Crawley asked that this survey be done and Dr. Dawkins stated that Dr. Robinson has described what staff has done, and Mrs. Crawley noted that is not what she was talking about, and would like for staff to directly poll the teachers. Dr. Robinson said she can make it happen, but reminded the Board that the budget needs to be addressed in a timely manner because principals are waiting to staff their schools and the summer is upon us. Mrs. Crawley also asked about Distance Learning, its affect on End of Course testing, and if any parallels have been done for comparison sake on the scores? Rosemary Woodward noted studies of Distance Learning have not noticed any significant difference between students’ performance.

Mrs. Armstrong asked how staffing is being figured and principals asked to reduce teachers for next year? Mr. Lee stated that at the elementary level, staff is recommending 22:1 for K-1 and remove the hard coded factor, and at 4th and 5th grade, staff is recommending going from 25:1 to 26:1. Mr. Lee said the only caveat is staff is only talking about 9 positions in all the 4th-5th grade levels, so not all are being asked to make cuts. Mrs. Armstrong noted that between two schools, they have been asked to cut seven positions. Mr. Lee explained that could be if their enrollment went down. Mrs. Armstrong asked why, when the board closes a department, are new positions created for the individuals staffing that particular department, because to her if the Board closes a department and there are no openings in the District for those individuals, the Board meant for the individuals to be terminated and not another job created for them.

Mrs. Bell asked that staff clarify the classified hiring freeze. Dr. Robinson explained that classified personnel are support personnel for the district. Mrs. Bell asked about the special education aides being eliminated and if this means the principals cannot hire anyone until the 20 displaced are placed in other positions. Dr. Robinson again confirmed that the majority of the cuts are being addressed by separations and/or attritions from the District. Mrs. Bell asked if those separated from their positions and not retiring will be placed in other vacant positions, and Dr. Robinson responded that is correct. Mrs. Bell asked if she understands the discussion is not about teachers and Dr. Robinson said that is correct and it is two different divisions.

Mr. Pierson asked for clarification on the ending balance and if takes into account what we saved during the previous year, and Mr. Lee stated the information presented reflects the ending balance, which is the beginning start balance for the coming year. Mr. Pierson asked staff to confirm that we actually ended up last year balancing the budget. Mr. Lee corrected that we did not balance entirely, but the District covered all its expenses last year. He also reminded the Board that the financial audit is presented to the board annually. Mr. Pierson said he believes the majority of the criticism the District receives is how much we spend; and he believes some of the items need to be addressed.

Lillian Priest asked if the District has looked at other districts of comparable size across the country and done a comparison as it relates to being able to right size the district relative to student enrollment and populations. She also asked why do we need to continue to carry positions in the budget that are not filled; and if we implement a hiring freeze, then we truly need to implement a hiring freeze and we do not need to fill positions just because someone says they need it filled. She added that as long as we do so, the Board will continue to go through the same thing every year at budget time. Ms. Priest also said every department should also be held accountable to make sure this happens. Mr. Lee stated that relative to the comparison to other districts, staff has not done so; but staff has looked at the District and what the student population has done over the last nine years and what the District has done relative to staffing and it is opposite directions – student enrollment decreased, but the staffing allotment (number of teachers) increased. Staff can look at other districts of comparable size, and relative to the hiring
freeze, it was instituted and was in effect until recently with the only way any position was filled was if it was done from within the District.

Dr. Dawkins also interjected that at times positions are difficult to fill from within if you do not have a pipeline of employees that are certified for certain positions. He also stated that internally he has experienced working in other districts and Caddo compares favorably with these. While in some cases, Caddo has more than some places, considerable reductions have been made over the past five years. Dr. Dawkins also referenced staff’s proposal to reduce the inventory of buildings and there are savings from some of the reassignments, and sometimes tough decisions are made to separate some employees from the District. In moving forward, he recommended that the Board return to some of these recommendations.

Ms. Trammel referenced Ms. Priest’s comments regarding effective employees making the difference on any job and in order for every employee to get an eight-hour work day and cover all their responsibilities and asked Mr. Woolfolk if we have part-time employees and full-time employees and what can be done to make the employees full part-time. Mr. Lee stated that staff has looked at this and one must work more than 20 hours to get full-time status and benefits. He also noted that bus drivers work four hours a day and are considered full-time with benefits; however there are other employees that work 20 hours and are considered part-time and do not receive benefits. As staff is looking at all the insurance issues, it is also looking at this issue relative to what can and cannot be done. Dr. Dawkins reminded the Board that the 20 hours for bus drivers being full-time, this is State law in Louisiana and is an interesting concept. Ms. Trammel asked if Caddo is cushioning this for part-time employees, what will happen in the northern part of Caddo if the bus services are out-sourced and they are not allowed to receive benefits. Mr. Lee stated he believes that would be something they would require a company to provide information on how they would handle benefits for the employees. Ms. Trammel stated she is not pleased with out-sourcing, and Mr. Lee said the main reason for outsourcing is expenditures (health care, retirement) that are out of control and the best way to financially address it is through outsourcing. Mr. Woolfolk explained that staff is only providing options for the Board to consider and will provide a detailed presentation of the facts so that the Board can decide what is in the best interest of the District.

Mrs. Crawley stated that the audience has not heard how the funds for the 680 students attending Magnolia Charter will be handled and asked that he explain this. Mr. Lee stated that the MFP in Caddo’s budget is reduced by the proposed amount that Magnolia will receive, and the State will send the MFP funds to Caddo and Caddo will forward these to Magnolia. Mrs. Crawley asked if the Human Resources staff be reduced? Dr. Robinson responded that HR is one of the areas regularly targeted and noted that the Certified Department has been decreased by two administrators, a director of Certified Personnel; and the Classified Department has been decreased from three administrators to one administrator, currently has two temps working who will be on the list for termination if these positions are deleted, so in essence, the Human Resources Department is compacted. Mrs. Crawley suggested that no one attend conferences and Dr. Robinson explained that HR administrators go to Vidalia, and Mrs. Crawley stated she is not talking about HR. Mrs. Crawley also asked if department heads are accountable for watching overtime pay and if there are a lot of issues with overtime. Mr. Lee noted that probably the biggest areas for overtime would be bus drivers and the many extra trips they make, and possibly maintenance. Mrs. Crawley asked about the overtime for bus drivers, and Mr. Lee explained it is for athletic trips, and anything outside their normal daily route. Mrs. Crawley asked if we collect fees for it, and Mr. Lee explained the District only charges a small amount for the bus. Mr. Lee reiterated that an attempt has been made to monitor this situation.

Mr. Pierson asked about MFP and those students attending Magnolia from Bossier and Minden, and Board Counsel explained that only Caddo Parish students will be attending Magnolia; and if any are outside Caddo, they will not be able to attend.
Mr. Ramsey summarized that the following items will be referred to committee: (1) possible school consolidations, and (2) possible outsourcing of rural transportation. He also announced that with these two adjustments, it would bring the District to $4.2 million expenditures over revenue, with an approximately undesignated ending fund balance of $17.2 million. He encouraged Board members to continue to call staff to get questions answered. Mr. Ramsey also announced another budget work session will be held on Monday, May 20th, at 3:30 p.m.

Mr. Ramsey asked everyone to remember Mrs. Crawford in their thoughts and prayers as her Mother is critically ill, announced Mr. Hooks is out of town, and he invited everyone to Southern Hills Music in the Park.

There being no additional discussion, the meeting adjourned at approximately 5:45 p.m.
The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 3:30 p.m. on Monday, May 20, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, and Dottie Bell. Also present were Secretary Gerald D. Dawkins and Reginald Abrams. Mr. Ramsey led the prayer and Pledge of Allegiance.

Superintendent Dawkins stated that the meeting today is to continue discussion of the 2013-14 budget. He also assured everyone, relative to the questions on the legality of the budget, that the budget is within the legal guidelines and Mr. Abrams and Mr. Lee will elaborate on this issue. He also stated that relative to reimbursement from the MFP formula and vouchers and the recent court ruling, we do not know at this time how much the District will receive, if it will receive any funds and if so, when we will receive it. Mr. Lee has budgeted conservatively in this regard and the District is waiting to hear and welcome funds for the District. Also, planning time relative to the modified block schedule, Mr. Abrams will address this issue; and staff continues to work on the proposed budget and has found ways to restore some of the instructional specialists which brings the total to nine. Dr. Dawkins also stated that he is continuing to work with Dr. Barzanna White and Dr. Shelia Lockett in moving some positions around and hopefully this action will yield positive results. He also noted that the document before the Board today will continue to be adjusted; however, the numbers are pretty much the same as was presented to the Board in the previous budget work session.

Jim Lee began his presentation by sharing a full budget package to the Board and members of the audience; and responded to questions regarding the legality of the budget and if it was properly advertised. Mr. Lee stated that the law, as he understands it, states the budget must be available for inspection by the public 15 days prior to adoption and it has been available in the Finance Office since April 11th, with all details, for anyone wishing to see it; however, no one asked. He also explained that the law states the budget must be advertised in the Official Journal 10 days prior to the first public hearing on the budget, and to date there has not been a public hearing, but only work sessions, but the public hearing is scheduled for May 21st, and it was advertised on May 10th, which is more than 10 days prior to the first public hearing. Based on this, what they are presenting is a legal budget.

Mr. Abrams addressed the statutes and regulations providing for 45 minutes a day planning time or the weekly equivalent. The planning time was enacted in 1988 at which time the statute stated a committee would be formed to determine how this would happen; and while he does not have the history of what happened in Caddo, Mr. Abrams explained the main proviso in the statute was that it must be funded by the state and designated as funded by the state in order for the planning time to be effective. At this time, Mr. Abrams stated he is unsure if it was included, but the statute requires that a certain amount of money be designated for planning. Mr. Abrams stated that Caddo Parish has 30 minutes of planning time for elementary school teachers, but has never had in policy 45 minutes for middle or high schools; and it is up to the Board whether or not it will provide it if the state does not fund the planning time. He further stated he asked Mr. Lee to verify this and what is required under the statute, and he verified it is not required if there is no funding. Mr. Abrams also addressed the proposal for 90 minutes planning time every two days, and his understanding from the Superintendent that the intent is to continue this practice and over a two-week period, there will be a weekly equivalent of 45 minutes a day. At this time, Mr. Abrams reported that Section G of the CPSB policies is being reviewed and modified and it was decided at the last meeting to also include a planning time for middle and high schools.

Mrs. Bell asked how is mileage reimbursement for employees paid? Mr. Lee explained the employee logs their mileage between CPSB locations, turns it in to the supervisor for approval,
and it is forwarded to Accounts Payable for payment at $.51 a mile. Mrs. Bell noted the total mileage reimbursement of $243,899.10 and the breakdown by departments. She asked if these employees (homebound, counselors, special education, pupil appraisal) are placed in a school, can this expenditure be cut by 50%? Mr. Lee said it would if the employee is full-time and placed in a single school. Relative to the nurses, Mrs. Bell asked about the $929,000 mileage reimbursement, and Mr. Lee explained nurses are assigned numerous schools and frequently need to travel between their assigned schools. Mrs. Bell asked about librarians that travel, because she was looking for Attendance to turn in a lot of mileage; however they have not; and she asked if it is possible to cut this expenditure in half, and Mr. Lee said it is only the General Fund amount.

Mr. Hooks asked staff what jobs are being cut, and Mr. Lee responded that at Central Office there will be four instructional supervisors. Mr. Hooks asked for clarification on which ones will be cut, and Mr. Lee stated he is not aware if Mrs. Turner has made this decision. Mr. Hooks said he does not understand how the Board can cut positions and not know what positions it is cutting. Mr. Hooks also asked if we are still considering cutting 94 jobs in Special Education. Mr. Lee explained positions, not jobs. Mr. Hooks said he cannot see how Caddo can do this without getting in trouble with the State, and he fears we will be in non-compliance and lose money because of certification requirements. Mr. Lee explained that the majority of the proposed changes (45-50 teaching positions, 30 special education paraprofessionals) came as a result of the Special Education Department working with HR and the needs for the next school year. Dr. Lockett explained this is the only area they had to make cuts, and the teaching positions are mainly vacancies (31 since last August); and there are two different budgets (IDEA which is earmarked for Student Support Services and General Fund).

Ms. Trammel asked Dr. Lockett if students are assigned directly to the ISS, and Dr. Lockett responded they are not, but are assigned to Behavior Intervention Specialists and Pupil Appraisal staff conducts counseling and social work services with students. The Instructional Specialists provide support to the school administrators and teachers. Ms. Trammel asked if they are assigned to a specific school and housed in that particular school, would this not make their work load lighter/easier? Dr. Lockett responded it would ease their workload. Ms. Trammel asked if placing them in the schools to work directly with the principal and counselor would have them working under the same umbrella. Dr. Lockett explained if they are placed back in the classroom, they will be evaluated by the school principal; and she understands from the Superintendent that if they do go back into the classroom, their pay will not decrease; and the nine retained will probably be assigned multiple schools. Ms. Trammel asked Mr. Lee about items that we could place on hold or eliminate (common practices i.e. PR2s), and would this help the budget? Mr. Lee responded that if Ms. Trammel is referencing overtime, there are some legitimate PR2s but staff could discuss this further. Ms. Trammel referenced placing a freeze on hiring support staff recommendation and the possibility of also placing a freeze on continuous overtime. Mr. Lee responded that in his opinion it will not impact the budget a great amount.

Mrs. Bell asked Mr. Lee about the number of subs representing the $5.7 million and if subs are paid from the General Fund, and Mr. Lee responded they are. Mrs. Bell said she believes all employees’ attendance needs to be reviewed. Mr. Lee added that one must look at the vacant positions because about 20 routes in transportation are covered by subs every day, which is the same in the long-term sub situations. Mr. Abrams was asked to look at the various policies that impact attendance.

Mr. Hooks asked Dr. Lockett about cutting positions because doing so will hurt Caddo’s students, and they need to be considered first. He stated that instructional specialists do not have an 8 to 5 job because they are required to take work home. If the aides are removed from the classroom, what will happen when IEP conferences are held. Dr. Lockett explained that the 30 General Fund aides were actually over staffed and the Special Education teachers were actually
moved to another school, so when looking at the staffing allotment, there were two classes with two students assigned to a teacher and a paraprofessional, resulting in an overage of personnel. Mr. Hooks asked if we are sure about this and Dr. Lockett responded she is. Mr. Hooks also asked why cut positions if the pay is not being affected? Where is the savings coming from? Mr. Lee explained that if you move an IS (Instructional Specialist) in a classroom, it will replace a classroom teacher that retired and you will not hire someone, but only move the IS into that classroom teacher’s position. Staff cannot reduce that person’s salary, but it can freeze the salary until such time that they catch up on the salary schedule. Mr. Hooks asked about the total, and Mr. Lee responded approximately $70,000 each.

Miss Green asked Dr. Lockett to continue her explanation of the IDEA budget cuts, and Dr. Lockett explained that with the cuts in IDEA, she had to look at the positions funded through IDEA, and General Fund budgeted 14 positions and IDEA 12 positions. Keeping all the positions would cost the District approximately $162,000 for July 1, 2013-June 30, 2014, and will not take care of any of Special Education needs. At this time, she had to look at positions because the bulk of her money is in that account. Mr. Lee agreed with Dr. Lockett relative to the IDEA funds being cut for the coming school year; and based on the new Special Education funding formula in the MFP, the District will not only lose Special Ed funding, but MFP as well.

Ms. Priest referenced the questions and concerns relative to the MFP and vouchers and the State’s decision and asked if the Board will still need to address the staffing in preparation for the 2013-14 school year; because it is important for people to know where their assignments will be. Also with no MFP growth, and even if there is some restoration of positions, does she understand correctly that it will still not be enough to rid us of the $21 million deficit? Mr. Lee responded that is correct; it will not. Ms. Priest also stated that the discussion and comments have basically been about attrition, and asked if the District is planning a lay-off? Mr. Lee said we are not. Ms. Priest asked if the District is planning a RIF? Mr. Lee said we are not. Ms. Priest asked Mr. Lee if he sees any “fat” in the District’s budget, and Mr. Lee stated he would not call it “fat”, but again reiterated his previous comments about decreased enrollments and staffing increases and added programs.

Ms. Priest asked Dr. Lockett, in looking at last week’s budget session where the Board looked at positions being returned to the classroom, what those individuals are doing on a daily basis? Dr. Lockett highlighted these persons’ responsibilities and the importance of these positions. Ms. Priest asked if it is more beneficial to have these individuals on site working with students? Dr. Lockett indicated it will be very beneficial and noted Dr. Dawkins’ comments.

Ms. Priest stated that in looking at Technology (salary, operation, etc.), she would still like to have information on how efficient the system is and if we are utilizing the resources (computers) as beneficially as possible, and asked how many programmers are in the Technology Department? Regarding summer school and the increases, she would like to know if summer school is beneficial. Mrs. Turner responded that staff is planning for a total of 12 days. Ms. Priest said she would like to know what students will receive in summer school that they have not received in the regular school year and reiterated she is about students and questions what is not being done in August through May but is being offered in June. Leisa Edwards explained that this year there were more End of Course (EOC) tests; and the State changed from GEE (last year) to EOC and the district currently has more EOC tests. In addition, and because of the change, there will be more high school students attending in the summer, as well as approximately 57 high school seniors that must take one part of the GEE to be able to graduate in August. Also, the summer fee program (elementary/middle at Turner and high school at Captain Shreve) is self sufficient with the fees paying for the administrators and teachers, and the District is mandated to remediate those students with 13 days of instruction and 3 days testing.
Mr. Riall asked about the General Fund Budget Summary page and the other sources of funds we no longer receive? Mr. Lee stated that in 2010-11 there was a transfer in of the Medicare Retiree Drug Subsidy Program and we received a little over $1 million which the Board earmarked to go into the OPEB Trust Fund (future retiree healthcare fund). In 2011, the Board voted to not move it to the trust fund, but to keep it in operations for that one year. In 2011-12 there were some more transfers in mostly from accounting of early retiree reinsurance program and we had to show it in and then out, an accounting entry. Mr. Riall asked about the expenditures under “other use of funds” that dropped to zero in the projected budget. Mr. Lee explained there was a loan for 10 years to buy 100 buses and this year is the last year on the payment. Mr. Riall asked about the funded 85 vacant teaching positions and the total number of funded positions that are vacant. Mr. Lee responded that the number for certified is a sizeable number, but the classified number is a floating number.

Mrs. Crawley asked for a breakdown of the 107 regular education teachers. Mr. Lee responded if the Board approves the proposed changes in the staffing formula, there would be a savings of 29 teachers at K-1, 9 teachers at 4-5 and 69 teachers at the high school. Mrs. Crawley asked if staff had run the report on the number of teachers that do not have a classroom or give grades? Dr. Robinson added that staff is working on this and is running more than one query. Mrs. Crawley asked for a rationale for keeping 30 Discoveries teachers representing $2.2 million. Dr. Lockett explained that the Discoveries Program originated years ago under Mrs. Gunn and it is not a Special Education function, but one that prepares students who might qualify for the Gifted Program. Mr. Lee explained these are included in the regular education teacher numbers. Mrs. Crawley asked if she is correct that these teachers do not give grades, but pull approximately 10 students from class and work with them; because for her, the best way to teach students would be a staffing ratio of 1:10 for all students. Mrs. Turner stated that for the Gifted Program it was broken down for the 1:10 ratio. Mrs. Crawley stated it is her understanding that Gifted is a requirement of Special Education, and Mrs. Turner responded that is correct. Mrs. Crawley stated she wants to save as many of the 29 K-1 and 9 4th-5th grade teachers as possible. Regarding transportation, she is sorry that she did not know about today’s meeting and she would like to know when all the meetings are held, and she questioned the 33,000 field trips a year. She asked if the committee talked about consolidating some of these requests, as recommended in the internal audit? Mr. Woolfolk responded that staff is looking at this recommendation and how we can combine and still meet the needs of the students. Mrs. Crawley asked if any of these recommendations are reflected in the proposed budget, and Mr. Woolfolk explained that the budget still reflects the 30,000 field trips.

Mr. Pierson asked for clarification on the statement that after consolidation there were instances where a Special Education teacher had an aide and two students. Dr. Lockett explained that does not exist today because the numbers have been modified for next year. Mr. Pierson asked, when putting specialists back in the classroom, who will meet with principals on IEPs, meet with parents, etc. Dr. Lockett explained that in some schools the principals are already meeting with the parents, so principals and IEP teams will pick up some of the load. Also, classes with lead teachers will be paid extra to look at IEPs. Mr. Pierson asked for verification that this past year there was a shortage of specialists and Dr. Lockett confirmed that to be true. Mr. Pierson asked if he understands that last year the District did not have the number of specialists budgeted, so the proposed budget for 13-14 eliminates that number (unfilled positions) from the budget. Dr. Lockett responded that is correct. Mr. Lee responded approximately $300,000, and he further stated that staff left five positions in the General Fund and continues to look at ways to add additional positions back into the budget. While these are not currently listed in the budget, they will be by the 21st, and staff is looking at positions that may overlap and the possibility of eliminating some and restoring four ISS positions back into the budget, bringing the total to 9. Mr. Pierson stated he would rather hire a teacher if there is a vacancy than to remove the ISSs because they can help almost anywhere, anytime. Mr. Lee shared the difficulty in finding Special Education teachers, and in recent years they have had up to 50-60 vacancies.
Mrs. Bell stated that she recently verified that Linear has 146 students, Linwood has 267 students, for a total of 413 and asked Mr. Lee if that is the number being used in the budget to reduce how much Caddo will receive from MFP? Mr. Lee explained that the State tells us what we can do, and the State does not give Caddo the money for Linear and Linwood. Mrs. Bell asked if that is why we hear through media that there are 600 students in the two charter schools, and when do we receive the enrollment numbers from them? Mr. Lee explained we receive the enrollment numbers each time a new MFP count (usually in the Spring) is known. Mrs. Bell stated she believes there should be an agreement as to when Caddo will know the exact number.

Mr. Hooks asked Dr. Dawkins what positions will be cut at Central Office, because he cannot support the budget if he does not know answers to his questions. Dr. Dawkins explained a list of positions was presented at one of the sessions, but the specific ones (instructional supervisors) have yet to be determined. Mr. Hooks asked if he will know before the Board votes on the budget, and Dr. Dawkins stated it will probably not be known for a couple of days; and because all positions are important, some difficult choices will need to be made. Mr. Lee reminded everyone that a budget is a fluid document and it changes throughout the year; and while it has not happened as much the last couple of years, a Board member or staff member can make recommendations to add something to the budget, and upon Board approval, the budget is changed. Mr. Hooks asked Mr. Abrams if we are saying we will not give teachers their planning period? Mr. Abrams explained that his comments were based on the legality and not whether or not teachers would have a planning period; and it is his understanding that what administration submitted was a 90-minute planning period every other day. When he reviewed policy, policy states an elementary teacher has 30 minutes, but the policy has never had anything for middle and high school teachers and is something the Board will enact if it approves a 45-minute planning period every day or 90-minute planning period every other day. The requirement is dependent on if it is funded in the budget. Mr. Hooks said if time is taken away from the teachers, he cannot support this. Mr. Abrams said he understands the proposal is adding time and not taking any away. Mr. Hooks asked Dr. Lockett if she can look at her budget again and determine if she can make some additional adjustments and Dr. Lockett responded that she looked at it very long and hard before she presented it; and she further explained that IDEA was cut to $7.7 million and salaries and benefits total approximately $7.5 million and she must spend at least 15% of the IDEA dollars in early intervention services.

Ms. Trammel asked Dr. Lockett if we send Instructional Specialists back into the schools, can we place them in a position where they will work parallel to what they are doing now? Dr. Lockett explained that these positions can go into the classroom, or they can be placed at schools where the most support is needed. Ms. Trammel asked how many are we talking about, in addition to the nine positions being saved? Dr. Lockett responded approximately 13. Ms. Trammel asked how many schools need extra support, and Dr. Lockett said 24 or 25. Ms. Trammel stated she was approached by a principal losing five teachers and asked how placement is determined? Dr. Lockett explained they look at the number of IEPs, behavior concerns, those on the borderline of staying in CAP, and work with the principals to meet state requirements. Ms. Trammel asked Dr. Robinson how a situation is handled when a principal requests to keep two of the five? Dr. Robinson explained that collaboration between the principal and the school director in assisting HR with placement and advice from legal counsel because state legislative requirements must take place. In reference to Gifted and Discoveries, Ms. Trammel stated she believes most parents are overwhelmed when their children are place in these programs and asked if we look at these programs what the impact would be? Mr. Lee said there are 31 Discoveries teachers, and Dr. Lockett explained that with the Gifted Program, five instructional specialists to serve these students. She also noted that in recent committee meetings the discussion has been on how we can increase the number of students in the schools in these programs and the possibility of opening a center or site for the schools that do not have the programs in place. Ms. Trammel asked about the impact with the public and parents if the Board targets the Gifted Program, and
Dr. Lockett stated she believes it will be a significant impact, because a lot of the Discoveries classes are in the lower performing schools with some of the difficulty being the schools not referring these students to the Gifted Program which is what they are addressing.

Mr. Riall asked for clarification on the number of field trips, and staff responded approximately 30,000 and shared a breakdown of the various type trips outside of regular routes each day, i.e. academic, athletics, special education and Title 1. Mr. Riall asked about the fees charged, and staff responded there is a $30 fee for the use of the bus, and if the trip is longer than approximately three hours, a larger fee may be charged. Mr. Riall asked if what is collected covers the expenditures, and staff responded it does not. Mr. Lee also noted that the $30 fee does not cover the cost of the bus driver either.

Mrs. Crawley asked about the cost for the 14,000 trips and the balance after deducting the fees charged. Mr. Jones shared that athletics run approximately $145,000 annually for salaries alone; and for field trips, the cost is approximately $150,000 a year for salaries. Mr. Jones added that academic field trips are approximately $250,000 for field trips. Mrs. Crawley asked if we have not looked at this information because to her, it seems they should have begun looking at the schedule in February. Mr. Lee referenced the plan is to begin these conversations prior to the Christmas Holidays. Mrs. Crawley stated it was known prior to February of this year that the District was facing this type of deficit. Mrs. Crawley asked where the modified block idea came from, and Dr. Dawkins explained that it came from discussion on the various options. Mrs. Crawley asked if modified block was weighed against seven period day and did modified block poll higher than 7 period, because that is not the feedback she is getting. Mrs. Crawley also referenced the number of Central Office employees compared to the number of clerks, and if that is an area that can be reduced. Mr. Lee responded he would need to get input from the directors and shared the example of Human Resources with five administrators and 19 clerical; but that clerical number is not just secretaries, but retirement specialists, sub teacher clerical, attendance, etc. Mrs. Crawley stated that she does not see any cuts in the Attendance Department and would like for them to revisit and see what cuts/consolidations can be made. Mrs. Moore explained that with Caddo’s student population there must be a certain number of attendance supervisors per every 750 students, and the department has lost one supervisor that is not listed but will not be filled. Mrs. Crawley said she would like to restore the 38 teachers that would be eliminated as a result of changing the staffing formula, and 31 from Discoveries, $100,000 for conference travel, and asked if it is possible to cut sick days by two days and follow the State law. Mr. Abrams stated he will verify because he believes the District is following State law.

Ms. Trammel stated it is mind boggling to her because once upon a time a clerical employee worked for a director and supervisors without any computers and was able to get the job done. She said now there are more employees than before and there always seems to be a problem in being able to get the job done. Mr. Lee said there are current situations in the instructional area where numerous supervisors share a secretary, and the same is true in the Attendance Department. Referencing overtime, Ms. Trammel asked if the District has come to the crossroads where employees are reminded that their work day is from 8:00 to 4:30 and if employees work effectively during those hours, the job can get done.

Ms. Priest referenced the comments about PR2s and asked if there are multiple secretaries/clerks in an office and one is out of the office, is it true that the others are filling out PR2s for filling in and doing the absent person’s job duties? Mr. Lee said that is not correct; but if someone is asked to stay late to take care of an absent employee’s responsibilities, and she is over 40 hours, then a PR2 is probably turned in. Ms. Priest asked that staff follow up and make sure this is not occurring. Ms. Priest also asked about a cost estimate on what absenteeism is costing the District in a year. Staff responded approximately $5 million. Mr. Lee said a little could be added to this amount because of Medicare. Ms. Priest stated there is a need to address the fact that she wants people to have jobs, but we are not obligated to provide jobs for people who don’t come to work,
but we are obligated to provide an education to children and this loophole needs to be corrected. Dr. Dawkins agreed and there is a long-time policy that needs to be addressed because a doctor’s excuse is not required until an employee is out for six days, and most places it is three days. Ms. Priest stated she also believes health care and retirement are the big elephant in the room, and rather than continuing to kick the can down the road, and in the real world what is happening in Caddo (enrollment decreasing and employees increasing) does not happen elsewhere. When dealing with healthcare and retirement and the increases, why would we continue to increase the number of positions in the district? Mr. Lee responded that it puts the District in a real financial disadvantage. Ms. Priest stated that as a board member, she will make a decision that is financially prudent and will keep the system solvent and be able to operate and provide a quality education for all Caddo children.

Mr. Pierson asked what is the overage in hired personnel? Mr. Lee explained that a lot of it is in programs implemented (block schedule), hard numbers in K-1 two years ago. Dr. Robinson reported that Human Resources runs an over/under report on a regular basis which allows her department to identify overage and assign a certain number of contingency positions. Mr. Pierson noted that many years ago, students got out at 2:15 and could walk home in the daylight; however, it is different today and is what precipitated taking children home.

Mr. Hooks asked Dr. Lockett how can we eliminate positions but pay lead teachers extra? Dr. Lockett explained that lead teachers will be regular classroom teachers with their time on the clock will be reduced so their salary will be frozen at their 10-month salary.

Mrs. Bell asked Mr. Lee if he said there will be no layoffs, and Mr. Lee stated layoffs have not been discussed. Mrs. Bell asked if she understands that in the reduction of positions, i.e. instructional specialists, supervisors, those who are certified will return to the classroom or where the principals need them without a reduction in salary. Mr. Lee responded that is correct, and Mrs. Bell reminded everyone that this option will be addressed through attrition, and it is possible that some of the 31 Discoveries teachers will be reduced as a result of attrition. She added she is about employees keeping a job and she hopes the instructional specialists and supervisors, et.al. will be able to help the principals and improve the test scores.

Mr. Ramsey recapped the budget meeting, noting that the budget is always a working document and the current proposal being brought tomorrow involves overspending of approximately $4.2 million. He added that staff continues to work on adjustments with instructional specialists vs. teachers and these changes will have little or no impact on the budget as it is proposed now. Side bar issues that will continue to be studied in committee are health care costs, retirement, sick days and attendance issues. If resolution is reached, he announced it will be presented to the Board with a recommendation for the Board’s action.

There being no additional discussion, the meeting was adjourned at 5:30 p.m.
The Caddo Parish School Board (CPSB) Transportation Committee met at approximately 10:00 a.m. on Monday, May 20, 2013, in the boardroom, 1961 Midway Street, Shreveport, Louisiana. Committee members present were Mary Trammel, Chair; Steve Riall, Dottie Bell and ex-officio member Larry Ramsey. Jasmine Green and Ginger Armstrong were absent. Others in attendance were James Woolfolk, Otis Jones, Jackie Lansdale, Red River United; Scott Hughes, Alliance for Education; and numerous CPSB bus drivers. Mr. Riall led the prayer.

Chair Mary Trammel shared the purpose of the meeting and asked Otis Jones, director of transportation, to address the recommendations from the audit of the Transportation Department. Mr. Jones stated that upon completion of the audit, 42 recommendations were submitted to the Board and to date, 37 have been completed. The items yet to be completed are in process for completion or staff is looking at the feasibility and cost effectiveness of implementation. Mr. Woolfolk stated that realizing that the information presented is a lot of information, if the committee wishes time to review, staff is available to meet again at the Committee’s convenience and pleasure.

**Maintenance Update.** Staff reported there are currently 15 buses not running due to the engines and staff is looking at these sparingly to determine if they should be replaced at a cost of $10,000. Mr. Jones added that the bus’s age and the replacement plan are very important because the State of Louisiana requires that a bus be removed from operation after 25 years. He explained that staff has developed a chart of all the buses that includes the number of years each has been in service and the number of buses the District will need to replace in the next 3-4 years. Mr. Woolfolk pointed out that between 1999-2011 the District did nothing other than purchasing 98 buses in 2004 which means that these 98 buses will all become obsolete at the same time. Relative to the cost for replacing buses, Mr. Jones stated that a new regular education bus costs approximately $90,000, and a special needs bus about $103,000. Old buses are auctioned or salvaged with approximately 500,000 miles on them, and most have a second engine. Staff also reported that the first air conditioned bus was purchased in 2002 and today approximately ½ of the 280 buses are air conditioned.

**Procedures for Addressing Concerns/Complaints/Requests.** Mr. Woolfolk reported that staff continues to look at the list of issues/concerns and how to make the Transportation Department better. Discussion pursued on the fact that there are approximately 33,000 field trips annually, possibility of purchasing a couple of coach type buses for trips further than three hours, cameras on all buses (currently at cameras on 50% of buses), late buses, fleet efficiencies, difficulty in finding enough people who want to drive buses, recruitment efforts (job fairs), students’ behavior on buses, security on buses, work load at start of school, etc. Mr. Woolfolk also announced that staff is recommending for the coming year’s budget at least five buses and cameras for the remainder of the fleet.

**Outsourcing.** Mr. Woolfolk reported that last year information was received from one of the largest outsource busing companies in the United States. When meeting with representatives of this company last year, discussions were held regarding the possibility and options if the District wished to pursue outsourcing transportation, and the idea of piloting the program in the northern section of the parish. At this time staff continues to look at additional options and no recommendation has been made because staff has not completed its work of looking at viable options that could be presented to the Board for possible consideration. If the Board wishes to move forward, Mr. Woolfolk reported staff can get back with the company for an update on the possible cost savings to the District. It was agreed that the Committee would recommend to the Board that this particular item be removed from the budget. Mr. Ramsey verified that at this time it is not a part of the 13-14 budget because it was referred to committee for review. At this time members of the audience shared their concerns and the committee confirmed that at this
time this is not something in the budget and the committee is not ready to make a recommendation. It was also noted that outsourcing will cut pay and benefits for drivers. Mrs. Lansdale expressed her appreciation for including the bus drivers in these discussions.

**Policy Review Issues.** Ms. Trammel referred to Mr. Woolfolk to explain the policy for sick days, requirements for a doctor’s excuse, record of absences, the number of drivers that have exceeded their 12 allotted sick days, as well as a recent issue when drivers for 54 routes were absent the afternoon before a holiday and the extreme hardship it created. Discussion ensued on possible revisions to the sick day policy to hopefully eliminate such problems in the future, and it was agreed that these policies should be referred to the policy review committee. Mr. Jones also added that at this time, the department is running a 95.9% on-time delivery, and the department is preparing for the coming school year to (1) have enough drivers to fill all routes, (2) have ample subs, and (3) improve attendance.

In summary, results of today’s meeting were (1) the need for buses and the need to bring forward a timeline for replacing buses; (2) sick day policies will be referred to the policy review committee, and (3) look at absences. Staff will prepare the requested information in time for the next scheduled meeting.

**Next Meeting.** Ms. Trammel announced that the next meeting will be June 4th at 2:30 p.m.

There being no additional discussion, the meeting adjourned at 11:00 a.m.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, May 21, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Ms. Trammel led the prayer and Pledge of Allegiance.

Mary Trammel moved, seconded by Jasmine Green, approval of the minutes of the April 9, 2013, April 11, 2013, April 16, 2013, April 18, 2013, April 23, 2013, April 30, 2013, May 1, 2013 and May 7, 2013 CPSB meetings as submitted in the mailout. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Superintendent Dawkins announced that because of the threat of severe weather, the recognitions are moved to the June 4th meeting. Dr. Dawkins also announced that all night activities and night classes have been cancelled because of the impending serious weather.

Board member Green recognized the following from Green Oaks High School: (1) Green and Gold Foundation for their support of the athletes; (2) Class of 1976 for their contribution of toys to the less fortunate children at Pine Grove and Northside Elementary Schools; (3) Green Oaks Alumni for donating scholarships; and (4) Dr. Larry Pannell, band director of Grambling State University marching band, assisted in recognizing Bobby Murff who started the band program at Green Oaks High School, with a community service award.

PUBLIC HEARING FOR RENAMING SOUTHWOOD HIGH SCHOOL GYMNASIUM

President Ramsey declared the public hearing open for any speakers wishing to address the renaming of the Southwood High School gymnasium for Coach Steve McDowell. There being no speakers, the public hearing was closed.

PUBLIC HEARING ON THE 2013-14 CONSOLIDATED BUDGET

Superintendent Dawkins announced that the public hearing on the 2013-14 consolidated budget is pulled, as is the agenda item on the 2013-14 consolidated budget, and will be rescheduled.

President Ramsey announced that those planning to address this item can still address the Board during the Visitors’ Section on the Consolidated Budget.

VISITORS

Bert Allgood addressed the Board on the proposal to cut the teachers Materials and Supplies fund and what these funds are used for, i.e. printer cartridges. He encouraged the Board to consider cutting the amount in half rather than eliminating it.

April Carberry addressed the Board on the proposal to modify the block schedule and the teachers’ planning period, because according to Bulletin 741, no teacher at the secondary level...
shall instruct more that 750 student hours per week, and that at this time she is teaching approximately 685 hours and adding one more class will mean 820 contact hours per week with students which means additional time for grading tests, research papers, etc. She stated if we want World Class Students, it is important and necessary to give teachers time to plan. She also expressed her support of not cutting enrichment classes in elementary school.

Scott Hughes, Alliance for Education, expressed appreciation to the Board for how it responded to the storm and decisions to protect the children and for postponing the budget vote today. Knowing that this is one of the most important responsibilities of the Board, he appreciates the Board’s willingness to postpone the vote on this item since a budget does not have to be submitted to the State until September. Relative to the budget, he stated he has enjoyed the budget meetings; however, it is his belief that the Board will continue to kick the can down the road one more year, and encouraged the Board to use this year as a transitional year and in going into next year to ask two questions, (1) what does the District do well?, and do more of it and invest in those things; and (2) what does the District do poorly?, and how can this be eliminated or changed. Mr. Hughes said there should be two lists and as the board moves forward (particularly in the committee structure which he commends the Board for implementing), discuss these things. He asked the Board to consider what its priorities might be and fund those first.

Jasmine Green, as a point of personal privilege, recognized Councilwoman Rose McCulloch in the audience.

Jon Glover, addressed the Board on the budget and how complex the dialogue was at Monday’s budget work session. She said there were many questions posed, but very few answers given. She said she believes there was a display of arrogance and an attitude of “I dare you to ask such…” when questions/information were unclear. Ms. Glover stated she has always realized the possibility that her job could become a pawn in this equation because she regularly shares with the Board issues that not only plague her but should be of interest to the Board. She believes she should be able to address the Board on issues without fear of retaliation and that the Board has been elected to oversee the educational needs of every child in Caddo Parish; and shared her concern that the Board is considering increasing the pupil teacher ratio which will not only be a detriment to the students who are at-risk, but also students in over-crowded classrooms. Ms. Glover reminded everyone that devastation is on the horizon, and if it is not contained, it will be destructive. She believes that Caddo Parish has lost sight on the importance of insuring that every student receives a fair and equitable education; and she encouraged the Board to work to insure that the resources needed are available. Casting a vote today for the proposed budget is not the answer and the budget should only be voted on when the Board has clarity on all issues in question. Ms. Glover encouraged Board members to listen to the District’s employees.

Jackie Lansdale, president of Red River United, stated that it has been a grueling year in Caddo Parish beginning with being locked out of the Capitol when attempting to have their concerns heard and as a result, being forced to file a lawsuit that Caddo did not participate in. Providing an equitable and quality public education for every child in Caddo, helping the Board to secure the renewal of three tax millages, standing to overcome the Board’s unwillingness/ refusal to consider other funding are promises they have made, but they do not understand why the Board refuses to consider other funding mechanisms. She stated she believes they are once again facing a haphazard and piece mill budget, one in which the Board did not seek input from the employees, parents and or the community; and now the process is being rushed in order to accommodate personal vacation schedules. Mrs. Lansdale stated she believes the proposed calendar attempts to add extra classes with no planning every other day when State Law clearly defines a planning period; and how items such as duty-fee lunch, defined planning, and supply money have set Caddo apart from other districts. She noted that they were not asked for input, they saw little to no supporting documentation on the actual budget until the 11th hour, and even
though they requested meetings with top administration, it was unfortunate that the administration was not sincere in resolving budget issues. Examples of workable schedules were presented and they were poised to bring to the meeting hybrid block schedules allowing for maximum academic time and providing for planning each day, but she believes despite their willingness to work with administration, administration was disingenuous in meeting and resolving issues, and that the Board’s sole objective is to balance the budget on the backs of the teachers and school employees. She encouraged the Board to reconsider voting on the budget until it has all the facts and figures.

Eppie Adams, Caddo District PTA, expressed appreciation to the Board for streaming live and archiving its work sessions and meetings to allow her the opportunity to stay up to date when she is unable to attend the meetings. Regarding the 2013-14 budget, she stated her comments will be different because she recognizes that difficult decisions can and will be made. Ms. Adams stated that her purpose for addressing the Board is to offer outside of the box solutions, i.e. (1) in representing the Caddo District PTA (comprised of approximately 11,000 members), she stated that volunteers are one of the District’s greatest resources yet they are rarely tapped for anything other than fundraising and field day activities; (2) the National PTA offers several volunteer-based programs that potentially have the ability to augment or fill the void of reduced or eliminated programs (i.e. programs that address poverty, drop-out rates, healthcare, healthy living initiatives, grant programs, etc.). Ms. Adams noted that the Parent Teacher Association offers a strategic partnership in seeking nationally recognized, proven solutions to real world issues that the Caddo Parish School System faces (including the 2013-14 budget). She encouraged the Board to consider working with the Caddo District PTA to pilot some of the programs they offer in the District and see if they can be solutions for the upcoming school year.

Georgia Head, teacher at Byrd High School, stated that for 17 years she has taught the same subject, and she shared the many things teachers do during the planning periods; and that if they lose their planning period, their work schedule will be affected. She encouraged the Board to listen to what teachers are saying, because if they give up their planning period and take another class, she does not feel she can physically handle another 34 students and all that comes with it.

Bert Allgood, high school teacher, addressed the Board on the modified block schedule and urged the Board to vote against it. He shared with the Board that is wishes the Board members will ask themselves if this move is good for the parents, because he can tell everyone it is not. He said it will reduce the creativity and the active instruction received on a daily basis. Currently teaching four different classes, he shared the importance of the planning period in his daily schedule to complete many of the activities responsibilities required of him to make him a successful teacher; and he offered suggestions for the Board to consider when considering reductions in the budget.

Brian Salvatore echoed Mr. Hughes comments to put off the budget as he believes it is currently unsatisfactory and needs some additional work. He stated he believes the District needs to do away with the block schedule and not go to a modified block schedule, because he believes it is detrimental to students and A/B Block is the worse. As a college professor, he stated he has not seen an increase in the analytical ability, the mathematical skills, and scientific analysis of the students that have come through the Caddo Public School System in the last five years. As a pro-active Board, he believes the Board could involve the community more, listen to the teachers more and don’t balance the budget on the teachers’ back, and reach out more to the Schools of Education in the city and ask them for graduates that are needed. He stressed the importance of encouraging, motivating, supporting new young teachers so they will love the profession, love the children and love their jobs.

Diane Long, instructional specialist, has worked for Caddo for 26 years, 13 years at Walnut Hill as a teacher, and shared with everyone the responsibilities of her position since a Behavior
Corrective Action Plan was put into place as a result of the State identifying too many students in Caddo with the exceptionality of emotional disturbance in self-contained settings. She also shared her fears that if the instructional specialists are cut, the District could go back into Corrective Action. Ms. Long encouraged the Board to look very closely to see if cuts can be made elsewhere.

Sesami Teague, instructional specialist, referenced the proposal that all instructional specialists be returned to the classroom because they are certified teachers. She said other departments also have certified teachers that hold other positions. She encouraged the Board to look at cuts across the board and not in just one department.

Daryl Roberson, Caddo Association of Educators, expressed his appreciation to the Board for putting off the vote on the budget because questions, questions, and more questions!

Richarda Armstrong-Scott, concerned parent and member of the PTSA, shared with the Board her concerns regarding the recommendations for budget cuts and she encouraged the Board to please listen to the teachers, and to consider the Ombudsman Program and if it is effective.

Lisa Johnson addressed the budget and the proposed classroom size and her concern that classes are already overcrowded making it very stressful. With the 4th grade being an extremely important one, a teacher cannot be as effective as she needs to be when she has a class of 31 students. She also explained that students deficient in Core areas, with behavior problems, and/or students who need some additional one on one instruction are lacking because the small group concept is still too large and activities difficult to execute and effectively monitor. She asked the Board to not increase classroom numbers.

Serika Robinson-Henderson, Youth College International, a Performing Arts School, stated that they are excited to be a part of the community and already have partnerships with the City of Shreveport and offer music sessions at Princess Park. Additional partnerships include SPAR, SRAC, City of Bossier and LSU-Shreveport. Today, she said she desires to make everyone aware of this program and what it has to offer and highlighted some of the activities available. Miss Green asked staff to follow up on this program.

Glen Miles, bus driver, stated his concern about his bus driving job; because there used to be over 500 buses and five positions in the office, and he doesn’t know how many people are in the office today, and you may or may not get your check. In addressing late buses, Mr. Miles stated that he has only been broken down one time. He asked why an assistant needs an assistant? He also questioned why the Vivian bus barn is being targeted, because it is an effective operation in the northern part of the parish. He also asked how a District that is broke, and doesn’t have any money, can hire an agency to find a new superintendent?

Tony McCarty offered the following suggestions for addressing the budget deficit: consider going to a four-day work week which eliminates 20% of the cost in transportation, (extends the life of the bus, etc.; reduces utilities and cost of maintenance). He also noted the difficulty of having substitute drivers and stated that the drivers that are located North of I220 would have been happier had they not read about this in the newspaper. Mr. McCarty shared that bus drivers take care of Caddo students everyday and they take pride in doing so.

Carol Pabst addressed the Board on the teacher planning period and the typical things teachers take care of during a planning period, and highlighted a typical day in her life as a teacher. Knowing the responsibilities she currently has as a teacher, she stated if the Board approves a new schedule without a daily planning period, she believes grades will not be put into WebPams as timely, then parents will call administrators to complain, and more students will fail, which
will be the teacher’s fault (because everything bad that happens in the school is the teacher’s fault). She asked the Board how long it expects the teachers to continue this?

Robin White, founder of Women of the Round Table, shared her concern about the children’s academic performance, particularly mathematics, and that as she stands before the Board, she understands the respect as well as the performance of proposing solutions as well. She said her proposal, often referred to as KAHN Academy, which is a data base of free videos that make subjects like mathematics fun. This program was piloted in a school in California and Grades 5 and 7 have heavily supplemented their current methods with the KAHN Academy curriculum since 2011. She also shared that students love the program because it supports individual learning styles and any student can work at any level of difficulty they want with an extremely personalized result. She shared input and experiences from teachers that have used this program and encouraged the Board to analyze this program to see if the Kahn Academy program can benefit to Caddo’s students.

Kathy Garner noted her experience with the Kahn Academy and how wonderful the program is, and it is free through the Internet, and is a program their 8th graders are currently using. Ms. Garner stated that she taught 20 years and lives in North Caddo Parish; and she appreciates the fact that buses were available to pick up her children and bring them home when she was working. She questioned the possibility of outsourcing North Caddo Parish transportation and if it is that much more expensive to run these buses as it is to run those in the city; because if so, she believes the District needs to look at outsourcing the remaining District buses, as well as payroll, personnel, etc. She encouraged the Board to not make cuts/changes that will affect the students.

Kristy Cantor addressed the Board on the budget and that if we are addressing a deficit budget, the Board should not be spending money to look for a new superintendent when there are qualified people in Caddo Parish that know our students and our community. She also noted a typical planning period for her as a teacher and the work she also does at home without compensation. If the Board increases the class sizes and cuts into the teachers’ planning time, it will see scores go down.

Jim Jackson asked why the Board is thinking about outsourcing buses in northern Caddo Parish, because contractors only look at numbers, but the ones that operate the school buses now know the children and love them. What class of people will be attracted to operate these buses when they will not be eligible for benefits? He said he understands the need to cut the budget, but when doing so you don’t cut the strongest part from the budget (transportation of our children). He encouraged the Board to look closely at the budget and other areas of waste that can be eliminated, i.e. staff cars.

Erin Statham, kindergarten teacher, addressed the Board on the effects of raising the class size for Kindergarten and 1st grade, and the importance of laying a solid foundation at this young age. She encouraged the board not to increase the class size.

Theresa Arkansas stated she is aware of the trying times we are now experiencing and questions whether or not the Board is in collaboration with the Governor and the State Superintendent. She shared her concern that no one wants to listen and they only want to be heard on important education matters. She encouraged the Board to slow down, listen and do the correct thing.

Cleve Arkansas, teacher, stated that last year was a trying one because of the fight fought; however, it proved to be the right one since the Louisiana Supreme Court has ruled vouchers are unconstitutional, Act 1 was struck down and is being re-evaluated, the Legislature sent the budget back, and he questions why the Board is rushing to approve a budget when it does not know the full impact from Baton Rouge. He noted the three Rs – Rights, Responsibility and
Respect; and how the Red River United has provided support to the local School Board by supporting the recent bond issue and many other issues. He said it is their goal to make sure that Caddo’s schools are high performing, all students successful and all students and employees are respected, and that students will not be successful if teachers are not allow to have a time to plan.

Clifton Starks, Central Trades and Labor Council (AFL-CIO), stated that part of their mission is to support and promote programs for Caddo and Bossier Parishes and they recently supported the tax renewal. He also stated his support of all the speakers and what they were saying because there is no way you can increase class sizes, especially in Kindergarten through 5th grade, because of the learning mode they are in and the need for fewer students in the class in order to learn what they need and disciplined which takes more at that young age. He encouraged the Board to not make decisions on the budget that will punish the children. He asked the Board to remember its slogan “Creating World Class Schools for World Class Students.” Mr. Starks expressed the importance of the support personnel because we rely on them for the students. He understands the need for a budget, but questioned why there was not a longer planning period for the budget. He also shared with the Board that its 12/12 Vision is very good and asked the Board to continue to move in this direction.

Kathy Parish, 27 year teacher in Caddo Parish, stated her belief that there is a conspiracy in Baton Rouge to destroy the public school system in Louisiana; but no matter what, she doesn’t believe anything can replace the human touch in the classroom. She encouraged the Board when making decisions about the budget to be very careful and make wise decisions that will not directly affect the students (and cutting teachers, cutting planning periods, cutting aides, secretaries, school nurses, bus drivers, technology technicians do affect the students). Doing so will affect students’ test scores. Ms. Parish also asked the Board to not cut the M&S money.

Shannon Sullivan read a statement from Ryan Williams urging the Board to carefully consider the decisions it will make relative to the budget and how it will affect the students.

Judith Jackson, bus driver, shared with the Board her experience in driving a special needs bus and that she believes if contract labor is used, this is not in the best interest and welfare for these students. She encouraged the Board to carefully and seriously consider this decision before voting on it and keeping the children number one in all decisions.

At approximately 6:23 p.m., President Ramsey called for a recess. The Board reconvened in open session at approximately 6:32 p.m.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA

The superintendent highlighted items for the Board’s consideration. President Ramsey recommended the following items as the consent agenda: 6.02, 7.01-7.02, 8.01, 8.05-8.08, 8.10, 8.12-8.15. Ms. Priest moved, seconded by Ms. Bell, to establish the agenda and proposed consent agenda. Vote on the motion carried with Board members Crawford, Rachal and Armstrong absent for the vote. The following is a summary of the Board’s action on the Consent Agenda items.

**Item No. 6**

**6.02 Personnel Transactions Reports – Certified and Classified.** The board approved the personnel transactions reports for the period of March 22, 2013-April 18, 2013 as recommended by staff and submitted in the mailout. A copy is filed in the official papers of the May 21, 2013 CPSB meeting.
7.01 Bids – Purchasing. The board approved the following bids as recommended by staff and submitted to the board on the bid tabulation sheets: (1) Area Wholesale Tire Co., LLC, totaling $212.25 for recapping truck tires; (2) Lott Oil Company, totaling $7.22 per gallon for the purchase of engine oil; (3) Smitty’s Supply, Inc., totaling $5.81 per gallon for the purchase of antifreeze; (4) MB Supplies, Inc., totaling $1,161.51 for the purchase of printer supplies for all schools; (5) Argus Fire & Safety, LLC, totaling $19,400 for the purchase of Fire Alarm Systems Inspection; (6) C.F. Biggs Co., Inc., totaling $1,268 for the purchase of M&S Digital Duplicator Supplies; (7) Gaylord Bros., Inc., totaling discount percentage of 20% for the purchase of Library Furniture, Supplies & Video-Catalogs; (8) Follett Library Resources, totaling $80,700 for the purchase of Library Books; (9) Kincade Recreation, totaling $25,135 for the purchase of Playground Equipment; and (10) Complete Collision Equipment, totaling $35,394.30 for the purchase of Automotive Frame Rack for Caddo Career & Technology Center. A copy of the bid tabulation sheets is attached and made a part of the permanent file for the May 21, 2013 CPSB meeting.

7.02 Bids – Capital Projects/Construction. The board approved the following bids as recommended by staff and submitted to the board on the bid tabulation sheets: (1) Spectrum Painting, with a Base Bid, for the sum total of $120,007 for Project 2013-211, “Woodlawn Cover Concrete Pad”; (2) KAN Contracting, with a Base Bid, for the sum total of $133,500 for Project 2014-203, “Title IX Compliance at Green Oaks”; (3) Bowman Grading & Asphalt, Inc., with a Base Bid and Alternate 1 for the sum total of $215,061 for Project 2014-211, “Summer Grove Paving Improvements”; (4) Camus Electric Co., Inc. with a Base Bid, Alternates 1, 2 and 3, for the sum total of $674,630 for Project 2014-401, “Huntington Lighting Retrofit”; (5) ELA Group, with a Base Bid and Alternate 1, for the sum total of $211,330 for Project 2014-212, “Captain Shreve Basketball & Tennis Court”; (6) Thomas Construction, with a Base Bid, for the sum total of $195,000 for Project 2014-210, “Pine Grove Paving”; (7) Rimmer Electric, with a Base Bid and Alternate 1, for the sum total of $180,200 for Project 2014-402, “Keithville Lighting Retrofit”; (8) HMR Electrical Contracting, with a Base Bid, for the sum total of $468,000 for Project 2013-Q505, “QSCB2 Data Wiring & Security at Fair Park, Woodlawn, Booker T. Washington, Green Oaks, Huntington”; (9) Douglas Construction & Remodeling, with a Base Bid and Alternate 1, for the sum total of $336,819 for Project 2014-208, “Broadmoor Paving”; and (10) Terry’s Roofing & Sheet Metal, with Base Bid and Alternate 1, for the sum total of $487,000 for Project 2014-205, “Woodlawn Roofing”. A copy of the bid tabulation sheets is attached and made a part of the permanent file for the May 21, 2013 CPSB meeting.

8.01 Pupil Progression Plan. Move to approve the Parental Review Committee for the 2013-2014 Pupil Progression Plan as submitted in the mailout. The members of the Parental Review Committee are: Angela Tappe, District 1; Gregory Young, District 2; Kierston Bell, District 3; Renae Harris, District 4; Karen Bell, District 5; Shelia Brown, District 6; Casandra Callaway, District 7; Martin Poole, District 8; Jon Flair, District 9; Sharon Ketchum, District 10; Darryl Bailes, District 11; Betty Elias, District 12.

8.05 Group Cancer Plan. The board approved the premium adjustment effective August 1, 2013 for the group cancer insurance plan as recommended by staff and submitted in the mailout.

8.06 Requests for Use of Facilities. The board approved requests for use of Caddo facilities as recommended by staff and submitted in the mailout.

8.07 Sales and Use Tax Commission 2013-14 Budgets. The board approved the 2013-14 Operating and Capital Outlay budgets for the Caddo-Shreveport Sales and Use Tax Commission as submitted in the mailout.
8.08 Adoption of the Millage Rates for 2013. The board adopted the resolution approving the 2013 millage rates as recommended by staff and submitted in the mailout. A copy of the resolution is filed in the official record of the May 21, 2013 CPSB meeting.

8.10 Out of State Travel. The board approved the requests for out of state travel funded from the General Fund as recommended by staff and submitted in the mailout.

8.12 CPSB Student ID Badge Committee Recommendation. The board approved the ID Badge Committee’s recommendation to set up and maintain a centralized printing station for ID badges as submitted in the mailout.

8.13 Recommendation from Audit Committee on Accounts Payable Department Internal Audit. The board approved the CPSB Audit Committee’s recommendation to accept the internal audit of the Accounts Payable Department and to implement the recommendations of the internal auditor with a follow up review of those recommendations within 120 days.

8.14 Battle of the Border High School Football Showcase. The board approved the resolution authorizing C. E. Byrd High School to enter into the contract for participation in the “Battle of the Border High School Football Showcase” on September 13th and 14th and hosted by the City of Shreveport at Independence Stadium as recommended by staff and submitted in the mailout.

8.15 Revision to CPSB Policy IDDF. The board approved the proposed revisions to CPSB Policy IDDF “Seclusion and Restraint Policy” as recommended by legal counsel and submitted in the mailout.

WEST SHREVEPORT CONVERSION TO STUDENT SERVICE CENTER

Mrs. Crawley moved, seconded by Mr. Hooks, to postpone until an appropriate committee is appointed assigned by the President the duty of reviewing all possible locations, even considering future school closings, and plan to bring back in March 2014.

Mrs. Crawley stated her agreement of the concept to sell Building 6 and move to a school location, but her disagreement because of some of the construction needs required to make this happen, as well as the parking when it will be necessary to transport persons to the building. Mr. White explained that the need to put filing cabinets on the 2nd floor is correct, but the plan always was to put the files on the ground floor level. He further explained staff is looking at parking for an additional 130 plus parking spaces, and the parking off-site is for CPSB employees when additional parents will need to visit the facility (timeframe of approximately 10 days). Mrs. Crawley asked if consideration was given to all sites including other school sites that may close. Mr. White said he is not aware of any additional anticipated closures, and based on staff’s analysis, this is the only facility (approximately 5800 square feet, handicap accessible, on-site elevator) that best suits the needs of those campuses currently vacant and available. Mrs. Crawley asked if consideration was given to all sites including other school sites that may close. Mr. White said this was done long before the formation of the committee. Mrs. Crawley said she knows it was put before the board approximately 2 months ago, and Dr. Dawkins noted that this information was put before the board approximately 8 months ago. Mrs. Crawley said she doesn’t remember having a site that long for consideration, and she likes the idea implemented by President Ramsey to place all the information before the Committee before the Board votes on it.

Mr. Hooks noted his concern that the Board is talking about spending money it does not have. Knowing that there is a wait for everything to sell, he asked how long did it take to sell Laurel Street? Mr. White said it took approximately 8 months from the time staff began the bid process. Mr. Hooks stated he doesn’t have a problem with what is being recommended, but he does have a question about the amount of money being spent for renovations. Mr. White stated staff
believes it did an adequate job in determining the budget in order to bring the proposal to the Board for consideration. Mr. Hooks asked what will happen if it does not sell, because when you spend $2,650,000, he believes it should be reconsidered. Mr. White explained the purpose to create a one-stop shop for parents with everything in one place. Mr. Hooks stated that when J. S. Clark was renovated and the Board approved a certain amount of money, did staff come back to the Board and ask for additional monies to complete the project? Mr. White responded staff never came back to ask for additional monies. An additional project was added for safety reasons to separate the cars from the buses, which is what staff is attempting to do on any campus possible because a single loop creates safety concerns, but staff stayed within the ballpark amount presented to the Board. Mr. Hooks asked if $2,600,000 is an “exact” or a “more or less”, and Mr. White responded it is an opinion of probable cause and not a hard bid from a contractor because at this time there are no plans, specifications, or contractor to price the project.

Ms. Priest moved, seconded by Mr. Pierson, to convert West Shreveport from an elementary school to a student service center which will house Special Education, Special Services, Homeless, and Attendance as recommended. Ms. Priest said for many years the Board has discussed Building 6, its location and options. She noted staff made a detailed presentation and the Board was allowed the opportunity to ask questions about the plan and configuration of renovations to West Shreveport and she believes it will accommodate the personnel to be housed in one location and better accommodate the parents and students. Ms. Priest said she believes this is a worthwhile utilization of Caddo’s capital projects fund and is something that will better serve the students in the heart of the community. Mr. Pierson noted this comes out of capital projects and not General Fund; and when the presentation was made, no one had anything additional to say following questions, and this is a better way to provide a one-stop for parents. Based on that, he questions why we are now wanting to question this opportunity to better serve parents and students as well as make use of one of the vacated buildings.

Mr. Riall asked if we have an appraisal on Building 6 and Mr. White stated we have received an appraisal and it is approximately $2.6 million and discussion was held on if we repaired the parking lot, the District could look at adding $3-$5 a square foot and staff is looking at what those costs will be and if it is in our favor to make these corrections.

Ms. Trammel encouraged Board members if they have ever been at Central Office during the opening of school when the Board Room is filled with parents, some disgruntled, trying to get students enrolled, transferred, determine transportation options, free lunch options and everyone can hear personal dialogue with staff, they would believe a “center” would definitely be an asset for the parents and students.

Ms. Priest moved, seconded by Mr. Pierson, to call for the question on both motions on the floor. Vote on the motion carried with Board members Green and Crawley opposed.

Vote on the substitute motion to convert West Shreveport to a student services center carried unanimously.

REQUEST FOR LONG-TERM USE OF OAK PARK ELEMENTARY

Ms. Priest moved, seconded by Mr. Hooks, to approve a 99-year lease agreement to allow the Housing Authority of the City of Shreveport to occupy Oak Park Elementary for housing and housing-related services as recommended staff and submitted in the mailout. Mrs. Crawley asked if an email was sent out that this was already in the budget for the demolition? Steve White responded that he did not send an email and it is in the budget. Vote on the motion carried with Board members Riall, Pierson, Crawley, Hooks, Trammel, Priest, Rachal, Ramsey and Bell supporting the motion and Board member Green not voting.
REQUEST FOR HEARING IN ACCORDANCE WITH CPSB POLICY GBCB-R

Mr. Riall moved, seconded by Mrs. Bell, to deny the employee’s claim for a full appeal hearing. Vote on the motion carried with Board members Riall, Green, Pierson, Trammel, Priest, Ramsey and Bell supporting the motion and Board members Crawley, Hooks and Rachal opposed.

REQUESTS FOR USE OF SCHOOL BUSES

Ms. Priest moved, seconded by Mrs. Bell, to approve the requests for use of CPSB buses as recommended by staff and submitted in the mailout. Vote on the motion carried with Board members Green and Trammel abstaining.

SUPERINTENDENT’S REPORT

Dr. Dawkins announced he is waiting for the state assessment report and will bring an update to the Board. At this time the information is embargoed until the accurate report is received.

EXECUTIVE SESSION

Mr. Pierson moved, seconded by Ms. Priest, to accept staff’s recommendation regarding student KK as submitted in the mailout. Vote on the motion carried unanimously.

ANNOUNCEMENTS AND REQUESTS

President Ramsey asked the Board members to complete the request forms and send them in to the Superintendent’s Office.

Adjournment. Mr. Pierson moved, seconded by Ms. Priest, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 7:10 p.m.

_________________________    _______________________________
Dr. Gerald D. Dawkins, Secretary    Larry E. Ramsey, President
May 23, 2013

The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, May 23, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, and Dottie Bell. Mr. Ramsey announced that Board members Crawford and Armstrong were absent. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Ms. Trammel led the prayer and Pledge of Allegiance.

VISITORS

Jackie Lansdale, Red River United, announced that the Legislative Session will end June 6th and that during the process, a lot of organizations have worked very hard to recoup any and all money possible to the local districts. She announced that the MFP will revert back to the 2011-12 year, and because Caddo had approximately $201 million budgeted and currently has approximately $198 million, that represents $3 million, which does not include the money from last year or the voucher money. She also stated that the Louisiana School Boards Association has really stepped up in their efforts to get the 2.75% growth monies back into the local coffers. In anticipation that we will know how much the district will receive by June 6th and the millions of dollars that will be coming back to Caddo, she said this time should be a celebratory time for everyone and encouraged the Board to wait and see all the funds before decisions are made. Regarding the planning period issue, Ms. Lansdale explained that there has always been a policy for elementary teachers and shared the history of this policy’s implementation of 30 minutes a day. For middle and high school teachers there has never been anything in policy and there has never been an issue, until now. She said while there was no reason to spend money to go to court in the past, she believes there is reason to do so now, because the statutory limits say 45 minutes per day or the cumulative effect (225 minutes) of that per week; and if the District infringes on this, they will go to court. She noted that despite what the Board’s attorney has said, MFP is how the District gets its funds from the State and is fully funded; and in this context, is where the argument will be. Also, to those who never stand up for individual people but for the rights, the laws, the rules, the policies that will protect the employees; the Board does not have the right to give these away.

Heather Middlebrooks, Secondary Social Studies teacher at Woodlawn, clarified some of the assumptions about her position. She shared with the Board an outline of her typical day at school and at home, and also shared a poem one of her students wrote for her because they felt she was pretty stressed. Mrs. Middlebrooks shared how the modified block will affect her schedule, her class sizes and the potential she believes it has to make her a bad teacher.

Bert Algood, teacher at C. E. Byrd, addressed the modified block and if implemented what he will do and what he will not do (he will not tutor before or after school or during his planning period, he will not grade homework assignments, because tests will be all he has time to grade, and they will be multiple choice, he will not tutor for the ACT, no partial credit, etc.). Because the schedule has been changed three times over the past three years, he encouraged the Board to carefully look at what schedule is best for the students and do that schedule.

Ryan Williams, drama teacher at C. E. Byrd, stated that while some believe a planning period is a perk, that is not true and it is time that is most important to teachers. He shared some of the many things he does during his planning period and offered suggestions to the Board of ways to cut the $21 million deficit, i.e. have a long range plan, make each department cut from their budget, assess and reassess, work smart, not hard; no ½ full buses; look at policies for someone
coming into Caddo and retiring after three years with full benefits, because if these issues are not addressed, the same thing will continue to happen year after year.

Jon Glover, employee, implored the Board not to adopt this budget because there are fewer persons in attendance at today’s meeting. With it being the last day of school, many who would be in attendance are not today; and asked the Board to make every effort to appreciate the comments of the speakers on Tuesday as well as today. The Board was encouraged to weigh every issue and make certain the budget put into place will mirror supporting educating every child in Caddo Parish adequately.

Cleve Arkansas, teacher, shared his belief that this is a sneak attack to do away with the teacher’s planning period; and asked the Board to remember the 3 Rs – rights, respect and responsibilities. He shared how he feels about the possibility of the Board taking away his planning period, and that he doesn’t believe he can be the best that he can be for the students if he does not have this time to plan. He also addressed the amount of time a teacher spends just doing the required paperwork and encouraged the Board to look closely at the budget and how decisions being made are affecting the students.

Theresa Arkansas read a statement on behalf of a co-worker who shared why she chose to go into teaching. She stated that the threats to cut the planning periods, reducing personnel and increasing class sizes have created negative attitudes and fears of losing one’s job. She shared she wants to teach and make a difference and warned the Board that some of the proposed changes will build a work force made up of people that only want a teaching job so they can have summers off and a paycheck.

Summer Lolly read a letter from a 4th grade teacher regarding the class sizes and the increase in the staffing ratio. With 4th grade being a crucial testing grade and because as a teacher she will be evaluated on her ability to effectively reach all students, adding this one child to the class size can make a great deal of difference in a child in need of remediation being able to gain all they can from the learning environment. Small groups are very important to remediation and most 4th grade classrooms already have 26 students, making it more difficult to rotate among the small groups. She said overcrowded classrooms are not in the best interest of the students and oftentimes lead to other issues, i.e. discipline, referrals, etc.

Frederick Howard addressed the Board on the planning time and the problems if teachers do not have time to plan and work together on an effective plan. As a Special Ed teacher, he noted the amount of paperwork required and it is apparent that many Board members have not been in the class to observe what takes place. He also referenced the Corrective Action Plan (CAP) which requires a lot of paperwork and encouraged the Board to seriously think through their decision relative to taking away any planning time.

Shannon Sullivan read a letter from a teacher stating concerns and that she is not present to share the comments because she fears retaliation from her principal. She referenced the possibility that the Southwood teachers supported eliminating the planning period and that the scheduling template used by her principal is now being used for all schools in Caddo Parish. She stated that teachers do not support this proposal and she believes it is preposterous to think that eliminating a planning period will help teachers or students. The truth is their jobs were threatened and the Southwood teachers were told to support the elimination of the planning period. She said she believes if the Board were to survey teachers, it would learn that no one supports this proposal.

Latasha Washington, parent of two Caddo students, encouraged the Board when making decisions about the staffing formula to look at the children; because she believes great teachers need planning time, and she encouraged the Board to not support removing any planning time.
Dr. Dawkins introduced Kathy Gallant, director of professional development, who shared with the Board the proposed revisions to the CPSB Policy GCA and how the information previously presented has been placed in a new format which she believes more easily explains the various block formats. Mrs. Gallant reported that for the high schools, they now offer the AB Block; and if the District stays with the current block format, there will be no positions reduced and teachers will teach six of eight classes and there will be no cost savings. The planning periods will allow 90 minutes per day and 30 minutes for lunch. She further explained that if the District converts to the modified block schedule, 69 positions will be reduced and teachers will teach 7 of 8 classes at a cost savings of $4.8 million. Teachers will have 90 minutes every other day and 30 minutes for lunch. If the District went to a seven period day, the ratio will be 23:1 staffing, 83 positions will be reduced, teachers will teach 6 of 7 classes and the cost savings would total approximately $5.8 million. This schedule allows for a teacher to have a 45-minute planning period each day and a 30-minute lunch.

Regarding rounding K1 will reduce 29 positions representing $2 million in savings; and if the 4-5 grade class is left at the 25:1 there will not be any cost savings and if the District moves to 26:1, it will reduce 9 positions representing approximately $.6 million in savings.

Dr. Dawkins also announced that staff’s recommendation will be accomplished without any layoffs and Mrs. Gallant continues to work on the days that the 90-minute planning period is not available and how some time can be allotted on those days, since there is no current policy on planning times for high schools.

Mr. Riall asked for clarification and if a motion needs to be on the floor before discussion can take place. Mr. Ramsey explained that since this is a presentation, he will allow questions about the presentation. Mr. Riall asked if the presentation is something the Board will be voting on today, and Mr. Ramsey clarified the Board will be voting today on the staffing formula. Mr. Riall asked about the reduction of teachers at North Caddo High School from 22 regular education teachers to 11, and how four major classes can be taught to four grades with a staff of 11. Mr. Rachal called for a point of order as there is not motion on the floor. Mr. Ramsey again stated that he understands that, and the questions should be directly related to the presentation.

Miss Green asked staff to restate the comments about the modified block and teacher planning periods. Mrs. Gallant explained that the modified block allows for a 90-minute planning period every other day and a 30 minute lunch every day. Regarding the AB Block, Miss Green asked about the planning time, and Mrs. Gallant responded teachers had 90 minutes every day.

Mrs. Crawley asked why we are considering the modified block schedule. Mrs. Gallant said in order to save money in the budget.

Mr. Hooks asked about Dr. Dawkins’ statement that we are not looking at any layoffs, and Dr. Dawkins said that is correct. Mr. Hooks asked if there will not be any positions reduced by the change to the modified block and that classes taught for a seven period day and the ratio is 23:1. Mrs. Gallant explained that the 23:1 ratio is how the school is staffed. Mr. Hooks asked where will we save the most dollars. Mrs. Gallant said under the seven period day. Mr. Hooks asked if he understands correctly that with the seven-period day a teacher would receive a 45 minute planning period and Mrs. Gallant said that is correct. Mr. Hooks stated he does not understand why we continue to kick the can down the road.

Dr. Dawkins stated that more people will be displaced (moved to another location).
Ms. Trammel asked how 90 minutes every other day will work, and Mrs. Gallant explained that Caddo is on a rolling block which means if “A” is this Monday, “B” will be next Monday, so one week teachers would have three planning periods and the following week, they would have two planning periods.

Mr. Pierson asked how many classes will students have the opportunity to take under the seven-period day, because he understood that to offer the eight periods in a year afforded students to pick up additional courses, so if the Board moves to the seven-period day, in addition to displacing 83 positions and having six classes, how many extra classes/credits will students be able to get. Mrs. Gallant explained that at this time students must have 24 credits to graduate and under the modified block, they will be able to earn 32 total credits. Under the seven period day, students will be able to take seven credits a year which totals 28 credits and four extra credits.

Mr. Rachal referenced comments by the superintendent and that on the days teachers do not have a scheduled planning period being able to do something to allow the teachers some planning time, and asked what is expected of teachers during a planning period, because to him “planning” appears very generic. He also asked about ideas on the table for doing something on these days? Dr. Dawkins reiterated Mrs. Gallant’s comments about the modified block being a “rolling” block, and staff is attempting to carve some time from the day that does not have a 90-minute planning period to give the teacher some planning time. Dr. Dawkins also explained that staff first must carve out the time; and while it may not be the full 90 minutes, staff is looking at finding whatever is possible and still meet the required number of instructional minutes.

Mrs. Gallant stated that staff has looked on-line to see what other districts are doing and one of the options is creating some instructional time periods that are not for credit at the high school level where students could conduct club meetings, makeup work, etc. However, at this time, she explained she has not seen this work in reality and would need to talk to personnel in those particular districts to determine how it may work. Mr. Rachal asked about others, and Mrs. Gallant responded that is the only one at this time, but staff is continuing to search for other options.

Mrs. Bell asked staff to verify that she understands correctly that there will be no layoffs, but employees may be placed at other sites. Staff responded that is correct. Mrs. Bell asked about the AB block and if she understands that teachers on this schedule had 90 minutes for planning each day as well as 30 minutes for lunch? Mrs. Gallant responded that is correct. Mrs. Bell asked for permission to ask principals some questions, and Mr. Rachal called for a point of order because this is a presentation and the Board is asking questions, and Mrs. Bell said that is correct and she has a question for principals the same as Mr. Rachal asked Mrs. Gallant a question. Mrs. Bell asked Mr. Roberts about the modified block with 90 minutes every other day, and 30 minutes for lunch, and what will principals do to give teachers a little time on those days that 90 minutes planning time is not in the schedule? Mr. Roberts responded that staff can look at the required number of instructional seat time minutes and, because he believes the current scheduled seat time exceeds what the state requires, some of the minutes could be carved out of the schedule for some planning time on the off day. Mrs. Bell asked Mr. Roberts if he will be getting together with his team to find this time on the days that a teacher only has the 30-minute lunch time, and Mr. Roberts said since that has been posed to them today, he is saying they can look at doing it. Mrs. Bell asked Mr. Rachal if that is something he can also do at his school? Mr. Alexander responded that, in response to Mr. Hooks question, he does not have a problem with the seven-period day, but must take into consideration with the 7-12 configuration the number of times the bell will ring in a day, which means the number of times students are changing classes. He further stated that when first beginning to look at this schedule, he wanted to cut as few staff as possible, and reminded everyone that Caddo is celebrating an increased graduation rate because of the block schedule. Mr. Alexander also stated that they understand the teachers need their planning time; and wishing that everything could stay the same, reality is
something has to be cut. He encouraged the Board to remember the 7-12 configurations when making the decisions. Mr. Roberts also shared that in the School Performance Scores, their graduation cohort was 25% as well as their graduation index rate; and if a seven-period day is implemented, it will be cutting our legs out from under us. He also noted that under the block schedule teachers had a 90-minute planning period every day, but going to a seven-period day, teachers will go to a 45 minute planning time. Mr. Roberts also explained that this was proposed to his staff and they support it; and he added that on the Block schedule, they teach classes 1-4 on the “A” day and classes 5-8 on the “B” day so he does not understand why a planning period is needed every day when teachers are teaching the same subject back to back.

Mrs. Bell apologized, but the reason she picked the two principals she did is because one is 9-12 and the other is 7-12. Mr. Hooks called for a Point of Order and President Ramsey stated that the discussion on this presentation is complete, and Mr. Hooks again called a Point of Order because he does not understand the superintendent’s statement that these were the principals he brought to the meeting to answer questions. Mr. Ramsey said they were a part of the presentation, and Mr. Hooks asked about the other high school principals. Mr. Ramsey stated that the Point of Order is denied. Mr. Abrams clarified that, in answer to the questions relative to the planning period, the State Statute states the provision for a planning period is subject to the availability of State funds for this purpose. He also added that Bulletin 741 states that it is subject to the availability of State funds for this purpose the LEA shall provide a minimum of 45 minutes planning time or its equal equivalent and a minimum of 30 minutes for lunch each day. With the comments made that this is part of the MFP, Mr. Abrams further explained that he contacted the State Department as well as the District’s previous general counsel regarding planning time, and it was reported that the Statute was enacted in 1988 and at that time the elementary schools had 30 minutes planning time and 30 minutes for lunch, and Caddo Parish approved a policy to this effect. In 1999, he reported that the Statute was amended to provide for planning time for after the 2000-2001 school year if State funds were available for this purpose. The State Department’s attorney also informed him that it is not mandated by the State because they don’t consider it as funded by the State and that it is done all across the State in different ways and is paid for by local funds. Mr. Abrams said while it is a good thing to do, the Statute does not mandate that it is done.

Ms. Priest moved, seconded by Mrs. Bell to approve revisions to CPSB Policy GCA Professional Staff Positions (School Staffing Formula) to include a planning period of 90 minutes every other day and on the days of the week where there are only two 90-minute planning periods, the administration will allow a minimum 15 minutes planning time per day with no less than 225 minutes of planning per week.

As a point of personal privilege, Mrs. Crawley asked the Board to apply the Golden Rule at the Board level as is done in personal lives and not call for the question. With this being the only item on the agenda, and it being a very passionate item and decision, she hopes every Board member is given the courtesy of fighting for their philosophy and not be interrupted when speaking. She also expressed appreciation to all employees that took the time to speak to the Board on this matter.

Ms. Priest stated that the Board Attorney reminded her that her motion does not reference the modified block and she restated her motion to approve revisions to CPSB Policy GCA Professional Staff Positions (School Staffing Formula) as recommended by staff to implement the modified block configuration, reducing 69 positions, and seven classes taught, at a cost savings of $4.8 million, planning period of 90 minutes every other day and lunch 30 minutes; at the elementary schools, revisions will include K1 1:22 rounded, reducing 29 positions, and cost savings of $2 million; grades 4-5 will be staffed at 1:26, reducing 9 position, and a cost savings of $.6 million; and currently included in the 2013-14 proposed budget and that a planning period of 90 minutes every other day and on the days of the week where there are only two 90-
minute planning periods, the administration will allow at a minimum 15 minutes of planning
time per day with no less than 225 minutes of planning per week. Mrs. Bell seconded the motion.

Ms. Priest stated that she believes the motion will give the students the modified block without
laying off any employees. She said she realizes no one will be 100% happy with everything that
is needing to be done and the Board is trying to hold the District together. Mrs. Bell said she is
for saving money; and she wants to clarify all the rumors about layoffs, because the Board is not
talking about doing anything to layoff any employees. She also reminded everyone that this is
the same argument every year; and that with the committee structure in place, she encouraged the
Board President to ask the committee to look at what is in place and maybe propose a policy to
address the planning period on the alternate days so teachers do have the needed time for
planning.

Mr. Hooks said it is not only about the children, but it is about the teachers; because if a teacher
does not have a planning period, the teacher will get burned out. He also asked what is more
important, the bell ringing and classes changing or the children in the classroom getting proper
instruction. For him, he believes it is the children in the classroom getting proper instruction,
and also that the 7th and 8th graders should never be on the high school campus.

Mrs. Crawley moved, seconded by Mr. Rachal, to continue with the current staffing formula and
the AB Block and that we enter into an intensive budget program/meetings with the President
assigning a committee or a budget program to look for other places to cut more than $4.8
million. Mrs. Crawley stated that principals have testified that the AB Block is what is best for
the students and they attributed it to students having the opportunity for 32 classes/credits; and
the teachers also have 90 minutes planning time. She referenced the information placed at Board
members’ stations which indicates 50 positions that can be cut and it would save $3.5 million,
and these positions are those that do not give grades. She also added if you add to that $100,000
from travel, $60,000 from the cafeteria, some from transportation, some from the clerical pool,
this is getting close to the $4.8 million and she believes it can be done and not affect the
classroom. Mrs. Crawley added that principals did not object to the modified block schedule, but
she recalls when attending classes on how to be a principal in Caddo Parish that you should not
start thinking this is the right thing to do, this is the wrong thing to do, this is what is best, this is
what is not good, but you should be a good administrator in Caddo Parish and do as you are told.
She also announced that she will be bringing a motion soon that the schedule is set in February
and not May. Mrs. Crawley said she believes we can find $4.8 million because the State will
also be giving money back to the districts.

Mr. Rachal stated that the lack of planning on my part does not make it a sense of urgency on
someone else’s part to get something done. He referenced the May 14th budget work session and
the revised 2012-13 budget indicates a $10,275,000 undesignated ending balance and the starting
2013-14 budget indicates a $21.5 million ending undesignated balance, indicating a $10 million
positive variance from what was thought for the year. David Hennigan explained that the $21.5
million is an estimate of the ending balance and the $10 million ending balance is the budgeted
ending balance which is the legal appropriation to spend funds. Mr. Rachal asked if staff is
confident that we will have $21.5 million rather than $10,275,000, and Mr. Hennigan stated that
is staff’s estimate, because we have been very fortunate in the past to come in under the estimate.
Mr. Rachal asked if, based on the track record, staff sees it changing? Mr. Hennigan responded
that it is hard to tell at this point. Mr. Rachal stated that Mr. Lee noted at the last work session
that Caddo has always been conservative and he plans on continuing to be conservative, and Mr.
Rachal stated his agreement with this. Mr. Rachal said he only wanted to note for the public’s
information the $10 million positive variance from the original budget. Mr. Rachal also reported
on the number of phone calls and emails from parents and teachers stating they want the AB
Block; but now the Board is discussing changing what they believe has resulted in student
improvement to something that will have a negative impact on the students. He shared his
agreement with Mrs. Crawley, and he would like to know what the principals and directors expect teachers to do during a planning period. Mr. Riall called for a Point of Order and the motion on the floor is to keep the current AB Block schedule. Mr. Ramsey upheld the Point of Order and the questions and discussion should be about the motion on the floor. Mr. Rachal stated that in discussing the motion on the floor regarding the AB Block, part of the discussion is the planning period which is a part of the AB Block. Mr. Ramsey stated his understanding, but the motion is whether or not to support keeping the AB Block schedule as it is. Mr. Rachal asked that a school director explain the reason for the planning time. Jeff Roberts shared how Southwood’s Master Schedule is set up on the AB Schedule and how their planning time is used for team planning, EOC planning, analysis of student performance, continued content planning with partner, Benchmark assessments, etc. Mr. Rachal asked if teachers are expected to grade papers during their planning time? Mr. Roberts explained the program All in Learning purchased by the school which allows teachers to grade all their papers with I devices which allows them instant grades from a student, item analysis, compare class to class, block to block, and teacher to teacher to get immediate feedback to be used to analyze and make data driven decisions to adjust their instruction. Mr. Rachal asked what else is expected from teachers during the planning block? Mr. Roberts again stated they are to meet with team members, analyze students on a weekly basis (determining where the grades are from week to week and progress), and develop content and lesson plans with their partner teacher. Mr. Rachal asked if teachers are expected to call parents, and Mr. Roberts said his teachers do call parents either before school, after school or during planning time. He also explained that some teachers have voluntarily given up planning periods to do EOC remediation, tutoring before and after school. Mr. Rachal asked Mr. Roberts if he believes it is better to have the planning time as is currently in the schedule? Mr. Roberts said the current schedule is effective in student achievement; however, it is not effective budget wise. Mr. Rachal asked if this could have a negative impact on students, and Mr. Roberts stated he believes it will have the impact that the teachers allow it to have. Mr. Rachal stated that everyone needs to realize there are going to be changes in how we handle our budget from this point forward, especially as it relates to the District’s contribution to health benefits. Mr. Riall called for a Point of Order as the comments are not relative to the motion on the floor. President Ramsey asked Mr. Rachal to make comments relative to the motion on the floor. Mr. Rachal continued his comments by stating that he doesn’t believe everything possible has been done to impact the budget and stop these changes. Mr. Riall again called for a Point of Order. Mr. Rachal stated that he doesn’t think we are giving our teachers enough time to plan and prepare for this change and adjustments. He added the State requirements and mandates he believes will have a negative impact on our children’s education, as well as he believes the choices the Board will make today will impact the students; and if a decision is made that negatively impacts our students it is only opening the door a little more for the Department of Education, Superintendent John White and Bobby Jindal. Also, he said he believes it was the community as a whole that supported the Board in its recent request for tax renewals, which is an indication of their trust. Mr. Ramsey stated that the comments are not pertinent to the motion on the floor. Mr. Rachal asked the Superintendent if the voters showed their evidence of support?

Mr. Riall asked if the staff recommendation is for the modified block and staff confirmed that is correct. He also asked about the fact that North Caddo has 22 regular education teachers, but if the modified block is implemented that number will be reduced to 11 regular education teachers. He asked how could this be when the Board has not voted on anything. Dr. Dawkins responded that no one has told them that; however, staff has discussed with principals the implication for the change in the schedule. Mr. Riall said the high school in the northern part of the parish is small and it has students attending from the Arkansas line and Texas line, so this school needs to remain open; however, if teachers are cut to 11 core teachers, how will they be able to teach what they are required to teach? Dr. Dawkins explained that part of the deliberations has to do with the different sizes of the schools, some very large and some very small, and some believe fair is the same for everyone; and North Caddo is a school with a different configuration and this many
would not be fair for this school. Staff is continuing to work through these. Mr. Riall asked if the Board approves the modified block, will they have enough teachers to handle all the classes? Dr. Dawkins responded there has to be a full schedule of Core classes; but there may be fewer than before.

Ms. Trammel asked if the Board supports the AB Block and leave out the ratios, will the configurations for elementary scheduling, what will be the next step in order to have a balanced budget? Superintendent Dawkins said if the Board maintains the AB Block, there will be a need to go back to the budget and make the cuts elsewhere, and staff will bring recommendations back for the Board’s consideration. Ms. Trammel stated her understanding of the comments made and she understands the need for a planning period each day; and asked if the configuration presented is the only one to be considered and save the AB Block. Dr. Dawkins explained that what has been presented is the modified AB Block and is the more efficient in allowing the students more opportunities and keep as many staff members as possible. Ms. Trammel added that she knows the Board will never please everyone, but in order to come to an understanding, it is important to provide a planning time everyday for the teachers and to provide the needed extra courses for the students and asked if there is anything else staff can look at? Dr. Dawkins responded that staff continues to look at possibilities; however, staff’s recommendation is the closest to getting to a balanced budget than any other thing looked at.

President Ramsey again encouraged Board members to keep comments to the motion on the floor.

Miss Green stated her belief that Mrs. Crawley’s motion is consistent; and asked if she remembers correctly that before the District went to the AB Block, it had a different schedule in place. She stated this is changing too much and believes it is necessary to stick with one thing and she believes the AB Block should remain in place.

Mr. Hooks asked if Mrs. Crawley’s motion affects the staffing formula and what is the student teacher ratio for 4th grade? Dr. Dawkins responded it is 25:1. Mr. Hooks asked the superintendent the ratio for 8th grade; and Mr. Lowder responded 25:1 for 8th grade and the ratio for 9-12 grades depends on the size of the school. Mr. Hooks stated these grades are crucial grades and it is important to be mindful of the size of these classrooms. He said he understands how a school can gain (improve) when you have 620 students as opposed to Fair Park with 1,134, Huntington, 1,084 and Woodlawn with 1,080. Also, Southwood doesn’t have 7th and 8th graders, but the enrollment is 1,254; and while he can understand what the two principals speaking want, it is important to look at the numbers.

Mrs. Crawley added that she believes her motion will keep things the way they are; and this came up when going through the budget work sessions because she believes it is the easiest to cut at the school site. She believes $4.8 million can easily be found without making these cuts, and she believes the state will be returning this money to the District which will help balance the budget.

Mrs. Bell asked if we stay with the AB Block and there is no cost savings, does this mean we will go back and find the money we need in the budget by cutting elsewhere? Dr. Dawkins said that is correct and something else will have to go. Mrs. Bell noted the complaints for the $200 teachers receive for supplies. Mr. Ramsey asked Mrs. Bell to keep her comments to the motion on the floor (AB Block). Mrs. Bell asked if the District does not do anything with the AB Block, will this mean the 90 minutes a day and 30 minutes will continue as it has done? Mrs. Bell asked if the modified block was introduced to save some positions, and Dr. Dawkins explained that some employees may be displaced. Mrs. Bell asked Dr. Dawkins to look into the possibility on the days when there is not a 90-minute planning period, if staff can look to add at least 45 minutes and 22 minutes to the lunch schedule? Dr. Dawkins responded he will look at this
suggestion. Mrs. Bell also shared that the only parental concern about the AB Block would be if their children’s needs were not addressed, and asked if a survey was done relative to the needs of the students. She also asked if the modified block can be done this year without meetings being held to determine what is best for the students. She also reminded Miss Green and Mr. Riall of the possibility that the District may get some money back from the state, but this may work against us in the future. Mr. Ramsey reminded Mrs. Bell to stay on track with her comments. Mrs. Bell said whatever the Board decides someone will be mad, because the District will need to go somewhere else to get this money. Mrs. Bell said if the money is not saved through the AB Block, she reminded every board member to understand the money will come from somewhere else in the budget. Mr. Ramsey called for order in the board room as Mrs. Bell has the floor and there is too much conversation in the audience and around the horseshoe. Mrs. Bell encouraged the Board to support the modified block until the money is in the budget to offer something more for the students.

Mr. Pierson said his concern is from Day 1 when the Board began discussing the budget, the Board began discussing the cost of AB Block. He shared his concern and asked the superintendent the cost of the AB schedule? With the need to find $9 million somewhere in the budget, and he is saddened to hear a retired teacher say to him what he will not do; and he encouraged the Board to support the modified Block schedule as the best option for the Boys and Girls in Caddo schools and he supports the teachers in this option. Following four or five budget meetings, Mr. Pierson stated that no one has been able to find the $9 million; so in order to find it, someone may lose their job and this is an effort to balance the budget and maintain as many positions as possible with no layoffs.

Mr. Rachal asked if staying with the AB Block versus going to the modified block we have a real count of the impact at each school? Dr. Dawkins responded staff does have some scenarios, and Dr. Robinson verified the HR staff does have that information. Mr. Kennedy stated that the number of teachers now versus the proposed change would be Byrd going from 100 to 92 teachers; Caddo Magnet from 59 to 54; Captain Shreve from 60 to 56; North Caddo from 22 to 17; Northwood from 48 to 45; Southwood from 61 to 57; Fair Park from 44 to 38; Green Oaks from 30 to 23; Huntington from 38 to 35; Booker T. Washington from 33 to 25 and Woodlawn from 39 to 34. Mr. Rachal asked about the comment made by Mr. Roberts that under the AB Block there are 8,100 minutes. Mr. Roberts responded that he would need to verify the minutes required by the State and determine how many minutes are actually built in the calendar to determine how minutes can be carved from the schedule for planning. Under the modified, Mr. Roberts stated there may be an opportunity for teachers to team teach as long as they are creative in linking electives simultaneously 45 minutes for each teacher and allowing each teacher 45 minutes of planning; however, it is these details that he and staff have not had an opportunity to look at more closely as possibilities.

Ms. Priest stated that when the Board began the budget work session, the Board knew there was a budget deficit and that adjustments needed to be made in the way the District was conducting business. She said she believes the Board has no choice but to do some cost savings and no matter what is anticipated from the State Department, these resources are not necessarily allocated and we don’t have the money at this time. She also stated that the Board will be addressing benefits at some point in time, but the modified block states that between 3 and 8 positions in each high school. Also, there are 90 minutes every other day and under the AB there is a total of 450 minutes and there must be some type of compromise because no one will get everything they want, leaving some people unhappy. With 6,000 employees in the District, Ms. Priest said some people will not be happy. The Board will have to look at the big picture and not specifics relative to positions and people, but to look at the District picture as a whole and fulfill the fiduciary responsibility to make sure the District is not in the red. She reminded everyone that the Board is not laying off anyone, but things are tight and people are hurting; however, the Board must do some things to address these issues. Since the principals need to be staffing for
their schools, it is important that principals know how many teachers they will be allotted. She believes this is a compromise because the Board cannot nickel and dime $21.5 million, and especially when 80% of the budget is human capital. To her, it is what is in the best interest of the Caddo Parish Public School District and for the children.

Ms. Trammel moved, seconded by Mr. Hooks, to call for the question on both motions on the floor. Vote on the motion to end debate carried with Board member Rachal opposed.

Vote on the substitute motion to continue with the current staffing formula and AB Block scheduling as the 2012-13 school year and enter into an intensive budget process immediately. Vote on the motion failed with Board members Riall, Green, Crawley, Hooks, and Rachal supporting the motion and Board members Pierson, Trammel, Priest, Ramsey and Bell opposed.

Vote on the main motion to approve revisions to CPSB Policy GCA Professional Staff Positions (School Staffing Formula) as recommended by staff to implement the modified block configuration, reducing 69 positions, and seven classes taught, at a cost savings of $4.8 million, planning period of 90 minutes every other day and lunch 30 minutes; at the elementary schools, revisions will include K1 1:22 rounded, reducing 29 positions, and cost savings of $2 million; grades 4-5 will be staffed at 1:26, reducing 9 position, and a cost savings of $6 million; and currently included in the 2013-14 proposed budget and that a planning period of 90 minutes every other day and on the days of the week where there are only two 90-minute planning periods, the administration will allow at a minimum 15 minutes of planning time per day with no less than 225 minutes of planning per week and no layoffs failed with Board members Pierson, Trammel, Priest, Ramsey and Bell supporting the motion and Board members Riall, Green, Crawley, Hooks and Rachal opposed.

EXECUTIVE SESSION

Litigation Update – Grayling Taylor v. Caddo Parish School Board, No. 11-08553, Office of Workers Compensation, State of Louisiana. Mr. Riall moved, seconded by Ms. Trammel to go into executive session. After conferring with the attorney, Mr. Riall agreed to withdraw his motion to go into executive session and Ms. Trammel agreed to remove the second. Mr. Pierson moved, seconded by Mrs. Crawley, to approve the attorney’s recommendation for resolution of the claim. Vote on the motion carried unanimously.

Adjournment. Ms. Priest moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:10 p.m.

Dr. Gerald D. Dawkins, Secretary

Larry E. Ramsey, President
The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Wednesday, May 29, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Mr. Riall led the prayer and Pledge of Allegiance.

**Point of Personal Privilege.** Board member Priest read the following resolution in honor of Mrs. Mildred B. Pugh, former CPSB member for District 5, upon her passing:

**Whereas, Mrs. Mildred B. Pugh** retired from the Caddo Parish School System following 25 years of service as a teacher and assistant principal at Carver Elementary, Walnut Hill and Woodlawn High School; and

**Whereas, Mrs. Mildred B. Pugh** was elected to represent District 5 on the Caddo Parish School Board from September 15, 1982 through December 31, 1990 and from August 3, 1994 through December 31, 2001; and,

**Whereas, Mrs. Mildred B. Pugh** was elected to serve as President of the Caddo Parish School Board in 1989 and 1996; and

**Whereas, Mrs. Mildred B. Pugh** was a strong advocate for public education and a quality education for all students in Caddo Parish.

NOW, THEREFORE, BE IT RESOLVED, that the Caddo Parish School Board, the superintendent and staff extend heartfelt condolences to the family and friends at the passing of Mrs. Mildred B. Pugh; and

BE IT FURTHER RESOLVED, that this resolution be presented to the family as an expression of our sympathy.

President Ramsey asked that everyone pause for a moment of silence in memory of Mrs. Pugh.

**VISITORS**

Rob Broussard stated that a year ago he asked and received from the superintendent a breakdown of per pupil expenditure for every student in Caddo. He said there is a huge disparity in what each school gets which raises a question about equality, which does not seem to be the question any longer, but equity. He said he believes if the District continues down the path it is going with the number of “failing” schools in Caddo Parish, then he asks when will equality and equity enter into the picture on the same page. He asked if the State takes over failing schools, will the State get the figures the superintendent released to him or will they receive their numbers from another source and go to equality versus equity. Mr. Broussard encouraged the Board to reconsider the option to cut Discoveries classes, because all educators know that the greatest growth in school performance scores is shown in the schools through this program. Mr. Broussard also stated that he believes the Board has consistently proven that it has an inability to solve some basic problems, i.e. the budget; and if the Board votes to change the staffing formula how it will affect the staffs and ultimately the students.

Karen Oathout, Discoveries teacher at University Elementary School, shared her concern about the future of Caddo schools when the Board is discussing eliminating 31 Discoveries classes
across the parish; and as a professional she is confused about the rationale behind this particular cutback. She stated her understanding of the need for budget cuts, but cuts should never directly affect the students; and noted areas in which she believes cuts can be made. She shared with the Board how the Discoveries program helps meet the needs of above average students who excel academically but do not qualify for the Gateway Program by challenging them and taking them a step further than what they are doing in the regular classroom. Mrs. Othought stated that if the Board takes away the Discoveries Program, this will continue to hurt the neighborhood schools and parents will be taking their children to schools that can offer them more. She encouraged the Board to think long and hard before it makes a decision to end the Discoveries Program because she does not believe this would be in the best interest of the children.

Stephanie Springer shared with the Board that she loves teaching but she is concerned about the future of Caddo schools and her future as a teacher. Ms. Springer stated that if the Board votes to add another class to her schedule and to take away her planning period, this is unacceptable. Such a vote would be a statement to the teachers that the Board does not value a teacher’s time and effort put into teaching the students in Caddo Parish on a daily basis. She shared the importance of planning time each day and what she uses her planning period to do. Ms. Springer encouraged the Board to rethink this option and look at other options for cutting expenses, i.e. attorneys, board travel, etc.

Heather Hooper addressed the planning period and the impact taking them away will have on students, because the teachers at Captain Shreve use their planning periods to share information about students and what they can do to help them be successful. She also shared that planning periods are used to detail lessons taught. She added it is important for a teacher to be as efficient as possible in class, and to do so, a teacher must spend time planning; and also to remove the teacher’s planning period will remove one of the most powerful tools on the first line of defense and that is the line of communication between an individual student and a teacher.

Maureen Barclay explained that as a member of the scheduling committee at Captain Shreve she can attest to the fact that they researched long-term studies on a variety of schedules. The current schedule was selected because they believed it to be the best for their students; and still believes it is the best schedule, but only if properly implemented with a daily planning time for teachers. Ms. Barclay noted that most teachers must prepare for multiple courses; and between her six classes, she teaches three different English classes and an elective; and she knows that a diverse work load is not unique to Captain Shreve because high school teachers must plan for a wide range of instructional needs, i.e. 504 students, IEP accommodations, behavioral plans and intervention, etc. It’s during the planning period that a teacher has the time to differentiate the lessons and the modified block will add to the teacher’s student load and teaching time. She encouraged the board to support the current schedule in place and pursue budget cuts in other areas.

Jeff Roberts spoke on behalf of the modified AB block; and when he took over Southwood High School three years ago, the school was $20,000 in the red, his first task assigned him by the Board was to get the school in the black because it was not allowed to operate a school in the red. If a school is not allowed to operate in the red, then he doesn’t believe a District should be operated in the red. He said high school principals were approached for assistance in solutions to this problem; and from this discussion, principals were asked what was acceptable, and what could each principal give up, within the AB and the proposal that came from this was the AB modified block. He reported that Southwood has not tweaked its schedule so that teachers at Southwood are able to enter into the modified AB block, to maintain the 90-minute planning period on one day and a 45-minute planning period on the off day by team teaching an elective, and this is their plan. He said while this plan make not look the same on each campus, it can be done; and he has a staff of teachers that are committed to doing whatever it takes for
Southwood’s students. His teachers have given up planning periods, lunch periods, etc. to do remediation for those students needing some extra assistance.

Bert Algood shared with the Board what he did before becoming a teacher and his responsibilities in the Navy to maintain the five year defense plan. He asked the Board what is the Board’s five year plan; and what can the district cut other than a planning period. Mr. Algood also referenced comments on teachers who are appearing before the Board stating what they will not do if the Board approves the proposed revisions, because not all teachers are coaches and it is more difficult for them to plan. He encouraged the Board to not make the easy cuts, but make smart cuts.

Graham Claycomb, 4th Grade student, stated he does not agree with taking away the Discoveries teachers and librarians. He added this is an opportunity for students to learn more and such a decision is devastating to students. He said he believes this decision should be thought through because it doesn’t make sense.

Georgia Head spoke in support of keeping Discoveries classes and that both options presented are unacceptable. She encouraged the Board to not change the staffing to the modified AB Block and don’t delete the Discoveries Program, both of which affect teachers and students. She also stated that if the modified block schedule passes, she believes there will be a problem getting subs when a teacher must take off for a sick child or for doctor appointments. Ms. Head also stated that she has looked at statistics on her students and approximately 20% of her students are Special Education and a lot of her planning time is spent filling out required paperwork for these students.

Tim Mallier, teacher in Bossier whose wife teaches in Caddo, addressed the Board on the proposed change in the staffing formula and the fact that teachers need to teach and they need more prep time and more time with their students. He said if this staffing formula is changed, he believes the Board will see a huge decline in the state testing results, increased behavior problems, which will result in more teachers leaving. Rather than cutting teachers, he encouraged the Board to cut the useless jobs and useless programs, because cutting teachers and increasing class sizes will only result in lower scores.

Cherlita Anderson-Brossie, on behalf of the paraprofessionals, encouraged the Board to not make any cutbacks. She explained that as a paraprofessional she spends a lot of valuable time with the students, encouraging them to succeed in reading, handwriting and math and in any other accommodation they might need. She further stated that the Board’s cooperation is needed in order for them to provide what the students need. She also requested the Board to reconsider eliminating the Discoveries teachers.

Jeff Hart stated that he believes it is very courageous to come up with the proposals, but he thinks they stink. As a parent of two students in Caddo Parish, Mr. Hart shared pictures of his children, and their experience with the Discoveries Program and how it prepared her for success in getting in the Gateway Program. Rather than cutting the Discoveries Program, he encouraged the Board to look at cuts elsewhere because he would also like for his son who is entering Kindergarten to have the opportunity to experience Discoveries. He also expressed his appreciation for all that the teachers do.

Jackie Lansdale, president of Red River United, stated that she heard the Superintendent and some of the Board members say something had to be done; and while they do not disagree with that, they would have hoped the Board would have done its due diligence and not more shoddy surface work. She said threatening to take away Discoveries, Gifted and librarians, and to change the staffing formula is nothing more than a scare tactic. Mrs. Lansdale added that she believes the Board’s budget is another example of the Board’s failure of due diligence; and noted
the line item for alternative education (Ombudsman) for $4 million, and that is for 500 students. She said with the announcement that the MFP will revert back to 2011-12 with $3 million plus coming back to the district, as well as the voucher money (approximately $440,000), so she questions what all this is about. She said there seems to be plenty of money when giving away schools and providing lucrative contracts because two principals have presented a schedule which they even realize during the last Board meeting that could be adjusted for better results.

Mrs. Lansdale stated the Board attempted to push forward a piece milled budget and how when she requested to see a copy of the complete budget she was chastised for making copies of a public document with her phone. She does not believe this is transparency or due diligence. She asked if all this is smoke and mirrors for a reduction in force? Knowing what it is not about, she asked the Superintendent and Board members what is the something that the Board needs to get done and who will benefit.

Laura Thompson spoke in support of keeping the Gateway and Discoveries programs because she is acutely aware of the benefits of these programs; and she believes if the Board looks at the benefits of these programs for the higher achieving students, they will find that they are not excessive, but they are imperative. Ms. Thompson stated that it is these children who are bringing up the test scores and they need to be challenged; and if we don’t, we are only striving for mediocrity in the schools. She also expressed how these cuts will affect the middle class neighborhood schools and taking these programs away will not fare well for anyone. She ended her comments by reading what her son, a Caddo student, had to say about his experience in the Discoveries Program.

Julie Glover, parent, PTA president at Fairfield, room mother at University Elementary, PTA president at Youree Drive Middle School and teacher at Southwood High School, stated her support of Option 1, which is in favor of saving instruction time for students and putting the planning period second. She said hearing the word “can’t” only means that teachers “won’t” and no matter what schedule she has, how long her planning period is, she wants to teach students in her class. As a parent, she hopes her son’s teachers would do the same thing. Mrs. Glover stated that teachers are given the opportunity every day to teach and it is up to the teachers as to how they will teach, and with the support of the administration, teachers can implement whatever schedule they are given. In looking at the options presented today, she asked if the Board should consider cutting instruction, Reading Interventionists, Discoveries because she believes this is an important baseline. After spending weeks and hours looking at the proposed budget, she said people will be upset no matter where the cuts are made; and she believes to not change their instruction will be the least effect on the students and the proposal is not changing the students, but it is the teachers who will have to change, but the teachers are the adults and are the ones getting paid and making the adjustments. Mrs. Glover also noted that she is not here because her principal threatened her, but she is here because she loves her students and she believes Southwood has shown that putting the students first is what’s important, and she hopes the Board will vote this way.

Katie Loomis, librarian, shared with the Board the importance of librarians in the schools and the abilities and opportunities they have to change a student’s life and make it better. She said she believes librarians have the opportunity to turn students into life-long learners and readers. Ms. Lumas stated how many students librarians see on a weekly basis and the responsibilities of a librarian. She said librarians know the Common Core Curriculum for every grade at the school and she is aware of where every book is for every unit in the plans for this curriculum. She explained they also provide other programs and recognitions for the students, paid for from their own pockets. Reading is important and she encouraged the Board to consider this when making its decision.

Scott Hughes, Alliance for Education, echoed the comments of previous speakers and that the Board has two bad options before it, and that he is saddened over the $400 million General
Operating budget and a $.5 billion annual budget when the Federal and Construction funds are included. He stated he doesn’t believe that whoever is in charge of the budget process has gone through the $400 million to find everything that can be cut. Mr. Hughes said he believes the budget establishes the Board’s priorities, and at this time he doesn’t believe priorities have been established for making the cuts. He encouraged the Board to look at its budget and look at the possibility of setting new priorities in Caddo Parish. He noted the Board will be facing this same issue next year prior to the election; and asked the Board to ask itself what in the proposed budget will improve Caddo’s scores and performance. He said he has heard block scheduling works, Discoveries works, so before the Board approves any budget, it should determine its priorities and what is the Board going to do to fix education in Caddo Parish.

REVISIONS TO CPSB POLICY GCA PROFESSIONAL STAFF POSITIONS (SCHOOL STAFFING FORMULA) AND/OR ANY OTHER STAFFING CHANGES

Dr. Dawkins stated that at the Board’s request, staff has continued to look at proposed staffing for 2013-14 with the goal to, as much as possible, retain the instructional programs within financial constraints and complete this without a reduction in force. He noted that under Option 1, it is the same proposal presented last week, and Option 2 contains additional categories that staff investigated at the request of Mrs. Crawley and also looked at librarians. Any other option will require a reduction in force; and clarified that staff is proposing Option 1.

Dr. Mary Nash-Robinson explained to the Board that Option 1 is the staff’s recommendation and it is the modified AB Block and it reduces positions by 69, seven classes are taught, cost savings is $4.8 million. She also explained that an addendum needs to be under planning period because after meeting with administrators, they made a commitment to schedule a minimum of 45 minutes planning per day, and 30 minutes for lunch. At the elementary level, Dr. Robinson explained the revisions to Policy GCA as follows: round the K-1 staffing ratio of 1:22, saving 29 positions at a cost of $2 million; grades 4-5 staffing ratio is increased from 1:25 to 1:26 which will reduce staff by 9 and save $6.6 million for a total of $2.6 million. Adding the $2.6 million and the $4.8 million, the District will see a savings of $7.4 million to the General Fund Budget. Dr. Robinson also presented Option 2 for the Board’s consideration which will round the K-1 staffing ratio of 1:22, will change the 4-5 grade staffing ratio from 1:25 to 1:26 for a total of 38 for $2.6 million. She further explained that staff was asked to look at those positions in schools that do not give grades and the total number funded by the General Fund is 52 (31 Discoveries, 8 reading specialists, 13 librarians) representing $3.8 million for a grand total of 90 positions and $6.4 million. Again, Dr. Robinson stated that staff’s recommendation is Option 1.

Ms. Priest moved, seconded by Mr. Pierson, to approve staff’s recommendation for revisions to the staffing formula with a 90-minute planning period every other day and the weeks when there are only two 90-minute planning periods, the administration will provide additional planning time up to a minimum goal of 225 minutes. The administration is directed to develop procedures in accordance with law for the reassignment of staff where there are staffing overages. Staffing configurations at elementary will be K-1 22:1 rounded, reduced positions 29, cost savings $2 million, Grades 4-5 26:1, 9 reduced positions, cost savings $6.6 million, for a total of 38 positions representing a cost savings of $2.6 million for a grand total of 107 positions representing a savings of $7.4, which is currently included in the 2013-14 proposed budget.

Ms. Priest stated that the Board has held budget meetings since March and is aware there is a $21.5 million deficit that must be addressed; and no matter what decision the Board makes, not everyone will be happy. At this point in time, she believes this is the best decision the Board can make without any layoffs, and be as fiscally prudent as possible. She added if money is returned from MFP she doesn’t believe the Board would be wise to spend that money and get itself back in the same position.
Mrs. Crawley moved, seconded by Mr. Hooks, to reject both Options 1 and 2 and keep the 2012-13 staffing formula and high school AB Block schedule as is. Mrs. Crawley stated that while we hear that the Board’s priority is working for world-class schools, she believes both options contradict this. She noted the testimony heard today that the Board should not approve either option, because both will only weaken instruction. Mrs. Crawley also stated her problem in believing promises that are contrary to what we have in writing. While she is not suggesting that the District operate in the red, she only wants to direct the spending and set priorities. She believes the time spent on the budget thus far has been a waste of her time and that the Board should look at the budget line by line. She also stated that just because of incompetent long-range planning, it does not mean the Board must now make hasty, quick decisions and cut the heart from the schools. Mr. Hooks asked Dr. Dawkins if staff has identified the number of positions he will lose from his staff? Dr. Dawkins responded that this will be in the larger budget. Mr. Hooks stated that his feelings were hurt when he heard a speaker reference the Board spending many long days, because he only spent a half day looking at the budget. President Ramsey asked Mr. Hooks to keep his comments to the motion. Mr. Hooks stated that he believes the Board has been given the lesser of two evils, because neither option is good. When he came to the Board, he said his grandchildren were the reason for him serving on the Board, and they are a part of the Discoveries Program. As a Board member he promised his grandchildren and other children that they would receive the quality education they deserve; and the classroom should be the last place we cut. He said he has not heard anyone speak about academics; and he believes if the Board makes a decision to eliminate librarians and Discoveries teachers, the District will suffer.

Mrs. Bell noted that on May 14th in the discussion regarding ISS, Board member Crawley addressed the need to cut Discoveries teachers and she will never repeat the comment referencing these teachers. Mrs. Crawley called for a Point of Order because the speaker is not speaking to the motion. Mr. Ramsey asked Mrs. Bell to address the motion, and Mrs. Bell asked if the motion is not dealing with Options 1 and 2? Mr. Ramsey said that is correct. Mrs. Bell stated that Option 2 was never discussed or brought up until receiving the list of Reading Interventionists and Discoveries teachers last week from Mrs. Crawley. Mrs. Bell also said she could never support Option 2 and the discussion was around the block schedule, and she encouraged the Board to not support the substitute motion. Mr. Riall asked for the motions to be restated.

Mrs. Crawford asked if she understands correctly that Mrs. Crawley’s motion is to keep the 2012-13 staffing formula and the AB Block schedule. Staff responded that is correct.

Ms. Trammel asked if there is money to fund the motion on the floor? Dr. Dawkins explained that to fund the motion on the floor would mean depleting the fund balance or find other areas to cut. Ms. Trammel asked if the fund balance is depleted will this mean there will be a need to set up a RIF, and Dr. Dawkins responded the Board would need to set up a RIF at the same time.

Mr. Rachal asked for the purpose in changing the staffing formula? Mr. Ramsey asked Mr. Rachal to save this question for the main motion, because the motion on the floor is to not do either option. Mr. Rachal said he believes it is relevant to the motion on the floor and Dr. Dawkins explained that every year the Board looks at the staffing formula in order to make adjustments in the number of teachers and the class size. With Caddo having lost approximately 3,000 students, Dr. Dawkins stated that it is crucial that the numbers/proposals be visited and revisited. Mr. Rachal asked if the ratio addresses the number of students and if there is a loss of students, there is a reduction. Dr. Dawkins explained that when there is a reduction of students, there is a reduction in the number of teachers. Mr. Rachal asked if the staffing formulas would have to change just because the number of students decreases? Dr. Robinson clarified that is correct because if the number of students serviced is reduced, then the number of teachers is also reduced; however the staffing ratio remains the same. In looking at the General Fund budget,
82-85% of the budget is people and benefits; and if that is the target area where the deficit exists, then the impact could be on people. Mr. Rachal asked about the staffing formula and the real impact on the budget, and if the changes are just to address the budget, and the staff responded that is correct. Mr. Rachal stated that over the years the Board has reduced class sizes, has kept in place the supply money for teachers, provided for additional help for students as available; however, with the changes from the State, it makes it difficult for the Board to make needed changes. Ideally he would want all the classes to be small, and he believes the Board will need to make some difficult decisions in moving forward. He stated his opposition to both options proposed, and he believes there are other options available for the Board to consider. Mr. Rachal stated changes will need to be made and he thinks the Board needs to look more closely at what changes it makes. In the past three years, the Board has contributed an additional $17 million annually for employee benefits, and this is an area that the Board must address. While the Caddo Parish School System is in the business of educating children, he believes there is time to wait and get some better ideas on the table. He added he did not vote for this the last time and he would never support Option 2.

Mrs. Crawford stated that with the changes, she asked for clarification on recent Legislative changes relative to MFP and how this will affect the local District? David Hennigan explained that the State Department provided a simulation and the estimates are currently in the proposed budget, which are constantly being provided; however, the money the District should receive will not change the estimated $21.5 million deficit. Mrs. Crawford asked if the money comes, will it be a one time or will the District receive it annually? Mr. Hennigan stated that staff has not received any simulations for the coming year and the practice is until the District receives some authoritative word from the State Department, staff does not add it into the budget.

Mr. Hooks stated we are trying to save $7.4 million and Dr. Dawkins confirmed that is correct under Option 1. Mr. Hooks asked why was the contract with Ombudsman extended because this is approximately $3 plus million? Mr. Ramsey moved that this question is not in line with the motion on the floor.

Mrs. Crawley stated that we are talking about $7.4 million out of almost a half a billion dollars. Noting the item to increase the ombudsman program by $4 million, she said before the Board approves something that is not educationally sound, she believes it is prudent for the Board to have all its questions answered.

Mr. Pierson stated that even if the Board passes Option 1 or 2, it still has a $4 million shortfall; so this does not balance the budget, and the Board is hopeful that a windfall will come. He reminded the Board that last year it had the opportunity to float a bond for $133 million that would have built a new school in SW Shreveport and provide raises for all its teachers. If money is not raised, the Board will be back next year reconsidering the same item. While he does not want to see anyone not have a planning period, nor does he wish to cut Discoveries because it is something good for the students; however, until we get to the point where the Board can move forward.

Ms. Trammel moved, seconded by Mr. Riall, to call for the question on the substitute motion. Vote on the motion to end debate carried unanimously.

Vote on the substitute motion failed with Board members Crawley, Hooks and Rachal supporting the motion and Board members Riall, Green, Pierson, Trammel, Priest, Crawford, Ramsey, Armstrong and Bell opposed.

Miss Green asked for clarification on the amount of planning time teachers will have, and Mr. Abrams clarified that the way in which the motion is written, it is 90 minutes every other day; and when you do not have 90 minute planning periods, it is up to the administration as to how
the additional 45 minutes is set up. Miss Green stated that she sees that the planning time is actually in the hands of the administration and Mr. Abrams said that is partially correct. Miss Green stated that she came to today’s meeting to vote on something that the Board may have already voted on with the exception of adding 45 minutes.

Mrs. Armstrong stated her understanding that the teachers will have planning time set aside every day for teachers in the Modified Block. She also asked for verification of this information because of the need to be proactive. In getting these schedules, she desires to feel very good about it before she votes and that principals will take advantage of the help made available and that principals will accept the help necessary to provide the needed training to all teachers. Dr. Robinson reported that the high school principals met on this date and there are variations as to how it can be done. There are also persons in Professional Development who can help principals in this process. Also, staffing administrators were recognized and they will communicate with the principals as soon as a decision is made so they can assist them with the process. Dr. Dawkins reminded the Board that every school is different so the principals will need to make it work for their individual schools. Mrs. Armstrong stated she understands, but she wants a commitment that every high school will have that extra service. Mr. Abrams further explained that the School Board policy does not have anything included in it about planning times; however, the motion on the floor requires a planning period in the policy, and the time being included in the policy actually exceeds what State Law requires. Mrs. Armstrong also asked about the elementary staffing and that the formula states that every elementary school will be serviced with P.E., Art and Music; and she wants a commitment this will continue in place. Dr. Dawkins stated that this will not change.

Mrs. Crawley moved, seconded by Mr. Hooks, to amend the main motion to put into writing that every other day teachers in high school will have a 90-minute period one day and the next day a 45-minute, unencumbered planning period and that we will keep the same staffing formula for the elementary grades as in 2012-13, not rounded. Mr. Rachal asked if this is a substitute motion, and Mrs. Crawley said it is an amendment. Mr. Abrams said it is an amendment to change the planning period and this is not a substitute because it did not completely change the original motion. Mrs. Crawley explained that she wishes to have something in writing as to what will be done (high school modified block will allow a teacher on one day to have a 45 minute planning period and on the alternate date, a 90 minute day. She also wishes to leave the cap for Kindergarten to 22 and not increase the number to 26. Mr. Ramsey reminded Mrs. Crawley to speak to the amendment. Mr. Rachal stated he believes this is a substitute motion as it is stated and not an amendment. Mr. Ramsey agreed it is not a friendly amendment the way it was read, but it is actually a substitute motion. Mrs. Crawley stated she is adamant that she does not want 26 students in a class. Dr. Dawkins asked for clarification and Mrs. Crawley explained that on those days that teachers do not have a 90 minute planning period, she is asking that the administration allow for the 45 minute planning time for teachers. Dr. Dawkins stated that everyone school is different and every school will arrange it differently to reach the minimum 225 minutes a week planning time. Mrs. Crawley asked if the superintendent is saying on the days teachers do not have a 90-minute planning period they will only get 30 minutes for lunch; and the superintendent responded that is not what he said, but the administration will have the flexibility on those days to coordinate the planning time so that the teachers get the minimum 225 minutes per week. Mrs. Crawley said she is not willing to go with icky stuff.

Mr. Riall moved, seconded by Mrs. Bell, to call for the question on all motions on the floor. Vote on the motion to end debate on all motions on the floor carried with Board member Rachal opposed and Board member Crawford absent for the vote.

Vote on the substitute motion to accept the modified block and that it will be in writing that they will have a 45-minute unencumbered planning period on the days the teachers do not have a 90-minute planning period for every high school, and that we will not raise K-1 or Grades 5-6.
staffing ratio failed with Board members Green, Crawley and Hicks supporting and Board members Riall, Pierson, Trammel, Priest, Crawford, Rachal, Ramsey, Armstrong and Bell opposed.

Vote on the main motion carried with Board members Crawley, Hooks and Rachal opposed and Board members Riall, Green, Pierson, Trammel, Priest, Crawford, Ramsey, Armstrong and Bell supporting the motion.

Adjournment. Mr. Pierson moved, seconded by Mr. Riall, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:40 p.m.

Dr. Gerald D. Dawkins, Secretary

Larry E. Ramsey, President
The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at 4:30 p.m. on Tuesday, June 4, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Other school board members present were Steve Riall, Jasmine Green, Curtis Hooks, Mary Trammel and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mr. Ramsey led the prayer and Pledge of Allegiance.

PRESENTATIONS

Recognitions. Victor Mainiero, director of communications, and Dr. Mary Nash-Robinson, chief of staff, on behalf of the board, recognized the following students and staff members for recent achievements. President Ramsey and Superintendent Dawkins presented a certificate to each student group or employee in recognition of their accomplishments. School officials, family members and friends in attendance were also recognized.

Regional and State Science Fair Winners. The following students were recognized as regional/state first place science fair winners: Elementary Winners – Brandon Bass, 4th grade, Eden Gardens, Biochemistry; Hallie Brown, 5th grade, Eden Gardens, Physics & Astronomy; Nathaniel Epp, 5th grade, Eden Gardens, Engineering-Electrical & Mechanical; Eshaan Tandon, 4th grade, Eden Gardens, Behavioral & Social Sciences; Ella Jones, 5th grade, Riverside, Animal Science; Keith Mills, 5th grade, Riverside, Plant Science; Grace Sun, 5th grade, South Highlands, Medical & Health Sciences; Jameson Feeney and Garrett Chaisson, 5th grade, Eden Gardens, TEAM/Engineering-Materials & Bioengineering and Division A Overall Winners in Engineering – Materials & Bioengineering. Middle School Winners – Christopher Ferrier, 7th grade, Caddo Middle Magnet, Engineering-Materials & Bioengineering; Alex Witt, 8th grade, Caddo Middle Magnet, Cellular & Molecular Biology; Hunter Breedlove, 6th grade, Youree Drive, Animal Sciences; Hannah Shores, 6th grade, Youree Drive; Computer Science; and Behram Dossabhoy and Kyle Kaltenbach, 8th grade, Caddo Middle Magnet, TEAM/Earth and Planetary Science and STATE/TEAM Earth & Planetary Science. High School Winners (all from Caddo Magnet High) – Elijah Ash, 10th grade, Earth & Planetary Science; Kyle Dockendorf, 10th grade, Engineering-Materials & Bioengineering; Joseph Fitzgerald, 11th grade, Computer Science; Moez Hayat, 10th grade, Engineering-Electrical & Mechanical; Sean Nathan, 12th grade, Microbiology; Neil Nathan, 10th grade, Environmental Management; Kiley Simpson, 9th grade, Environmental Management; Annie Thai, 10th grade, Chemistry; Natalie Wang, 10th grade, Mathematical Sciences; Christopher Cole Weinland, 12th grade, Energy & Transportation; Morni Modi, 10th grade, Animal Sciences and STATE in Animal Sciences; Joan Liu, 12th grade, Biochemistry and STATE in Biochemistry; Ryan Browning, 12th grade, Cellular & Molecular and STATE in Cellular & Molecular Biology; Vincent Huang, 10th grade, Medical & Health Sciences and STATE in Medical & Health Sciences; and Henry Lin, 12th grade, Physics & Astronomy, Division C Overall Winner in Physics & Astronomy, Jr. International Science Fair Winner of $8,000 scholarship; and 2nd Place at International Science Fair, and a $50,000 scholarship.

Southwood JROTC Winner of Superintendent’s Challenge Cup. Mr. Mainiero stated that the JROTC Challenge Cup is a compilation of points from all district challenge competitions throughout the year (Drill Challenge, Color Guard Challenge, Orienteering Challenge, Rifle Marksmanship Challenge, Raider Challenge, Physical Fitness Challenge and Academic Bowl Challenge). Members of the Southwood JROTC were present and congratulated on this accomplishment.

Caddo Students of the Year. Mr. Mainiero announced that when the students of the year were recognized at last month’s meeting, Caddo’s district winners were in Baton Rouge competing for...
State Students of the Year. The following students were recognized as 2013 Students of the Year: Ceara Johnson (South Highlands Elementary), Caddo, Regional and Louisiana Elementary Student of the Year; Safa Michigan (Caddo Middle Magnet), Caddo, Regional and Louisiana Middle School Student of the Year; and Madeline Wagnon (Captain Shreve High School), Caddo and Regional High School Student of the Year. Mr. Mainiero announced that Madeline Wagnon was also named The Young Woman of Excellence by The Louisiana Legislative Women’s Caucus.

One Class at a Time Winners. Ronald Pradel, 6th-8th grade autism teacher at Caddo Middle Career & Technology, was recognized for receiving $1,000 for his scholastic program “Explore Baton Rouge”, where he took his autistic students to see the Old State Capitol Museum, the State Capitol Building and the LSU Campus.

Natalie Fox, Chemistry Teacher at C. E. Byrd High School, was recognized for her One Class at a Time grant which she used to buy apps to use on iPad minis she purchased with another grant for her classroom.

Louisiana Endowment for Humanities Teacher of the Year. Vicki Bell, teacher at Queensborough Elementary, was recognized for being selected as the Louisiana Endowment for the Humanities Teacher of the Year.

North Louisiana Wrestling Coach of the Year. Gene Strogen, coach at Huntington High School, was recognized for recently being named the North Louisiana Wrestling Coach of the Year. Mr. Strogen is the Wrestling coach at Huntington High School and teaches at the Caddo Middle Career and Technology Center.

Elementary Instructional Coordinator of the Year. Renee Ellis, Eden Gardens, was recognized for recently being named the Elementary Instructional Coordinator of the Year by the Caddo Elementary Coordinators’ Association.

Caddo Schools Counselors of the Year. The following were recognized as the 2012-13 Counselors of the Year: Elementary – Sydney Allen, Eden Gardens; Middle – Roslyn Davis, Youree Drive; and High School – Angela Andrews, Woodlawn Leadership Academy.

2014 Caddo Teachers of the Year. The following teachers were recognized as Caddo’s 2014 Teachers of the Year: Clarence Johnson, Forest Hill, Elementary Teacher of the Year; April Bohannon, Vivian Middle, Middle School Teacher of the Year; and April Carberry, C. E. Byrd High School, High School Teacher of the Year. April Carberry represented Caddo in the State competition.

Caddo Principals of the Year. The following principals were recognized as Caddo’s 2012-13 Principals of the Year: Tyrone Burton, Cherokee Park, Elementary Principal of the Year; Keith Burton, Caddo Middle Magnet, Middle School Principal of the Year; and Dr. Sandra McCalla, Captain Shreve, High School Principal of the Year. Keith Burton represented Caddo in the State competition.

Fair Park Alumni Presentation. David Bamburg, 1978 Fair Park Alumni, presented to Jimmy Windham who coached at Fair Park High School for his years of service to the students at Fair Park High School and the Caddo Parish Public Schools.

Newly Appointed Administrators. Dr. Mary Nash-Robinson introduced Shalanda Coleman-Smith, instructional coordinator at Westwood Elementary, as the new instructional coordinator at Pine Grove Elementary.
ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JUNE 18, 2013 CPSB MEETING

Superintendent Dawkins highlighted items for the Board’s consideration at the June 18, 2013 CPSB meeting and the following discussion ensued.

**Official Journal.** Mrs. Bell asked that the staff provide her with additional information on the bid process for the Official Journal: how much do we pay the Shreveport Times a year, what other journals submit bids, how much does the Shreveport Sun and Caddo Citizen cost. Ms. Trammel explained that the only reason we use The Times is they have the larger circulation and a daily circulation as opposed to weekly for the other newspapers.

**2013-2014 Consolidated General Fund Budget.** President Ramsey announced another budget work session will be scheduled for June 11th at 3:30 p.m.

**Ombudsman Contract.** President Ramsey announced that he would like to refer this item to the Long-Range Planning Committee for answers to the questions submitted by Mr. Hooks. He also announced that Ombudsman will provide a report on the year once grades and other items are finalized. Mr. Hooks agreed.

**ADDITIONS**

Mr. Riall asked that the July Board Meeting Date be added to the June 18th agenda. Mr. Ramsey announced that normally during July the Board only holds one meeting and in looking at the calendar, he suggested that the Board meet on July 16th, which is the regular Board meeting date.

Mr. Ramsey announced that the consent agenda items will be 7.01, 8.02-8.05, 8.07-8.10. Mr. Pierson moved, seconded by Mrs. Crawford, to approve the agenda and proposed consent agenda for the June 18, 2013 CPSB meeting as presented. Vote on the motion carried unanimously.

**POLL AUDIENCE**

Cassandra English addressed the Board on the future of instructional specialists in Caddo Parish as shared in previous meetings and shared with the Board the many responsibilities of an instructional specialist. She asked if the Board does eliminate these positions, she encouraged the Board to seek input from the instructional specialists in placement in comparable positions.

Jackie Lansdale, president of Red River United, referenced comments of the previous speaker and that she believes she is saying the same thing – input. Mrs. Lansdale expressed her appreciation for the opportunity to work with the Superintendent’s Advisory Committee where the ability was afforded them to come to the table and hash out policy issues before they came to the Board. This opportunity has not happened in a long time; and with the Board speaking about having a policy committee, Board member Crawford asked that this committee look at the Maternity Leave policy for employees. She shared her shock when hearing that staff had devised a structure for high school schedules without any input and reminded the Board that they believe they have something valuable to bring to the table and would like to know when this committee might meet.

**Adjournment.** Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:35 p.m.
June 4, 2013

The Caddo Parish School Board (CPSB) Transportation Committee met at approximately 2:30 p.m. on Tuesday, June 4, 2013, in the boardroom, 1961 Midway Street, Shreveport, Louisiana. Committee members present were Mary Trammel, Chair; Steve Riall, Dottie Bell, Jasmine Green and ex-officio members Larry Ramsey and Carl Pierson. Ginger Armstrong was absent. Others in attendance were James Woolfolk, Otis Jones, Bruce Ross and Carl Corley of Ross Bus Sales in Alexandria, Louisiana; and Jackie Lansdale, Red River United. Mr. Pierson led the prayer.

**Buses.** Chair Mary Trammel recognized James Woolfolk, chief operations officer, and Otis Jones, director of transportation, who reported to the committee on the current bus fleet numbers, age, and replacement options. Mr. Jones reminded the committee that a bus, by law, must be pulled from usage after 25 years, and highlighted the following bus replacement proposals: (1) bus lease/purchase 5 years; (2) bus purchase; and (3) bus straight lease 5 years. Discussion was also held on the possibility of outsourcing and the benefits of this type plan versus purchasing buses. Staff was asked to look into the possibility of using the District’s debt service for the purchase of any buses. Staff also shared with the committee the cost comparison for each option, the cost of regular education and special education buses, five-year and 10-year lease options, mileage restrictions, cost for miles over mileage allotment, maintenance on leased vehicles, district responsibility for leased vehicles, etc. Following submission and discussion of data, Mr. Woolfolk stated that staff is not ready to make a proposal to the committee at this time, but hopes the information provides the committee with a better overall picture. When asked about vendors, staff stated there are only two that qualify in the State of Louisiana, and the 3rd is in Hammond.

**Policies.** Mr. Woolfolk reported that following the discussion at the first Transportation Committee meeting, staff collected policies from the Caddo Parish Sheriff’s Office, the City of Shreveport and Bossier and East Baton Rouge Parishes on their practices relative to employee absences. Following review and because these revisions could affect the District as a whole and not just bus drivers, it was suggested that the revisions be sent to Board Attorney Reggie Abrams and the Policy Review Committee so that Policy GDBD-D can be reviewed across the board. One of the main revisions looked at included having a signed statement from the Doctor’s Office after three days absence as opposed to the current six days absence. It was the consensus of the Transportation Committee to forward these proposed policy revisions relative to absences to Board Attorney Reggie Abrams and the Policy Review Committee. Another idea expressed was incentives for no absences (or not using all your allotted absences).

**Uniforms.** Ms. Trammel asked and discussion ensured on ways bus drivers can be identified as Caddo Parish School Board bus drivers. Following discussion, staff will look at possible ways of identifying bus drivers, i.e. vests.

**Assignments/Future Meeting(s).** Mrs. Lansdale announced that she will provide the information/questions discussed to bus drivers for input to bring back to the committee at its next meeting.

Staff members were asked to look at (1) the number of special routes (field trips, etc.), (2) the one-person routes (from one school to another during the day); inefficient routes, and (3) cameras on the remainder of school buses. These items will be discussed at the next meeting.

Ms. Trammel announced that the next meeting will be on June 19th at 10:30 a.m.

There being no additional items for discussion, the meeting adjourned at approximately 3:55 p.m.
The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 2:30 p.m. on Tuesday, June 11, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Lilian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Secretary Gerald D. Dawkins and Reginald Abrams. Mr. Rachal led the prayer and Pledge of Allegiance.

2013-14 Consolidated Budget. Superintendent Dawkins announced that staff is prepared today to provide an overview of where we are in the budget process. Jim Lee shared an update on the recent Legislative actions affecting education. Relative to the MFP, he reported that the Legislature approved HB 1, which includes the State’s overall budget, which includes an increase for school funding of approximately $69 million. Preliminary numbers mean an increase of approximately $4.7 million to Caddo Parish (approximately $4.4 million for the Caddo Parish Public Schools and the remainder to the two RSD charters and Magnolia Charter). Currently, it has cleared both the House and the Senate and is awaiting executive approval by the Governor. He referenced Dr. Dawkins’ comments relative to a pay raise and explained that ½ of what is received must be used for certified classroom teacher pay according to the way the legislation is written; and at this time, it is unknown whether this will be permanent or a one-time supplement so staff continues to work with the State to get clarification and to get the State’s definition of classroom teacher. Once this clarification is received, Mr. Lee reported staff will bring an update hopefully in the next couple of weeks. At this time, he added staff would also like to look at the possibility of including some local dollars to this amount and giving a supplement or increase to the support employees. Again, Mr. Lee reiterated that all this is preliminary until signed by the Governor and clarification is received. He also added that because it is still preliminary, it has not been included in the proposed budget for 2013-14. Once everything is known and finalized, a budget revision reflecting this can be brought to the Board for approval. Mr. Lee also reported that since the last meeting, staff has determined a way to be budget neutral and restore eight of the 14 Instructional Specialist positions recommended to be eliminated. He explained that these eight positions were initially put into place for the targeted schools and were never filled, so it is recommended to exchange these for reading specialists. Because the Special Education population continues to decrease each year, staff feels comfortable in this change and will continue to monitor and, if needed, add back what is needed and what the budget allows.

Mr. Lee announced that the proposed budget has not changed since the last work session, and still reflects a revenue to the General Fund of $372 million, expenditures of $376 million and deficit spending of approximately $4.2 million with an estimated ending undesignated fund balance of a little over $17 million. As previously stated, the budget does not include the possible refund of monies from the State; and while it may improve the budget; the bottom line will possibly be reduced significantly if the District must use ½ of the refund for teacher pay, and if the Board makes a decision to grant some type of pay for the support staff. He also reminded the Board of reductions incorporated into this proposed budget, i.e. staffing formula changes, reduction in Special Education teachers based on the department’s needs, and instructional specialists reduced by six as opposed to the original 14. Amounts for Special Education Aides, Instructional Supervisors, clerical did not change; and the amounts for substitutes, M&S, workers’ compensation and transportation are some areas in which adjustments have been made.

Relative to the additional funds, Mr. Lee reported that special revenue funds total approximately $62.7 million and capital projects funds (Parishwide capital projects and QSCB) total approximately $22 million. In the past, Mr. Lee said that revenue from bonds sold has been posted here, but all have been spent appropriately for HVAC upgrades and lighting retrofit so they are no longer included in this report. He also reported on the debt service fund expenditures.
of approximately $10 million for the principal and interest and some small payments on the bonded debt.

Mrs. Armstrong asked which and how will the eight instructional specialists be restored? Dr. Lockett responded that it will be by hire date in the district. Mrs. Armstrong also asked if staff has looked at the cost of transporting after-school athletics. Mr. Ramsey explained this is being addressed in the Transportation Committee.

Mrs. Crawley asked for specific information on the vacant positions found for instructional specialists? Mr. Lee responded there were eight reading specialists at the AU schools and as they have transferred or retired, the positions were not refilled. Mrs. Crawley asked if it is possible there are other type positions that have not been filled and are filling up the budget? Mr. Lee stated that staff can work with Human Resources to determine, but there are always vacant positions in Special Education and he hesitates to eliminate any Regular Education teachers because it is based on formula. Staff is also looking at Special Education because of the vacant positions and the need for fewer Special Education teachers. Mrs. Crawley also asked about the proposal to cut the teachers $200 M&S funds and if there is any way to look at putting in $100 M&S at the start of school by using $300,000 of the $400,000 in CEEF funds? Dr. Dawkins referenced previous discussions and staff will look further at this possibility. Mr. Lee reminded everyone that the balance has built up the last couple of years because there has not been a lot of interest; and a committee of school-based employees will need to meet and determine how the funds are to be spent.

Mrs. Bell asked Janis Parker about the $24 million in the 2012-13 budget special revenue funds and the $17 million budgeted in the 2013-14 and if the difference is what the Federal government will not be sending to Caddo? Mr. Lee stated this is staff’s best estimate, because there has been carryover money in the past that was used to supplement the current year; but everyone has taken a reduction from the Federal government. Ms. Parker states that we always receive 90% of last year’s allocation and this is what happened this year. She further explained that until all the bills are paid, we will not know how much carryover money there will be; but she does not believe we will be near the $24 million. Relative to the Child Nutrition funds, Mr. Lee explained that a minimum amount goes to this fund from MFP dollars; however, it has always far exceeded the minimum amount. This year it was reduced and this fund has been built up some without a loss this year. Mrs. Bell also asked Ms. Parker about Title I students that will attend the charter schools and if Caddo’s revenue will be reduced from the $17 million? Mr. Lee explained that Title I and Federal funds are different than MFP in that the Federal government reduces the money Caddo receives by the amount that they will send to the two charters.

Mr. Rachal asked Mr. Lee about the $10 million difference between the ending balance of $10,275,000 and the beginning balance of $20.5 million? Mr. Lee explained that it is an estimate of how staff believes the year will end and the $10 million is based strictly on the budget. However, with vacant positions and closely watching spending and cutting costs, the District historically finishes the year better than projected. Mr. Rachal asked Mr. Lee what percentage of the $10 million is unfilled positions, and Mr. Lee responded he would guess approximately 70-80%, and noted that the Special Education teachers were reduced by 50. Mr. Lee also stated that there may be regular education teaching positions, but because there is a need at the school, these vacant positions are filled with subs. He also referenced Mrs. Armstrong’s comment regarding Transportation and he hopes the committee will bring something that the Board can implement and hopefully impact the current budget and end the year better than projected. He also asked if staff has any idea about the numbers relative to benefits and what is being considered in this area. Mr. Lee explained staff is looking at this and various possibilities, i.e. passing larger portion of the premium to the employees reducing the District’s cost, implementing a basic plan for employees; however, with the Affordable Care Act, and as rich as Caddo’s benefits are, we are considered grandfathered which means there are a lot of costs that the Federal Government
requires employers to cover the we don’t have to cover. If the District changes its plan much more (it has already increased the office co-pay, and a few other things slightly), it risks losing its grandfather status. He added that Mr. Watson is looking at this and staff will continue to look at it over the summer to determine if the changes are made, what will be the net savings. Mr. Ramsey announced that Ms. Priest is chair of the Insurance Committee and this will be one of the main topics for that committee when they meet in the very near future. Mr. Lee also referenced the comment that we don’t have to wait until the next budget year to look at these changes, and he reminded the Board that our insurance plan year does not follow Caddo’s budget year and whatever decision is made will have an impact on the budget the Board is currently looking at. Mr. Rachal stated with the changes in the staffing formula and the AB Modified Block, he believes some of the cuts being made are being paid for by the teachers and he asked what consolidations for schools are being considered at this time and what would the cost savings be. In admitting that the student population is decreasing, he stated that you can’t continue to keep all the buildings we currently occupy. Mr. Ramsey stated this issue has also been referred to committee and the committee will bring back information and a recommendation for the Board’s consideration. Dr. Dawkins explained that still available from the Vision 2020 Plan is the proposed $24 million savings via consolidation of buildings, and the need is still great. Mr. Rachal encouraged the Board to submit consolidation ideas to Mrs. Armstrong so all of them can be put on the table and discussed.

Mr. Hooks stated that initially we began with a projected 94 Special Education positions being cut, and he asked staff how many positions will be cut at this point? Mr. Lee explained the 50 positions, 30 special ed aides, and 6 instructional specialists for a total of 86 positions. Mr. Hooks asked if Behavior Intervention Specialists are considered Special Education and staff responded they are. Mr. Hooks asked if Behavior Intervention Specialists were moved and Dr. Lockett responded they were not and all are still in place. Mr. Hooks asked if Special Education is the department hit the hardest? Mr. Lee responded in a sense, yes they are, however, it was based on the Special Education Department’s projected needs. Mr. Hooks asked if it is possible to find some additional positions, and Mr. Lee said while it may be difficult, he and staff will continue to restore what is possible. Mr. Hooks said he asks these questions because of the need to be careful when addressing Special Education so as not to get into trouble. Dr. Dawkins interjected that staff will continue to look at possibilities and areas where there is a need.

Mr. Pierson shared the importance of instruction and the need, as the District anticipates additional funding, to address some critical areas. He encouraged the Board that as it goes through the possible return of funds to the District to look at those areas where teachers expect the most from their supervisor. Mr. Pierson also asked staff to explain a transportation analyst. Mr. Woolfolk explained there are two employees that set up routes in the computer system, manage the camera system, and other technical aspects in the department.

Mr. Riall asked about funds for the alternative program supplies and the huge increase in this budgeted amount? Mr. Lee explained that this is the line item where the outsourcing (Ombudsman) was placed. Mr. Riall asked about the change in the remediation amount from $5 million to approximately $240,000, and Mr. Lee explained that was a reclassification of the incentives from the targeted schools, and this amount was moved to the teachers’ salaries. Mr. Riall asked about the double in the cost for summer school, and Mr. Lee explained that this is based on the number of anticipated students and the cost of remediation, and the District no longer receives any funds for remediation. Under pupil support supplies, equipment and services Mr. Riall asked about the change in the dollar amount from $200,000 to $550,000, and Mr. Lee explained that is where the amount increased by $300,000 for an evaluation system. Mr. Riall asked about the line item on total expenditures for May-June. Mr. Lee explained that is how the system must account for school based staff who receive checks in July and August.
Ms. Priest asked about local revenue sources and the fact that they are budgeted slightly higher and if staff has taken into account the impact of the layoffs at Schumpert, Libbey Glass, the furloughs at Barksdale and LSU Hospital. Mr. Lee explained that property taxes are the only revenue source being predicted higher and that is because home values continue to increase. He also stated that there is no budgeted increase in sales tax revenue because even before the announcement of layoffs and furloughs, the Haynesville Shale revenue has declined. Ms. Priest also asked Mr. Lee to clarify the difference in the positions of school resource officers, security, and crossing guards? Mr. Lee stated that Mr. Murry is out of town, but he will get with him and provide an answer to her question.

Mrs. Crawley asked about a breakdown in after-school transportation and even if it is in committee will she still be able to get a response to her question? She also noted that committee meetings are being called with only 24-26 hours notice and she would like for the committee chairs to be more sensitive to this practice.

Mr. Hooks asked Mr. Lee about the $22 million in the capital fund projects and if we are spending money on the four AU high schools? Mr. Lee responded the designated capital projects are projects the Board approved for next year. Mr. Hooks said since this was approved before the Board knew, he believes the Board may need to reconsider; because money spent should only be for emergency purposes. Mr. Lee explained the Superintendent has directed staff to only address health and safety issues. Mr. Ramsey announced that Mrs. Crawford is the chair of the capital projects committee and he will visit with her about the committee looking at this.

Mrs. Bell asked for clarification on the District having all schools ready for testing next year? Dr. Dawkins responded it is for PARCC Assessment for the Common Core curriculum which means we must have in place ample technology for State testing because tests will be electronically delivered in 2014-15. Mrs. Bell asked if this will come from capital projects and Mr. Lee said it will come from the General Fund. Mrs. Bell asked that this be referred to the committee. Mrs. Bell also asked how will a furnace that goes out at Huntington be addressed? Mr. Lee stated if it is the boiler, it would be considered an emergency and would be replaced. Mrs. Bell asked if it is correct that the principal evaluates new teachers, but it is the assistant principal who helps the new teachers.

Mrs. Armstrong asked about the previous summer school questions and the increase in expenses. She asked if the District is required, by law, to have summer school for Leap and iLeap remediation? Mr. Lee responded that is correct. Mrs. Armstrong asked why are we remediating so many students, why are they not getting what they need during the school year and why are they not applying themselves? She stated she believes there is a need to put something in place to involve the parents of these students and encourage them in the importance of their student’s instruction. Leisa Edwards explained that the District is mandated by the Department of Education to offer remediation for students who fail the Leap in the 4th and 8th Grade, GEE and EOC testing, and every year the State raises the bar. She shared an example of how the points are done in the system and how attendance works very hard to try and get these students in school, because if a student misses 60-70 days, a student will not be successful on the test. For the students that are absent, staff is contacting them and explaining to them the importance of passing the test; and if they do not take the test, they will be retained. She also stated that the summer school enrollment is 1,794, but there are parents who sign waivers for their students not to attend summer school. She added that the District also provides free transportation for all students being remediated. Mrs. Armstrong asked staff to revisit the positions in the Transportation Department to determine if any can be reduced. Mr. Jones added that the Transportation Department has recently taken on the responsibility for all trips and the GPS monitoring of all the buses. Mrs. Armstrong stated she believes this will be something the Transportation Committee looks at also, because she believes the responsibilities are being over extended in this area and may need to be revisited.
Mr. Riall asked for clarification on the discrepancy in the number of supervisors in Transportation versus the number of supervisors in the budget? Mr. Lee stated that he will revisit this because when the position was put into Transportation, three bus driver positions were eliminated. Mr. Riall asked about the positions at the Vivian Garage and Mr. Jones responded there is a shop foreman, shop mechanics and a secretary. Mr. Riall also asked about the 30,000 extra trips, and Mr. Jones explained that these are all trips other than transporting to school and back home. Mr. Riall asked how much of the cost is paid by the schools? Mr. Jones explained that trips can be paid for by the school, by a contract organization (after school tutoring programs), and the Transportation Committee is currently looking at this. Mr. Lee also clarified that the $250,000 does not include the cost of the bus driver. Mr. Riall asked if summer school is free, and Mr. Lee responded that remediation for those who do not pass the Leap or iLeap is free; but there is a middle and high school summer program that is a fee program.

Miss Green asked about the PARCC Assessment because one of her principals explained to her that Kindergarten students will also do the PARCC Assessment. Dr. Dawkins explained that it does extend to the early elementary (K-1), and the District has to deliver a 7:1 ratio, but Caddo is recommending a 5:1 ratio in electronic devices, not an electronic device for every student. Title I and other funds will be used to assist in getting the schools PARCC ready.

Mrs. Crawley asked about the line item for the Parent Resource Center and the cost of the materials for the summer. Ms. Parker explained that these were purchased from Title I and all that was ordered was distributed to parents.

Ms. Priest asked that as the Board goes through the finalization of the budget process, there appears to be a need to look at the efficiencies and how we can become leaner and more effective with our resources, i.e. transportation. Mr. Ramsey added that the staff has provided the Transportation Committee with a lot of data in this area and the committee will be reviewing it more closely in the near future.

Mrs. Bell asked about the summer savings/cutbacks by working four days and being closed on Fridays, and if employees in the schools for the evening shifts must turn off the air conditioning? Mr. Smith explained that most of the schools have override timers in place to enable the custodial staff to override and continue to work in air condition.

Mr. Ramsey encouraged Board members to continue to contact staff for answers to questions and announced that at the June 18th meeting a public hearing will be held on the budget as part of the process before the Board votes on the 2013-14 Consolidated Annual Budget.

There being no additional discussion/questions, the meeting adjourned at approximately 4:00 p.m.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, June 18, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and visitors. Mr. Rachal led the prayer and Pledge of Allegiance.

RECOGNITIONS AND PRESENTATIONS

Recognitions. Victor Mainiero, director of communications, on behalf of the board, recognized the following students and staff members for recent achievements. President Ramsey and Superintendent Dawkins presented a certificate to each student group or employee in recognition of their accomplishments. School officials, family members and friends in attendance were also recognized.

Dale Hawley National Leadership Award. Brooklyn Brown, Captain Shreve High School Student Council President, was recognized for being awarded the Dale Hawley National Leadership Award at the Louisiana Association of Student Councils Convention held at Sulphur High School. This award is the highest honor a high school senior can receive from the National Association of Student Councils. Martha Goza, Student Council Sponsor, accepted this award on Brooklyn Brown’s behalf.

2013 National Gold Council of Excellence Award. The following students from Captain Shreve’s Student Council were awarded the National Association of Student Council’s National Gold Council of Excellence Award: Shelby Paine, President; LaJarious Jones, Vice President; Windy Steele, Recording Secretary; Megan Bundrick, Treasurer; Regina Champagne, Corresponding Secretary; Ameilia Fertitta, parliamentarian; Allison Waddell, Historian; Brooklyn Brown, Outgoing President, Martha Goza, Sponsor.

KTBS One Class at a Time Winner. Nicole Nelson, Turner Elementary teacher, was recognized as the winner of the KTBS $1000 One Class at a Time award, which she used to partner with other teachers at Turner to begin a “Partner Reading” program in K-3rd grade.

Pine Grove Elementary Volunteer. Sharon Wiggins was invited to be one of 23 school volunteers in Louisiana chosen by A+PEL to attend the School Volunteer Award Ceremony at the Governor’s Mansion in Baton Rouge, Louisiana.

North Caddo Science Teacher Awarded Teach Fellowship. Karen Merritt was recognized as the first from Louisiana to be awarded the TEACH Fellowship (Teachers Educating Across Cultures in Harmony).
June 4, 2013

The Caddo Parish School Board (CPSB) Transportation Committee met at approximately 2:30 p.m. on Tuesday, June 4, 2013, in the boardroom, 1961 Midway Street, Shreveport, Louisiana. Committee members present were Mary Trammel, Chair; Steve Riall, Dottie Bell, Jasmine Green and ex-officio members Larry Ramsey and Carl Pierson. Ginger Armstrong was absent. Others in attendance were James Woolfolk, Otis Jones, Bruce Ross and Carl Corley of Ross Bus Sales in Alexandria, Louisiana; and Jackie Lansdale, Red River United. Mr. Pierson led the prayer.

**Buses.** Chair Mary Trammel recognized James Woolfolk, chief operations officer, and Otis Jones, director of transportation, who reported to the committee on the current bus fleet numbers, age, and replacement options. Mr. Jones reminded the committee that a bus, by law, must be pulled from usage after 25 years, and highlighted the following bus replacement proposals: (1) bus lease/purchase 5 years; (2) bus purchase; and (3) bus straight lease 5 years. Discussion was also held on the possibility of outsourcing and the benefits of this type plan versus purchasing buses. Staff was asked to look into the possibility of using the District’s debt service for the purchase of any buses. Staff also shared with the committee the cost comparison for each option, the cost of regular education and special education buses, five-year and 10-year lease options, mileage restrictions, cost for miles over mileage allotment, maintenance on leased vehicles, district responsibility for leased vehicles, etc. Following submission and discussion of data, Mr. Woolfolk stated that staff is not ready to make a proposal to the committee at this time, but hopes the information provides the committee with a better overall picture. When asked about vendors, staff stated there are only two that qualify in the State of Louisiana, and the 3rd is in Hammond.

**Policies.** Mr. Woolfolk reported that following the discussion at the first Transportation Committee meeting, staff collected policies from the Caddo Parish Sheriff’s Office, the City of Shreveport and Bossier and East Baton Rouge Parishes on their practices relative to employee absences. Following review and because these revisions could affect the District as a whole and not just bus drivers, it was suggested that the revisions be sent to Board Attorney Reggie Abrams and the Policy Review Committee so that Policy GDBD-D can be reviewed across the board. One of the main revisions looked at included having a signed statement from the Doctor’s Office after three days absence as opposed to the current six days absence. It was the consensus of the Transportation Committee to forward these proposed policy revisions relative to absences to Board Attorney Reggie Abrams and the Policy Review Committee. Another idea expressed was incentives for no absences (or not using all your allotted absences).

**Uniforms.** Ms. Trammel asked and discussion ensured on ways bus drivers can be identified as Caddo Parish School Board bus drivers. Following discussion, staff will look at possible ways of identifying bus drivers, i.e. vests.

**Assignments/Future Meeting(s).** Mrs. Lansdale announced that she will provide the information/questions discussed to bus drivers for input to bring back to the committee at its next meeting.

Staff members were asked to look at (1) the number of special routes (field trips, etc.), (2) the one-person routes (from one school to another during the day); inefficient routes, and (3) cameras on the remainder of school buses. These items will be discussed at the next meeting.

Ms. Trammel announced that the next meeting will be on June 19th at 10:30 a.m.

There being no additional items for discussion, the meeting adjourned at approximately 3:55 p.m.
Public Hearing on the 2013-14 CPSB Consolidated Annual Budget. President Ramsey declared the public hearing open on the 2013-14 CPSB Consolidated Annual Budget.

Jackie Lansdale, Red River United, stated there are two areas she would like to bring to the Board’s attention: (1) changes relative to the staffing formula and the planning time (some schools have not been able to plan this), and (2) the supply money for teachers. She stated that relative to the change in the staffing formula and the change in the planning time, there are some problems in some schools being able to accommodate the time everyday without the consideration of lengthening the school day, and she believes this is in compliance with State law and BESE policy. Mrs. Lansdale also said if this type turmoil was created anywhere besides public education, someone would lose their job; and if the school day is lengthened to provide the planning time, the Board can expect to see a legal challenge brought against it. Relative to the supply money, Mrs. Lansdale stated she has not heard anything about a CEEF committee meeting taking place to address the CEEF money and provide the resources to the classroom.

There being no additional speakers, President Ramsey declared the public hearing closed.

VISITORS

Jackie Lansdale, president of Red River United, announced they launched a Principals Report Card last month, which is a survey for educational professionals to evaluate their administration by honestly assessing the school environments. She said the results from the survey were overwhelming and they spanned the spectrum from glorious to the quasi profane and she highlighted some of the responses received. Noting that sometimes the bullies are the principals, which makes it difficult to keep good teachers, the Board should be instructing the Superintendent who instructs the principals to meet with the teachers to see what is best for that school. She encouraged the Board to look at the turnovers, the status of teachers at a school and ask them. Mrs. Lansdale also announced that RRU is prepared to conduct bullying workshops if the Board will so allow them to do so and she will not rest until some of the principals are removed from the schools where they are located because they are a harm to the boys and girls in the neighborhoods.

Billy Wayne, executive director of Urban Support Agency, addressed the Board on the successful results they have experienced in Caddo relative to academic tutoring and high caliber enrichment programs for the children. He stated that USA has endeavored to be a valuable contributor to Caddo through increasing student performance scores and decreasing student discipline problems. The district over the past several years has been in partnership between out of district providers in Title 1 schools. These successful endeavors have not only allowed sight leadership options, but have exhibited the desire within the district to show community program involvement. In respect to this, Mr. Wayne stated that the agency is requesting answers to three questions.

1. As of this date, they have not been informed formally of what the District plans to do in regards to Title I after school Super Saturday tutoring programs for the upcoming 2013-14 school year.
2. Will there be discussions with 2012-2013 Title 1 providers in regards to those years program operations were at Title 1 schools, i.e. we just completed a year of operating as a partnership with the District at Title 1 schools whereby administrators chose their providers, and will there be discussion regarding the results?
3. Should the District decide to go in another direction for 2013-2014 with these Title 1 monies, will the reasons as to why be stated?

He said the agency appreciates the opportunities to serve students in Caddo Parish and would appreciate a written response to these questions.
Jon Glover, employee, shared information on a forum she attended where an issue of mass proportion was discussed pertaining to race relations in Caddo Parish. At the top of their concern was the present status relative to education and to see how race has been an instrument in determining the success and failure of educating every child in Caddo Parish. Oftentimes when facing the unknown, fear sets in and this inhibits one from acting properly, and she believes such is the case with the Caddo system. She asked if the school system is to survive the impending, fast approaching devastation will the Board not allow someone like her and others to help it regain its footing? Ms. Glover said the focus should be on educating every child in Caddo Parish; but yet she sees every educational opportunity being deteriorated for inner city students. She shared charts reflecting that every inner city school in Caddo Parish is in jeopardy and she asks why? With the decline in the education system over the past 20 years, she doesn’t see where any viable solution has been brought forth to address this concern. Many programs have been implemented, but they have only seen more failure; and a system divided against itself will not stand and that is the current persona projected by Caddo Parish. She said she knows there are those that have issue with her continually bringing such issues to light; but until it is addressed, she is here. She encouraged the Board to please note that every effort is expended to bring about the school system; otherwise, the handwriting is on the wall and students will be left behind. It’s the Board members that are the stewards for guiding the educational system and asked the Board if it knows its flock; because if not, it could be the flock that has set a course of destruction for the system. Good leadership will assure success in the system; and without good leadership, the District is doomed.

Eppie Adams, Caddo District PTA, referenced a comment from the meeting earlier today as to where the community in the stakeholders meeting, and based on the attendance in the monthly school board meetings, the attendance at the stakeholders meetings was approximately the same. She noted that one of the meetings that had the fewest attendees had the most to say and went over the one-hour allotted time; and in the two meetings she attended she noticed that people wanted to speak and wanted to be heard. Thus, she doesn’t believe it is necessarily where the community is, but maybe an issue of trust between the community and the School Board. Ms. Adams stated that some possible solutions might be to have some smaller town hall type meetings and facilitated discussions because people will be more likely to speak at these. She encouraged the Board to get out in the schools and volunteer in the classroom, to strive in the coming school year to reach out and get to know the community, and hopefully regain trust.

Glen Davenport, employee, addressed the Board on an issue relative to his current working conditions. He stated that he believes management has forgotten their role to encourage and insure that every employee is treated fairly. Mr. Davenport shared he is discontented with his present situation and wonders if he can trust the Board to address his needs and concerns. Mr. Hooks asked the superintendent to look into this situation, and Mr. Rachal asked for a report to be submitted to the Board.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE JUNE 18, 2013 CPSB MEETING

Superintendent Dawkins highlighted items for the Board’s consideration and President Ramsey announced that the following items will be the consent agenda: 6.02, 7.01, 8.02-8.04, 8.07-8.11. Dr. Dawkins announced that there are no personnel recommendations today; however, he has talked to the Board President about possibly calling a special meeting to address personnel recommendations. He also announced that 8.12 “Request for Level 4 Grievance Hearing” has been resolved. Ms. Priest moved, seconded by Ms. Trammel, to approve the agenda and proposed consent agenda as submitted. Vote on the motion carried. The following is a summary of the Board’s action on consent agenda items.
**Item No. 6**

**6.02 Personnel Transactions Reports.** The board approved the personnel transactions reports for the period of April 19, 2013-May 24, 2013 as recommended by staff and submitted in the mailout.

**Item No. 7**

**7.01 Bids (Purchasing).** The board approve the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Oak Farms Dairy, totaling $1,124,435.00 and Blue Bell Creameries, totaling $79,521.00 for the purchase of Milk and Dairy Products; (2) Flowers Baking, totaling $192,320.00 for the purchase of Bread and Bread Products; and (3) Oak Farms Dairy, totaling $1,315,650.00 for the purchase of fruit juice. A copy of the bid tabulations sheets is filed in the official record of the June 18, 2013 CPSB meeting.

**Item No. 8**

**8.02 Long-Term Use of CPSB Facilities.** The board approved the requests for long-term use of BTW’s gymnasium and Green Oaks Theatre of The Performing Arts (Yazzy) as recommended by staff and submitted in the mailout.

**8.03 Request for Use of Buses.** The board approved the requests for use of Caddo’s buses as recommended by staff and submitted in the mailout.

**8.04 Rename Southwood High School Gymnasium for Coach Steve McDowell.** The board approved renaming the Southwood High School gymnasium for Coach Steve McDowell.

**8.07 Proposed Oil, Gas & Mineral Lease, Strata Acquisitions, LLC.** The board approved resolution authorizing the State Mineral Board to act on behalf of Strata Acquisitions, LLC, in acquiring an Oil, Gas and Mineral Lease on land owned by the Caddo Parish School Board and as described in the mailout.

**8.08 Authorization to Lease Hamilton Terrace School Property.** The board authorized staff to bid out for lease the Hamilton Terrace school property.

**8.09 Authorization to Piggyback on Bossier Parish School Board's 2011-12-68 for School Bus Recording System.** The board authorized the Caddo Parish School Board Transportation Department to piggyback on Bossier Parish School Board’s bid for two digital cameras and software totaling $1,068.

**8.10 July Board Meeting Date.** The board approved combining the July work session and the regular session and holding only one meeting in July on July 16.

**8.11 Resolution Providing for Canvassing the Returns and Declaring the Results of the Special Election Held on May 4, 2013.** The board approved the following resolution for canvassing the returns and declaring the results of the Special Election held on May 4, 2013.

**RESOLUTION**

A resolution providing for canvassing the returns and declaring the results of the special election held in the Parishwide School District of Caddo Parish, Louisiana, on Saturday, May 4, 2013, to authorize the renewal of special taxes therein.
BE IT RESOLVED by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of the Parishwide School District of Caddo Parish, Louisiana, that:

SECTION 1. Canvass. This Governing Authority does now proceed in open and public session to examine the official tabulations of votes cast at the special election held in the Parishwide School District of Caddo Parish, Louisiana, on SATURDAY, MAY 4, 2013, to authorize the renewal of special taxes therein, and said Governing Authority does further proceed to examine and canvass the returns and declare the results of the special election.

SECTION 2. Procès Verbal. A Procès Verbal of the canvass of the returns of said election shall be made and a certified copy thereof shall be forwarded to the Secretary of State, Baton Rouge, Louisiana, who shall record the same in his office; another certified copy thereof shall be forwarded to the Clerk of Court and Ex-Officio Recorder of Mortgages in and for the Parish of Caddo, who shall record the same in the Mortgage Records of said Parish; and another copy thereof shall be retained in the archives of this Governing Authority.

SECTION 3. Promulgation of Election Results. The results of said election shall be promulgated by publication in the manner provided by law.

This resolution having been submitted to a vote, the vote thereon was as follows:

MEMBERS:    YEAS: NAYS: ABSENT: ABSTAINING:
Steve Riall         X         ____        ____
Jasmine Green         X         ____        ____
Carl A. Pierson, Sr.         X         ____        ____
Charlotte Crawley         X         ____        ____
Curtis Hooks         X         ____        ____
Mary Trammel         X         ____        ____
Lillian Priest         X         ____        ____
Bonita Crawford         X         ____        ____
Barry F. Rachal         X         ____        ____
Larry Ramsey         X         ____        ____
Ginger Armstrong         X         ____        ____
Dottie Bell         X         ____        ____

And the resolution was declared adopted on this, the 18th day of June, 2013.

/s/ Gerald Dawkins                                 /s/ Larry Ramsey
Secretary                   President

BE IT KNOWN AND REMEMBERED that on Tuesday, June 18, 2013, at four-thirty o'clock (4:30) p.m., at its regular meeting place, the Board Room, 1961 Midway Avenue, Shreveport, Louisiana, the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of the Parishwide School District of Caddo Parish, Louisiana (the "District"), and being the authority ordering the special election held therein on Saturday, May 4, 2013, with the following members present: Steve Riall, Jasmine Green, Carl Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Larry Ramsey, Ginger Armstrong, Dottie Bell.

There being absent: None

did, in open and public session, examine the official certified tabulations of votes cast at the said election, and did examine and canvass the returns of the said election, there having been submitted at said election the following propositions, to wit:

PROPOSITION NO. 1
(MILLAGE RENEWAL)
Shall the Parishwide School District of Caddo Parish, Louisiana, levy a 17.11 mills tax on all the property subject to taxation in the District (an estimated $27,842,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2014 and ending with the year 2023, for the purpose of providing funds for operation, maintenance and additional support of public elementary and secondary schools in Caddo Parish, Louisiana?

PROPOSITION NO. 2
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy a 6.86 mills tax on all the property subject to taxation in the District (an estimated $11,163,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2014 and ending with the year 2023, for the purpose of acquiring sites for and the construction and improvement of public school buildings and other public school facilities in Caddo Parish, Louisiana?

PROPOSITION NO. 3
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy an 11.26 mills tax on all the property subject to taxation in the District (an estimated $18,323,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2015 and ending with the year 2024, for the purpose of providing additional support to public elementary and secondary schools in Caddo Parish, including the acquisition, replacement and maintenance of microcomputers, buses, air conditioners, and other equipment, and for the operation and maintenance of the public school system of Caddo Parish, Louisiana?

There was found by said count and canvass that the following votes had been cast at the said special election IN FAVOR OF and AGAINST, respectively, the propositions as hereinabove set forth at the following polling places, to-wit:

</table>
The polling places above specified being the only polling places designated at which to hold the said election, it was therefore shown that

(i) there was a total of 7,276 votes cast **IN FAVOR OF** Proposition No. 1 and a total of 4,183 votes cast **AGAINST** Proposition No. 1, as hereinabove set forth, and that there was a majority of 3,093 votes cast **IN FAVOR OF** Proposition No. 1 as hereinabove set forth;

(ii) there was a total of 7,139 votes cast **IN FAVOR OF** Proposition No. 2 and a total of 4,300 votes cast **AGAINST** Proposition No. 2, as hereinabove set forth, and that there was a majority of 2,839 votes cast **IN FAVOR OF** Proposition No. 2 as hereinabove set forth; and

(iii) there was a total of 7,265 votes cast **IN FAVOR OF** Proposition No. 3 and a total of 4,157 votes cast **AGAINST** Proposition No. 3, as hereinabove set forth, and that there was a majority of 3,108 votes cast **IN FAVOR OF** Proposition No. 3 as hereinabove set forth.

Therefore, the Governing Authority did declare and proclaim and does hereby declare and proclaim in open and public session that Proposition No. 1, Proposition No. 2 and Proposition No. 3 as hereinabove set forth were duly **CARRIED** by a majority of the votes cast by the qualified electors voting at the said special election held in the District on Saturday, May 4, 2013.
EXHIBIT “A” attached hereto and made a part of this Procès Verbal is a copy of the Notice of Special Election and proof of publication thereof.

THUS DONE AND SIGNED at Shreveport, Louisiana, on this, the 18th day of June, 2013.

ATTEST: /s/ Larry Ramsey 
President

/s/ Gerald Dawkins 
Secretary

EXHIBIT "A"

NOTICE OF SPECIAL ELECTION

Pursuant to the provisions of a resolution adopted by the Parish School Board of the Parish of Caddo, State of Louisiana (the "Governing Authority"), acting as the governing authority of the Parishwide School District of Caddo Parish, Louisiana (the "District"), on January 15, 2013, NOTICE IS HEREBY GIVEN that a special election will be held within the District on SATURDAY, MAY 4, 2013, and that at the said election there will be submitted to all registered voters in the District qualified and entitled to vote at the said election under the Constitution and Laws of the State of Louisiana and the Constitution of the United States, the following propositions, to-wit:

PROPOSITION NO. 1
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy a 17.11 mills tax on all the property subject to taxation in the District (an estimated $27,842,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2014 and ending with the year 2023, for the purpose of providing funds for operation, maintenance and additional support of public elementary and secondary schools in Caddo Parish, Louisiana?

PROPOSITION NO. 2
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy a 6.86 mills tax on all the property subject to taxation in the District (an estimated $11,163,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2014 and ending with the year 2023, for the purpose of acquiring sites for and the construction and improvement of public school buildings and other public school facilities in Caddo Parish, Louisiana?

PROPOSITION NO. 3
(MILLAGE RENEWAL)

Shall the Parishwide School District of Caddo Parish, Louisiana, levy an 11.26 mills tax on all the property subject to taxation in the District (an estimated $18,323,000 reasonably expected at this time to be collected from the levy of the tax for an entire year), for a period of 10 years, commencing with the year 2015 and ending with the year 2024, for the purpose of providing additional support to public elementary and secondary schools in Caddo Parish, including the acquisition, replacement and maintenance of microcomputers, buses, air conditioners, and other equipment, and for the operation and maintenance of the public school system of Caddo Parish, Louisiana?
The said special election will be held at the following polling places situated within the District, which polls will open at seven o'clock (7:00) a.m., and close at eight o'clock (8:00) p.m., in accordance with the provisions of La. R.S. 18:541, to-wit:

The polling places set forth above are hereby designated as the polling places at which to hold the said election, and the Commissioners-in-Charge and Commissioners, respectively, shall be those persons designated according to law.

The said special election will be held in accordance with the applicable provisions of Chapter 5 and Chapter 6-A of Title 18 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, and the officers appointed to hold the said election, as provided in this Notice of Special Election, or such substitutes therefor as may be selected and designated in accordance with La. R.S. 18:1287, will make due returns thereof to said Governing Authority, and NOTICE IS HEREBY FURTHER GIVEN that the Governing Authority will meet at its regular meeting place, the Board Room, 1961 Midway Avenue, Shreveport, Louisiana, on TUESDAY, JUNE 18, 2013, at FOUR-THIRTY O’CLOCK (4:30) P.M., and shall then and there in open and public session proceed to examine and canvass the returns and declare the results of the said special election. All registered voters of the District are entitled to vote at said special election and voting machines will be used.

THUS DONE AND SIGNED at Shreveport, Louisiana, on this, the 15th day of January, 2013.

ATTEST:    /s/ Larry Ramsey
            President

            /s/ Gerald Dawkins
            Secretary

An affidavit showing that the Notice of Special Election was published on February 22, March 1, March 8 and March 15, 2013 in The Times is a part of the Proces Verbal of the special election and is available for public inspection at the office of the Caddo Parish School Board, 1961 Midway Avenue, Shreveport, Louisiana during normal working hours.

PROCLAMATION

I, the undersigned President of the Parish School Board of the Parish of Caddo, State of Louisiana, the governing authority of the Parishwide School District of Caddo Parish, Louisiana (the "District"), do hereby declare, proclaim and announce that Proposition No. 1, Proposition No. 2 and Proposition No. 3 submitted at the special election held in the District on Saturday, May 4, 2013, were CARRIED by a majority of the votes cast at the said special election, all as described and set out in the above Procès Verbal.
THUS DONE AND SIGNED at Shreveport, Louisiana, on this, the 18th day of June, 2013.

/s/ Larry Ramsey
President

APPOINTMENT OF OFFICIAL JOURNAL

Mr. Rachal moved, seconded by Ms. Trammel, that The Times be appointed official journal for the 2013-14 year as recommended by staff and submitted in the mailout. Vote on the motion carried with Mr. Riall opposed.

CPSB POLICY/COMPLIANCE TO ACT 624: ADMINISTERING AUTO INJECTABLE EPINEPHRINE

Ms. Priest moved, seconded by Mr. Hooks, to approve a CPSB Policy whereby Caddo is in compliance with Act 624 relative to administering auto injectable epinephrine. Mr. Rachal asked if a permission slip/release form will be signed by the parent or guardian? Dr. Dawkins said it is his understanding that this is a State requirement; and while he does not understand the details, he believes parents would be informed if any medicine is administered. Dr. Robinson explained that there is a pre-authorization from parents to use this when necessary and staff never makes use without making contact with the parent prior to administering. Mr. Rachal asked if the State Act requires us to do this regardless of whether or not we have the authorization? Mr. Abrams stated the act is one that if the parent makes the staff aware that their child has an allergy to stings, it can be administered; but regardless of permission slips, etc., if the school staff acts in good faith to address a student who has been stung by a bee and it is believed the student will have a reaction, they are authorized to use it. Mr. Abrams also noted that it also authorizes the pharmacy to prescribe it to the school which means the school can keep it for use in the event this emergency arises. He also stated that it will be at the District’s own risk, but it would have to be a trained person that knows what they are doing in these incidents. Mr. Rachal asked if the District is liable if it doesn’t, and Mr. Abrams said yes, if the Statute is not followed. Mr. Abrams further added that the intent behind the Statute is that parents will make the school aware that their child is subject to certain allergic reactions, and also this is something that has to be in our policy and in the Student Handbook. Vote on the motion carried unanimously.

RESOLUTION TO ADOPT THE 2013-14 CONSOLIDATED ANNUAL BUDGET

Mrs. Armstrong moved, seconded by Ms. Priest, to adopt the 2013-14 Consolidated Annual Budget. Mr. Hooks stated that he cannot support this motion because too many positions are being cut in Special Education which concerns him relative to compliance, and because the staffing formula changes will allow too many students in a classroom. Mrs. Crawley stated she cannot support this because of the policy change to the modified block as she believes we are asking the principals to do something that cannot be done as well as the pupil-teacher ratio. She added she believes this is balancing the budget on the backs of the classroom by increasing the ratio in K-1 and 4-5. Mrs. Crawley also stated her concern in finding the reading specialist positions, because she remembers two years ago the big push was no child will get out of the third grade without being able to read; and if they did not have the training through a college, they would be trained here, however, the Board never received a report on the status.

Mr. Riall moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried with Board members Crawley, Crawford and Rachal opposed and Board members Riall, Green, Pierson, Hooks, Trammel, Priest, Ramsey, Armstrong and Bell supporting the motion.

Vote on the main motion carried with Board members Crawley, Hooks, and Rachal opposed and Board members Riall, Green, Pierson, Trammel, Priest, Crawford, Ramsey, Armstrong and Bell supporting the motion.

SUPERINTENDENT’S REPORT
Superintendent Dawkins shared with the Board a packet of information updating them on the AU high schools’ academic achievement, the financial condition of the District and history associated with it, and the academic action plan for 2013-14 developed by Mrs. Turner’s instructional team prior to her departure in collaboration with Dr. Laster and the Network Team from the Department of Education. He also shared with everyone his Vision 2020 recommendation from three years ago for those who seem to believe the District did not have a long-range plan. Dr. Dawkins pointed out information on the AU high schools prominently talked about, including the year each entered AU status and their school performance scores. A composite of where the schools are headed in terms of their achievement was noted as well as how each one has shown gains every year, every testing cycle; and it is expected that when scores come out in August, Green Oaks and Booker T. Washington will come out of corrective action. Dr. Dawkins also presented the District School Performance Scores for the past 10 years, divided into 5-year segments, with the first five years reflecting scores around 82% and the last five years reflecting a steady progression of scores being close to 94% districtwide. He also shared graduation cohort rates for the District beginning in 2005-2006 noting that the last two years the rates have increased closer to the State rate of 66%, and Woodlawn was recognized for their increased graduation cohort rate. Dr. Dawkins also called everyone’s attention to the General Fund balance over the last 10 years noting that in 2003 the total Fund Balance was $17 million and in 2008 when he started in Caddo, it was $62 million and in 2012 it was $56 million, noting the $11 million transferred from the General Fund to the OPEB trust and had this not happened, the Fund Balance would have been close to $70 million. He said he brings this information because there are those that believe the Board has spent money recklessly and looking at the history, it does not reflect this. The superintendent also presented MFP participation from the State and reminded everyone that districts did not receive the 2.75% participation for three or four years, and the State is just now beginning this participation again. Dr. Dawkins also shared enrollment numbers of students for the past 10 years and the steady decline in that number. The OPEB history was also shared and he reported that the $14 million was included in the Total Fund Balance amount shared and again, if the District had chosen not to do this, the District’s Fund Balance would be much healthier than it is today. Targeted schools cost, as a result of board requests and approval, for keeping and improving Caddo schools, totaled $13.5 million in incentives, $350,000 RSD costs, and $1 million in program costs. Finally, he presented a financial risk management assessment from the Department of Education which he believes speaks volumes for Mr. Lee, his staff and the District, the Board and the staff. The superintendent also shared with the Board a 2013-14 Caddo Instructional Action Plan developed by Mrs. Turner and her team in cooperation with the Network Team from the State Department. He noted that this plan is approved by the State and is not his plan, but it is the District’s plan in concert with Common Core and everything that goes with it, i.e. teacher leader training. Dr. Dawkins also announced that Rosemary Woodard, Kathy Gallant and Leisa Edwards will lead the efforts in the instructional department in the interim until the next superintendent makes that decision. Finally, he highlighted the Vision 2020 Plan that over three years would have saved the District approximately $24 million had it been fully implemented, and reminded everyone that the District had at least one high school to go off line and there were those then that opposed it and some of the same ones are advocates for closing it today. He closed by stating he believes this base-line information can be used as the Board and the District move forward.

Lillian Priest thanked the superintendent for the indepth report and the factual picture it represents. She said it gives a good snapshot of where we are and it shows that the Caddo Parish School District did have a strategic plan, part of which was implemented, part of it was not.

Dottie Bell expressed appreciation for the report and asked if it will be given to the public, and Dr. Dawkins responded that staff will post it on-line.

Mary Trammel stated that she received the information on the Advisory Committee and the makeup of the committee does not represent the District and she would like to know why some of the names she submitted are not included on the list.

ANNOUNCEMENTS AND REQUESTS

Mr. Rachal asked for an explanation of how we had an ad in the Money Saver newspaper advertising for Superintendent of Schools.
Mr. Hooks stated he is again requesting answers to his request made since May and he would like to know why he has not received it.

Mrs. Crawley asked that Mr. Wayne’s questions relative to the Title 1 after-school program be answered and that she is made aware of our response to him. She also asked that the Board get a copy of the report on the employee that appeared before the Board. Mrs. Crawley also asked about her request for an item under the Superintendent’s Report on how the scheduling for the modified block is working for some schools and not for others.

Miss Green asked about the Superintendent’s Hotline and how we respond to those who call in. Also is the information someone calls in confidential.

Ms. Trammel expressed her appreciation to the staff for helping with setting up for summer camp and the 92 Caddo students that are participating.

Mr. Rachal asked about the Board’s action to name the field at Youree Drive Middle School for Coach Tom Knox and the staff’s response to his request.

**Adjournment.** Mr. Pierson moved, seconded by Ms. Trammel, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 5:45 p.m.
The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at 1:00 p.m. on Tuesday, June 18, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Ginger Armstrong and Dottie Bell. Also present was Legal Counsel Reginald Abrams. Miss Green led the prayer and Pledge of Allegiance.

**Superintendent Search.** President Ramsey announced that the purpose for today’s meeting is to hear an update on the Superintendent Search. Victor Mainiero, director of communications, provided a brief update of what has transpired in the Superintendent Search process and what will happen in the near future. He stated that advertising the position of Superintendent was accomplished by McPherson and Jacobson in the American Association of School Administrators, The Times, Caddo Citizen, LSBA, Shreveport Sun, EdWeek, Top School Jobs of Education Week for 30 days (May 13-June 13) with June 13th being the closing date for receiving applications. Mr. Mainiero announced that community meetings were held June 3-5 at Booker T. Washington, North Caddo, Huntington, Captain Shreve, Northwood, Southwood, SciPort and the boardroom, as well as via an online survey, and were moderated by representatives from McPherson and Jacobson. Mr. Mainiero recognized Mr. Gibson and Ms. Dunn who will review the input from the community meetings, interview questions, the interview procedure, the compensation package and identify school community chairs. He also reminded the Board that it also has a meeting at 1:00 p.m. on July 16th (prior to the regular meeting at 4:30 p.m.) at which time they will meet with the community chairs, review the candidates, select the finalists, and finalize the interview schedule and questions for final interviews the week of July 22-26, 2013.

Mr. Ramsey announced that on July 3rd, the Board will receive information on up to 10 candidates for review prior to the July 16th meeting at 1:00. Regarding the resumes, Mrs. Armstrong noted that in previous searches they were kept in the Superintendent’s Conference Room for the Board to review. Mr. Ramsey clarified that Board members will receive copies of the resumes and similar information on each applicant. Ms. Trammel asked if she understands correctly that Board members will receive a copy of the applicants’ packets or certain information from the packets? Mr. Ramsey stated that resumes, and similar information, will be pulled from the packets and delivered to the Board. Mr. Hooks asked if the public will have an opportunity to meet the applicants, and Mr. Ramsey explained that on July 16th the candidates will be selected and the finalists will be brought in the week of July 22-26 for interviews, and the public will have an opportunity to meet the candidates. Mr. Riall inquired how Board members will receive the packets, and Ms. Dunn responded she will mail them to the District’s point of contact with the resumes, letters of reference and applications for distribution to the Board.

Ms. Dunn shared with the Board a report on the community meetings held June 3, 4, and 5. In the meetings, attendees were asked to name the good things about the community and the school system, the criteria they would like to see in the next Superintendent, and the challenges the new Superintendent will have to face. She highlighted the Executive Summary for each of the questions asked and the reoccurring themes from each of the groups, and shared a copy of the community input with the Board and audience. Responses from the on-line survey completed by those unable to attend one of the community meetings were also shared with the Board.

Mr. Gibson presented to the Board members a list of 50 questions and asked each of them to select 15 questions from the list, and they will use this to compile the list of questions for the interviews and include it in the packets sent to the Board. Ms. Trammel referenced the “community” meetings and if 20-25 people in attendance was an accurate representation of the
community. Mr. Gibson responded that all the meetings were adequately advertised and sometimes you get what you get even when you want more participation.

Mr. Hooks asked Mr. Ramsey if the questions are the same questions asked of board members. Mrs. Crawley asked how many completed the on-line survey and if the applicants will receive a copy of the booklet. She requested that the booklet provided be made available on the web site. Ms. Dunn responded that 124 completed the on-line survey.

Mr. Gibson, referencing the superintendent’s compensation package, stated that generally some of the items included in a superintendent’s compensation package/contract will be the salary (maybe a clause within the contract that the salary can go up, but it cannot go down), health insurance benefit, life insurance benefit, pension and/or an annuity, vacation days exclusive of holidays, sick leave, vehicle or vehicle allowance, phone, travel expenses, membership fees, local, state and national organizations; moving expenses, temporary housing, annual physical exam, performance bonus based on test scores, graduation rates, financial conditions, etc.; and possibly a longevity clause/bonus. He also referenced an article in the *Shreveport Times* on salaries that included approximately eight parishes and shared those salaries with the Board for comparison purposes; because candidates not from the local area will want to know this type of information.

Ms. Dunn stated that in the interview process they customarily encourage the Board to meet with the candidate and the spouse in a brief social setting prior to the interview session and encouraged the Board to look at how it wishes to do this and share it with Mr. Mainiero. She also stated that it is very important in the interview to put the individual at ease and have a comfortable conversation with them on their abilities and why they would be the best person for this District. She said they ask that the President lead the process by beginning with the opening question and that each Board member is given a designated question to ask each candidate. Mr. Riall asked if the interview process is open to the public; and Ms. Dunn stated that is up to the Board, but normally it is a closed session. Mr. Ramsey clarified that it will be closed and Mr. Mainiero has a schedule previously followed. She also reminded the Board that hotel accommodations and airfare are the District’s responsibility.

Ms. Dunn highlighted the interview schedule (for the day the candidate is interviewed) and how the Board might style it to include a meeting with a stakeholders’ group, principals’ group, teachers’ group, directors’ group, parent group and non-certified staff group to ask questions and give input; and the Board may want to use the advisory committee put into place for this step in the process. Mr. Ramsey clarified that the advisory committee was formed with this thought in mind and Mr. Mainiero will meet with them in the near future to elect their co-chairs. Relative to the community meeting the candidates, Mr. Ramsey stated that typically there is an opportunity during the day, possibly at a reception, for the public to meet the candidates. Also, he stated that if the Board wishes to see the input from all members of the advisory committee, there may not be a need for a chair or co-chairs.

Ms. Priest stated that is why the advisory committee made up of the community stakeholders was put into place to represent all the entities in the parish. She also said this has worked in the past with a chair and co-chair and believes this group provides a concentrated approach to the input from the committee that is presented to the Board. Mr. Ramsey requested that Mr. Mainiero provide each Board member with a copy of the Advisory Committee list and Mr. Mainiero announced he will schedule a meeting of the Advisory Committee for next week.

Mrs. Bell noted the procedure followed in the last search and announced there is someone on the Board that can provide input because of her staff involvement in the last search.
Mr. Riall asked how many applicants were received and Ms. Dunn said there were 14. Ms. Trammel stated that in selecting the Advisory Committee, an attempt was made to select persons who had a stake in what is being done and the leadership in this effort is where the Board will get its input from this group on each candidate. Ms. Trammel also noted the information on Caddo having 9 superintendents over a 17-year period and the question might be asked what the problem is when the average time for a Superintendent is less than two years.

Mrs. Crawley stated she noticed that her community representative is not present; and because she does not receive email, she asked that the secretary call these members, do whatever needs to be done to get the information and notices to the committee members.

In summary, Mr. Ramsey stated that Mr. Mainiero will be notifying the Advisory Committee members about a meeting to select their co-chairs, the Board will receive information on up to 10 applicants on July 3rd, and when the Board meets at 1:00 p.m. on July 16th the Advisory Committee co-chairs will be in place and the Board will review and select finalists for interviews the week of July 22nd.

Ms. Trammel asked about the possibility to receive all 14 candidates, and Ms. Dunn stated that at this time they have not had the opportunity to review the applications and make sure all meet the criteria set by the Board.

Mrs. Armstrong stated her concern about setting the number 10 in concrete; because after they are vetted, it could be possible there are not 10. Mr. Ramsey clarified that he told the representatives if there are only eight, eight is how many the Board should receive.

There being no additional questions or discussion, the meeting adjourned at approximately 2:10 p.m.

Dr. Gerald D. Dawkins, Secretary

Larry E. Ramsey, President
June 19, 2013

The Caddo Parish School Board (CPSB) Transportation Committee met at 10:30 a.m. on Wednesday, June 19, 2013, in the boardroom, 1961 Midway Street, Shreveport, Louisiana. Committee members present were Mary Trammel, Chair; Steve Riall, Dottie Bell, Jasmine Green and ex-officio members Larry Ramsey and Carl Pierson. Ginger Armstrong was absent. Others in attendance were James Woolfolk, Otis Jones, Sandra Tisby-Noel; and Jackie Lansdale, Red River United. Mr. Riall led the prayer.

**Field Trip Summary 2012.** To give the committee an idea of the number of field trips, cost, etc., Otis Jones shared a list of field trips for the 2012-13 school year by school. Staff also shared with the committee a proposed letter to principals addressing issues in the Transportation audit. Mrs. Bell asked about the high school extra work trips (school to school programs), and Mr. Jones stated drivers are paid $12.00 per trip. Mrs. Bell also asked about the possibility of cheerleaders, pep squads, etc. all riding the same bus or supplying their own transportation to ballgames? Miss Green added she sometimes feels it is a waste of money and believes some buses can be eliminated by combining school groups on buses; however, she would not want to do anything to impede a child from participating because transportation is not provided. Mr. Jones explained that at the middle school level, buses do not bring anyone to ball games, but the parents do. Mr. Woolfolk added that staff would not want to exclude students from any of the school activities, but look at the possibility of doing things more efficiently (coordinate activities among schools). Mr. Riall inquired if the extra trips at the schools are limited, and Otis Jones responded that policy limits all trips to the Caddo-Bossier area and during the school day with learning purposes. Staff also reported that the middle schools are limited to Caddo athletic trips and there is no cap on the elementary.

Discussion was also held on proposed changes for field trips and/or extra-curricular runs, i.e. coordinate extra-curricular activities and minimize the number of buses for after-school transportation, all extra-curricular trips must be scheduled and entered in the Edulog Field Trip software at least seven days prior to an event, and a bus roster will be provided by the sponsor and made available for all extra-curricular trips. It was also suggested that the cost for buses and no trips 30 days prior to testing be considered.

**Mid-Day Career Runs.** Sandra Tisby-Noel shared with the committee information on the morning, mid-day and afternoon runs for the different programs at the different schools and the number of students in the programs. The question was asked and discussion ensued as to why one might see a bus with only one or two students on it; and although staff continues to look at how to better coordinate these routes, some can’t be because it would cause students to be late for class.

**Cameras on buses.** Mr. Jones shared testimonials from other parishes and the number one requested item from principals is cameras on the buses. He reported that at this time 167 units (buses) in Caddo need cameras and when these are installed, every bus will have the same camera. The cost for the 167 units is $178,356. Mrs. Lansdale noted that one of the complaints she hears is the tapes are not pulled in a timely fashion.

**Uniforms.** Per a request at the last meeting relative to uniforms for identifying bus drivers, Mr. Jones provided options for vests with the District’s logo.

**Absenteeism.** Mrs. Lansdale reported that she met with bus drivers on two occasions and shared information from those meetings. She also referenced the idea of possibly expanding the Aesop system to include the Caddo bus drivers which will allow for documentation of the driver’s due diligence when calling in to report being absent.
Mr. Woolfolk noted that at the last meeting staff provided examples of how the City of Bossier, Bossier Parish School Board and East Baton Rouge School Board address subs. Mr. Jones reported that when looking at putting the bus driver subs in the Aesop System, they ran into some problems

Staff stated that it will bring back a formal proposal that the committee can recommend to the Board for forwarding to the Policy Review Committee.

There being no additional discussion, the meeting adjourned at approximately 11:45 a.m.
June 25, 2013

The Caddo Parish School Board (CPSB) Insurance and Finance Committee met at 10:30 a.m. on Tuesday, June 25, 2013, in Room 1 of the CPSB office, 1961 Midway Street, Shreveport, Louisiana. Committee members present were Lillian Priest, Chair; Steve Riall, Dottie Bell, Jasmine Green and ex-officio member Larry Ramsey. Mary Trammel and ex-officio Carl Pierson were absent. Others in attendance were Jim Lee and Randy Watson; and visitors Mary Wood (The Times) and Kristy Cantor (Red River United).

Ms. Priest announced that this is the first meeting of the Insurance and Finance Committee and members present introduced themselves. She explained the necessity to do long-range planning and get a better feel for what the District is facing relative to health care and risk management and, hopefully cut costs in areas where employees are not harmed. Ms. Priest stated with the Affordable Care Act there are some things we need to be aware of so the District can be on top of what it can and cannot do that will be detrimental to the grandfathered in clause. Information provided by Risk Management was mailed to Committee members, and included a list of firms, costs for property and casualty, five-year history, coverage for the last five years including the deductibles, and amounts paid by insurance companies on claims in the last five years.

Mr. Lee clarified and responded to questions relative to the Louisiana School Insurance Group (LSIG), the difference in the Insurance Department and Risk Management Department, the premium summary and the coverage recommendation for 2013-14 with fees, companies that we decline to do business with, terrorism insurance, employee dishonesty/fraud within the system, and lawsuits against employees, etc.

Questions asked included:

- What is an exterminator bond?
- How long has the district been carrying terrorism insurance?
- How are claims investigated and settled?
- How do we address repeat offenders?
- What is the percentage of claims settled without going to court?
- What is the size of the risk management staff, what is the process time for claims?
- What is the maximum length of time an employee can be on workers compensation? Mr. Lee responded that the law is very different and Louisiana is one of the most lenient states. Ms. Priest stated this may be an issue for the next Legislative Session; and she asked if there is a list of older claims we have not settled, and what are we paying out for workers’ compensation? Mr. Lee shared that all workers’ compensation claims at one time were handled in-house; but a few years ago this service was outsourced for savings.
- Is there a list of older claims that have been settled and what was paid? It was reported that FARA is a large team that is able to get to them at a reasonable cost for investigating.
- Mrs. Bell would like to see how many employees are off for a whole school year.
- What happens when a workers claim is denied? What is the appeal process?
- Staff was requested to look at 1-3 years of claims and possible repeat offenders and how much has been spent so as to have an idea of what it is costing the District.

Ms. Priest asked about requirements for full benefits for an employee in Caddo Parish. Mr. Watson explained that most employers go by the total number of hours worked in a week and typically that number is 32 hours a week to qualify for full insurance; however, the problem of full time employees (teachers) who are off in the summer. He further stated that when he came to Caddo, Caddo had to determine criteria for non-tenured subs, etc. and the conclusion was everyone who pays into the Teacher Retirement is eligible; but, this will change under the Affordable Health Care Act. Because of this, Mr. Watson stated staff needs guidance from the committee for (1) setting our rates based on the claims, (2) dealing with the 13-14 Affordable Healthcare Act; and (3) cuts to save costs and the problems this could create.

Ms. Priest announced that the above information should be presented to the committee at its next meeting and asked that staff make a presentation to the committee at that time. She also asked that staff be prepared to share with the committee information on those working in another district that move to Caddo and retire with full benefits after only three years in Caddo. Mr. Watson noted that there has been a study of the number of retirees with less than 5 years and this
number is very small, and the downside is once you say someone must work 20 years to be able to retire with full benefits, it will lock the district’s efforts to attract teachers. Mr. Lee also added that even if a study says this, the district must also consider the “grandfather” clause and how changes could affect that clause.

**Next Meeting.** Ms. Priest announced that the next Insurance and Finance Committee meeting will be held on August 20th at 2:30 p.m.

**Adjournment.** There being no additional discussion, the meeting adjourned at approximately 11:35 a.m.
July 16, 2013

The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, July 16, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Chief of Staff Dr. Mary Nash Robinson, Legal Counsel Reginald Abrams, staff and visitors. Mrs. Armstrong led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE JUNE 18, 2013, JUNE 19, 2013 AND JUNE 25, 2013 CPSB MEETINGS

Mr. Hooks moved, seconded by Mrs. Bell, to approve the minutes of the June 18, 2013, June 19, 2013 and June 25, 2013 CPSB meeting as submitted. Vote on the motion carried unanimously.

PRESENTATIONS

Corrective Action Plan. Dr. Shelia Lockett, director of special education, reminded everyone that in the 2007-08 school year, the Louisiana Department of Education entered into a negotiated settlement agreement with 10 petitioners in settlement of a Special Education due process hearing. As a result of the agreement, the DOE issued a Corrective Action Plan (CAP) for the school district to address issues in areas of non-compliance. She announced that the Caddo Parish System’s full compliance with the terms of the Corrective Action Plan necessitates the withdrawal of the Plan and Caddo is now officially out from under the CAP. Following a meeting in New Orleans with staff and other parties present, the District was informed of this decision. She assured everyone that the District, its principals, teachers and staff will continue to work hard and close with the 11 schools still facing some challenges to make sure they are compliant with all State and Federal regulations. She also explained that exiting CAP means the District is no longer under the financial burdens of the CAP.

VISITORS

Bonita Bandaries addressed the Board on its decision to hire an outside firm for the search, the candidates submitted for the Board’s consideration, and her concerns that the majority of the candidates are less than desirable and she doubts the two local candidates even want to be included in the group of candidates submitted. She shared her belief that to strengthen the interview process and restore credibility for Board decisions, she suggested advertising again in the Ark-La-Tex area and select at least two additional qualified candidates to interview with Dr. Robinson and Mr. Dilworth and provide diversity. Ms. Bandaries also expressed her concern about posting information online since not everyone has or uses a computer.

Jon Glover, employee, noting that it is possible for one person to convince the hearts and minds of others and bring about significant change on any given subject, stated that it does not mean it must dictate our path. While it has in some cases and has not in others, she asked the Board to imagine the separatism that existed not long ago in an effort to promote superiority, inferiority of persons and one joined by many determined that this was wrong and forged ahead to promote change in equality. This change is what gives persons like herself the right to address the Board about the school system and its present state; and asked if they have lost their zeal to insure that every child in Caddo receives a level of education that promotes good, sound citizenry? While there are goals to be accomplished, Ms. Glover inquired about the Board’s objectives? She stressed that the task is to educate every child equally and we should never become so comfortable that we do not have concerns for others. Ms. Glover suggested that the Board ensure every child in Caddo Parish has access to resources that promote equal education; and
shake up the administrators, educators and any staff that instructs the District’s children. In moving administrators/teachers to areas that are not popular in an effort to pinpoint the problems, she asked the Board to look at why the system continues to erode little by little. Instituting charters and vouchers in an attempt to offer mechanisms for receiving a sound education is deplorable to her. Ms. Glover noted it has been determined that the methods once used to educate her and many others are no longer acceptable or needed and asked the Board to let its conscious be its guide and do the right thing to correct the education process for every child in Caddo Parish, even if doing right is not really acceptable.

Linda Bloomer and Debra Smith, employees, addressed the Board on the many good things happening in the Martin Luther King area and the school in which they teach. She stated she wished the Board to know that as a long-term teacher in the MLK area, she is very proud to live and work in this area. With the school year about to begin, Ms. Bloomer said she is praying for a great year at school and that the year is free from all the negative communication. She spoke in support of her principal and what she brings to the school and community.

Debra Smith also spoke in support of the principal at her school and the support her principal brings to the employees at their school.

Jackie Lansdale, president of Red River United, addressed the Board on the following Red River United concerns: Value Added (VAM) scores and how many Caddo teachers have been affected by this. She encouraged the Board to use its authority on the lack of integrity in the VAM measurements so that all teachers in Caddo that have been harmed have equal protection under the law. She encouraged the Board to instruct the Superintendent’s Designee to request the Department of Education to invalidate these scores as well as use its affiliation with LSBA to formalize its displeasure with the instability of the VAM model and the harm it brings to public education. Secondly, she informed her members that the Board has assured that the CEEF committee will meet and allocate funds to the classroom, and she asked when can teachers expect the allocation of the supply money since teachers spend many personal dollars toward much needed supplies in their classrooms. She encouraged the Board to make this a priority.

Thirdly, Mrs. Lansdale noted how serious sexual harassment has become in the military and how she believes it is now at academic levels having spread to Caddo. She noted the cure to this is not to look the other way and/or consider it as a joke, but she encouraged the Board to see this the way it is and its harmful implications and have the courage to do the right thing even when it is uncomfortable. In closing, Ms. Lansdale expressed appreciation for the opportunity to sit on the Superintendent Search Committee because it is interesting to her to see the District from the eyes of the community. As a professional organization, she said they share many of the same views, and many areas are quite unique; and in this light they, along with other employee organizations, decided to bring to the Board a minority report distributed to those they represent.

Randy Johnson, parent, complimented two Caddo principals but asked the Board to look at the rules and regulations that tie principals’ hands when it comes to protecting the students. He stated his concern that schools are separating students by grade and not age and the fact that when a student fails three times, it is possible that a 17-year old student is in the same class with a 13-year old, and it was his son that was recently knocked out by an older student in his class.

Glenn Davenport, employee, addressed the Board on his working conditions and the uneasiness and disrespect which permeates his work environment. Mr. Davenport stated that he met with the Chief of Staff and Director of Classified Personnel following the last meeting to address his concerns; however, he believes this meeting was to no avail. He stated that he works in an environment where the actions and behaviors are those that permeate the South; and he believes he is worthy to be treated as a man and not a color. Mr. Davenport stated his belief that the attitudes and behaviors toward him on a daily basis are based solely on race; and he is tired of being handled as an employee that has an attitude. He noted the continued attitudes toward him
that reflect racism and is why he is again before the Board, because no one has taken a genuine interest in the allegations he has brought forth. Mr. Davenport said these behaviors have been supported by the administration both in his immediate work environment as well as in Central Office. He added that every man should be treated fairly and equally regardless of race, creed or color; but, he is not afforded this. He noted that he has made the Board aware of this racism and he wants to know the Board’s position when it comes to race relations. Mr. Davenport also added that he will not quit his job, he will not be intimidated, he will not accept being treated unfairly, and since the Board has been aware of this practice of racism, he asked the Board to address his concerns.

Anitra Green, parent, addressed the Board in support of her children’s principal who has been a very caring and supportive person toward her children, offering much needed services that her children needed to succeed. Ms. Green echoed previous speakers’ comments that there are good things coming out of the Martin Luther King area and children are succeeding because of the efforts and concern of this principal.

Ms. Trammel, as a point of personal privilege, noted the difficulty for the Board when someone addresses the Board yet the Board has no idea what they are talking about. President Ramsey responded that when the matters are dealing with staff, it will be necessary to refer to the Superintendent or designated staff.

Miss Green expressed her appreciation to those who came out in support of this principal, and that she too supports this principal.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA

Dr. Mary Nash-Robinson highlighted items for the Board’s consideration and the following discussion ensued.

Construction/Capital Projects. Mr. Rachal asked about the bid for the paving of the parking lot at Northside and his concern for the number of schools in the District, the student population and where this school might fit in the future. He said he understands the need to take care of the facilities; however, he would like to see this item postponed until the new superintendent is in place and possibly bring a plan back to the Board. Mrs. Bell asked that this not be postponed, because we do not know the future of any school in Caddo Parish. Mr. Ramsey clarified that this item was already approved by the Board to put out for bid, and what the Board is voting on now is awarding the bid to do the work. Mrs. Bell said if the Board has already approved this, does she understand that Mr. Rachal is asking it to be postponed? Mr. Rachal said he is asking that it be postponed until the new superintendent is in place and referred to Mr. Abrams for further explanation.

Mr. Abrams explained that the Board approved the project and the staff put it out for bid and now the Board has a time period in which it must respond to the bid which falls within the proposed budget. If the Board does nothing, it will not be able to come back for another year if at all. Mr. Ramsey announced that the Board will not postpone action on this item.

Request to Assign Interest of State Agency Lease Nos. 6055 and 6889 to Jack T. Everett, LLC. Mr. Hooks asked staff to explain and Mr. Abrams explained that this is a formality because one of the individuals passed away and interest is being passed over to the LLC and it will continue operation under the same conditions in place.

Approval of Proposed Revisions to CPSB Policies JCDAF “Bullying and Hazing” and JFCA “Student Dress Code”. Mr. Abrams explained that the State Legislature passed an act last year changing the bullying laws in Louisiana relative to adding a comprehensive group of
reporting requirements. While Caddo has had a good policy, and as a result of a death resulting from bullying in South Louisiana, the Legislature enacted this statute asking BESE to come up with rules and guidelines which they did in the Spring. Caddo had this in its student handbook last year; however, the Legislature has made additional changes which allows for students to be interviewed following three attempts within 48 hours to contact the parent. He further explained that additionally the statute required that all employees receive four hours of training on bullying, but the Legislature changed this to four hours for new employees having contact with students and subsequent training will be two hours. Mr. Abrams added there is also a requirement that during orientation that the parents and students are informed of these rules, reporting mechanisms, etc. and must sign that they were made aware of the policy, were made aware of the rules and went through orientation.

Ms. Trammel asked about the revisions to the Dress Code policy and clarification on what is being deleted and why. Mr. Abrams explained that this was submitted to the committee and one of the problems was no one could determine what was “unnatural” hair color. Mrs. Moore said it is recommended to remove this because it specified two hair colors and “etc.” and the “etc.” became the problem. She also noted that No. 14 of this policy allows for the principal to determine if hair color is disruptive and the proposed revisions have been recommended by the Discipline Review Committee.

Mr. Hooks stated he believes if everyone is not consistent (school to school), it could cause some problems. Mrs. Moore noted that this has not been revised in a number of years and the committee did not want to require parents to take a student to a beauty shop and pay to have it re-colored or have a student sitting out of school for any length of time because of hair color. Mr. Hooks said he does not have a problem with hair color, but he does have a problem with inconsistency throughout the school system. Mrs. Moore responded that staff is addressing this with school directors and the principals; and if the hair color is not disruptive to the classroom, they do not want a child being held out of school for this reason.

Mr. Ramsey announced that Items 6.02, 7.01-7.02, 8.01, 8.03-8.08, and 13.01 are the consent agenda. He also announced that Item 8.02 is pulled until additional information is obtained. Ms. Priest moved, seconded by Miss Green, to establish the proposed agenda and consent agenda as presented. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Mr. Pierson moved, seconded by Miss Green, to confirm the consent agenda as presented. Vote on the motion to confirm the consent agenda carried unanimously. The following is a summary of the Board’s action in approving the consent agenda.

Item No. 6

6.02 Personnel Transactions Report. The board approved the personnel transactions reports for the period of May 27, 2013 – June 28, 2013 as recommended by staff and submitted in the mailout.

Item No. 7

7.01 Purchasing. The board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheet: (1) Fruhauf Uniforms, Inc., totaling $47,836.10 for the purchase of band uniforms for Booker T. Washington High School. A copy of the bid tabulation sheet is attached and made a part of the permanent file for the July 16, 2013 CPSB meeting.
**7.02 Construction/Capital Projects.** The board approved the following bid as recommended by staff and submitted in the mailout on the bid tabulation sheet: (1) Bowman Grading and Asphalt, Inc., with a Base Bid, for the sum total of $237,096.00 for Project 2014-209 “Northside Paving”. A copy of the bid tabulation sheet is attached and made a part of the permanent file for the July 16, 2013 CPSB meeting.

**Item No. 8**

**8.01 Request for Vehicle Auction.** The board authorized staff to advertise a vehicle auction for surplus buses and vehicles.

**8.03 Request to Piggyback on Bossier Parish School Board Bid for Waste Disposal Services.** The board authorized staff to piggyback on the Bossier Parish School Board Waste Disposal Services bid as recommended by staff and submitted in the mailout.

**8.04 Request to Assign Interest of State Agency Lease Nos. 6055 and 6889 to Jack T. Everett, LLC.** The board approved the mineral lease Assignment from the Estate of Jack T. Everett along with his widow, Marcy G. Everett into Jack T. Everett, LLC in accordance with the terms of State Agency Lease #6055, paragraph 8, page 6, covering Section 16, T15N, R12W Caddo Parish, Louisiana.

**8.05 Approval of Special Education Interagency Agreements/Contracts.** The board approved the proposed Special Education Interagency Agreements/Contracts as submitted by staff in the mailout.

**8.06 Louisiana Compliance Questionnaire.** The board approved a resolution adopting the Louisiana Compliance Questionnaire for submission to the auditors. A copy of the resolution is attached and made a part of the permanent file of the July 16, 2013 CPSB meeting.

**8.07 Approval of Salary Reconfiguration – Bookkeeper I Grade F.** The board approved the Salary Reconfiguration for Bookkeeper 1, Grade F as submitted in the mailout.

**8.08 Approval of Proposed Revisions to CPSB Policies JCDAF “Bullying and Hazing” and JFCA “Student Dress Code”.** The board approved proposed revisions to CPSB Policies JCDAF (Bullying and Hazing) and JFCA (Student Dress Code) as submitted in the mailout.

**Item No. 13**

**13.01 Student Readmission Appeal Hearings.** The board approved student readmissions for RD and NB. Parents are in agreement with staff.

**SUPERINTENDENT’S REPORT**

Dr. Robinson shared the following important dates for the Board’s information: (1) Caddo Retirees Reception, July 24th, 3:30 p.m., Southwood High School; (2) Parishwide Back to School Administrators Meeting, August 6th, 9:00 a.m., Keithville Elementary/Middle School; (3) Oak Park Parade, Saturday, August 10th, 10:00 a.m.; and (4) Hop on the Bus, August 12th, 7:30 a.m. with stops at Oak Park, Ridgewood and Southwood.

**ANNOUNCEMENTS AND REQUESTS**

Miss Green asked about a response to her request relative to the Superintendent’s Hot Line. She also congratulated Delta Sigma Theta on its Centennial.
Mr. Hooks stated he has someone interested in buying Hillsdale Elementary.

Adjournment. Ms. Trammel moved, seconded by Mr. Pierson, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:40 p.m.

Dr. Gerald D. Dawkins, Secretary

Larry E. Ramsey, President
July 16, 2013

The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at 1:00 p.m. on Tuesday, July 16, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Ginger Armstrong and Dottie Bell. Also present was Legal Counsel Reginald Abrams. Mrs. Armstrong led the prayer and Pledge of Allegiance.

Superintendent Search. President Ramsey announced that the purpose for today’s meeting is to hear an update on the Superintendent Search from McPherson and Jacobson, and to select the candidates the Board will interview for the position of Superintendent of Caddo Public Schools. Victor Mainiero, director of communications, introduced Tom McPherson and Wayne Gibson of McPherson and Jacobson. Mr. McPherson reported they received 12 complete applications; and after review of the 12 applications, seven were forwarded to the Board members. Because they continued to conduct the background checks after submission of the applicants to the Board, Mr. Jacobson asked that the Board removed Mr. Green’s name and application from consideration. He and Mr. Gibson presented an overview of the six applicants each screened explaining to the Board that while there has been some negative feedback on some of the applicants, their group still believes each of the applicants submitted for the Board’s consideration has something to bring to Caddo Parish, based on their experience and records as an educator, i.e. raising student achievement, closing achievement gaps, being visionary, making data based decisions, thinking outside of the box, being professional and student centered, having excellent team building skills, etc.

Rev. Joe R. Gant, chair of the Superintendent Search Advisory Committee, thanked the Board for its foresight in appointing the Superintendent Search Advisory Committee comprised of 29 members. He reported that the committee met several times with an average 23 committee members present at the meetings, and it helped create the search criteria for seeking the next Superintendent of Schools and the skills, experience that person should bring to the district. He further reported that members of the committee also attended community forums and heard the communities’ strong suggestion to hire a local candidate. Rev. Gant also reported that the Advisory Committee met and reviewed the applicants’ information and voted to submit a recommendation to the Caddo Parish School Board that the Board would interview John Dilworth and Mary Nell Robinson as well as a third candidate if the Board felt strongly about that person. On behalf of the Advisory Committee, Rev. Gant expressed appreciation to the Board for the opportunity to serve in the search for Caddo’s next superintendent.

President Ramsey expressed appreciation to the Advisory Committee members for their service and input.

Mr. Jacobson explained and asked the Board to consider using their list of the six candidates and that each will select three candidates to meet and interview. President Ramsey explained that the tally sheets will be a matter of public record so everyone will know how each Board member votes. Mrs. Armstrong stated she would like to make a motion to limit the number of applicants and not necessarily vote on three candidates to interview. Mrs. Crawley agreed that there are two strong candidates that the Advisory Committee also agreed on; however, she would like to interview three or four, but not from the pool of candidates; and asked how is it possible to get some additional Ark-La-Tex candidates before proceeding? She doesn’t believe we received ample number of applicants. Mr. Ramsey ruled that Mrs. Crawley is out of order.

Mr. Riall asked if the Board chooses two or three to interview, will this eliminate the other candidates? Mrs. Trammel also noted the possibility that if the Board narrows the list to two
persons and one candidate withdraws from consideration; then the Board has not hired a superintendent, but the candidate has elected themselves. Mr. Abrams clarified that until the Board negotiates the contract details and votes on the next Superintendent, there is not a superintendent in place. Mrs. Bell stated that the Board appointed an Advisory Committee to present the Board with recommendations; they were asked to meet with the communities as a whole; and now she is looking for their report and recommendation, which they have made. She asked if the two candidates proposed for interviews are not sufficient? Mr. Ramsey reminded the Board that it is its responsibility to determine the candidates it will interview as well as the interview process to be followed. If the Board wishes, it can choose only two candidates to interview, but it cannot go outside the list of candidates submitted.

Mrs. Crawley moved to open up the advertisement locally and try to get at least two more candidates to interview so we will not have just three. The motion failed for lack of a second.

Mr. Riall moved, seconded by Ms. Priest, that the CPSB entertain a list of three people to interview. Mr. Riall concurred with Ms. Trammel’s comments that if the Board chooses to interview only two and one drops out, then the remaining is automatically selected.

Mrs. Crawley stated that her problem is she does not want to waste money on people that no one is recommending and asked if the Board gets down to one candidate, is that the District’s new superintendent? Mr. Abrams responded that is not correct, because the Board will need to vote on a new Superintendent, as well as the issues associated with the Superintendent’s contract.

Mrs. Crawley moved, seconded by Mr. Hooks, to select the two as advised and keep the taxpayers money in mind. Mrs. Crawley said she believes the Board needs to be more mindful of the taxpayers’ dollars and asked how much more a third interview will cost?

Vote on the substitute motion to select two candidates failed with Board members Crawley, Hooks, Armstrong and Bell supporting the motion and Board members Riall, Green, Pierson, Trammel, Priest, Crawford and Ramsey opposed.

Vote on the motion to select three candidates carried with Board members Riall, Green, Pierson, Trammel, Priest, Crawford and Ramsey supporting the motion and Board members Crawley, Hooks, Armstrong and Bell opposed.

A tally sheet listing Board members names and each candidate was given to each Board member. Upon completion and tally of the votes, the following is how each Board member voted: Steve Riall (John Dilworth, Mary Nash Robinson, Agnella Perera); Jasmine Green (John Dilworth, Mary Nash Robinson, Agnella Perera); Carl Pierson (John Dilworth, Mary Nash Robinson, Agnella Perera); Charlotte Crawley (John Dilworth, Mary Nash Robinson); Curtis Hooks (John Dilworth, Mary Nash Robinson, Mary Nash Robinson, Agnella Perera); Lillian Priest (John Dilworth, Mary Nash Robinson, Agnella Perera); Bonita Crawford (John Dilworth, Mary Nash Robinson, Theodore Thompson III); Barry Rachal (absent); Larry Ramsey (John Dilworth, Mary Nash Robinson, Agnella Perera); Ginger Armstrong (John Dilworth, Mary Nash Robinson and Agnella Perera). Mr. Jacobson announced that the Board will interview John Dilworth, Mary Nash Robinson and Agnella Perera.

Mr. Jacobson also announced that they will contact and set up the interviews for July 22nd, July 23rd, and July 24th. A packet of the interview schedule was presented to the members of the Board and includes a tour of the district, an open meeting with the Superintendent’s Advisory Committee at 10:45 a.m., a media conference at 2:00 p.m., a public meet and greet at 3:00, formal interview with members of the Board at 4:30, followed by dinner with the Board. Instructions as to how the interview process will proceed were shared with the Board members.
Mr. Mainiero announced that once the schedule is confirmed, he will send notification to the Board as to which candidate will be interviewed on each day.

Mrs. Crawley encouraged staff to post the proposed agendas for the interviews on the Caddo website so the public will know when it has the opportunity to meet with the candidates.

**Adjournment.** Ms. Priest moved, seconded by Miss Green, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 1:50 p.m.

Dr. Gerald D. Dawkins, Secretary   Larry E. Ramsey, President
July 22, 2013

The Caddo Parish School Board (CPSB) met in special session in the boardroom at 1961 Midway Street, Shreveport Louisiana at 4:30 p.m. on Monday, July 22, 2013 with President Larry Ramsey presiding and the following board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Curtis Hooks was absent. Legal Counsel Reginald Abrams was also present. Ginger Armstrong led the prayer and Pledge of Allegiance.

The president stated the purpose of the special school board meeting is for the board to entertain a motion to go into executive session to interview candidates for the position of superintendent of Caddo Parish Public Schools.

Mrs. Crawford moved, seconded by Mrs. Bell, to go into executive session for the purpose of interviewing candidates for the position of superintendent of Caddo Public Schools. Vote on the motion carried unanimously, and the board went into executive session at approximately 4:34 p.m. to interview John Dilworth.

Recess. The CPSB recessed at approximately 6:30 p.m. and the president announced that the school board would reconvene on Tuesday, July 23, 2013 at 4:30 p.m. in the boardroom of the CPSB office to continue interviewing applicants for the position of superintendent of Caddo Public Schools.

Reconvened – July 23, 2013

The Caddo Parish School Board (CPSB) reassembled to continue its executive session in the boardroom of the CPSB office at approximately 4:30 p.m. on Tuesday, July 23, 2013, with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Legal Counsel Reginald Abrams was also present. Mr. Hooks was absent.

The president announced the CPSB is reconvening for the purpose of interviewing Agnella Perera, candidate for the position of superintendent of Caddo Public Schools. The executive session began at approximately 4:35 p.m.

Recess. The board recessed at approximately 6:30 p.m. and the president announced the board would reconvene on Wednesday, July 24, 2013, 4:30 p.m. in the boardroom of the CPSB office to continue interviewing applicants for the position of superintendent of Caddo Public Schools.

Reconvened – July 24, 2013

The Caddo Parish School Board (CPSB) reassembled to continue its executive session in the boardroom of the CPSB office at approximately 4:30 p.m. on Wednesday, July 24, 2013, with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Legal Counsel Reginald Abrams was also present.

The president announced the CPSB is reconvening for the purpose of interviewing Dr. Mary Nash-Robinson, candidate for the position of superintendent of Caddo Public Schools and the board reconvened in executive session at approximately 4:35 p.m.

Adjournment: The board reconvened in open session at approximately 6:30 p.m. and Mr. Pierson moved, seconded by Ms. Trammel, to adjourn. Vote on the motion carried and the board adjourned at approximately 6:31 p.m.

______________________________  _______________________________
Dr. Gerald D. Dawkins, Secretary   Larry E. Ramsey, President
July 25, 2013

The Executive Committee of the Caddo Parish School Board (CPSB) met in special session in the Superintendent’s Conference Room at 1961 Midway Street, Shreveport, Louisiana, at 10:00 a.m. on Thursday, July 25, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Also present was Legal Counsel Reginald Abrams.

Mr. Pierson moved, seconded by Mrs. Crawford, to go into executive session for the purpose of negotiations with candidates for the position of Superintendent of Caddo Parish Public Schools. Vote on the motion carried and the executive committee went into executive session at approximately 10:08 a.m.

The Executive Committee reconvened in open session at approximately 12:30 p.m.

Adjournment. Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 12:31 p.m.
July 29, 2013

The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Monday, July 29, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present was Legal Counsel Reginald Abrams, staff and visitors. Mr. Riall led the prayer and Pledge of Allegiance.

Report from Superintendent’s Search Advisory Committee. Rev. Joe Gant, Chair of the Superintendent’s Search Advisory Committee, recognized committee members present and expressed their appreciation for the opportunity to serve. He stated that the committee was a diverse group that worked well together and attempted to be diligent in performing the charge given them. He explained that neither the chair nor co-chair voted on the recommendation because they did not want others to think they were influencing the other members of the committee. He reported that the recommendation from the Advisory Committee is: (1) by a vote of 17-2 (17 votes for Mr. Dilworth and 2 votes for Dr. Robinson), the committee recommends John Dilworth for superintendent; (2) that the board support whomever is selected as superintendent and that the board works together more cohesively as a board; and (3) that the new superintendent has a Citizens Advisory Committee and that the current advisory committee remain intact. Mr. Ramsey expressed appreciation to the co-chairs and committee members for their endurance throughout the process.

VISITORS

Jackie Lansdale, president of Red River United, shared with the board a letter from Red River United, Caddo Association of Educators and A+PEL noting their appreciation for the employee organizations inclusion in the Superintendent Search process. Because many of their issues relative to teachers and school employees were not necessarily within the scope of the committee’s interest, she explained their decision to submit questions asked of the three candidates, i.e. position on creating staffing ratios at Central Office and other non-school site locations, position on the interview process for filling administrative positions, position on internship programs for potential administrators, priorities when considering budget constraints, who is considered essential and non-essential personnel, opinion on teacher planning time and teaching and the outcome, position on Value Added, TAP and master teachers, importance of pre-K and wrap-around services, policy-making process and plans for working with professional organizations. She also summarized the candidates’ responses to their questions and that the organizations believe all three candidates were all qualified with each one bringing something different to Caddo Parish, and that the employee organizations commit their support in the choice the board makes.

REPORT ON NEGOTIATIONS

Legal Counsel Reginald Abrams reported a draft contract was submitted to members of the board last week and the following is submitted as a result of the executive committee negotiations on Thursday, July 25th with all three candidates. He said all candidates basically agreed to the same contract with a 3 year term beginning on August 14, 2013; salary requirements are as follows: John Dilworth--$202,500; Dr. Mary Nash Robinson--$180-200,000; and Ms. Agnella Perera--$200,000 to $205,000. Mr. Abrams suggested that if either Dr. Robinson or Ms. Perera are selected that the motion include the salary the board would like to pay in those ranges.

Additionally, he reported that Ms. Perera requested the following, which differs from the sample contract: that she be paid for vacation days she does not use and cannot carry over; that she
receives a personal cell phone allowance instead of district cell phone; that the school board car
be allowed for personal use in the area as well as for business; and that she prefers an interim
evaluation before the annual evaluation.

He added the executive committee discussed performance objectives with each candidate; and it
was agreed that goals and objectives would be agreed upon during a board retreat to be held
before the end of the first semester of this year and prior to the beginning of the new school year
eyear thereafter.

The out of town candidates will receive the moving expenses and temporary housing allowance
if selected.

Mrs. Crawley asked Mr. Abrams if Caddo would be responsible for liability insurance if the
employee was driving a company vehicle on personal time? Mr. Abrams responded that if the
employee is within the scope of their employment, then the CPSB would be liable; and vehicle
insurance follows the vehicle and if someone is driving with permission and consent, then the
insurance policy follows it. He also reminded Mrs. Crawley that Caddo is self-insured.

SELECT AND ANNOUNCE THE SUPERINTENDENT OF CADDO PARISH PUBLIC
SCHOOLS

Mr. Ramsey announced that in the selection process, he will call each candidate’s name and each
Board member gets to vote one time, voting for only one of the three candidates. After the first
round of voting, the Board will vote again on the top two candidates. Results of the first round
of voting were: John Dilworth – 6 votes (Pierson, Crawley, Trammel, Priest, Crawford and
Bell); Agnella Perera – 0 votes; and Dr. Mary Nash-Robinson – 6 votes (Riall, Green, Hooks,
Rachal, Ramsey and Armstrong). Results of the second round of voting were: John Dilworth –
6 votes (Pierson, Crawley, Trammel, Priest, Crawford and Bell); and Dr. Mary Nash-Robinson –
6 votes (Riall, Green, Hooks, Rachal, Ramsey and Armstrong).

President Ramsey announced that since neither candidate received a majority vote, he will call a
special called meeting to coincide with the executive committee/board work session on August
6th to select an interim superintendent.

Mrs. Bell asked if there is any way possible to name an interim before school begins and will the
board open the search again? Mr. Ramsey responded that will be a board decision. Mrs. Bell
said the system needs a leader and she wishes the board would stop playing games.

Mr. Hooks asked if the board will have to pay the search firm additional money? Mr. Ramsey
responded no unless we ask them to continue the search and reminded the board that the
discussion is relative to something that is not an item on the agenda.

Adjournment. Mrs. Armstrong moved, seconded by Miss Green, to adjourn. Vote on the
motion to adjourn carried with Board member Bell opposed, and the meeting adjourned at
approximately 6:20 p.m.
The Executive Committee of the Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway Street, Shreveport, Louisiana, at 4:30 p.m. on Tuesday, August 6, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Other school board members present were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Superintendent Gerald Dawkins, Legal Counsel Reginald Abrams, staff and other visitors. Mr. Rachal led the prayer and Pledge of Allegiance.

President Ramsey announced that the superintendent has requested the executive committee work session to be held first followed by the special session and the board members unanimously agreed to change the posted order and that the executive committee meeting be held first followed by the special session.

PRESENTATIONS

Superintendent Gerald Dawkins shared an update on the District’s 2013-14 school year readiness. He thanked and saluted the staff of the Caddo Parish School District family and how honored he is to have served as the District’s superintendent for the last five years with such great colleagues and students. He further stated that it is these colleagues and young people that have insured that: (1) five consecutive years of academic growth and improvement for the school district; (2) we have seen substantial growth in our graduation rate district-wide to the highest level ever in this school district; (3) we are strategically poised to successfully launch the full implementation of the Common Core curriculum; (4) we have trained staff in the State’s new Compass Evaluation System; (5) we have trained teacher leaders in each school to help staff successfully utilize State resources; (6) we have planned and executed our spending so that our District’s fund balance is $56 million in spite of the Board-approved $15 million to keep our schools and the $14 million that was transferred to the OPEB Trust; (7) we have exited 10 schools, including some of our longest designated ones, out of Academically Unsuccessful Status; and (8) we have an educational plan developed in conjunction with the State Department to immediately address the remaining 15 schools who are still in AU Status. Dr. Dawkins stated that overall the District is prepared to go into the 2013-14 school year with reassigned staff and a continuing commitment to service the needs of all children. He extended his best wishes to the staff, students, community partners and parents of this District and thanked the Board members who supported our work.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE AUGUST 20, 2013 CPSB MEETING

Superintendent Dawkins highlighted items for the Board’s consideration at the August 20, 2013 CPSB meeting and the following discussion ensued.

President Ramsey announced that Items 6.01, 7.01, 8.01, 8.03, and 8.05-8.09 are the Consent Agenda.

ADDITIONS

Mrs. Bell asked that an item to “give $500 to each of the 10 schools that came out of AU Status for academic recognition celebration” be added to the agenda.

Mrs. Crawley shared the following ideas for agenda items or referral to committee: (1) look at the additional MFP and how it will be distributed to certified personnel, and (2) ideas for retaining principals (possible use of some of the additional MFP funds). President Ramsey asked...
the superintendent to direct the staff to prepare a report on the MFP to the Board. Dr. Dawkins announced that Jim Lee is currently working on such a report. Mrs. Crawley asked if this is a committee of Board members and certified personnel? Dr. Dawkins stated he is not aware of a committee, but staff will be prepared to bring a report to the Board at the August 20th meeting. Mrs. Crawley noted her belief there are extra MFP dollars being looked at relative to how it will be dispersed and it should be used in our efforts to retain principals. President Ramsey announced once the Board hears the presentation, the Board can make a decision as to what can be done with these funds.

Mr. Hooks asked if we can give a date for this supplement for teachers that will be received from the State? Mr. Ramsey explained this is the same as Mrs. Crawley’s item.

Mrs. Crawford asked that “Approval of $100 for M&S to Classroom Teachers” be added to the agenda. Mr. Ramsey stated that he will give this to the Long-Range Planning Committee to review and bring a recommendation to the Board.

Mr. Pierson moved, seconded by Mrs. Crawford, to approve the proposed agenda and consent agenda for the August 20, 2013 CPSB meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE

Jackie Lansdale, president of Red River United, stated that the state affiliate, along with other state organizations, worked very hard to get MFP funds secured for teachers and was able to do so for the first time in five years. At this time, she is hearing the Board say it will not allocate these funds before it goes to committee and the Board is not setting the committee time and school is starting. She stated this tactic is offensive to those who will be teaching the children in Caddo and she asked the Board to place the allocation of the MFP funds on the agenda. She also asked that the Board add to the agenda to look at funds for the support employees as well as live up to its commitment relative to the M&S for teachers. Mrs. Lansdale noted that she identified $400,000 in the budget in the CEEF fund which is money received from the riverboats. She said she has asked about this and been repeatedly told that it will be looked at and now she is hearing that it will be referred to committee, which is offensive to her. She asked that the Board remember its commitment and honor it. Regarding the Personnel Evaluation Plan, Mrs. Lansdale stated that a meeting has not been held to discuss this and historically the employee organizations have been asked for their input and this has not happened, which she believes has become a pattern in this administration. She noted the Board owes them an MOU and that the Board will not pass one personnel policy affecting teachers and school employees in the District without first bringing it to the professional organizations.

2013-14 Personnel Evaluation Plan. Mrs. Crawley noted there is no information backup on this item. Dr. Mary Nash-Robinson explained that the Personnel Evaluation Plan is complete in draft form and copies have been issued to the professional organizations and attorneys, with meetings scheduled for the purpose of getting their input and making any necessary revisions. Mrs. Crawley asked that items without backup not be put on consent.

Mrs. Armstrong asked for clarification that staff is working on the distribution of the additional MFP dollars. Mr. Ramsey announced that Mr. Lee will bring a presentation to the Board at the next meeting. Mr. Rachal asked about the possibility of this being on the agenda as a presentation and the Board being able to take action at the August 20th meeting. Because it is on the agenda and the information is on BoardDocs, Mr. Ramsey stated his belief that the Board can take any necessary action. Mr. Abrams explained there is no reason why the Board cannot place the item on the agenda today and if sufficient information is not provided by the time of the Board meeting, the item at that point can be postponed until the next meeting. Mr. Rachal asked
that the item relative to the MFP be placed on the agenda. Mr. Rachal asked that the Board be
given a copy of the presentation prior to the meeting and not the day of the meeting.

*Mr. Pierson moved, seconded by Mrs. Crawford, to add to the agenda for August 20th an item
relative to the distribution of the additional MFP money.*

Mr. Abrams clarified that the additional monies are not MFP funds, but additional revenues. Mr.
Lee verified that these monies are not MFP, but additional revenue from the State not in the MFP
allotment.

Mr. Ramsey corrected the motion and that the item would be *distribution of the additional state
supplement dollars that came to Caddo Parish.* Mr. Lee also explained that these dollars can
only be used for teachers and additional money that the Board might wish to give to support
employees cannot come from these funds but would come from the District’s general fund. Mr.
Ramsey further clarified that the motion is thus amended to state the *allocation of the state
supplement dollars to certified classroom teachers.* *Vote on the motion carried.*

As a point of order, Ms. Priest reminded the Board that it has always been emphasized that items
for the Board’s consideration must have the backup at the work session to allow the Board to
discuss and ask questions.

Mr. Hooks asked for clarification of the item on the $500 to the 10 AU schools since it was
placed on the consent agenda without any backup provided. Mr. Ramsey stated that this
particular item’s backup can be a motion for the Board’s consideration, and as Board President it
is his decision to allow it. Mrs. Crawford asked about her request to add her item relative to the
$100 M&S for teachers but it was referred to committee.

Mr. Abrams further clarified that the procedure for the work session is any item can be placed on
the agenda even without the backup. If a Board member requests an agenda item, the Board
President can refer it to committee. He further explained that items without backup actually
come up during the next meeting and at that time, a Board member can state because there was
no backup at the work session, which is policy, there must be a 2/3 vote in order for the Board to
vote on the item. Actually, Mr. Abrams said if no one says anything, the Board waives it.

Mrs. Crawley asked if putting it on the agenda versus putting it in a committee is the sole
decision of the President or can a Board member put it in committee, but she wants an agenda
item. Mr. Abrams stated that Board policy is the Board President makes the decision on whether
or not something goes to committee unless the Board votes to overturn that decision. Mr.
Ramsey clarified that his reason for referring this is Mr. Lee is working with the CEEF
Committee to determine what is available and the information will be routed to the committee so
the committee can determine what can be done to provide the funds for the teachers. Mrs.
Crawley said this is a concern of hers when it comes to committees and that it appears to allow
the Board President more power than what was originally thought.

Mrs. Bell asked about the resolution of the Level IV grievance. Dr. Robinson stated that the
information is ready and will be placed on BoardDocs on this grievance out of Southern Hills
and Transportation.

**Adjournment.** *Mr. Pierson moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion
carried* and the meeting adjourned at approximately 5:20 p.m.
August 6, 2013

The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at approximately 5:23 p.m. (immediately following the CPSB executive committee work session) on Tuesday, August 6, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present was Legal Counsel Reginald Abrams, staff and visitors. The prayer and pledge were omitted.

VISITORS

Jackie Dozier addressed the Board on the Board’s Powers and Duties as listed in the Board’s policy manual, namely the duties of (a) electing a superintendent, and (b) performing specific duties imposed upon the Board by statute. She also addressed policy KCBD (Broadcasting and Taping of Board Meetings) and the policy that proper decorum shall be maintained during all School Board meetings. With the 12 Caddo Parish School Board districts having elected representatives to each district to carry out the responsibilities outlined in the Board policies and to represent the children, she stated that was the Board’s decision on the Superintendent Search process and timeline and the community trusted that plan. Additionally, she said she believes the Board failed the citizens in executing these duties and responsibilities to elect a superintendent; and she believes the behavior of the Board throughout the process has shown her, the media and the public that it is possible the Board is incapable of following through on its own plan at this critical time in Caddo’s history. She asked if this is a sign of Board ineptness, non-compliance or ignorance of its duties and responsibilities, or does the Board have a hidden agenda when it comes to selecting the next superintendent? Mrs. Dozier stated that she believes splitting the vote is counter-productive to the needs of the School District and the community and further delays a superintendent in place to begin the monumental task of improving the academic achievement of students, overall planning, direction and evaluation of parish activities, ensuring adequate resources and the support necessary to achieve the goals and objectives. Lastly, Mrs. Dozier noted the Board’s accountability and asked the Board to not spend any additional money to select the next Superintendent.

Rev. Joe Gant, chair of the Superintendent Search Citizen Advisory Committee, recognized members of the Advisory Committee by asking them to stand. He stated that when this committee began meeting, they asked themselves whether or not their input was of any value to the Board and was assured it was. In seeing how the Board voted, the Committee feels as if their time was wasted and asked the Board in the future, if it is not going to listen to the Advisory Committee, to not appoint one. He added the Board has the authority to name a superintendent and if the Board’s intent is to do so without their advice, he encouraged them to do so. He also shared the Committee’s concerns relative to the school district, i.e. (1) its credibility, and (2) the reputation of a divided Board, and he urged the Board to consider these concerns because it is imperative that the Board leave the meeting today with someone in charge of the School System.

Doc Voorhies noted the difficult task of selecting a Superintendent and it is his opinion that both candidates are excellent candidates and he agrees with the need to leave the meeting with a new Superintendent and he stated his support of Dr. Mary Nash-Robinson.

Willie Bradford stated his appreciation to Dr. Gerald D. Dawkins for his service to the Caddo Parish School System. He said seven months (and almost $30,000 later) later, the Board has not been able to agree on a superintendent. Mr. Bradford noted the response to Board members’ action and how the District is at a crossroads with good things happening in Caddo, i.e. 10 schools coming out of Academically Unacceptable Status, yet the Board is putting students at risk because of its non-decisiveness. He stated that after a nationwide search, he believes John
Dilworth and Dr. Mary Nash-Robinson are the best on the list of candidates and asked the Board to do its job and select a Superintendent for the students in Caddo Parish.

Jon Glover noted that of the 22 Academically Unacceptable schools in Caddo, ten have exceeded the criteria needed to be released from the AU status. Recognizing this auspicious occasion, she asked how can the particulars be attained in order to facilitate the remaining schools’ release. Ms. Glover stated that a superintendent can affect this issue by engaging in dialogue that will produce such answers. Without an individual who has the vision to address this, she questioned if there will be those that take a “wait and see” attitude? She stated she doesn’t believe an interim superintendent will have such a vision and she encouraged the Board to select the individual that will spearhead the Caddo School System for success.

Scott Hughes, Caddo Alliance for Education, noted the Board’s failure last week to reach a consensus in selecting a superintendent; however, it was no surprise to those who had followed the process. He said that failure was not that one side or the other could not get one of the 12 to change their vote, but that over two months and tens of thousands of dollars, the Board was not able to come up with a candidate that the majority of the Board could support. He said Caddo is at the point where it does not need a leader who gets elected on a one vote margin, but needs a leader who instills confidence in 9, 10, 11 or 12 Board members. He said to get there he believes it may be necessary to stop what we have always done in order to get a different outcome, pay for excellence (up the annual salary range for the superintendent), change the Central Office paradigm (current employees that hold superintendent certification), non-traditional applicants, go find the next Caddo Parish School Superintendent.

RESOLUTION FOR NORTH LOUISIANA CIVIL RIGHTS COALITION

Mrs. Bell moved, seconded by Ms. Priest, to approve the resolution for the North Louisiana Civil Rights Coalition as submitted in the mailout. Vote on the motion carried unanimously and a copy of the resolution is filed in the official records of the August 6, 2013 Special Session minutes.

EXECUTIVE SESSION

Mr. Pierson moved, seconded Mr. Bell, to go into executive session to discuss superintendent candidates for no more than one hour. Vote on the motion carried with Board member Hooks opposed, and the Board went into executive session at approximately 5:43 p.m.

The Board reconvened in open session at approximately 7:00 p.m.

Mrs. Crawford moved, seconded by Mrs. Crawley, that John Dilworth be appointed and employed as Caddo Parish Superintendent of Schools on the terms and conditions provided in the contract negotiated by the Board’s Executive Committee, and further that the Caddo Parish School Board authorize, empower and direct the President of the Caddo Parish School Board to execute the contract. Vote on the motion failed with Board members Pierson, Crawley, Trammel, Priest, Crawford and Bell supporting the motion and Board members Riall, Green, Hooks, Rachal, Ramsey and Armstrong opposed.

Mr. Riall moved, seconded by Barry Rachal, to name Dr. Mary Nash-Robinson interim superintendent of Caddo Parish Public Schools effective August 12, 2013 with the authority commensurate with the position and a salary of $180,000 until a superintendent is selected by the Board, with the understanding that Mary Nash-Robinson will not be a candidate for superintendent, and that Mary Nash-Robinson be allowed to return to her position as Chief of Staff once a permanent superintendent is selected by the Board.
Ms. Priest moved, seconded by Charlotte Crawley, that the executive committee review credentials of current employees to determine who meets the qualifications as interim superintendent and set a meeting to select an interim superintendent. Vote on this substitute motion failed with Board members Riall, Green, Hooks, Rachal, Ramsey and Armstrong opposed and Board members Pierson, Crawley, Trammel, Priest, Crawford and Bell supporting the motion.

Mr. Rachal stated that he would like to visit with Dr. Robinson and ask her some questions. President Ramsey explained that questions can be asked if clarification is needed relative to any points of the motion. Mr. Rachal asked if Dr. Robinson is agreeable to the motion. Dr. Robinson stated that she pondered this for a long time and she is a school person: she does children, administrators, school staff and teachers; and she never meant for this to become the fiasco it has become. She stated that it is her desire to continue to do this because it is a calling for her and it is time to move the District forward, the terms of which mentioned in the motion are acceptable to her. She has 40 years in Caddo and will determine thereafter how much longer she continues to work, but she would like to do this in the interim capacity and continue to serve young people, families and communities in the District; and she will not apply for the permanent position.

Ms. Priest stated that both motions failed and she would still like for the executive committee to look at the credentials of other employees in the District that have superintendent certification. Mr. Ramsey stated that this motion failed and cannot be discussed.

Mrs. Bell asked the maker of the motion if this was discussed prior to today’s meeting? Mr. Ramsey declared Mrs. Bell out of order. Mr. Riall said he did not discuss it, but he was given information that was agreeable with Dr. Robinson and he made the motion. Mrs. Bell asked about the statement that this would be done and it would be 18 months before the Board found someone.

Ms. Trammel asked about the length of time for the interim appointment and Mr. Ramsey responded that will be the topic of another Board meeting to discuss the timeline for the selection of the Superintendent.

Ms. Priest asked for a recess and Mr. Ramsey responded that request is declined and the Board needs to move forward.

Mrs. Crawley stated that she would like to submit a friendly amendment to the motion that we immediately engage in a superintendent search and that upon the return to her current position her salary will go back to what it currently is for that position. Mr. Ramsey asked Mr. Riall if he is agreeable to amending his motion with this friendly amendment. Mr. Riall asked if he understands correctly that this is only being added to his original motion and Mr. Ramsey stated that is correct if the maker and second of the motion agrees.

Mr. Riall restated the motion as amended that Dr. Mary Nash-Robinson be named interim superintendent of Caddo Parish Public Schools effective August 12, 2013 with the authority commensurate with the position and a salary of $180,000 until a superintendent is selected by the Board, with the understanding that Mary Nash-Robinson will not be a candidate for superintendent, and that Mary Nash-Robinson be allowed to return to her position as Chief of Staff once a permanent superintendent is selected by the Board and that the Board will immediately enter into a superintendent search and that her (Dr. Mary Nash-Robinson) salary will go back to what it currently is for that position after her tenure as interim superintendent.
Mr. Rachal stated that because everything is happening so quickly, he would appreciate a recess. Mr. Ramsey stated that the nature of a recess will not be to discuss any agenda item on the table and asked if everyone understands the motion on the table.

Mr. Abrams explained that a recess cannot be taken to discuss this item because it is on the table for a vote.

Mr. Pierson asked for clarification on the motion and how the Board will go about the next search, because the Board is still in a search since it has not been declared this search has ended. Mr. Ramsey responded that Mrs. Crawley’s friendly amendment was to immediately start a search and as president he will call a special meeting for the Board to establish and direct how it wishes to move forward in the search, i.e. internal search, local search, contract company; and it is now on the table to immediately begin a search. If this motion passes, he will call a meeting for this purpose.

Mr. Riall stated that he hopes the Board will not make this more difficult than it needs to be, because he believes it is important to have someone in place to guide the School System as the new school year begins; and then anything else that the Board needs to do relative to the superintendent search, the Board can do so in the next meeting.

Mrs. Crawford stated she will be leaving on vacation and asked that no meeting be scheduled while she is out of town unless she has time to purchase a ticket and fly back to Shreveport. Mr. Ramsey assured Mrs. Crawford that he will not schedule until she returns to town and will confirm that all Board members can be in attendance.

Mrs. Bell stated that she would like to amend the amendment that the superintendent search begins immediately and a superintendent in place in the next 90 days. Ms. Priest seconded the motion. Mr. Riall stated he cannot support this amendment, unless the wording is a goal to have a superintendent in place in the next 90 days.

Ms. Trammel asked for clarification of the motion and the amendments on the floor. Mr. Ramsey stated that the amendments to Mr. Riall’s original motion are to start the superintendent search immediately with a goal of naming a superintendent in 90 days and that once a superintendent is named, the interim superintendent will go back to her original position at her original salary.

Mr. Riall moved, seconded by Mr. Hooks, to call for the question on all amendments and motions on the floor. Vote on the motion carried unanimously.

Vote on the main motion as amended carried with Board members Riall, Crawley, Hooks, Trammel, Crawford, Rachal, Ramsey, Armstrong and Bell supporting the motion and Board members Green, Pierson and Priest opposed.

Adjournment. Mr. Riall moved, seconded by Mr. Pierson, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:28 p.m.
The Caddo Parish School Board (CPSB) Transportation Committee met at approximately 10:30 a.m. on Wednesday, September 4, 2013, in the Conference Room (Room 201) in the CPSB Central Office, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Mary Trammel, Jasmine Green, Ginger Armstrong, Dottie Bell, Steve Riall, ex-officio members Larry Ramsey and Carl Pierson. Also present were James Woolfolk, Tim Graham, Otis Jones, Dr. Shelia Lockett and Jackie Lansdale. Mr. Riall led the prayer.

**Bus Leasing.** Otis Jones shared a proposal for the committee’s consideration and possible recommendation to the Board to approve a RFP (5 years, lease to own) bidding for eight new buses (five regular and 3 Special Education). Tim Graham explained that the five-year bid would be for eight buses the first year and eight each year following, with the number of regular buses increasing each year and the Special Education buses decreasing. It was also noted that the buses will be 71 passenger buses as opposed to the 66 passenger buses that the District currently operates. Staff also explained the RFP will be written to cover the five-year period. Discussion was held on the District’s special needs buses and staff confirmed that because of the increase of the Special Education population, there is a need for additional buses, but the District currently is in compliance with meeting the students’ needs and training of staff.

The Committee agreed to recommend to the Board at its October meeting to authorize staff to go out with a bid for leasing to own Caddo’s buses.

Staff also reminded the Committee that Board approval will mean an adjustment to the budget for the first year; however, the amount will be built into the budget each year following.

**Bus Routes.** Discussion was held on the length of bus routes, i.e. particularly in northern Caddo Parish and other rural areas. Mr. Jones explained the average drive time for each bus, morning and afternoon, is two hours, 20 minutes and shared a chart showing a sampling of routes. Because some of the routes are so long, it was noted there is a need for air conditioned buses on these longer routes, and there is a need to look at equity in the routes. Mr. Jones explained that staff is in the process of looking at these situations and making adjustments where needed.

**Overcrowded buses.** Mr. Jones noted that the calls received regarding overcrowded buses are being addressed, and most of these issues have been resolved. He also explained various reasons why some buses are overcrowded, i.e. students who should not be on the bus because they live within a mile of school are walking to a bus stop and riding the bus, some students are dropped off at school by parents in the morning, but ride the bus in the afternoon.

**Field Trips/Cost and Reduction in Number of Trips.** In looking for a way to cut costs to the District relative to field trips, Ms. Trammel reported that she has talked to principals and staff on how we can save money by either reducing the number of field trips or increasing the costs for field trips. A proposal for increasing bus charges for extra-curricular trips was presented for the Committee’s discussion and consideration. Concern was expressed because Title I schools have received their budgets for this school year which include transportation, as well as their tutorial programs and he doesn’t believe we want to present an option to those principals which may force them to make a decision to reduce after-school tutoring programs. It was clarified that it is not believed this would affect tutorial programs, but maybe the extra-curricular trips and the number of trips taken. It was agreed that “exceptions (where applicable)” should be added to the proposal, with exceptions being athletics, Title I, Special Education, after-school tutoring programs. Mr. Jones also highlighted bus charges for the athletic and auxiliary groups for in town games, away games, playoff games; and Mr. Pierson stated he believes if you charge auxiliary groups, the teams should also be charged. Mrs. Bell also asked that staff look at the
high school athletic teams and the cheerleaders riding the same buses because she has some
concerns with this practice.

Several Committee members agreed that the policy on trips needs to be reviewed and that there
is a need to go for a change in the cost of overall field trips, possibly limiting the number of trips,
and the exceptions remaining at the $30 charge. A meeting will be scheduled with Otis Jones,
Jim Woolfolk, Janis Parker (possibly a Title I principal) to come up with a proposal. Staff also
announced it will bring to the next meeting the dollar amounts on the affect in the change in cost
and the impact on the budget.

**Update on Bus Drivers Absences.** Mr. Riall asked about the update on the discussion at the last
meeting relative to bus drivers taking Fridays and/or Mondays off. Mr. Woolfolk responded that
staff is still working on this.

**Next Meeting.** Ms. Trammel announced that the next meeting will be October 7th at 10:30 a.m.

**Adjourn.** There being no additional business, the meeting was adjourned at approximately
11:55 a.m.
The Caddo Parish School Board (CPSB) Insurance and Finance Committee met in Room 1 of the CPSB Complex, 1961 Midway, Shreveport, Louisiana, at approximately 3:30 p.m. on Monday, September 9, 2013, at which there was not a quorum present. Those in attendance were Chair Lillian Priest and Jasmine Green, ex-officio member Carl Pierson, Randy Watson, director of insurance; Travis Smith, principal; Otis Jones, director of Transportation; Daryl Roberson, Caddo Association of Educators; Jackie Lansdale, Red River United; Kim Burton A+PEL; Nancy Young, Caddo Retired Teachers; Willie Arkansas, custodial supervisor; Tommy Smith, director of maintenance/school plant; and David Hennigan, budgetary accountant.

Ms. Priest explained that the purpose of today’s meeting is to share with representatives from the employee organizations and District departments a presentation on the 2014 Group Insurance Renewals and allow time for them to share this information with their individual groups and receive input.

**2014 Group Insurance Renewals.** Mr. Watson explained that the timeline for receiving input from peers of the various groups/departments represented is September 25th, and this input will be shared with the CPSB Insurance and Finance Committee on September 26th for finalization of a recommendation for the Board’s consideration in October.

Mr. Watson shared information on the following: the CPSB five plans and background information (including enrollment, average rate increase history, administrative fees, premiums, timeline for implementation of insurance changes), the Affordable Care Act and how it will affect the employer and employees (requirements, premium costs, taxes, fees); options for consideration and a form for recording employees/groups’ input. A copy of the powerpoint presentation is attached and made a part of the committee file.

**Next Meeting.** Ms. Priest announced that the next meeting of the Insurance and Finance Committee will be September 26th to review the input and finalize a recommendation for the Board’s consideration in October. She also announced that at this meeting the Committee will look at the M&S and the employee supplement.

**Adjourn.** There being no additional business, the meeting adjourned at approximately 4:30 p.m.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, September 17, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green (arrived at 4:50 p.m.), Carl A. Pierson, Sr., Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Charlotte Crawley was absent. Also present were Interim Superintendent Mary Nash Robinson, Legal Counsel Reginald Abrams, staff and visitors. Mr. Rachal led the prayer and Pledge of Allegiance.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Ramsey and Interim Superintendent Robinson presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Captain Shreve Student Selected to Serve on the Tuition Task Force. Shelby Paine, senior at Captain Shreve and president of the Student Council, was recognized for being selected to participate on a Tuition Task Force. This task force was created during the most recent Legislation Session and will afford Miss Paine the opportunity to be a voice on issues related to the rising cost of tuition at Louisiana’s public colleges and universities as well as the impact on rising costs on TOPS and the quality of education programs offered to students at these education institutions.

Caddo Parish Magnet High Student Selected to Serve on Alliance for a Healthier Generation Youth Advisory Board. Isaac McFarland, a junior at Caddo Magnet High, was recognized for being selected as a member of the Alliance for a Healthier Generation Youth Advisory Board. This national board is one of the only youth-led advisory groups in the country focused on the issues of childhood obesity, and they will travel throughout the United States as national spokesmen for the Alliance.

Caddo Parish Receives $1,000 Grant to Create a Running Club. Atkins Elementary School was recognized for being named a grant recipient from Active School Acceleration Project (ASAP) to launch its 100 Mile Club. This organization (ASAP) is an initiative of ChildObesity180, an organization that works toward reversing the childhood obesity epidemic.

National Board Certified Counselors. The following counselors were recognized for attaining the National Board Certified School Counselor specialty credential, which recognizes counselors who possess a minimum of a master’s degree in counseling with coursework in school counseling and who have passed a challenging national application and examination process: Kristal Chambers, Forest Hill Elementary; Veronica Douglas, University Elementary; Christy Ferguson, Forest Hill Elementary; and Amanda Martinez, Southern Hills Elementary.
Newly Appointed Administrators. The following newly appointed administrators were recognized: Middle School Assistant Principals – Beverly Hudson, Caddo Middle Magnet and Tiffany Franklin, Caddo Middle Career & Technology; High School Assistant Principals – Dana Fergins, Booker T. Washington; Annie Cherry, North Caddo; Aldon Kelly and Felicia O’Neal, Woodlawn Leadership Academy; Special Education Department – Lyna Jackson, Pupil Appraisal Facilitator.

Dual Enrollment. Superintendent Robinson announced that requested information on Dual Enrollment is provided at each station. Ms. Priest expressed appreciation for the information and asked staff if, in looking at the schools, universities, courses offered, and number of students enrolled, there are exclusive relationships between schools and the colleges/universities, and do students and parents in every Caddo school have the option to select which college/university they want to participate in for Dual Enrollment? Mrs. Flowers explained that at the District level, schools are encouraged to work with as many post secondary schools as possible because the students do not all have the same needs/career goals; however, she does not know how each school has set up their program. Ms. Priest asked if there is not a uniform “one fit all” policy as it relates to the students. Mrs. Flowers explained that thus far the District has not decided to mandate to the high schools, but it is made available to all high schools and all are encouraged to participate with as many as possible. Ms. Priest stated that relative to credits, she has been informed that staff is telling students and/or parents that the Southern University credits are not the same or that the school was only working with a particular university. Mrs. Flowers responded that she has never said that and she can’t imagine any of the staff would say that; however, she would like to know the individual who said that so she can address it. Mrs. Bell indicated she too has received calls and feels there is a need to pull everyone together and make sure everyone is on the same page. Gayle Flowers addressed Board members’ concerns and explained that post secondary schools determine how they will handle dual enrollment; and with changes from the Board of Regents, some schools are now charging or using other funds. Mr. Pierson requested that staff address counselors telling students they do not go to Southern University, but to only certain other universities. Mrs. Crawford asked if the Board of Regents has corrected classes transferring from one university to another, and Mrs. Flowers explained there is a post secondary matrix on the web site which explains which courses articulate with which university. Mr. Riall asked for clarification on Mr. Pierson’s statement that tuition fees at Southern University are waived, and Mrs. Flowers explained that the post secondary schools decide how they wish to handle Dual Enrollment, some using other funds. Mr. Riall asked if students incur some of the cost and Mrs. Flowers responded that it depends on the post-secondary institution. Ms. Priest recognized Dr. Terrance Vinson and Sandra Bigham with Southern University, and Dr. Vinson shared his concern that Southern University has received communication that some Caddo counselors are telling students they only offer Dual Enrollment classes at certain universities. He explained to the Board that the Dual Enrollment courses at Southern University are transferable to institutions throughout the state and the nation; and having recently being reaffirmed by SACS for the next 10 years, he assured the Board that it is important to Southern University that he and his staff work closely with the school personnel to insure that students get what they need whether it be college or technical educational. He also assured the Board that they will be participating in all college fairs in the future and noted that Southern University is the only university that offers Dual Enrollment free of charge through the Tops Tech Program, as well as provides students with needed textbooks. He stressed the importance of Southern being partners with the Caddo District and providing the best service possible to students. He added the main point is the Jump Start Program unveiled by the State Superintendent will be in place next year and Southern wants to insure that it is in step with the local school system in implementing this program for students. He highlighted some of the courses Southern University offers through the Dual Enrollment program and that he is looking to streamline the process so there is less work on Caddo’s counselors. Board members asked the Superintendent and staff to meet with the principals, counselors, and representatives from the various universities offering Dual Enrollment classes and work out the issues brought forth.
VISITORS

Glenn Davenport, employee, read a statement to the Board expressing his concern of continually being harassed in his job. He noted being displaced from the maintenance department to other areas and he believes this was done as a result of him coming to the Board seeking a remedy for being harassed. Mr. Davenport asked the Board if it cares that he has been subject to such acts and treated unfairly, because he believes an investigation into the allegations should have been done rather than reassignment to an area where one has no expertise or experience. He asked the Board to address those individuals who brought about action and why it was allowed to manifest to this point, to reassign him to his job where he has expertise and experience, and insure that no other employee experiences the behavior and attitude he experienced.

Charles Rambo addressed the Board on the Superintendent Selection process, questioning why two finalists were selected to interview last time and one of those finalists was selected to serve as interim yet the Board said the interim cannot become the permanent superintendent. He questioned why, if someone has the ability to serve as the interim superintendent, they cannot serve as the permanent superintendent.

Jon Glover, employee, addressed the Board on her concerns relative to the Academically Unacceptable schools and the regression the District is experiencing by not affording equity of resources, educationally, to every child no matter their race, creed or color. She noted the need to address these issues directly in order to come to a resolution to the divisiveness permeating the hearts and minds of those that no more want equity of resources for all children in Caddo Parish. She stated that because she has chosen to continue to bring these issues before the Board, she doesn’t believe that one’s job should be threatened directly or indirectly; and because she is employed by the School System, she does not release her right to address issues that are of concern to her and should be to others. She said if the Board cares about equally educating every child in Caddo Parish, it should not judge her, but judge the information being shared with the Board. Having a vested interest in insuring that every child in Caddo Parish is afforded equal access to resources no matter what schools they attend, she asked the Board to ask itself if supporting charter and private schools actually supports unity or division. She stressed the importance of forming a united front, concerned about the plight of every child in Caddo Parish, in moving forward.

Jackie Lansdale, president of Red River United, addressed the Board about Compass Value Added money and encouraged the Board to share how it will implement the highly qualified incentive money. Noting that the Finance Committee will meet again on September 26th, she stated that she is hopeful it will address not only this item, but also the supply money, with CEEF as the funding source, as well as monies to be allocated to the classroom teachers and other employees. She shared that Bossier has chosen to allocate its funds to their employees at Thanksgiving along with their Christmas check and encouraged Caddo to do the same. Mrs. Lansdale also addressed Instructional Specialists being sent back to the classroom during the most recent budgetary changes; and she believes the Board said that as those that were not put into the classroom retired, those placed in the classroom would come out of the classroom and fill those positions. She is hearing this will not happen, but that those positions will be opened up for interviews and asked that this action be reviewed. Regarding the grievance policy, Mrs. Lansdale stated this is in state law and is enabling Legislation for local policy; and she says there is a disconnect between the state law and the local policy, as the law states that a group of teachers or school employees can file a grievance and this has been left out of the local policy. Also, in addressing the grievance on tonight’s agenda, she asked that the Board fix this policy.

ESTABLISH THE AGENDA AND CONSENT AGENDA FOR THE SEPTEMBER 17, 2013 CPSB MEETING
Interim Superintendent Robinson highlighted items for the Board’s consideration. President Ramsey announced that Item No. 8.07 “Approval of Services of School Transformational Consultant” is pulled and proposed Items 6.01-6.02, 8.03-8.06 and 13.01 as the Consent Agenda. Mr. Pierson moved, seconded by Mr. Rachal to establish the agenda and consent agenda for the September 17, 2013 CPSB meeting. Vote on the motion carried unanimously.

CONFIRM THE CONSENT AGENDA

Mr. Pierson moved, seconded by Ms. Priest, to confirm the consent agenda (Items 6.01-6.02, 8.03-8.06 and 13.01). Vote on the motion carried unanimously. The following is a summary of the Board’s action on the Consent Agenda items.

**Item No. 6**

**6.01 Personnel Recommendations.** The board approved the personnel recommendation as recommended by staff and submitted in the mailout.

**6.02 Personnel Transactions Reports.** The board approved the personnel transactions reports for the period of August 1, 2013 through August 31, 2013 as recommended by staff and submitted in the mailout.

**Item No. 8**

**8.03 Long-Term use of CPSB Facilities.** The board approved requests for long-term use of CPSB facilities as recommended by staff and submitted in the mailout.

**8.04 Request for Sale of Property.** The board authorized staff to move forward with the process for selling the Hamilton Terrace School property.

**8.05 Resolution Adoption OGM Lease Tacoma Energy.** The board adopted the resolution(s) for the CPSB requesting the Louisiana State Mineral Board to seek proposals for oil, gas & mineral lease of two tracts of land in Section 16-T19N-R14W of Caddo Parish as submitted in the mailout. A copy is filed in the permanent file of the September 17, 2013 meeting.

**8.06 Out of State Travel.** The board approved requests for out of state travel (General Fund) as submitted in the mailout.

**Item No. 13**

**13.01 Student Readmission Appeals.** The board approved the readmission appeals for students AG, BV, JT, KJ, and DP. The parents are in agreement with staff’s recommendation.

**BIDS**

Mr. Rachal moved, seconded by Mrs. Crawford, to approve the following bids as recommended by staff and submitted in the mailout on the bid tabulation sheets: (1) Economical Janitorial & Paper Supplies, Inc., totaling $59,000.00 for the purchase of Janitorial Paper Supplies – Bathroom Tissue; and (2) FleetCor Technologies Operating Company, LLC, for the Fuel & Automated Fuel Management System.

Mr. Hooks asked staff to confirm there was only one bid submitted, and Mr. Graham said that is correct, even though it was mailed to five companies. Mr. Hooks asked if we knew why we only received one bid, and Mr. Graham said he did not, but this was last bid seven years ago; and
when it was bid last year, this is the company that submitted a bid and it is submitted for the Board’s consideration.

*Vote on the motion carried unanimously.* A copy of the bid tabulation sheets is attached and made a part of the permanent file of the September 17, 2013 CPSB meeting.

**RESOLUTION OF LEVEL IV GRIEVANCE**

*Mr. Pierson moved, seconded by Mr. Hooks, to uphold the Superintendent’s resolution at Level III grievance and to have Policy GBCB reviewed with revisions to include periodic training for employees and to provide additional procedures to help insure that actions taken remain private. Vote on the motion carried with Board member Crawford opposed.*

**BRANDON GOYNE FOUNDATION**

*Mr. Rachal moved, seconded by Mrs. Armstrong, to authorize staff to participate with the Brandon Goyne Foundation to provide EKGs and ECGs testing with the appropriate insurance and following procedures established by staff prior to implementing the testing.*

Mrs. Crawford asked what will be done when the doctor stops reading these for free or gets overwhelmed with the number and she questions should we approach local cardiologists about reading these EKGs/ECGs for Caddo students? Ms. Trammel asked if the report of the results will be sent to the parents or will results be sent directly to the contact person at each school for communication to the parent? Mr. Abrams stated that the motion is to authorize staff to participate and provide these tests with appropriate insurance and following procedures established by staff, so staff will need to come up with the procedures in order for this to work, and everything will be in place before it is implemented. Ms. Trammel asked if there is a timeline for the staff following through for implementing, and Mr. Abrams again stated the motion is to authorize staff to work with the Brandon Goyne Foundation and for staff to come up with the procedures for implementing the program in Caddo’s schools, and not to come back to the Board for additional approval. Mr. Rachal expressed his appreciation to the family for bringing this program forward, because he believes if it saves one child, it is worth it.

*Mr. Riall moved, seconded by Mrs. Bell, to call for the question. Vote on the motion to end debate carried unanimously.*

*Vote on the main motion carried unanimously.*

**UPDATE ON COLLABORATIONS WITH RSD**

Dr. Mary Nash Robinson shared with the Board that she met with Delano Ford of the RSD to discuss the charge given him by State Superintendent John White and RSD Superintendent Patrick Dobard. She reported the spirit of that meeting was cordial and collaborative, reminding Mr. Ford of the District’s many successes, the District’s desire to reclaim Linear, and also to be given every possible opportunity to turnaround all Caddo Schools cited as endangered by state standards. Mr. Ford has provided a timeline that will assure collaboratively that Caddo will have a plan to present to BESE in December of 2013. She also reported that Mr. Ford was invited to meet with the Project Management Oversight Committee (PMOC), a subcommittee of the Superintendent’s Cabinet. The Committee engaged him in conversation and he vowed to work with the District to develop a plan. Since that meeting, Dr. Robinson reported the PMOC held a brain-storming session to collect “out of the box” ideas as to how the District can restructure and address the schools tagged as failing by the state, as well as right size the district and address budgetary inefficiencies. Additional meetings devoted to bringing more definition to the proposal were held and the consultant from New Millennium was interviewed with staff
determining that many of the services offered in the contract have been and/or can be handled by the current staff. However, since a third party reviewer is required when the District receives charter school applications, she stated it is possible this consultant’s services might be considered for serving that needed function. She also reported that principals were asked to gather their “out of the box” thoughts for the District planning and a community partners input session is scheduled for Friday, September 20th, at 1:30 p.m. in the Professional Development Center. Mr. Ford will join this meeting for discussions. She also added that Board President Ramsey has attended several of the meetings, as has Mrs. Armstrong as the chair of the Long-Range Planning and Development Committee, and Ms. Priest as chair of the Insurance and Finance Committee. Dr. Robinson assured the Board that staff will keep them updated as these collaborative efforts continue, and that she has directed staff that the administration will communicate with the Board honest and straightforwardly the good, the bad and the ugly. Dr. Robinson said she is confident in the District’s abilities to propose a plan in collaboration with Mr. Ford that will serve CPSB well for a long time and she solicits the Boards support and participation in this project.

Mrs. Bell asked when Board members will be included in these meetings as she would like to submit an idea for consideration. Mr. Ramsey explained he sent messages/requests to the superintendent, as she chairs the PMOC, and he attended these meetings as the Board President; but there will be a time scheduled for the Board members to discuss this. Board members are also welcomed to attend the community partner input meeting on Friday, the 20th. Board members were also encouraged to email their ideas to the superintendent.

Mrs. Bell also asked about the contract between CPSB and Linwood and Linear, and Mr. Abrams explained there is no contract between Linear and Linwood other than for services, i.e. food service, janitorial, etc.

ANNOUNCEMENTS AND REQUESTS

Ms. Priest asked that administration look at assigning or designating a person within our midst to become the charter/RSD specialist to handle and review all issues to protect Caddo’s interests and assets.

Mr. Riall announced that Dr. Kirby is doing great things with the old Hosston School which he bought from the District as well as drilling three oil wells where we continue to hold the mineral rights.

Miss Green requested that the grievance policy be reviewed. She also expressed congratulations to Tradavius White, former valedictorian at Green Oaks, on the great job he is doing at LSU. Miss Green also thanked the superintendent for her weekly email to the Board on what happened that week and keeping the Board members informed.

Adjournment. Ms. Trammel moved, seconded by Mrs. Bell, to adjourn. Vote on the motion carried unanimously and the meeting adjourned at approximately 6:05 p.m.

Mary Nash Robinson, Ph.D., Interim Secretary                         Larry E. Ramsey, President
The Caddo Parish School Board Insurance and Finance Committee met on Thursday, September 26, 2013 at 10:30 a.m. in the Wanda Gunn Professional Development Center Meeting Room on the CPSB campus. Those in attendance were Chair Lillian Priest, Mary Trammel, Jasmine Green, Steve Riall, and Dottie Bell. Staff and visitors were Randy Watson, Jim Lee, and Jackie Lansdale, Red River United.

Chair Priest expressed appreciation for everyone’s participation in this committee and for the staff’s hard work in putting together the information needed in order to make the recommendations to the Board.

2014 Group Insurance Renewals. Randy Watson, director of insurance, presented to the Committee the input from the various employee groups and staff’s recommendations relative to the 2014 insurance renewals as follows:

On motion by Mrs. Bell, second by Ms. Trammel, the Committee approved for recommendation to the Board not to expand the new eligibility rules that would increase employer costs in 2014, since fines and penalties have been delayed under the Affordable Care Act. Motion carried.

On motion by Mr. Riall, second by Mrs. Bell, the Committee approved for recommendation to the Board to not lower premiums for all employees in order to avoid penalties. Motion carried.

On motion by Mrs. Trammel, second by Miss Green/Mr. Riall, the Committee approved for recommendation to the Board to implement an 8.3% increase in premiums. Motion carried.

On motion by Mrs. Bell, second by Mr. Riall, the Committee accepted staff’s recommendation regarding re-insurance (purchase re-insurance for our self-funded plan at a specific deductible of $500,000 on a 12-month incurred and 15-month paid basis, and the lowest bid on one of the treaty partners of Blue Cross (Highmark), and recommends approval to the Board. Motion carried.

On motion by Miss Green, second by Ms. Trammel, the Committee approved for recommendation to the Board that the employer/employee contribution percentages remain the same, which averages 75% employer contribution and 25% employee contribution. Motion carried.

On motion by Miss Green, second by Ms. Trammel, the Committee approved the recommendation from the Benefit Committee to (1) increase deductibles by $100; (2) increase the out-of-network maximum by $1,000 and (3) increase the ER co-pay by $20. Motion carried.

On motion by Ms. Trammel, second by Mrs. Bell, the Committee approved to recommend to the Board that retiree vesting not change at this time. Motion carried.

On motion by Mr. Riall, second by Ms. Trammel, the Committee approved staff’s recommendation to raise survivor premiums to the same as employees. Motion carried.

On motion by Miss Green, second by all, the Committee accepted staff’s recommendation to recommend to the Board that Caddo not go to the State plan. Motion carried.

On motion by Ms. Trammel, second by Mrs. Bell, the Committee approved to continue with Standard Life Insurance and accept the needed premium increase of 15% as recommended by staff and to recommend this to the Board. Motion carried.
On motion by Mrs. Bell, second by Mr. Riall, the Committee approved to recommend to the Board the joint recommendation of staff and the Benefit Committee to increase the premium of the 14-Day Waiting Period Disability Plan by 22.5% and leave premiums at the current level on the 30-Day Waiting Period Disability Plan. Motion carried.

On motion by Miss Green, second by Mrs. Bell, the Committee approved for recommendation to the Board, staff’s recommendation to use enough monies from the Dental Premium Stabilization Fund to offset the needed 5.5% increase, allowing premiums to remain at the same level of 2013. Motion carried.

On motion by Mr. Riall, second by Ms. Trammel, the Committee approved to present staff’s recommendation on new procedures for Section 125 (Cafeteria Plan) to the Board. Motion carried.

Mr. Watson also announced that Dr. David Carmouche has indicated his interest in meeting with the Insurance and Finance Committee/CPSB to present and discuss a quality initiative. The committee agreed to schedule time with Dr. Carmouche on October 8th.

Employee Supplement. Ms. Priest reported that she met with Mr. Lee and asked him to prepare the information, sent to the Committee on Tuesday, as to how the additional State funds could be used (beyond ½ which is to go to classroom teachers). Mr. Lee explained that of the $4.7 million Caddo will receive in 12 monthly allotments from the State, ½ of that amount ($2,352,247) must go to all classroom teachers as defined in the Legislation. He added that staff recommends the remaining $2.3 million be used to give all other employees a $500 supplement, which will cost the district approximately $1.7 million. Following discussion, Mrs. Bell moved, seconded by Ms. Trammel, that the Committee recommend to the Board at its October meeting that in addition to the $800 the board previously approved for classroom teachers, that $1.7 million of the additional State funding be used to give all other employees a $500 supplement. Motion carried.

Teacher M&S. Discussion was held on using some of the remaining funds from the additional State funds to give teachers M & S money versus using CEEF funds at this time. Ms. Trammel moved, seconded by Miss Green, the Committee recommend to the Board that approximately $300,000 be used from the remaining $700,000 of additional State funds to give each classroom teacher $100 for materials and supplies for the remainder of this school year. Motion carried.

Visitor Comments. Mrs. Lansdale shared with the Committee members what Bossier Parish did with their pay schedule and how their highly effective teachers are now affected by their recent decision to not do anything until the litigation is resolved. She also encouraged the Committee to look at the possibility of using CEEF monies to fund the teacher M & S allotments in the future.

CEEF. Mr. Lee shared with the Committee a list of the members of the CEEF committee and, that at this time, a meeting of this committee has not been scheduled.

Miss Green expressed appreciation to the Chair for holding the Committee meeting in the morning.

There being no additional business, the meeting adjourned at approximately 11:30 a.m.
October 1, 2013

The Caddo Parish School Board (CPSB) Executive Committee met in regular session on Tuesday, October 1, 2013 at 4:30 p.m. in the boardroom, 1961 Midway, Shreveport, Louisiana with President Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Others in attendance were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal and Dottie Bell. Mr. Riall led the prayer and Pledge of Allegiance.

PRESENTATIONS

Update on Ombudsman Program. Mr. Phillip Givens, director of special services, shared an update on the Ombudsman Alternative Program, including information on the sites, Ombudsman staff, enrollment data, special services and district support, and overage-age and expulsion students. He reported Ombudsman has an Administrator, four assistant administrators, 40 teachers and custodial/maintenance employees, with 126 students at Academic Recovery, 29 at the Caddo North Center, 37 at the Caddo Central Center; 20 at the Caddo West Center; and 32 at the Caddo East Center for a total of 242 students as of September 30th. He reported the full day sessions are 7:30-2:00 for middle schoolers, A.M. sessions are 7:30 to 11:30, mid-day sessions are from 11:30 to 3:30 and the P.M. session is from 3:30 to 8:30 p.m. He also reported the number of students currently enrolled in each session at each site, and reported that E2020 is being used this year for the Core Curriculum, with teacher-led instruction taking place in the classroom. Social workers are present and data review is done weekly to determine how students are progressing and where support is needed.

Mr. Givens also explained what the Special Services Department is doing in terms of support, i.e. facilitating student transition, data analysis, helping teachers implement the IEP for students, graduation plans, SBLC notes, etc. Additional district support includes assisting parents, monitoring student attendance, seat allotments in the program, any additional daily operation that Ombudsman needs assistance in. The staff also works with Ombudsman and Attendance to monitor program capacity and seat allotment to make certain students are attending, as well as assists in IEPs, behavior intervention specialists, 504 specialists, and instructional specialists to assure the students’ needs are met. He added that at this time he believes the transition of working with Ombudsman is going very well this school year.

Miss Green asked Mr. Givens how long he has been in this position, and Mr. Hooks responded that he was in that meeting and Dr. Robinson informed the committee that Mr. Givens would be the liaison and would report to the Board on the Ombudsman Program.

Ms. Priest asked about the percentile scores for entry in Math and Reading at Academic Recovery as well as the Centers? Guy Cooper explained that all the middle school 1 and 2 centers and the full day center (grades 6-12) are located at the facility on North Poleman (Academic Recovery). The North, South, East and West centers have a different State code and the data presented indicates where the students are when they come into Ombudsman and it also indicates the majority of the students that are entering Ombudsman below the 25th reading percentile. He noted that the importance this year will be on teaching the students how to read and they will work with Mr. Givens to get more reading instruction.

Mr. Riall asked who on staff is fulfilling the responsibilities with Ombudsman, and Dr. Robinson responded that Rosemary Woodard is handling these.
Mrs. Bell asked Mr. Cooper about the idea of morning sessions including those students that may have minor infractions, but we feel can be successful; and, she asked how these students were selected for the program. Dr. Robinson explained students who are at least two grade levels behind are identified in the database, and principals were asked to make these students’ parents aware of this option. Mrs. Bell stated her belief that this is the problem, letting parents decide whether or not these over-age students have an option; and she believes we need to make these parents accountable for their over-age students by telling them what is necessary to help their student be successful and part of that plan is to move them to an alternative education program. Dr. Robinson further explained that principals were asked to bring these parents into the office and discuss projections for their student, because principals have said the same thing – they appreciate the option being available; however, they would like to it made mandatory, which is something staff is working with counsel to implement.

Mrs. Crawley asked about the information on the number of students that graduated from Ombudsman – “12th graders that completed Ombudsman”. Mr. Cooper responded that he did not have the exact number of 12th graders enrolled, but explained that while 30 may have been enrolled in the Ombudsman program, it is possible that only 6 of those students graduated. Some may have returned to their home school and graduated. Mrs. Crawley requested more detailed information, and she shared a situation reported to her that Ombudsman said a student finished the program; however, they could not get credit for it at the high school. Mr. Cooper, while he could not explain this particular incident, stated that whenever a student appeared to meet the required 24 Carnegie credits, that student was referred to Mrs. Turner as the Chief Academic Officer, along with that student’s records and Mrs. Turner made that decision. Mrs. Woodard explained that there was a change last year in Bulletin 741 “Handbook for School Administrators”, and it states students can earn credits one of two ways, seat time (instructional minutes of 7,000+ minutes and a passing grade) or by demonstrating Mastery through a proficiency test. She said the principal of the school must agree to accept the proficiency test as a requirement to award a diploma; and the Ombudsman students, as they went through the content last year, Mrs. Turner required them to take a proficiency assessment at the end of each quarter to make sure they were mastering the content. She said now that E2020 is being used, it is a platform that communicates with the credits that Caddo has and these previous issues have been resolved. She reported that Mr. Givens, supervisors, et. al., are monitoring this. Mrs. Woodard further explained that students are being tested as they go through the content and if a student does not pass the test, they go back and review the material again and retest, which is referred to as sequence testing. Mrs. Crawley asked how will we teach reading to students who are reading below grade level, and Mrs. Woodard explained there are several RTI (Response to Intervention) programs in the parish that are very prescriptive, and we have an in-house trainer. There are also programs on line; however, parishwide the District is attempting to focus on a couple of good, research-based programs rather than many different programs. Regarding career counseling, Mrs. Crawley asked if the list provided last year has been improved upon, because she would like to see career opportunities beyond, for example, jobs at McDonald’s. Mr. Cooper reported that Ombudsman will hold a career fair October 15-17, as well as a college job fair; and he can provide a list of employers that will participate, and invited Board members to attend. Mrs. Crawley asked what is being done to “beef up” these numbers, because everyone is aware there are still those in the schools that should possibly be at Ombudsman. Dr. Robinson stated that she is aware of the 450 seats and staff is looking at students who are at least two grade levels behind and/or those with chronic disciplinary infractions to give them, with parental consent, the opportunity to transfer to an alternative school setting. This represents another “Choice” for students to provide a customized learning situation and to maximize the services and monies put into Ombudsman.

Mr. Hooks asked if he understood correctly Mr. Givens report that this was the first time he visited this site; and Dr. Robinson clarified that he reported on a visit to that site last month, because Mr. Givens is on these campuses all the time. Mr. Hooks asked if they are following
Caddo’s guidelines, and Mr. Givens responded that is correct. Mr. Hooks asked if, since these students are behind, they are using the Common Core curriculum? Mr. Cooper explained that the Ombudsman curriculum has been Common Core standard-based (A+) since last year, and this year they are using a combination of E2020 and A+; and because students are coming to Ombudsman at a deficit, it his opinion if a student makes one year’s growth in 1.5 years, this is extremely good. He said their staff is reaching students where they are and building on the knowledge they have to be able to read. Mr. Hooks stated his concern relative to the test scores for the last year; because Common Core is more rigorous than the LEAP, and he is concerned they are not on level, which is what Common Core is all about. Mr. Hooks asked if the Ombudsman teachers are provided with training and Mr. Cooper confirmed they are trained on the Common Core.

Ms. Priest shared that she attended the summer school graduation and Ombudsman did have graduates from summer school. She referenced the segment “Eleven Lessons Learned” and asked staff to respond to them briefly. Mr. Cooper reported that last year transportation was carte blanche and this caused a lot of zig zagging across the District; however, this year, it is more of a route center whereby students will attend the site located in the student’s attendance zone. Relative to the student intake centralization, he explained that this year everything has been centralized to the auditorium every Tuesday and Thursday; and because Juvenile Court became a large issue, they learned through the process that the development of relationships with probationary officers has provided them with an avenue to address problems. Relative to the exit date counseling, Mr. Cooper explained that because there are students who were not aware of their exit dates, this is now a part of the intake process.

Ms. Trammel stated her attempt to understand the unbalance around the Board regarding the statement that when Ombudsman receives the students, they should be able to correct these students as it relates to problems at their home school. Mr. Cooper said they look at it as a continual process and they do not concern themselves with what happened at the school prior to the student coming to Ombudsman, but what happens in their presence; and once a student is on track, they will pass on to the home school what has worked with a particular student. He noted that their school has a growing population that does not want to leave because they like the smaller classes, the attention, etc. Ms. Trammel asked about the 16, 17 and 18-year olds and if Ombudsman recommends when they do not have ample Carnegie Credits that they are placed on a career path? Mr. Cooper stated he believes there needs to be a baseline of credits matched with age, but he has seen unique cases where a 10th or 11th grader might be behind 10 or 11 credits and he can’t explain why the sudden improvement; but he believes removing them from instruction would guarantee a drop out, but allowing them to stay in the night program, they can and have earned a GED.

Mr. Riall asked if any data has been compiled to compare the effectiveness and success of the Ombudsman program versus Caddo’s prior alternative program? Dr. Robinson responded we have and Mrs. Woodard can now pull up reports since their enrollment information is in our data base, which allows us to compare this data with Academic Recovery and Hamilton Terrace. Mr. Riall asked that staff provide a brief on this in the future.

Mr. Ramsey asked about the middle school over-age students doing some extended work in extended days at the school sites. Mr. Cooper responded there are two available buildings adjacent to the Academic Recovery facility; and if Caddo wishes to have electives taught by Caddo teachers in the afternoon for an additional four hours, this would bring them to an eight hour day. Also, it could be vocational technical type courses provided for these students. Dr. Robinson asked Mr. Woolfolk about the possible cost of implementing this plus program. Mr. Woolfolk responded it is a six-hour program; and while he could not recall the amount, our position was if the four-hour program costs $8,000, then adding two additional hours could add another $3,000 for the extended program.
Mr. Rachal asked if we did not contract for 400 students, and staff responded 450; and he asked at what rate per student are we paid? Mr. Woolfolk said he believes it is approximately $9,000 which is approximately ½ of what the cost was when we had students at Hamilton Terrace. The $16,000 program is a special program Ombudsman offers that includes a six-hour program and staff believes we only need an extension of the four-hour day by two hours; however, this has not been negotiated at this time. Mr. Rachal noted the fact that some of the students want to remain at Ombudsman rather than return to their home school; and asked if this is an option for them. Mr. Cooper explained that the option to remain at Ombudsman is always at the District’s discretion; and if the parent and the District approve, they will allow the student to remain at their site. Mr. Rachal asked how many students has Caddo taken back in the past year? Mr. Cooper explained there are two situations – expulsions (whereby a student coming in to the program today has an exit date of February 1st) and at-will cases (which affords over-age students who volunteer to participate in the program and the parents have the option for the student to return to the home school or remain at Ombudsman). Mr. Rachal asked if those at Ombudsman until February 1st are automatically released back to their home school, and Dr. Robinson said that is correct. Mr. Rachal asked if he understands correctly that we do, to a certain extent, control the number of students in the seats at Ombudsman, and how many students are at Ombudsman on a weekly basis? Mr. Cooper explained that the mid-day sessions are expulsions; and you may begin the year with 60 expelled students, but after November the number could be in the range of 250. Mr. Rachal noted that discussions in the beginning indicated a need for more than the 450 seats; and at this time he sees numbers way less than that; and while he understands that may be a result of success, but he believes we may need to release more students to Ombudsman. He asked if there is a ballpark number of where the numbers will be in January, and Mr. Cooper responded that based on last year’s numbers, he believes capacity will be reached by November. Mr. Rachal asked for a student count as of November 10th.

Miss Green asked Mr. Woolfolk if she understands correctly the cost at Hamilton Terrace was $18,000 per student and $9,000 per student for one-half day, and Mr. Woolfolk stated that is correct. Mr. Abrams explained that it was $9,000 for students not in the Ombudsman Plus Program and the Ombudsman Plus Program was $18,000 and it included the disciplinary issues. He reminded the Board that in the presentation to continue with the contract with Ombudsman, part of the presentation was to have two six-hour sessions which never happened, because Ombudsman did not agree to the additional session because it would cost several hundred thousand dollars; and after meeting with staff learned there are students that are truant and actually staying on rolls, which means seats are tied up but they are not in class. From now on, Mr. Abrams explained that if a student is truant, they will be turned over to the courts and removed from our rolls.

Advanced Innovation Education. Mrs. Eva Harris, recruiter for the Northwest Louisiana area, introduced Michael Eskridge, executive director of Advanced Innovation Education, a principal certification program they desire to bring to Northwest Louisiana. Mr. Eskridge shared with the Board information on their principal certification program as an option for Caddo teachers desiring to move into school and/or District level leadership positions. He explained that this program is designed to prepare teachers in the work force to meet the 21st Century needs that school leaders need in leading schools and communities. Being BESE approved, he explained they have the ability to certify teachers in this program throughout Louisiana and noted residents in districts across the state that are participating in this program, i.e. Avoyelles Parish, Vermillion, East and West Baton Rouge Parishes, RSD, and Concordia Parish. Mr. Eskridge highlighted the various aspects of this program (14-month program) compared to other programs offered (2.5 years), its cost ($6,800), and how they prepare them to be instructional leaders as well as business leaders. He further explained their program is an experiential learning model, i.e. a residency-based program; and 99.9% of the activities occur at their particular school site; and they also provide financial assistance to all the co-horts, with built in scholarships, as well as
incentives for those teachers who have completed alternative teacher certification programs. They are also developing relationships with local financial institutions that will work with those who are interested in passing the PRAXIS administrator’s test, and they have a test-prep program in place from the first day participants enter the program, as well as two years of on-the-job support after they graduate from the program and are in an administrative job. Pat Ours, former principal and Central Office personnel from Avoyelles Parish, shared that since she retired a year ago she began with AIE and introduced Sharika Caldwell who is participating in the principal certification program while at Woodlawn High School. As a graduate of Caddo Magnet High School and LSUS, she stated that she went into the alternative education program and is currently a resident in the RLRP program. Relative to classroom, she reported they continue to discuss the need to meet the needs of a diverse learner; as opposed to the one method of teaching that she learned when attending college. She shared her impression with the program and how it meets the needs of individuals, and how this program assesses the needs of each resident by identifying their strengths and weaknesses, creating an individualized education plan to provide experiences they need to build up their weaknesses. Ms. Caldwell highlighted how this program has afforded her the opportunity for on-job training in her own school without leaving to get experiences needed to become a successful leader, as well as allowing her the flexibility as a single parent to do her coursework from her own home. While at Woodlawn, she explained in the first five months of the program she spearheaded, organized and obtained funding for Woodlawn’s first standardized-test celebration which boosted their morale in preparation for testing. She also organized focus teams and used discipline data to develop and implement a student incentive program.

Mr. Eskridge concluded by announcing that AIE monthly hosts free seminars on Saturday in Caddo as well as quarterly community forums to address issues with Caddo families and quarterly think tanks. He expressed his appreciation for the opportunity to share this information with the Board.

Mr. Hooks asked how does the program provide teachers with support after graduation from the program? Mr. Eskridge explained that in the contract signed with AIE, they assign to work with them for two years to help them implement the responsibilities of the leadership position they go into following graduation to make sure they are successful. Mr. Hooks asked how can this program benefit Caddo? Mr. Eskridge responded that they build capacity in the schools through their community and throughout the entire parish. He said they are also able to partner with school districts with Title II funds to work with principals in schools that need assistance with leadership development, at the schools individually as well as on the system level to develop the culture of leadership in the district.

Miss Green, as a point of personal privilege, noted that Ms. Caldwell represented Woodlawn very well in a recent meeting she attended and expressed her appreciation for her hard work in Caddo.

Mr. Pierson asked if staff is prepared to present the proposed plan developed to help our failing schools, because he would like to hear it and for the public to hear it. Mr. Ramsey said while it is a Board work session, this is not an item on the agenda and the Superintendent will cover some things as the Board gets into the agenda, possibly under Item 9.01. Dr. Robinson stated the District does have a proposal and it is ready so the public will know the details; and she is very appreciative to the staff who for 2.5 weeks has worked diligently to develop a proposed plan. Staff also met before today’s meeting with Mr. Ford to look at his responses to the initial proposal; and while it is still a fluid document, it is ready to be presented to the public. Mr. Pierson said he believes it is important for the public to know what has been done and he personally would appreciate if it can be done under Item 9.01 and be open so everyone understands and there is the least amount of disruption as possible. Dr. Robinson responded that she and staff will comply with the Board’s request and staff has planned a press conference for
Wednesday at 1:00 p.m.; however, if the Board desires for staff to share the information shared with Board members in smaller sessions, staff can make the arrangements to do this tonight.

Mrs. Bell stated her agreement because plans are going out from other people and there is talk in the community, so she believes it is important to present the proposed plan. Mr. Ramsey stated if the Board will allow the opportunity to work through the agenda, this request can be addressed under Item 9.01.

ESTABLISH THE AGENDA AND THE PROPOSED CONSENT AGENDA FOR THE OCTOBER 15, 2013 CPSB MEETING

Dr. Robinson highlighted items for the Board’s consideration at its meeting on October 15th, and the following discussion ensued.

**General Fund Budget Revisions.** Mr. Rachal asked about the rating codes referenced in the report from Rahmberg. Cleveland White explained that when a position is re-evaluated, Mr. Rahmberg uses rating codes in the categories of employment to determine if the position should be rated a higher or lower grade. Mr. White further explained that on this particular employee/position, Mr. Rahmberg used four different options for determining if the position is paid correctly. Dr. Robinson added that in the scale a high school education gets a specific rating, an associate degree a specific rating, college graduate a different rating, etc., and Mr. Rachal asked if he could get a copy of the coding scale. Mr. Hooks asked that all Board members receive this information.

**2014 Group Insurance Renewals.** Ms. Priest, chair of the CPSB Insurance and Finance Committee, reported that this committee, comprised of Board members Riall, Bell, Trammel, and Green, held several meetings and expressed appreciation to Mr. Lee and Mr. Watson for their assistance in providing and presenting detailed information for the Committee to consider in looking at the group insurance renewals. She reported that the Committee also invited employee organizations, CPSB departments, retirees, principals, etc. to hear the presentation on the renewals and encouraged them to take it to their peers and get their input. She announced the information is on BoardDocs with the Committee’s recommendation, and Mr. Watson is present to answer any specific questions.

Mr. Rachal stated that he would like the public to know there will be an increase in the insurance cost; however, the increase is incredibly low when compared to increases in other parts of the country. He expressed his appreciation to the Committee and to Mr. Watson for his hard work in negotiating and keeping the increase at such a low rate.

**Approval of Resolutions, re Additional Funding for Public Education and Accountability Points for Non-Proficient Super Subgroups.** Ms. Priest reported that during the LSBA Trailblazer held in Northwest Louisiana, these resolutions were recommended for local school districts to support and she is presenting them for the Board’s consideration and support.

**Shreveport Job Corps Cooperative Agreement.** Mr. Hooks reported that he recently visited the Shreveport Job Corps and asked staff to look at the possibility of security cameras for this site. Mrs. Crawford asked if the District gives Job Corps funds as part of this agreement? Mrs. Flowers responded that the budget from Job Corps was presented in the regular budget process and it is the same amount as the previous year.

**Proposal for Lease/Purchase of School Buses.** Ms. Trammel, chair of the Transportation Committee, along with Committee members Green, Bell, Armstrong, and Riall, in wanting to make sure that we provide safe and durable transportation for Caddo’s students, reported that the last buses were purchased about four years ago; and the current fleet will begin to diminish in
2016. After meeting several times, the Transportation Committee is bringing a recommendation to the Board to consider bidding for a lease/purchase of buses to begin replacing the District’s fleet. Mr. Rachal stated he is totally in favor of this and expressed appreciation that we are not going out for bonds to do this, so we are incurring no debt and believes this is a very good budget-oriented proposal. Otis Jones, director of transportation, acknowledged Bruce Ross and Carl Corley from Alexandria who helped put the lease to own agreement together, as well as Karen May with the digital video recording systems for the buses.

**Digital Video Recording Systems for Buses.** Mr. Rachal asked if we received any RFPs or quotes on this item. Mr. Graham explained that we did not have to because last year the Board approved piggy-backing on Bossier Parish School Board’s bid.

**Distribution of Additional Revenue from State Supplement.** Ms. Priest reported that the Board previously approved that $800 would be given to classroom teachers in accordance with stipulations stated in HB 1 that one-half of the money Caddo receives ($4.4 million) must be distributed to classroom teachers. In addition to the $800 to classroom teachers, she reported that the Insurance and Finance Committee is recommending to the Board that approximately $1.7 million of the remaining approximately $2.3 million be used to give all other employees (hired prior to July 1, 2013) a $500 supplement. The Committee also recommends that this supplement, along with the employees’ Christmas supplement, be distributed to employees in November. Ms. Trammel stated the Committee worked hard to make sure every employee received a portion of the benefits; and while it may not seem like a lot, she believes it will help everyone. Mr. Rachal asked what kind of impact will there be on the various grants because employees paid from other funds will also receive this supplement from those funds. Mr. Hennigan stated that Child Nutrition and Title I will be impacted the most and those departments may need to clarify how it will impact them. Mr. Rachal asked that staff provide that information prior to the meeting on the 15th.

Mrs. Bell complimented Mr. Lee for working with the Committee and coming up with this possibility. Miss Green said she believes this is long overdue for Caddo’s employees and she is hopeful this will help them in some way.

**Teacher M and S.** Ms. Priest referenced previous discussion about utilizing CEEF funds for Teacher M and S; however, since the CEEF committee is in the process of formulating and a meeting has not been held, the Insurance and Finance Committee is recommending to the Board for consideration that from the approximate $700,000 remaining from the $4.4 million supplement from the State, that $300,000 be used to give teachers $100 each for the remainder of this school year.

President Ramsey announced Items 8.01-8.04, 8.07-8.08, 8.10-8.11 and 13.01 as the Consent Agenda. Ms. Priest stated in response to the request to leave Item 8.09 off Consent, she strongly feels this item should be on consent because Legislation appropriated these dollars, we have a ruling on how the funds can be expended; and the Insurance and Finance Committee, along with staff, has recommended the allocation in accordance with what the law dictates. Mr. Ramsey said the policy states any Board member has the privilege of asking that an item not be placed on Consent. Mr. Rachal assured everyone that he has asked this for information reasons only to understand the other budgets that might be affected; and once the information is received, he will be in agreement with placing it on Consent. Mr. Pierson moved, seconded by Mrs. Crawford, to approve the proposed agenda and consent agenda for the October 15, 2013 CPSB meeting as presented. Vote on the motion carried.

**POLL AUDIENCE**
Jackie Lansdale, president of Red River United, expressed appreciation to the Board for consideration of M&S monies for the teachers and she looks forward to attending a CEEF meeting and looking at a possible recommendation to the Board that CEEF funds be used in the future as the funding source for M&S for teachers. She also expressed appreciation for the Committee’s support and recommendation to the Board to provide a one-time supplement to all other employees, in addition to the $800 for classroom teachers. Mrs. Lansdale noted she would like to get clarification on the recommendation from Rahmberg.

Billy Wayne asked if the proposed plan for addressing Caddo’s AU Schools will be presented today or at the news conference on Wednesday? Mr. Ramsey announced a presentation only will be made at tonight’s meeting.

**Proposed Plan for Addressing Caddo’s AU Schools**, Interim Superintendent Robinson announced that the proposed plan being presented is a very fluid “Draft” document with the final document being the results of collaborations of many parties including the RSD. She shared that the initial proposal, *Caddo Believes*, states we believe (1) we can do as well or better than the RSD or its charter organizations in the education of our children and the data supports this, that (2) we have the leadership and the personnel in place to transform our schools, that (3) we know the community better than any outside person or agency, that (4) we have the trust of the community to accomplish the transformation in the best interest of the children, that (5) the LDOE is doing the right thing by ending the top-down prescriptive curricula and rules for teachers, and (6) the RSD and the LDOE should also do the right thing by ending the top-down prescriptive approach for RSD interventions in school districts and local schools. Caddo also believes that (7) the RSD and the LDOE should be assisting districts by providing additional funding for low-performing schools, funds for human capital, funds for professional development and especially for leader recruitment and training instead of school takeovers with little or no knowledge of the local dynamics or community needs, and because Caddo believes these things, Caddo has formulated a plan for addressing its 4+ AU schools Newton Smith, Midway, Fair Park, Atkins and Woodlawn. Proposed details of the “Draft” plan include closing the Newton Smith Sixth Grade Center and if the RSD returns Linear to Caddo, making Linear a preK-6 and renaming it the Martin Luther King Jr. Community School of Excellence and consolidating Newton Smith, Linear and Northside to attend the MLK Community School of Excellence. Since Linear has continued as a school under the RSD, it is underutilized and National research supports the preK-6 configuration. Since Northside is a higher performing school, the feeder pattern established for Green Oaks with the Performing Arts piece would mean closing two facilities which will help with the District’s budget situation. Dr. Robinson further reported on what one would see when entering the MLK Community School of Excellence classroom (the curriculum piece) to expand the RTI, performing arts, etc.; and relative to staffing, it would be closed and reconstituted from the principal to the last teacher. Also, the MLK neighborhood plan would make Pine Grove a preK-6 with parents given a choice to attend Pine Grove or MLK, with choice being a very important element of plans presented to BESE. Dr. Robinson explained Midway is currently a preK-5 configuration and the recommendation is a 4-6 configuration with the preK-3 students attending Mooretown. The rationale is National research supports primary learning centers with a narrow curriculum focus. Dr. Robinson reported that the LSUS partnership is already working in Midway and noted Dr. Williams spoke at the Huntington community meeting about their commitment to work with the Mooretown program.

Relative to Fair Park, a 9-12 configuration is proposed with a career-tech focus because real world learning is supported by research; and this research is available to us. The Career Academy combines a college-preparatory curriculum with a career-theme focus, meaning a student attending Fair Park can pursue one of four major academies, i.e. medical (which is in place), business, service industry and technical and the courses will be offered based on student demand and the job market. She added the colleges providing services include Southern
University, LTC and BPCC; and the 9th Grade Academy would be implemented. Fair Park would be closed and reconstituted with new faculty and staff.

Regarding the plan for Central neighborhood, Dr. Robinson reported that Lakeshore’s preK-8 would be turned into a grade 7-8 center with career and technology pre-AP course work, JS Clark a preK-6, Oak Park a preK-8 (with the 6-8 becoming an academic magnet component), and Queensborough and Werner Park a preK-6 with 6th graders being the 5th grade remaining on each of these campuses. Dr. Robinson also reported that staff is asking that Linwood be returned to the District, and that Linwood be consolidated into a k-8 extended year facility operated by Caddo under a new name. The Atkins-Linwood Consolidation (should that be allowed to happen) would include mentoring with social skills development by partnering with community organizations. She added that each of these reconstructions will be closed and reconstituted to ensure that the personnel in the buildings are committed to the new curriculum structure.

Staff is proposing a 9-12 configuration for Woodlawn with a career tech (very similar to Fair Park), but the major academies will be military, business, service industry, and technical. The 9th grade academy would be instituted, in addition to Jump Start, and a rigorous AP curriculum. The South Central Shreveport neighborhood plan would include changing Westwood to a preK-6, Sunset Acres a preK-6, Werner Park a preK-6, and Caddo Heights a preK-6. Options for the 7th and 8th graders will be extended year at Linwood (if Caddo is given the opportunity to reclaim it), 8th grade academic magnet component at Oak Park’s preK-8, and convert Caddo Middle Career and Technology Center to a 7-8 center with a TAP model, career magnet component and Caddo’s first E2020 virtual learning center. Dr. Robinson also noted the need to address over-age students and staff’s attempts to define an effective alternative program that includes E2020 and home study.

Relative to human capital, Caddo wants to certify more teachers in these schools and explained there is one course that can be paid for with Title II monies which staff believes to be feasible, and staff will look to identify funding for principals at those schools and give them autonomy and training on how to best use the monies given them in a way to best meet the needs of the students in these schools. She added that additional areas include expanding recruiting opportunities in area universities and looking at Troops for Teachers and Teach for America, aggressively recruiting teacher candidates from HBCUs (Historically Black Colleges and Universities), developing partnerships with employers to support our schools; instituting our administrative intern program; restructuring Central Office support by establishing achievement zones that include the five AU schools with support for building on readiness to learn, educators readiness to teach, and leaders readiness to act; realigning school and district resources, and creating a District Advisory Board to work in conjunction with the achievement zones in an attempt to put resources where the greatest needs are. The Advisory Board would be selected by the Board and would have seven members. She also noted some of the District non-negotiables established over the summer months with the Network team, the makeup of the principals’ timeline (how they are evaluated), a timeline for our schools suggested by the RSD representative, and announced that on Friday, December 6th, Caddo and the RSD will present a plan to BESE for consideration.

Ms. Priest stated that as a point of clarification, Mooretown is not one of the AU4+ schools.

Adjournment. Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:12 p.m.
The Caddo Parish School Board Transportation Committee met on Monday, October 7, 2013 at 10:30 a.m. in the Room 1 of the CPSB campus, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Mary Trammel, Steve Riall, and Dottie Bell; ex-officio members Larry Ramsey and Carl Pierson. Staff members present were James Woolfolk, Otis Jones, and Dr. Shelia Lockett. Guests present were bus drivers Marilyn Metz, Danny Thompson, Sherry Sanders, Laurie Fox and Shanika Burns; and Latasha Washington from Red River United.

Chair Mary Trammel called the meeting to order and Steve Riall led in prayer.

**Review of Start of School.** Otis Jones shared with the committee a review on the start of the 2013-14 school year for the Transportation Department as follows:

- Field Trip Clusters – Drivers are placed in the zone (field trip cluster) that is closest to their parking location or their first school and drivers are rotated within their zone for trips.
- Bus On-Time Delivery – All buses were on time 4 days out of 34 days (7 weeks); the average on-time delivery for start of school is 98% and Mr. Jones shared a spreadsheet of detailed information in this regard.
- Substitute Bus Drivers on Hand – There are 38 substitute drivers on hand, 13 substitute drivers available for unexpected AM and PM absences and currently 25 substitute drivers on routes.
- Number of Accidents – It was reported that last year there were 23 accidents and this year there are 9 accidents, a decrease of 61% from last year.
- Transportation Telephone Call Summary – Mr. Jones noted there were 999 calls to the Transportation on the opening day (August 12) of the 2013-14 school year, and that extra people were brought in to assist in handling the volume of calls at the opening of school. He also explained the new telephone system installed in Transportation that allows the staff to not receive an email of the voicemail; and an additional person is assigned to respond to these calls. Mr. Jones reported that a training session is held prior to school opening and a “cheat sheet” prepared of frequently asked questions is provided to assist in answering callers’ questions.
- Parking Locations for Route Buses – Mr. Jones reported there are 106 route buses in the rural areas; 54 route buses park at the Central lot and he shared a breakdown of buses that park at other locations throughout the parish. Mr. Jones also addressed committee member questions regarding the complaints about problems at bus exchanges when children are changing buses. Ms. Trammel announced that she will place security at bus exchanges on the next meeting’s agenda.

**Policy on Sick Leave.** Proposed revisions to the policy on sick leave were discussed and it was noted that these changes would be proposed not just for bus drivers, but for the universal policy for the District. Mr. Jones reported that the bus driver Committee was in agreement with each recommended change with the exception of #1, and they believed the number of days should be five rather than three. Bus drivers in attendance shared their thoughts on the proposed changes and their agreement that there should be no change in Number 1 and that there should be consequences for the misuse of Fridays off.

Mr. Jones also reported that Transportation has looked at using the Aesop Program (similar to teacher subs), but at this time there are approximately 2,600 teachers in Caddo Parish and there are currently over 2,200 subs in the Aesop System. Transportation only has 35 sub drivers and a portion of that number is already assigned on routes.
Mr. Woolfolk added that there has been a lot of input from the Transportation Committee as well as the Red River United group and the overwhelming response from both is we need to do something to address those who are abusing the system and not those that are good, reliable drivers who do not abuse the system.

Next Meeting. Ms. Trammel announced that the next meeting will be held on November 12, 2013 at 2:00 p.m. and items for the agenda will include:

   (1) Field Trip Software
   (2) Bus exchange security
   (3) Sub recruiting
   (4) Policy Revisions (shared with Attorney Abrams)

Adjournment. There being no additional business, the meeting adjourned at approximately 11:40 a.m.
October 8, 2013

The Caddo Parish School Board Insurance and Finance Committee met on Tuesday, October 8, 2013, at 1:30 p.m. in the Superintendent’s Conference Room, 1961 Midway, Shreveport, Louisiana. Those present included Lillian Priest, Dottie Bell, Jasmine Green, and ex-officio members Larry Ramsey and Carl Pierson. Others in attendance were Jim Lee, Randy Watson, Dr. David Carmouche, James Bustillo, and Mike Miers.

The purpose of the meeting was for Dr. David Carmouche to share with Board members information on a long-term care initiative proposal for Caddo employees, a copy of which is attached to the Committee’s file.

There being no additional business, the meeting adjourned at approximately 2:45 p.m.
The Caddo Parish School Board (CPSB) met in regular session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:30 p.m. on Tuesday, October 15, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Interim Superintendent Mary Nash Robinson, Legal Counsel Reginald Abrams, staff and visitors. Mr. Riall led the prayer and Pledge of Allegiance.

CONSIDERATION OF MINUTES OF THE SEPTEMBER 17, 2013, SEPTEMBER 25, 2013 AND OCTOBER 1, 2013 CPSB MEETINGS

Mrs. Bell moved, seconded by Mr. Rachal, to approve the minutes of the September 17, 2013, September 25, 2013 and October 1, 2013 CPSB meetings as submitted in the mailout. Vote on the motion carried unanimously.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Ramsey and Interim Superintendent Robinson presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

Walnut Hill Elementary Student Selected to Attend People to People Leadership Forum in Washington, D.C. Talya McBride, 5th grade student at Walnut Hill Elementary, was recognized for her recent trip to Washington, D.C. to participate in a People to People World Leadership Forum. The purpose of this forum was to provide students an understanding of the U.S. government and its branches by exploring the U. S. Capitol, Supreme Court and Library of Congress.

Caddo Magnet High Student Bronze Winner in National Karatedo. Junine Asuncion was recognized as a bronze winner in National Karatedo Federation’s Individual and Team Trials Competition. She also was recognized for winning the Silver and Bronze in the Regional Competition in Houston.

KTBS $1000 One Class at a Time Winners. Cynthia Bickham, teacher at Blanchard Elementary, was recognized for recently being named a KTBS $1000 One Class at a Time Winner. Ms. Bickham will use the grant money to buy bean bag chairs and books for her students to create a quiet and comfortable place in her classroom where students can take time and enjoy literature.

Julie Davis, English teacher at Broadmoor Middle Lab, was also recognized for being a KTBS $1000 One Class at a Time winner. Ms. Davis will use the grant money to buy new novels that her students will read together as a class, experience it, comprehend it, find relatable areas to it, and ultimately each student will create individual sequels.

Caddo Middle Magnet Music Teacher Nominated for the First-Ever Music Educator Award. Krista Fanning, music teacher at Caddo Middle Magnet, was recognized for being chosen as a semifinalist, among 30,000 nominations from all 50 states, for the first-ever Music Educator Award presented by The Recording Academy and The Grammy Foundation. This award was established to recognize current educators who have made a significant and lasting contribution to the field of music education.
October 22, 2013

The Caddo Parish School Board (CPSB) met in executive session at approximately 4:00 p.m. on Tuesday, October 22, 2013, in the boardroom located at 1961 Midway, Shreveport, Louisiana. Those in attendance included President Larry Ramsey, presiding, Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. President Ramsey announced that Mary Trammel is absent due to illness, but will be listening in on the interview via conference call. Legal Counsel Reginald Abrams and Candidate Dr. Theodis L. Goree were also in attendance. Mr. Riall led in the prayer and Pledge of Allegiance.

EXECUTIVE SESSION

Mr. Pierson moved, seconded by Mrs. Crawford, to go into Executive Session for the purpose of interviewing superintendent candidates. Vote on the motion carried unanimously and the Board went into Executive Session at approximately 4:07 p.m.

The Board recessed at approximately 6:10 p.m. until 4:00 p.m. on Wednesday, October 23, 2013, at which time interviews for superintendent of Caddo Parish Public Schools will continue.

October 23, 2013

The CPSB reconvened in executive session at approximately 4:10 p.m. on Wednesday, October 23, 2013 for the purpose of continuing interviews of candidates for superintendent of Caddo Parish Public Schools. Those in attendance were President Larry Ramsey, presiding, Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong, Dottie Bell, Legal Counsel Reginald Abrams and Candidate Terrence Brown. President Ramsey announced that Mary Trammel and Curtis Hooks are absent; however Ms. Trammel did listen to the interview via conference call.

The Board recessed at approximately 6:00 p.m. until 4:00 p.m. on Thursday, October 24, 2013, at which time interviews for superintendent of Caddo Parish Public Schools will continue.

October 24, 2013

The CPSB reconvened in executive session at approximately 4:05 p.m. on Thursday, October 24, 2013 for the purpose of continuing interviews of candidates for superintendent of Caddo Parish Public Schools. Those in attendance were President Larry Ramsey, presiding, Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong, Dottie Bell, Legal Counsel Reginald Abrams and Candidate Timothy Magner. President Ramsey announced that Mary Trammel and Curtis Hooks are absent; however Ms. Trammel did listen to the interview via conference call.

The Board reconvened in open session at approximately 5:55 p.m., and Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 5:56 p.m.

Mary Nash Robinson, PhD, Interim Superintendent          Larry E. Ramsey, President
October 22, 2013

The Executive Committee of the Caddo Parish School Board (CPSB) met in special session in the Superintendent’s Conference Room at 1961 Midway Street, Shreveport, Louisiana, at 11:30 a.m. on Tuesday, October 22, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Legal Counsel Reginald Abrams was also present.

Mr. Pierson moved, seconded by Mrs. Crawford, to go into executive session for the purpose of negotiations with candidate Dr. Theodis Goree for the position of Superintendent of Caddo Parish Public Schools. Vote on the motion carried and the executive committee went into executive session at approximately 12 noon.

The Executive Committee reconvened in open session at approximately 1:00 p.m. and recessed until 11:30 a.m. Wednesday, October 23, 2013.

October 23, 2013

The Executive Committee reconvened in executive session at approximately 11:45 a.m. on Wednesday, October 23, 2013 in the Superintendent’s Conference Room for the purpose of negotiations with candidate Dr. Terrence Brown for the position of Superintendent of Caddo Parish Public Schools. Those present were Larry Ramsey, Carl Pierson, Bonita Crawford and Legal Counsel Reginald Abrams.

The Executive Committee recessed at approximately 1:05 p.m. until 11:30 a.m. on Thursday, October 24, 2013.

October 24, 2013

The Executive Committee reconvened in executive session at approximately 11:50 a.m. on Thursday, October 24, 2013 in the Superintendent’s Conference Room for the purpose of negotiations with candidate Timothy Magner for the position of Superintendent of Caddo Parish Public Schools. Those present were Larry Ramsey, Carl Pierson, Bonita Crawford and Legal Counsel Reginald Abrams.

The Executive Committee reconvened in open session at approximately 12:50 p.m. and having concluded contract negotiations with all three candidates for superintendent of Caddo Parish Public Schools, Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 12:51 p.m.
The Caddo Parish School Board (CPSB) met in special session in its office at 1961 Midway, Shreveport, Louisiana at approximately 4:00 p.m. on Friday, October 25, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl A. Pierson, Sr., Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Legal Counsel Reginald Abrams, staff and visitors. Mr. Riall led the prayer and Pledge of Allegiance.

VISITORS

Robert Rhodes addressed the Board in support of Dr. Goree as the next superintendent of Caddo Public Schools. He shared with everyone that it is his honor to talk on Dr. Goree’s behalf; and recognizing the importance of academics and athletics, he stated that he had had ample experience in this combination of programs to be successful, and he encouraged the Board to make the right decision relative to what is best for Caddo’s Boys and Girls.

Jackie Lansdale, president of Red River United, shared with the Board a story sent to Board members, re: picture of the River Jordan and how the church was divided over what was to be done with the picture. She added that she sees a similar story with the divisiveness among the Caddo Parish School Board and asked the Board to look at those things that are not contentious among Board members, and take advantage of the opportunity to move the District forward.

Jon Glover, employee, stated that traditional or non-traditional were qualifications set forth for the candidates who applied for the Position of Superintendent. She also reported that these are the applications set forth for the candidates that applied for the position of Superintendent of Caddo Parish Public Schools. She noted that everyone is looking to the Board to make a good, sound decision and bring forth the best candidate to spearhead the School System. She encouraged all to put aside politics and keep the focus.

Litigation Update – Gertie Collins v. Caddo Parish School Board, Office of Workers Compensation, State of Louisiana, Case 12-07720. Mr. Pierson moved, seconded by Mrs. Bell, to approve authority as recommended by staff. Vote on the motion carried unanimously.

UPDATE ON NEGOTIATIONS

Mr. Abrams reported that he emailed Board members a copy of the proposed contract for each candidate. He explained that the contract for each one, with the exception of Mr. Magner, includes moving expenses, and each candidate requested a three-year contract, and each is available to start December 1, 2013 or January 1, 2014. The salary for each is Goree-$200,000; Brown-$195,000; and Magner-$225,000. Mr. Abrams explained that Mr. Magner does not have superintendent certification in the State of Louisiana; however, the Board can support him as the Superintendent as long as his appointment to Chief Academic Officer has Superintendent certification and is made within 120 days.

SELECTION AND ANNOUNCEMENT OF SUPERINTENDENT OF CADDO PARISH PUBLIC SCHOOLS

President Ramsey announced that each candidate’s name will be called (in alphabetical order) and each Board member will cast one vote.
The following is the result of the first vote: Terrence Brown – 1 vote (Green); Theodis Goree – 5 votes (Pierson, Hooks, Trammel, Priest, Bell); and Timothy Magner (Riall, Crawley, Crawford, Ramsey, Rachal, Armstrong).

President Ramsey announced that the process will continue and each Board member will now cast one vote for one of the two candidates that received the highest number of votes; and the following is the result of the second vote: Theodis Goree – (Green, Pierson, Hooks, Trammel, Priest, Bell); and Timothy Magner (Riall, Crawley, Crawford, Rachal, Ramsey, Armstrong).

EXECUTIVE SESSION

Mr. Pierson moved, seconded by Mrs. Bell, to go into executive session, and the vote on the motion carried with Board members Green, Crawley, Rachal and Armstrong opposed. The Board went into executive session at approximately 4:22 p.m. and reconvened in open session at approximately 4:50 p.m.

Mr. Pierson moved, seconded by Mr. Hooks, that Dr. Theodis L. Goree be appointed and employed as Caddo Parish’s Superintendent of Schools on the terms and conditions provided in the contract negotiated by the board’s negotiating committee; and, further that the Caddo Parish School Board authorize, empower and direct the president of the CPSB to execute the contract. President Ramsey announced that as the Board was going into Executive Session, he received a phone call from one of the candidates with the suggestion that the Board move forward, which is what the motion on the floor is doing. Vote on the motion carried with Board members Riall, Crawley and Armstrong opposed. Below is a copy of the unexecuted contract:

SUPERINTENDENT EMPLOYMENT CONTRACT
(WITH MOVING AND TEMPORARY HOUSING)

This agreement has been made and entered into on this _30th_ day of _October___, 2013
by and between:

CADDO PARISH SCHOOL BOARD, a political subdivision of the State of Louisiana, domiciled in Shreveport, Caddo Parish, appearing herein through its President, Larry Ramsey, duly authorized to act herein by the action of the Caddo Parish School Board (“Board”), on the 25th day of October, 2013, and, Dr. Theodis Lamar Goree, a person of the full age of majority, being a resident of Grand Prairie, Texas, hereinafter referred to as “Superintendent”, both of whom did declare and agree as follows:

WITNESSETH

In consideration of the mutual covenants and benefits herein contained, and on the terms and conditions herein set forth:

1. APPOINTMENT; ACCEPTANCE; TERM

The Board does hereby appoint and employ Dr. Theodis Lamar Goree who hereby accepts such appointment and employment as Superintendent of Schools for Caddo Parish, Louisiana for a term of Three (3) years, commencing December 1, 2013 and ending at midnight on November 30, 2016.

2. CERTIFICATION

The Superintendent shall hold and maintain throughout the life of this contract, and any renewal thereof, a valid certificate issued by the Louisiana Department of Education certifying that he is qualified to act as parish school superintendent in the State of Louisiana.

3. GENERAL DUTIES OF SUPERINTENDENT

The Superintendent shall devote his entire time, attention and energy to the business of the school system and faithfully perform all the duties and responsibilities of his office as
Superintendent, Chief Executive Officer and ExOfficio Secretary and Treasurer of the Board in accordance with the laws of the State of Louisiana and the lawful policies and directives of the Board.

The Superintendent shall have charge of the administration of the schools under the direction of the Board. He shall direct and assign teachers and other employees of the schools under his supervision and shall organize, reorganize and arrange the administrative and supervisory staff, including instruction and business affairs, as best serve the school system subject to the approval of the Board except as limited by law. He shall from time to time suggest regulations, rules and procedures deemed necessary and appropriate for the efficient operation of the school system and in general perform all other duties as may be prescribed from time to time by the Board. The Superintendent shall attend all board meetings and provide administrative recommendations on each item of business considered by the Board.

The Board, individually and collectively, shall promptly refer to the Superintendent for study, action and/or recommendation, all criticisms, complaints and suggestions called to its attention.

4. SALARY

The Board shall pay to the Superintendent for the first year of this contract an annual minimum base salary of Two Hundred Thousand and 00/100 ($200,000.00) Dollars. Such annual salary shall be payable monthly at the rate of 1/12th thereof in accordance with the Board's procedure governing payment of salary to other professional staff members in the school system.

5. SALARY ADJUSTMENTS

The Board may increase the annual salary of the Superintendent during the term of this contract but may not reduce same unless such reduction is part of a uniform plan affecting salaries of all employees of the Board. Except as otherwise provided in this contract, any action by the Board adjusting the Superintendent's salary during the term of this contract, or any renewal thereof, shall be considered as an amendment to, and becomes a part of this contract, and shall also increase the minimum base salary for each subsequent year by the same amount. Such action shall not, however, be considered as an extension of term, nor a renewal of this contract.

6. PERFORMANCE INCENTIVES

At the end of the 2014-2015 school year and at the end of each school year thereafter, the Superintendent shall be eligible for performance incentive pay of up to Ten Thousand Dollars as determined by the Board in its next annual evaluation of him. The Board's determination shall be based upon its evaluation of the Superintendent's performance and the achievement of specific performance targets at the school and district level as follows: (1) student achievement; (2) student achievement for schools that have received any variation of a school performance letter grade designation of “C”, “D”, or “F”; (3) graduation rates; (4) graduation rates for schools that have received any variation of a school performance letter grade designation of “C”, “D”, or “F”; (5) the percentage of teachers with an “effective” or “highly effective” performance rating. Said performance targets are attached to this agreement as Exhibit “A” which includes the basis by which the Superintendent may be awarded the performance incentive for the year in question. The performance targets are to be set jointly by the superintendent and board before the end of the spring semester of 2014 and before the beginning of school each year thereafter. The percentages described in Exhibit A controls the method of how the performance incentives are to be paid. The amount awarded to the Superintendent as performance incentive pay shall not be a permanent adjustment to his base salary.

No performance incentive pay is due the superintendent or his estate if prior to evaluation of the Superintendent’s performance (1) the Superintendent voluntarily leaves or gives notice of his intent to leave his employment as Superintendent of Caddo Parish Schools, (2) the Superintendent is removed for cause pursuant to Paragraph 11 of this contract, or (3) the Superintendent’s contract is terminated due to death, retirement or disability pursuant to Paragraph 18 of this contract.

7. VACATION AND OTHER FRINGE BENEFITS

The Superintendent shall receive twenty (20) vacation days annually (earned monthly), exclusive of legal holidays. He shall be allowed to carry over no more than ten (10) unused
vacation days per year but may take no more than thirty (30) vacation days in any one year. Prior to his leaving on vacation, the Superintendent shall notify the President of the Board of his absence and designate a person who shall serve as Acting Superintendent during such period.

The Superintendent shall be entitled to all benefits of the sick leave policy of the Caddo Parish School Board in effect at the time for twelve month administrative personnel and shall be entitled to accumulate earned sick leave in the same manner as is provided for such employees by the laws of the State of Louisiana and the appropriate policies of the Caddo Parish School Board. Such accumulated sick leave may be used for personal illness and in accordance with the Family and Medical Leave Act (FMLA). In the event that the Superintendent should leave office by reason of death or retirement, then he or his estate will be paid for accumulated sick leave not to exceed twenty-five (25) days.

In the event that the Superintendent should voluntarily leave his position as Superintendent of Schools for Caddo Parish, other than by retirement, before the expiration of the term of this contract or any amendments extending the term of said contract, the Superintendent will forfeit any earned vacation or sick leave.

The Superintendent shall also be allowed to participate in the Board's Group Medical and Life Insurance program available to other administrative personnel and the Board shall pay the same percentage of premiums as it pays for other such employees of the Board.

The Board, in addition to the foregoing payments, shall monthly make all employer payments to the Teachers' Retirement System of Louisiana on behalf of the Superintendent in the same manner as is provided for other administrative personnel under the appropriate policies and procedures of the Board.

8. MOVING AND TEMPORARY HOUSING EXPENSE

The Board shall reimburse the Superintendent for customary and reasonable expenses incurred in moving his family, furniture, household goods, and related personal belongings from Grand Prairie, Texas, said reimbursement not to exceed the actual expenses incurred by the Superintendent, as evidenced by appropriate expense vouchers.

The Board shall also reimburse the Superintendent for the reasonable costs of appropriate temporary housing for the Superintendent and his immediate family for up to three months from the commencement of this contract or until the Superintendent has moved into permanent housing, whichever occurs first. Should the temporary housing consist of hotel or other accommodations without usual kitchen facilities for all or part of such period, the costs eligible for reimbursement shall include reasonable costs of meals. The Superintendent must reside within Caddo Parish during such time.

9. AUTOMOBILE EXPENSE

During the term of this agreement, the Superintendent shall also be provided the use of an automobile, leased or purchased, insured, and maintained by the Board, and he shall be reimbursed for all actual expenses incurred in the performance of his duties, including gasoline and other automobile expenses, as evidenced by appropriate expense vouchers. All out-of-parish and out-of-state travel shall be subject and paid pursuant to the appropriate administrative policy governing such items. The Board shall also permit the Superintendent to use a car telephone or cellular telephone on a maintenance-free basis. The Board shall pay the monthly cost associated with all business use of such telephone provided such cost shall be documented and provided further that the Superintendent shall be responsible and reimburse the school system for all non-business related calls.

10. PROFESSIONAL DUES

The Superintendent shall attend appropriate professional meetings at the local, state and national level, the expenses of said attendance, as evidenced by expense vouchers, to be paid by the Board. The Board expects the Superintendent to continue his professional development and expects him to participate in relevant learning experiences. In that regard, the Board agrees to pay all professional association dues incurred by the Superintendent (such as for the American Association of School Administrators) and agrees to pay such other membership dues as the Board and the Superintendent may agree upon.
The Board also feels that it is in the best interest of the school system for the Superintendent to be an active member in local civic and community organizations. The Board expects the Superintendent to join such organizations, and to actively participate therein. The Board will pay the customary expenses related to joining and participating in said organizations.

11. DISCHARGE FOR CAUSE

Throughout the term of this contract, the Superintendent shall be subject to discharge for good and just cause in accordance with the laws of the State of Louisiana, including LSA-R.S. 17:54, which cause shall include but not be limited to, incompetence, unworthiness, inefficiency, failure to fulfill the terms and performance objectives as agreed upon under this contract, failure to comply with school board policy, or any other conduct which is seriously prejudicial to the school system. The Board shall not arbitrarily and capriciously dismiss the Superintendent. No discharge shall be effective until written charges have been served upon the Superintendent and he has an opportunity for a fair hearing before the Board after ten (10) days’ notice in writing. Said hearing shall be public or private at the option of the Superintendent. At such hearing, the Superintendent may have legal counsel at his own expense. 2/3 vote of the entire Board is necessary to terminate Superintendent under this provision in accordance with state law.

12. DISABILITY

Should the Superintendent be unable to perform any or all of his duties by reason of illness, accident, or other causes beyond his control, and said disability exists for a period longer then ninety (90) consecutive calendar days following the exhaustion of any current and accumulated sick leave the Superintendent may have earned and accumulated during the term of this contract, the Board may in its discretion, at any time after such period of disability, determine that the disability is permanent, irreparable, or of such serious nature that it is impossible for the Superintendent to perform his duties, and may by written notice to the Superintendent terminate this contract, whereupon the respective duties, rights and obligations hereunder shall terminate.

13. HOLD HARMLESS

The Board shall as part of the consideration of this contract, defend, hold harmless and indemnify the Superintendent from any and all demands, claims, suits, actions, judgments and legal proceedings brought against the Superintendent in his individual capacity or in his official capacity, provided that in the incident giving rise thereto the Superintendent was acting within the scope and course of his employment with the Board. This indemnification shall not include criminal proceedings.

14. MEDICAL EXAMINATION

The Superintendent does hereby agree to have a comprehensive medical examination once each year, cost of said medical examination to be borne by the Board. The Superintendent must file with the President of the Board a yearly statement from a qualified physician certifying to the Superintendent's physical competency. To the extent allowed by law, this statement or medical report shall be treated as confidential information by the Board.

15. GOALS AND OBJECTIVES

On or before the end of the spring semester of the 2014 school year, the Superintendent will develop, in cooperation with the Board and the staff of the Board, school system goals and objectives for the 2014-2015 school year including the means of measuring such accomplishments. The goals and objectives shall be reduced to writing and be among the criteria by which the Superintendent is evaluated. On or prior to the beginning of each succeeding year, goals and objectives for the next succeeding school year will be established in the same manner and with the same effect as described herein. If the goals and objectives need to be modified during the school year after the school system receives its official state performance report, the superintendent will make the changes and submit them to the Board for approval.

16. ANNUAL EVALUATION OF SUPERINTENDENT

The Board shall initially evaluate the Superintendent's performance in writing no later than thirty (30) days after the Board receives the 2014-2015 Louisiana State School Accountability Report. All subsequent evaluations shall occur annually thereafter, no later than
thirty (30) days after the Board receives the previous year’s Louisiana State School Accountability Report. The evaluation shall be reasonably related to the job description of the Superintendent and shall be in part based upon the goals and objectives of the school system for the year in question. The Board's evaluation and incentive pay shall also be based on the Superintendent’s achievement of specific performance targets required by state law that includes the following: (1) student achievement; (2) student achievement for schools that have received any variation of a school performance letter grade designation of “C”, “D”, or “F”; (3) graduation rates; (4) graduation rates for schools that have received any variation of a school performance letter grade designation of “C”, “D”, or “F”; (5) the percentage of teachers with an “effective” or “highly effective” performance rating. Said performance targets are attached to this agreement as Exhibit “A”. Should the Board determine the performance of the Superintendent to be unsatisfactory in any respect, the Board shall describe, in reasonable detail, specific instances of such unsatisfactory performance. The evaluation shall include recommendations as to areas of improvement in all instances where the Board deems performance to be unsatisfactory and in any other areas the Board believes improvement is necessary or desirable.

The Superintendent shall receive from the Board written notice of his annual evaluation and shall have the right to make a written response thereto, which response shall become a permanent attachment to the Superintendent's personnel file. The Board shall meet with the Superintendent in executive session to discuss the evaluation no earlier than seven (7) days and no later than the next regularly scheduled Board meeting after the Superintendent has received a copy of said evaluation.

17. RENEWAL NOTICE

The Board agrees to notify the Superintendent in writing, on or before September 30, 2016, whether or not it intends to renew his contract for an additional term commencing December 1, 2016, and the terms and conditions upon which it proposes such renewal. If the Board timely notifies the Superintendent that it intends to renew his contract, the Superintendent shall advise the Board in writing, within thirty (30) days of his receipt of said notice, whether or not the terms and conditions are acceptable. When the parties hereto agree upon the terms and conditions, a new written contract, or an extension of this contract, shall be executed as soon as possible thereafter. If the Board timely notifies the Superintendent in writing that it does not intend to renew his contract, then this contract shall terminate at 12:00 midnight on November 30, 2016.

If the Board fails to notify the Superintendent of its intention to renew his contract or not to renew the contract, such failure of the Board shall automatically result in an extension of this contract for one year beyond the date of termination, at which time this contract shall terminate.

The Superintendent shall, by certified mail to each Board member during the month of January of the year in which this contract expires, remind the Board of the existence of this automatic renewal clause.

18. TERMINATION OF EMPLOYMENT CONTRACT

This employment contract shall be terminated upon the death or retirement of the Superintendent or upon his discharge for cause. It may be terminated due to the disability of the Superintendent as is hereinabove provided, or by the mutual agreement of the parties hereto.

19. APPLICABILITY OF BOARD POLICIES CONCERNING SUPERINTENDENT

All policies and regulations concerning the Superintendent now found in the policy handbook of the Caddo Parish School Board are incorporated in this contract as if copied herein in full, and the Superintendent agrees to accept and follow those policies and regulations. In the event that specific conflicts now or hereafter exist between this contract and the policies of the Board, the provisions of this contract shall prevail.

20. SEVERABILITY CLAUSE

If any provision or item of this contract or the application thereof is held invalid or found to be in violation of state and/or federal constitutional or statutory law, such invalidity shall not affect other provisions, items or applications of this contract which can be given effect without
the invalid provisions, items or applications, and to this end the provisions of this contract are hereby declared severable.

21. CONTROLLING LAW AND FORUM

The obligations herein assumed by the Superintendent and the Board shall be governed by the laws of the State of Louisiana and the parties hereto agree that jurisdiction and venue for any claim arising under this contract or arising from or related to any act or omission of the Superintendent in the performance of his duties shall be exclusively in Caddo Parish, Louisiana.

22. CHANGES TO CONTRACT

In addition of the aforementioned provisions, it is mutually agreed by the parties to this contract that the Board and the Superintendent may at any time modify, amend or terminate this contract by mutual consent. Any such modifications or amendments shall be in writing.

THUS DONE AND SIGNED by the parties in duplicate originals on the dates hereinafter indicated in the presence of the undersigned competent witnesses and notaries public.

Exhibit A

Performance Objectives:

1) Overall district student achievement (Goal to be mutually agreed upon)–(15%);
2) Student Achievement for schools that have received any variation of the school performance letter grade designation of “C”, “D”, or “F” (Goal to be mutually agreed upon)–(15%);
3) Student graduation rates (Goal to be mutually agreed upon)–(15%);
4) Student graduation rates for schools that have received any variation of the school performance letter grade designation of “C”, “D”, or “F” (Goal to be mutually agreed upon)–(15%);
5) The percentage of teachers with an “effective” or “highly effective” performance (Goal to be mutually agreed upon)–(15%); and
6) Achieving a balanced budget for the upcoming fiscal year–(25%)
Formula For Payment Of Incentive

In order to receive any incentive pay the superintendent must reach or exceed the performance goals of three out of the first five performance objectives listed above. The superintendent will be entitled to receive the cumulative percentages listed adjacent to each objective up to the maximum incentive pay described in the contract if the superintendent reaches or exceeds the goals of at least three out of the first five performance objectives; if the superintendent reaches the minimum goal and prepares a balanced budget (objective 6), the superintendent will earn 100% of the incentive pay described in paragraph 6 of this agreement.

Adjournment. There being no additional business, Ms. Priest moved, seconded by Miss Green, to adjourn. Vote on the motion carried and the meeting adjourned at approximately 4:53 p.m.
North Caddo Magnet High School One of 63 High-Achieving Louisiana Schools to have the Highest Bar for Classroom Teaching Excellence in using the Compass Tool. North Caddo Magnet High School was recognized as one of 63 high-achieving Louisiana schools to have the highest bar for classroom teaching excellence in using the Compass tool. Mr. Mainiero explained that the Louisiana Department of Education released a list of schools across the state that had a high rate of success with students but also a very high bar for excellence in classroom observations. He stated that each of the schools on the list was in the state’s top 10 percent in student improvement or overall achievement, and at the same time had 10 percent or fewer of its teachers scoring “highly effective” on classroom observations.

Newly Appointed Administrators. The following newly appointed instructional coordinators were introduced by Director Charles Lowder: Michele Burgess, Blanchard; Kylie Cotton, A.C. Steere; Christina Crutchfield, E.B. Williams Stoner Hill; Kristin Davis, Shreve Island; Meshel Frasier, Fairfield; Felicia Gipson, Eden Gardens; LaKeisha Goree, Turner; Estelle Green, Oak Park; Amanda Holland, University; Renata Mahoney, Creswell; and Kimberly Olds, University.

Board member Trammel left the meeting at approximately 4:50 p.m.

VISITORS

Jackie Lansdale, president of Red River United, asked the Board if it believes in the promise of public education, if it believes in a high quality public education for all children, if it believes that it is an economic necessity, if it believes it anchors democracy, it is imperative, that it is a fundamental civil right, and without it none of the other rights can be realized? If so, she asked the Board to join her in reclaiming public education as the Board can so imagine it now and in the future. Referencing Massachusetts as the number one state in the Union for public education, Mrs. Lansdale stated that it was in 1993, they decided to ask for more and expect more; however, they did not do vouchers, they did not take tenure, reduce merit pay, and the charters they have implemented are very small and selective. She said she brings this to the Board’s attention to say it is not necessary for the District to travel down this road. She said she reclaims the promise to fight for neighborhood public schools that are safe for teaching and learning, that have discipline in our schools, nor any type criminal behavior. She asked that the Board look at the departments that are allowing this to happen and put a stop it. Mrs. Lansdale stated she also plans to reclaim the promise that teachers and school staffs are well prepared, have small classes, are supported and have time to collaborate. She shared her enthusiasm for moving forward with the supply money, that all employees, in addition to all classroom teachers, will receive a supplement from the funds from the State; and noted the need for planning time to be placed back in the schedules, to work on getting bad managers out of the schools, and reclaim the promise that students’ curriculum includes art, music and physical education as well as access to wrap around services to meet their emotion, social, and health needs. Lastly, Mrs. Lansdale stated she will reclaim public education for all children because it is time to ask the Office of Civil Rights to investigate how we are going to allow our children to be turned over to the RSD in schools that everyone knows are failing; and if the Board believes in public education, it will stand up and say this is wrong.

Billy Wayne, executive director of the Urban Support Agency, addressed the Board with a proposal relative to assisting the District to maintain the education it has maintained over the years. He said he does so because there is a need to increase student achievement and eliminate academically unacceptable schools in Caddo Parish by using expanded learning service providers. He highlighted the four components of the proposal which will implement practices that are researched based and are proven to be successful in turning around Caddo Parish’s low-performing schools. He noted that the flexibility given to the Caddo Parish School Board by Federal legislation allows the district more autonomy to make decisions about failing schools. Also under the plan is the need to restructure all Title One funding for the effected schools from
the District level; and he noted his proposal for the reconfiguration of the schools that are threatened to be taken over by the State. He also suggested that in implementing the proposed reconfigurations, that the Teacher Advancement Program should also be implemented in all low-performing schools because it has been proven to work. He also recommended the implementation of an extended-year program at all middle and high schools under the waiver provided; provide additional career component for grades 6-8, provide additional music, recreational and art components at all grades K-5. He closed by saying the Board is authorized to move forward with making these type changes by outsourcing after school programs, Saturday and extended day programs, which will relieve the District of additional stresses.

Glenn Davenport, employee in the Maintenance Department, asked if any Board member has felt the dramatic pain he has endured because he asked the Board to investigate the allegations against him. He said he was conveniently removed from his profession as a carpenter’s helper, all because someone manipulated and manifested information that referred to him as a safety risk. He worked hard to be deemed a carpenter only to allow this to blow up in his face because there were those who did not want him to have a voice. He doesn’t understand why the Board allowed this to happen to him and he now questions who he should turn to and asked the Board to reconsider the placement forced upon him because he is no more a safety risk than any one of the Board members and only asks that the Board treat him as they wish to be treated and asked that he be reinstated as a carpenter’s helper in the Maintenance Department and assure him that he will be treated fairly and equally as any other employee.

Patricia Pouncy, cafeteria monitor addressed the Board on the proposed supplemental $500 for all employees. She shared her responsibilities and duties as a cafeteria monitor and encouraged the Board to support this for the employees.

Jon Glover, employee, addressed the Board on the collective “We the People” that can address the perils of the school system. Understanding that the Board members are the stewards entrusted to oversee the school system, she noted that it was never the intent for the Board members alone to spearhead educating every child in Caddo Parish. She encouraged the Board to take the leadership role and exercise practices that will begin the District on a course that will ensure success in educating every child in Caddo Parish. She encouraged the Board to note that all should be held accountable for our unwillingness to forge ahead in an effort to address the ills that continue to plague the Caddo School System, Ms. Glover stated the importance of change in order for all Caddo students to be successful collectively. Care, concern and compassion for children are all needed or the failure pattern will continue.

Katie Loomis, librarian, thanked the Board for remembering librarians in the supplement and stated that before librarians became librarians, they were first teachers who received certification to become librarians. She stated that librarians are also evaluated by the Compass evaluation plan the same as regular classroom teachers also do work above and beyond their job descriptions, just as teachers do.

Pam Peters, employee, encouraged the Board to support the supplement for all teachers and support personnel. All employees work very hard every day and have not had a pay raise in seven years, and she encouraged the Board to look at ways to give employees a long overdue pay raise.

Brian Salvatore, citizen, echoed Mrs. Lansdale’s comments relative to discipline issues and shared with the Board his disappointment in the Board’s decision to limit the candidates to interview for the Superintendent’s position. He said he believes the most familiar candidate is someone that has been with the District for 40 years, yet she is being denied fair consideration for the position. Noting the economy in Shreveport being dependent on gambling, he stated that this is not the time to gamble on an unknown future. He stated his concern has been shared with
him by many and his experience is Dr. Robinson brings people together when the prior administrator would not listen to what the Board had to say. He also noted the little experience that the candidates represent as compared to the many years of experience Dr. Robinson has and he believes terminating the current search is the best option at this time.

Sheridan Shamburg, librarian, addressed the Board on the proposed pay supplement and the fact that the librarians were eliminated from receiving the same supplement as classroom teachers and that upon contacting some of the Legislators was told that it is a parish decision. She stated the stipulations in HB1 that clarify what constitutes a classroom teacher and she believes that the information provided should be ample to clarify that librarians should be included in the MFP supplement provided to classroom teachers. She also noted that librarians are held to the same evaluation rubric as all classroom teachers, and also noting the responsibilities of all librarians, she believes librarians should be included in the supplement given to classroom teachers and would greatly appreciate the Board’s consideration.

**ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA**

Dr. Mary Nash Robinson highlighted items for the Board’s consideration and President Ramsey noted the following as the Consent Agenda: 8.01-8.04, 8.07-8.08, 8.10, and 8.12. Mr. Pierson moved, seconded by Ms. Priest to establish the agenda and proposed consent agenda as presented. Vote on the motion carried unanimously with Ms. Trammel absent for the vote.

**CONFIRM THE CONSENT AGENDA**

Mr. Pierson moved, seconded by Ms. Priest, to confirm the consent agenda. Vote on the motion carried unanimously with Ms. Trammel absent for the vote. The following is a summary of the Board’s action on the Consent Agenda items.

**Item No. 8**

**8.01 General Fund Budget Revisions.** The Board approved the proposed General Fund Budget revisions as recommended by staff and submitted in the mailout.

**8.02 2014 Group Insurance Renewals.** The Board approved the proposed 2014 Group Insurance renewals as recommended by the Insurance and Finance Committee and submitted in the mailout.

**8.03 Approval of Resolutions, re: (1) Appreciation for Legislative Action providing Additional Funding for Public Education, and (2) Amend Accountability Bonus Points for Non-Proficient Super Subgroups.** The Board adopted resolution, re: Appreciation for Legislative Action providing Additional Funding for Public Education and Amend Accountability Bonus Points for Non-Proficient Super Subgroups as submitted in the mailout.

**8.04 Shreveport Job Corps Cooperative Agreement 2013-14.** The Board approved the Shreveport Job Corps Cooperative Agreement for 2013-14 as recommended by staff and submitted in the mailout.

**8.07 Proposal for Lease/Purchase of School Buses.** The Board approved the lease/purchase proposal for school buses as recommended by the Transportation Committee and submitted in the mailout.

**8.08 Purchasing – Digital Video Recording Systems for Buses.** The Board approved the recommendation to purchase digital video recording systems for buses through the Bossier Parish School Board’s bid for digital video recording systems.
8.10 Teacher M and S. The Board approved the Insurance and Finance Committee’s recommendation that approximately $300,000 be used from the remaining $700,000 of the additional State funds to give each classroom teacher $100 for materials and supplies for the remainder of this school year.

8.12 Approval of Third Party Charter Reviewer. The Board approved the third party charter reviewer as recommended by staff and submitted in the mailout.

REQUEST FOR TERMINATION APPEAL IN ACCORDANCE WITH CPSB POLICY GDPD

Mrs. Crawford moved, seconded by Mr. Rachal, that the Board uphold the termination of classified employee H.S. Vote on the motion carried unanimously with Ms. Trammel absent for the vote.

REQUEST FOR APPEAL OF TERMINATION

Jackie Lansdale, president of Red River United, stated her reason for addressing this item is it is an issue of due process; and whenever an employee is called to the Classified Office, that employee is allowed to bring their case and this did not happen. She stated that this individual could have brought information relative to his case, but he was not allowed to do so; and the District currently has two conflicting policies, and this employee actually complied with one of the policies and there are records to verify that he did. She encouraged the Board to hear this grievance if for no other reason than to see the complexities between the two policies; and that when they as an organization asks the Board to listen to the employees, there is an expectation that the Board does that, and to remember that the Board might look to them at some point for support and how difficult it would be to overcome if the Board turns down their plea to hear one of their member’s appeal for termination.

Ms. Priest moved, seconded by Mr. Pierson, to uphold the termination of classified employee L.C.

Miss Green moved, seconded by Mr. Hooks, that the Board hear this employee’s oral arguments at the next Board meeting. Vote on the substitute motion carried with Board members Crawford, Pierson, Ramsey and Priest opposed. Board members supporting the motion were Riall, Green, Crawley, Hooks, Rachal, Armstrong and Bell. Ms. Trammel was absent for the vote.

DISTRIBUTION OF ADDITIONAL REVENUE FROM STATE SUPPLEMENT

Ms. Priest moved, seconded by Miss Green, to approve that in addition to the $800 the Board previously approved for classroom teachers, that $1.7 million of the additional State funding be used to give all other employees a $500 supplement as recommended by the Insurance and Finance Committee. Ms. Priest noted that the Insurance and Finance Committee (comprised of Board members Priest, Bell, Green, Trammel and Riall) reviewed the information provided, including the law and Acts passed during the Legislative Session, and at that meeting some additional information was requested and was supplied by the staff (how the Federal Government shutdown will affect the Federal funds from which employees paid from those funds would be affected). Administration reported back to the committee that the three Federal grants largely affected include Title 1, IDEA (Special Education), and Child Nutrition; however, the cost is approximately $65,570, $8,400 and $261 respectively and a list of the funds and cost was provided to Board members. Ms. Priest further reported that the Insurance and Finance Committee, and others that have spoken, are in agreement that a $500 supplement is something that all employees not included in the Legislation deserve. Miss Green concurred with Ms.
Priest’s comments; and while the Board understands what many have said, the Committee worked long and hard with staff to present information for consideration. She thanked staff and the Insurance and Finance Committee for putting this proposal together.

Mrs. Bell stated her agreement with everything said and she wishes someone would explain to the Legislators what a classroom teacher and librarian actually is before they make such a decision in the future.

Mr. Rachal said he asked for this information so the Board would be aware of the impact on all grants, he also stated at the last meeting that he would support this item; and while he appreciates everyone’s attendance, he clarified with Jim Lee his understanding that we currently will use $1.7 million from the MFP funds and additional funds will be used from the other funding sources, and Mr. Lee said that is correct. Mr. Rachal added that if this were done on a yearly basis, we know exactly what the cost will be from the General Fund and from each department to provide this to the Classified Personnel. Mr. Lee responded that staff has a relatively close estimate as to what the cost will be. Mr. Rachal said that as the Board goes through the next budget planning session, it will know what needs to be allocated if the Board chooses to do this on an annual basis from the General Fund, and he supports the motion on the floor.

Mrs. Armstrong stated her feelings that the librarians should be included in the teachers’ stipend; and it is obvious the Legislators have not observed what librarians do. She also stated that one must understand that the votes are in South Louisiana and encouraged any who had connections in South Louisiana to make contact with those. She said she is disappointed that the librarians are not included in the teachers’ stipend and in the future if this happens again the local Board needs to find the funds to supplement and provide the librarians the same as teachers.

Mr. Riall moved, seconded by Mr. Pierson, to call for the question. Vote on the motion to end debate carried with Board members Crawley and Hooks opposed and Ms. Trammel absent for the vote.

Vote on the motion carried unanimously.

SUPERINTENDENT’S REPORT

9.01 Update on Collaborations with RSD. Dr. Robinson reported that staff held a teleconference with Mass Insight, service provider working with Jefferson Parish in their turnaround efforts, and were advised that working with such a service provider is seen as favorable. She reported that staff also met to discuss the initial plan with principals directly impacted. A press conference was held to share Caddo’s Plan that was presented to the Board the evening before. A community input forum at Peaceful Rest Missionary Baptist Church was attended by staff, and parents in attendance presented a roster of identified partners for the Village Plan. At this time, Dr. Robinson reported there are five charter applications for review and staff will begin reviewing these and meet soon with the third party charter reviewer. She also stated that staff will continue discussions this week on Caddo’s Plan and will conclude plans to travel to New Orleans on Wednesday to visit sites in the RSD in New Orleans on Thursday to hear plans for addressing AU scores. She reported that they toured the Caddo Career and Technology Center and attended a community meeting on Centenary’s campus last evening. Dr. Robinson announced that this process is progressing per the timeline established by Mr. Ford; and the final collaborative effort to address Caddo’s AU Schools must be sanctioned by the Board in the November meeting in order for the staff to prepare to present it to BESE in December. She stated she is always available to address any questions or concerns.

ANNOUNCEMENTS AND REQUESTS
Mr. Rachal asked if when the Board goes through the Third Party process for the review of the proposed charters, he desires to be kept in the loop, to know what and how as the process is followed.

Dr. Robinson announced that the Junior Achievement Northwest Louisiana Business Hall of Fame Banquet is scheduled for October 17th at 6:30 p.m. at the Shreveport Country Club.

Mr. Riall announced he was in the very first Junior Achievement Program in Caddo Parish.

Mrs. Crawley asked that staff follow up and get a review from the Office of Civil Rights relative to handing over our schools/students to a failing RSD.

Mrs. Crawley asked that staff provide a report on the number of students who have threatened or battered school employees and have returned to the school (number of students and the school they are attending).

Miss Green announced she will host a Town Hall meeting on Thursday, October 17th at 6:00 p.m. at Newton Smith. The guest person in attendance for the Superintendent will be Cleveland White.

Miss Green asked if she understands correctly there is a group of Board members traveling to New Orleans on Wednesday and how were the five Board members selected; because, some of her schools are affected and she was not included in this opportunity. She asked if Mr. Ford or any other organization requested that the Board look at some schools that have been affected the same as Caddo, and some of the Caddo schools being affected are in her District, she stated she believes it is only fair that the invitation is extended to every Board member. Mr. Ramsey said a decision was made to take five Board members (the Executive Committee and two additional Board members). Miss Green asked who made the decision and Mr. Ramsey responded he did because it had to be made quickly and only a few could attend because of the budget.

Mrs. Bell asked that the Attendance Department provide her with the enrollment number for Caddo Parish Schools and for Magnolia Charter as of October 1st.

**Adjournment.** Mr. Pierson moved, seconded by Ms. Priest, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 6:08 p.m.
The Executive Committee of the Caddo Parish School Board (CPSB) met in special session in the Superintendent’s Conference Room at 1961 Midway Street, Shreveport, Louisiana, at 11:30 a.m. on Tuesday, October 22, 2013 with President Larry Ramsey presiding and Carl Pierson and Bonita Crawford present being a quorum. Legal Counsel Reginald Abrams was also present.

Mr. Pierson moved, seconded by Mrs. Crawford, to go into executive session for the purpose of negotiations with candidate Dr. Theodis Goree for the position of Superintendent of Caddo Parish Public Schools. Vote on the motion carried and the executive committee went into executive session at approximately 12 noon.

The Executive Committee reconvened in open session at approximately 1:00 p.m. and recessed until 11:30 a.m. Wednesday, October 23, 2013.

October 23, 2013

The Executive Committee reconvened in executive session at approximately 11:45 a.m. on Wednesday, October 23, 2013 in the Superintendent’s Conference Room for the purpose of negotiations with candidate Dr. Terrence Brown for the position of Superintendent of Caddo Parish Public Schools. Those present were Larry Ramsey, Carl Pierson, Bonita Crawford and Legal Counsel Reginald Abrams.

The Executive Committee recessed at approximately 1:05 p.m. until 11:30 a.m. on Thursday, October 24, 2013.

October 24, 2013

The Executive Committee reconvened in executive session at approximately 11:50 a.m. on Thursday, October 24, 2013 in the Superintendent’s Conference Room for the purpose of negotiations with candidate Timothy Magner for the position of Superintendent of Caddo Parish Public Schools. Those present were Larry Ramsey, Carl Pierson, Bonita Crawford and Legal Counsel Reginald Abrams.

The Executive Committee reconvened in open session at approximately 12:50 p.m. and having concluded contract negotiations with all three candidates for superintendent of Caddo Parish Public Schools, Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 12:51 p.m.
November 5, 2013

The Caddo Parish School Board (CPSB) Executive Committee met in regular session on Tuesday, November 5, 2013, at 4:30 p.m. in the boardroom, 1961 Midway, Shreveport, Louisiana with President Ramsey presiding and Carl Pierson and Bonita Crawford present constituting a quorum. Additional Board members in attendance were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Dr. Mary Nash Robinson, interim superintendent, and Reginald W. Abrams, legal counsel, were also in attendance. Carl Pierson led the invocation and Pledge of Allegiance.

PRESENTATIONS

SunGard Update. Dr. Robinson reported that after a number of departmental reviews, in which issues were cited that caused some concerns, and while she may not understand logistically what each department does, she does understand accountability; department heads met via telephone with Ms. Book to share their specific issues and develop an action plan to address them. Lillian Book, vice president of professional services for SunGard K-12, introduced Kim St. Marie, manager of professional services, and shared with everyone a report on the implementation of the SunGard software in Caddo and the findings/recommendations from the audit. She addressed the issues of Best Practices around Security, reducing the hands-off period, the number of supplemental Caddo has, the roll out of employee online (which is a module purchased and implemented by Caddo), professional services approval process, and the hosting options.

Noting that one of the audit findings was a concern that the security needs were not being met and how important it is that the correct people have access to the information, that the correct people have access to make changes, and that some people have no access at all, Ms. Book stated their group took the time to demonstrate the security to the administrative teams and has signed off that security did meet all the needs. She further explained that when implementing a program, it is frequent that security is left open for a wider group of people (insurance, human resources, payroll), because as they are learning, it is important that they have access to more; but as they learn their processes and how they are imbedded in the program, then security is closed down. Templates have been distributed to all the Caddo departments to allow security to be narrowed down and IT will do this as they receive feedback from these departments. She explained that IT’s role is to set it up according to the wishes of the managers of the departments that have access which will make assigning roles to new hires easier; and again, she believes Caddo has signed off that security is doing what is needed and Caddo is now beginning the tightening process in security.

Relative to reduction of hands-off and supplementals, Ms. Book explained that hands-off is not a SunGard process, but it was utilized during the implementation process to help people focus on the timing of when data needed to be sent to payroll. Because the software is data driven, Ms. Book stated that as people better understand the processes, they are able to step away from the hands-off since it is not a part of SunGard’s software. When SunGard came on board as a result of the audit findings, Ms. Book explained they worked with the IT team, payroll and administrative team to create calendars to show the appropriate cut-off dates so each team member is aware (internal or at the schools) when to get the information to payroll so payroll can do its job. Checklists were also provided for each department so as they are going through the process, they can validate each step required. Caddo’s IT Department distributed these calendars/checklists about one week before the October payroll which seemed to help and employees expressed how much they appreciated it. Relative to reduced supplementals (which they see as a fact of payroll), Ms. Book noted that in Caddo, and in the audit report, no one department can handle that level of supplementals; however, within the system, there is a process
for running supplementals and any additional pay after a payroll has been run, but running supplementals (hundreds) is not a part of the system.

Roll-out of employees on-line was identified as non-operational and Ms. Book explained this was an error in the reporting and has been piloted with a number of users in the system where an employee can see their pay stub, their W-2, change their address, etc., and it is actually ready to be rolled out.

Relative to the concerns expressed around professional services, Ms. Book explained that Caddo has not paid for services where it was something SunGard set up incorrectly, or when SunGard brought in an additional/new employee to work with Caddo. She also added that some additional compensation time on SunGard’s part was provided when the audit findings were presented. Ms. Book stated that SunGard takes its responsibilities very seriously and they knew it was their responsibility to correct/fix at no additional cost to Caddo. She noted that Sharon Golett in IT is the primary contact in Caddo and any future requests should come to them through Ms. Golett, i.e., training, report writing, etc. for SunGard to address.

While SunGard’s first level is very engaging, and SunGard is leading and helping the District set up the software, testing and training; but once the district goes to live mode, it becomes obvious what things a District may want to add on, i.e. payroll interface, additional report writing, etc. and their time becomes “on request”. She said there are many different ways a client can interact with them to obtain knowledge and training that are cost effective.

Ms. Book also highlighted hosting and the question was raised when the software was implemented as to whether or not the District wished to have the hardware in-house to run the applications or have it hosted. She further added that hosting does complete offsite backup in the event of any catastrophe which they test a couple of times annually. An additional advantage is the technology environment that continues to move forward and as part of the service, Caddo’s software is kept current. She also reiterated SunGard’s commitment to the partnership with Caddo and the background that is available through the many educators working for them. She also highlighted some of the pros and cons of a customized system and how it is continually being improved and upgrades are made at no additional cost to the District.

Mr. Hooks asked Dr. Robinson when (year) SunGard was initiated, and Mike Seale responded that Caddo went live with the financials in the summer of 2009 and human resources/payroll went live in 2012. Mr. Hooks asked when was it installed, and Mr. Seale responded that we do not have anything installed in Caddo. Jim Lee responded that when Mr. Seale referenced the financials, he is referencing the General Ledger and Purchasing systems and we went live in July of 2010 and probably went through the testing portion for these two systems the year before (2009). Dr. Robinson asked Mr. Lee to report when SunGard was purchased and Mr. Lee stated he believed possibly in 2008. Ms. Book responded that the contract was signed on September 30, 2009. Mr. Hooks said his problem is the committee met on this and he does not remember 2009; and he believes the professionals should be able to tell him the dates when the District spent the amount of money it did for this system. Mr. Hooks asked Mr. Woolfolk what year and month was he hired, and Mr. Woolfolk stated April 15, 2010. Mr. Hooks asked Ms. Book if he bought the most expensive vehicle made and from day one he had a problem with that car, what did she believe he should do about the car? Ms. Book responded that equating a car to a software package is, in her opinion, two different metaphors. Mr. Hooks stated that in looking at the budget, which is what the Board does, he doesn’t believe the constituents money is being properly represented and if the employees are still having problems at this point, something is wrong. Ms. Book responded that physically it takes two to three years to implement the software, and she believes this is so indicated in the RFP; and she agrees that the payrolls were not correct and they have subsequently worked with Caddo to identify where the issues are, and 100%, they were not software issues. Thus, they are looking to determine if the software was
configured incorrectly, was it calculating incorrectly; and in none of the cases via the audit findings were either one of these an issue. However, they did learn that the processes were not being followed and that is where they returned and spent more time on the processes, i.e. calendars in place, checklists, validation reports, etc. Mr. Hooks stated if all departments are not on the same page with SunGard in four years, he believes something is drastically wrong with the program, and he asked Mr. Lee the year we began talking with SunGard? Mr. Lee responded that if we signed a contract in 2009, it was possibly late 2008 or early 2009.

Mrs. Crawley asked if additional information will be provided today, i.e. answers to the audit questions? Ms. Book said she distributed information, but was not actually planning on making another presentation today. Mrs. Crawley asked about the possibility of holding a committee meeting with SunGard representatives in attendance to answer questions. Mrs. Crawley also asked about Ms. Book’s comments relative to hosting off-site and didn’t the District buy the hardware to host it? Ms. Book said that is correct, but the District did not actually purchase the hardware; because originally the District determined it would buy the hardware and bring it in-house, and then a decision was made to hold off and SunGard was asked to hold the money it had for it; so it has been set up in a hosted environment. When the audit report was released, it recommended that Caddo stay in a hosted environment and apply the pre-paid dollars for the hardware toward hosting fees rather than bring the hardware in-house. Mrs. Crawley asked if someone with SunGard is working with Ms. Golett and each department to answer questions/problems and is the District being charged? Ms. Book responded they have worked with Ms. Golett and the departments and Caddo has not been charged. Mrs. Crawley asked Ms. Book if she is saying that the problems were user issues, and Ms. Book responded that it is, but management has changed and no one learns software overnight; and because of the timing issues, there were more mistakes than there should have been because the appropriate time was not taken to go through the process carefully. She added that because calendars have now been put into place to allow the data to get to the Payroll Department in a more timely fashion as well as the data being checked at the source, it is believed these errors will be corrected.

Mr. Riall referenced the Audit Committee meeting and requesting staff to look further into the issues with SunGard, which is why we are here today. He asked if we are now working through the process well enough to where it will now be functional, usable and we will be satisfied that we can make it work? Dr. Robinson reported staff is diligently working toward this as they have been since the beginning; and staff carved out the necessary time to do the training with the SunGard representatives. While there are still some issues, staff does continue to work to resolve these and department heads are in the audience to answer any questions. Mr. Riall mentioned that he will call another meeting of the Audit Committee to further discuss these issues informally with representatives of SunGard in attendance. Dr. Robinson added that she believes we are in a much better situation today than immediately following the audits.

Miss Green said she attended the last Audit Committee meeting and she too would like for the SunGard representatives to attend the next meeting to answer questions.

Mr. Ramsey agreed to refer this matter back to the Audit Committee to hear additional questions and a report back to the Board.

Mrs. Bell asked the Board President to request the Board Secretary to provide minutes of the meetings where SunGard discussions began. She also asked how much training has been provided to those employees who must use SunGard and what additional training will be provided that the employees need.

Ms. Priest asked about the off-site backup relative to disaster recovery and she would like to see this information provided to the committee when it meets. Ms. Book responded that Ms. Golett
has a proposal from SunGard as it relates to disasters; and Dr. Robinson responded that she will get with Ms. Golett regarding providing this information to the Board.

Mr. Rachal asked about the typical time for implementation, and Ms. Book answered two to three years. Mr. Rachal asked if Caddo (after SunGard did evaluations and assessments) had internally caused issues? Ms. Book said she believes after looking at what was working and what was not, they were able to identify with Caddo’s team that change management was a large issue with the process (moving from the mainframe system to a new system); and they are working with this. Mr. Rachal asked if the recommendations made have been addressed, and Ms. Book responded they are being addressed in what they refer to as the refining phase which follows the main implementation phase. Mr. Rachal asked if SunGard feels that training or lack of training was a larger issue; and Ms. Book said while the question is a difficult one, there was training, but with any new system, it is a difficult process, and it doesn’t come together until there has been ample hands-on experience with the system. Mr. Rachal said he believes we are currently dealing with a confident level with the system, and he asked Ms. Book how confident did she feel that the SunGard system will work successfully in Caddo to accomplish the goals. Ms. Book responded she is 110% confident, because while Caddo is complex with all the state rules, they do have the ability to meet those rules and accommodate the change.

Mr. Hooks asked that before the Audit Committee meets if Jeff Howard could conduct another questionnaire of Human Resources and Payroll similar to the first questionnaire in order to provide a clearer picture of where the employees are in the process. Mr. Howard responded if they use a ten-questionnaire survey similar to before, he believes it will take approximately two weeks; and then approximately one more week to compile and report the results. Mr. Hooks asked that this be done and coordinated with the next Audit Committee so this information is available for the committee.

ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA FOR THE NOVEMBER 19, 2013 CPSB MEETING

Dr. Robinson shared items for the Board’s consideration at the November 19, 2013 CPSB meeting and the following discussion ensued.

**Sale of Hamilton Terrace.** Mr. Hooks asked why information is not provided today if the Board is being asked to vote on this at its next meeting? Tim Graham explained this was an item put out for bid by November 1st; and there were no bids received, so it is on the agenda to seek the Board’s pleasure regarding the next steps. Mr. Hooks asked Dr. Robinson why we are selling Hamilton Terrace, since he believes there could be a need to use this building in the future for an over-age program. Mr. Woolfolk responded that a commitment was made to the community that when a school is closed in a neighborhood, we would repurpose the property, sell it or tear it down. Because there was an interest in Hamilton Terrace, the recommendation was brought to the Board to put it out for bid. Mr. Hooks asked Mr. Woolfolk about the concerns expressed at his Town Hall meeting and the possible future need for an over-age student facility. He further asked if Hamilton Terrace is sold, is there another facility that can be used for over-age students? Dr. Robinson responded we do have such a facility and when the Board gets to the point on the agenda of discussing the RSD and the CPSB agreement, staff will bring this information to the Board. Mr. Ramsey reminded the Board that it did authorize staff to go out for bid to sell this building; and because there were no bids, there is another opportunity for the Board to look at the future of this facility.

Tim Graham clarified that since Caddo did not receive any bids, staff is asking the Board what it would like to do, i.e. lower the price to 85% of the appraised value (state law) or do nothing. Mr. Hooks asked why is it on the agenda, and Mr. Graham explained that there was a bid opening on this item and because there were no bids, staff is reporting this to the Board.
Mr. Riall asked Mr. Graham if this school was not vandalized, and Mr. Graham said it was severely vandalized. Mr. Riall asked if the school is still sitting in that vandalized condition, and Mr. Graham said it is. Mr. Riall asked Mr. Graham how much it would cost to get Hamilton Terrace back up and operational again? Steve White responded that it would be a significant expense because there were 31 air conditioning units damaged beyond repair.

Mrs. Crawley reported there was a meeting with some concerned citizens and there were two separate news reports stating that we entered into an agreement with the Rescue Mission. The Highland Association asked why the District has not corrected that error in reporting. She asked if, in the future, staff could stay on top of these matters.

Mr. Rachal stated rather than pulling the item, he believes the item should be changed to authorize the staff to go back out for bid in accordance with state law and give staff direction. Mr. Graham stated he believes that it is a directive that comes to staff from the Board, and Mr. Ramsey asked that staff bring back a recommendation to the Board.

Mr. Pierson noted that one of the things that came out of the meeting was no one was interested in purchasing the building at the asking price; and state law requires us to bid the sale of the building at the appraised value; and if the appraised value is not met, then by law, the District can bid it at 85% of the appraised value. Mr. Pierson also stated his agreement that something needs to be put on the agenda that gives the Board the opportunity to decide if it wishes to bid the building at a price less than the appraised value, demolish the building, etc.

Miss Green asked whose District is Hamilton Terrace located in, because she has a problem with other Board members making suggestions relative to a facility that sits in another Board member’s district.

Mr. Ramsey announced that this item will be moved from “Bids” to “Other Action Items” as Item No. 8.06 “Sale of Hamilton Terrace Property”.

Shreveport Police Dept. Long-term Use of Off-line School(s). Ms. Priest asked for clarification of the three off-line schools and why West Shreveport is listed as one of the schools. Mr. Woolfolk stated that West Shreveport can be removed from the list of off-line schools, because SPD did not request specific schools, but only inquired about any off-line school that might be available for active shooting. Ms. Priest stated that the point is she believes there has been a move toward utilization of West Shreveport beginning in 2014. Mr. Woolfolk responded that SPD would use these facilities on a weekend and/or at night; and staff works around them. Again, Mr. Woolfolk announced that West Shreveport will be removed from the list.

Mental Health Interagency Agreements and Contracts. Mr. Hooks asked when these agreements and contracts will be available for review? Roy Murry announced they are a part of the Safe Schools grant, and copies are available for review in the Superintendent’s Office.

Resolution, Re: Partnership with Foster Grandparent Program. Mr. Rachal asked if there will be an agreement drafted between CPSB and the Foster Grandparent Program. Mrs. Bell stated that this program has been in place since 1980 and Caddo Parish Schools has partnered with them to provide needed services in the schools. Since its inception, Caddo Schools has not presented them a resolution of thanks and appreciation for all they do for students in Caddo Schools, and she is asking that this be done. Reggie Abrams responded he is drafting and will have available a proposed resolution for the Board’s consideration on November 19th.

Partnership Agreement with Recovery School District. Attorney Reggie Abrams shared with the Board a draft agreement received from the Recovery School District (RSD) Monday
afternoon. Mr. Abrams reported that the RSD has been in communication with staff, Board members and members of the community to discuss the future of Caddo Parish AU schools (AU4) and their recommendations being brought forth in December as to the future of Caddo’s AU4 schools. He added that Caddo also put together a plan and the last draft received is what the RSD has agreed upon and would like to present to BESE in December as an outline for Caddo to move forward. He also explained that an MOU will be drafted before their next meeting which will formalize the information provided. Mr. Abrams stated he would like to see the partnership agreement changed so it is similar to the partnership agreement Caddo had in the past. He noted there are no charter schools or takeovers in this proposed plan. He further added that the ultimate attempt was to come up with something everyone would be able to work with; however, he did have a problem with the initial proposal of one year, and potential to extend to December 2016, and he will ask for additional language in the agreement to allow for the agreement to be extended for schools making significant academic gains and progress.

Noting the intent for every school to have a minimum score of 50, the District submitted a proposal that included the closing of Newton Smith at the conclusion of 2013-14, and the RSD indicated it will close Linear Leadership Academy at the close of the 2013-14 school year. On page 3, the circumstances are so noted that the closure of Linear will be contingent upon Caddo Parish presenting for approval by February 1, 2014, a plan for reopening Linear in 2016-17. He further explained that the RSD must hold a school for five years once they receive it and is why they cannot return it to Caddo, so they would close the school, the current students would attend Green Oaks or their non-failing neighborhood school which is consistent with what the District is proposing. Under Developing System Change, Mr. Abrams explained they are suggesting that we use something similar to Jefferson Parish, i.e. use the nationwide Mass Insight firm to help with a design for Central Office to help support autonomous schools, schools that can handle their own budgets and develop talent, a financial plan and organizational redesign, as well as build Central Office capacity and new school leaders. Mr. Abrams stated a Third Party Service Provider will help the District comply and have great student outcomes, and the RSD requires that they approve any Third Party Service Provider used. He also explained that the positions at Atkins, Midway, Woodlawn and Fair Park will be vacated and these schools reconstituted, with employees reapplying for their jobs. Regarding Linear, even though it will be closed during the 2013-14 school year, the District can use this facility, only not as a school during that time period, and the RSD must approve what the District uses it for. He also noted the RSD will host a summit where Service Providers will share what they do and how they do it. Options for the AU4 schools (Atkins, Midway, Woodlawn and Fair Park) include contracting with a management organization or using a third-party service provider, which will be up to the Board; and, staff is recommending the option of a third-party service provider.

Mr. Abrams further explained that the CPSB will reconfigure the grades and programming at Woodlawn Leadership Academy and Fair Park to create a career technology education high school serving students from across the parish in grades 9-12, and this was accepted by the RSD. Other schools (AUS1-3) (Caddo Middle Career, Lakeshore, Mooretown, Queensborough, Werner Park, Westwood) will use the same service provider so they are doing the same things and working to keep these from becoming AU4 status. These schools will also be under this agreement which provides a security blanket and no worry about the potential of them being taken by the RSD. Mr. Abrams noted the accountability that will be in place, i.e. reports, etc., and any changes needed would be processed through the RSD. Mr. Abrams added he will also ask for additional language that states if any school scores a 50 during the term of this agreement, it would not necessarily be subject to being moved into the RSD. Important dates brought to the Board’s attention included November 19, 2014 for agreements to be approved by the local Board, presentation to BESE in December, and 2015 dates.

Mr. Ramsey expressed his gratitude to Counsel, Dr. Robinson, staff and Mr. Ford for the many hours and hard work in the development of this proposed plan.
Miss Green asked about Mr. Abrams’ comments relative to the implementation of something seen in New Orleans, because she does not understand how the Board can support implementing something that not every Board member had the opportunity to see. She also asked about the closure of Newton Smith and Linear and how this is being proposed. Mr. Abrams announced there will be a summit next week to go over the information presented in New Orleans, the successes of the programs there and the services they provide. The closure of Newton Smith was a recommendation from staff since Newton Smith was originally a stop gap put into place to make certain 6th graders did not attend Green Oaks, thus the intent would be to close it and repurpose it with Southern University or some other entity. Miss Green stated her problem is there is a new highway coming through this area and new housing developments and to give it to Southern University, which she has no problem with, she questions what would happen if there is an over-population in that area and there isn’t ample space at Pine Grove and Northside and we have need for the space at Newton Smith. Mr. Abrams stated that how the school is repurposed and/or closed is a Board decision. Miss Green stated she believes we need to make Newton Smith a preK-3 school, and Pine Grove and Northside 4-6 grades.

Mr. Hooks asked for clarification between the RSD and a charter school? Mr. Abrams explained that this agreement is to keep Caddo schools from going into the RSD; that there are five types of charter schools and the RSD is an arm of the State Department, created by the Legislature, that can receive failing schools with BESE approving Memorandums of Understanding (MOUs). Mr. Hooks asked what will happen if the SPS does not change under a Third Party Service Provider? Mr. Abrams explained that if the District does not meet the requirements by December 2015, then the RSD will make a recommendation to BESE as to who will take control in 2016. Mr. Abrams added we will do what is suggested and we will ask the State for additional time (year) if needed to show improvement. Mr. Hooks noted that one of the current charter schools in Caddo has not shown any progress since its inception, and he wonders what will happen to Caddo’s schools if there is no change in the School Performance Score? Mr. Abrams said he will be speaking up for Caddo because he agrees these companies are charged with improving the schools and his argument will be that Caddo did everything it possibly could, and because there are still issues, request for additional time to make it happen or time to get a different provider.

Mrs. Crawley asked for information on the summit, and Mr. Ramsey announced that it will be at Linear, Tuesday, November 12th, from 1-5 p.m. Mrs. Crawley asked if, since these providers will be held accountable, the Third Party will get paid if there is no improvement? Mr. Abrams indicated he feels sure they will get paid. Mr. Ford responded that this will be up to the terms of the agreement created by the CPSB with that provider. Also, the RSD has made recommendations on Third Party Service Providers; however, that does not mean a District must use a provider from that list. Mrs. Crawley stated it is her hope the providers will come to the summit with data reflecting their proven success, and she would not want to extend the agreement if progress is not being seen. She also asked if the State will help with this money? Mr. Ford stated that a potential budget on how much this will cost, was provided and there are believe and succeed grants available, as well as monies set aside for Caddo that will help close the gap. Mrs. Crawley stated her appreciation for what appears to be a compromise which indicates everyone is working together. Mrs. Crawley noted the enormous amount of money Caddo spent for providers to come in and she does not feel there is a lot of difference in Option 1.

Mr. Ramsey asked if, with the application deadline being November 15th, Caddo will be given a waiver since the Board does not meet until the 19th? Mr. Ford responded that the 15th is the deadline date for the planning grant (monies received now to plan what will be implemented), and the second grant is March 30th which includes money for the 14-15 implementation. Mrs. Crawley asked Mr. Abrams if Option 1 is very “charter-like”? Mr. Abrams responded not really,
because a Charter would create a separate Board; and if the Board selects Option 1 or 2, that is 
the staff’s recommendation to the Board. Mrs. Crawley asked about a term for alternative 
certification, and Dr. Robinson responded there is, and staff has made the contact with Teach for 
America, and they will be at the summit. Mrs. Crawley asked if they (Teach for America) has a 
proven record and will everything we do be data driven? Dr. Robinson verified that is correct 
and principals will make recommendations which will be placed in the applicant pool, but the 
principal interviewing will determine who they interview. Mr. Abrams stated that the contract 
agreement states that the RSD recommends, but it does require the CPSB to consider partnering 
with alternative certification teacher pipeline program. Dr. Robinson indicated she could 
determine the pool at this time because it will be necessary to reconstitute some schools and who 
is rehired, etc.

Mrs. Bell asked Mr. Ford about provisions on page 2 indicating that the CPSB superintendent is 
authorized by the CPSB to carry out all recommendations by the third party provider, i.e. change 
relations to school budgets, and she would like to know where this money will come from? Mr. 
Abrams responded they will suggest to the Board how to come up with school-based budgeting, 
so the Board will establish the overall budget and come up with a budget for the particular school 
(Caddo Parish will pay the provider and there will be an agreement relative to funding dedicated 
through a grant). Mrs. Bell again asked if Caddo will continue to receive the per pupil allotment 
and will Caddo have to provide the funding for the provider? Mr. Abrams responded that the 
schools will still be Caddo schools and the students will be Caddo students. Mrs. Bell asked who 
will pay the provider and where will the money come from to pay the provider? Mr. Ford said 
he believes it is a completely different type of provider situation, because the Board will contract 
with a provider to provide support at the District level. The contract will provide support to the 
Board as to how to create a talent pipeline for certified teachers, how to address transportation 
issues in a Choice district, how to do student-based budgeting, etc. for Option 2. Under Option 
1, a provider will come in and manage the school daily (the school is a Caddo school run by 
Caddo Parish employees; however, someone from the provider will give direction). This 
provider will be given autonomy with the budget that the school already has. The only 
additional monies for the District will be the contract fee. Mrs. Bell asked if the provider can 
provide a different curriculum than Common Core? Mr. Ford stated that everything in the 
contract will be approved by the superintendent and the provider selected must follow the State 
and Federal laws in Louisiana. Mrs. Bell asked that everyone make note of this because she sees 
that the provider can select their own curriculum. She also expressed her concern that the 
providers can come in and select their own staff, and because Teach for America teachers will be 
used, Caddo’s certified teachers will be moved from their positions since the new provider will 
be the one helping pick the new staff. While she understands the concept that some of the 
schools staff may need to change, she urged them to remember that Caddo does have some good 
qualified, certified teachers. Mr. Abrams stated that they are saying the schools will be 
reconstituted and everyone will reapply for positions. Also, if the Board selects Option 2, which 
is his recommendation, the leader (principal selected by the Superintendent) is still a Caddo 
employee and the principal will select his/her staff. Mrs. Bell asked if activities, i.e. football, 
will remain in place, and Mr. Abrams and Mr. Ford confirmed that these schools will remain 
Caddo schools and the principal, a Caddo employee, will make the decisions for that school.

Mrs. Armstrong asked if we are dictated as to how these schools are reconstituted, i.e. if Fair 
Park returns to 9-12, can Midway be reconstituted as a middle school for the middle school 
students currently at Fair Park? Mr. Abrams stated his understanding is that when staff 
originally submitted their plan it included some movement of students and changes in grade 
configurations. The RSD responded they would like to keep the students intact and in the same 
type program so when changes are made, they could determine the strategies that work for them 
rather than just moving students around. He noted Midway did have a separate proposal, but it 
was not accepted by the RSD, because they want to use schools in their current configuration and see if the strategies implemented work. Mrs. Armstrong asked where will the current Fair Park
middle school students relocate to, and Mr. Abrams responded that he does not have that proposal. Mrs. Armstrong also stated that the State recently made changes in the rules as it relates to School Performance Scores (all schools must make 50), and she asked if we have any guarantee that the State will not make changes again? Mr. Abrams said there is no guarantee, and he was happy when he saw 50, which is the contract he is following. Mrs. Armstrong referenced some of the schools receiving bonus points that boosted them up considerably. Mr. Abrams further stated that it is obvious to him that the State Department and the RSD are not considering a change at this time, but only put a number in.

Ms. Priest asked Mr. Ford about the possible creation of a Choice district, because Caddo is already a Choice district. Mr. Ford stated that he misspoke not realizing that Caddo already offered Choice. Referencing the school-based budgeting, Ms. Priest asked if this is also applicable in Option 2? Mr. Abrams responded that when looking at the overall plan, it will be the recommendation to continue to support this program in Caddo Parish. Talking about the six areas in Option 2, i.e. data-driven instruction; she asked if the District will be involved with a service provider. Mr. Ford indicated this is only an example of what can happen and it is the principal that is in charge of the contract and the money spent. Understanding the need to vacate and reconstitute these four schools, she asked if the CPSB will approve or be responsible for the fall out of those individuals not picked back up by the school. She also asked if those not selected will be placed? Mr. Abrams responded that some will be placed back at the school in which they were located at the beginning when schools were vacated. Ms. Priest stated that Option 1 (management organization) or Option (service provider), who will develop the tools for evaluating the effectiveness of either organization. Mr. Ford said because the contract will be a district contract, it will be the responsibility of the local District.

Mr. Riall asked for clarification of the difference between a management organization and a service provider? Mr. Ford said it can be a charter provider or a service provider. Mr. Riall also asked about the different categories that each will work in and how they are different? Mr. Abrams responded that the management organization actually runs the school and the organization hires the principal. Under a service provider, the School District (Superintendent) determines the principal. Mr. Riall stated it is evident that what is taking place in these four schools is not working and the District has already vacated and people reapplied for their positions once before; so he asked if there are any safeguards if these schools are reconstituted, new staff, will the job get done. Mr. Abrams responded that the Board will depend upon the Superintendent to make it happen.

Mr. Pierson asked why does Linear have to close for two years? Mr. Abrams explained that this is an RSD decision and it cannot come back to Caddo Parish for two years because when the RSD took control of Linear, they must maintain control for five years before returning it to the District. Mr. Ford added that the proposal submitted by Caddo for Linear was approved, but the District took this off the table. Mr. Pierson stated his concern is the building being vacated for two years and the possible vandalism that could take place. Mr. Abrams reminded the Board that the agreement states the building may be used for other purposes prior to reopening as a school, and the response was Caddo would accept the building back into the Parish’s schools and would maintain the facility.

Ms. Trammel expressed her appreciation for the reconfiguration of the grades at Woodlawn and Fair Park. Ms. Trammel also inquired about the possible provider and if this provider, if selected, would be for use districtwide? Mr. Abrams responded the provider would be used however the Board decides. Ms. Trammel asked about prior use of incentives in reconfiguration of schools and if this is something that will be used. Mr. Abrams said this would be up to the Board to decide, prorating the incentives, etc. Regarding the 50 points, Ms. Trammel asked if the District would be working with the current data or will the RSD/State Department be changing it. Mr. Ford said they have put this number in and no matter what other changes may
be made, the number will be consistent. Mr. Ford also stated that the State believes that when a
certain group of schools consistently struggle to meet the bar, then something may need to be
done differently at the Central Office level, and is why they recommend providing capacity and
support at the Central Office to support those schools.

Mr. Rachal asked if the State has conducted any pre-negotiation pricing with the service
providers; and if not, why? Mr. Ford responded they have not, and Mr. Rachal said he believes
the State could possibly put out an RFP and maybe get some lower costs for the Districts. Mr.
Ford added they did not want to mandate which providers Districts must use, but he can take the
Board’s feedback to the State relative to handling this similar to other vendors and State
contracts. Mr. Rachal stated that the Caddo District is already paying the State and has been
fortunate that it will receive some of the money back; however he does not believe Caddo should
pay the State any money to manage a contract and recommended to the Board that it doesn’t.

Mr. Abrams said there is no management fee. Mr. Rachal stated that he remembers with the old
MOUs there was a fee the District had to pay the State, and he wants to make certain there will
be no fees paid to the State. Mr. Abrams explained there is no fee to the State and the District
will actually receive a 2% fee for managing the charter schools. Mr. Rachal stated he has an
issue with a comment on page three and he believes Caddo needs the option with Linear on
whether or not we reopen it or not and not be forced to open a school. Mr. Abrams explained
that if Caddo decides by February 1, 2014 that it does not want to submit a proposal, then the
whole deal (relative to Linear) goes away. Mr. Rachal stated his belief that we are going down
the same path as before, and the Board is not given the opportunity to look at our budgets; and
because we have many facilities and all the children are not being provided what they need in
their communities, it may be that we do need to close a facility and make it a school that has
everything the children in that community need. Mr. Abrams said he believes the option is pretty
clear and is what staff presented (closure of one school), and the State Department came back
and stated Caddo needed to fix the other schools or they would take them. This proposal is the
compromise proposal. Mr. Ford also stated that he feels if the District had the capacity to do
this, it would have made these changes 10 years ago, and is why the State is providing the
support to help the District close the gap.

Mr. Ramsey asked staff to explain the Core Curriculum, and Mrs. Woodard explained that the
Common Core initiative began a couple of years ago and work began behind the scenes to get
the curriculum materials rolled out as approved and developed by experts at the National level.
She said in Caddo we are working to align those standards to the materials we have available to
train teachers and get them where they need to be so they can move students forward. Mrs.
Woodard also explained that in the past the staff has worked with external providers and the
most successful was probably the University of Virginia where a group went as a leadership
team to train working with School Turnaround and five schools were at the University of
Virginia. At this time, she reported there was approximately 2-3 Caddo people still left in the
area (possibly in different areas), and most of the schools that worked with the University of
Virginia in the School Turnaround Program came out of Academically Unacceptable Schools;
however during this time the administrators who trained in the process left the District. When
Caddo began talking with Mr. Ford about the process of Turnaround and what we will do with
these schools, staff began researching Nationwide Effective Turnaround Program and what has
worked in Louisiana. She said this is how they came up with Jefferson Parish and Mass Insight,
for schools on the verge of takeover and Jefferson Parish turned all around with the exception of
maybe two. When talking about external providers, Mrs. Woodard stated that is a
comprehensive model of turnaround and professional development for everyone. She also noted
that they recognize the professional development and support of professional development is
probably Caddo’s weakest point at this time.

Miss Green asked Mr. Abrams how long Linear has been with the RSD? Mr. Abrams said it has
been three years. Miss Green asked about the likelihood of this actually happening? Mr.
Abrams said this is the Board’s decision. Miss Green asked if she understands correctly that if she votes for the proposed plan that Newton Smith will close? Mr. Abrams said that is correct. Miss Green asked if the Board does not approve the plan will the schools stay as they are? Mr. Abrams said the State can then recommend to the BESE what they wish to see happen. Miss Green stated she does not understand why her school is being sacrificed and the others remain open. Mr. Abrams said BESE can do whatever they wish with these schools and he does not see this as a sacrifice because Caddo staff recommended the closure of Newton Smith because they do not feel they needed the 6th grade academy. Miss Green asked Mr. Abrams to again explain this to her so that she has clarity, i.e. if the plan is turned down, the State could possibly take all these schools, and Mr. Abrams said that is correct to a degree. Miss Green stated that her concern that her district is always targeted. Miss Green asked if it is closed what will be done with this building, when will there be a plan for Newton Smith? Dr. Robinson shared that a meeting was held today with principals being affected to discuss the proposed plan and noted the continued conversation among staff to determine. Being in touch with the members of the MLK community and the administrators for that area, she believes the proposed plan allows staff the time to determine the use for Newton Smith. She added the principals for that area desire to see how the populations will be impacted by moving the 6th grade into the building. At a later time, Dr. Robinson added it is possible for different grade configurations to be considered (K-2 and 3-5), but will have to be approved by the RSD. Miss Green asked when will there be a plan for these schools? Mr. Ramsey said the contract states February of 2014.

Mr. Hooks asked if we will lose any MFP money? Mr. Abrams responded we will not because the MFP is based on the number of students in Caddo. Mr. Ford stated his agreement.

Mrs. Crawford asked if when providing the providers will they provide any type of social services for these schools? Mr. Abrams said that will be something for the summit meeting next Tuesday. Mr. Ford responded that the providers identified do not provide those type of services; however, they do provide direction and support to the District on how to provide these services and how to address the specific needs. Mrs. Crawford asked about the open enrollment for Fair Park, Woodlawn with the Career Center and she asked if there are no district lines there. Mr. Abrams responded that they maintain District lines; however, they are also allowed to accept other students from across the parish. Mrs. Crawford asked if students will come out of these schools with college credits? Dr. Robinson affirmed that we will not take anything away from any of the schools. Mrs. Crawford stated that one of the things about Teach for America that she questions is what makes them better than the certified, qualified teachers that Caddo already has in place. Mr. Ford stated that it is recommended in the contract that there are alternative, and stated that they do not have to come from Teach for America, but there needs to be additional persons in a pool to select from. Mr. Abrams added that we did not negotiate that language, but it was included in the beginning and did not require that we use alternative certification. Mrs. Crawford stated that if teachers do not have an education degree or they are not teaching in a core subject, what makes them better in any school teaching subjects such as English? Mr. Ford stated he does not believe there’s a need to enter into a philosophical debate about which is the better teacher. Mrs. Crawford stated that she is not attempting to enter into a philosophical debate, but only to find one quality that the State is looking for in these teachers so that Caddo can look for that quality also. Mr. Ford again stated that he believes these questions are for the Superintendent or Human Resources, and not something that the State is interested in telling the District how they should do it.

Mrs. Armstrong asked Dr. Robinson about the proposal to model the career paths at Woodlawn and Fair Park after Caddo Career and asked if the students coming to these schools from across the parish to enroll in these career paths will be transported back to their home schools? Dr. Robinson stated the model proposed would mean the students would be on the Woodlawn and Fair Park campuses all day. Mrs. Armstrong asked if this plan is approved will Caddo assume ownership and maintenance of the Linear property? Mr. Abrams said we already own it. Mrs.
Armstrong asked about the ability to use Linear for anything but for a school, and Mr. Abrams said that is the way he understands it. Mrs. Armstrong asked if, prior to the two years being up, the Board proposes revamping this school, will the RSD consider the District moving back into this facility and making it an active facility? Mr. Ford said absolutely and they encourage the District to place a school there in 2014-15. Mr. Abrams interjected that the reason why is because when this happens, the school will still be under the RSD and the proposal as submitted asks us to restructure with a Third Party and see how well Caddo does. If Caddo does not do very well, there is a chance we will not get the school back. Mr. Ford explained that it would fall under the category as all the other options. Mrs. Armstrong stated her concern that a facility would sit vacant for two years, and because we repurposed Bethune for Oak Park in less than a year, she believes we should do the same thing at Linear. Mr. Abrams said they cannot do that until the five years is up. Mrs. Armstrong stated she differs with him because the State changes the rules every time the wind blows, and she believes they could change this one time to help our school district. Mr. Abrams again stated the difference is it would set precedence in the State of returning a school back to a District in less than the five years, so they will not do it. She also noted when New Orleans met their benchmarks and did everything they needed to do, the State did not return those schools to Orleans Parish. Mr. Ford said the laws did change and the schools did have the ability to select to return to Orleans Parish and none have selected to do so.

Ms. Trammel asked if the law changed and the school asked to be returned to their District, what happens if none select to return to their home District? Mr. Abrams explained that the law did change and a new law in the last Legislative Session allows parents to vote to return to the District at any time, as long as there is not a charter provider already providing services. Ms. Trammel stated that she only wants to make sure she understands that this proposal is still a draft and we still have the opportunity to come up with a plan that works even if we make a facility a premier school and present it to the State Department. She asked if the final plan will be one the Board approves; and Dr. Robinson said it can be one, but the idea is that the District presents a collaborative plan, which is an agreement between Caddo and the RSD.

Mr. Riall asked Mr. Ford if Linear Leadership Academy was a charter school when it was originally taken by the State, and then the charter school did not work and the RSD took it back over? He also asked whose decision was it to close Linear Leadership Academy. Mr. Ford said it was a collective decision. Mr. Riall asked Mr. Ford how long has Linear been under the RSD, and Mr. Ford responded two years. Mr. Riall asked Mr. Ford how much has Linear improved in those two years, and Mr. Ford responded not very much. Mr. Riall stated it is true that these schools have not improved as was expected; and while we know that every educator wants students to learn, he believes it is obvious that there is a same failure as was seen in Caddo. Mr. Ford agreed that possibly the decisions made for these students over the past two years may not have been the best decisions for that particular population of students.

Mrs. Bell asked Mr. Ford who operates Linear at this time, and Mr. Ford advised the Recovery School District. She asked if they are doing so without a Third Party Provider, and he said they run it the same as Caddo runs its District. Mrs. Bell asked if it is correct that Linwood is under a management operation, and Mr. Ford stated Linwood is a charter school and they are operated by a charter management organization (CMO). Mrs. Bell asked if she understands correctly that Linwood and Linear are without management, but if Caddo chooses Option 2, we must have a management organization or service provider. Mr. Abrams said that is correct. Mrs. Bell requested to know each service provider that will be brought for Caddo’s consideration, if they are housed in Louisiana, do they use the curriculum the State requires, the list of schools in Louisiana that they manage or managed, how many Teach for America teachers are in those schools, and will there be a supervisor to oversee these teachers. Mr. Ford again clarified it is a District decision whether or not it uses Teach for America.
Miss Green asked Dr. Robinson if she understands the proposed plan correctly and two schools in her district will be shut down? Dr. Robinson stated she understands Miss Green is looking at the fact that two schools in her district will be shut down; however, Linear is a middle school campus that is definitely needed in that community, and in this plan there is an option to restructure Linear and use it again. She reiterated it will not happen immediately, but Caddo will have the option to reopen and use it. Dr. Robinson also reminded everyone that the RSD did not have to talk to us, but could have just pulled Newton Smith; however, the compromise is we will close it but with intentions of reopening it depending on how the population in that community is impacted by the transfers. Miss Green asked again if she is correct that she is looking at two schools that will be shut down in her district, and Dr. Robinson said that is correct, but not long-term.

Mr. Ramsey encouraged Board members to pen or email additional questions to Dr. Robinson for answers prior to the meeting on the 19th.

CONSENT AGENDA

Mr. Ramsey announced that Items 6.02, 8.01-8.04 are the consent agenda items. Mr. Pierson moved, seconded by Mrs. Crawford, to approve the proposed agenda and consent agenda for the November 19, 2013 CPSB meeting as presented. Vote on the motion carried unanimously.

POLL AUDIENCE

Mr. Paul Davenport, with Try God for He Loves You, shared a proposal for saving Caddo schools and how he believes this plan can help our students by addressing eight points. He provided Board members with copies of his CD highlighting this plan and eight points.

Jackie Lansdale, Red River United, encouraged the Board to focus on what we do right (K-8s, magnets, preK, TAP, professional development), and do more of it, as well as look at some things that have proven to improve academic achievement and bring to the District. She also encouraged the Board to go to the public and see what they want and to look at what Teach for America teachers will cost the District.

Mr. Ramsey again expressed appreciation to the staff for the hard work to get us to this point and he recognized Dr. Goree who was in the meeting.

Adjournment. Mr. Pierson moved, seconded by Mrs. Crawford, to adjourn. Vote on the motion to adjourn carried and the meeting adjourned at approximately 7:55 p.m.
November 21, 2013

The Caddo Parish School Board (CPSB) Audit Committee met on Thursday, November 21, 2013, at 2:30 p.m. in the boardroom of the CPSB offices, 1961 Midway, Shreveport, Louisiana. Those in attendance were Chair Steve Riall, Charlotte Crawley, Ginger Armstrong, Curtis Hooks, Barry Rachal, ex officios Carl Pierson and Larry Ramsey. Also in attendance were Dottie Bell, Jasmine Green, Reginald Abrams, Jeff Howard, Jim Lee, and Allison May. Mr. Hooks led the invocation.

**Accounts Payable Followup.** Jeff Howard shared an update on implementation of recommendations in the Accounts Payable audit. Relative to the issue of employees being overpaid, it was the Committee’s consensus that the Human Resources Department needs to decide how to handle this. Jeff Howard will work with HR to come up with a way to handle incidents of employees being overpaid.

Mr. Howard also reported that regarding recommendations relative to cell phones, these have not been addressed because cell phones have been turned over to the IT Department.

After discussion, Mr. Rachal moved, seconded by Mrs. Armstrong, to recommend to the Board that each recommendation in the Accounts Payable follow up audit be approved and that the Superintendent be asked to give a status report by the end of January, 2014. Vote on the motion carried.

**Purchasing Department Followup.** Mr. Howard shared an update on implementation of recommendations in the Purchasing audit. After discussion, Mr. Rachal stated that a 22-month lag time in addressing the recommendations of the audit is unacceptable and he moved, seconded by Mrs. Armstrong, that this be turned over to the Superintendent to get a direct response regarding the changes made and have a response by January 31, 2014. Vote on the motion carried.

**Future Followups.** Future follow-ups on previous audits will be Transportation, Energy Management, and Maintenance. Also, a follow-up meeting on SunGard will be scheduled following the holidays.

**Future Audits.** Future audits will include Child Nutrition Programs, Construction, Special Education, Academics, Human Resources, and Technology. Mr. Rachal moved, seconded by Mrs. Armstrong, that the next audit be the Human Resources Department.

There being no additional business, Mrs. Armstrong moved, seconded by Mr. Hooks, to adjourn and the meeting adjourned at approximately 3:45 p.m.
November 21, 2013

The Caddo Parish School Board (CPSB) held a special work session in its office at 1961 Midway, Shreveport, Louisiana at 4:00 p.m. on Thursday, November 21, 2013 with President Larry Ramsey presiding and the following school board members present being a quorum: Steve Riall, Jasmine Green, Carl Pierson, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Also present were Interim Secretary Mary Nash Robinson, and Reginald Abrams, legal counsel. Mr. Riall led the prayer and Pledge of Allegiance.

Mr. Ramsey announced that the purpose of today’s meeting is to discuss items for consideration at the December Board meeting, i.e. staffing formula so principals will know how to begin planning for the 14-15 school year, a revision to the Board’s travel budget to add needed funds for the remainder of this year to allow Board attendance at the Louisiana School Boards Association annual meeting and the National School Boards Association Conference. Ms. Priest asked for clarification since the two items mentioned are two different budgets. Mr. Ramsey clarified the Board’s travel will actually be a revision to the 2013-14 budget. Ms. Priest asked if the new superintendent is aware of the presentation being made, and Mr. Ramsey said he is.

Mr. Riall asked if, relative to Board travel, it is possible for Board members to get required hours without attending the State convention? Mr. Abrams responded he believes so, and Mr. Ramsey indicated there are trailblazers held in Shreveport and the ethics training can be done online.

Jim Lee, Chief Financial Officer, stated this is the first meeting on the 2014-15 budget and staff will sharing with the Board preliminary information on what is known at this time relative to items that will affect next year’s budget. He said the District will have the normal increased costs relative to retirement, health care, employee step increases, and additional costs for restructuring the AU schools; and staff is also estimating the areas for reduced spending and increased revenues, i.e. savings from retooling Newton Smith, revenue from the students who were attending Linear and are returning to Caddo, and some increase in property tax revenue.

Mr. Riall asked if, relative to Board travel, it is possible for Board members to get required hours without attending the State convention? Mr. Abrams responded he believes so, and Mr. Ramsey indicated there are trailblazers held in Shreveport and the ethics training can be done online.

Mr. Lee highlighted the projections of approximately $2 million in the retirement expenditure, which is actually lower than in years past because the Teachers’ Retirement System is proposing an increase from 27.2% to 28%. LSE retirement is proposing to increase from 32.7% to 35.4%. Relative to health care cost increase, staff is projecting approximately $6 million, and he reminded them that mandatory enrollment goes into effect in 2014. Mr. Lee stated that staff anticipates at least one new charter school next year; and if it is a Type 1, approximately $5 million will be passed on to them in MFP dollars. If it is a Type 5 Charter, he reported the $5 million reduction in MFP will still apply. Cost for step increases for employees is approximately $2 million per year and the cost for restructuring the AU schools is estimated to be in the neighborhood of $4 million each year for the next two years. At this time, staff is working on grants for some of these expenditures; however, staff must plan at this time for the full amount needed if the grants are not received. In summary, Mr. Lee noted that, at this time, the District is looking at approximately $18 million in additional expenses for next year.

Mr. Lee reported that increased revenue could be approximately $1.3 million for the Linear students returning to Caddo, that closing Newton Smith could mean approximately $100,000 in savings, an estimated increase in property tax revenue is about $3 million, returning to seven-period day at the high schools could mean a savings of approximately $3 million, teacher M&S is approximately $300,000, for a total savings of approximately $8 million, which means there is still work to be done to balance the approximate $18 million in additional expenses. He also reminded the Board that until school starts next year, we will not accurately know how many students from Caddo might attend the new charter(s) and is why the $5 million is only an estimate. Mr. Lee also stated that we currently do not know what the 2014-15 MFP will be
because the State usually does not notify the District until February. He also reported that he did not include the 2.75% increase in MFP.

Mr. Lee presented the following timeline relative to the 2014-15 budget and issues/items needed: (1) Board’s decision relative to high school staffing (if the Board chooses to return to a seven-period day), (2) Board member non-negotiables, i.e. teacher M&S; (3) budget requests from schools; (4) identify additional revenue and reductions; (5) additional budget work sessions; and (6) adoption of 2014-15 budget in the April-June timeframe.

Mr. Rachal asked for the following information relative to the restructuring of the AU schools: how many students we currently serve at each of the AU schools and how the $4 million will be allocated to those schools. He also asked if any assurance has been received relative to the grant dollars we might receive from the State, and Dr. Robinson responded staff has applied for one grant in the amount of $200,000; and we believe, via conversation with the State, that Louisiana Believes has monies available, and we will be seriously considered. Mr. Lee added he doesn’t believe these grants will be approved before March. Mr. Rachal asked if the State is working as an advocate for us to receive these grant funds, and Dr. Robinson said yes, per conversation with them. Mr. Rachal said he would like to have this in writing. Dr. Robinson added approximately 6,000 students attend the AU schools (which is 12% of the current Caddo student population).

Mrs. Armstrong asked about returning to the seven-period day and the steps that need to be taken to make this change across the district? Mr. Lowder explained that the current staffing formula is based on the AB Block Schedule, and the formula for the seven-period day would change so that the student teacher ratio would be 24:1. Mrs. Armstrong stated that Southwood has not been on a different calendar for a number of years and asked if this is for all high schools or will Southwood return to the original block schedule? Mr. Lowder responded that is a Board decision; however, at this time, staff is looking at all high schools going to a seven-period day.

Mr. Riall asked about the $4 million for restructuring the AU schools and if it includes the cost of the service providers, and Mr. Lee responded that is what the cost is for. Mr. Riall asked if we know at this time which ones we will use? Mr. Lee said it is only an estimated guess. Mr. Riall asked if a staffing formula change is anticipated across the board for all grades? Mr. Lee said that is a Board decision; and at this time, he has only factored in the high schools.

Miss Green asked about the General Fund Page 2 and its apparent dedication to District 2, as she sees Linear and Newton Smith and the proposed savings of $100,000. Mr. Lee agreed and that is because of savings in maintenance costs, etc. Miss Green asked about his comment “some employees”, and Mr. Lee responded he is referencing employee savings as a result of retirement or placement in a position vacated because of someone retiring.

Ms. Trammel asked if there is any way we can control the proposed increases in retirement. Mr. Lee said we cannot and the large factor is the unfunded liability, similar to the District’s OPEB retirement account. Ms. Trammel also asked about the 7th and 8th grade students that will be moving from the high schools and where they will be moved? Mr. Lee said they will be moving to existing middle school configurations, and Dr. Robinson explained that the proposed plans indicate making Lakeshore a 7th and 8th grade center for Fair Park and that the 7th and 8th graders at Woodlawn Leadership Academy will move to the Caddo Middle Career & Technology Center, all which is initial discussions.

Mr. Hooks asked when will the Board know who the service providers will be? Dr. Robinson responded that transition team meetings are scheduled immediately upon Dr. Goree’s arrival in the District; the State has recommended two or three options, Caddo has the opportunity to look at the services provided and what service providers Caddo will use. Relative to 7th and 8th graders, Mr. Hooks asked if the students must have a C average and a good behavior record to
attend Caddo Middle Career & Technology Center? If the 7th and 8th graders do not have these qualifications, where will they attend school? Dr. Robinson responded they will attend the other middle schools in the area. Regarding Lakeshore, Mr. Hooks asked if Lakeshore will be a K-8, and Dr. Robinson responded that is not correct, but the plan would be to convert Lakeshore to a 7th and 8th grade center (moving the current student population to J S Clark and some to Queensborough). With Mr. Hooks questioning if there is available space at J S Clark for these students, Steve White explained that the building capacity is approximately 1,200 and the current population is less than 600 at this time. Mr. Hooks asked if AU students will be placed with other AU students? Dr. Robinson shared specifics of the Lakeshore move and Lakeshore is an AU3 school, and if these students are moved to J S Clark, an academically performing program, there will be an academic challenge to the administrative team at Clark, but it will be important to put the supports in place to allow these issues to be addressed.

Mr. Abrams stated the Board voted at its last meeting to approve a plan and an RFP for service providers was a part of the plan. This process will afford the opportunity for service providers to come in and be evaluated by staff who will make a recommendation to the Board and the Board will make the final decision (in January). Mr. Abrams added it is his understanding that Lakeshore will not change under the plan but will remain an elementary school.

Mrs. Bell asked Mr. Lee if we will save money if the 8th graders at Fair Park were moved to the 9th grade and the 5th graders stayed at their current school and moved up to 6th grade. If so, she sees that the only students needing addressed are the 7th graders, as well as the 7th graders at Woodlawn. Mrs. Bell asked if it is possible to open a school for the 7th graders and still save money. Mr. Lee stated there will still be 7th and 8th graders to address. Mrs. Bell stated that she talked with Patrick Dobard prior to the meeting and asked if the District will receive any financial help, and Mr. Dobard told her that the two management teams must negotiate and someone can write a grant. She also asked staff to provide her with a list of non-negotiables other than personnel and people, i.e. energy (cut off the lights). Mrs. Bell also commented on the possibility of another charter school in Caddo and will staff look at the charter applications, and Mr. Lee responded staff has looked at the charter applications. Mrs. Bell asked when will these come to the Board for consideration. Dr. Robinson responded there are six applicants currently in the review process and Board members will have the opportunity to meet each one individually prior to the Board’s consideration on the December agenda. She explained the review is now in the hands of the third-party reviewer, Kim Williams, and those persons will be informed as to any additional information being required before coming to the Board. Mrs. Bell noted it has been reported that no one (charter) met their numbers and asked Mr. Lee if a lot of students in the charter schools are returning to the district, because she would like to know how much money the District will receive back. Mr. Lee responded that the District does not control the money for Linwood and Linear and the State sends the money directly to them, and we will not get the money back until the numbers are adjusted mid-year and/or the following year. Mrs. Bell asked staff to provide her with information on how many students will come back and how much money the District will receive. Mr. Lee said it began with approximately 610 students and the last count was down to 540.

Regarding the Homeless students, Mr. Lee said the District has a Federal grant. Mrs. Bell asked what does this money do for the homeless, and Mr. Lee responded that he will get with Mrs. Parker and Ms. Walker to get an answer to this request.

Ms. Priest asked what needs to happen so the District does not get the “cart before the horse,” i.e. look at the attendance zones, because she believes each one will impact the other. Ms. Priest also asked that the Board receive by department, with the exception of school based, positions that we currently fund, along with a description of what those positions do and how they impact the District. Regarding healthcare and the 1,900 employees that are currently not receiving services from Caddo’s insurance plan, she said we would not want to offer these the best option.
Mr. Lee responded that since the Board has already approved the insurance renewals, it will be the following year before anything new can be considered. Regarding non-negotiables for her, Ms. Priest stated for her it is support in the classroom.

Mr. Pierson stated that last year when developing a budget, the Board did so by developing a budget bigger than what we intended to spend, and asked when will the District know the savings from last year’s budget? Mr. Lee said it will be after the Holidays because we are not complete with November which is only five months into this year; however, he knows it is getting tighter each year. Mr. Pierson stated he knows we need to be careful how we allocate students and not just move them from one place to another so as District lines are built and decisions made as to what is done with groups of students, we know we don’t want to send students from Queensborough to J S Clark unless they were zoned into BTW, and we only want to do what offers each child the best education possible wherever they are.

Mr. Rachal, referencing the new charter, asked Mr. Lee how many students will there be, which facility, and what will the grade alignment be for the school. Dr. Robinson stated it will possibly be an elementary school with a population of 400-600 students. Mr. Rachal asked if staff is using a $10,000 amount, and Mr. Lee responded they (Magnolia) receives approximately $9,700 per student. Mr. Rachal asked if the proposed charters are looking at any specific facility and Mr. Lee responded that he understands none wanted to use any of Caddo’s facilities. Relative to the 1.75 increase of the total budget will go to healthcare and retirement, he asked what is it currently costing the District in the budget. Mr. Lee stated he did not know the exact number but will get it. Mr. Rachal asked about the high school staffing and the need to make a determination in December and Mr. Ramsey confirmed that is correct. Mr. Rachal asked if the staff and Superintendent’s recommendation is to go to a seven–period day? Dr. Robinson referenced conversations with Dr. Goree on the proposed plan, including seven-period day with a planning period; and at that conversation Dr. Goree was in agreement with staff. Mr. Rachal stated that while the budget is a good budget, increased costs have not allowed the District to keep the AB Block schedule. Mr. Rachal also asked for an updated budget report indicating exactly where we are in the budget year, and Mr. Lee explained this should be available prior to the meeting on December 17th.

Mr. Riall asked if the new charters asked about using an existing facility or building a new school? Dr. Robinson responded they have not made any commitment to staff relative to a facility where they will be housed. Mr. Riall referenced the agreement with the RSD and asked if some of the reconfigured AU schools will have open enrollment and if so, what will be the impact on transportation? Mr. Riall asked how much money is available or does the District get through grants? Mr. Lee said between $60 and $70 million.

Mrs. Bell asked how much MFP money Caddo receives. Mr. Lee said the base amount is $3855, and with a little extra for special education students, the average is about $5000 per student. She also asked how much MFP money Magnolia charter receives. Mr. Lee said approximately $9700 dollars. Mr. Abrams clarified that Magnolia is a Caddo Parish School System charter school. Mrs. Bell stated she does not understand why the amounts are different? Mr. Lee responded they receive more money because they not only receive the average MFP dollars, but the State allocates an amount per student for the local property and sales tax dollars.

Ms. Trammel asked Dr. Robinson why the 6th graders can’t be left at the current elementary schools in which they are enrolled and then move to a 7th grade center. Dr. Robinson responded that is another option, and with nothing concrete at this time, it will be necessary for staff to determine all the specifics. Ms. Trammel asked if we can request additional money from the State Department since they generally take money from the District. Mr. Abrams explained that the Recovery School District is a district just like Caddo and is under the State Department. He further stated that discussions included questions about available money for funding this
agreement and the response was money would be allocated and Caddo could receive money if they applied for grants. However, the State Department considers this initiative as those things that need to be done for Caddo, and are not a part of the agreement. Ms. Trammel asked if the District has applied for these grants, and Mr. Abrams responded that when the District does RFPs for the service providers, what will be done with the money is a part of the grant. Ms. Trammel asked who is the grant writer, and Dr. Robinson stated that for the grant Caddo has applied, Kathy Gallant is the author, and this grant was written to fund administrative leadership training to begin in January.

Mr. Rachal stated that the MFP from the State follows the student, and the State has also said the local revenue funds follow the student; and because the State cannot take local revenue, they reduce what is sent to the District. Mr. Rachal also asked who regulates the amount of funds being placed in retirement. Mr. Lee responded that each retirement system has a board. Mr. Rachal asked who gives these retirement boards the authority to continue to raise the percentage district pay. Mr. Lee stated the State Constitution allows it. Mr. Rachal asked if he understands correctly that the State Legislators could let these boards know that what they are doing is crippling the education districts? Mr. Lee said that could possibly be the case, but at the same time, there is a fine line since districts must have sufficient funds to cover employees when they retire, and these increases assure there is ample funds to cover all a district’s retirees for life, and rather than it being passed on to the employees, additional costs are passed on to the employer.

Mr. Abrams added there is litigation associated with the retirement system and who should have been paying the funds, and we are a participant in that litigation. He further explained the way the legislation was originally written, the State was to pay that portion, but they have not and put it on the districts. The bad side is the money isn’t there, and we do not want to end up like California, as an example, where people have retired and they can’t get paid anything since the systems are broke. According to Mr. Hammonds, who is representing the Louisiana districts, they ruled against the districts and are now saying that a part of the MFP funding districts receive also includes a portion for retirement, and this time there is an appeal to this.

Mrs. Armstrong stated that one of her concerns is money for equipment in classrooms, i.e. computers, and asked who monitors schools and how their equipment is being used or if the equipment is being used; because she understands some equipment has not been taken out of the box, which is a waste of funds. She feels if one school is not using the equipment, it should be placed at a school that needs the equipment. Dr. Robinson responded that the monitoring begins with the principals, school directors and the Information Technology Department. She also added if there is equipment still in boxes, this is an accountability issue that needs to be addressed with the principal.

Ms. Priest stated that another method of cost saving is cross training, which is something she has brought forth for a number of years. She said cross training across the district, from Central Office personnel to school-based personnel, is a good potential for saving funds, i.e. substitutes where a large of amount is spent. She again stated this is something that needs to be implemented and it needs to be implemented in this budget process.

Mr. Ramsey reiterated the need to look at the high school staffing in December so, for the first time since he has been on the board, principals will know the staffing method and can begin working on their master schedules for the 14-15 school year. He stated he will add an item to the December agenda to address the Board travel issue and asked Mr. Lee to provide the necessary backup information for the Board’s consideration. Also, he announced the RSD advised Mr. Abrams it is not necessary to make a presentation to BESE on December 3rd, so he is moving the Executive Committee Work Session back to December 3rd. There will also be additional information on the budget available at the work session and additional work sessions scheduled.
There being no additional questions/comments, the budget session adjourned at approximately 5:25 p.m.
December 3, 2013

The Caddo Parish School Board (CPSB) Executive Committee met in regular session on Tuesday, December 3, 2013, at 4:30 p.m. in the boardroom, 1961 Midway, Shreveport, Louisiana with President Ramsey presiding and Carl Pierson present constituting a quorum. Bonita Crawford was out of town. Additional Board members in attendance were Steve Riall, Jasmine Green, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Barry Rachal, Ginger Armstrong and Dottie Bell. Dr. Lamar Goree, superintendent, and Reginald W. Abrams, legal counsel, were also in attendance. Carl Pierson led the invocation and Pledge of Allegiance.

PRESENTATIONS

Dr. Goree announced today’s presentation scheduled will be rescheduled for January 7, 2014.

President Ramsey recognized and thanked Dr. Mary Nash Robinson for her service as interim superintendent and Dr. Robinson expressed her appreciation for the opportunity to serve the District in this capacity and acknowledged the Caddo team for their hard work and assistance during this interim time.

ESTABLISH THE AGENDA FOR THE DECEMBER 17, 2013 CPSB MEETING

Superintendent Goree highlighted items for the Board’s consideration at the December 17, 2013 CPSB meeting and the following discussion ensued.

VISA Sponsorships/CODIFIL Teachers. Mr. Rachal asked if the expenditure will be approximately $60,000 to cover the visas. Dr. Robinson responded that at this time staff does not have a tally of the total cost to host Visa extensions for the Codifil teachers, but she shared a list of teachers that have visas and those who do not. Mr. Rachal asked if some are actually sponsored through the Louisiana Department of Education, and Dr. Robinson explained that all of them are directed to Caddo through the Louisiana Department of Education based on the District’s needs for foreign language teachers. Mr. Rachal asked if he understands correctly that they are directed to us via the State Department; however, the District must pay the costs involved. Dr. Robinson said that is correct because these teachers work for Caddo, they establish relationships and teach and address student needs, and principals are recommending they stay and continue what they are doing. Mr. Abrams asked if the legal fee is approximately $3,000 per teacher, plus associated fees of approximately $500, and Dr. Robinson responded that is correct and staff looks at each individual teacher to determine what they need in the process. Mr. Rachal asked if he understands correctly that at this time it is unsure exactly what is needed relative to the 15 teachers listed. Dr. Robinson responded that is correct and further explained that Caddo has approved and paid for those on the list with an asterisk beside their name, thus it will be for the seven without an asterisk beside their name.

Mr. Abrams stated that the ones with the asterisk have begun the green card process; however, this does not mean that every expense associated with these is complete and there could possibly be a portion of legal fees that need collecting. Mr. Rachal asked if what remains could not be done inhouse? Mr. Abrams explained that is the cost of the lawyer doing what needs done, and this is actually a lot less than the cost for the Filipino teachers. Mr. Abrams also explained that the J1 Visa process is different than the H1B Visas, and these are not in the District necessarily because of a shortage (as was the case with the Filipino teachers), and they are asking Caddo to sponsor them so they can become permanent residents.

Proposed Revision to CPSB Policy GCA (Staffing). Dr. Goree clarified that this will be planning for staffing in the Fall of 2014; and 8.03 addresses making the change mid-term of this
school year. Mr. Ramsey further clarified that this item is proposed revision to Policy GCA (Staffing) for the 2014-15 school year.

Mrs. Crawley asked if this means we will actually lower the pupil teacher ratio in a lot of these areas? Dr. Goree explained there was a staggered scale based on the size of the school and we will look to lowering that to a standard 1:24 ratio. Mrs. Crawley further asked about grades K-3 and will we try to lower this also. Mr. Lowder explained that the policy revisions only address grades 9-12. Mrs. Crawley asked why is staff using these numbers, and Mr. Lowder stated the ratio listed is the currently used ratio and the only thing being deleted is block scheduling. Dr. Goree explained this is an average and not a cap. Mrs. Crawley stated there once was a cap for K1 at 22 and it was removed last year. Mr. Lowder further added that staff brings this at this time for the Board’s approval so high schools can begin working on their staffing for the next school year.

Mr. Rachal asked Dr. Goree about staffing, required instructional minutes, and the possibility of extending the day. Dr. Goree reported that today staff looked at the start and end times of the schools; and anytime consideration is given to changing a schedule (AB to 7-period day), you reduce the amount of time a student is in a classroom, so staff is looking at how to best optimize the time, working with Transportation and other affected departments.

Ms. Priest shared her confusion because it appears that staffing decisions are being made prior to Board action to eliminate the AB Block and implement the 7-period day, which was only discussed at the recent budget work session. Dr. Goree responded the assumption was, based on the proposed staffing model, that a decision has been made; and this staffing ratio, if the proposed revision to GCA is approved, would do away with the AB Block and implement the 7-period day. While she said she understands, she asked is this not premature? Mr. Ramsey explained that when the budget session was held, it was clear that in moving forward there are issues that need addressed; and the Board asked staff to share with the Board areas that could be cut, and one of the items was going to a 7-period day in the high schools, which requires a staffing formula change. Ms. Priest said that was only an initial work session to look at options and she believes the Board is now taking action on something that has not been approved by the Board. Mr. Ramsey further explained that at that budget work session, he stated if that is an option the Board wishes to implement, it needed to be on the December 17th agenda so principals will know how they will be staffing their schools next school year. If needed, he will be glad to call additional budget sessions prior to December 17th. Dr. Goree asked if he understands that Ms. Priest is looking for an agenda item that addresses going from the AB Block schedule to a 7-period day followed by the proposed revisions in Policy GCA, and Ms. Priest responded that is correct. Dr. Goree announced that both of these can be combined into one agenda item.

Mr. Ramsey announced the item will be changed to read “proposed revision to CPSB Policy GCA and approval of 7-period day.”

Mrs. Armstrong asked if anything was changed as to elementary and K8 enrichment areas, because this change a number of years ago was to leave enrichment teachers out of the staffing formula so every school has art, music and P.E. (despite the size of the school), and she does not note this on the policy. Dr. Robinson responded that is correct and is how schools are being staffed.

Mr. Rachal asked Jim Lee how much this change will impact the budget, and Mr. Lee responded it will save the District approximately $3 million. Mr. Rachal asked for verification that it was reported in the budget session that even with this saving of $3 million, the District will still need to find $6 to $7 million in cuts in other ways. Mr. Lee affirmed this statement and added he believes the Board is wise to address this early and be able to move forward.
Mrs. Crawley asked if we anticipate laying off any teachers or will it be taken care of through attrition in order to see a savings of $3 million? Dr. Goree responded there is no anticipation of laying off teachers at this time, and staff is looking to absorb this through attrition and balancing the programs across the District and staffing ratio. Mrs. Crawley asked how many teachers represent the $3 million, and Mr. Lee responded it represents approximately 45 positions.

Mrs. Armstrong asked if a change in the staffing policy will be made prior to Board action, and Dr. Goree responded there will be a change made.

**Implementation of Seven Period Day Beginning Second Semester of 2013-14 School Year.**

Mr. Hooks stated that having served as a teacher, a planning period is welcomed; and he believes if we can save money, a decision needs to be made to implement the seven period day at mid-term, and asked staff to explain how much savings the District would see if doing so. Dr. Goree clarified that if implementing at mid-term, this will lessen the attrition issue since not as many teachers leave/retire at mid-term as do at the end of the school year. Mr. Lee echoed Dr. Goree’s comments and if implementing a mid term, the savings would be approximately $1.5 million. Mr. Hooks also asked about Mrs. Crawley’s request on how many substitutes and non-certified teachers does Caddo have in the classroom? Mr. Lee said you will also not see as much savings because when you put a certified teacher in a position previously occupied by a sub, you are only saving the sub’s pay. Mr. Hooks stated he knows for a fact that policies and rules are being violated when teachers at some schools are not receiving the 225 minutes of planning provided for in the policy, and asked why we continue to do the same thing over and over when it could be stopped in January? Dr. Goree stated his understanding that while this may not be a perfect situation, we are within the confines of the law in providing planning time for our teachers; and he encouraged Board members to make him aware of any school that may not be following the law for planning time. He also stated when making a schedule change, there are implications that will come along with those changes; and one of the biggest concerns will be the opportunity students had to take eight classes on an AB Block schedule; but changing the schedule to a seven-period day reduces the opportunities to seven classes. Mr. Hooks stated there are many students not benefiting from the AB Block. Dr. Goree further stated that if you change the schedule mid-term, students would lose ½ a credit which will affect some students graduating, as well as destroy programs. Mr. Hooks stated students will not lose any credits, and Dr. Goree said he agrees that there is no loss of credit, but while the seat time is the same, they are still only gaining 7 credits versus 8 credits. Dr. Goree further stated that to change the schedule now will lead to major changes in rescheduling all high school students within a month timeframe. Knowing that anything the Board does will affect someone, Mr. Hooks said he only wants to make sure no one is being riffed. Dr. Goree stated his understanding; however, he wished to clarify that the savings will not be near the $1.5 million.

Mr. Hooks asked staff about the difference in amounts for the Block schedule ($4 million and $5 million). Dr. Goree stated that even in stating a savings of approximately $3 million, this would happen in a perfect situation. Mr. Lee responded that the current modified block this school year cost the district approximately $3 million more than a seven-period day. Last year when the District was on the full Block schedule, it cost the District an additional $7 million over a seven-period day. Dr. Goree stated that staff acknowledges the modified Block is what’s causing problems with the planning time, and staff is working to make the change at a very strategic time and minimize the effect on the community, and staff believes that time is next school year.

Staff was asked to provide a report to the Board on how many high school students will not be able to graduate if the schedule is changed mid-term?

Mr. Riall shared his reservations about this, because the Board has talked about money and teachers, but not about the kids and how they will be affected by making this change mid year. He asked what guarantee is there for budget savings by making the change mid-term? Dr. Goree
said there is no guaranteed savings; and in the best case scenario, if there were 45 teachers that chose to retire this month, we would save approximately $1.5 million of the $3 million anticipated if implemented next school year. Mr. Riall asked why are we in such a hurry if there is not guaranteed budget savings? Dr. Goree responded that staff is addressing the agenda item as it is written and this is not staff’s recommendation.

Ms. Trammel also stated her concern for the seniors if the change is made mid-year and noted last summer’s discussions about the AB block versus the seven-period day and the planning times for teachers; which she believes if the Board moves forward with approving the seven-period day, it will allow staff the time to work out the schedules versus trying to implement it at mid-term. Dr. Goree added that staff also discussed today in staff meeting how we can be more consistent, because part of the problem came when implementing the modified schedule and some schools had the freedom to be creative and find ways to provide more planning opportunities.

Miss Green concurred with Dr. Goree’s statement that some schools had the freedom to be creative with planning times and others did not, which is something she challenged the staff to address. She asked if the 7-12 schools were considered in the seven-period day? Dr. Goree explained that even in the change, it will be possible in all the high schools to operate on two different schedules because they currently are operating on two different schedules. He also agreed and stated that staff is planning on some “non-negotiables” and that would be teachers must have a certain amount of planning time, and he is not aware of any situations prior to his arrival where principals were not allowed to make some modifications and changes. Miss Green stated maybe this is something that can be put into place for all schools and make principals responsible that all teachers have planning periods.

Mrs. Bell asked how do we know that 45 high school teachers will retire? Dr. Goree responded we do not know that 45 high school teachers will retire, so the savings would be minimal. Noting that the AB Block offers students eight classes and the seven-period day offers seven classes, Mrs. Bell asked if we will be cheating students out of classes they are already scheduled in for the second semester; and Dr. Goree responded that is true, because meetings were held with parents and classes were selected based on their children having the opportunity to earn eight classes in the Fall and eight in the Spring, so any change will affect them. Mrs. Bell asked if we change at mid-term, what will happen to the remaining .5 credit? Dr. Goree explained it would become a “dangling” credit, because every student would be giving up one class and would lose the second half of that class. Mrs. Bell stated her support of the change for the next school year, but not mid-term. She also asked if it is correct we have more teachers in the AB Block than we would have in the seven-period day, and what will we do with the excess teachers if they do not retire and they are not certified in subject areas needed? Dr. Goree responded it is a puzzle and sometimes it does not work out the first year; but usually by the second year, you catch up through attrition numbers. Dr. Robinson concurred with Dr. Goree’s response and it is not an exact science and staff does what it can to absorb and reassign persons; but those you can’t, and they are under a contract, will be overages on the campuses and will be paid for their services. Mrs. Bell asked if that is the case and if the Board approved converting to the seven-period day at mid-term, does this mean the 45 teachers will not go home, but they will remain and will be paid, and if so, what money will the District be saving? Mr. Lee said that is correct and the only savings would be minimal if they do not retire and you are able to place them in a class that is possibly being manned by a substitute. Mrs. Bell encouraged the Board to ask if we want to cheat the students out of their credits or lose some employees rather than wait one more semester before implementing the seven-period day.

Mrs. Crawley asked if the change is implemented mid-term, will those students who do not graduate be those who repeatedly failed various classes because under the current schedule, students should have more credits than are needed to graduate. Dr. Goree stated that in a perfect
world, many of the students will be ahead; however, in an urban school district, there are some challenges and there are probably more in credit trouble than we realize. He further stated that his concern is that staff has communicated to the parents of these students the opportunities available to them outside the school day, i.e. virtual classes, that they could take advantage of. Mrs. Crawley asked about other options proposed by staff, because she is aware of grievances filed at the start of school because of problems principals at Huntington, Captain Shreve, Woodlawn and Northwood were having scheduling the required planning times. Dr. Goree stated he believes the charge to staff was to stay within the legal limits of the law relative in providing planning time; and when the decision was made to go to the modified block, it meant teachers would lose planning time and it was o.k. as long as the schools met the minimal requirement. Mrs. Crawley stated she doesn’t believe that was the nature of the grievances, but the grievance was that we are not providing the 225 minutes in policy. Because a Board member is submitting a drastic proposal, Mrs. Crawley said she would like to see a lesser proposal that guarantees each teacher will have the minimum, legal planning time, and she asked Dr. Goree if he will follow up and confirm that Board policy is being followed. Dr. Goree responded that beginning tomorrow staff will begin assuring that all high schools are meeting the requirements as set forth by the law and encouraged anyone on the Board that might be aware of any school not doing so to contact him so he can follow up. He added that staff will also provide the Board a list of possible options for addressing this issue in the Spring and hopefully minimize some of the concerns. Mrs. Crawley added that in discussion of what is best for students, she believes students do better when they have a well-planned teacher.

Mr. Rachal said he believes Mr. Hooks’ item is about planning time and asked Mr. Hooks if he is willing to place an item on the Superintendent’s Report that specifically addresses the planning period, which means it is on the agenda and can be moved to an action item if needed. This will offer the Superintendent and staff the opportunity to address the issue where it is happening and bring options to resolve it to the Board. Mr. Hooks said he will consult with the Board attorney and asked how many high schools benefitted from the AB Block schedule last year and how many schools’ performance scores improved. Mr. Hooks also asked if the teachers still be charged 15 minutes before school and 15 minutes after school to make up their planning time? Dr. Goree responded he does not know; however, he will look into it, and if staff has addressed it and the schools are still within the confines of the law, yes it will continue. Mr. Abrams explained that when the motion to implement the current policy was passed, this was discussed, and the State Statute requires 225 minutes if the money is appropriated; and at this time the State’s position is that the money has not been appropriated. He said he does not know of any other district that has decided if they want to do this or not. Mr. Abrams further explained that the Board created by policy 225 minutes per week, and it did not have to do this, but did and requested the schools to do it, but this is not based on State Statute. Mr. Hooks said he does not want it said that what he is doing is not about students, because everything he is asking is about students since it is the teachers that must teach the students. Mr. Hooks asked how many students should a high school science teacher have in a classroom? Dr. Goree referred to staff and staff responded that the maximum number is 33 students. Mr. Hooks noted a class that has 40 students plus. Dr. Goree asked Mr. Hooks to let him know of these situations so he can make sure policy is being followed. Mr. Hooks asked Dr. Goree if he believes teachers are well prepared for their students when they do not have a planning time? Dr. Goree responded that all teachers have planning time, and while it may not be as much time as teachers would like to have in the current schedule, staff is committed to addressing this and addressing it strategically; and noted the number of teachers that are doing a phenomenal job with limited planning time.

Ms. Priest shared her concern about making this change in the middle of the school year, because the key is the impact it will have on students. She also stated her concern that the recommendation to implement mid-term did not come from staff and should because it is the Superintendent the Board holds accountable for the Academics in the District and that students are achieving. She stated her support of making a change for the 2014-15 school year which will
allow staff time to prepare and have a fully developed implementation plan. Dr. Goree stated that in changing the bell schedule, there is a big difference in a teacher going from teaching a subject matter over 90 minutes to teaching it over 50 to 55 minutes, thus the importance of a professional development component. He further stated that there is no way staff can reschedule the students and provide teachers with the amount of professional development for them to be successful.

Ms. Trammel shared that as a 5th grade student at 81st Elementary she remembers a creed the teacher kept on her desk that she lived by and it was a teacher will never make a lot of money, but a teacher will teach regardless of the situation, pay, if that is their chosen profession. Ms. Trammel stated she is on the side of the teacher; and while it would be great if everyone could get 45 minutes per day for planning, a lunch break, and good students, this is not going to happen. She asked if the Board could come to a common agreement to work this out with the author of the motion, and she believes by May everyone would be happy and it will be the children that will be first and foremost. Mr. Ramsey reminded the Board that when the Board meets on Dec. 17th, this item has been thoroughly discussed and there will be no need to discuss it further. Mr. Rachal yielded his time to Mr. Hooks, who has been on the Board two times. Mr. Hooks stated that he believes his fight with this dog will lose, so he agreed to place it in the Superintendent’s Report for the Superintendent to address the planning times in high schools and the implementation of Board policies that require 225 minutes per week for planning time.

**Sale of Hamilton Terrace.** Mr. Riall asked if this bid is at 85% of the appraised value, which is $1,122,000, and staff responded that is correct. Mrs. Bell asked staff to verify what will be done with the money from the sale of Hamilton Terrace, and staff responded the money will go in the capital projects fund.

Mr. Hooks reminded the Board that a copy of the Ombudsman student report cards was forwarded to the them, and he brings this up because he does not believe we need to sell Hamilton Terrace because the District may need it for meeting the alternative students’ needs. Mr. Ramsey reminded Mr. Hooks that the sale of Hamilton Terrace has been approved and the agenda item is staff’s recommendation to rebid the sale at 85% of the appraised value.

Mrs. Crawley asked the superintendent if a letter was received from the Highland Restoration Association requesting a packet of information and has staff responded. Mr. Woolfolk explained that staff did respond to that letter explaining to them how to access the bid for the facility because we no longer send out the packets.

Mrs. Trammel stated that having worked in the system for many years, if we pulled the report cards from Hamilton Terrace, the grades would be similar to those of the children that attended, so this is not a true comparison.

**Audit Committee Recommendations.** Mr. Riall stated that the Audit Committee met numerous times and at the last meeting voted to recommend to the Board approval to implement the recommendations of the Accounts Payable and Purchasing follow-ups, and to amend the order of departmental audits previously set by the Board to require that the Human Resources Department is the next department to be audited.

**Revision to Board Travel Budget.** Mr. Lee shared with the Board that as directed by the Board President during the recent budget work session, the Board only has approximately $1,800 remaining in its travel account with Board members still wanting to attend the Louisiana School Boards Association Annual Meeting and the National School Boards Association Annual Conference. As a result of staff looking at these expenditures, it is recommended that $15,000 be added to the Board’s travel budget.
Mr. Rachal asked if he could receive a detailed cost of how much was spent and for what from this year’s budget. He would also decline from attending the LSBA annual conference if the local Board can determine how he can earn the required hours without having to travel to the annual conference; can the Board’s attorney provide this. Mr. Abrams explained that the LSBA already conducts Trailblazers throughout the year, and the school system can set up its own training session by submitting to LSBA for approval an agenda for such a session. Mr. Rachal stated that he does not need to attend the annual convention if it is possible for him to get his required hours locally. Mr. Ramsey stated he could not guarantee that, but it is something that could be looked into.

Miss Green said she believes the advantage of attending the LSBA Convention is Board members can attain all their required hours at one time and not have to travel to numerous conferences to get all the required hours. She asked Mr. Ramsey if Caddo paid for Board members to travel to New Orleans to look at five charters, and Mr. Ramsey said it did come out of Board travel. Miss Green asked how many Board members traveled to New Orleans and Mr. Ramsey responded four. Miss Green asked how many of the four Board members who traveled are affected by the charters, and Mr. Ramsey said they all are affected. Miss Green restated her question and Mr. Ramsey stated every Board member has a responsibility for every school in the parish. Miss Green again asked how many Board members’ districts, of those that traveled to New Orleans, were affected? Again, Mr. Ramsey said all of them, directly or indirectly; and the point is if the Board travels any in the first part of 2014, the Board’s travel budget must be addressed, and that is the agenda item. Miss Green stated that she brings up because only one of the Board members who traveled to New Orleans had a district that was affected, and she believes this is money that could have been saved. Mr. Ramsey explained that the RSD requested a number of Board members to attend and Caddo did just that.

Mr. Riall asked what is the Board’s travel budget for the year? Mr. Ramsey stated that it was $40,000, which was less than it previously was, and he is only recommending adding $15,000 so each Board member can get the hours required by the State Legislature and the law. Mr. Riall asked how much does it cost for a Board member to attend the state convention? Dr. Goree responded that staff can provide this information for Board members. Mr. Riall stated he believes that however it is set up, that each Board member should be allotted ample budget to attend the State convention. Mr. Ramsey referred this request to Finance to provide a breakout of the cost for each Board member to attend the State convention.

Mrs. Crawley asked should the agenda item be to address attendance at LSBA Convention only, since this is the basic conference which allows Board members to get their required hours? Mr. Ramsey also stated there are four Board members requesting to attend the National School Boards Conference, and the backup does not include any to attend the Southern Region in June.

Ms. Trammel stated she hopes it is possible to find the needed funds to attend these conferences, because it does help everyone when attending these conferences.

Mr. Hooks asked how much money has the Board saved on travel since stating it would cut back? Mr. Ramsey answered that the Board cut the travel budget from $51,148 in 2011-12 to $40,000 in 2013-14, and Mr. Lee stated that in 2010-11 the actual cost was $71,000, so when adding the $15,000 for the 2013-14 school year budget, this is still approximately $16,000 less.

Ms. Priest reminded the Board about mandatory hours (2) for districts with unacceptable schools, Mr. Abrams explained that these two required hours are included in the total six hours required.

Mrs. Armstrong said she is grateful this is finally coming to a head and asked if we approve the $15,000, will the Board approve capping the registration to attend the NSBA conference at only the four who have registered. Mr. Ramsey said that is correct. Mrs. Armstrong stated her
agreement, but also asked Board members to remember the conference is in New Orleans this year, and encouraged the Board to only look at the LSBA and NSBA conferences at this time.

Mr. Riall asked if he did not understand correctly that everything relative to this item and discussion was assigned to the Finance Committee; and if so, why is the discussion continuing? Mr. Ramsey said that is correct.

Mr. Rachal asked for details as to where the money has been spent to date and for a breakdown of the $15,000 for LSBA and NSBA.

Mr. Pierson asked how many hours are required, and Ms. Priest stated it is 6 hours plus the 2 hours for Board members whose districts have AU schools. Mr. Pierson stated that while Board members can learn from talking with Board members from other districts across the country, he believes he is hearing if we get can get the required hours at LSBA, then there is no need to attend any other conferences. Mr. Abrams clarified the total is 6 hours and 2 of those must be specific to districts that have AU schools.

**Review/Recommendations/Approval of Charter School Applications.** President Ramsey announced there will be a special called meeting on Monday, December 16th for the purpose of conducting public hearings for the charter school applications. Dr. Mary Nash-Robinson, chief of staff, reported that she and Attorney Abrams have been in constant communication with Kim Williams, third party reviewer, and she has been in contact with the six charters and the spokespersons for them, and the public hearings will be held on December 16th from 3-5 p.m. At that time the spokespersons for the charter applications will share with the Board in a 10-minute presentation what they are proposing for each charter, followed by questions from the audience and very little input from the Board members. On December 17th, the Board will take action on the proposed charters.

Mrs. Bell asked Dr. Robinson if she understands the Board will not be able to ask questions. Dr. Goree explained that in the design of the agenda, each applicant will have 10 minutes to present their platform, followed by questions from the audience, and the design is not for the Board to ask questions following each presentation. Dr. Robinson clarified that in her conversations with Mrs. Williams, she stated that questions from the Board should be limited, and Dr. Robinson responded to her that she did not believe that would work. Mr. Abrams explained there will be a public hearing on the 16th, which is required by law, and following the 10-minute presentations by each group, the audience may make comments (3 minutes), and if the Board has questions, they should be asked of Mrs. Williams who will gather the questions and give them to the providers who will answer them overnight and the responses provided to the Board. When the Board meets on Tuesday, if there are additional questions, they could be asked at that time. He further reported that these applications have been reviewed with each provider and there were some issues with several who were to provide additional information, i.e. finance, location of buildings, etc. Mrs. Bell stated that she does not believe in giving pre-questions to anyone so they can answer and turn in their answers, so she will be asking her questions, and asked when will Board members receive information on the charters. Mr. Abrams responded the charter applications are available in the Superintendent’s Office for review. Mrs. Bell said she needs to get a copy to read and be prepared to ask her questions. Dr. Goree announced if any Board member would like a copy, to please contact Debbie.

Mr. Ramsey asked if the staff will have a recommendation for the Board on the 17th? Mr. Abrams responded it will be a recommendation from the Third Party Consultant because that is who the Board hired to assist in the process, as required by the State, even though the Board does not have to accept the recommendation.
Mr. Riall asked how many, if any, charter schools does the CPSB have to approve? Mr. Abrams responded that it is at the Board’s discretion and it does not have to approve any charter. However, if the Board denies an application, the applicant can go forward for approval from BESE. He further explained that the Board can approve one with a contingency to do certain things. Mr. Riall asked if he understands correctly that these are all for new schools and not to take any of Caddo’s schools, and Mr. Abrams said that is correct.

Mr. Rachal asked that the applications be scanned and emailed to him. He also stated that he thought it was up to staff to review these applications and determine if they met qualifications; and any concerns relative to legalities would be addressed to the Board. He asked if we are expecting a recommendation from the staff? Mr. Abrams explained that the Statute requires Caddo to use a Third Party Reviewer and staff will make a recommendation with the Third Party Reviewer. Dr. Goree said it is his understanding that when the recommendation comes from the Third Party Reviewer, the staff would field the recommendation to the Board.

Mrs. Crawley asked if she understands correctly that the Third Party Reviewer will make a recommendation, and she will not have the answers to Board members’ questions until Tuesday morning, the day the Board will vote. Mr. Abrams explained she will have a recommendation prior to the Board meeting, and he was explaining the process to follow with 12 persons wanting to ask questions of six applicants. Mrs. Crawley asked how can she ask questions if she does not have the applications, and Mr. Abrams again stated they are in the Superintendent’s Office for review. Mrs. Crawley stated her desire to see the summary from our staff reviews, and Mr. Abrams responded that is available. She also questioned not having everything at the work session and can the Board vote on it since it is not available today. Dr. Goree added that staff will make the information available to all Board members, and Mrs. Crawley reiterated she does not necessarily want copies of the applications, but she would like to see staff’s review and input. Mr. Abrams stated that the Board cannot claim it does not have backup information, because it is available for review in the Superintendent’s Office; and relative to the recommendation, the Board members will have the recommendation prior to the meeting on Monday, December 16th, and it is only one small piece of information the Board will be asked to take action on. While Mr. Abrams indicated he would have preferred having the information for today’s meeting, this did not happen, because the intent was to have the recommendation from the Third Party Reviewer long before today. Mrs. Crawley asked did she not have a deadline to follow? Mr. Abrams responded that the Board needs to remember that charter boards were to get the information back and her team worked to compile the information and come up with a recommendation. Mrs. Crawley asked if the timeline was submitted to the School Board, and Dr. Robinson said she did not have that at her finger tips; however, the State Department set a deadline for which we have to communicate with the charter applicants (prior to the Christmas break). Mrs. Crawley stated that she would like to have a copy of the Third Party Reviewer’s timeline.

Mr. Hooks asked if he is correct when he asks “Do we really have a say so in reviewing, recommending and approving any charter school?” Mr. Abrams said absolutely and each applicant went through an interview process with an appointed group of staff members and the information that came from the interview process is being reviewed by the Third Party Reviewer and will be a part of the recommendation as to whether or not the applicants meet the mission of the charter school law. If the Board goes through this and determines the charters do not meet the requirements, and the Third Party Reviewer agrees, then they are charged with convincing BESE otherwise. He said some charter applications are very tight and others are not and need to provide additional information. Mr. Hooks asked if he understands correctly that even if the board votes to deny an application, it can be taken directly to BESE who can override that decision. Mr. Abrams said that is correct, and you can also have a good application that the Reviewer reports is a good application, but BESE can possibly override and make it a BESE carter.
Mr. Hooks asked if he correctly observed that Charter Schools USA is the same group that holds Magnolia Charter, and Mr. Abrams said that is correct for the 2015-16 school year. Mr. Hooks asked how much say does the Board have with Magnolia. Mr. Abrams stated the Board has all the say so on Magnolia. Mr. Hooks stated his disagreement and cautioned everyone that if we are not careful, everything will be charter schools.

Ms. Priest asked if, in addition to coming in and reviewing the application packets, staff will provide a rubric on each of the applications indicating whether or not the applications meet minimum standards, i.e. financing, Board qualifications, etc. Mr. Abrams responded that he assumes Mrs. Williams used a rubric and the District hired the Third Party Reviewer to do this. Dr. Robinson responded that the State did provide the District with a rubric, which is a checklist that is approximately 2.5 pages and the various departments assessed their areas, which means the staff’s rubrics include handwritten notes.

Miss Green asked Mr. Abrams to explain the difference between these charter (applications) and Magnolia Charter? Mr. Abrams responded they are totally different and highlighted what each desires to do. Miss Green asked if it will be the same in that it will be under the Board’s control? Mr. Abrams stated that the CPSB will issue a charter, which is a contract, relative to what they will do with their school, based upon their application. He added they must also meet certain requirements as set by the CPSB in the contract as well as meet the same standards as the Caddo Parish Public School System. Miss Green asked about the Third Party Reviewer hired by Caddo and how much are we paying her? Mr. Abrams explained that the Board voted to pay a Third Party Reviewer and it is approximately $7,500. Miss Green asked Dr. Goree about looking at all the applications and referenced the last time having a staff member sitting at the table to explain the applications and asked if this will be available for Board members? Dr. Goree responded there are some staff members that were a part of the process and would be glad to schedule time for small groups of Board members to meet with staff and discuss this. Dr. Goree said he doesn’t believe it will take a day to do so, because he will ask staff to provide a summary of each application which can make the most efficient use of each one’s time. He asked that he be allowed to noon on Wednesday for staff to pull together the proposal.

Mrs. Bell stated her agreement with holding small group meetings and she would hope the Third Party Reviewer would be in attendance to answer her questions. Mrs. Bell also asked about receiving a report from the Magnolia Charter School so the Board will know about how the school is doing. Mr. Abrams explained the timeframe for reports from Magnolia is after the first nine weeks; and because Mr. Lee receives information from Magnolia on a daily basis (they also are a part of JPAM), we do know a lot about them. He further stated that if the school is not a Caddo Parish school, but is a school under BESE, nothing will come through Caddo and the school would have to comply with every requirement put in the charter. If they do not comply, then the Board has a reason not to renew their charter application, which is big when they are currently operating in a new building they built. Mrs. Bell again stated she thought they would report following the 1st semester and she would like to see the report along with the academic card. Mr. Ramsey explained this is separate from the agenda item and he will add under requests for staff to provide the requested information to the Board.

Mr. Riall stated that when Magnolia was approved, the Board knew it was supported by the local economy; and it appears two of the charters are locally supported. Mr. Abrams responded that some of them are local, and he believes two of the schools proposed are made up of a regional Board. Mr. Riall asked what will happen if the Board approves a charter and they go out of business, what will happen with the building, are there any stipulations? Mr. Abrams said most of the organizations do not own their buildings, and we have no rights over those buildings. He further stated that most of them do not own their building, but a contractor does, so if the facility becomes empty, the contractor will be looking at how to fill it.
Mr. Hooks asked if Magnolia was supposed to give us some information, what is the use of CPSB making policy and if those policies are not being followed? Mr. Ramsey responded they have followed Board policy.

**Revision to 2013-14 Pupil Progression Plan.** Mr. Rachal asked for clarification in the recommendation to revise the PPP for grades 6th through 8th, because it presently reads the principal shall recommend to the school building level committee for consideration the promotion of a student who failed one of the required courses; and Academic Affairs proposed to add the following statement – “or has failed the first semester, but has subsequently demonstrated proficiency in the content through Course letter grades.” Mr. Rachal stated that it appears they do not have the option of saying no. Keith Burton stated that while it currently reads that they shall recommend to the SBLC for consideration and the rationale is that at the middle school level, and this is the first year that middle school students are on a semester grading system, it has been discovered in the Pupil Progression Plan that if a student is failing both of the required courses (English or Math), then regardless of what a student makes on the Leap or iLeap test, or regardless of that student’s grades during the second semester, that student would fail for the year. Staff is attempting to save the student at the mid-term by saying if you are able to show proficiency (by scoring Basic or above on the Leap or iLeap test or scoring with the letter grades), then the principal can send to the SBLC the possibility that consideration is given for this student to promote to the next grade. Mr. Rachal stated the wording “they shall” recommend is confusing to him, because the principal must recommend to the committee that they are promoted; and he questions if this is something we want to do, and Mr. Burton stated it is. Mr. Rachal asked if the principal’s recommendation is always to move forward, and Mr. Burton responded that is correct. Mr. Burton asked if he understands Mr. Rachal’s concern is with the way it is currently written and not what staff is asking, and Mr. Rachal agreed; and Mr. Burton stated if Mr. Rachal wished for an addendum to further explain, that is something staff can do. Mr. Rachal stated he is interpreting it that the principal will take these students and recommend that these students are promoted. Mr. Burton further stated that it has been this way in policy for many years; however, staff can relook and make the desired change. He also further clarified that based on what policy says, the principal will send it to a committee, then it is the committee (and the principal is a part of that committee) that decides whether or not a student can promote. Dr. Goree clarified that Mr. Rachal is correct in the way it is written, but it shall be sent to the committee for consideration and the outcome is the committee’s decision. Staff is looking to add an additional clause at the end to address the schedule change at the middle school. Mr. Burton restated the proposed revision/wording with the addendum at the end, and Dr. Goree said we are taking what is currently in the policy and adding something at the end that will ensure all principals are recommending those students to the committee for consideration for promotion.

**Approval of Board’s Participation in Class Action Lawsuit.** Mr. Abrams explained that information came to the Board from LSBA where a lawsuit was filed by Brian Blackwell for St. John the Baptist Parish vs. the State of Louisiana, saying that the State did not properly approve the 2.75% growth factor of MFP, and he further explained that what he is saying is the Supreme Court declared that the MFP was improperly done by the Legislature and the Legislature should have gone back to the 2011-12 MFP formula that included the 2.75 growth formula. The Legislature gave the 2.75% but they could not put it in the MFP formula because the deadline to do so for this year had passed, so it was distributed as a salary supplement. It was also done with the understanding that they would try to approve a 2.75% for the upcoming year. Mr. Blackwell said if this one was unconstitutional, then the last valid was the 2011-12 MFP formula that included the growth formula, so they should have given the 2.75% increase and is why the lawsuit was filed. Initially, Mr. Abrams stated that LSBA was against it and part of it was attorney fees would be paid from this through a class action. Since, Bobby Hammonds has signed on with Brian Blackwell as co-counsel, everything appears to be o.k. even though the
chances of recovery are slim to none, because the Legislature will still have to approve the 2.75%. Mr. Abrams said he doesn’t believe the District has anything to lose, it will not have to pay any up-front attorney fees, and if the 2.75% is received, that is great; however, he reminded them there is the chance the Legislature may not like it because of already doing the 2.75%. He reported he will complete the proposed resolution with the appropriate names, etc. for the Board’s consideration on Dec. 17th.

Ms. Priest asked if she understands correctly that it will not cost the District any money to join in this class action suit; and Mr. Abrams responded that is correct. Ms. Priest said she believes that’s what is important for the Board to understand; and since we are members of the State Association and Caddo pays the largest portion (approximately $26,000) in the State, the dues goes toward supporting things of this nature. Even though we did not join in the lawsuit previously filed by the attorney representing LSBA, we knew the money was there and would not be paying for an additional lawyer.

Mr. Riall asked Mr. Abrams if he understands correctly that the Legislature might not be happy about parishes joining together in this class action suit since they did give the districts the 2.75% in a supplement? Mr. Abrams said it is his understanding that when the budget was passed last year, they approved the 2.75% as a supplement, which is the same amount as the MFP growth money, and they would work with school boards to make sure school boards received the 2.75% in the MFP allotment; and if that is the case, a lawsuit has been filed asking for the money again for the same year.

ESTABLISH THE AGENDA AND THE CONSENT AGENDA

President Ramsey announced that Items 6.02, 8.01-8.07 and 8.09-8.11 are the consent agenda. Mr. Pierson moved, seconded by Mr. Ramsey, to approve the proposed agenda and consent agenda for the December 17, 2013 CPSB meeting. Vote on the motion carried unanimously.

Miss Green announced that she was approached by a group called Girls on the Run asking for the Board’s approval to go into the schools and talk to the girls; and she believes this is an outstanding program and would like to add an item to the agenda for the Board’s consideration. President Ramsey said it would have been better if the item had been presented prior to the executive committee voting to set the agenda. Miss Green stated she does not understand, because items such as this have been brought to the Board in the past and a request made to add it to the agenda. He asked Miss Green about the timeline for this request and what the program consists of. Dr. Goree asked Miss Green to provide staff with the information and it is possible that the request does not need to be an agenda item.

POLL AUDIENCE

Deena Lockman, Caddo Magnet High School teacher, shared her concern relative to the lack of appropriate planning time and that she cannot plan and do what is needed without her students suffering by not having the opportunity of lab work.

Patricia Salcup, Caddo Magnet High School Biology teacher, read a statement from Ruby Blackwell, an AP Biology, AP Environmental Science, and Honors Biology, regarding the lack of appropriate planning time and how her students are suffering because there is not enough time for her to prepare. So as not to severely short change her students, Ms. Blackwell stated she must pick and choose the lab experiences her students will be exposed to. If rigor is valued in the classroom, no decision should be made that will hurt students who have made a choice to take the most rigorous of classes. Ms. Salcup stated that while she too teaches lab classes, she also understands how the students are affected when a teacher does not have ample planning time.
Steven Jenkins addressed the negative impact on student achievement because of less planning time, and his belief that lessons have been less effective as a result, as well as decrease in student morale, less time to tutor students after school, and a decrease in student academic performance. He added he believes the lessons he has planned only meet the minimal State requirements and are not giving the student the opportunity to learn at their fullest potential. Mr. Jenkins also asked the Board how successful it believes a teacher can be with an increased work load, but a decreased amount of time for completing the tasks assigned. He also noted a decrease in student morale and that research indicates people perform better with immediate feedback. He highlighted additional responsibilities and the lack of time to complete them, plus working a second job.

Virginia Marks, teacher at Caddo Magnet High, shared with the Board a chart explaining how her students have been hurt because of statements made about what she cares about. She said she is a qualified, certified teacher with a 4 on her evaluations; however, the lack of adequate planning is hurting her students. She also shared how discouraged the new, young teachers are and the difficulty they are having in coping with what is required of them each day. Ms. Marks stated that the Board increased the teachers’ class load by one class and cut the planning time in half, and they are at the meeting tonight because they want to teach and help students be the best they can be.

Jodie Barnes addressed the Board on the seven-period day and the importance of planning periods being consistent in all schools across the parish. With the State continually giving districts unfunded mandates, and the savings to change to a seven-period day, he encouraged the Board to make sure that adequate planning times are provided teachers. He also noted the many opportunities the District offers students to get additional credits.

Jackie Lansdale, president of Red River United, addressed the Board on the process and it is odd to her the level of discussion on planning. She said any professional plans for what they do and the same is true for teachers; and when the change was made to the AB Block, she encouraged the Board to return to the seven-period day before a fiasco was created; and she is now encouraging the Board to fix it.

Pam Peters, preK teacher at Mooretown Elementary, stated that adequate planning time is also a concern for elementary teachers, especially since each year they have become more in depth which takes more time. While she understands that lesson planning is part of a teacher’s job, what is required takes longer, but the planning time is the same. She also shared that she has taken a second job which does not give her the opportunity to stay after school and work on her plans, which means she must do it after her second job which takes away time from her children. Ms. Peters encouraged the Board to take the concerns shared by teachers today when making a decision.

Carol Pabst stated she predicted last March that teachers would have these problems. While she is lucky enough to be at a school that managed to preserve the teachers planning time, Ms. Pabst stated she still has 214 students and she can’t imagine not having adequate planning time. She asked the Board to put themselves in the same situation and that they were only allowed a planning meeting every other month.

Katie Denton, Spanish teacher at Northwood High School and new to the District, addressed how her principal has managed the schedule to allow the teachers to get their full planning time by allowing teachers a 30-minute break from one of their regular classes. She stated her concern that on those days a sub (another teacher) comes in and relieves them for 30 minutes which takes away from the students’ instructional time with their regular teacher (because someone is
covering her class that cannot speak Spanish). She shared that many new teachers are reconsidering choosing teaching as their career path.

Daryl Roberson, president of the Caddo Association of Educators, reminded the Board that at the October work session he reminded the Board that he stated time after time when policies and procedures are approved, the administration is charged with making them happen, oftentimes without any workable model that is fair to all. He also stated that when the Board approved the AB Block schedule, he knew this would happen—it will look different from building to building. He added teachers on the AB Block schedule know that it takes adequate planning to prepare for meaningful, rigorous instruction of their students. Teachers teach classes with students who have multiple learning styles, students who need individual attention, and the need to prepare for multiple activities and labs to make students’ learning work. With the greatest impact being on student achievement, Mr. Roberson encouraged the Board, as the schedule is modified, to be sensitive to the fact that students are not losing instructional time, as well as the impact this will have on the District.

**Adjournment.** Mr. Pierson moved, seconded by Mr. Ramsey, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 8:08 p.m.
The Caddo Parish School Board (CPSB) met in special session on Monday, December 16, 2013, in its offices at 1961 Midway, Shreveport, Louisiana with President Ramsey presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, and Dottie Bell. Mrs. Armstrong was absent. Board member Carl Pierson led the prayer and Pledge of Allegiance.

President Ramsey stated the purpose of today’s meeting is to hold public hearings for the six charter applicants and announced the procedures to be followed will include each applicant has 7 minutes to provide an overview of their proposal, followed by comments from the public regarding the proposal (with each speaker being given up to three minutes), and the Board members can ask two questions of the consultant, Ms. Kimberly Williams. He reminded the Board that the time for questions is not a time for stories or dissertations.

Ms. Kimberly Williams, consultant with New Millennium Education, announced that the first public hearing is for Destined for Greatness University Academy (Project R.E.F.R.E.S.H.). There being no one present from Project R.E.F.R.E.S.H. to speak on behalf of the application, the public hearing for Project R.E.F.R.E.S.H. concluded.

Ms. Williams announced that the next public hearing will be on The Earth Planet Charter School (Saving the Planet by Going Green). Dr. Cheryl Lowing, president/executive director of Saving the Planet by Going Green, thanked the Board for the opportunity to share their program and explained their mission to provide an academic program that will generate stewards who respect the world. She explained it will provide an alternative that promotes sustainability and citizens for individualized project-based curriculum. She further added their mission will be to create an integrated learning experience that emphasizes sustainable living practices and an experimental approach to education that encourages hands-on learning in the community as well as in the classroom. This program is also designed to provide a culture rich atmosphere that celebrates the expansion of the world and taps into the creativity and uniqueness of each child with mutual respect. She shared projected class and school size that will serve grades K-2 during the 2014-15 school year with plans to add one grade each year until they have all 12 grades in the program. Dr. Lowing further explained their proposed academic program focuses on environmental sustainability, the foundation of the Earth planet, and is a research-based curriculum that uses the environment as an integrated context for learning. She highlighted some of the specific ways the program will be used to enhance reading, writing, math, Social Studies and science which will help improve student performance on standardized measures as well as help with discipline and classroom management problems. She noted that the school will focus on student achievement, stakeholder satisfaction, and project based performance tasks and assessments; and their academic gains will be based on benchmark tests. This school will have before and after school care, and Earth Planet will basically involve the students in the environment. She also shared the positive experience she has had in sharing with students in hands-on learning activities; and because everything is turning green, their mission will be to train students to enter into the STEM program and thus be exposed to other areas. She explained they will have a transportation vendor and will work closely with the Special Education population, and she shared her personal experiences with this program and the successes she has seen.

Jon Glover, citizen, asked if the demographic makeup will be only students of color? Ms. Williams explained that any questions should be directed to her and not to the public.

Ms. Priest asked about the percentage of Saving the World by Going Green budget that will go toward instruction? Ms. Williams explained the budget had several errors in it so they were unable to determine the percentages. Ms. Priest referenced the conversation relative to board and the
need for them to have capacity and asked Ms. Williams to elaborate on the training of the proposed board of directors. Ms. Williams stated only one Board member was present at the interview, so she cannot speak to the capacity.

Mrs. Bell asked about additional core subjects to be taught besides environmental science? Ms. Williams responded the application indicates all core subjects will be taught; however, there is no identified curriculum or pathway for students proceeding through the grades. Mrs. Bell also asked about the method used to meet the curriculum for the statewide test. Dr. Lowing responded basically they will use the Benchmark test, as well as the standardized test, to make sure the students are on course for each grade level.

Ms. Trammel asked if Dr. Lowing would be interested in considering this as a pilot program in one of Caddo’s schools. Dr. Lowing asked would they still receive the funding for the program? Ms. Trammel stated she believes it is an excellent program, but believes it is one that might begin as a pilot program in a school to determine its success and possibly broaden it to other schools. Dr. Lowing added it would be something they are willing to consider.

Mrs. Crawford inquired about possible locations for the school, and Ms. Williams responded they have not solidified a location as of this date. Mrs. Crawford asked if the school will have the required equipment for the students to use, and Ms. Williams stated the application anticipates the purchase of equipment necessary for use at the facility and to make sure the operations are carried out as they should be. Mrs. Crawford also asked if the school will be a “green” school with the needed scientific equipment to teach this in the school. Ms. Williams responded Dr. Lowing currently has more than one green house and experience in working with this program. Deborah Johnson, friend and colleague of Dr. Lowing, spoke in support of Dr. Lowing’s charter application.

There being no additional Board questions, the hearing for the Earth Planet Charter ended.

President Ramsey announced the next hearing will be for Shreveport Charter Foundation, and Dr. Phillip Rozeman announced that the Shreveport Charter Academy will have the same board of directors that governs the Magnolia School of Excellence and introduced members of the board. Dr. Rozeman explained that the key responsibilities for the Board of both schools is to accomplish the mission of making the right decisions relative to finances, to communicate with the public, and to pick an education management organization. He announced they selected Charter Schools USA because they have approximately 14-15 years experience, they have had great outcomes (more than 90% of their schools are A-B schools after three years), they are a SACS accredited organization, they have great parental satisfaction, network and involvement, they have 20 volunteer hours per family throughout the school year, great financial strengths, ended the year in the black allowing for bonuses for the teachers, a great accountability, they focus on individualized learning plans for every student, and special education is not an add on, but a part of the school. They offer tutoring free of charge, they focus on teacher quality and professional development, and offer a Common Core ready curriculum. He reported it is their plan to build another school with a similar startup as Magnolia School of Excellence with open enrollment and no tuition. The proposed school will begin as a K-6 school with approximately 600 students with grades seven and eight to be added over the next two years; and, at this time, the location has not yet been determined. Dr. Rozeman cited a statement from a Stanford University study that noted a common denominator of effective charter schools to be an organization around one guiding principle and that is the teacher student relationship. He said this is why they focus on individualized learning plans, character education, investment, tutoring, teacher quality, hiring, performance based bonuses and professional development. While he is not saying that charter schools are a silver bullet, he is saying charters do bring innovation and choice to the families in the community.
Stacey Edwards, Mom at Magnolia Charter, shared her positive experience and her child’s success with the Magnolia Charter School and her support for another charter school. Wendy Vance, Magnolia Charter Mom, shared her positive experience with Magnolia Charter and her support for another charter school and for other children to have the same opportunities afforded her children.

Mrs. Bell asked if this school will focus on students at all levels, of special needs students, and what are some examples? Pam Barker stated they will start out with a full inclusion model, and as they grow, they will look for other opportunities. She explained that the concept is they will not actually know until the initial concept (the change) is implemented.

Ms. Priest noted pages 18 and 26 of an audit that talked about trial balances and several findings in the 2012 audit; and since Charter Schools USA is the governing body, she asked for clarifications on these findings. Ms. Williams said it may not have been in the application, but it could have been provided in the financial information. Ms. Priest also asked if the new application notes the new operational changes that would be implemented by Magnolia. Ms. Williams stated that, as proposed, the Shreveport Charter Academy operation will be identical to the operation of Magnolia School of Excellence, but they will operate as two separate schools. Ms. Williams stated that she will provide Ms. Priest’s question to Charter Schools USA and if they cannot provide a response tonight they will be asked to do so by Tuesday.

Miss Green asked Ms. Williams if she understands correctly that transportation will not be provided. Ms. Williams confirmed that at this time the board does not intend to provide transportation.

Mrs. Crawford noted the loss of a number of students (Magnolia) since the start of school and if the numbers have been enough to affect the budget, will there be a way to keep this from happening at the newly proposed school? Dr. Rozeman responded there have been several additions and losses, and staff is working hard on the retention efforts. They will also intensify their efforts to recruit students for next school year. Mrs. Crawford noted the number of students pulled from her neighborhood to Magnolia and her awareness that many returned to the public school system, and she asked how this affected the program and services provided to the children. Dr. Rozeman said there were many in and out for a variety of reasons; however, staff frequently revisits the program and numbers and believes it will continue to be positive at the end of the school year despite the adjustments. Mrs. Crawford also asked how does Magnolia monitor the parents’ 20 volunteer hours? Ms. Barker explained that parents sign in and an administrator whom they work with puts into the computer the hours worked by the parents. At this time, Ms. Barker added that 90% of the parents have exceeded their required 20 hours.

Ms. Trammel asked if there is an area in which they wish to locate this school? Ann Stokes responded that the Board has not talked about the location. Ms. Trammel asked if there is a preferred area, and Mrs. Stokes said when establishing Magnolia, they had the demographics of the city by zip code and will do the same thing with this proposed school before any final decision is made.

Mr. Rachal asked about the percentage of the budget going into the classroom? Ms. Williams responded that at a minimum as required by State law, 70 percent goes into the classroom. Mr. Rachal asked if there is any update on their budget for the current school year? Mr. Lee stated that latest information available is the 1st quarter ending September 30th; however, he cannot share what percentage of that figure is actually in the classroom. Mr. Rachal asked what percentage of the seats have been filled compared to the original estimate, and Ms. Williams responded 542 out of 614 seats or 88%.
There being no additional speakers, President Ramsey announced the hearing on Shreveport Charter Foundation is closed.

The Louisiana Achievement Charter Academy partnering with National Heritage Academy, proposing two charters – the Red River Charter Academy and Caddo Charter Academy, both with the same configurations. Megan DeBracker addressed the Board on behalf of Louisiana Achievement Charter Academy’s application. She announced that they have applied for a number of charters and a majority of the Board members are in Louisiana. Being aware of this challenge, the Board is working to address it on their agenda in January to make sure they are consistent with the governance model they are proposing. She also shared their commitment to providing Board member training through National Heritage Academy as well as through local and regional offices. She said she believes that one of the stipulations in the management agreement was that the agreement had not been negotiated and did not work out. To date, she said there has not been a Board to fire National Heritage Academy, which means the agreement in place is working. She added they are in 76 schools serving over 51,000 students in nine states and there is currently only one school in operation, Inspire Charter Academy in Baton Rouge. She also said that at this time, they do not have a location picked out; however, their intention is to be in Southwest Shreveport and they have worked closely with the Southern Hills Business Association as to areas in the community that are growing and changing. Independent reviews of NHA will also be conducted as they negotiate the land and the right opportunities for Caddo Parish students. She also updated the Board on Inspire Charter Academy in Baton Rouge, chartered in 2010; and at this time, the students are growing with each passing school year, which is the opportunity they hope to offer to students in Caddo Parish as well.

Jim Mavis addressed the Board in support of the proposed charters by Louisiana Achievement Charter Academy. He said he believes this group is very focused and aware of Shreveport’s needs, and that Southwest Shreveport can provide a great location for their next school. He shared his research in this group’s successes, and that this school can also provide some strong academic support to students in Caddo, in addition to offering parents an additional choice.

Mrs. Bell asked how many schools are they operating in Louisiana? Ms. Williams responded they currently have one school operating in East Baton Rouge Parish; however, they are currently approved for three additional schools in Louisiana (2 in Lafayette Parish and 1 in the City of Baker). Mrs. Bell asked about the grade for the East Baton Rouge charter, and Ms. Williams said there were an F until this past year and they grew 15 points.

Ms. Priest asked how this charter school’s vision aligns with the needs of the student population? Ms. Williams responded that information was not provided, and Ms. Priest asked when will the Board receive this information, and Ms. Williams responded she will work with Ms. DeBracker to determine when it will be available. Ms. Priest asked how will the special education needs population be addressed, as well as free and reduced lunch students. Ms. Williams explained that they do not provide transportation the first year of operation; however, they will provide special education transportation as it is so stated in each child’s IEP. Ms. DeBracker responded their intention for special education is to serve students in a resource room setting and also look at an inclusion/self-contained model. Relative to the at-risk population, she said their best estimate is that about 80% of the students are on free and reduced lunch, and they will provide intensive academic tutoring during the day as well as after school.

Ms. Priest asked how will you meet the needs of those students that are not provided transportation? Mr. Mavis said if the school is approved and located in Southwest Shreveport, it will not provide transportation; but those parents traveling across town will find the neighborhood location to be better suited for residents in Southwest Shreveport and they will not have to continue transporting their students across town to school.
Mr. Pierson asked how will the school meet the mandate of 65% enrollment below the poverty line? Ms. Williams noted that the current interpretation of the law is that they do not have to provide transportation, and staff has shared with her the need to meet the at-risk percentage.

Mr. Ramsey asked if there is a local board for these two proposed charters, and Ms. Williams explained their board is more a regional board, but three of the members will be located in Caddo Parish.

There being no additional questions, the public hearing on Red River Charter Academy and Caddo Charter Academy was closed.

Ms. Williams introduced L. Lawrence Brandon, who shared with the Board their proposal for an all boy charter school, and brought to the Board’s attention a correction that the initial enrollment should be 240 students for year 1, growing to 560 students. Mr. Brandon stated the importance of providing opportunities to give young boys a chance to get an education and how they intend to encourage and mentor young boys through this program which focuses on arts and technology. Dr. Perry Daniel stated that focuses for providing the best education opportunities will be to look at the number of male students that are not being successful in school, provide them with individual learning plans and the daily/ weekly support they need. With the state transitioning to the Common Core Standards, this will be their curriculum guide enhanced with arts and technology. Dr. Daniel added they want to avoid seeing these young men continue down the wrong path; and they believe by providing them a quality education in an environment that will allow them to be successful will keep them on the correct path. He also stated they know this will be a partnership with Caddo and they desire to take advantage of what the local District has to offer to make this a successful opportunity for many young men.

Andrielle Williams, member of the Board and mother of a 5-year old son, addressed the Board in support of this all-boy academy. She noted the options available to her for providing her son the best education possible, and she believes the LL Brandon Academy will be a place where her son could attend school, get a great education and be successful.

Cynthia Franklin, mother, shared her excitement about the possibilities that will be afforded young male students through this educational program. Knowing that this academy will be one that will provide positive mentors for young boys, she shared her support for a program that provides mentors to nurture and encourage these young boys, investing in their futures.

Chandra Richland, mother, spoke on behalf of her son and the opportunity the LL Brandon Academy will offer him and other young boys. She said it will be an awesome investment in the lives of young men and their futures as leaders in the community.

Shala Porter, parent and business owner, shared her excitement and support for this positive educational opportunity for young males.

Lilly Mitchell expressed her excitement and support for the LL Brandon Academy and the opportunity it will afford young boys to be productive with mentors that will encourage and support them.

Marcus George shared his support for the opportunities the LL Brandon Academy will offer young boys to be successful.

Mrs. Bell asked Ms. Williams about the mission to target underserved students and what male students will this program target. Dr. Daniel responded they are only targeting young men in Caddo Parish with the understanding if they do not reach them and involve them in the right environment, they will not end up positively. Knowing that they may not receive the most
affluent students, they have a desire to serve all males that have this need. Mrs. Bell asked about a possible location and will it be a one-race school? Ms. Williams responded that when asked this question in the interview, they indicated the school would be open to all races and they have identified several possible locations based on the demographic population. Bishop Brandon added that the location will be at One Westwood Park which is the current location of a former nursing home facility.

Ms. Priest asked if the initial investment of $1 million is from EdFutures and to further explain the need for an additional equity funding of $½ million to $1 million in ensuing years. Robert Williams, the CPA from California for Edfutures, stated he is familiar with the initial $100,000, but not the $1 million, and the $100,000 will be provided by Edfutures through a loan. Ms. Priest restated the verbiage from the application that “the $1 million will be used for ………”, and it appears to deal with the scale strategy, and Ms. Williams responded that is EdFutures’ scale strategy. Ms. Priest also asked about the “second round of EdFutures’ charters opening in 2015”. Ms. Williams explained that the $1 million is a part of Edfutures scale, but it is not a million designated to LL Brandon Academy, but what they will invest in Louisiana the first year and $1.5 million in subsequent years to grow as a CMO in Louisiana. Ms. Priest asked about the school’s technology planning committee, and Dr. Daniel explained that this committee will be developed from the Board to develop a technology plan.

Mrs. Crawford asked who will be the leader, and Ms. Williams responded that a school leader has not been determined as of this date; and based upon the application, the school leader will determine the other leaders in the school building.

Ms. Trammel asked about the members of the Board, and Ms. Williams introduced three of the seven Board members present.

There being no additional comments/questions, the hearing on LL Brandon Academy ended.

Ms. Williams introduced Pathways in Education for Caddo Parish as the sixth and final charter applicant, and their proposed alternative charter school to serve under-served, at-risk students. She further explained their proposal of going from one site, and based upon performance, to five sites. Bill Tome, deputy superintendent, Pathways in Education, shared with the Board their excitement in replicating an existing, successful charter alternative model in Caddo. For the past two years, Mr. Tome said they have pursued building community support in becoming a long-term multi-site, alternative charter high school in Shreveport. He explained that the target grades will be 9-12 at risk students who struggle in the traditional school environment. He said that Pathways has been a successful model for over 25 years and has been consistently renewed as a high performing charter. Mr. Tome explained that the leadership has extensive experience in replication of the alternative charter model that has resulted in doubling enrollment in school sites over the past five years. Pathways currently serves over 50,000 students in 72 sites through 14 charters in Tennessee, California and Illinois. He reported that over 75% of the students are economically disadvantaged and 80% are Hispanic or African American, and that 12 out of 12 charters in California rated above the accountability and have been in existence over 25 years.

Mr. Tome explained that one of the big reasons for Pathways success is the individualized learning plans with high expectations, coupled with rigorous standards delivered by motivated and positive teachers. Noting the need for a high quality, alternative charter, Mr. Tome reiterated their desire to partner closely with the Caddo Parish School Board in serving the students in Caddo Parish. Other aspects of the proposed program included extracurricular activities, single subject expert teachers, one on one with students, post secondary advisors as well as mental and health/well being services. He further added their program is research based with strong counseling and parental based support.
Aaron Gobines spoke in support of Pathways for Education because he has witnessed the success of this program. He stated he believes this is what Caddo Parish desperately needs and the possibilities it offers for reaching these students.

Jackie Dozier, board member and substitute teacher in Caddo, spoke in support of the Pathways for Education program for Caddo. She shared her belief that what this program offers in an alternative education for at-risk students is a natural fit for Caddo Parish schools and those students that are struggling. She encouraged the Board to support this program and the positive impact it can have on Caddo students.

Eddy Jean Braggs Cheatam, educator, stated she knows from experience that this model alternative school will work in Caddo Parish.

Phillip Rozeman said while he has not seen the application, he has read a lot about Pathways; and encouraged the Board to strongly consider applications from groups such as Pathways.

Mr. Hooks asked Ms. Williams if this group is ready to teach students with serious problems, and she responded that she has visited three of their schools and seen how the program works. Mr. Hooks thanked Pastor Gobines for his comments and for this answer to a cry in the wilderness.

Mr. Riall asked if there will be a reciprocal agreement where we will release them from Caddo’s alternative program to attend this program. Ms. Williams reported this discussion took place in the interview and one of the highlights of their program is choice and the students have the option to choose to participate in the program. Data regarding the difference in the Caddo plan and this plan was also in the document for the Board’s consideration. Mr. Riall asked Mr. Abrams if there will be an agreement that if we designate a child for the alternative program, they could attend this program versus the Ombudsman program? Mr. Abrams said they can. Mr. Riall asked if this program could replace Ombudsman, and Mr. Abrams responded not totally, because this program is for grades 9-12.

Mrs. Bell asked about overage students (18 years old and in the 8th grade) and how these will be addressed? Ms. Williams explained they begin the process of identifying overage students by talking with the District. Mrs. Bell asked if overage students drop out will this program partner with the parish to know where they stopped and where they can pick up? Ms. Williams said they do two very specific things – (1) track students who remain in their program and are issued a high school diploma; and (2) offer students who are credit deficient and/or pregnant, an opportunity to catch up, with a record of about 30% of the population returning to their high school to finish.

Ms. Priest asked about the plans for a facility? Ms. Williams explained that while they do not have a location identified, their typical location is in a strip mall in the neighborhoods and not in the typical school building. Ms. Williams also stated that she will have the financial information available for the Board on Tuesday.

Miss Green said this sounds good, but she is looking for the difference between the alternative and charter schools. Ms. Williams explained that the biggest difference is they provide a small, face-to-face instruction model with a certified teacher in the classrooms. Miss Green asked if there is a way we can contract with this group, and Mr. Abrams explained they actually would be under a contract with the District if the Board chooses to do so and the Ombudsman contract has a clause in it where the District can opt out; however, this group only offers an alternative option for 9-12 grades.
Mr. Pierson asked about the length of the school day for Pathways? Ms. Williams responded their schools are open as late as 7:00 p.m. and open as early as 7:00 or 8:00 a.m. Mr. Pierson asked if theirs is a regular school day, and Ms. Williams said it is not but students typically spend approximately two hours at the school and the remainder is independent guidance, i.e. a tutor, a teacher, at home, at work, etc., because each student’s individualized learning plan defines exactly what their program will look like. Mr. Pierson asked how teachers are recruited and Mr. Tome responded they have had a lot of success in recruiting teachers, much the same as with recruiting students, locally via community forums and word of mouth, etc. Ms. Williams added they do not typically recruit the local District’s teachers as their teachers will look different than those in the traditional school classroom setting.

There being no additional applicants or comments, President Ramsey announced that the public hearing for charter school applicants is concluded and the meeting adjourned at approximately 5:08 p.m.
December 16, 2013

The Caddo Parish School Board (CPSB) met in special session on Monday, December 16, 2013, in its offices at 1961 Midway, Shreveport, Louisiana with President Ramsey presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, and Dottie Bell. Mrs. Armstrong was absent. Board member Carl Pierson led the prayer and Pledge of Allegiance.

President Ramsey stated the purpose of today’s meeting is to hold public hearings for the six charter applicants and announced the procedures to be followed will include each applicant has 7 minutes to provide an overview of their proposal, followed by comments from the public regarding the proposal (with each speaker being given up to three minutes), and the Board members can ask two questions of the consultant, Ms. Kimberly Williams. He reminded the Board that the time for questions is not a time for stories or dissertations.

Ms. Kimberly Williams, consultant with New Millennium Education, announced that the first public hearing is for Destined for Greatness University Academy (Project R.E.F.R.E.S.H.). There being no one present from Project R.E.F.R.E.S.H. to speak on behalf of the application, the public hearing for Project R.E.F.R.E.S.H. concluded.

Ms. Williams announced that the next public hearing will be on The Earth Planet Charter School (Saving the Planet by Going Green). Dr. Cheryl Lowing, president/executive director of Saving the Planet by Going Green, thanked the Board for the opportunity to share their program and explained their mission to provide an academic program that will generate stewards who respect the world. She explained it will provide an alternative that promotes sustainability and citizens for individualized project-based curriculum. She further added their mission will be to create an integrated learning experience that emphasizes sustainable living practices and an experimental approach to education that encourages hands-on learning in the community as well as in the classroom. This program is also designed to provide a culture rich atmosphere that celebrates the expansion of the world and taps into the creativity and uniqueness of each child with mutual respect. She shared projected class and school size that will serve grades K-2 during the 2014-15 school year with plans to add one grade each year until they have all 12 grades in the program. Dr. Lowing further explained their proposed academic program focuses on environmental sustainability, the foundation of the Earth planet, and is a research-based curriculum that uses the environment as an integrated context for learning. She highlighted some of the specific ways the program will be used to enhance reading, writing, math, Social Studies and science which will help improve student performance on standardized measures as well as help with discipline and classroom management problems. She noted that the school will focus on student achievement, stakeholder satisfaction, and project based performance tasks and assessments; and their academic gains will be based on benchmark tests. This school will have before and after school care, and Earth Planet will basically involve the students in the environment. She also shared the positive experience she has had in sharing with students in hands-on learning activities; and because everything is turning green, their mission will be to train students to enter into the STEM program and thus be exposed to other areas. She explained they will have a transportation vendor and will work closely with the Special Education population, and she shared her personal experiences with this program and the successes she has seen.

Jon Glover, citizen, asked if the demographic makeup will be only students of color? Ms. Williams explained that any questions should be directed to her and not to the public.

Ms. Priest asked about the percentage of Saving the World by Going Green budget that will go toward instruction? Ms. Williams explained the budget had several errors in it so they were unable to determine the percentages. Ms. Priest referenced the conversation relative to board and the
need for them to have capacity and asked Ms. Williams to elaborate on the training of the proposed board of directors. Ms. Williams stated only one Board member was present at the interview, so she cannot speak to the capacity.

Mrs. Bell asked about additional core subjects to be taught besides environmental science? Ms. Williams responded the application indicates all core subjects will be taught; however, there is no identified curriculum or pathway for students proceeding through the grades. Mrs. Bell also asked about the method used to meet the curriculum for the statewide test. Dr. Lowing responded basically they will use the Benchmark test, as well as the standardized test, to make sure the students are on course for each grade level.

Ms. Trammel asked if Dr. Lowing would be interested in considering this as a pilot program in one of Caddo’s schools. Dr. Lowing asked would they still receive the funding for the program? Ms. Trammel stated she believes it is an excellent program, but believes it is one that might begin as a pilot program in a school to determine its success and possibly broaden it to other schools. Dr. Lowing added it would be something they are willing to consider.

Mrs. Crawford inquired about possible locations for the school, and Ms. Williams responded they have not solidified a location as of this date. Mrs. Crawford asked if the school will have the required equipment for the students to use, and Ms. Williams stated the application anticipates the purchase of equipment necessary for use at the facility and to make sure the operations are carried out as they should be. Mrs. Crawford also asked if the school will be a “green” school with the needed scientific equipment to teach this in the school. Ms. Williams responded Dr. Lowing currently has more than one green house and experience in working with this program. Deborah Johnson, friend and colleague of Dr. Lowing, spoke in support of Dr. Lowing’s charter application.

There being no additional Board questions, the hearing for the Earth Planet Charter ended.

President Ramsey announced the next hearing will be for Shreveport Charter Foundation, and Dr. Phillip Rozeman announced that the Shreveport Charter Academy will have the same board of directors that governs the Magnolia School of Excellence and introduced members of the board. Dr. Rozeman explained that the key responsibilities for the Board of both schools is to accomplish the mission of making the right decisions relative to finances, to communicate with the public, and to pick an education management organization. He announced they selected Charter Schools USA because they have approximately 14-15 years experience, they have had great outcomes (more than 90% of their schools are A-B schools after three years), they are a SACS accredited organization, they have great parental satisfaction, network and involvement, they have 20 volunteer hours per family throughout the school year, great financial strengths, ended the year in the black allowing for bonuses for the teachers, a great accountability, they focus on individualized learning plans for every student, and special education is not an add on, but a part of the school. They offer tutoring free of charge, they focus on teacher quality and professional development, and offer a Common Core ready curriculum. He reported it is their plan to build another school with a similar startup as Magnolia School of Excellence with open enrollment and no tuition. The proposed school will begin as a K-6 school with approximately 600 students with grades seven and eight to be added over the next two years; and, at this time, the location has not yet been determined. Dr. Rozeman cited a statement from a Stanford University study that noted a common denominator of effective charter schools to be an organization around one guiding principle and that is the teacher student relationship. He said this is why they focus on individualized learning plans, character education, investment, tutoring, teacher quality, hiring, performance based bonuses and professional development. While he is not saying that charter schools are a silver bullet, he is saying charters do bring innovation and choice to the families in the community.
Stacey Edwards, Mom at Magnolia Charter, shared her positive experience and her child’s success with the Magnolia Charter School and her support for another charter school. Wendy Vance, Magnolia Charter Mom, shared her positive experience with Magnolia Charter and her support for another charter school and for other children to have the same opportunities afforded her children.

Mrs. Bell asked if this school will focus on students at all levels, of special needs students, and what are some examples? Pam Barker stated they will start out with a full inclusion model, and as they grow, they will look for other opportunities. She explained that the concept is they will not actually know until the initial concept (the change) is implemented.

Ms. Priest noted pages 18 and 26 of an audit that talked about trial balances and several findings in the 2012 audit; and since Charter Schools USA is the governing body, she asked for clarifications on these findings. Ms. Williams said it may not have been in the application, but it could have been provided in the financial information. Ms. Priest also asked if the new application notes the new operational changes that would be implemented by Magnolia. Ms. Williams stated that, as proposed, the Shreveport Charter Academy operation will be identical to the operation of Magnolia School of Excellence, but they will operate as two separate schools. Ms. Williams stated that she will provide Ms. Priest’s question to Charter Schools USA and if they cannot provide a response tonight they will be asked to do so by Tuesday.

Miss Green asked Ms. Williams if she understands correctly that transportation will not be provided. Ms. Williams confirmed that at this time the board does not intend to provide transportation.

Mrs. Crawford noted the loss of a number of students (Magnolia) since the start of school and if the numbers have been enough to affect the budget, will there be a way to keep this from happening at the newly proposed school? Dr. Rozeman responded there have been several additions and losses, and staff is working hard on the retention efforts. They will also intensify their efforts to recruit students for next school year. Mrs. Crawford noted the number of students pulled from her neighborhood to Magnolia and her awareness that many returned to the public school system, and she asked how this affected the program and services provided to the children. Dr. Rozeman said there were many in and out for a variety of reasons; however, staff frequently revisits the program and numbers and believes it will continue to be positive at the end of the school year despite the adjustments. Mrs. Crawford also asked how does Magnolia monitor the parents’ 20 volunteer hours? Ms. Barker explained that parents sign in and an administrator whom they work with puts into the computer the hours worked by the parents. At this time, Ms. Barker added that 90% of the parents have exceeded their required 20 hours.

Ms. Trammel asked if there is an area in which they wish to locate this school? Ann Stokes responded that the Board has not talked about the location. Ms. Trammel asked if there is a preferred area, and Mrs. Stokes said when establishing Magnolia, they had the demographics of the city by zip code and will do the same thing with this proposed school before any final decision is made.

Mr. Rachal asked about the percentage of the budget going into the classroom? Ms. Williams responded that at a minimum as required by State law, 70 percent goes into the classroom. Mr. Rachal asked if there is any update on their budget for the current school year? Mr. Lee stated that latest information available is the 1st quarter ending September 30th; however, he cannot share what percentage of that figure is actually in the classroom. Mr. Rachal asked what percentage of the seats have been filled compared to the original estimate, and Ms. Williams responded 542 out of 614 seats or 88%.
There being no additional speakers, President Ramsey announced the hearing on Shreveport Charter Foundation is closed.

The Louisiana Achievement Charter Academy partnering with National Heritage Academy, proposing two charters – the Red River Charter Academy and Caddo Charter Academy, both with the same configurations. Megan DeBracker addressed the Board on behalf of Louisiana Achievement Charter Academy’s application. She announced that they have applied for a number of charters and a majority of the Board members are in Louisiana. Being aware of this challenge, the Board is working to address it on their agenda in January to make sure they are consistent with the governance model they are proposing. She also shared their commitment to providing Board member training through National Heritage Academy as well as through local and regional offices. She said she believes that one of the stipulations in the management agreement was that the agreement had not been negotiated and did not work out. To date, she said there has not been a Board to fire National Heritage Academy, which means the agreement in place is working. She added they are in 76 schools serving over 51,000 students in nine states and there is currently only one school in operation, Inspire Charter Academy in Baton Rouge. She also said that at this time, they do not have a location picked out; however, their intention is to be in Southwest Shreveport and they have worked closely with the Southern Hills Business Association as to areas in the community that are growing and changing. Independent reviews of NHA will also be conducted as they negotiate the land and the right opportunities for Caddo Parish students. She also updated the Board on Inspire Charter Academy in Baton Rouge, chartered in 2010; and at this time, the students are growing with each passing school year, which is the opportunity they hope to offer to students in Caddo Parish as well.

Jim Mavis addressed the Board in support of the proposed charters by Louisiana Achievement Charter Academy. He said he believes this group is very focused and aware of Shreveport’s needs, and that Southwest Shreveport can provide a great location for their next school. He shared his research in this group’s successes, and that this school can also provide some strong academic support to students in Caddo, in addition to offering parents an additional choice.

Mrs. Bell asked how many schools are they operating in Louisiana? Ms. Williams responded they currently have one school operating in East Baton Rouge Parish; however, they are currently approved for three additional schools in Louisiana (2 in Lafayette Parish and 1 in the City of Baker). Mrs. Bell asked about the grade for the East Baton Rouge charter, and Ms. Williams said there were an F until this past year and they grew 15 points.

Ms. Priest asked how this charter school’s vision aligns with the needs of the student population? Ms. Williams responded that information was not provided, and Ms. Priest asked when will the Board receive this information, and Ms. Williams responded she will work with Ms. DeBracker to determine when it will be available. Ms. Priest asked how will the special education needs population be addressed, as well as free and reduced lunch students. Ms. Williams explained that they do not provide transportation the first year of operation; however, they will provide special education transportation as it is so stated in each child’s IEP. Ms. DeBracker responded their intention for special education is to serve students in a resource room setting and also look at an inclusion/self-contained model. Relative to the at-risk population, she said their best estimate is that about 80% of the students are on free and reduced lunch, and they will provide intensive academic tutoring during the day as well as after school.

Ms. Priest asked how will you meet the needs of those students that are not provided transportation? Mr. Mavis said if the school is approved and located in Southwest Shreveport, it will not provide transportation; but those parents traveling across town will find the neighborhood location to be better suited for residents in Southwest Shreveport and they will not have to continue transporting their students across town to school.
Mr. Pierson asked how will the school meet the mandate of 65% enrollment below the poverty line? Ms. Williams noted that the current interpretation of the law is that they do not have to provide transportation, and staff has shared with her the need to meet the at-risk percentage.

Mr. Ramsey asked if there is a local board for these two proposed charters, and Ms. Williams explained their board is more a regional board, but three of the members will be located in Caddo Parish.

There being no additional questions, the public hearing on Red River Charter Academy and Caddo Charter Academy was closed.

Ms. Williams introduced L. Lawrence Brandon, who shared with the Board their proposal for an all boy charter school, and brought to the Board’s attention a correction that the initial enrollment should be 240 students for year 1, growing to 560 students. Mr. Brandon stated the importance of providing opportunities to give young boys a chance to get an education and how they intend to encourage and mentor young boys through this program which focuses on arts and technology. Dr. Perry Daniel stated that focuses for providing the best education opportunities will be to look at the number of male students that are not being successful in school, provide them with individual learning plans and the daily/weekly support they need. With the state transitioning to the Common Core Standards, this will be their curriculum guide enhanced with arts and technology. Dr. Daniel added they want to avoid seeing these young men continue down the wrong path; and they believe by providing them a quality education in an environment that will allow them to be successful will keep them on the correct path. He also stated they know this will be a partnership with Caddo and they desire to take advantage of what the local District has to offer to make this a successful opportunity for many young men.

Andrielle Williams, member of the Board and mother of a 5-year old son, addressed the Board in support of this all-boy academy. She noted the options available to her for providing her son the best education possible, and she believes the LL Brandon Academy will be a place where her son could attend school, get a great education and be successful.

Cynthia Franklin, mother, shared her excitement about the possibilities that will be afforded young male students through this educational program. Knowing that this academy will be one that will provide positive mentors for young boys, she shared her support for a program that provides mentors to nurture and encourage these young boys, investing in their futures.

Chandra Richland, mother, spoke on behalf of her son and the opportunity the LL Brandon Academy will offer him and other young boys. She said it will be an awesome investment in the lives of young men and their futures as leaders in the community.

Shala Porter, parent and business owner, shared her excitement and support for this positive educational opportunity for young males.

Lilly Mitchell expressed her excitement and support for the LL Brandon Academy and the opportunity it will afford young boys to be productive with mentors that will encourage and support them.

Marcus George shared his support for the opportunities the LL Brandon Academy will offer young boys to be successful.

Mrs. Bell asked Ms. Williams about the mission to target underserved students and what male students will this program target. Dr. Daniel responded they are only targeting young men in Caddo Parish with the understanding if they do not reach them and involve them in the right environment, they will not end up positively. Knowing that they may not receive the most
affluent students, they have a desire to serve all males that have this need. Mrs. Bell asked about a possible location and will it be a one-race school? Ms. Williams responded that when asked this question in the interview, they indicated the school would be open to all races and they have identified several possible locations based on the demographic population. Bishop Brandon added that the location will be at One Westwood Park which is the current location of a former nursing home facility.

Ms. Priest asked if the initial investment of $1 million is from EdFutures and to further explain the need for an additional equity funding of $½ million to $1 million in ensuing years. Robert Williams, the CPA from California for EdFutures, stated he is familiar with the initial $100,000, but not the $1 million, and the $100,000 will be provided by EdFutures through a loan. Ms. Priest restated the verbiage from the application that “the $1 million will be used for ………”, and it appears to deal with the scale strategy, and Ms. Williams responded that is EdFutures’ scale strategy. Ms. Priest also asked about the “second round of EdFutures’ charters opening in 2015”. Ms. Williams explained that the $1 million is a part of EdFutures scale, but it is not a million designated to LL Brandon Academy, but what they will invest in Louisiana the first year and $1.5 million in subsequent years to grow as a CMO in Louisiana. Ms. Priest asked about the school’s technology planning committee, and Dr. Daniel explained that this committee will be developed from the Board to develop a technology plan.

Mrs. Crawford asked who will be the leader, and Ms. Williams responded that a school leader has not been determined as of this date; and based upon the application, the school leader will determine the other leaders in the school building.

Ms. Trammel asked about the members of the Board, and Ms. Williams introduced three of the seven Board members present.

There being no additional comments/questions, the hearing on LL Brandon Academy ended.

Ms. Williams introduced Pathways in Education for Caddo Parish as the sixth and final charter applicant, and their proposed alternative charter school to serve under-served, at-risk students. She further explained their proposal of going from one site, and based upon performance, to five sites. Bill Tome, deputy superintendent, Pathways in Education, shared with the Board their excitement in replicating an existing, successful charter alternative model in Caddo. For the past two years, Mr. Tome said they have pursued building community support in becoming a long-term multi-site, alternative charter high school in Shreveport. He explained that the target grades will be 9-12 at risk students who struggle in the traditional school environment. He said that Pathways has been a successful model for over 25 years and has been consistently renewed as a high performing charter. Mr. Tome explained that the leadership has extensive experience in replication of the alternative charter model that has resulted in doubling enrollment in school sites over the past five years. Pathways currently serves over 50,000 students in 72 sites through 14 charters in Tennessee, California and Illinois. He reported that over 75% of the students are economically disadvantaged and 80% are Hispanic or African American, and that 12 out of 12 charters in California rated above the accountability and have been in existence over 25 years.

Mr. Tome explained that one of the big reasons for Pathways success is the individualized learning plans with high expectations, coupled with rigorous standards delivered by motivated and positive teachers. Noting the need for a high quality, alternative charter, Mr. Tome reiterated their desire to partner closely with the Caddo Parish School Board in serving the students in Caddo Parish. Other aspects of the proposed program included extracurricular activities, single subject expert teachers, one on one with students, post secondary advisors as well as mental and health/well being services. He further added their program is research based with strong counseling and parental based support.
Aaron Gobines spoke in support of Pathways for Education because he has witnessed the success of this program. He stated he believes this is what Caddo Parish desperately needs and the possibilities it offers for reaching these students.

Jackie Dozier, board member and substitute teacher in Caddo, spoke in support of the Pathways for Education program for Caddo. She shared her belief that what this program offers in an alternative education for at risk students is a natural fit for Caddo Parish schools and those students that are struggling. She encouraged the Board to support this program and the positive impact it can have on Caddo students.

Eddy Jean Braggs Cheatam, educator, stated she knows from experience that this model alternative school will work in Caddo Parish.

Phillip Rozeman said while he has not seen the application, he has read a lot about Pathways; and encouraged the Board to strongly consider applications from groups such as Pathways.

Mr. Hooks asked Ms. Williams if this group is ready to teach students with serious problems, and she responded that she has visited three of their schools and seen how the program works. Mr. Hooks thanked Pastor Gobines for his comments and for this answer to a cry in the wilderness.

Mr. Riall asked if there will be a reciprocal agreement where we will release them from Caddo’s alternative program to attend this program. Ms. Williams reported this discussion took place in the interview and one of the highlights of their program is choice and the students have the option to choose to participate in the program. Data regarding the difference in the Caddo plan and this plan was also in the document for the Board’s consideration. Mr. Riall asked Mr. Abrams if there will be an agreement that if we designate a child for the alternative program, they could attend this program versus the Ombudsman program? Mr. Abrams said they can. Mr. Riall asked if this program could replace Ombudsman, and Mr. Abrams responded not totally, because this program is for grades 9-12.

Mrs. Bell asked about overage students (18 years old and in the 8th grade) and how these will be addressed? Ms. Williams explained they begin the process of identifying overage students by talking with the District. Mrs. Bell asked if overage students drop out will this program partner with the parish to know where they stopped and where they can pick up? Ms. Williams said they do two very specific things – (1) track students who remain in their program and are issued a high school diploma; and (2) offer students who are credit deficient and/or pregnant, an opportunity to catch up, with a record of about 30% of the population returning to their high school to finish.

Ms. Priest asked about the plans for a facility? Ms. Williams explained that while they do not have a location identified, their typical location is in a strip mall in the neighborhoods and not in the typical school building. Ms. Williams also stated that she will have the financial information available for the Board on Tuesday.

Miss Green said this sounds good, but she is looking for the difference between the alternative and charter schools. Ms. Williams explained that the biggest difference is they provide a small, face-to-face instruction model with a certified teacher in the classrooms. Miss Green asked if there is a way we can contract with this group, and Mr. Abrams explained they actually would be under a contract with the District if the Board chooses to do so and the Ombudsman contract has a clause in it where the District can opt out; however, this group only offers an alternative option for 9-12 grades.
Mr. Pierson asked about the length of the school day for Pathways? Ms. Williams responded their schools are open as late as 7:00 p.m. and open as early as 7:00 or 8:00 a.m. Mr. Pierson asked if theirs is a regular school day, and Ms. Williams said it is not but students typically spend approximately two hours at the school and the remainder is independent guidance, i.e. a tutor, a teacher, at home, at work, etc., because each student’s individualized learning plan defines exactly what their program will look like. Mr. Pierson asked how teachers are recruited and Mr. Tome responded they have had a lot of success in recruiting teachers, much the same as with recruiting students, locally via community forums and word of mouth, etc. Ms. Williams added they do not typically recruit the local District’s teachers as their teachers will look different than those in the traditional school classroom setting.

There being no additional applicants or comments, President Ramsey announced that the public hearing for charter school applicants is concluded and the meeting adjourned at approximately 5:08 p.m.
December 17, 2013

The Caddo Parish School Board (CPSB) met in regular session on Tuesday, December 17, 2013, in its offices at 1961 Midway, Shreveport, Louisiana with President Ramsey presiding and the following Board members present constituting a quorum: Steve Riall, Jasmine Green, Carl Pierson, Charlotte Crawley, Curtis Hooks, Mary Trammel, Lillian Priest, Bonita Crawford, Barry Rachal, Ginger Armstrong and Dottie Bell. Board member Carl Pierson led the prayer and Pledge of Allegiance

APPROVAL OF MINUTES

Mr. Pierson moved, seconded by Ms. Priest, to approve the November 19, 2013, November 21, 2013, and December 3, 2013 CPSB minutes as submitted. Vote on the motion carried.

PRESENTATIONS AND RECOGNITIONS

Victor Mainiero, director of communications and marketing, on behalf of the board, recognized the following staff members and students for recent achievements. President Ramsey and Superintendent Goree presented each with a certificate in recognition of their accomplishment. Administrators, family and friends present were also recognized.

C. E. Byrd High School Choir. The C. E. Byrd High School Choir performed two Christmas songs for the Board and audience. Mr. Mainiero announced that in 2013, the Byrd Choir participated in a national festival in San Antonio, Texas where they received excellent ratings. The choir also recently performed at the Louisiana State Retired Teachers’ Conference and has been invited to perform at Northwestern State University in Natchitoches as well as Universal Studios in Orlando, Florida in 2014.

Louisiana State Fair Baton, Dance Line and Cheer Competition Winners. The following schools/groups/students were recognized for awards earned in the Louisiana State Fair Baton, Dance Line, and Cheer Competition. Elementary School first place winners are Southern Hills Viking Squad (Small Pom and Small Cheer), the Southern Hills Vikettes (Medium Pom, Jazz, Medium High Kick and Medium Hip Hop), and the Southern Hills Liturgical Drill Team (Liturgical Drill), Blanchard Cheerleaders (Large Pom, Large Cheer, Large Show Production, and the Elementary Grand Prize Winner).

Middle School First Place Winners are Caddo Middle Magnet Twirlers (Dance Twirl), Caddo Middle Magnet Starline (Small Middle School High Kick and Pom), Herndon Magnet Cheer (Medium Middle School Cheer), Herndon Highsteppers (Large Middle School Military, Hip Hop, Kick, and Pom), Lillie Thibodeaux (Middle School Solo Winner), Oil City Magnet Twirlers (Dance Twirl Routine), Oil City Tigerettes (Medium Cheer Pom and Small Middle School Prop), Vivian Spirit Steppers (Small Middle School Military), Walnut Hill Golden Hornets Dance Line (Small Middle School Show Production), Donnie Bickham Cheerleaders (Middle School Cheer), Donnie Bickham Patriot Belles (Medium Middle School Hip Hop, High Kick, Military, Pom, and Grand Prize Winner).

High School First Place Winners are Booker T. Washington Cheerleaders (Medium High School Pom and Hip Hop), Fair Park Cherokee Belles (Small High School Hip Hop), Green Oaks Dancing Divas (Small High School Jazz), Southwood High School Colorguard (Medium High School Colorguard), and Northwood Falcon Line (Large High School Pom, Military, Novelty and High Kick, as well as Grand Prize Winner).

We Care Essay Winners. Tom Watts, Community Renewal, presented awards to the following students as winners in the 2013 We Care Essay Winners: Elementary School winners are
Morgan Kemper, 4th grade, Claiborne Fundamental Magnet, 3rd place; Jada Small, 4th grade, Mooringsport, 2nd place; and Merritt Shemwell, 5th grade, Fairfield Elementary Magnet, 1st place. Middle School winners are Katelynn Benge, 8th grade, Donnie Bickham, 3rd place; Deountre Henderson, 7th grade, Donnie Bickham, 2nd place; and Rachel Hogan, 8th grade, Youree Drive, 1st place. High School winners are Kendall Crosby, 11th grade, Byrd, 3rd place; Chris Clark, 10th grade, Northwood, 2nd place; and Chandler Williams, 11th grade, Byrd, 1st place.

First Lego League Qualifier Event. Caddo Middle Career & Technology “The Robo Chargers” were recognized for placing 3rd in the Robot Design event and Donnie Bickham Middle School “The Bickham Bots” were recognized as the North Louisiana Grand Champions in the First Lego League Qualifier Event Robotics Tournament held on November 16, 2013.

Captain Shreve Journalists. The following members of the Captain Shreve newspaper staff were recognized for honors received at the Louisiana Scholastic Press Association Conference: Alexis Spano, 12th grade, 2nd place for best inside spread design; Carson Mullins, 12th grade, 2nd place and Windy Steele, 12th grade, 1st place in news writing. Also, Captain Shreve’s student newspaper “The Enterprise” placed 3rd for best all-around newspaper for 2012-13.

Ambassador for the Children’s Miracle Network. Amy Heron, CMN Hospitals Program Director, recognized Joshua Black, 9th grader, as the Children’s Miracle Network Ambassador for the State of Louisiana.

2013 Outstanding Educator State Award Winner. Cynthia Lawhon, teacher at Claiborne Fundamental Magnet, was recognized as the recipient of the 2013 Outstanding Educator State Award by Project Learning Tree for her outstanding contributions and commitment to the environmental education of Louisiana’s youth.

Caddo Principal Receives Leadership Award. Mary Rounds, principal of Caddo Magnet High, was congratulated for receiving the Paul Fouquier Educational Leadership Award at the recently held Louisiana Association of School Executives (LASE) Conference.

Presentation by Board Member Dottie Bell. Board member Dottie Bell, LeVada Palms and the Caddo Parish Teachers Federal Credit Union presented to Pittre Walker, Caddo’s Homeless Coordinator, and Janis Parker, Director of Title I, $3,100 in cash/credit cards. Mrs. Bell stated they have hosted a “Party with a Purpose” for seven years with the purpose of collecting toys for needy children at Christmas. This year they asked for donations of money and/or gift cards to present to the Homeless Department to purchase what the children had on their “wish list”.

Ms. Priest noted that the numerous recognitions today of Caddo’s students are really what Caddo Parish Schools is about.

Newly Appointed Administrators. Charles Lowder, director of Certified Personnel, recognized the following newly appointed administrators: (1) Leroy Hamilton, assistant principal, North Caddo High School, and (2) Keith Burton, chief academic officer.

VISITORS

Samantha Douglas, expressed her support for charter schools and shared the progress her son has made in a charter school. She encouraged the Board to give charter schools a chance in Caddo.

Pastor Buck Magee, parent and supporter of public schools, encouraged the Board to strongly consider approving the charter applications submitted by EdFuture and Pathways in Education, because he believes this type program for boys in Caddo Parish is very much needed.
Michael Henderson, newly elected president of the Parent Teacher Cooperative (PTC) of Magnolia Charter, shared with the Board that his children are currently students at Magnolia Charter. In his appeal to the fathers to be visible and to help, he applauded the positive response from the Dads at Magnolia. He also appealed to the Board to support new charters and give parents a choice and the opportunity to be a part of their children’s education.

Billy Wayne shared with the Board the overwhelming results of providing extended learning time (ELT) activities for students in Caddo Parish since his retirement from Caddo Schools in 2006. He said the after-school, Saturday, and summer programs have won the respect of educators, church and community leaders, political officials and the Department of Education as a result of student achievement through these programs. While there are pros and cons with the effectiveness of charter schools, there is no denial that these programs are a reality; but he questions the practicality of spending hundreds of thousands of taxpayer dollars to start charter programs which will produce at best about two hours of change in a regular school day and continue to allow the children to serve as pawns in the education test data that charters create, not to mention community division. Mr. Wayne said after listening to the charter presentations on Monday, he noted that better than 50% of the proposed charter program activities by the various applicants can be addressed not merely through a charter school program, but through a well-designed extended day learning program as well. He said these programs also serve as a catalyst for learning during the regular school day and will not require students to be displaced from their communities. He asked that the Board improve and enhance learning and achievement at every Caddo school through contracting with Extended Learning Time providers that have shown to be a proven commodity.

Doc Voorhies welcomed the new superintendent and challenged the Board, and everyone involved in the education system, with this new beginning, to support and demonstrate the fact that we are much stronger together.

Maureen Barclay, teacher at Captain Shreve High School, shared research during her pursuit of National Board Certification on teacher workloads based on research for Best Practices and Instruction, and the limit of 80 minutes per secondary teacher in English Language Arts and no more than 20 students per class. Investing in smaller classes and fewer classes each day for teachers and more work time for teachers to plan what they teach and to evaluate each student’s work. She noted the new staffing formula eliminated eight teaching positions at Captain Shreve and created numerous situations as a result of losing much needed planning time. She also noted what the teachers have done at each school to lessen the negative impact these changes have made on both teachers and students, but encouraged the Board to consider new ideas, i.e. ask teachers for solutions to restoring planning times.

Jon Glover, employee, asked if the Board has ever sat in solitude wondering how the School System reached its current pinnacle, why the Caddo Public School System is failing, and how outside sources can accomplish what the public schools cannot. Knowing that the discontent that exists in Caddo with the present state of the system, she understands how warnings were dismissed. She noted the warnings and that no amount of excuses can change the fact that the system is drowning, yet no attention was given to the warnings. Ms. Glover noted excerpts from the February 5, 2008 CPSB meeting where Paul Pastorek began pointing out what would transpire because of the unwillingness to address the concerns of the children attending Bethune Academy at that time. She said the wording that leant itself to say that we have disadvantaged a generation of children was a shock to her, and asked if that is why we are now being bombarded with the charter school concept. Ms. Glover asked the Board how does this make them feel, why didn’t the Board do something different to address the concerns that caused schools to be labeled academically unacceptable, what solutions will the Board offer to address these ongoing concerns, and who should the people look to for addressing their concerns. She asked if being forced via the RSD to contract with service providers to oversee four Caddo schools addresses
the needs of Caddo’s students, and has the public lost faith in the public school system? Ms. Glover noted the Board’s action to employ a competent and skilled individual to spearhead the District; and she believes if he is allowed the latitude to address the issues of the school system, a new and innovative Caddo Parish School System could emerge. She reminded the Board that we owe it to every child to ensure that education is available; and she believes if needed change is accepted, the end result will produce well-educated students.

Jackie Lansdale, president of the Red River United, stated that the Board last Spring made the decision to cut teaching positions while keeping the block schedule in place. She stated it was also written into Policy GCA the stipulation for 225 minutes of planning per week, and it was done with the assurance of Central Office staff and legal counsel that cutting positions, keeping the block schedule, and ensuring the planning time could all be accomplished simultaneously. Mrs. Lansdale said shortly following this action, she reported the RRU began receiving calls regarding the issues with staffing and scheduling and when school started, teachers at five schools were not being providing the 225 minutes of planning. After researching, she stated that the grievance policy was followed with the hope that it could be resolved at the lowest level possible. With the lack of planning time deeply impacting students and successful teaching, it was hoped that the Board would act expeditiously. Unfortunately, she stated that administration at every level refused to resolve the issue which she believes is understandable since it was the staff that sold the idea to the Board. She noted the testimonies at the work session from teachers affected, the concern that the Board has compromised academic achievement and ways teachers have seen students affected. Mrs. Lansdale reported that the RRU has done its due diligence and suggested that the seven-period day be implemented in January. She added that knowing there would be an issue of ½ credit, they talked to BESE about offering that ½ credit for those who wanted or needed it via independent study, and they received positive feedback on this. She also noted the cost of the numbers of substitutes in teaching positions in the affected schools compared to the average teacher’s salary and when subtracting the difference, she believes every eliminated position could have been put back into place. Mrs. Lansdale also noted their suggestion to compensate teachers for added instruction and the response from staff of how teachers were to handle added instruction/activities. She asked the Board for the assurance that every teacher will receive a minimum of 45 minutes of planning every day, that the Board will not include the professional time policy for arrival and dismissal (15 minutes before instruction and 15 minutes after) as part of the planning minutes, that integrity and fidelity will be in the process, that the Board will comply with its own policies and laws, and that there will be consultation with them before employee policies are added or altered. Mrs. Lansdale reminded the Board that if there is not resolution before the Level IV grievance on Wednesday, the next stop is the Board; and they are not attempting to see who will win or lose, but only to provide the opportunity of a quality public education to every boy and girl in the district.

**ESTABLISH THE AGENDA AND PROPOSED CONSENT AGENDA**

Superintendent Goree highlighted items for the Board’s consideration and the following discussion ensued. President Ramsey noted that 8.04 “Sale of Hamilton Terrace” is pulled because no bids were received, 8.12 “Approval of Board Participation in Class Action Lawsuit” is pulled for further review, and Items 6.02, 8.01, 8.03, 8.05-8.07, 8.09, 8.11 and 13.01 are recommended as the consent agenda.

Ms. Priest moved, seconded by Mrs. Bell, to establish the agenda and proposed consent agenda as presented. Vote on the motion carried.

Mr. Pierson moved, seconded by Mrs. Armstrong, to confirm the consent agenda as submitted. Vote on the motion carried unanimously. The following is a summary of the action taken by the Board in approving the consent agenda items.
Item No. 6

6.02 Personnel Transactions Reports. The board approved the personnel transactions report for the period of November 1, 2013 through November 22, 2013 as submitted in the mailout.

Item No. 8

8.01 VISA Sponsorships/CODIFIL Teachers. The board approved sponsoring VISAs, which requires covering the cost of applications and extensions for foreign associate and Codifil teachers.

8.03 Change January 21, 2014 CPSB Meeting Date to January 28, 2014. The board approved changing the January 21, 2014 CPSB meeting date to January 28, 2014 to accommodate Board members attendance at the LSBA Annual Convention.

8.05 Audit Committee Recommendations. The board approved the recommendations from the CPSB Audit Committee as submitted in the mailout. The report of the Audit Committee is a part of the permanent file for the December 17, 2013 CPSB meeting.

8.06 Revision to Board Travel Budget. The board approved to increase the Board travel budget by $15,000.

8.07 Long Term Use of Lakeshore Gymnasium. The board approved the request for long-term use of the Lakeshore gymnasium as recommended by staff and submitted in the mailout.

8.09 Out of State Travel. The board approved requests for out of state travel (funded from the General Fund) as recommended by staff and submitted in the mailout.

8.11 Revision to 2013-14 Caddo Parish Pupil Progression Plan. The board approved the revision to the 2013-14 Caddo Parish Pupil Progression Plan as recommended by staff and submitted in the mailout.

Item No. 13

13.01 Student Readmission Appeal Hearings. The board approved staff’s recommendation for students JR, DA, HM, MBC and SJ whose parents are in agreement.

PROPOSED REVISION TO CPSB POLICY GCA (STAFFING)

Mr. Abrams clarified that the actual revised Policy GCA includes the planning time, which is incorrect, and the double ** should be eliminated as there will no longer be 90 minutes planning every other day. He also explained that this policy never included planning time because it is a staffing formula policy; and the proposed seven-period day will include a daily planning time.

Mr. Rachal moved, seconded by Mr. Hooks, to approve the seven-period day for high schools, that the ** paragraph referencing the planning time be eliminated, and that CPSB Policy GCA (Staffing Formula) be revised accordingly as submitted in the mailout.

Mrs. Crawley asked Superintendent Goree about taking out the 45-minute planning period, because she believes if something is not in writing, it should at least be on record verbally so that the teachers understand this change will not eliminate their daily planning time. She asked if each teacher will receive a 45-minute planning period every day? Dr. Goree said that is correct and added we are committed to providing Caddo’s teachers with planning time every day.
Miss Green mentioned that the motion is for high school (grades 9-12) and asked if the 7th and 8th grades at her school(s) will remain as it is? Dr. Goree explained that this change is only for high schools and the 7th and 8th grades are already on a traditional schedule. Miss Green asked if students will be hearing bells every 15 minutes, and Dr. Goree explained there will still be a staggered schedule (different start times for middle and high schoolers). Miss Green noted the distraction of bells ringing that often, and Dr. Goree assured her that principals have various options in separating the middle and high school students and for only ringing bells in certain areas of the building and staff will talk to principals.

Mr. Hooks stated his appreciation for Dr. Goree’s confirmation; however he is concerned because he conducted a survey and it appears we only need 28.5 teachers, and asked if those teachers can be hired at the start of the second semester. Dr. Goree responded that staff is looking at different ways the problem can be remedied and is committed to providing as many options as possible for the schools in these difficult situations. When looking at this from a staffing perspective and adding teachers, staff can run into some serious certification problems since it is high school; and at this time, Dr. Goree stated we cannot make a commitment with the staffing, but staff will continue to look at this and offer as many options and support as possible.

Mr. Rachal stated the Board put the block schedule in place because it was believed it would be what was best for children; and despite the issues when transitioning to the block, he believes, for the most part, it was what was best. At this point, and due to the mandates from the State Department, the required additional payments in retirement benefits, the State is bleeding the school system dry; and noted they put things in place with a promise to help pay for it, yet they changed and are not helping financially with mandates. As a school district, Mr. Rachal noted that even though the State discontinued funding, we have been required to provide the funding; and he believes if it weren’t for the state financial mandates, Caddo could possibly keep the block schedule. He encouraged everyone to contact their Legislator because they have indicated they want to hear from the people and not the local school board.

Mrs. Armstrong echoed Mr. Rachal’s comments; and while she realizes the modified A/B block is far from perfect relative to planning time as well as students, she believes the board needs to remember the opportunities it afforded students for extra credits and to make up credits for those students who have fallen behind.

Vote on the motion carried with Board member Armstrong opposed.

REVIEW/RECOMMENDATIONS/APPROVAL OF CHARTER SCHOOL APPLICATIONS

Jon Glover asked who recalls what the Trojan Horse represented to the City of Troy and stated that for more than 10 years, the Greeks seized Troy, but the Trojans would not surrender; and while there were strong, high walls around the City of Troy, no enemy could enter the City when the gates were closed, so the Greeks built the huge wooden horse on a platform with wheels. Greek warriors hid in the horse and when the gates were opened, they brought in the horse unaware of what they would receive. Ms. Glover asked if that is what happened in Caddo Parish? Caddo was warned about potential takeover, we did nothing to offset it and now there are applicants requesting charter schools saying they can provide the services to educate the children. She said she attended the public hearing where the Greek Army (charters) were welcomed and they offered their proposals to the public and the Board; however, she was surprised when everyone was refused the opportunity to question the applicants (censorship), and asked does she not have the right to question the applicants with regard to their presentation. She asked if she was just to believe that each applicant’s objective was to provide equal education resources for all students of Caddo Parish or were the applicants deliberately targeting a specific kind of student. She added every child is entitled to a public education; and when it appears the
local public educational system is being threatened, she believes we need to take time to
determine why that is so. She believes in 2013, Caddo continues to address the same issues and
that is whether or not every child in Caddo Parish is able to acquire an education. The Board has
an awesome responsibility, and she encouraged the Board to choose wisely because the Board’s
decision will affect the lives of Caddo Parish’s students, and to no longer accept strategies that
promote deception.

Mr. Riall moved, seconded by Mrs. Armstrong to accept the report of the third party reviewer,
New Millennium Education, and deny the charter applications of the following: (1) Destined for
Greatness University Academy (Project R.E.F.R.E.S.H.); (2) The Earth Planet Charter School
(Saving the Planet by Going Green); and (3) The Red River Charter Academy and Caddo
Charter Academy (NHA). Mr. Hooks asked for a point of understanding and if he is correct to
say that if the Board votes against these applications, they can present their application to BESE
and BESE could approve them. Mr. Ramsey responded that is correct, it is a possibility. Mrs.
Armstrong said she believes the Board agreed by hiring the Third Party Reviewer required by the
State and the need to follow some of their recommendations, of which this is one. Mr. Hooks
asked has he not said since being on the Board that charter schools were coming to Caddo; and if
we do not let them in, the State will. He asked Mr. Abrams if the Board’s hands are tied, and
Mr. Abrams said no and further explained that the Board hired a third party reviewer and the
Reviewer has made recommendations which basically recommend the denial of these
applications based upon the information within the report. If the charter operator decides they
wish to go to BESE, they must present the same information, which we believe will end in a
denial by BESE also. Mr. Abrams further stated that based on the report, it is believed that the
information is inadequate and that BESE will make that same determination. Mr. Rachal again
stated that it is the State that has given the district guidelines we must follow with these
applications and that included bringing in a third party reviewer; and he believes Caddo was
fortunate to have a company that has the experience and background in this area. Vote on the
motion carried unanimously.

Mr. Riall moved, seconded by Mrs. Armstrong, to accept the report of the third party reviewer,
New Millennium Education, and approve with the conditions in the report the charter
application of Shreveport Charter Academy, Charter Schools USA. Ms. Williams confirmed that
the conditions in the report, confirmed with the Caddo Parish staff, are: (1) the school must
achieve a minimum of a C letter grade for the 2013-14 school year. This grade may be assessed
using preliminary data released in the spring before actual letter grades are released. (2) The
current school (Magnolia) shall not have any “deficiencies” in operation for the school year
2013-2014 (operation shall include at risk percentages, finances, Special Ed, transportation,
food service and any other services owed to or performed by the Caddo Parish School System).
(3) The (new) school will not open if the enrollment at Magnolia is less than 90% of the school’s
anticipated enrollment for the year prior to the school’s opening (2014-2015).

Mr. Riall asked if “deficiencies” in the second condition include finances, and Ms. Williams
confirmed that it does.

Mrs. Crawley asked Mr. Abrams if we are saying they do not have to meet the contract
guidelines of 63% socioeconomic, free and reduced lunch? Ms. Williams stated that is
encompassed in Condition No. 2, and Mrs. Crawley indicated that this is something she would
like to be in writing. She added she was impressed with the parents, their participation and
commitment to Magnolia, but she believes this school is still in its infancy and it is premature to
grant them another school. Mr. Pierson asked if school year means the end of the school in May,
2014 and Ms. Williams confirmed it does.

Mr. Rachal asked staff how many years did we request from the State, when reconstituting one
of the District’s schools, before receiving a grade? Staff responded three years. Mr. Rachal
stated his agreement with Mrs. Crawley’s comments, and understands if we approve the application, the charter will be under the local district’s management; however, if the Board denies the application, and BESE approves the application, then it will be under BESE’s management and the local district has no say-so in it. With that in mind, Mr. Rachal explained his vote will be “will we be able to manage and control it”? Based on this, he questions giving them (Magnolia) one year to attain a “C” grade and Caddo requested from the State three years before receiving a letter grade. Ms. Williams stated that even though the local district requested three years before receiving a letter grade, the State issues a score after one year even though it may not count in the your AUS ranking. Mr. Rachal asked if there is a baseline, and Ms. Williams said there is not, but they will give, specifically with Type 1 charters, a letter grade measured across the district as a whole. Mr. Rachal said he knows if the Caddo Board does not support the application, BESE will support it. Mr. Ramsey reminded the Board members that these are not turnaround schools, but they are new schools. Miss Green also stated her belief that all the charters brought great ideas to the table; however, charters with her and those in her community leave a bad taste in their mouths.

Mrs. Bell stated her concern is if charters are supposed to be the answer for public education, she believes we should ask for an A rating; and at this time, she feels we should let the state come in and perform a miracle. She said she believes a new public school is needed and not a charter.

Mr. Hooks asked for clarification of Mrs. Crawley’s statement that the conditions are not in writing? Ms. Williams explained that the conditions are listed in the report and Condition No. 2 should be placed in the motion to indicate that “operational” includes at risk percentage, finances, special ed, transportation, food service and any other services owed to or performed by the Caddo Parish School System. Mr. Hooks asked if Ms. Priest received answers to the questions asked at the work session on Monday? Ms. Williams responded that these are included in the document and are answered under the application highlights, with the exception of the answer she received five minutes before the meeting relative to the question and paraphrase of the response indicating that the Shreveport Charter Academy could not respond to the audit of the Lake Charles Charter School and the board could reach out to the attorney for the Lake Charles charter, but the concerns do not seem to be a problem any longer. Mr. Hooks stated he feels as if he is being bullied into this vote.

Ms. Trammel moved, seconded by Mr. Riall, to call for the question. Vote on the motion to end debate carried with Board member Crawley opposed.

Vote on the main motion carried with Board members Green, Crawley and Bell opposed.

Mr. Riall moved, seconded by Mrs. Armstrong, to accept the report of the third party reviewer, New Millenium Academy, and approve with the conditions in the report, the charter application of LL Brandon Academy of Arts & Technology Charter (EdFutures, Inc.), with the conditions being (1) that the board must identify a school leader who can articulate a solid plan for academic and teacher performance. This leader will ensure the success of the plan presented and the integrity of implementation. The board should present a school leader candidate for review to the CPSB charter team/reviewer no later than March of 2014 to open in 2014. (2) A location for the school must be identified along with a budget for renovations. The applicant is relying heavily on a district building that has not been granted to them by the board or the superintendent. The applicant has identified a secondary location behind the church, however, it has not been determined whether this facility is acceptable for use as a school location or whether renovations can be made to ensure a timely opening in 2014, and (3) The applicant shall provide an updated financially sound budget, including renovations, donations and accounting for funding not received from EdFuture.
Mr. Riall referenced Mr. Hooks’ statement that the Board knew charter schools were coming to Caddo, but he asked them to remember if we do not approve charters, they will present their applications to BESE who will approve them and then they will be totally out from under Caddo’s control. Miss Green called a Point of Order and she believes the speaker is to be making the motion. President Ramsey denied the Point of Order as Mr. Riall had read his motion, there is a second to the motion, and he is addressing his motion.

Mrs. Armstrong stated this is another case of where the Board must make a difficult decision; and she believes this proposal is the best we can do for the District in these situations. Ms. Trammel asked about the three conditions and the non-inclusion of operational deficiencies. Ms. Williams explained the conditions do not include the operational deficiencies because the school is not currently operating, but they will have to present a sound financial statement and talk about shared services during the contract phase, all which are included in the application.

Mrs. Crawley referenced a recent article that advised investors to be sure charter schools were in their portfolios because it is the fastest growing business in the country. She also stated it is commercializing and privatizing with public tax dollars, and she doesn’t care if the state takes them. Mr. Rachal referenced the March timeline and the fact that the Board must respond to the state in a couple of weeks relative to these applications. Ms. Williams explained that following this meeting, they will present a report to present to the State outlining conditions approved for each applicant since they are opening under the Caddo District’s auspices. Mr. Rachal asked about the application with the conditions and he would like for this to come back to the Board with the applicant’s response. Mr. Abrams reminded the Board of the timeline where Caddo must let them know the decision made. Mr. Rachal said he is asking for the responses due back to Ms. Williams in March. Ms. Williams explained that in her conversation with the leadership, they have indicated they would like Dr. Goree to be involved in their leadership selection, and Dr. Goree will be able to report back to the Board the acceptance or denial of leaders chosen for a particular school. Mr. Rachal asked about the other two stipulations re: finances, etc. and he does not want to approve anything without seeing their response. Mr. Rachal asked if the Board has the ability to accept or deny this. Ms. Williams said at this time they have met the standards and are a “go”, and the Board does not get to revote in March, but she will come to the Board and report they have or have not met all the terms. Mr. Rachal asked Dr. Goree about his experience with charter schools in Texas. Dr. Goree stated that he has worked very closely with the Board’s attorney and third party provider and he believes conditions are in place that will produce a quality product; and whether we agree or disagree, it is an opportunity to provide choice to families which is something the state is committed to do. He reminded the Board that it must insure that everything is done decent and in order and that the charter meets specific standards. He reported he has seen charter schools succeed, and he has seen them not succeed; and it will depend on the school. Mr. Rachal reiterated Mrs. Armstrong’s comments and that the charter is the lesser of two evils; and whether or not the State or Caddo issues the charter, if it goes to someone else, it will not be good for the District.

Mr. Pierson reminded everyone that this gives Caddo the oversight and when approving something conditionally, it means if the conditions are not met, it is not approved.

Mrs. Bell stated that school ends in May and asked if they want to open in 2014, will Dr. Goree select the charter school person? Ms. Williams said that because they wish to be partners with the Caddo Parish School Board, they feel it to be critical that the Caddo Superintendent is a part of their leader evaluation. As they are selecting a leader, they want Dr. Goree’s team to be at the table with them. Dr. Goree explained that one of the concerns was if staff would have the opportunity to approve the principal of the school because if the staff was not satisfied about the selection (made by the charter school), then the school would not meet one of the conditions and could not move forward. Mrs. Bell asked if providers are asked to get a school in order for 2014, what happens if a building is not ready for the start of school in August? Ms. Williams said she
has not visited the nursing home (building proposed), so she is unable to give the Board any affirmation that the building will be ready; but to give the Board the security it needs, she believes this condition is needed so if the building is not ready for the start of school in August, they cannot move forward. Mrs. Bell asked Ms. Williams about meeting the money, budget, building and renovations for the 240 students they want for the 2014-15 school year. Ms. Williams explained that if they have not met the conditions by March 2014, she would report to the Caddo Parish School Board that they have not met the conditions set forth by the CPSB and therefore they should not be allowed to open. At that time, the Board would take action to not allow them to open; however at this time, Ms. Williams reported they have given assurance that they will meet the conditions by the March 2014 deadline.

Mr. Riall moved, seconded by Mr. Hooks, to call for the question. Vote on the motion to end debate carried with Mrs. Crawley opposed.

Vote on the motion relative to the LL Brandon Charter application carried with Board members Green, Crawley and Bell opposed.

Mr. Riall moved, seconded by Mrs. Bell, to accept the report of the third party reviewer, New Millenium Education, to approve the charter application of Pathways in Education. Mr. Riall said he believes the Board has asked every question possible relative to charters. Mrs. Bell said she has researched Pathways and believes this could be the answer to the overage and drop-out students. Vote on the motion carried with Board members Green and Crawley opposed.

AUTHORIZATION TO RFP FOR LEGAL SERVICES

Mr. Riall moved, seconded by Mr. Hooks, that the Board forgo the RFP process for legal services for the next 3 years and that the Board maintain its current legal team based on the current rates for services. Vote on the motion carried unanimously.

ELECTION OF 2014 OFFICERS

Ms. Priest moved, seconded by Mr. Riall, to approve the following slate of officers for 2014: President, Carl A. Pierson, Sr.; First Vice President, Bonita Crawford; and Second Vice President, Mary Trammel. There being no other nominations, the proposed slate of officers for 2014 was approved unanimously.

AUTHORIZE THE USE OF FACSIMILE SIGNATURE

Ms. Priest moved, seconded by Mrs. Bell, to authorize the use of a facsimile signature for President Carl Pierson. Vote on the motion carried unanimously.

SUPERINTENDENT’S REPORT

Dr. Goree reported that the collaborative efforts continue with the Recovery School District to fully execute the contract agreed upon, and he will continue to bring updates to the Board as the District progresses through the contract.

Superintendent Goree also reported that staff continues to work to offer as many options as possible to remedy the concerns relative to teachers’ planning time. He also announced his appointment of Robin DeBusk as the principal at Caddo Middle Magnet.

UNFINISHED BUSINESS
Mr. Pierson expressed appreciation to President Ramsey for his leadership during 2013, a year in which there was much going on in education and in Caddo. He also thanked the Board for their support in electing him to serve as the Board’s President during 2014.

ANNOUNCEMENTS AND REQUESTS

Mrs. Bell expressed her appreciation for all who participated in this year’s Party with a Purpose.

Mr. Hooks expressed appreciation to Dr. Mary Nash-Robinson for her service as interim superintendent and for the outstanding job she and her staff did during that time.

Ms. Trammel extended an invitation to Board members to attend the Christmas on St. Vincent Community Luncheon, 8200 St. Vincent Avenue. She also expressed her appreciation to outgoing president Larry Ramsey.

Mr. Riall noted the number of District 1 schools recognized today and the outstanding performances by each of them during the competition.

Mrs. Crawley expressed appreciation to Dr. Goree for his work toward a resolution to the concerns relative to the teachers’ planning time and asked staff to consider meeting with school officials for their input. She also stated that she knows the budget has positions that are not filled, thus she believes teachers can be hired for the second semester with those funds.

Miss Green expressed appreciation to the Board for the gifts and treats and to Ms. Edwards and Cleveland White for their assistance at her community meeting. She also shared her concern about what she hears relative to Central Office salaries, and she would like to look at this closely in the budget planning process. Miss Green asked the Superintendent for a written copy of the plan for Newton Smith.

Mr. Ramsey again expressed his appreciation for the Board’s support during 2013, as well as for the staff’s support throughout the year and the many issues the District faced.

ADJOURNMENT

Ms. Priest moved, seconded by Mrs. Armstrong, to adjourn. Vote on the motion to adjourn carried unanimously and the meeting adjourned at approximately 7:23 p.m.
